FIRST EQUITY PROPERTIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

First Equity Properties, Inc. is Nevada based corporation organized in December 19, 1996 and the Company is headquartered in Dallas, TX. The Company's principal line of business and source of revenue has been earnings on investments and interest on notes receivable. Management of the Company is exploring alternatives, seeking to establish or acquire new business operations for the Company. Management cannot predict or give any assurance that any new business enterprise will be acquired by the Company at any time in the near future. FEPI's common stock is publicly held however, no trading market presently exists for the shares of common stock and its value is therefore not determinable.

Basis of presentation

The accompanying unaudited financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States, or GAAP, have been condensed or omitted in accordance with such rules and regulations, although management believes the disclosures are adequate to prevent the information presented from being misleading. In the opinion of management, all adjustments (consisting of normal recurring matters) considered necessary for a fair presentation have been included. Certain 2011 balances have been reclassified to conform to the 2012 presentation.

The year-end Balance Sheet at December 31, 2013, was derived from the audited financial statements at that date, but does not include all of the information and disclosures required by GAAP for complete financial statements. For further information, refer to the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Cost capitalization

Costs related to planning and developing a project are capitalized and classified as Real Estate development costs in the Consolidated Balance Sheets. We capitalized certain operating expenses until development is substantially complete, but no later than one year from the cessation of major development activity.

Newly issued accounting pronouncements

We have considered all other newly issued accounting guidance that is applicable to our operations and the preparation of our statements, including that which we have not yet adopted. We do not believe that any such guidance will have a material effect on our financial position or results of operation.

NOTE 2. FEDERAL INCOME TAXES

The Company accounts for income taxes in accordance with Accounting Standards Codification, ("ASC") No. 740, "Accounting for Income Taxes". ASC 740 requires an asset and liability approach to financial accounting for income taxes. In the event differences between the financial reporting basis and the tax basis of the Company's assets and liabilities result in deferred tax assets, ASC 740 requires an evaluation of the probability of being able to realize the future benefits indicated.

Recognition of the benefits of deferred tax assets will require the Company to generate future taxable income. There is no assurance that the Company will generate earnings in future years.

Transactions involving related parties cannot be presumed to be carried out on an arm’s length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in best interest of our company.

The Company has an administrative agreement with Pillar Income Asset Management, Inc., an affiliated entity, for accounting and administrative services. The total expense of the three months ended March 31, 2014 was \$15,000 which is included in General and Administrative expenses of the Consolidated Statements of Operations.

ITEM 2. MANAGER'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. When used, the words “anticipate”, “believe”, “estimate”, “expect”, “intend”, “may”, “might”, “plan”, “project”, “result”, “should”, “will” and similar expressions which do not relate solely to historical matters are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. We caution you that while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Related parties

We apply ASC Topic 805, “Business Combinations”, to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

Results of Operations

The following discussion is based on our Statement of Operations within our Financial Statements as presented in Part 1, Item 1 of this report for the three months ended March 31, 2014 and 2013. The discussion is not meant to be an all inclusive discussion of the changes within our operations. Instead, we have focused on the significant items relevant to obtain an understanding of the changes in our operations.

The results of operations for the three months ended March 31, 2014, are not necessarily indicative of the results that may be expected for other interim periods or for the full fiscal year.

Our sole source of income is from the interest received on affiliated receivables. The principal balances on those receivables have been consistent for the past years, thus making our revenues consistent from year to year. Expenses are primarily related to professional and administrative fees and interest on affiliated notes.

Comparison of the three months ended March 31, 2014 to the same period ended 2013.

We reported net loss applicable to common shareholders of (\$2,837) for the three months ended March 31, 2014 as compared to a net income to common shareholders of \$26,848 for the same period ended 2013.

The change from net income to net loss was primarily due to the increase in interest expense on notes payable due to an increase in the rate from 4.25% to 10%. General and administrative – affiliates expenses increased due to an increase in administrative fees and legal and professional fees increased due to an increase in audit fees.

Liquidity and Capital Resources

General

Our principal liquidity needs for the next twelve months are funding of normal recurring expenses including interest expense and legal and administrative fees.

Our principal source of cash is proceeds from interest income on our notes receivables. The following impacted our balance sheet as of March 31, 2014:

Our notes receivable and accrued interest – affiliates decreased due to payments received on principal and interest on notes receivables.

Our notes payable and accrued interest – affiliates decreased due to payments made on principal and interest owed on notes payable.

ITEM 3.

CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Financial Officer and Acting Principal Executive Officer of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Company's Chief Financial Officer and Acting Principal Executive Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting him to material information relating to the Company required to be included in the Company's periodic SEC filings.

(b) Changes in Internal Controls over Financial Reporting. There have been no changes in the Company's internal controls over financial reporting during the quarter ended March 31, 2014, that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.
