VARIANCE ANALYSIS FOR GAAP

1st Quarter 2003 Compared to 1st Quarter 2002:

Total income for the first quarter of 2003 increased \$1.4 million over the same period last year due primarily to the following changes: (1) a \$1.6 million increase in total interest income due primarily to a \$1.9 million increase in collections of interest on bonds, residual interests in bond securitizations and loans. This increase resulted from an increase in on-balance sheet assets related to securitizations and larger average notes receivable balances and was offset by a \$0.3 million decrease in interest on short-term investments resulting from funding of operations as well as lower investment yields; (2) a \$0.7 million increase in fee income due primarily to a \$1.1 million increase in other income related to prepayment fees from early payment of tax-exempt bond investments, offset by a \$0.4 million decrease in origination fees related to a decrease in the volume of permanent loan and conventional equity transactions closed during the quarter; and (3) a \$0.9 million decrease in gain on sales due primarily to: (i) a \$0.8 million decrease in the gain on sales of permanent loans caused by a decrease in the volume of permanent loans sold; (ii) a \$1.0 million gain that was recognized in first quarter of 2002 related to the restructuring of a securitization trust; offset by (iii) a \$0.8 million increase in the gain on sales of loans related to an increase in premiums on the delivery of loans to HUD and gain on sales of loans to a new conduit lender; and (iv) a \$0.1 million gain on sales of investments in partnerships.

Total expenses for the first quarter of 2003 increased \$2.9 million over the same period last year due primarily to the following changes: (1) a \$1.4 million increase in interest expense associated with an increase in financing costs related to on-balance-sheet securitizations and larger average notes payable balances outstanding during the quarter; (2) a \$1.1 million increase in salaries and benefits resulting from a \$0.3 million increase in salaries and other compensation and a \$0.9 million increase in bonus expense, offset by a \$0.1 million decrease in temporary assistance and employment advertising; and (3) a \$0.4 million increase in professional fees due primarily to a \$0.2 million increase in legal fees, a \$0.5 million increase in consulting fees and a \$0.1

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

million increase in printing expense, offset by a \$0.5 million decrease in commission expense. Commission expense is no longer incurred by the Company because the pass-through of commission income and expense has been transferred to the syndicated tax credit equity funds.

The Company also recorded net holding gains of \$2.9 million for the change in market value of the Company's derivative financial instruments, \$0.7 million of losses from equity investments in partnerships and \$0.1 million in income tax expense in the first quarter of 2003. Income tax expense decreased by \$0.9 million from the same period in 2002 primarily as a result of taxable losses generated by the investment in the CAPREIT 3M venture.

Notes

(1) For GAAP reporting, the Company records the non-cash change in fair value of its investment in interest rate swaps and other derivative financial instruments through net income. These non-cash gains and losses are not included in the Company's calculation of CAD.

(2) For GAAP reporting, the Company accounts for various investments in partnerships using the equity accounting method. As a result, the Company's allocable share of the income or loss from the partnerships is reported in income (losses) from equity investments in partnerships. The income from these partnerships includes depreciation expense and changes in the fair value of investments in derivatives. For GAAP reporting, distributions are treated as a return of capital. For CAD reporting, the Company records the cash distributions it receives from the partnerships as other income.

(3) For GAAP reporting, the Company recognizes non-cash gains and losses associated with the sale of assets or capitalization of mortgage servicing rights. The capitalized mortgage servicing rights are amortized into expense over the estimated life of the serviced loans. The non-cash gains and the associated amortization expense are not included in CAD.

(4) Origination fees and certain other income amounts are recognized as income when received for CAD purposes, but for GAAP reporting these items are deferred and amortized into income over the life of the associated investment. This adjustment represents the net difference, for the relevant period, between fees taken into income when received for CAD and the amortization of fees recorded for GAAP.

(5) For GAAP reporting, the Company records valuation allowances and other-than-temporary impairments on its investments in loans, bonds and other bond-related investments. Such non-cash charges do not affect the cash flow generated from the operation of the underlying properties, distributions to shareholders, or the tax-exempt status of the income of the financial obligation under the bonds. Therefore, these items are not included in the calculation of CAD.

(6) For GAAP reporting, the Company's income tax expense contains both a current and a deferred component. Only the Company's current income tax expense is reflected in CAD.

PAYOUT RATIO	89.0
COMMON SHARES OUTSTANDING	28,846,327
CASH DISTRIBUTION PER COMMON SHARE	\$ 0.4450

Cash Available for Distribution ("CAD") differs from net income because of variations between generally accepted accounting principles ("GAAP") income and actual cash received. There are three primary differences between CAD and GAAP income. The first is the treatment of loan origination fees, which for CAD purposes are recognized as income when received but for GAAP purposes are amortized into income over the life of the associated investment. The second difference is the non-cash gain and loss recognized for GAAP associated with valuations, sales of investments and capitalization of mortgage servicing rights, which are not included in the calculation of CAD. The third difference is the treatment of the Company's investments in partnerships. For GAAP, the Company records its allocable share of the income (loss) from the partnership as income, while for CAD reporting, the Company records the cash distributions it receives from the partnership as income. For a reconciliation of GAAP net income to CAD, see page 9.

CAD per common share is calculated based on the number of shares outstanding at the end of each quarter. For GAAP, basic net income per share is calculated based on the weighted average shares outstanding during the period. The weighted average shares outstanding for diluted net income per share include

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

the potential dilutive effect from the exercise of options, vesting of restricted shares, and provision for shares to be awarded under the Midland acquisition earn out provision.

VARIANCE ANALYSIS FOR CAD

1st Quarter 2003 Compared to 1st Quarter 2002:

Total income for the first quarter of 2003 increased \$4.6 million over the same period last year due primarily to the following changes: (1) a \$2.7 million increase in other income due primarily to: (i) a \$1.7 million increase in income from the CAPREIT investments made in the third quarter of 2002; (ii) a \$0.6 million commitment fee collected on a conventional equity deal; (iii) \$0.9 million in prepayment fees collected from the early payment of tax-exempt bond investments; and (iv) a \$0.5 million decrease in commission income; (2) a \$1.9 million increase in collections of interest on bonds, residual interests in bond securitizations and loans; (3) a \$0.9 million increase in gain on sales related to an increase in premiums on the delivery of loans to HUD and gain on sale on delivery of loans to a new conduit lender; and (4) a \$0.6 million decrease in origination and syndication fees. The \$0.4 million decrease in origination fees is due to a decrease in the volume of permanent loans and conventional equity transactions closed during the quarter. The \$0.2 million decrease in syndication fees is a result of taking \$0.5 million in organizational and offering cost reimbursements related to closed syndicated tax credit equity funds into income during the first quarter of 2002, whereas no such fees were recognized during the first quarter of 2003. This decrease was partially offset by an increase in the volume of syndications closed.

Total expenses for the first quarter increased \$2.2 million over the same period last year due primarily to the following changes: (1) a \$1.5 million increase in interest expense associated with an increase in financing costs related to on-balance-sheet securitizations and larger average notes payable balances outstanding during the quarter; (2) a \$1.1 million increase in salaries and benefits resulting from a \$0.3 million increase in salaries and other compensation and a \$0.9 million increase in bonus expense, offset by a \$0.1 million decrease in temporary assistance and employment advertising; (3) a \$1.0 million decrease in income tax expense primarily as a result of taxable losses generated by the investment in the CAPREIT 3M venture; and (4) a \$0.4 million increase in professional fees due primarily to a \$0.2 million increase in legal fees, a \$0.5 million increase in consulting fees and a \$0.1 million increase in printing expense, offset by a \$0.5 million decrease in commission expense. Commission expense is no longer incurred by the Company because the pass-through of commission income and expense has been transferred to the syndicated tax credit equity funds.

----- 25th Consecutive Increase in Dividend to Common Shares

BALTIMORE, MD, April 22, 2003 -- Municipal Mortgage & Equity, LLC (NYSE: MMA) today reported net income allocated to common shares of \$13.9 million for the quarter ended March 31, 2003, a decrease of 7% as compared to the same period in 2002. Diluted earnings per share were \$0.50 for the quarter, compared to \$0.62 for the same period in 2002.

Cash Available for Distribution ("CAD"), the primary measure of the Company's dividend paying ability, increased 16% for the quarter ended March 31, 2003 compared to the same period in 2002. CAD per common share increased 6% compared to the same period in 2002. The Board of Directors raised the quarterly dividend to common shares to \$0.4450, an increase of 2% over the same period in 2002.

MuniMae Chairman and CEO Mark K. Joseph, commenting on the results, stated, "The first quarter of every year has typically been the most difficult for us because the funding and development approvals our clients need are concentrated in the second half of the year. Given this, we are quite pleased to have increased our CAD per share 6% while raising MuniMae's dividend for the 25th consecutive quarter."

Summary Results - GAAP

The table below summarizes the Company's results for the first quarter of 2003 and the prior-year period:

	First Quarter		
	2003	2002	Change
	-----	-----	-----
Net Income (\$ millions)	\$13.9	\$15.0	-7%
Net Income Allocated to Common Shares (\$ millions)	\$13.9	\$14.9	-7%
Basic Earnings/Common Share (\$)	\$0.51	\$0.63	-19%
Diluted Earnings/Common Share (\$)	\$0.50	\$0.62	-19%

The attached condensed consolidated statements of income represent the GAAP results of operations of the Company for the three-month periods ended March 31, 2003 and 2002.

Summary Results - CAD

For the first quarter of 2003, CAD was \$17.4 million and CAD to common shares was \$14.4 million. The 2003 first quarter per share distribution to common shareholders of \$0.4450 represents a payout ratio of 89%. (The Company uses CAD as the primary measure of its current earnings and, consequently, its distribution-paying ability. CAD differs from net income because of variations between GAAP income and actual cash received. These variations are described in the note to the attached calculation of CAD statement.)

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

	First Quarter		
	2003	2002	Change
Total CAD (\$ millions)	\$17.4	\$15.0	16%
CAD to Common (\$ millions)	14.4	11.8	22%
CAD per Common Share (\$)	0.50	0.47	6%

A reconciliation of GAAP net income allocated to common shares to CAD to common shares is attached.

First Quarter Distribution

MuniMae's first quarter distribution to common shareholders of \$0.4450 annualizes to \$1.78 per share. Based on yesterday's closing share price of \$24.63, MuniMae common shares have an annualized yield to shareholders of 7.2%. Assuming the Company's income during the year is 85% exempt from Federal income tax, and assuming a 38.6% tax bracket, the taxable equivalent yield, absent the impact of capital gains, would be 11.1%.

About the Company

MuniMae and its subsidiaries originate, service and asset manage investments in multifamily debt and equity for its own account and on behalf of others. Assets under management total \$3.6 billion secured by 910 properties and 97,624 units in 48 states and the U.S. Virgin Islands. For its proprietary accounts, MuniMae primarily holds tax-exempt multifamily housing bonds. This on-balance sheet portfolio of tax-exempt bonds is secured by 145 properties containing 35,382 units in 27 states. For a portion of bonds, MuniMae participates in the performance of the underlying properties.

MuniMae is organized as a limited liability company. This structure allows MuniMae to combine the limited liability, governance and management characteristics of a corporation with the pass-through income features of a partnership. As a result, the tax-exempt income derived from certain investments remains tax-exempt when passed through to shareholders. Distributions to shareholders are declared quarterly and paid in February, May, August and November.

The calculation of Cash Available for Distribution is the basis for the determination of the Company's quarterly distributions to common shares, is used by securities analysts, and is presented as a supplemental measure of the Company's performance. The calculation is not approved by the Securities and Exchange Commission nor is it required by GAAP and should not be considered as an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flows as a measure of liquidity. The Company believes that Cash Available for Distribution provides relevant information about its operations and is necessary, along with net income, for understanding its operating results.

This press release contains statements which are forward looking in nature and reflect management's current views with respect to future events and financial performance. These statements are subject to many uncertainties and risks and should not be considered guarantees of future performance. Actual results may vary materially from projected results based on a number of factors, including

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

the actual performance of the properties pledged as collateral for the portfolio, general conditions in the local real estate markets in which the properties are located and prevailing interest rates.

	=====	=====

Notes

(1) For GAAP reporting, the Company records the non-cash change in fair value of its investment in interest rate swaps and other derivative financial instruments through net income. These non-cash gains and losses are not included in the Company's calculation of CAD.

(2) For GAAP reporting, the Company accounts for various investments in partnerships using the equity accounting method. As a result, the Company's allocable share of the income or loss from the partnerships is reported in income (losses) from equity investments in partnerships. The income from these partnerships includes depreciation expense and changes in the fair value of investments in derivatives. For GAAP reporting, distributions are treated as a return of capital. For CAD reporting, the Company records the cash distributions it receives from the partnerships as other income.

(3) For GAAP reporting, the Company recognizes non-cash gains and losses associated with the sale of assets or capitalization of mortgage servicing rights. The capitalized mortgage servicing rights are amortized into expense over the estimated life of the serviced loans. The non-cash gains and the associated amortization expense are not included in CAD.

(4) Origination fees and certain other income amounts are recognized as income when received for CAD purposes, but for GAAP reporting these items are deferred and amortized into income over the life of the associated investment. This adjustment represents the net difference, for the relevant period, between fees taken into income when received for CAD and the amortization of fees recorded for GAAP.

(5) For GAAP reporting, the Company records valuation allowances and other-than-temporary impairments on its investments in loans, bonds and other

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

bond-related investments. Such non-cash charges do not affect the cash flow generated from the operation of the underlying properties, distributions to shareholders, or the tax-exempt status of the income of the financial obligation under the bonds. Therefore, these items are not included in the calculation of CAD.

(6) For GAAP reporting, the Company's income tax expense contains both a current and a deferred component. Only the Company's current income tax expense is reflected in CAD.

COMMON SHARES OUTSTANDING		28,846,327
CASH DISTRIBUTION PER COMMON SHARE	\$	0.4450

CAD differs from net income because of variations between GAAP income and actual cash received. There are three primary differences between CAD and GAAP income. The first is the treatment of loan origination fees, which for CAD purposes are recognized as income when received but for GAAP purposes are amortized into income over the life of the associated investment. The second difference is the non-cash gain and loss recognized for GAAP associated with valuations, sales of investments and capitalization of mortgage servicing rights, which are not included in the calculation of CAD. The third difference is the treatment of the Company's investments in partnerships. For GAAP, the Company records its allocable share of the income (loss) from the partnership as income, while for CAD reporting, the Company records the cash distributions it receives from the partnership as income.

CAD per common share is calculated based on the number of shares outstanding at the end of each quarter. For GAAP, basic net income per share is calculated based on the weighted average shares outstanding during the period. The weighted average shares outstanding for diluted net income per share include the potential dilutive effect from the exercise of options, vesting of restricted shares, and provision for shares to be awarded under the Midland acquisition earn out provision.

MuniMae Structures \$154 Million of Multifamily Financing And Raises \$107 Million in Capital During First Quarter

BALTIMORE, MD, April 22, 2003 -- Municipal Mortgage & Equity, LLC (NYSE: MMA), announced today that it structured \$154 million of financing for multifamily housing during the first quarter of 2003. In addition, the Company raised \$35 million in tax credit equity and, as previously announced, \$72 million in common equity.

Mark K. Joseph, Chairman of the Board and CEO of MuniMae commented, "The equity markets continue to be supportive of our business. We are appreciative that so many parties have entrusted their equity funds with MuniMae. Our \$154 million of origination volume gives us a good start for 2003."

Mr. Joseph added, "As in past years, we expect production to be back-end loaded with our output ramping up over the next three quarters to meet our 2003 goal of \$1.5 billion. This follows the affordable housing development cycle where tax credits, state loans and tax-exempt bonds are usually awarded mid to late in the year. As these allocations are awarded to our clients over the course of the year, MuniMae will be there to serve their debt and equity needs."

Investment Activity Summary -----

Highlights of first quarter 2003 origination activity include:

		First Quarter Volume (in millions)

Taxable Construction/Permanent Lending	\$	75.8
Tax-exempt Bonds Construction/Permanent		32.1
Supplemental Loans		16.8
Equity Investments		29.1

Total		\$153.8

=====

Capital Raising Activity Summary

In the first quarter of 2003, the Company participated in two capital raising transactions. First, a common equity offering raised net proceeds of \$72 million, including the underwriters' over-allotment option, for future investment opportunities. Second, the Company raised \$35 million of tax credit equity, representing a 9% increase over the same period in 2002, from four third-party investors.

About the Company

MuniMae and its subsidiaries originate, service and asset manage investments in multifamily debt and equity for its own account and on behalf of others. Assets under management total \$3.6 billion secured by 910 properties and 97,624 units in 48 states and the US Virgin Islands. For its proprietary accounts, MuniMae primarily holds tax-exempt multifamily housing bonds. This on-balance sheet portfolio of tax-exempt bonds is secured by 145 properties containing 35,382 units in 27 states. MuniMae participates, for a portion of the bonds, in the performance of the underlying properties.

MuniMae is organized as a limited liability company, which makes it exempt from tax at the corporate level and provides the benefit of corporate governance. In addition, the Company passes through to its shareholders primarily tax-exempt dividends, which are generated by its municipal bond investments. Dividends to shareholders are declared quarterly and paid in February, May, August and November.

This press release contains statements which are forward looking in nature and reflect management's current views with respect to future events and financial performance. These statements are subject to many uncertainties and risks and should not be considered guarantees of future performance. Actual results may vary materially from projected results based on a number of factors, including the actual performance of the properties pledged as collateral for the portfolio, general conditions in the local real estate markets in which the properties are located and prevailing interest rates.
