Edgar Filing: KORE HOLDINGS, INC - Form 10KSB/A

Financial Corporation, a Nevada corporation ("First Washington"). First Washington is a mortgage loan originator in the home mortgage loan industry concentrated primarily in Washington, D.C., Maryland and Virginia. The acquisition of First Washington is deemed an acquisition of a significant subsidiary because it met a condition under Section 210.3-05 of Regulation SX.

Opportunity Knocks is in the business of acquiring, refurbishing and selling real estate. Opportunity Knocks specializes in HUD properties. The Company

The Company is a holding company formed in the State of Nevada whose subsidiaries include Arcadian, Sun Volt, Sun Electronics, First Washington, and Opportunity Knocks.

The Company is listed on the OTC Bulletin Board and its common stock traded under the stock symbol "VOLT" until October, 2004 when its symbol changed to "KORH".

The Alternative Energy Business

Arcadian's major asset is the Altamont Wind Generation Facility, which is an existing electricity generation facility located on approximately 4000 acres in the Altamonte Pass, east of San Francisco, CA (the "Wind Farm"). The Wind Farm has approximately 1300 wind turbines at present which were installed in the 1980's, approximately 600 of which are still operable. The Wind Farm will have to be re-powered in order to make its operation economically feasible. The Company plans to re-power the Wind Farm with new 950 KW state-of-the-art turbines. The Wind Farm is zoned and permitted for up to 114 megawatts, and the infrastructure includes the wind turbines, 300 miles of transmission lines, a 150 MW substation and an interconnection to the PG&E grid. The ground leases extend to 2036 with options to renew. The cost to produce electricity is approximately 4.5 cents per KWH, and is eligible for up to 3.5 cents of tax credits. Sale price of the electricity should be in the range of 6.9 cents per KWH with annual revenue in the \$5 Million range without calculating green tickets or tax credits and other incentives.

The Company is in the planning stages to re-power and activate its Wind Farm.

Edgar Filing: KORE HOLDINGS, INC - Form 10KSB/A

However, due to the uncertainty surrounding the Chapter 11 Reorganization Proceeding of Pacific Gas and Electric Company which was pending in the United States Bankruptcy Court in the Northern District of California until 2004, the Company is unsure of when it will be able to activate the Wind farm. Because of the bankruptcy, new power production contracts have to be negotiated.

Sun Electronics is conducting Photovoltaics research and development of a patented paint on cellprocess licensed to the company and other solar and energy related technologies.

Sun Volt is currently engaged in the sale and construction of alternative energy products and power from generators and other sources of co-generation.

The Company does not believe that Copelco has mitigated its damages and further believes that Copelco has either sold the equipment or otherwise disposed of the same in a manner

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders of
Kore Holdings, Inc. and Subsidiaries
(Formerly Volt Inc. and Subsidiaries)
Oakhurst, California

We have audited the accompanying consolidated balance sheets of Kore Holdings, Inc. and Subsidiaries (formerly Volt Inc. and Subsidiaries) (the "Company") as of September 30, 2002 and 2001 and the related consolidated statements of income, changes in stockholders' equity (deficit), and cash flows for the years then ended. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Kore Holdings, Inc. and Subsidiaries (formerly Volt Inc. and Subsidiaries) as of September 30, 2002 and 2001, and the consolidated results of its statements of operations, changes in stockholders' equity (deficit), and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As noted in Note 10, the Company has restated its previously issued consolidated financial statements for the year ended September 30, 2001 on its report dated January 14, . The Company has amended these consolidated financial statements to reclassify \$711,628 previously recorded as reversal of payables in the consolidated statements of operations, to additional paid in capital. Additionally, the Company has reclassified \$71,000 previously recorded as notes receivables, as general and administrative expenses in 2001. These transactions had the net effect of reducing net income from \$521,898 to a net loss of (\$260,730), and increasing the accumulated deficit from (\$3,943,047) to (\$4,725,675). In addition, the Company has restated its consolidated financial statements for September 30, 2002, to reclassify a portion of its goodwill acquired in the First Washington Corporation transaction as restricted cash in the amount of \$172,428 and has reclassified \$133,000 previously classified as notes receivable to general and administrative expenses. These transactions resulted in a decrease in net income of \$305,428 to a net loss of \$44,408 and increased the accumulated deficit to (\$4,770,083).

The Company has amended these consolidated financial statements to reclassify \$711,628 previously recorded as reversal of payables in the consolidated statements of operations, to additional paid in capital. Additionally, the Company has reclassified \$71,000 previously recorded as notes receivables, as general and administrative expenses in 2001. These transactions had the net effect of reducing net income from \$521,898 to a net loss of (\$260,730), and increased the accumulated deficit from (\$3,943,047) to (\$4,725,675). In addition, the Company has restated its consolidated financial statements for September 30, 2002, to reclassify a portion of its goodwill acquired in the First Washington Corporation transaction as cash in the amount of \$172,428 and has reclassified \$133,000 previously classified as notes receivable to general and administrative expenses. These transactions resulted in a decrease in net income of \$305,428 to a net loss of \$44,408 and increase in the accumulated deficit to (\$4,770,083).

Use of Estimates

Edgar Filing: KORE HOLDINGS, INC - Form 10KSB/A

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments and other short-term investments with an initial maturity of three months or less to be cash or cash equivalents.

The Company maintains cash and cash equivalent balances at several financial institutions which are insured by the Federal Deposit Insurance Corporation up to \$100,000.

Property and Equipment

Property and equipment are stated at cost. Depreciation is computed primarily using the straight-line method over the estimated useful life of the assets.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition

The Company sold merchandise and revenue was recorded under the accrual method of accounting.

First Washington records commission income upon the closing of their respective transactions.

Advertising

Advertising costs are typically expensed as incurred. Advertising expense was approximately \$-0- and \$830 for the years ending September 30, 2002 and 2001, respectively.

Income Taxes

Edgar Filing: KORE HOLDINGS, INC - Form 10KSB/A

The income tax benefit is computed on the pretax loss based on the current tax law. Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end based on enacted tax laws and statutory tax rates.

Fair Value of Financial Instruments

The carrying amount reported in the consolidated balance sheets for cash and cash equivalents, notes receivable, accounts payable and accrued expenses approximate fair value because of the immediate or short-term maturity of these financial instruments.

Earnings (Loss) Per Share of Common Stock

Historical net income per common share is computed using the weighted average number of common shares outstanding. Diluted earnings per share (EPS) includes additional dilution from common stock equivalents, such as stock issuable pursuant to the exercise of stock options and warrants.

Options and warrants outstanding to purchase stock were not included in the computation of diluted EPS for September 30, 2002 and 2001 because inclusion would have been antidilutive.

Deferred Financing Fees

The Company paid a \$10,000 financing fee in connection with a line of credit in April 2002. This fee will be written off over a one-year period of time. The unamortized balance at September 30, 2002 is \$5,000.

Goodwill

In June 2001, the FASB issued Statement No. 142 "Goodwill and Other Intangible Assets". This Statement addresses financial accounting and reporting for acquired goodwill and other intangible assets and supersedes APB Opinion No. 17, Intangible Assets. It addresses how intangible assets that are acquired individually or with a group of other assets (but not those acquired in a business combination) should be accounted for in financial statements upon their acquisition. This Statement also addresses how goodwill and other intangible assets should be accounted for after they have been initially recognized in the financial statements. This statement has been considered when determining impairment of goodwill in certain transactions. As of September 30, 2002, there are no adjustments of goodwill due to impairment.

Reclassifications

Certain amounts for the year ended September 30, 2001 have been reclassified to conform with the presentation of the September 30, 2002 amounts. The reclassifications have no effect on net income for the year ended September 30, 2001.

NOTE 3- PROPERTY AND EQUIPMENT

Property and equipment consist of the following at September 30, 2002 and 2001:

	2002	2001
	----	----
Wind Farm	\$5,700,000	\$ 5,700,000
Furniture and fixtures	3,000	3,000

	5,770,417	5,727,476
Less: accumulated depreciation	13,478	3,077
	-----	-----
Net book value	\$5,756,939	\$ 5,724,399
	=====	=====

The \$22,121 of property and equipment at September 30, 2000 was disposed of in 2001. Depreciation expense for the years ended September 30, 2002 and 2001 was \$10,401 and \$3,077, respectively.

The Company upon acquisition of the Wind Farm, has classified this asset under property and equipment. The Wind Farm consists of hundreds of nonoperational turbines located in California. The Company has received independent valuations on the Wind Farm that have valued it in excess of \$14,000,000. The Company would need to spend in excess of \$5,000,000 to bring these assets into operational use, at which time the Company would depreciate them over their estimated useful life of 40 years. Consequently, there is no depreciation recognized on the Wind Farm in 2002 and 2001. The Company did receive miscellaneous scrap parts that have not been valued (salvage) for the consolidated balance sheets, that it sells from time to time, and the Company records the income in their consolidated statements of operations when these sales occur.

NOTE 4- COMMITMENTS AND CONTINGENCIES

The Company entered into a lease agreement in April 2001 in Pleasanton, California. The Company paid \$2,800 per month for rent. This lease was terminated by the Company in October 2001, and all operations now run through the Cathey's Valley, California location. The security deposit was expensed as part of a rent payment in 2002.

NOTE 5- REVERSAL OF DEBT AND PAYABLES

The Company has recognized \$711,628 of reversals of debt and payables. This amount is reflected as additional paid in capital in the consolidated statements of changes in stockholders' equity and in the consolidated balance sheet for September 30, 2001.

NOTE 6- STOCKHOLDERS' EQUITY

Common and Preferred Stock

Effective April 23, 2001, the Registrant effected a 1 for 100 reverse stock split for its common stock, \$.001 par value per share.

The Company issued 1,000,000 shares of preferred stock to Denis C. Tseklenis in consideration for the Wind Farm.

Edgar Filing: KORE HOLDINGS, INC - Form 10KSB/A

On April 25, 2001, Denis C. Tseklenis acquired 127,995 original issue shares of the Company's common stock, \$.001 par value per share, which constituted approximately 53% of the Company's issued and outstanding common stock. Mr. Tseklenis paid the Company \$255,000 for the common stock.

During the year ended September 30, 2001, in addition to the initial acquisition by Denis C. Tseklenis, the Company had issued 1,678,000 shares and cancelled 225,000 of common stock for \$366,711.

Prior to the initial acquisition by Denis C. Tseklenis, the Company had issued 1,850,000 shares of common stock for accrued payroll, accounts payable and services.

During the quarter ended December 31, 2001, 225,000 shares were reissued that were cancelled from the prior year ended September 30, 2001.

On May 17, 2002, the Company issued 2,000,000 shares of common stock to acquire First Washington and thus it became a wholly-owned subsidiary. The shares were valued at a fair value at the time of the transaction (\$1.50 per share) or \$3,000,000. Of this amount, the Company acquired \$172,428, in cash and the remaining \$2,827,572, was recorded as goodwill, and the Company has determined that there is no impairment of this goodwill based on their tests in accordance with the provisions of FASB 142.

NOTE 7- LITIGATION

In September of 1999, the Deerbrook Publishing Group, Inc. ("Deerbrook") leased a computer driven aspect image center (printer for film) used to make separation for printing (the "aspect image center") and certain other computer equipment from Copelco Capital, Inc. ("Copelco"). All of the equipment was delivered to the Deerbrook's then printing operation in Phoenix, Arizona, and installed. Shortly thereafter, Deerbrook ceased printing for itself and its customers. The equipment was returned to Copelco. In August of 2000, Copelco brought suit in the United States District Court for the District of Arizona, cause no. CIV '00-1620 PHX ROS, to recover its alleged damages \$155,398 for Deerbrook's return of the leased equipment plus continuing interest at the rate of one and one-third percent per month and attorneys fees and costs. The Company does not believe that Copelco has mitigated its damages and further believes that Copelco has either sold the equipment or otherwise disposed of same in a manner which was

Edgar Filing: KORE HOLDINGS, INC - Form 10KSB/A

not commercially reasonable. The Copelco claims will be vigorously defended against. Any possible loss from this litigation will be less than one percent (1%) of the Company's net assets and will be immaterial. Since the change in control of the Company on April 6, 2001, there have been no legal proceedings brought against Volt.

NOTE 8- PROVISION FOR INCOME TAXES

Deferred income taxes will be determined using the liability method for the temporary differences between the financial reporting basis and income tax basis of the Company's assets and liabilities. Deferred income taxes will be measured based on the tax rates expected to be in effect when the temporary differences are included in the Company's consolidated tax return. Deferred tax assets and liabilities are recognized based on anticipated future tax consequences attributable to differences between financial statement carrying amounts of assets and liabilities and their respective tax bases.

At September 30, 2002 and 2001, deferred tax assets consist of the following:

	2002 ----	2001 -----
Net operating loss carryforwards	\$400,000	\$ 420,000
Less: valuation allowance	(400,000)	(420,000)
	-----	-----
	\$ -0-	\$ -0-
	=====	=====

At September 30, 2002 and 2001, the Company had federal net operating loss carryforwards in the approximate amounts of \$1,600,833 and \$1,500,000, respectively, available to offset future taxable income. The Company established valuation allowances equal to the full amount of the deferred tax assets due to the uncertainty of the utilization of the operating losses in future periods.

NOTE 9- SUBSEQUENT EVENT

In October 2002, the Company reached an agreement with Mortgage-Matic of Greenbelt, MD to merge the operations of Mortgage-Matic with First Washington. Mortgage-Matic concentrates their business on FHA insured loans in the \$200,000 range. This accounts for approximately 70% of its business. The merger should facilitate a streamlining of the processing and underwriting procedures of the companies.

Edgar Filing: KORE HOLDINGS, INC - Form 10KSB/A

In November 2002, the Corporation closed on a line of credit with a bank in the amount of \$750,000. The loan proceeds will be used to commence the operations of Opportunity Knocks.

NOTE 10-
