### **NOTE 1 OVERVIEW**

Forward Industries, Inc. ("Forward" or the "Company") was incorporated under the laws of the State of New York and began operations in 1961 as a manufacturer and distributor of specialty and promotional products. The Company designs, markets, and distributes carry and protective solutions, primarily for hand held electronic devices. The Company's principal customer market is original equipment manufacturers, or "OEMs" (or the contract manufacturing firms of these OEM customers), that either package their products as accessories "in box" together with their branded product offerings, or sell them through their retail distribution channels. The Company's OEM products include carrying cases and other accessories for medical monitoring and diagnostic kits and a variety of other portable electronic and non-electronic products (such as sporting & recreational products, bar code scanners, smartphones, GPS location devices, tablets, and firearms). The Company's OEM customers are located in the Americas, the EMEA Region, and the APAC Region. The Company does not manufacture any of its OEM products and sources substantially all of its OEM products from independent suppliers in China (refer to Note 8 – Buying Agency and Supply Agreement).

On June 21, 2012, the Company determined to exit its global retail business and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. The Retail business is presented as discontinued operations.

On December 30, 2014, the Company held its 2014 annual meeting of shareholders (the "2014 Annual Meeting") primarily for the purpose of electing either a slate of directors proposed by the then-incumbent board of directors or a slate of directors proposed by Terence Bernard Wise, a director and significant shareholder in the Company at the time. At the 2014 Annual Meeting, the Company's shareholders voted for the election of the slate of directors proposed by Mr. Wise, which resulted in the turnover of a majority of the Company's directors.

In the opinion of management, the accompanying condensed consolidated financial statements presented in this Quarterly Report on Form 10-Q reflect all normal recurring adjustments necessary to present fairly the financial position and results of operations and cash flows for the interim periods presented herein, but are not necessarily indicative of the results of operations for the year ending September 30, 2015. These condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements included in its

Annual Report on Form 10-K for the fiscal year ended September 30, 2014, and with the disclosures and risk factors presented herein and therein, respectively. The September 30, 2014 condensed consolidated balance sheet has been derived from the audited consolidated financial statements.

NOTE 2 ACCOUNTING POLICIES
Accounting Estimates
The preparation of the Company's condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.
Basis of Presentation
The accompanying condensed consolidated financial statements include the accounts of Forward Industries, Inc. and its wholly owned subsidiaries (Forward US, Forward Switzerland, Forward HK (inactive) and Forward UK (inactive)). All significant intercompany transactions and balances have been eliminated in consolidation.
Reclassifications
Certain prior period amounts have been reclassified to conform to the current period presentation.

FORWARD INDUSTRIES, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
NOTE 2 ACCOUNTING POLICIES (CONTINUED)
Income Taxes
The Company accounts for its income taxes in accordance with U.S. GAAP, which requires, among other things, recognition of future tax benefits and liabilities measured at enacted rates attributable to temporary differences between financial statement and income tax bases of assets and liabilities and to net tax operating loss carry-forwards to the extent that realization of these benefits is more likely than not. As of June 30, 2015, there was no change to our assessment that a full valuation allowance was required against all net deferred tax assets. Accordingly, any deferred tax provision was offset by an equal and opposite change to the valuation allowance.
6% Senior Convertible Preferred Stock
Temporary Equity
The 6% Senior Convertible Preferred Stock was classified as temporary equity in accordance with Accounting Standards Codification ("ASC") 480-10-s99 - Distinguishing Liabilities from Equity – Overall – SEC Materials and Accounting Series Release ("ASR") 268 – Presentation in Financial Statements of "Redeemable Preferred Stock", as the redemption feature was not solely within the control of the Company.
Warrants

In accordance with ASC 815-40 – Derivatives and Hedging – Contracts in Entity's Own Equity, the Company's warrants were initially classified as a liability, at fair value, as a result of a related registration rights agreement that contained certain requirements for registering the underlying common shares, but had no provision for penalties upon the failure

to register. At each balance sheet date, this liability's fair value was re-measured and adjusted with the corresponding change in fair value recorded in the condensed consolidated statements of operations and comprehensive (loss) income. As of March 31, 2014, the underlying shares were registered and the liability was marked-to-the-market and reclassified to equity.

Preferred Stock Accretion

As of the issuance date, the carrying amount of the convertible preferred stock was less than the redemption value. As a result of the Company's determination that redemption was probable (See Note 4 – Shareholders' Equity – 6% Senior Convertible Preferred Stock and Warrants), the carrying value was increased by periodic accretions so that the carrying value would equal the redemption amount at the earliest redemption date. Such accretion is recorded as a preferred stock dividend.

Revenue Recognition

The Company generally recognizes revenue from product sales to its customers when: (1) title and risk of loss are transferred (in general, these conditions occur at either point of shipment or point of destination, depending on the terms of sale); (2) persuasive evidence of an arrangement exists; (3) the Company has no continuing obligations to the customer; and (4) collection of the related accounts receivable is reasonably assured.

Share-Based Payment Expense

The Company recognizes employee and director share-based compensation in its condensed consolidated statements of operations and comprehensive (loss) income at the grant-date fair value of stock options and other equity-based compensation. The determination of stock option grant-date fair value is estimated using the Black-Scholes option-pricing model, which includes variables such as the expected volatility of the Company's share price, the exercise behavior of its grantees, interest rates, and dividend yields. These variables are projected based on the Company's historical data, experience, and other factors. In the case of awards with multiple vesting periods, the Company has elected to use the graded vesting attribution method, which recognizes compensation cost on a straight-line basis over each separately vesting portion of the award as if the award was, in-substance, multiple awards. Refer to Note 5 – Share Based Compensation. In addition, the Company recognizes share-based compensation to non-employees based upon the fair value, using the Black-Scholes option pricing model, determined at the deemed measurement dates over the related contract service period.

### **NOTE 2 ACCOUNTING POLICIES (CONTINUED)**

**Recent Accounting Pronouncements** 

In July 2013, the Financial Accounting Standards Board ("FASB") issued ASU 2013-11, "Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists." This ASU addresses the requirements regarding the financial statement presentation of an unrecognized tax benefit within ASC Topic 740 for the purpose of providing consistency between the financial reporting of U.S. GAAP entities. Generally, this ASU provides guidance for the preparation of financial statements and disclosures when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. This ASU is effective for annual periods and interim periods within those annual periods beginning after December 15, 2013 and did not have a material impact on the Company's condensed consolidated financial statements or disclosures.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," ("ASU 2014-09"). ASU 2014-09 supersedes the revenue recognition requirements in Accounting Standards Codification ("ASC") 605 - Revenue Recognition and most industry-specific guidance throughout the ASC. The standard requires that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. ASU 2014-09 was further amended in July 2015 and is effective for annual periods and interim periods within those annual periods beginning after December 15, 2017 and should be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. The Company is currently evaluating the impact of the adoption of ASU 2014-09 on its consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory," which applies to inventory that is measured using first-in, first-out ("FIFO") or average cost. Under the updated guidance, an entity should measure inventory that is within scope at the lower of cost and net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. Subsequent measurement is unchanged for inventory that is measured using last-in, last-out ("LIFO"). This ASU is effective for annual and interim periods beginning after December 15, 2016, and should be applied prospectively with early adoption permitted at the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of the adoption of ASU 2015-11 on its consolidated financial statements.

### **NOTE 3 DISCONTINUED OPERATIONS**

On June 21, 2012, the Company determined to exit its global retail business and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong net sales growth and cost rationalizations in the OEM business. Accordingly, the results of operations for the Retail division have been recorded as discontinued operations in the accompanying condensed consolidated financial statements for the periods presented. The Company has completed its exit of its Retail business. Summarized operating results of discontinued operations are presented in the following table:

	For the Three Months Ended		For the Months l

The Company had \$280,000 of accounts receivable relating to overdue payments pursuant to a Settlement Agreement and General Release ("Settlement Agreement") executed on July 3, 2013 between the Company and G-Form LLC ("G-Form") in exchange for certain retail inventories, the Company's cooperation with certain administrative matters, and a mutual general release. Due to the age of the accounts receivable and G-Form's non-responsiveness to the Company's communication related to the matter, the Company established a full reserve for this receivable as of September 30, 2014. In December 2014, the Company recovered \$200,000 from a third party, which was recognized as other income during the nine months ended June 30, 2015.

### **NOTE 4 SHAREHOLDERS' EQUITY**

6% Senior Convertible Preferred Stock

In the event of a liquidation (or deemed liquidation, as described below) of the Company, the holders of the Company's 6% Senior Convertible Preferred Stock, par value \$0.001 per share ("Convertible Preferred Stock"), shall receive in preference to the holders of common stock and any junior securities of the Company an amount (the "Liquidation Preference") equal to (i) \$1.965 (the "Original Issue Price") per each outstanding share of Convertible Preferred Stock (subject to adjustment upon the occurrence of certain customary events), plus (ii) any accrued but unpaid dividends. A Change of Control of the Company (as defined in the Certificate of Amendment) will be treated as a liquidation at the option of the holders of a majority of the Convertible Preferred Stock, provided that the amount paid to holders of Convertible Preferred Stock in such event will be equal to 101% of the Original Issue Price, plus accrued but unpaid dividends.

Dividends on the Convertible Preferred Stock were payable, on a cumulative basis, in cash, at the rate per annum of 6% of the Liquidation Preference (as defined below) and were payable quarterly, in arrears, on each March 31, June 30, September 30 and December 31, commencing on September 30, 2013. The Company was prohibited from paying any dividend with respect to shares of common stock or other junior securities in any quarter unless full dividends were paid on the Convertible Preferred Stock in such quarter.

At the December 30, 2014 Annual Meeting, the shareholder vote resulted in the turnover of a majority of the Board members, which represented a Change of Control pursuant to the terms of the Convertible Preferred Stock. On December 31, 2014, the Company determined to recognize the balance of the accretion and bring the Convertible Preferred Stock carrying value up to its redemption value due to the likelihood of the holders requesting redemption. On January 9, 2015, the Company received a notice of deemed liquidation from a majority of the outstanding Convertible Preferred Stockholders in which they requested redemption of their Convertible Preferred Stock. On February 23, 2015 the Company paid an aggregate \$1,287,737 to the Convertible Preferred Stockholders, in order to redeem all of the outstanding shares of Convertible Preferred Stock.

Dividends on the Convertible Preferred Stock totaled approximately \$0 and \$19,000 for each of the three months ended June 30, 2015 and 2014, respectively, and totaled approximately \$21,000 and \$57,000 for the nine months ended June 30, 2015 and 2014, respectively. These dividends, in addition to the accretion, totaled approximately \$0 and \$48,000 for the three months ended June 30, 2015 and 2014, respectively, and \$476,000 and \$145,000 for the nine months ended June 30, 2015 and 2014, respectively. As of June 30, 2015 and September 30, 2014, the carrying value of the Convertible Preferred Stock was \$0 and approximately \$833,000, respectively, and is included on the Company's condensed consolidated balance sheets as temporary equity.

NOTE 5 SHARE-BASED COMPENSATION

**Stock Option Awards** 

Effective January 15, 2015, in connection with the Company's former Chief Executive Officer's voluntary termination, previously outstanding unvested stock options to purchase an aggregate of 83,334 shares of common stock at exercise prices ranging from \$1.59 to \$5.31 per share that would have been forfeited pursuant to their original terms were modified such that the options vested on January 28, 2015. In connection with the "improbable to probable" modification, the Company recorded a credit of approximately \$0 and \$(31,000) during the three and nine months ended June 30, 2015, respectively. See Note 7 for additional details in connection with the termination.

On June 25, 2015, the Company granted a ten-year incentive stock option to purchase 50,000 shares of common stock at an exercise price of \$0.64 per share to an executive of the Company, pursuant to the 2011 Plan. The option vests as follows: 15,000 shares on the date of grant, 15,000 shares on the two year anniversary of the date of grant and 20,000 shares on the three year anniversary of the date of grant. The option had a grant date value of \$19,000.

The fair value of each stock option on the date of grant was estimated using the Black-Scholes option-pricing formula applying the following assumptions:

Stock Option Awards (continued)

The expected term represents the period over which the stock option awards are expected to be outstanding. The Company utilizes the "simplified" method to develop an estimate of the expected term of "plain vanilla" employee option grants. The Company based the risk-free interest rate used in its assumptions on the implied yield currently available on U.S. Treasury zero-coupon issues with a remaining term equivalent to the award's expected term. The volatility factor used in the Company's assumptions is based on the historical price of its stock over the most recent period commensurate with the expected term of the award. The Company historically has not paid any dividends on its common stock and had no intention to do so on the date the share-based awards were granted.

The Company recognized compensation expense of approximately \$1,000 and \$13,000 in continuing operations for stock option awards in its condensed consolidated statements of operations and comprehensive (loss) income for the three months ended June 30, 2015 and 2014, respectively, and \$(36,000) and \$79,000 for the nine months ended June 30, 2015 and 2014, respectively.

As of June 30, 2015, there was approximately \$24,000 of total unrecognized compensation cost related to unvested stock option awards, which is expected to be recognized over the remainder of the weighted average vesting period of 1.5 years.

### NOTE 6 INCOME (LOSS) PER SHARE

Basic income (loss) per share data for each period presented is computed using the weighted-average number of shares of common stock outstanding during each such period. Diluted income (loss) per share data is computed using the weighted-average number of common and dilutive common-equivalent shares outstanding during each period. Dilutive common-equivalent shares consist of (a) shares that would be issued upon the exercise of stock options and warrants, computed using the treasury stock method, (b) shares that would be issued upon the conversion of convertible preferred stock and (c) shares of non-vested restricted stock. Net income (loss) from continuing operations per basic and diluted share for the three and nine months ended June 30, 2015 and 2014 is net of preferred stock cash dividends and accretion.

### **Business Overview**

#### Trends and Economic Environment

In June 2012, the Company made the strategic decision to focus solely on its core OEM business. Initially, we implemented several key restructuring measures in order to improve our operating performance and return the Company to profitability. These actions included replacing our legacy sourcing and quality assurance infrastructure with a variable lower cost solution through our use of an exclusive Asia-based sourcing agent (see Note 8 in our Notes to Condensed Consolidated Financial Statements) and rationalizing our fixed operating expenses, including office closures and headcount reductions. Our financial results for the 2015 Period and the 2014 Period, reflect the impact of these restructuring measures.

We remain challenged by a highly concentrated customer base and product offering, especially with respect to our Diabetic Products line, where we operate in a price sensitive environment in which we continue to experience volatility in demand and downward pricing pressure from our major Diabetic Products customers. We continue to be challenged by pricing pressures from our customers, which causes our gross margins to narrow. Our dedicated Asia-based sourcing agent has made meaningful progress in areas such as quality assurance and overall operational performance, which has better positioned us with our customers. However, there was no expansion of our supplier base during the 2015 Period and 2014 Period. As a result, our ability to effectively push back against such rising material costs may diminish.

### Variability of Revenues and Results of Operation

Because a high percentage of our revenues are highly concentrated in a few large customers, and because the volumes of these customers—order flows to us are highly variable, with short lead times, our quarterly revenues, and consequently our results of operations, are susceptible to significant variability over a relatively short period of time.

### **Change of Directors and Officers**

On December 30, 2014, the Company held its 2014 Annual Meeting primarily for the purpose of electing either a slate of directors proposed by the then-incumbent Board of Directors or a slate of directors proposed by Terence Bernard Wise, a director and significant shareholder in the Company at the time. At the 2014 Annual Meeting, the Company s shareholders voted for the election of the slate of directors proposed by Mr. Wise, which resulted in the turnover of a majority of the Company s directors. Following the 2014 Annual Meeting, (a) our incumbent President and Chief Executive Officer voluntarily resigned and we executed an agreement with him which superseded his employment agreement; (b) the new board appointed an Interim President; (c) we entered into a settlement agreement and mutual release with the Company s former Chief Financial Officer; and (d) we expanded the size of the Board of Directors from five to six Directors by appointing Sangita Shah to be a new Director. In connection with the incumbent Chief Executive Officer s departure, we cancelled the month-to-month New York Office Services Agreement at a savings of \$12,700 per month and we cancelled the Investment Management Agreement.

The then-incumbent Board of Directors engaged professional services, including a proxy advisory solicitation service and supplementary legal representation, in order to facilitate the election of and promote its slate of director nominees. Such expenses, which were borne by the Company, significantly increased our 2015 first quarter expenses. In addition, the then-incumbent team was conducting an accelerated search process to identify attractive acquisition targets and the related financing to fund such acquisitions and the professional services associated with that effort also significantly increased our 2015 first quarter expenses.

On June 25, 2015, (a) we expanded the Board of Directors from six to seven Directors by appointing Sharon Hrynkow to be a new Director; (b) we appointed Mr. Scott Fine to serve as Lead Director of the Board of the Company; (c) we appointed Mr. Michael Matte, who was hired on June 22, 2015, to be our Chief Financial Officer; (d) we appointed Mr. Terence Wise, Chairman of the Board of Directors, to become Chief Executive Officer effective July 1, 2015, following the completion of the term of the Interim President on June 30, 2015. On June 26, 2015, we entered into a claim release with our insurance carrier related to the settlement agreement and mutual release associated with our former Chief Financial Officer wherein the Company was reimbursed \$425,000 in connection with our Employment Practices Liability Insurance Policy.

### **Critical Accounting Policies and Estimates**

This management s discussion and analysis of financial condition and results of operations is based upon or derived from the unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and assumptions that are

believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates and such differences could be significant.

We discuss the material accounting policies that are critical in making these estimates and judgments in our Annual Report on Form 10 -K for the fiscal year ended September 30, 2014, under the caption Management s Discussion and Analysis Critical Accounting Policies and Estimates . There has been no material change in critical accounting policies or estimates since September 30, 2014.

Recent Accounting Pronouncements

In July 2013, the FASB issued ASU 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists." This ASU addresses the requirements regarding the financial statement presentation of an unrecognized tax benefit within ASC Topic 740 for the purpose of providing consistency between the financial reporting of U.S. GAAP entities. Generally, this ASU provides guidance for the preparation of financial statements and disclosures when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. This ASU is effective for annual periods and interim periods within those annual periods beginning after December 15, 2013 and did not have a material impact on the Company s condensed consolidated financial statements or disclosures.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, (ASU 2014-09). ASU 2014-09 supersedes the revenue recognition requirements in Accounting Standards Codification (ASC) 605 - Revenue Recognition and most industry-specific guidance throughout the ASC. The standard requires that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. ASU 2014-09 was further amended in July 2015 and is effective for annual periods and interim periods within those annual periods beginning after December 15, 2017 and should be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. The Company is currently evaluating the impact of the adoption of ASU 2014-09 on its consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory," which applies to inventory that is measured using first- in, first-out ("FIFO") or average cost. Under the updated guidance, an entity should measure inventory that is within scope at the lower of cost and net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. Subsequent measurement is unchanged for inventory that is measured using last-in, last-out ("LIFO"). This ASU is effective for annual and interim periods beginning after December 15, 2016, and should be applied prospectively with early adoption permitted at the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of adopting this guidance.

### RESULTS OF OPERATIONS FOR THE 2015 QUARTER COMPARED TO THE 2014 QUARTER

### **Income from Continuing Operations**

Income from continuing operations in the 2015 Quarter was \$495 thousand compared to income of \$41 thousand in the 2014 Quarter. The increase in 2015 Quarter income from the same quarter in 2014 was primarily due to an insurance claim settlement of \$425 thousand in cash which reimbursed the Company for a portion of the settlement of the lawsuit filed by the former CFO against the company and a reduction in various operating expenses.

We custom design, and sell carrying cases for blood glucose diagnostic kits directly to OEMs (or their contract manufacturers). The OEM customer or its contract manufacturer packages our carry cases in box as a custom accessory for the OEM s blood glucose testing and monitoring kits, and to a lesser extent, sells them through its retail distribution channels.

Sales of Diabetic Products declined \$1.0 million to \$5.9 million in the 2015 Quarter, from \$6.9 million in the 2014 Quarter. This decrease was primarily due to the dramatic drop in volume for three of our major Diabetic customers (Diabetic customers B, C, and D) and other Diabetic customers. The decrease was offset, in part, by a sharp rise in sales to a major Diabetic customer (Diabetic customer A).

The following table sets forth our sales by Diabetic Products customers for the periods indicated:

*Tables may not total due to rounding.
Sales of Diabetic Products represented 82% of our total net sales in the 2015 Quarter compared to 76% of our total net sales in the 2014 Quarter.
Other Product Sales

We design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as bar code scanners, GPS devices, cellular phones, tablets and cameras), as well as a variety of other products (such as sporting and recreational products and firearms) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Sales of Other Products decreased approximately \$0.9 million to \$1.3 million in the 2015 Quarter from approximately \$2.2 million in the 2014 Quarter. The decrease is primarily due to the loss of a major recreational products customer. Lesser fluctuations in several other customer accounts between 2015 Quarter and 2014 Quarter were not individually material.

Sales of Other Products represented 18% of our net sales in the 2015 Quarter compared to 24% of our total net sales in the 2014 Quarter.

### **Gross Profit**

Gross profit decreased \$0.3 million, or 19%, to \$1.3 million in the 2015 Quarter from \$1.7 million in the 2014 Quarter. As a percentage of sales, our gross profit rose to 19% in the 2015 Quarter, compared to 18% in the 2014 Quarter.

The gross profit decrease was driven primarily by a drop in sales volume. In the 2015 Quarter, sales in the Americas dropped 44% to \$1.7 million and sales in Europe declined 37% to \$2.2 million. However, sales in Asia-Pacific increased 28% to \$3.4 million. The increase in gross profit as a percentage of sales is due to product mix.

## **Sales and Marketing Expenses**

Sales and marketing expenses decreased \$0.2 million, or 30%, to \$0.5 million in the 2015 Quarter compared to \$0.7 million in the 2014 Quarter, primarily due to the decline in personnel expenses related to the reduction in workforce which took place in the second quarter of fiscal 2015.

### **General and Administrative Expenses**

General and administrative expenses decreased \$0.6 million, or 62%, to \$0.4 million in the 2015 Quarter from \$0.9 million in the 2014 Quarter, due primarily to the following:

- \$0.4 million insurance claim recovery related to the lawsuit and subsequent settlement with the former CFO;
- \$0.1 million in savings related to the vacancy of the CFO position during the quarter; and
- \$0.1 million combined reduction in legal fees related to the defending the derivative lawsuit filed against the former chairman and directors, reduction in occupancy costs due to the closure of the NY office, and a reduction in professional fees for consulting on potential acquisition attempts in Q3 2014.

Fluctuations in other components of General and Administrative Expenses were not individually material.

### **Other Income**

Other income, net, consisting primarily of realized and unrealized gain on investments in marketable securities was \$1 thousand in the 2015 Quarter compared to \$10 thousand in the 2014 Quarter.

### RESULTS OF OPERATIONS FOR THE 2015 PERIOD COMPARED TO THE 2014 PERIOD

## **Income (Loss) from Continuing Operations**

Loss from continuing operations in the 2015 Period was \$1.9 million compared to income of \$0.1 million in the 2014 Period. The 2015 Period loss is primarily due to an increase in general and administrative expenses, primarily due to costs associated with the proxy contest, litigation costs, settlements cost for the former CFO and CEO, and, to a lesser extent, a decline in gross profit driven by a decline in sales. The losses were mitigated, in part, by the insurance claim recovery which reduced the General and Administrative Expenses and a reduction in workforce which resulted in a savings in Sales and Marketing expenses.

Loss from continuing operations attributable to common shareholders, after deducting preferred stock dividends and accretion, per basic and diluted share was (0.28) and (0.01) for the 2015 Period and 2014 Period, respectively.

### **Net Sales**

Net sales in the 2015 Period declined \$1.8 million, or 7%, to \$22.4 from \$24.2 million in the 2014 Period due to lower sales for all product lines. The tables below set forth sales by channel, product line, and geographic location of our customers for the periods indicated:

Sales of Diabetic products decreased \$0.5 million, to \$18.6 million in the 2015 Period, from \$19.1 million in the 2014 Period. This decrease was primarily due to the loss of a smaller diabetic customer and a drop in sales of legacy programs from two major diabetic customers (Customer B and Customer C). The decrease was offset, in part, by an increase in sales to the other two major Diabetic customers (Customer A and Customer D).

The following table sets forth our sales by Diabetic Products customer for the periods indicated.

Sales of carrying cases for blood glucose monitoring kits represented 83% of our net sales in the 2015 Period and 79% of our total net sales the 2014 Period.

## Other Product Sales

We custom design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as smartphones, tablets, GPS devices, and bar code scanners), as well as a variety of other products (such as firearms, sporting, and other recreational products) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Sales of Other Products decreased approximately \$ 1.3 million to \$3.8 million in the 2015 Period from \$5.1 million for the same period in 2014. The majority of the decrease was primarily due to a \$1.0 million drop in sales due to the loss of a recreational products customer, which contributed \$0.4 million to net sales in the 2015 Period. In addition, a \$0.5 million decline in sales to a camera customer, which contributed \$0.5 million to net sales in the 2015 Period and a \$0.3 million decline in sales to a GPS customer, which contributed \$0.4 million to net sales in the 2015 period, also contributed to the decrease in Other Products sales. The revenue reductions were offset, in part, by an increase in sales to an electronics devices customer of \$0.5 million, which did not contribute to sales in the 2014 period. Lesser fluctuations in several other customer accounts between 2015 Period and 2014 Period were not individually material.

Sales of Other Products represented 17% of our net sales in the 2015 Period and 21% of our net sales in the 2014 Period.

### **Gross Profit**

Gross profit decreased \$0.6 million, or 13%, to \$4.3 million in the 2015 Period from \$4.9 million in the 2014 Period. As a percentage of sales, our gross profit declined to 19% in the 2015 Period, compared to 20% in the 2014 Period.

The gross profit decrease was driven primarily by a year over year decline in sales volume. In the 2015 Period, sales in the Americas dropped 20% to \$5.9 million and sales in Europe dropped 10% to \$7.4 million. However, sales in Asia-Pacific increased 6% to \$9.2 million.

### **Sales and Marketing Expenses**

Sales and marketing expenses decreased \$0.2 million, or 9%, to \$1.9 million in the 2015 Period compared to \$2.1 million in the 2014 Period. Personnel costs declined \$160 thousand, or 9%, in the 2015 Period primarily as a result of the reduction in workforce. Decreases in other components of Sales and Marketing Expenses were not material, individually, or in the aggregate.

## **General and Administrative Expenses**

General and administrative expenses increased \$1.6 million, or 61% to \$4.2 million in the 2015 Period from \$2.6 million in the 2014 Period due primarily to the following:

- \$1.4 million increase in professional fees (primarily attorney s fees) related to the legal support and representation surrounding the proxy defense, employment litigation and other legal matters;
- \$0.5 million, net of insurance recovery of \$0.4 million, related to the employment settlements with the separations of the former CFO and CEO; and
- Offset by a \$0.3 million reduction of salaries and wages and a \$0.1 million reduction in share-based compensation expense.

Fluctuations in other components of General and Administrative Expenses were not individually material.

### **Other Expense**

Other expense, net, consisting primarily of realized and unrealized losses on investments in marketable securities and the change in the fair market value of warrant liabilities, was \$0.1 million in the 2015 Period compared to \$0.2 million in the 2014 Period.

## RESULTS OF DISCONTINUED OPERATIONS FOR THE 2015 PERIOD COMPARED TO THE 2014 PERIOD

Income from discontinued operations was \$0.2 million in the 2015 Period compared to a loss of \$35 thousand in the 2014 Period. In the 2015 Period, we assigned our rights to a judgment against G-Form for a cash payment of \$0.2 million.

## LIQUIDITY AND CAPITAL RESOURCES

Our primary potential sources of liquidity are our operations and financing activities. The primary go forward demands on our working capital should be: i) operating losses, should they occur, and ii) accounts receivable and inventories arising in the ordinary course of business. Historically, our sources of liquidity have been adequate to satisfy working capital requirements arising in the ordinary course of business. We anticipate that our liquidity and financial resources for the next twelve months will be adequate to manage our operating and financial requirements.

At June 30, 2015, our current ratio (current assets divided by current liabilities) was 2.2; our quick ratio (current assets less inventories divided by current liabilities) was 1.7; and our working capital (current assets less current liabilities) was \$7.0 million. As of such date, we had no short or long-term debt outstanding.

During the nine months ended June 30, 2015 and 2014, our sources and use of cash were as follows:

### **Cash Flows from Operating Activities**

During the 2015 Period, we used \$1.8 million of cash in operations, which is derived from a net loss of \$1.7 million, offset by \$0.2 million of non-cash credits, plus net cash used for working capital items of \$0.3 million. Cash used for working capital items consisted primarily of pay downs of accounts payable, accrued expenses and other current liabilities (including due to Forward China) and increased inventory of \$1.1 million, partially offset by a decrease in accounts receivable of \$0.8 million.

During the 2014 Period, operating activities provided \$0.7 million of cash, which consisted of net income of \$70 thousand, supplemented by \$0.4 million of non-cash credits (primarily the change in the fair value of the warrant liability and share-based compensation), and \$0.2 million of cash provided by working capital items. Cash provided by working capital items consisted of an increase in cash generated by an increase in accounts payable and due to Forward China of \$1.7 million. These changes were offset, in part by decreases in accounts receivable, inventories, and prepaid expenses and other current assets of \$1.1 million, \$0.3 million, and \$0.1 million, respectively, as well as decreases in accrued expenses and other current liabilities and other liabilities of \$86 thousand and \$49 thousand, respectively.

### **Cash Flows from Investing Activities**

In the 2015 Period, net cash provided by investing activities was \$0.9 million, which was primarily related to the liquidation of marketable equity securities due to the cancellation of the Investment Management Agreement.

In the 2014 Period, net investing activities used \$0.2 million, which primarily consisted of \$5.8 million used for purchases of marketable equity securities and \$5.6 million generated from sales of marketable equity securities.

### **Cash Flows from Financing Activities**

In the 2015 Period, net financing activities used \$1.3 million, which primarily consisted of the funds used to fully redeem the 6% Senior Convertible Preferred Stock.

In the 2014 Period, net financing activities used \$57 thousand to pay dividends on the 6% Senior Convertible Preferred Stock.

### ITEM 4. CONTROLS AND PROCEDURES

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that is designed to ensure that information required to be disclosed by the Company in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer s management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In accordance with Exchange Act Rule 13a-15(b), our management, under the supervision and with the participation of our Principal Executive and Principal Financial Officer, performed an evaluation of the effectiveness of the Company s disclosure controls and procedures as of the fiscal quarter covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Company s Principal Executive and Principal Financial Officer concluded that the Company s disclosure controls and procedures were effective, as of the end of the 2015 Quarter, to provide reasonable assurance that information required to be disclosed in the Company s reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission s rules and forms.

## **Changes in Internal Control**

Our management, with the participation of our Principal Executive and Principal Financial Officer, performed an evaluation required by Rule 13a-15(d) of the Exchange Act as to whether any change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during the 2015 Period. Based on that evaluation, our Principal Executive and Principal Financial Officer concluded that there were no changes in our internal control over financial reporting during the 2015 Period.

### **Limitations of the Effectiveness of Controls and Procedures**

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations of any control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

### ITEM 5. OTHER INFORMATION

On June 26, 2015, the Company entered into a claim release (the Claim Release ) with Zurich American Insurance Company (ZAIC) with respect to the settlement agreement and mutual release (the Settlement Agreement) previously disclosed regarding a lawsuit filed by James McKenna, our former Chief Financial Officer, on August 26, 2014 in the U.S. District Court for the Southern District of New York against the Company and then-directors Frank LaGrange Johnson, Robert Garrett, John F. Chiste, Timothy Gordon and Owen P.J. King, alleging purported claims of retaliation for whistleblowing under the Dodd-Frank Act, breach of contract and breach of the covenant of good faith and fair dealing all as against the Company, and a single claim for tortious interference with contract as against the individual defendants.

Pursuant to an Employment Practices Liability Policy (the Policy ) issued by ZAIC that affords coverage for employment-related Wrongful Termination, Discrimination, Sexual Harassment and Workplace Torts liability, under which we are an insured, we submitted a claim in which it sought coverage for the aforementioned Settlement Agreement in the amount of \$425,000, representing reimbursement of a portion of the settlement amounts set forth in the Settlement Agreement. Such sum represents fully ZAIC s coverage obligations under the Policy with respect to the Settlement Agreement.
