Notes to Unaudited Consolidated Financial Statements

For the Three and Six Months Ended June 30, 2015 and 2014

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

See Note 1 to our Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, filed with the Securities and Exchange Commission (the "SEC") on March 31, 2015 (the "Annual Report"), for a description of all significant accounting policies.

Description of Business

AdCare Health Systems, Inc. ("AdCare") and its controlled subsidiaries (collectively with AdCare, the "Company") own, lease, operate or manage for third-parties skilled nursing and assisted living facilities in the states of Alabama, Arkansas, Georgia, North Carolina, Ohio, Oklahoma and South Carolina.

In July 2014, the Company announced that the Board of Directors had approved a strategic plan to transition the Company to a healthcare property holding and leasing company. Through a series of leasing and subleasing transactions, the Company is in the process of transitioning to third-parties the operations of the Company's currently owned and operated healthcare facilities, which are principally skilled nursing facilities. In furtherance of this strategic plan, the Company is now focused on the ownership, acquisition and leasing of healthcare related properties.

As of June 30, 2015, the Company operated or managed fifteen facilities comprised of thirteen skilled nursing facilities, one assisted living facility and one independent living/senior housing facility totaling 1,572 beds. The Company's facilities provide a range of health care services to patients and residents including skilled nursing and assisted living services, social services, various therapy services, and other rehabilitative and healthcare services for both long-term residents and short-stay patients. As of June 30, 2015, of the fifteen facilities, the Company owned and operated nine facilities, leased and operated three facilities, and managed three facilities for third-parties.

As of June 30, 2015, the Company also leased fourteen owned and subleased eight leased skilled nursing and rehabilitation facilities and one owned assisted living facility to local third-party operators in the states of Alabama, Arkansas, Georgia, North Carolina and South Carolina.

During the three and six months ended June 30, 2015, the Company entered into certain leasing and operations transfer agreements for facilities located in Arkansas, Georgia, North Carolina and South Carolina (see Note 7 - Leases for a full description of such leases). Subsequent to June 30, 2015, the Company entered into certain leasing and operations transfer agreements for facilities located in Georgia and Ohio (see Note 16 - Subsequent Events).

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Article 8 of Regulations S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. Changes to GAAP are established by the Financial Accounting Standards Board ("FASB") in the form of Accounting Standards Updates ("ASUs") to the FASB's Accounting Standards Codification ("ASC"). In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the results of operations for the periods presented have been included. Operating results for the three and six months ended June 30, 2015 and 2014, are not necessarily indicative of the results that may be expected for the fiscal year. The balance sheet at December 31, 2014, has been derived from the audited consolidated financial statements at that date, but does not include all of the information and footnotes required by GAAP for complete financial statements.

You should read the accompanying unaudited consolidated financial statements together with the historical consolidated financial statements of the Company for the year ended December 31, 2014, included in the Annual

Report.

The Company operates in one business segment. These statements include the accounts of AdCare Health Systems, Inc. and its controlled subsidiaries. Controlled subsidiaries include AdCare's majority owned subsidiaries and one consolidated variable interest entity (a "VIE") in which AdCare has control as primary beneficiary. All inter-company accounts and transactions were eliminated in the consolidation.

## Table of Contents

### Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported results of operations during the reporting period. Examples of significant estimates include allowance for doubtful accounts; contractual allowances for Medicaid, Medicare, and managed care reimbursements; deferred tax valuation allowance; fair value of derivative instruments; fair value of employee and nonemployee stock based awards; and valuation of goodwill and other long-lived assets. Actual results could differ materially from those estimates.

### Reclassifications

Certain items previously reported in the consolidated financial statement captions have been reclassified to conform to the current financial statement presentation with no effect on the Company's consolidated financial position or results of operations. These reclassifications did not affect total assets, total liabilities, or stockholders' equity. In addition, reclassifications were made to the Consolidated Statements of Operations for the three and six months ended June 30, 2014, to reflect the same facilities in discontinued operations for both periods presented.

#### Patient Care Revenue Recognition and Receivables

The Company recognizes patient care revenue when the following four conditions have been met: (i) there is persuasive evidence that an arrangement exists; (ii) delivery has occurred or service has been rendered; (iii) the price is fixed or determinable; and (iv) collection is reasonably assured. The Company's patient care revenue is derived primarily from providing healthcare services to residents and is recognized on the date services are provided at amounts billable to the individual. For reimbursement arrangements with third-party payors including Medicaid, Medicare and private insurers, patient care revenue is recorded based on contractually agreed-upon amounts on a per patient, daily basis.

Patient care revenue from the Medicaid and Medicare programs accounted for 80.0% and 79.9% of the Company's patient care revenue for the three and six months ended June 30, 2015, respectively, and 81.5% and 81.2% of the Company's patient care revenue for the three and six months ended June 30, 2014, respectively. The Company records patient care revenue from these governmental and managed care programs as services are performed at their expected net realizable amounts under these programs. The Company's patient care revenue from governmental and managed care programs is subject to audit and retroactive adjustment by governmental and third-party agencies. Consistent with healthcare industry accounting practices, any changes to these governmental revenue estimates are recorded in the period the change or adjustment becomes known. The Company recorded retroactive adjustments to patient care revenue which were not material to the Company's consolidated revenue for the three and six months ended June 30, 2015 and 2014.

Potentially uncollectible patient accounts are provided for on the allowance method based upon management's evaluation of outstanding accounts receivable at period-end and historical experience. Uncollected accounts that are written off are charged against allowance. As of June 30, 2015 and December 31, 2014, the Company has an allowance for uncollectible accounts of \$10.9 million and \$6.7 million, respectively.

#### Management Fee Revenue Recognition and Receivables

Management fee revenues and receivables are recorded in the month that services are provided. As of June 30, 2015 and December 31, 2014, the Company evaluated collectibility of management fees and determined that no allowance was required.

#### Rental Revenue Recognition and Receivables

The Company, as lessor or sublessor, makes a determination with respect to each of its leases and subleases whether they should be accounted for as operating leases. The Company recognizes rental revenues on a straight-line basis

over the term of the lease when collectibility is reasonably assured. Differences between rental income earned and amounts due under the lease are charged or credited, as applicable, to straight-line rent receivable, net. Payments received under operating leases are accounted for in the statements of operations as rental revenue for actual rent collected plus or minus a straight-line adjustment for estimated minimum lease escalators. As of June 30, 2015 and December 31, 2014, the Company evaluated collectibility of rental revenue and determined that no allowance was required.

Table of Contents

Fair Value Measurements and Financial Instruments

Accounting guidance establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

Level 1— Quoted market prices in active markets for identical assets or liabilities

Level 2— Other observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3— Significant unobservable inputs

The respective carrying value of certain financial instruments of the Company approximates their fair value. These instruments include cash and cash equivalents, restricted cash and investments, accounts receivable, notes receivable, and accounts payable. Fair values were assumed to approximate carrying values for these financial instruments because they are short-term in nature and their carrying amounts approximate fair values, they are receivable or payable on demand, or the interest rates earned and/or paid approximate current market rates.

Recent Accounting Pronouncements

Except for rules and interpretive releases of the SEC under authority of federal securities laws and a limited number of grandfathered standards, the FASB ASC is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company. The Company has reviewed the FASB accounting pronouncements and ASU interpretations that have effectiveness dates during the periods reported and in future periods.

In April 2014, the FASB issued ASU 2014-08 which amends the definition of a discontinued operation to include only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. This ASU should be applied prospectively and is effective for the Company for the 2015 annual and interim reporting periods. Early adoption is permitted for disposals that have not been reported in financial statements previously issued. The Company has adopted this ASU as of January 1, 2015.

In May 2014, the FASB issued ASU 2014-09 guidance requiring revenue to be recognized in an amount that reflects the consideration expected to be received in exchange for those goods and services. The new standard requires the disclosure of sufficient quantitative and qualitative information for financial statement users to understand the nature, amount, timing and uncertainty of revenue and associated cash flows arising from contracts with customers. In July 2015, the FASB delayed the effective date of the new revenue standard by one year. As a result, this new revenue standard is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those reporting periods. Early adoption is permitted beginning after December 15, 2016, including interim periods within those reporting periods. The Company has not yet determined the impact, if any, that the adoption of this new standard will have on its consolidated financial position or results of operations.

In August 2014, the FASB issued ASU 2014-15 guidance regarding an entity's ability to continue as a going concern, which requires management to assess a company's ability to continue as a going concern and to provide related footnote disclosures in certain circumstances. Before this new standard, there was minimal guidance in GAAP specific to going concern. Under the new standard, disclosures are required when conditions give rise to substantial doubt about a company's ability to continue as a going concern within one year from the financial statement issuance date. The guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, with early adoption permitted. The Company has not yet determined the impact, if any, that the adoption of this new standard will have on its consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03 guidance regarding debt issuance costs as a part of the simplification and productivity initiative. Under this new standard, debt issuance costs will be presented as a direct reduction from the carrying amount of the debt liability, consistent with the presentation of debt discounts. The amortization of debt issuance costs will be reported as interest expense. The new standard is to be applied on a retrospective basis and

reported as a change in an accounting principle. This standard is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period. Early adoption is permitted for financial statements that have not been previously issued. The Company is currently evaluating changes in its accounting required by this new standard and the impact to the Company's financial position and related disclosures.

## NOTE 2. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income or loss by the weighted-average number of shares of common stock outstanding during the period. Diluted earnings per share is similar to basic earnings per share except net income or loss is adjusted for potentially dilutive securities, such as options, warrants, non-vested shares, and additional shares issuable under subordinated convertible promissory notes outstanding during the period when such potentially dilutive securities are not anti-dilutive. Potentially dilutive securities from options, warrants and unvested restricted shares are calculated in accordance with the treasury stock method. Potentially dilutive securities from subordinated convertible promissory notes are calculated based on the assumed issuance at the beginning of the period, as well as any adjustment to income that would result from their assumed issuance. For the six months ended June 30, 2015 and 2014, potentially dilutive securities of 6.6 million and 9.1 million, respectively, were excluded from the diluted income (loss) per share calculation because including them would have been anti-dilutive in both periods. The following tables provide a reconciliation of net income (loss) for continuing and discontinued operations and the number of shares of common stock used in the computation of both basic and diluted earnings per share:

## NOTE 3. LIQUIDITY AND PROFITABILITY

## Sources of Liquidity

At June 30, 2015, the Company had \$15.3 million in cash and cash equivalents as well as restricted cash and investments of \$14.4 million. Over the next 12 months, the Company anticipates both access to and receipt of several sources of liquidity.

At June 30, 2015, the Company had one facility, three office buildings and one VIE held for sale that the Company anticipates selling in 2015. The Company expects that the cash proceeds and the release of restricted cash on the sale of the VIE and the sale of the one facility will be approximately equivalent to the related debt obligations. The Company expects that the cash proceeds from the sale of the office buildings will exceed related debt obligations by approximately \$0.6 million.

The Company routinely has ongoing discussions with existing and potential new lenders to refinance current debt on a longer term basis and, in recent periods, has refinanced short term acquisition debt, including seller notes, with

traditional long term mortgage notes, some of which have been executed under government guaranteed lending programs.

During the remainder of 2015, the Company anticipates net proceeds of approximately \$1.6 million on refinancing of existing debt, primarily in the fourth quarter of 2015, subject to approval by the United States Department of Housing and Urban Development.

## Table of Contents

The Company maintains two revolving lines of credit for which the Company has limited remaining capacity. All balances on these lines of credit are expected to be repaid in 2015. Given the Company's ongoing transition out of healthcare operations, the Company does not anticipate any additional draws on these credit lines.

On April 13, 2015, the Company issued and sold 575,000 shares of Series A Cumulative Redeemable Preferred Stock, no par value per share and liquidation preference of \$25.00 per share (the "Series A Preferred Stock"), in a "best efforts" registered public offering for a public offering price of \$25.75 per share. In connection therewith, the Company received net proceeds of \$13.8 million, after the payment of underwriting commissions and discounts and other offering expenses payable by the Company.

On June 2, 2015, the Company issued and sold 588,235 shares of Series A Preferred Stock in a "best efforts" registered public offering for a public offering price of \$25.50 per share. In connection therewith, the Company received net proceeds of approximately \$14.2 million after the payment of underwriting commissions and discounts and other offering expenses payable by the Company (see Note 11 - Dividends and Equity).

On July 21, 2015, the Company entered into separate at market issuance sales agreements with two sales agents, pursuant to which the Company may offer and sell, from time to time, up to 800,000 shares of Series A Preferred Stock through an "at the market" offering program (see Note 16 - Subsequent Events).

On July 30, 2015, the Company entered into an amendment, effective July 31, 2015, to a certain 8% subordinated convertible note issued by the Company and due July 31, 2015, with a then-current principal amount of \$4,847,000, to, among other things: (i) extend the maturity date of such note with respect to \$1,500,000 of its principal amount to October 31, 2017; (ii) increase the interest rate from 8.0% to 10.0% per annum; and (iii) increase the conversion price from \$3.97 to \$4.25 per share (see Note 9 - Notes Payable and Other Debt, Note 15 - Related Party Transactions and Note 16 - Subsequent Events).

Other liquidity sources include to a lesser extent, the proceeds from the exercise of options and warrants.

### Cash Requirements

At June 30, 2015, the Company had \$146.3 million in indebtedness of which the current portion was \$27.6 million. This current portion is comprised of: (i) convertible debt of approximately \$4.5 million; (ii) debt of held for sale entities of approximately \$15.3 million, which is primarily senior debt - bond and mortgage indebtedness; and (iii) remaining debt of approximately \$7.8 million which includes revolver debt, senior debt - bonds, and senior debt - mortgage indebtedness (for a complete debt listing and credit facility detail, see Note 9 - Notes Payable and Other Debt).

The convertible debt includes the 8% subordinated convertible note which was amended effective July 31, 2015 and described under "-Sources of Liquidity" (see Note 9 - Notes Payable and Other Debt, Note 15 - Related Party Transactions and Note 16 - Subsequent Events).

The current debt maturing in 2015 for all other debt approximates \$7.8 million. As indicated previously, the Company routinely has ongoing discussions with existing and potential new lenders to refinance current debt on a longer term basis and, in recent periods, has refinanced shorter term acquisition debt, including seller notes, with traditional longer term mortgage notes, some of which have been executed under government guaranteed lending programs.

The Company anticipates net principal disbursements of approximately \$9.8 million over the next twelve months which reflect the offset of anticipated proceeds on refinancing of approximately \$2.5 million. The Company anticipates operating cash requirements in 2015 as being less than in 2014 due to the Company's transition to a healthcare property holding and leasing company. Based on the described sources of liquidity and related cash requirements, the Company expects sufficient funds for its operations, scheduled debt service, and capital expenditures at least through the next twelve months. On a longer term basis, at June 30, 2015, the Company has approximately \$64.2 million of debt maturities due over the next two-year period, ending June 30, 2017, excluding convertible notes which are convertible into shares of common stock. The Company has been successful in recent years in raising new equity capital and believes, based on recent discussions, that these markets will continue to be available to it for raising capital in 2015 and beyond. The Company believes its long-term liquidity needs will be satisfied by these same sources, as well as borrowings as required to refinance indebtedness.

In order to satisfy the Company's capital needs, the Company seeks to: (i) improve operating results through a series of leasing and subleasing transactions with favorable terms and consistent and predictable cash flow; (ii) expand borrowing arrangements with certain lenders; (iii) refinance current debt where possible to obtain more favorable terms; and (iv) raise capital through the issuance of debt or equity securities on terms favorable to the Company. The Company anticipates that these actions, if successfully executed, will provide the opportunity to maintain liquidity on a short-and-long term basis, thereby permitting the Company to

meet our operating and financing obligations for the next twelve months. However, there is no guarantee that such actions will be successful or that anticipated operating results or the transition of the Company to primarily a property holding and leasing company will be achieved. The Company currently has limited borrowing availability under our existing revolving credit facilities.

**NOTE 7. LEASES****Operating Leases**

The Company leases a total of eleven skilled nursing facilities under non-cancelable operating leases, most of which have initial lease terms of ten to twelve years with rent escalation clauses and provisions for payments by the Company of real estate taxes, insurance and maintenance costs; three of the skilled nursing facilities that are leased are also operated by the Company. The Company also leases certain office space with similar provisions as the aforementioned skilled nursing facility leases.

Eight of the Company's skilled nursing facilities are operated under a single master indivisible lease arrangement, dated August 1, 2010, with William M. Foster as landlord (the "Prime Lease"). The lease has a term of ten years into 2020. Under the Prime Lease, a breach at a single facility could subject one or more of the other facilities covered by the same master lease to the same default risk. Failure to comply with regulations or governmental authorities, such as Medicaid and Medicare provider requirements, is a default under the Prime Lease. In addition, other potential defaults related to an individual facility may cause a default of the entire Prime Lease. With an indivisible lease, it is difficult to restructure the composition of the portfolio or economic terms of the lease without the consent of the landlord. As previously disclosed, on May 18, 2015, the landlord delivered to the Company a notice which alleges that the Company is in default under the Prime Lease for, among other reasons, subleasing the facilities to third-party operators without the landlord's written consent and reserves the landlord's right to terminate the Prime Lease and/or pursue any other remedy available at law or in equity. The Company does not believe that it is in default under the Prime Lease and is in discussions with the landlord regarding the matter.

Two of the Company's facilities are operated under a single indivisible lease; therefore, a breach at a single facility could subject the second facility to the same default risk. The lease has an initial term of twelve years into 2022 and two optional ten-year renewal terms, and includes covenants and restrictions. The Company is required to make minimum capital expenditures of \$375 per licensed bed per lease year at each facility which amounts to \$0.1 million per year for both facilities. As of June 30, 2015, the Company is in compliance with all financial and administrative covenants of this lease agreement.

Future minimum lease payments for each of the next five years ending December 31, are as follows:

	(Amounts in 000's)
2015 <sup>(a)</sup>	\$4,000
2016	7,980
2017	8,062
2018	8,188
2019	7,861
Thereafter	8,279
Total	\$44,370

<sup>(a)</sup> Estimated minimum lease payments for the year ending December 31, 2015, include only payments to be recorded after June 30, 2015.

The Company has also entered into lease agreements for various equipment used in the facilities. These leases are included in future minimum lease payments above.

Leased and Subleased Facilities to Third-Party Operators

---

Table of Contents

In connection with the Company's strategic plan to transition to a healthcare property holding and leasing company, twenty-three facilities (fifteen owned by us and eight leased to us) are leased or subleased on a triple net basis, meaning that the lessee (i.e., the new third-party operator of the property) is obligated under the lease or sublease, as applicable, for all liabilities of the property in respect to insurance, taxes and facility maintenance, as well as the lease or sublease payments, as applicable.

Future minimum lease receivables from the Company's facilities leased and subleased to third party operators for each of the next five years ending December 31, are as follows:

	(Amounts in 000's)
2015 <sup>(a)</sup>	\$ 10,273
2016	21,146
2017	21,596
2018	22,030
2019	21,753
Thereafter	75,834
Total	\$ 172,632

<sup>(a)</sup> Estimated minimum lease receivables for the year ending December 31, 2015, include only payments to be received after June 30, 2015.

For further details regarding the Company's leased and subleased facilities to third-party operators, see below and also Note 16 - Subsequent Events in this Quarterly Report and Note 7 - Leases included in the Annual Report.

#### Arkansas Leases

On January 16, 2015, ten wholly-owned subsidiaries (each, an "Aria Sublessor") of the Company entered into separate sublease agreements pursuant to which each Aria Sublessor leases one of ten skilled nursing facilities located in Arkansas, and owned by a subsidiary of AdCare, to an affiliate of Aria Health Group, LLC (each, an "Aria Sublessee"), which subleases were originally scheduled to commence on March 1, 2015, subject to, among other things: (i) such Aria Sublessee's receipt of all licenses and other approvals from the State of Arkansas to operate such facility; and (ii) approval of the mortgage lender with respect to such facility. Each sublease agreement is structured as triple net lease wherein the Aria Sublessee is responsible for the day-to-day operation, ongoing maintenance, taxes and insurance for the duration of the sublease.

On April 30, 2015, the Company entered into a Lease Inducement Fee Agreement (the "Aria Lease Inducement") with Aria Health Consulting, LLC. The Aria Lease Inducement provided for a one-time payment from the Company to Aria Health Consulting, LLC equal to \$2.0 million minus the security deposits and first month's base and special rent for all Aria Sublessees. On April 30, 2015, in connection with the Aria Lease Inducement, the eight sublease agreements with the Aria Sublessees were amended to, among other things, provide that the Aria Sublessees shall, collectively, pay to the Aria Sublessors special rent in the amount of \$29,500 per month payable in advance on or before the first day of each month (except for the first special rent payment, which was subtracted from the lease inducement fee paid by the Company under the Aria Lease Inducement).

On April 30, 2015, two Aria Sublessors entered into separate sublease termination agreements with two Aria Sublessees, pursuant to which each Aria Sublessor and Aria Sublessee mutually agreed to terminate two of the separate sublease agreements previously entered into on January 16, 2015. The remaining eight sublease agreements commenced on May 1, 2015. In connection with entering into the sublease agreements, each Aria Sublessor and Aria Sublessee also entered into an operations transfer agreement with respect to the applicable facility, each containing customary terms and conditions relating to the transfer of operations of the skilled nursing facilities.

As a condition to the Aria Sublessees agreement to a commencement date of May 1, 2015, the Company and the Aria Sublessees agreed to assess, in good faith and within thirty (30) days following the commencement date, making a one-time equitable adjustment to base rent equal to the difference between the facilities 2014 professional liability and general liability insurance costs and projected costs for the first lease year of comparable or mutually acceptable

insurance as further adjusted by anticipated Medicaid reimbursement rate increases solely from such added costs. Pursuant to each sublease agreement, the initial lease term is ten years with a five-year renewal option. The annual base rent under all of the sublease agreements in the first year is \$5.3 million in the aggregate, exclusive of any equitable adjustment, and the annual base rent under each sublease will escalate at 2% each year through the initial term and 3% per year upon renewal. The sublease agreements are cross-defaulted. On February 27, 2015 and

Table of Contents

March 31, 2015, the sublease agreements with the Aria Sublessees were amended to extend the commencement date of the subleases to April 1, 2015, and May 1, 2015, respectively.

On July 17, 2015, the Company, on behalf of each Aria Sublessor, and Highlands Arkansas Holdings, LLC, an affiliate of Aria ("HAH") and acting on behalf of each Aria Sublessee, entered into a letter agreement whereby the parties agreed to amend the sublease agreements to reflect a onetime equitable adjustment to annual base rent, for the collective benefit of each Aria Sublessee, in the aggregate amount of \$360,000. On July 17, 2015, the Company made a short-term loan to HAH and, in connection therewith, HAH executed a promissory note in the amount \$1.2 million in favor of the Company. Interest accrues on the unpaid principal balance of the note at a rate of 12.5% per annum (see Note 16 - Subsequent Events).

Georgia Leases

On January 31, 2015, a wholly owned subsidiary ("Wellington Sublessor") of the Company entered into separate sublease agreements pursuant to which Wellington Sublessor leases two skilled nursing facilities located in Georgia, to affiliates of Wellington Health Services, L.L.C (each a "Wellington Sublessee"). Each sublease agreement was subject to, among other things, each Wellington Sublessee's receipt of all licenses and other approvals from the State of Georgia to operate such facility. The subleases commenced on April 1, 2015. The facilities are currently leased by Wellington Sublessor, as tenant, pursuant to the Prime Lease. Each sublease agreement is structured as triple net lease wherein the Wellington Sublessee is responsible for the day-to-day operation, ongoing maintenance, taxes and insurance for the duration of the sublease. The initial term of each sublease agreement will expire on July 31, 2020 coterminous with the Prime Lease. If Wellington Sublessor and landlord agree to extend the term of the Prime Lease, Wellington Sublessee has the right to extend the term of the sublease agreements through the end of the renewal term of the Prime Lease. The annual rent under the two sublease agreements in the first year will be \$3.9 million in the aggregate, and the annual rent under each sublease will escalate at 1% each year through the initial term and 2% per year through the renewal term, if any. The sublease agreements are cross-defaulted. The KeyBank Promissory Notes mature on August 25, 2016, at which time the entire principal balance of the non-interest-bearing notes then unpaid shall be due. If, prior to the maturity date, certain refinancing agreements are entered into with KeyBank as lender, affiliate of lender, or by an agency financing originated by KeyBank or any affiliate of KeyBank, then and in such an event the entire remaining principal amount of the KeyBank Promissory Notes shall be forgiven.

On April 3, 2015, the Company entered into five separate unsecured Amended and Restated Promissory Note Agreements with KeyBank, which amend the KeyBank Promissory Notes to include a fifth note with the aggregate principal total of \$0.7 million remaining unaltered. **Convertible Debt**

**Convertible Subordinated Notes Issued in 2012 (the "2012 Notes")**

On June 30, 2015, the Company entered into prepayment agreements with Anthony Cantone and Cantone Asset Management, LLC ("CAM") in connection with the Company's 8% Subordinated Convertible Notes due July 31, 2015 issued to them with an aggregate original principal amount of approximately \$6.4 million (the "Cantone Notes"). In connection therewith, the Company made principal prepayments in aggregate of approximately \$1.5 million with respect to the Cantone Notes. On August 21, 2014, Mr. Cantone and certain of his affiliates filed a Schedule 13G/A with the Securities and Exchange Commission reporting ownership in excess of 5% of the Company's common stock (see Note 15 - Related Party Transactions and Note 16 - Subsequent Events).

**Convertible Subordinated Notes Issued in 2014 (the "2014 Notes")**

On April 30, 2015, the Company repaid the outstanding principal amount of \$6.5 million under the 2014 Notes plus all interest accrued and unpaid thereunder.

**Convertible Subordinated Notes Issued in 2015 (the "2015 Notes")**

On March 31, 2015, the Company entered into Subscription Agreements for \$8.5 million of the 2015 Notes with certain accredited investors, including certain holders of the 2014 Notes. In connection therewith, the Company issued approximately \$1.7 million in principal amount of 2015 Notes on March 31, 2015 and approximately \$6.0 million in principal amount of 2015 Notes on April 30, 2015. Accepted subscriptions for \$0.8 million in principal amount of 2015 Notes were not funded by the April 30, 2015 payment deadline, and 2015 Notes were not issued in respect thereof.

The 2015 Notes are convertible at the option of the holder into shares of common stock at an initial conversion price equal to \$4.25 per share. If, prior to September 30, 2015, the Company issues or sells any shares of common stock or common stock equivalents (excluding certain excluded securities, as defined in the 2015 Notes) for a consideration per share (the "New Issuance Price") less than the conversion price then in effect immediately prior to such issuance or sale, then immediately after such issuance or sale the conversion price then in effect shall be reduced to an amount equal to the New Issuance Price (an "Adjustment for Dilutive Issuances"). Notwithstanding the foregoing, no Adjustment for Dilutive Issuances shall be effected to the extent it would cause the number of shares of common stock issued, plus the number of shares of common stock issuable, in respect of all 2015 Notes in the aggregate to exceed 3,850,405 shares of common stock. In addition, the conversion price will be subject to adjustment for any subdivision (by stock dividend, stock split or similar corporation action) or combination (by reverse stock split or similar corporate action) of the common stock.

The Company may prepay at any time, without penalty, upon 60 days prior notice, any portion of the outstanding principal amount and accrued and unpaid interest thereon with respect to any 2015 Note; provided, however, that: (i) the shares of common stock issuable upon conversion of any 2015 Note which is to be so prepaid must be: (a) registered for resale under the Securities Act of 1933, as amended (the "Securities Act"); or (b) otherwise sellable under Rule 144 of the Securities Act without volume limitations thereunder; (ii) at any time after the issue date of such 2015 Note, the volume-weighted average price of the common stock for ten consecutive trading days has equaled or exceeded 125% of the then-current conversion price; and (iii) such prepayment may not be effected prior to March 31, 2016.

Table of Contents

The holders holding a majority of the outstanding principal amount with respect to all the 2015 Notes may require the Company to redeem all or any portion of the 2015 Notes upon a change of control (as defined in the 2015 Notes) for a redemption price equal to the outstanding principal amount to be redeemed plus all accrued and unpaid interest thereon. In addition, upon a change of control, the Company may redeem all or any portion of the 2015 Notes for a redemption price equal to the outstanding principal amount to be redeemed plus all accrued and unpaid interest thereon.

During the existence and continuance of an event of default under a 2015 Note, the outstanding principal amount of such 2015 Note shall incur interest at a rate of 14% per annum, and the holder of such 2015 Note may require the Company to redeem all or any portion of such 2015 Note at a redemption price in cash equal to the outstanding principal amount to be redeemed plus all accrued and unpaid interest thereon. An “event of default,” with respect to a 2015 Note includes: (i) the Company’s failure to pay to the holder of such 2015 Note any amount of principal or interest by the seventh business day following the date when due under such 2015 Note; and (ii) specific events of bankruptcy, insolvency, reorganization or liquidation.

**NOTE 13. . VARIABLE INTEREST ENTITIES****Consolidated Variable Interest Entity**

As further described in Note 15 to our Consolidated Financial Statements in the Annual Report, the Company has one consolidating VIE, Riverchase Village ADK, LLC ("Riverchase") that is required to be consolidated because AdCare has control as primary beneficiary. A "primary beneficiary" is the party that has both of the following characteristics: (i) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance; and (ii) the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The following summarizes the assets and liabilities of the variable interest entity included in the consolidated balance sheets:

On April 30, 2015, the Company entered into the Aria Lease Inducement with Aria Health Consulting, LLC. The Aria Lease Inducement provides for a one-time payment from the Company to Aria Health Consulting, LLC equal to \$2.0 million minus the security deposits and first month's base and special rent for all Aria Sublessees. On April 30, 2015, in connection with the Aria Lease Inducement, the eight sublease agreements with Aria Sublessees were amended to, among other things, provide that the Aria Sublessees shall, collectively, pay to the Aria Sublessors special rent in the amount of \$29,500 per month payable in advance on or before the first day of each month (except for the first special rent payment, which shall be subtracted from the lease inducement fee paid by the Company under the Aria Lease Inducement).

The Aria Lease Inducement entered into by the Company provides subordinated financial support to Aria Health Consulting, LLC and creates a variable interest that may absorb some or all of a variable interest entity's expected losses. The Company does not consolidate the operating activities of the Aria Sublessees as the Company does not have the power to direct the activities that most significantly impact the VIE's economic performance (see Note 7 - Leases and Note 16 - Subsequent Events).

NOTE 14. COMMITMENTS AND CONTINGENCIES

Regulatory Matters

Laws and regulations governing federal Medicare and state Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future governmental review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from certain governmental programs. The Company believes that it is in compliance in all material respects with all applicable laws and regulations.

A significant portion of the Company's revenue is derived from Medicaid and Medicare, for which reimbursement rates are subject to regulatory changes and government funding restrictions. Any significant future change to reimbursement rates could have a material effect on the Company's operations.

Legal Matters

The skilled nursing business involves a significant risk of liability due to the age and health of the Company's patients and residents and the services the Company provides. The Company and others in the industry are subject to an increasing number of claims and lawsuits, including professional liability claims, which may allege that services have resulted in personal injury, elder abuse, wrongful death or other related claims. The defense of these lawsuits may result in significant legal costs, regardless of the outcome, and can result in large settlement amounts or damage awards.

In addition to the potential lawsuits and claims described above, the Company is also subject to potential lawsuits under the Federal False Claims Act and comparable state laws alleging submission of fraudulent claims for services to any healthcare program (such as Medicare) or payer. A violation may provide the basis for exclusion from federally funded healthcare programs. As of June 30, 2015, the Company does not have any material loss contingencies recorded or requiring disclosure based upon the evaluation of the probability of loss from known claims, except as disclosed below.

Oklahoma Facilities

On June 24, 2013, South Star Services, Inc. ("SSSI"), Troy Clanton and Rose Rabon (collectively, the "Plaintiffs") filed a complaint in the District Court of Oklahoma County, State of Oklahoma against: (i) AdCare, certain of its wholly owned subsidiaries and AdCare's former Chief Executive Officer (collectively, the "AdCare Defendants"); (ii) Christopher Brogdon (a director of the Company, owner of greater than 5% of the outstanding shares of AdCare Health Systems, Inc. common stock and former Chief Acquisition Officer of the Company) and his wife; and (iii) five entities controlled by Mr. and Mrs. Brogdon, which entities own five skilled-nursing facilities located in Oklahoma that were previously managed by an AdCare subsidiary (the "Oklahoma Facilities"). The complaint alleges, with

respect to the AdCare Defendants, that: (i) the AdCare Defendants tortuously interfered with contractual relations between the Plaintiffs and Mr. Brogdon, and with Plaintiffs' prospective economic advantage, relating to SSSI's right to manage the Oklahoma Facilities and seven other skilled-nursing facilities located in Oklahoma (collectively, the "Facilities"), respectively; (ii) the AdCare Defendants fraudulently induced the Plaintiffs to perform work and incur expenses with respect to the Facilities; and (iii) one of the AdCare subsidiaries which is an AdCare Defendant provided false and defamatory information to an Oklahoma regulatory authority regarding SSSI's management of one of the Oklahoma Facilities. The complaint seeks damages against the AdCare Defendants, including punitive damages, in an unspecified amount, as well as costs and expenses, including reasonable attorney fees. On March 7, 2014, the Plaintiffs filed an amended complaint in which they alleged additional facts regarding the alleged fraudulent inducement caused by Mr. and Mrs. Brogdon and the AdCare Defendants.

Table of Contents

On February 10, 2015, Plaintiffs and the defendants participated in a voluntary mediation in an attempt to resolve the case. Although the case did not settle at the mediation, Plaintiffs and defendants continued to negotiate over the following weeks and executed a settlement agreement on March 30, 2015 (the "Clanton Settlement Agreement") to settle all claims for a lump sum payment of \$2.0 million. In April 2015, under the Clanton Settlement Agreement, the Company paid \$0.6 million to the Plaintiffs with the balance thereof to be paid by two of the Company's insurance carriers. The Company and the other defendants in the matter deny all of the Plaintiff's claims and any wrongdoing but agreed to settle the matter to avoid the continued expense and unpredictability of litigation.

Ohio Facilities

On March 7, 2014, the Company responded to a letter received from the Ohio Attorney General ("OAG") dated February 25, 2014 demanding repayment of approximately \$1.0 million as settlement for alleged improper Medicaid payments related to seven Ohio facilities affiliated with the Company. The OAG alleged that the Company had submitted improper Medicaid claims for independent laboratory services for glucose blood tests and capillary blood draws. The Company intends to defend itself against the claims. The Company has not recorded a liability for this matter because the liability, if any, and outcome cannot be determined at this time.

#### Arkansas Subleases

On July 17, 2015, a wholly owned subsidiary of the Company (the “Highlands Sublessor”) entered into a sublease agreement pursuant to which the Highlands Sublessor will lease one skilled nursing facility located in Arkansas to an affiliate of Aria Health Group, LLC (the “Highlands Sublessee”). Affiliates of both the Company and Aria Health Group, LLC had entered into a sublease agreement, dated January 16, 2015, for the same facility but it was mutually terminated on April 30, 2015.

The sublease agreement, and the transfer of operations of the facility as contemplated thereby, shall commence on September 1, 2015 and are subject to, among other things, the Highland Sublessee’s receipt of all licenses and other approvals from the State of Arkansas to operate such facility. The sublease agreement is structured as triple net lease wherein the Highlands Sublessee is

responsible for the day-to-day operation, ongoing maintenance, taxes and insurance for the duration of the sublease. The initial term of the sublease agreement will expire on April 30, 2022 and may be renewed once, upon the exercise of the Highlands Sublessee's option assuming the satisfaction of certain conditions, for an additional five year period. The annual rent under the sublease agreement in the first year will be approximately \$600,000, and the annual rent will escalate by 3% per year through the lease term and any renewal term. In connection with the sublease agreement, the current licensed operator of the facility, a wholly-owned subsidiary of the Highlands Sublessor, and the Highlands Sublessee also entered into an operations transfer agreement with respect to the facility, containing customary terms and conditions relating to the transfer of operations thereof.

On May 1, 2015, the Aria Sublessors leased, and transferred the operations of, eight skilled nursing facilities located in Arkansas to the Aria Sublessees, pursuant to separate sublease agreements dated January 16, 2015. As a condition to the commencement of the sublease agreements on May 1, 2015, the Company agreed to assess in good faith the making of a one-time equitable adjustment to the applicable base rent of each subleased facility. On July 17, 2015, the Company, on behalf of each Aria Sublessor, and HAH, acting on behalf of each Aria Sublessee, entered into a letter agreement whereby the parties agreed to amend the sublease agreements to reflect a onetime equitable adjustment to annual base rent, for the collective benefit of each Aria Sublessee, in the aggregate amount of \$360,000. In consideration for this one-time equitable adjustment in base rent, the parties further agreed that each sublease agreement shall be amended to reflect that base rent after the initial lease year will increase during each subsequent lease year by 3%.

On July 17, 2015, the Company made a short-term loan to HAH and, in connection therewith, HAH executed a promissory note in the amount \$1.2 million in favor of the Company. Interest accrues on the unpaid principal balance of the note at a rate of 12.5% per annum. The principal and interest thereon is payable on August 13, 2015. Until all amounts due and owing under the note have been paid, neither the Aria Sublessees nor the Highland Sublessee will pledge, as security, any of the accounts receivable relating to the respective facilities that such entity subleases from the Aria Sublessors or the Highland Sublessor, as applicable. Until all principal and interest under the note is paid, the Company and its affiliates may retain as collateral all funds received by them from Medicare for the benefit of HAH or its affiliates with respect to the properties leased to the affiliates of Aria Health Group, LLC. If the note is not paid in full by the maturity date, then the Company may apply such funds to principal and interest due under the note. The Company is currently in discussions with HAH to extend the maturity date of the loan.

Georgia Leases

On July 1, 2015, a wholly-owned subsidiary ("Glenvue Sublessor") of the Company entered into a sublease agreement ("Glenvue Agreement") pursuant to which Glenvue Sublessor leased the Facility to C.R. of Glenvue, LLC (the "Glenvue Sublessee") commencing on July 1, 2015. The Glenvue Agreement is structured as triple net lease wherein the Glenvue Sublessee is responsible for the day-to-day operation, ongoing maintenance, taxes and insurance for the duration of the sublease. The initial term of the Glenvue Agreement will expire on June 30, 2020 and has a five year renewal option. The annual cash rent under the sublease agreement in the first year is \$1.2 million, and the annual rent will escalate at \$12,000 annually through the lease term. The Glenvue Agreement replaces an existing sublease agreement that was originally executed in November 2014.

On July 20, 2015, the Georgia Sublessor entered into a sublease agreement pursuant to which the Georgia Sublessor will lease two skilled nursing facilities located in Georgia (the "Georgia Properties") to affiliates of Wellington Health Services, L.L.C (collectively, the "Georgia Sublessees"). The sublease agreement is one indivisible lease for the lease of both Georgia Properties, and the terms of the sublease agreement apply to both Georgia Properties collectively as though they are treated as one economic unit. The Wellington Sublessor currently leases the Georgia Properties from a third-party landlord ("Landlord") under a master lease agreement (the "Master Lease"), and the sublease agreement is subject and subordinate to the Master Lease.

The sublease agreement, and the transfer of operations of the Georgia Properties as contemplated thereby, are subject to, among other things, the Landlord's consent to the sublease agreement and each Wellington Sublessee's receipt of all licenses and other approvals from the State of Georgia to operate the applicable Georgia Property. The initial term of the sublease agreement commences as of the date the Wellington Sublessees have obtained all necessary licenses and approvals, subject to certain adjustments. The sublease agreement is structured as a triple net lease wherein the Wellington Sublessees are responsible for the day-to-day operation, ongoing maintenance, taxes and insurance for the duration of the sublease. The initial term of the sublease agreement will expire on the tenth anniversary of the commencement date. If the Wellington Sublessor and the Landlord agree to extend the term of the Master Lease, then the Wellington Sublessees have the right to extend the term of the sublease agreement through the end of the applicable renewal term of the Master Lease. The annual rent under the sublease agreement in the first year will be approximately \$2.0 million, and shall increase by \$5,000 per month in the second year and again by \$5,000 per month in the third year. Thereafter, base rent will escalate by 3% per year through the lease term and any renewal term. In connection with the sublease agreement, the Wellington Sublessor and the Wellington Sublessees also entered into operations transfer agreements with respect to the applicable Georgia Properties, containing customary terms and conditions relating to the transfer of operations thereof.

### Ohio Leases

As previously disclosed, certain wholly owned subsidiaries of the Company (each, a “Beacon Sublessor”) entered into five sublease agreements, in or around October 2014, pursuant to which those subsidiaries would lease four skilled nursing facilities and one assisted living facility located in Ohio (collectively, the “Beacon Facilities”) to certain affiliates of Beacon Health Management, LLC (each, a “Beacon Sublessee”). On August 1, 2015, the Beacon Sublessors and the Beacon Sublessees entered into new sublease agreements that replaced the existing sublease agreements entered into in or around October 2014. Each of these new sublease agreements became effective on August 1, 2015 and the operations of the Beacon Facilities were transferred to the Beacon Sublessees.

The terms of the sublease agreements for four of the Beacon Facilities known as Eaglewood Village, Hearth and Care of Greenfield, the Pavilion Care Center, and Woodland Manor (collectively, the “EHPW Facilities”) are materially identical and vary slightly from the terms of the sublease agreement for the fifth Beacon Facility, Covington Care Center. Each of the five sublease agreements is structured as triple net lease wherein each Beacon Sublessee is responsible for the day-to-day operation, ongoing maintenance, taxes and insurance for the duration of the sublease. The initial lease term for each of the EHPW Facilities is ten years with a five-year renewal option, and the initial lease term for the Covington Care Center is approximately four years with no renewal option. The aggregate annual base rent under the sublease agreements for the EHPW Facilities in the first year is \$2.2 million and it will escalate at 2.5% each year through the initial term. The annual base rent for the Covington Care Center in the first lease year is approximately \$0.8 million and it will escalate at an annual rate of \$12,000 through the initial term. To establish a fair market base rent under each of the sublease agreements for the EHPW Facilities during any renewal term, the base rent shall be reset and expressed as an annual amount equal to the greater of (i) the fair market rental value of the leased facility as established pursuant to a prescribed formula; or (ii) 102.5% of the base rent due for the immediately preceding lease year. In addition to base rent, the sublease agreements for the EHPW Facilities provides that the sublessees thereunder shall collectively pay to the applicable Beacon Sublessors special rent during the initial term in the amount of \$109,632 per year, payable in advance in twelve equal monthly installments on or before the first day of each month (except for the first special rent payment, which shall be subtracted from the lease inducement fee described below). All five of the sublease agreements for the Beacon Facilities are cross-defaulted. Furthermore, the security deposit for any of the Beacon Facilities may be applied to the payment of any default under any one of the sublease agreements (or any other agreement cross-defaulted with the Beacon Facilities’ sublease agreements). In connection with entering into the sublease agreements for the Beacon Facilities, each Beacon Sublessor and Beacon Sublessee also entered into an operations transfer agreement with respect to the applicable facility, each containing customary terms and conditions relating to the transfer of operations thereof.

On August 1, 2015, the Company entered into a Lease Inducement Fee Agreement with certain affiliates of Beacon Health Management, LLC, pursuant to which the Company paid to certain affiliates of Beacon Health Management, LLC a fee of \$0.6 million as a lease inducement for the Beacon Sublessees to enter into the sublease agreements described above and to commence such subleases and transfer operations thereunder. The inducement fee was paid net of certain other fees and costs owed by the affiliates of Beacon Health Management, LLC to the Beacon Sublessors, including the first month of base rent for all of the Beacon Facilities and the first month of special rent pertaining to the EHPW Facilities.

### Bentonville

On July 1, 2015, the Company completed the sale of its Bentonville, Arkansas skilled nursing facility consisting of 83 licensed beds for \$3.4 million net of customary closing and certain real property apportionments. Net proceeds were

used to repay certain mortgage indebtedness.

#### Riverchase

On August 6, 2015, Riverchase Village ADK, LLC entered into a First Amendment to Asset Purchase Agreement ("First Amendment") with Omega, which amended the Riverchase Sale Agreement. Under the First Amendment: (i) the closing date of the Riverchase Sale Agreement was extended to August 31, 2015, subject to the purchaser's right to extend the closing date to September 30, 2015, upon completion of conditions set forth in the agreement; (ii) Omega transferred \$0.1 million in additional earnest money to Riverchase Village ADK, LLC, to extend the Riverchase Sale Agreement to August 31, 2015; and (iii) the total purchase price, inclusive of the additional earnest money, increased by \$0.1 million to \$6.9 million.

#### Gemino-Bonterra Credit Facility

PrivateBank Credit Facility

On July 30, 2015, the PrivateBank Borrowers entered into the Tenth Modification Agreement with PrivateBank, which modified the PrivateBank Credit Facility. The primary modification pursuant to the Tenth Modification: (i) the outstanding amount owing under the PrivateBank Credit Facility was reduced to \$3.8 million, effective July 30, 2015; and (ii) the PrivateBank Borrowers shall not have the right to receive any additional cash borrowings under the PrivateBank Credit Facility.

Companions Specialized Care

On August 12, 2015, a wholly owned subsidiary of the Company entered into a First Amendment with Contemporary, which modified the Contemporary Loan. Under the First Amendment: (i) the outstanding amount owing under the Contemporary Loan was reduced from \$5.0 million to \$3.0 million; (ii) restricted assets related to the loan of \$2.0 million were used to reduce the outstanding amount owing under the Contemporary Loan, thus eliminating all restricted assets related to the loan; and (iii) the maturity date of the Contemporary Loan was extended from August 20, 2015 to November 20, 2015.

Amendment to Subordinated Convertible Note

On July 30, 2015, the Company and CAM entered into an amendment, effective July 31, 2015, to that certain 8% Subordinated Convertible Note issued by the Company to CAM and due July 31, 2015, with a principal amount as of such date of \$4.8 million to, among other things: (i) extend the maturity date with respect to \$1.5 million of the principal amount of the note to October 31, 2017; (ii) increase the interest rate from 8.0% to 10.0% per annum; and (iii) increase the conversion price from \$3.97 to \$4.25 per share.

Additionally, the amendment modifies the Company's right to prepay the note so that the Company may prepay at any time, without penalty, upon 60 days prior notice, any portion of the outstanding principal amount and accrued and unpaid interest thereon with respect to the note; provided, however, that: (i) the shares of the common stock issuable upon conversion of the note have been registered for resale under the Securities Act; (ii) at any time after the issue date of the note, the volume-weighted average price of the common stock for ten consecutive trading days has equaled or exceeded 150% of the then-current conversion price; and (iii) such prepayment may not be effected prior to July 31, 2016. The amendment also affords each of CAM and the Company the right to cause the redemption of all or any portion of the principal amount of the note upon a change of control (as defined in the note) at a redemption price equal to 115% of the sum of (i) outstanding principal amount to be redeemed, plus (ii) the amount of accrued and unpaid interest thereon.

Pursuant to the amendment, the Company paid to Cantone Research, Inc. ("CRI"), an affiliate of CAM, a fee equal to \$37,500. The amendment also amends that certain Consulting Agreement, dated July 2, 2012, between the Company and CRI to: (i) reduce the annual consulting fee payable thereunder to \$15,000 and further reduce such fee proportionately upon each repayment, redemption or conversion of the principal amount of the note; and (ii) terminate the Consulting Agreement upon the earlier of October 31, 2017, or the conversion, redemption or prepayment of the entire principal amount of the note.

CAM, CRI and certain of their affiliates, including Anthony J. Cantone, filed with the SEC in August 2014 a Schedule 13D/A reporting beneficial ownership of the Company's common stock in excess of 5% of the total shares outstanding. For a description of certain arrangements with Mr. Cantone and his affiliates, see "Item 13. Certain Relationships and Related Party Transactions and Director Independence - Related Party Transactions - Cantone" in the Annual Report.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

## Overview

AdCare Health Systems, Inc. ("AdCare") and its controlled subsidiaries (collectively with AdCare, the "Company" or "we") own, lease, operate or manage for third-parties skilled nursing and assisted living facilities in the states of Alabama, Arkansas, Georgia, North Carolina, Ohio, Oklahoma and South Carolina.

In July 2014, we announced that the Board of Directors had approved a strategic plan to transition the Company to a healthcare property holding and leasing company. Through a series of leasing and subleasing transactions, we are in the process of transitioning to third-parties the operations of the Company's currently owned and operated healthcare facilities, which are principally skilled nursing facilities. In furtherance of this strategic plan, the Company is now focused on the ownership, acquisition and leasing of healthcare related properties.

As of June 30, 2015, we operated or managed fifteen facilities comprised of thirteen skilled nursing facilities, one assisted living facility and one independent living/senior housing facility totaling 1,572 beds. The Company's facilities provide a range of health care services to patients and residents including skilled nursing and assisted living services, social services, various therapy services, and other rehabilitative and healthcare services for both long-term residents and short-stay patients. As of June 30, 2015, of the fifteen facilities, we owned and operated nine facilities, leased and operated three facilities, and managed three facilities for third-parties.

As of June 30, 2015, we also leased fourteen owned and subleased eight leased skilled nursing and rehabilitation facilities and one owned assisted living facility to local third-party operators in the states of Alabama, Arkansas, Georgia, North Carolina and South Carolina.

During the three and six months ended June 30, 2015, we entered into certain leasing and operations transfer agreements for facilities located in Arkansas, Georgia, North Carolina and South Carolina, which are described below. Subsequent to June 30, 2015, the Company entered into certain leasing and operations transfer agreements for facilities located in Georgia and Ohio (see Note 16 - Subsequent Events, located in Part I, Item 1., Notes to Consolidated Financial Statements).

## Liquidity Overview

At June 30, 2015, we had \$15.3 million in cash and cash equivalents as well as restricted cash and investments of \$14.4 million. Over the next 12 months, we anticipate both access to and receipt of several sources of liquidity. We routinely have ongoing discussions with existing and potential new lenders to refinance current debt on a longer term basis and, in recent periods, have refinanced shorter term acquisition debt, including seller notes, with traditional longer term mortgage notes, some of which have been executed under government guaranteed lending programs. During the remainder of 2015, we anticipate positive cash flow from operations as we complete our transition to a healthcare property holding and leasing company and from other working capital changes. At June 30, 2015, we had \$146.3 million in indebtedness of which the current portion is \$27.6 million. We anticipate our operating cash requirements in 2015 as being less than in 2014 due to the Company's transition to a healthcare property holding and leasing company. We expect sufficient funds for our operations, scheduled debt service, and capital expenditures at least through the next twelve months. We have been successful in recent years in raising new equity capital and believe, based on recent discussions, that these markets will continue to be available to us for raising capital in 2015 and beyond. We believe our long-term liquidity needs will be satisfied by these same sources, as well as borrowings as required to refinance indebtedness (for a more detailed discussion, see Note 3 - Liquidity and Profitability, located in Part I, Item 1., Notes to Consolidated Financial Statements).

## Discontinued Operations

On April 1, 2015, the subleases commenced and operations transferred for four skilled nursing facilities located in Georgia and two skilled nursing facilities located in South Carolina (see Note 7 - Leases, located in Part I, Item 1., Notes to Consolidated Financial Statements).

On April 29, 2015, a wholly owned subsidiary of the Company (the "Companions Seller") entered into an asset purchase agreement (the "Companions Sale Agreement") with Gracewood Manor, LLC, an Oklahoma limited liability company (the "Companions Purchaser"), to sell Companions, a 102-bed skilled nursing facility located in Tulsa, Oklahoma. The Companions Sale Agreement may be terminated by the Companions Purchaser for any reason before the 30th day of the due diligence period set forth in the agreement. The sale is subject to the completion of satisfactory due diligence,

the receipt of required licenses and other state regulatory approvals, and the satisfaction of other customary closing conditions. Pursuant to the Companions Sale Agreement, the sale price of \$3.5 million is due to the Companions Seller on the closing date after completion of customary closing conditions. In connection with entering into the Companions Sale Agreement, the Companions Seller and Companions Purchaser entered into an operations transfer agreement to transfer the operations of Companions concurrent with the closing of the asset purchase agreement. On May 1, 2015, the subleases commenced and operations transferred for seven skilled nursing facilities and one assisted living facility located in Arkansas (see Note 7 - Leases, located in Part I, Item 1., Notes to Consolidated Financial Statements).

Table of Contents

On May 15, 2015, a wholly owned subsidiary of the Company (the "Bentonville Seller") entered into an asset purchase agreement (the "Bentonville Sale Agreement") with Bozeman Development, LLC, a Texas limited liability company (the "Bentonville Purchaser"), to sell Bentonville Manor, a 95-bed skilled nursing facility located in Bentonville, Arkansas. Upon satisfaction of the due diligence, the transaction closed on July 1, 2015 and the net sales proceeds of \$3.4 million were remitted to the Bentonville Seller. In connection with entering into the Bentonville Sale Agreement, the Bentonville Seller and Bentonville Purchaser entered into an operations transfer agreement to transfer the operations of Bentonville Manor concurrent with the closing of the Bentonville Sale Agreement.

On June 1, 2015, the sublease commenced and operations transferred for one skilled nursing facility located in North Carolina (see Note 7 - Leases, located in Part I, Item 1., Notes to Consolidated Financial Statements).

On June 11, 2015, Riverchase Village ADK, LLC, a consolidating variable interest entity ("VIE") of the Company, entered into an asset purchase agreement (the "Riverchase Sale Agreement") to sell Riverchase, a 105-bed assisted living facility located in Hoover, Alabama. The sale is subject to the completion of satisfactory due diligence, the receipt of required licenses and other state regulatory approvals, and the satisfaction of other customary closing conditions (see Note 16 - Subsequent Events, located in Part I, Item 1., Notes to Consolidated Financial Statements).

For the discontinued operations, the patient care revenue, related cost of services, and facility rental expense prior to the commencement of subleasing are classified in the activities below. For a historical description of the Company's discontinued entities, see Item 8, Notes to Consolidated Financial Statements - Note 11 - Discontinued Operations, of the Company's Annual Report on Form 10-K for the year ended December 31, 2014 (the "Annual Report").

The following table summarizes the activity of discontinued operations for the three and six months ended June 30, 2015 and 2014:

### Primary Performance Indicators

We own, operate and manage skilled nursing facilities and assisted living facilities, and deliver our services through wholly owned separate operating subsidiaries.

We focus on two primary indicators in evaluating the Company's financial performance. Those indicators are facility occupancy and patient mix. Facility occupancy is critical as higher occupancy generally leads to higher revenues. In addition, concentrating on increasing the number of Medicare covered admissions ("the patient mix") helps in increasing revenues. We include commercial insurance covered admissions that are reimbursed at the same level as those covered by Medicare in our Medicare utilization percentages and analysis.

Average occupancy rates at all of our facilities, excludes discontinued operations and managed facilities, for the three and six months ended June 30, 2015 and 2014, were as follows:

	Average Occupancy		Average Occupancy		
	Three Months Ended June 30,	2014	Six Months Ended June 30,	2014	
	2015		2015		
All facilities	82.1	% 83.6	% 82.4	% 83.9	%

Patient mix at our eleven skilled nursing facilities, excluding discontinued operations and managed facilities, for the three and six months ended June 30, 2015 and 2014, was as follows:

Table of Contents

	Patient Mix (SNF only) Three Months Ended June 30, All Facilities		Patient Mix (SNF only) Six Months Ended June 30, All Facilities		
	2015	2014	2015	2014	
Medicare	14.1	% 14.9	% 14.3	% 14.6	%

On July 31, 2014, the Centers for Medicare and Medicaid Services ("CMS") issued a final rule outlining fiscal year 2015 (which began October 1, 2014) Medicare payment rates for skilled nursing facilities. Based on the changes contained within the rule, CMS estimates that aggregate payments to skilled nursing facilities will increase by \$750 million, or 2.0%, from payments in fiscal year 2014 (which began October 1, 2013), which represents a higher update factor than the 1.3% update finalized for skilled nursing facilities in fiscal year 2014. This estimated increase is attributable to a 2.5% market basket increase, reduced by the 0.5 percentage point multifactor productivity adjustment required by law.

On July 30, 2015, CMS issued a final rule outlining fiscal year 2016 (which begins October 1, 2015) Medicare payment rates for skilled nursing facilities. Based on the changes contained within the rule, CMS estimates that aggregate payments to skilled nursing facilities will increase by \$430 million, or 1.2%, from payments in fiscal year 2015 (which began October 1, 2014), which represents a lower update factor than the 2.0% update finalized for skilled nursing facilities in fiscal year 2015. This estimated increase is attributable to a 2.3% market basket increase, reduced by a 0.6 percentage point forecast error adjustment and further reduced by the 0.5 percentage point multifactor productivity adjustment required by law.

Medicare reimburses our SNFs under a prospective payment system ("PPS") for certain inpatient covered services. Under PPS, facilities are paid a predetermined amount per patient, per day, based on the anticipated costs of treating patients. Should future changes in PPS include further reduced rates or increased standards for reaching certain reimbursement levels (including as a result of automatic cuts tied to federal deficit cut efforts or otherwise), our Medicare revenues derived from our skilled nursing facilities could be reduced, with a corresponding adverse impact on our financial condition or results of operations.

We also derive a substantial portion of our consolidated revenue from Medicaid reimbursement, primarily through our skilled nursing business. Medicaid programs are administered by the applicable states and financed by both state and federal funds. Medicaid spending nationally has increased significantly in recent years, becoming an increasingly significant component of state budgets. This, combined with slower state revenue growth and other state budget demands, has led the Federal government to institute measures aimed at both controlling the growth of Medicaid spending and, in some instances, reducing it.

Historically, adjustments to reimbursement under Medicare and Medicaid have had a significant effect on our revenue and results of operations. Recently enacted, pending and proposed legislation and administrative rulemaking at the federal and state levels could have similar effects on our business. Efforts to impose reduced reimbursement rates, greater discounts and more stringent cost controls by government and other payors are expected to continue for the foreseeable future and could adversely affect our business, financial condition and results of operations. Additionally, any delay or default by the Federal or state governments in making Medicare and/or Medicaid reimbursement payments could materially and adversely affect our business, financial condition and results of operations.

Average occupancy and reimbursement rates at the Company's eleven skilled nursing facilities for the three and six months ended June 30, 2015 and 2014, were as follows:

### Critical Accounting Policies

We prepare financial statements in accordance with Generally Accepted Accounting Principles ("GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets, liabilities, revenues and expenses. We base estimates on historical experience, business knowledge and on various other assumptions that we believe

to be reasonable under the circumstances at the time. Actual results may vary from our estimates. These estimates are evaluated by management and revised as circumstances change.

During the six months ended June 30, 2015, we adopted Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-08, which amends the definition of a discontinued operation to include only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. This ASU is applied prospectively and is effective for the Company for the 2015 annual and interim periods.

Patient Care Revenues—Total patient care revenues decreased by \$0.6 million, or 3.1%, for the three months ended June 30, 2015, as compared with the same period in 2014. The decrease was primarily due to a slight decrease in the skilled nursing facility occupancy rate from 82.2% to 81.5% and a decrease in the skilled nursing facility average Medicare reimbursement rate per patient day from \$445.56 to \$443.88, or 0.4%.

Management Revenues—Management revenues decreased by \$0.05 million, or 15.8%, for the three months ended June 30, 2015, as compared with the same period in 2014. The decrease is primarily due to the discontinuance of a management agreement effective as of December 31, 2014.

Rental Revenues—Rental revenues increased by \$3.9 million, or 1,320.6%, for the three months ended June 30, 2015, as compared with the same period in 2014. The increase reflects the Company's continuing transition to a healthcare property holding and leasing company in 2015 and accordingly a greater amount of rental revenue as entities transition and facilities are leased to third parties.

Table of Contents

Cost of Services—Cost of services increased by \$0.8 million, or 5.3%, during the three months ended June 30, 2015, as compared with the same period in 2014. The increase is primarily due to the following: (i) an increase of \$0.8 million in bad debt expense; (ii) an increase of \$0.3 million in nursing expense; (iii) an increase of \$0.2 million in professional liability insurance expense; and (iv) an increase of \$0.2 million in pharmacy (Medicare) expense. The increases were offset only by decreases to administration, therapy, and social services of \$0.6 million, \$0.1 million, and \$0.1 million, respectively. Cost of services as a percentage of patient care revenue increased from 82.3% for the three months ended June 30, 2014, to 89.4% for the three months ended June 30, 2015.

General and Administrative—General and administrative costs decreased by \$1.7 million, or 39.9%, during the three months ended June 30, 2015, as compared with the same period in 2014. The net decrease is primarily due to the following: (i) a decrease in salaries, wages and employee benefits expense of approximately \$1.2 million, partially offset by an increase in contract services expense of approximately \$0.2 million; (ii) a decrease of \$0.3 million in legal expenses; and (iii) a decrease of approximately \$0.1 million in travel and other reimbursable expenses.

Facility Rent Expense —Facility rent expense increased by \$1.0 million, or 109.3%, during the three months ended June 30, 2015, as compared with the same period in 2014. The increase is primarily due to the treatment of certain facility rent expense as part of continuing operations for the three months ended June 30, 2015, in connection with the Company's continuing transition to a healthcare property holding and leasing company. Prior to the announcement of the transition plan, certain facility rent expense was classified as part of discontinued operations for the three months ended June 30, 2014.

Salary retirement and continuation costs —Salary retirement and continuation costs decreased by \$1.3 million, or 103.0%, during the three months ended June 30, 2015, as compared with the same period in 2014. The decrease reflects the Company's continuing transition to a healthcare property holding and leasing company wherein staff reductions and related severance packages were recognized in 2014.

Depreciation and Amortization—Depreciation and amortization decreased by \$0.06 million, or 3.2%, during the three months ended June 30, 2015, as compared with the same period in 2014. The decrease is primarily due to certain assets becoming fully depreciated in 2014 and the decrease in capital expenditures for the three months ended June 30, 2015, as compared with the same period in 2014.

Interest Expense, net—Interest expense, net decreased by \$0.3 million, or 12.4%, during the three months ended June 30, 2015, as compared with the same period in 2014. The decrease is primarily due to the refinancing of certain loan agreements to more favorable terms and the extinguishment of certain other debt (for further information, see Note 9 - Notes Payable and Other Debt, located in Part I, Item 1., Notes to Consolidated Financial Statements).

**Cost of Services**—Cost of services increased approximately \$1.9, or 6.0%, for the six months ended June 30, 2015, as compared with the same period in 2014. The increase is primarily due to the following: (i) an increase of \$0.9 million in bad debt expense; (ii) an increase of \$0.3 million in nursing expense; (iii) an increase of \$0.2 million in insurance expense; and (iv) an increase of \$0.2 million in pharmacy (Medicare) expense. The increases were offset only by a decrease to social services of \$0.1 million. Cost of services as a percentage of patient care revenue increased from 81.9% for the six months ended June 30, 2014, to 88.8% for the six months ended June 30, 2015.

**General and Administrative**—General and administrative costs decreased by \$3.1 million to \$5.7 million for the six months ended June 30, 2015, compared with \$8.7 million for the same period in 2014. The net decrease is primarily

due to the following: (i) a decrease in salaries, wages and employee benefits expense of approximately \$2.6 million, partially offset by an increase in contract services expense of approximately \$0.7 million; (ii) a decrease of \$0.3 million in legal expenses; and (iii) a decrease of approximately \$0.2 million in travel and other reimbursable expenses.

Facility Rent Expense—Facility rent expense for the six months ended June 30, 2015, increased by approximately \$1.1 million to \$3.0 million, compared with \$1.9 million for the same period in 2014, respectively. Company's continuing transition to a healthcare property holding and leasing company. Prior to the announcement of the transition plan, certain facility rent expense was classified as part of discontinued operations for the six months ended June 30, 2014.

Salary retirement and continuation costs —Salary retirement and continuation costs decreased by \$1.3 million, or 103.7%, during the six months ended June 30, 2015, as compared with the same period in 2014. The decrease reflects the Company's continuing transition to a healthcare property holding and leasing company wherein staff reductions and related exit packages were recognized in 2014.

Depreciation and Amortization—Depreciation and amortization for the six months ended June 30, 2015, decreased by \$0.1 million to \$3.5 million, compared with \$3.6 million for the same period in 2014. The decrease is primarily due to certain assets becoming fully depreciated in 2014 and the decrease in capital expenditures for the six months ended June 30, 2015, as compared with the same period in 2014

Interest Expense, net—Interest expense, net decreased by \$0.4 million, or 7.8%, to \$4.8 million for the six months ended June 30, 2015, compared with \$5.2 million for the same period in 2014. The decrease is primarily due to the refinancing of certain loan agreements to more favorable terms and the extinguishment of certain other debt (for further information, see Note 9 - Notes Payable and Other Debt, located in Part I, Item 1., Notes to Consolidated Financial Statements).

Loss on Extinguishment of Debt—The Company recognized a loss on extinguishment of debt of approximately \$0.7 million for the six months ended June 30, 2015, compared with approximately \$0.6 million for the same period in 2014. The \$0.7 million loss is due to the February 2015 issuance of promissory notes related to the refinancing of certain loan agreements with one of our lenders (for further information, see Note 9 - Notes Payable and Other Debt, located in Part I, Item 1., Notes to Consolidated Financial Statements).

Other Expense—The Company recognized approximately \$0.5 million of other expense for the six months ended June 30, 2015, compared with approximately \$0.2 million for the same period in 2014. The increase is primarily due to additional costs associated with the Company's continuing transition to a healthcare property holding and leasing company and legal fees associated with ongoing litigation matters.

Income Tax Expense—The Company recognized income tax expense of approximately \$0.02 million for the six months ended June 30, 2015, compared with approximately \$0.01 million for the same period in 2014. The increase of \$0.01 million is primarily due to the submission of additional filing extensions related to the 2014 tax year.

### Liquidity and Capital Resources

#### Sources of Liquidity

At June 30, 2015, we had \$15.3 million in cash and cash equivalents as well as restricted cash and investments of \$14.4 million. Over the next 12 months, we anticipate both access to and receipt of several sources of liquidity.

At June 30, 2015, we had one facility, three office buildings and one VIE held for sale that we anticipate selling in 2015. We expect that the cash proceeds and the release of restricted cash on the sale of the VIE and the sale of the one facility will be approximately equivalent to the related debt obligations. We expect that the cash proceeds from the sale of the office buildings will exceed related debt obligations by approximately \$0.6 million.

We routinely have ongoing discussions with existing and potential new lenders to refinance current debt on a longer term basis and, in recent periods, have refinanced short-term acquisition debt, including seller notes, with traditional long-term mortgage notes, some of which have been executed under government guaranteed lending programs.

During the remainder of 2015, we anticipate net proceeds of approximately \$1.6 million on refinancing of existing debt, primarily in the fourth quarter of 2015, subject to approval by the United States Department of Housing and Urban Development.

We maintain two revolving lines of credit for which we have limited remaining capacity. All balances on these lines of credit are expected to be repaid in 2015. Given the Company's ongoing transition out of healthcare operations, we do not anticipate any additional draws on these credit lines.

On April 13, 2015, we issued and sold 575,000 shares of Series A Cumulative Redeemable Preferred Stock, no par value per share and liquidation preference of \$25.00 per share (the "Series A Preferred Stock"), in a "best efforts" registered public offering for

## Table of Contents

a public offering price of \$25.75 per share. In connection therewith, we received net proceeds of \$13.8 million, after the payment of underwriting commissions and discounts and other offering expenses payable by the Company.

On June 2, 2015, we issued and sold 588,235 shares of Series A Preferred Stock in a “best efforts” registered public offering for a public offering price of \$25.50 per share. In connection therewith, we received net proceeds of approximately \$14.2 million after the payment of underwriting commissions and discounts and other offering expenses payable by the Company (see Note 11 - Dividends and Equity, located in Part I, Item 1., Notes to Consolidated Financial Statements).

On July 21, 2015, we entered into separate at market issuance sales agreements with two sales agents, pursuant to which we may offer and sell, from time to time, up to 800,000 shares of Series A Preferred Stock through an “at the market” offering program (see Note 16 - Subsequent Events, located in Part I, Item 1., Notes to Consolidated Financial Statements).

On July 30, 2015, we entered into an amendment, effective July 31, 2015, to a certain 8% subordinated convertible note issued by the Company and due July 31, 2015, with a then-current principal amount of \$4,847,000, to, among other things: (i) extend the maturity date of such note with respect to \$1,500,000 of its principal amount to October 31, 2017; (ii) increase the interest rate from 8.0% to 10.0% per annum; and (iii) increase the conversion price from \$3.97 to \$4.25 per share (see Note 9 - Notes Payable and Other Debt, Note 15 - Related Party Transactions and Note 16 - Subsequent Events, each of which is located in Part I, Item 1., Notes to Consolidated Financial Statements).

Other liquidity sources include to a lesser extent, the proceeds from the exercise of options and warrants.

### Cash Requirements

At June 30, 2015, we had \$146.3 million in indebtedness of which the current portion was \$27.6 million. This current portion is comprised of: (i) convertible debt of approximately \$4.5 million; (ii) debt of held for sale entities of approximately \$15.3 million, which is primarily senior debt - bond and mortgage indebtedness; and (iii) remaining debt of approximately \$7.8 million which includes revolver debt, senior debt - bonds, and senior debt - mortgage indebtedness (for a complete debt listing and credit facility detail, see Note 9 - Notes Payable and Other Debt, located in Part I, Item 1., Notes to Consolidated Financial Statements).

The convertible debt includes the 8% subordinated convertible note which was amended effective July 31, 2015 and described under “-Sources of Liquidity” (see Note 9 - Notes Payable and Other Debt, Note 15 - Related Party Transactions and Note 16 - Subsequent Events, each of which is located in Part I, Item 1., Notes to Consolidated Financial Statements).

The current debt maturing in 2015 for all other debt approximates \$7.8 million. As indicated previously, we routinely have ongoing discussions with existing and potential new lenders to refinance current debt on a longer term basis and, in recent periods, have refinanced shorter term acquisition debt, including seller notes, with traditional longer term mortgage notes, some of which have been executed under government guaranteed lending programs.

We anticipate net principal disbursements of approximately \$9.8 million over the next twelve months which reflect the offset of anticipated proceeds on refinancing of approximately \$2.5 million. We anticipate operating cash requirements in 2015 as being less than in 2014 due to the Company's transition to a healthcare property holding and leasing company. Based on the described sources of liquidity and related cash requirements, we expect sufficient funds for its operations, scheduled debt service, and capital expenditures at least through the next twelve months. On a

longer term basis, at June 30, 2015, we have approximately \$64.2 million of debt maturities due over the next two-year period, ending June 30, 2017, excluding convertible notes which are convertible into shares of common stock. We have been successful in recent years in raising new equity capital and believe, based on recent discussions, that these markets will continue to be available to us for raising capital in 2015 and beyond. We believe the Company's long-term liquidity needs will be satisfied by these same sources, as well as borrowings as required to refinance indebtedness.

In order to satisfy the Company's capital needs, we seek to:(i) improve operating results through a series of leasing and subleasing transactions with favorable terms and consistent and predictable cash flow; (ii) expand borrowing arrangements with certain lenders; (iii) refinance current debt where possible to obtain more favorable terms; and (iv) raise capital through the issuance of debt or equity securities on terms favorable to the Company. We anticipate that these actions, if successfully executed, will provide the opportunity to maintain liquidity on a short-and-long term basis, thereby permitting the Company to meet our operating and financing obligations for the next twelve months. However, there is no guarantee that such actions will be successful or that anticipated operating results or the transition of the Company to primarily a property holding and leasing company will be achieved. We currently have limited borrowing availability under our existing revolving credit facilities.

## Notes Payable and Other Debt

## Table of Contents

For information regarding the Company's debt financings, please refer to Note 9 - Notes Payable and Other Debt, located in Part I, Item 1., Notes to Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

### Receivables

The Company's operations could be adversely affected if we experience significant delays in: (i) reimbursement from Medicare, Medicaid or other third-party revenue sources; or (ii) collection of rent from third-party operators. As the Company continues its transition to a healthcare property holding and leasing company, our operations will become less dependent upon patient care reimbursements and increasingly dependent upon the collection of rent. The Company's future liquidity will continue to be dependent upon the relative amounts of current assets (principally cash and patient accounts receivable) and current liabilities (principally accounts payable and accrued expenses). In that regard, accounts receivable can have a significant impact on our liquidity.

Accounts receivable totaled \$16.7 million at June 30, 2015, compared to \$24.3 million at December 31, 2014, representing approximately 53 and 44 days of revenue in accounts receivable as of June 30, 2015 and December 31, 2014, respectively.

The allowance for doubtful accounts was \$10.9 million and \$6.7 million at June 30, 2015 and December 31, 2014, respectively. We continually evaluate the adequacy of our bad debt reserves based on patient mix trends, aging of older balances, payment terms and delays with regard to third-party payors, as well as other factors. We continue to evaluate and implement additional processes to strengthen our collection efforts and reduce the incidence of uncollectible accounts.

### Inflation

We have historically derived a substantial portion of our revenue from the Medicare program. We also derive revenue from state Medicaid and similar reimbursement programs. Payments under these programs generally provide for reimbursement levels that are adjusted for inflation annually based upon the state's fiscal year for the Medicaid programs and in each October for the Medicare program. These adjustments may not continue in the future, and even if received, such adjustments may not reflect the actual increase in our costs for providing healthcare services.

Labor and supply expenses make up a substantial portion of our cost of services. Those expenses can be subject to increase in periods of rising inflation and when labor shortages occur in the marketplace. To date, we have generally been able to implement cost control measures or obtain increases in reimbursement sufficient to offset increases in these expenses. We may not be successful in offsetting future cost increases.

### Off-Balance Sheet Arrangements

There were \$3.8 million of outstanding letters of credit at both June 30, 2015 and December 31, 2014. For the period ended June 30, 2015, the outstanding letter of credit were fully collateralized with restricted cash deposits. For the period ended December 31, 2014, the outstanding letters of credit were fully collateralized with accounts receivable.

### Operating Leases

We lease a total of eleven skilled nursing facilities under non-cancelable operating leases, most of which have initial lease terms of ten to twelve years with rent escalation clauses and provisions for payments by the Company of real estate taxes, insurance and maintenance costs; three of the skilled nursing facilities that are leased are also operated by the Company. We also lease certain office space with similar provisions as the aforementioned skilled nursing facility leases.

Eight of the Company's skilled nursing facilities are operated under a single master indivisible lease arrangement, dated August 1, 2010, with William M. Foster as landlord (the "Prime Lease"). The lease has a term of ten years into 2020. Under the Prime Lease, a breach at a single facility could subject one or more of the other facilities covered by

the same master lease to the same default risk. Failure to comply with regulations or governmental authorities, such as Medicaid and Medicare provider requirements, is a default under the Prime Lease. In addition, other potential defaults related to an individual facility may cause a default of the entire Prime Lease. With an indivisible lease, it is difficult to restructure the composition of the portfolio or economic terms of the lease without the consent of the landlord. As previously disclosed, on May 18, 2015, the landlord delivered to the Company a notice which alleges that the Company is in default under the Prime Lease for, among other reasons, subleasing the facilities to third-party operators without the landlord's written consent and reserves the landlord's right to terminate the Prime Lease and/or pursue any other remedy available at law or

Table of Contents

in equity. The Company does not believe that it is in default under the Prime Lease and is in discussions with the landlord regarding the matter.

Two of the Company's facilities are operated under a single indivisible lease; therefore, a breach at a single facility could subject the second facility to the same default risk. The lease has an initial term of twelve years into 2022 and two optional ten-year renewal terms, and includes covenants and restrictions. We are required to make minimum capital expenditures of \$375 per licensed bed per lease year at each facility which amounts to \$0.1 million per year for both facilities. As of June 30, 2015, we are in compliance with all financial and administrative covenants of this lease agreement.

Future minimum lease payments for each of the next five years ending December 31, are as follows:

	(Amounts in 000's)
2015 <sup>(a)</sup>	\$4,000
2016	7,980
2017	8,062
2018	8,188
2019	7,861
Thereafter	8,279
Total	\$44,370

<sup>(a)</sup> Estimated minimum lease payments for the year ending December 31, 2015, include only payments to be recorded after June 30, 2015.

We have also entered into lease agreements for various equipment used in the facilities. These leases are included in future minimum lease payments above.

#### Leased and Subleased Facilities to Third-Party Operators

In connection with the Company's strategic plan to transition to a healthcare property holding and leasing company, twenty-three facilities (fifteen owned by us and eight leased to us) are leased or subleased on a triple net basis, meaning that the lessee (i.e., the new third-party operator of the property) is obligated under the lease or sublease, as applicable, for all liabilities of the property in respect to insurance, taxes and facility maintenance, as well as the lease or sublease payments, as applicable.

Future minimum lease receivables from the Company's facilities leased and subleased to third party operators for each of the next five years ending December 31, are as follows:

	(Amounts in 000's)
2015 <sup>(a)</sup>	\$ 10,273
2016	21,146
2017	21,596
2018	22,030
2019	21,753
Thereafter	75,834
Total	\$ 172,632

<sup>(a)</sup> Estimated minimum lease receivables for the year ending December 31, 2015, include only payments to be received after June 30, 2015.

For further details regarding the Company's leased and subleased facilities to third-party operators, see below and also Note 16 - Subsequent Events, located in Part I, Item 1., Notes to Consolidated Financial Statements and Note 7 - Leases included in the Annual Report.

On April 30, 2015, in connection with the Aria Lease Inducement, the eight sublease agreements with the Aria Sublessees were amended to, among other things, provide that the Aria Sublessees shall, collectively, pay to the Aria Sublessors special rent in the amount of \$29,500 per month payable in advance on or before the first day of each month (except for the first special rent payment, which was subtracted from the lease inducement fee paid by the Company under the Aria Lease Inducement).

As a condition to the Aria Sublessees agreement to a commencement date of May 1, 2015, the Company and the Aria Sublessees agreed to assess, in good faith and within thirty (30) days following the commencement date, making a one-time equitable adjustment to base rent equal to the difference between the facilities 2014 professional liability and general liability insurance costs and projected costs for the first lease year of comparable or mutually acceptable insurance as further adjusted by anticipated Medicaid reimbursement rate increases solely from such added costs. Pursuant to each sublease agreement, the initial lease term is ten years with a five-year renewal option. The annual base rent under all of the sublease agreements in the first year is \$5.3 million in the aggregate, exclusive of any equitable adjustment, and the annual base rent under each sublease will escalate at 2% each year through the initial term and 3% per year upon renewal. On July 17, 2015, the Company made a short-term loan to HAH and, in connection therewith, HAH executed a promissory note in the amount \$1.2 million in favor of the Company. Interest accrues on the unpaid principal balance of the note at a rate of 12.5% per annum (see Note 16 - Subsequent Events, located in Part I, Item 1., Notes to Consolidated Financial Statements).

Adjusted EBITDA from continuing operations

Due to the material amount of non-cash related items included in the Company's results of operations, we have developed an Adjusted Earnings Before Interest, Taxes, Depreciation, and Amortization ("Adjusted EBITDA from continuing operations") metric which provides management with a clearer view of operational uses of cash (see the table below).

"Adjusted EBITDA from continuing operations" is a measure of operating performance that are not calculated in accordance with GAAP. We define "Adjusted EBITDA from continuing operations" as net income (loss) from continuing operations before interest expense, income tax expense, depreciation and amortization (including amortization of non-cash stock-based compensation), loss on extinguishment of debt, and other non-routine adjustments. We have provided below supplemental financial disclosure for these measures, including the most directly comparable GAAP measure (Net Loss) and an associated reconciliation.

Table of Contents

The following table provides reconciliation of reported Net Loss on a GAAP basis to Adjusted EBITDA from continuing operations for the three and six months ended June 30, 2015 and 2014:

Adjusted EBITDA from continuing operations should not be considered in isolation or as a substitute for net income, income from operations or cash flows provided by, or used in, operations as determined in accordance with GAAP.

We believe Adjusted EBITDA from continuing operations is useful to investors in evaluating the Company's performance, results of operations and financial position for the following reasons:

- It is helpful in identifying trends in the Company's day-to-day performance because the items excluded have little or no significance to the Company's day-to-day operations;

- It provides an assessment of controllable expenses and afford management the ability to make decisions which are expected to facilitate meeting current financial goals as well as achieve optimal financial performance; and

- It provides data that assists management determine whether or not adjustments to current spending decisions are needed.
