The Trustees and Participants of United Fire Group 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of the United Fire Group 401(k) Plan (the Plan) as of December 31, 2005 and 2004, and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2005 and 2004, and the changes in its net assets available for benefits for the year ended December 31, 2005, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2005, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. Such information has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2005

**1. DESCRIPTION OF PLAN**

The following description of the United Fire Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General** The Plan is a defined contribution plan covering all employees of the United Fire Group who have at least one hour of service and have attained age 21 or older. The United Fire Group is comprised of United Fire & Casualty Company and its wholly owned subsidiaries: United Life Insurance Company, Lafayette Insurance Company, Addison Insurance Company, American Indemnity Financial Corporation, American Indemnity Company, United Fire & Indemnity Company and Texas General Indemnity Company; and its affiliate United Fire Lloyds (collectively the Companies). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions** Each year, participants may elect to contribute up to an annual dollar limitation of their eligible compensation to the Plan through salary reduction. The Plan provides for payments by the participating employers to the Plan in such amounts as the Board of Directors of each of the Companies shall direct. No payments by participating employers have been made since the inception of the Plan.

**Participant Accounts** Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Companies' discretionary contributions and (b) Plan earnings, and charged with an allocation of Plan losses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of employer and participant contributions into various investment options offered by the Plan. Participants may change their investment options daily. The Plan currently offers seventeen mutual funds, a common collective trust, and a self-directed account in which participants have access to a money market account.

**Vesting** Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. Vesting in the remainder of the participant account balances is based on years of continuous service with full vesting after two years. A participant with less than two years of credited service is not vested except in the event of the participant's death or disability while employed by the Companies, at which time the participant becomes 100 percent vested. Because no payments by participating employers have been made since the inception of the Plan, there have been no unvested account balances since the inception of the Plan.

**Forfeitures** Upon termination, the nonvested portion of a participant's account balance is forfeited. Forfeitures are to be used to first reduce the Plan's ordinary and necessary administrative expenses for the Plan year and then reduce the employer contributions for the Plan year. Because there have been no unvested account balances since the inception of the Plan, there were no forfeited account balances included in the Plan's net assets available for benefits at December 31, 2005 or 2004.

**Participant Loans** Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years, except for the purpose of acquiring the person's personal residence for which the term is commensurate with local prevailing terms, as determined by the Companies. The loans are secured by the balance in the participant's account and bear interest at a rate determined at the time of each loan by the Plan administrator. Principal and interest is paid ratably through semi-monthly payroll deductions.

**Payment of Benefits** Upon termination of service, a participant may elect to receive either a direct rollover, a lump-sum amount equal to the value of their vested accounts or installment payments over a fixed period of time not to exceed the participant's life expectancy or the joint life expectancy of the participant and the participant's designated beneficiary. Prior to separation from service, participants may elect a hardship distribution in accordance with Plan policy.

**Administrative Expenses** The Plan's administrative expenses are paid by either the Plan or the Companies, as provided by the Plan document. The Companies paid substantially all administrative expenses for 2005.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

**Use of Estimates** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and changes therein during the reporting period. Actual results could differ from those estimates.

The Plan offers various investment instruments to its participants. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

**Valuation of Participant-Directed Investments at Fair Value and Participant Loans** Investments in mutual funds are stated at fair value based upon quoted market prices reported on recognized securities exchanges on the last business day of the year, which represents the net asset values of shares held by the Plan at the reporting date. The fair value of the participation units owned in the common collective trust fund is based on quoted redemption values on the last business day of the plan year. Investments in money market funds and participant loans are stated at cost, which approximates fair value. Purchases and sales of securities are recorded as of the trade date.

**Withdrawals** Participant withdrawals are recorded upon distribution.

## 3. INVESTMENTS
