Note 3 GOING CONCERN

The Company's financial statements for the periods ended December 31, 2005 and 2004 show incurred net losses of \$1,725,339 and \$520,149, respectively, and has a working capital deficiency of \$4,340,158, as of December 31, 2005, raising substantial doubt about the company's ability to continue as a going concern. Management's plans to address concerns raised by this issue include:

a. Through the acquisition of Plum Creek Outpatient and administrative services agreement with Stat Anesthesia, P.C., the Company believes it has already acquired significant asset and adequate liquid assets for operation. Furthermore, management believes these companies will provide significant cash flow to provide for all corporate needs.

b. The Company also plans to raise additional capital and is working with a number of financial sources to achieve this.

There is no assurance that these or any efforts will be successful. However, management believes that these measures will enable the Company to have adequate funds to support operations for the next twelve months.

OVERVIEW:

Omni Medical Holdings (ONMH:OTCBB) provides a turn key back office suite of products and services to doctors, clinics and hospitals throughout the country. Omni continues to grow through its acquisition strategy and unique combination of product offerings.

Omni Medical has positioned itself to offer a complete back office solution of products and services for all medical practitioners.

Omni's DataFuzion subsidiary provides a complete line of integrated back-office products including GE Centricity and Misys practice management and electronic medical records solutions, and a proprietary web based decision support reporting tools for physicians and hospitals (InfoBridge™). Our ASP hosted products are designed to maximize practice performance by identifying revenue enhancement and cost savings opportunities, while eliminating the up front costs and ongoing expense of owning, upgrading, staffing and maintaining multiple in-house operations and reporting systems.

When practitioners provide patient care, those actions must be documented, usually by electronic dictation. Government and insurance regulations are such that these important medical records, which affect patient health, must be in readable form. Through our transcription division, this service can be delivered to any practitioner in the world through our proprietary digital web based system. All of our services are performed in the United States.

Medical billing and collections are the lifeblood of any healthcare facility, with accurate and timely collections insuring an effective practice and high standard of care. The billing process is automated through either of Omni's Centricity or Misys based hubs. Our nearly 20 years of experience extends to most medical areas, especially anesthesiology.

Omni's complete back office solution gives:

Edgar Filing: OMNI MEDICAL HOLDINGS INC - Form 10QSB

- * New revenue opportunities to our customers;
- * More streamlined workflow;
- * Executive managers the ability to use disease management benchmarking data, increasing revenue and providing better patient outcomes;
- * Elimination of costly data errors;
- * Ability to integrate hardware and software with other systems; and
- * "Drill down" from multiple servers, and provides greater analytical solutions.

The opportunities in the healthcare services market are enormous and the next 10 years will bring dramatic changes in how healthcare practitioners manage and operate their practices. Omni Medical Holdings, along with its DataFuzion subsidiary, is currently positioned to take advantage of those opportunities now.

RESULTS OF OPERATIONS

Three months ended December 31, 2005.

During the quarterly period ended December 31, 2005, we recorded revenue from continuing operations of \$1,251,743, a substantial increase from revenue from continuing operations of \$238,518 in the quarter ended December 31, 2004.

Cost of sales from continuing operations totaled \$740,567, versus \$169,180 in the third fiscal quarter of 2005.

During the third fiscal quarter of 2005, we recorded general and administrative expenses of \$1,114,906. These expenses totaled \$178,375 in the year-ago period.

Interest expense was \$281,691 and \$10,461 for the three-month period ended December 31, 2005, and December 31, 2004, respectively.

For the three-month period ended December 31, 2005, we incurred a loss of \$780,155, as compared to a loss of \$249,402 for the three-month period ended December 31, 2004.

Revenue increased 425% during the three months ended December 31, 2005, compared to the three month period ended December 31, 2004, due to the acquisitions of DataFuzion, Stat Anesthesia and Plum Creek Outpatient. Cost of sales increased 338% and general expenses increased 525% versus the prior year due to higher operating costs associated with DataFuzion and Stat Anesthesia. This included a 363% increase in depreciation expense and a 26 fold increase in interest expense over the previous year. Net loss increased 212% for the previously stated reason. We expect continued high levels of depreciation as DataFuzion takes a conservative accounting approach to its equipment and intangible assets. Interest expense will continue to remain high until such time as the convertible bondholders exchange their debt for equity.

Nine months ended December 31, 2005.

During the nine months ended December 31, 2005, we recorded revenue from continuing operations of \$4,233,046, an increase from revenue from continuing operations of \$722,093 in the nine months ended December 31, 2004.

We currently lease office space under an operating lease for \$6,000 per month, which terminates July 31, 2006.

Effective March 1, 2005, Omni entered into an Employment Agreement with Arthur D. Lyons, its chief executive officer and Douglas Davis, President through March 1, 2010. The agreement provides compensation at an annual base salary of \$180,000, a \$1,000 a month auto allowance, fully paid health insurance and a bonus of 1% of gross revenue, paid quarterly to each.

During December 2003, Omni entered into a Loan Agreement and Security Agreement with Presidential Financial Corporation allowing Omni to borrow up to 80% against certain of its accounts receivable or \$300,000, whichever is less. The loan is secured by accounts receivable and other tangible assets of Omni and accrues interest at prime plus 2%. As of December 31, 2005, approximately \$45,000 was owed on the line of credit.

During August 2005, Omni entered into a Loan Agreement and Security Agreement with Alamo Capital Corporation allowing Omni to borrow 80% against the value of certain specified accounts receivable up to \$500,000. The loan is secured by certain accounts receivable and accrues interest at prime plus 2%. As of December 31, 2005, approximately \$72,000 was owed on this line of credit.

On October 26, 2005, the Company entered into a Note Purchase Agreement with Sigma Opportunity Fund, LLC. Under the note purchase agreement, Sigma purchased from Omni a Senior Note due April 26, 2006, for \$400,000. Interest is accrued on the note at 5% per annum or 12% per annum in the case of default. In connection with the purchase, the Company issued warrants to purchase 15,000 pre-split shares of Omni common stock for each \$1,000 principal amount of the note for an aggregate of 6,000,000 pre-split shares (1,500,000 post-split shares) with an exercise price of \$0.001 per pre-split share (\$0.005 per post split share) with a 7-year life.

The proceeds from the note have been discounted for the relative fair value of the warrants and the discount. All discounts will be amortized over the life of the notes.

The Company has classified the warrants as derivatives and have recorded them at their fair value. The fair value of the warrants is estimated on the commitment date using the Black-Scholes option-pricing model with the following assumptions: dividend yield of 0%, expected volatility of 250%, risk-free interest rate of 1.5% and expected life of 7 years.

Item 3. Controls and Procedures.

As of the end of the period covered by this Quarterly Report, we carried out an evaluation, under the supervision and with the participation of our President and Treasurer, of the effectiveness of our disclosure controls and procedures. Based on this evaluation, our President and Treasurer concluded that our disclosure controls and procedures are effectively designed to ensure that information required to be disclosed or filed by us is recorded, processed or summarized, within the time periods specified in the rules and regulations of the Securities and Exchange Commission. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. In addition, we reviewed our internal controls over financial reporting, and there have been no changes in our internal controls or in other factors in the last fiscal quarter that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

An action has been brought by holders of promissory notes issued by our Company's majority-owned subsidiary, DataFuzion, Inc. for enforcement of the notes and possession of substantially all assets of DataFuzion which are alleged to secure payment of the notes. Plaintiffs filed a motion for possession of the assets, which was denied by the court. DataFuzion does not dispute the execution or delivery of the notes and has recorded the notes in these financial statements. In addition, DataFuzion has some claims against some of the Plaintiffs which may give rise to offsets or counterclaims against some (but in all likelihood, not all) of the Plaintiffs. Those claims have not yet been pled or fully factually explored. The current status of this matter is that the Plaintiffs have filed a Motion for Summary Judgement, seeking judgment for the notes balances (without enforcement of their claimed security interest). DataFuzion has sought and obtained an extension of time to respond to this Motion, and has initiated settlement discussions with Plaintiffs. Those settlement negotiations are ongoing.

Three former employees of DataFuzion have also brought an action against the Company seeking back pay in total of approximately \$60,000. DataFuzion disputes the claims but has offered settlement of approximately \$12,000, which has been rejected. Discussions are ongoing.

Two shareholders of DataFuzion have brought an action against DataFuzion for royalties due them related to new sales of DataFuzion's "Infobridge" software. DataFuzion disputes the amounts owed and has entered into settlement negotiations with the shareholders.
