**ITEM 1.01. ENTRY INTO MATERIAL DEFINITIVE AGREEMENT**

**ITEM 8.01 OTHER EVENTS**

On July 26, 2006, SkyLynx Communications Inc. (the Company ) entered into a License Agreement with Innovative Concepts & Mfg. Co., Inc., a Florida corporation, ( ICMI or Licensee ) pursuant to which the Company granted to ICMI a non-exclusive worldwide license to utilize and commercially implement the proprietary FM Data Network developed by the Company. For such license, the Company shall receive royalty payments from ICMI as set forth in the License Agreement. The License has a term of 15 years.

ICMI is a company owned and controlled by Steven Smith, Chief Operating Officer and a director of the Company. The License Agreement was approved by the disinterested members of the Company's board of directors.

As a condition precedent to the License Agreement vesting in Licensee, the Company obtained a Release Agreement dated July 26, 2006 from Rural Metro, Inc. whereby all contractual relationships between the Company and Rural Metro, Inc., were terminated, the Company is fully released and Licensee is substituted in the place of the Company as to the Company's obligations under the Rural Metro contracts.

The Company's retains sole and complete ownership of all intellectual property rights associated with the Data Network, and has the right to commercially implement the Network and to license other interested parties. At the present time the Company is evaluating the operations of the Data Network and is exploring alternatives to increase shareholder value. The agreement with ICMI releases the Company from the capital requirements of fully executing the Rural Metro contract, but allows the Company to continue to own the Data Network. With the arrangement in place, management is able to focus on developing the business and prospects of VETCO Hospitals, Inc. (acquired in May 2006) where it believes the Company can add greater long term value for its shareholders.
