PRIVATE SECURITIES LITIGATION REFORM ACT SAFE HARBOR STATEMENT

When used in this Annual Report on Form 10-KSB, the words "may," "will," "expect," "anticipate," "continue," "estimate," "intend," and similar expressions are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 regarding events, conditions and financial trends which may affect the Company's future plans of operations, business strategy, operating results and financial position. Such statements are not guarantees of future performance and are subject to risks and uncertainties and actual results may differ materially from those included within the forward-looking statements as a result of various factors. Such factors include, among others: (i) the Company's ability to obtain additional sources of capital to fund continuing operations in the immediate term; (ii) the Company's ability

Edgar Filing: SIRICOMM INC - Form 10KSB

to retain existing or obtain additional licensees who act as distributors of its products; (iii) the Company's ability to obtain additional patent protection for its encapsulation technology; and (iv) other economic, competitive and governmental factors affecting the Company's operations, market, products and services. Additional factors are described in the Company's other public reports and filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to publicly release the result of any revision of these forward-looking statements to reflect events or circumstances after the date they are made or to reflect the occurrence of unanticipated events.

PART I

ITEM 1 BUSINESS

Background

SiriCOMM, Inc. ("SiriCOMM" or the "Company"), was incorporated in the State of Delaware on March 23, 1989 as Fountain Pharmaceuticals, Inc., to develop and commercialize certain proprietary compound encapsulation technologies for use in health care, agricultural, veterinary and consumer market items using technologies developed privately and assigned to the Company. These technologies involved development of man-made spheres composed of soybean lipids that were engineered to entrap pharmaceuticals or other biologically active molecules within the membranes of the soybean lipids, hence a compound delivery encapsulation system known as "Solvent Dilution Micro Carriers" ("SDMC's"). The SDMC's were principally intended for use in connection with dermal applications, solubilization of compounds, parenteral and oral formulations and non-pressurized aerosol preparations. The Company developed a number of proprietary products utilizing its SDMC technologies. These included non-regulated consumer goods and dermatologic products consisting of sunscreens, lotions and moisturizers. Following several years of continued developmental efforts, the Company was able to secure patents on several aspects of its technologies in the United States and Europe and initiate certain marketing programs.

As a result of significant increases in marketing costs associated with the expansion of existing product lines and the introduction of new products during fiscal year ended September 30, 1998, which were not offset by sales revenues during the period, the Company substantially utilized its working capital resources. In order to provide working capital, the Company entered into a secured credit arrangement ("Secured Credit Agreement") with Mr. Joseph S. Schuchert, Jr. (a related party as discussed in the second succeeding paragraph) as of December 31, 1998. The credit agreement provided for a two-year line of credit of up to \$1,500,000 subject to the Company satisfying certain agreed upon quarterly operating budget guidelines.

As a result of additional costs associated with the development and marketing of two new product lines during fiscal year ended September 30, 1999, the Company fully utilized the \$1,500,000 line of credit. During fiscal years ended September 30, 2000 and 2001 Mr. Schuchert made additional unsecured advances to the Company, the terms of which were never finalized. As of September 30, 2001 the outstanding principal balance of the unsecured loan was approximately \$1,255,000.

The Company continued to incur losses and had a working capital deficit at June 21, 2001. Through June 21, 2001 these losses had been principally funded through sales of preferred stock (\$2,500,000) to an entity controlled by the

Edgar Filing: SIRICOMM INC - Form 10KSB

Company's former Chairman of the Board (Mr. Joseph S. Schuchert, Jr.) and advances of \$2,716,500 from Mr. Schuchert which included the secured line of credit of \$1,500,000 ("Secured Credit Agreement"). On June 21, 2001, Mr. Schuchert notified the Company that it was in default under the Secured Credit Agreement dated December 31, 1998. Mr. Schuchert requested immediate payment of the \$1,500,000 principal and accrued interest due under the Secured Credit Agreement and, in the event such payments were not forthcoming on or before July 2, 2001, notice was given that Mr. Schuchert would take action to take possession of the Company's assets and other collateral as defined in the Secured Credit Agreement.

4

The Company's Board of Directors voted on June 28, 2001 to comply with the agreement and transfer the assets of the Company at the close of business on July 6, 2001 to Mr. Schuchert, since the Company was not in a financial position to make the required payment. As a result, the secured debt was satisfied through this transfer of assets, although the unsecured facility remained outstanding.

On December 31, 2001 Park Street Acquisition Corporation ("Park Street"), a Florida corporation, acquired 2,000,000 shares of Class A Convertible Preferred Stock ("Preferred Stock") of the Company from Fountain Holdings LLC ("Holdings") and all Common Stock Purchase Warrants (the "Warrants") in the name of Holdings to purchase shares of the Company's Class A Common Stock. The Preferred Stock converts into 1,264,151 shares of Class A Common Stock. The aggregate purchase price paid to Holdings was Twenty Thousand (\$20,000) Dollars ("Purchase Price"), allocated \$8,000 towards the purchase of the Preferred Stock and \$12,000 towards the purchase of the Warrants. Simultaneously with the closing, Park Street and the Company agreed to retire the Warrants. Park Street also returned the Preferred Stock to the Company.

Mr. Schuchert, the principal shareholder of Holdings, in consideration of the Purchase Price, released and discharged the Company from its obligations due to them and Fountain Holdings LLC pursuant to a Credit Agreement dated as of December 31, 1998, and from any other debts or obligations owing Schuchert by the Company. As of December 29, 2001 the Company owed Schuchert approximately \$1,454,733 of principal and interest.

Simultaneously with the transactions described above, Park Street acquired directly from the Company 3,500,000 shares of the Company's Class A Common Stock and 100,000 shares of the Company's Class B Common Stock for an aggregate purchase price of \$180,000. The proceeds of this transaction were utilized by the Company to retire all of its remaining liabilities. As a result of the foregoing, Park Street became the "control person" of the Company as that term is defined in the Securities Act of 1933, as amended.

In connection with these transactions, the Board of Directors of the Company nominated Brendon K. Rennert to the Board of Directors and all former officers and directors delivered their letters of resignation to the Company. Mr. Rennert then appointed himself CEO, President and Secretary of the Company. As a result of the transfer of the Company's assets to Schuchert, the Company became a "blank check" or "shell" company.

Business Operations

On November 21, 2002, the Company completed the acquisition of SiriCOMM, Inc., a company organized under the laws of the State of Missouri in April 2000. In connection with the acquisition, the Company changed its name to SiriCOMM, Inc. As a result of the acquisition, the Company's business operations are those of SiriCOMM.

SiriCOMM is engaged in the development of broadband wireless applications service provider technologies serving the marine and highway transportation industries. SiriCOMM's current development activities include integrating multiple technologies including satellite communications, the Internet (and intranets), wireless networking, and productivity enhancing software into commercially viable products and services for its target industries.

SiriCOMM's patent pending network architecture enables subscribers to transmit data at speeds of 48,000 kilobits per second ("kbps") which is 20 to 100 times faster than other wireless solutions such as CDPD (19.2 kbps), GSM (9.6 kbps), CDMA2000-1XRTT (144 kbps) or Qualcomm's point to point USAT (2 kbps). Moreover, SiriCOMM's unique software solutions leverage this ultra high-speed data network to deliver significant cost reduction and productivity improvement opportunities to users. From its central hub server co-located at the satellite teleport SiriCOMM will receive and transmit data on a "point to broadcast" high-speed network between multiple wireless local area networks installed in strategic locations. For a flat, low monthly fee subscribers will have access to a suite of productivity software, the Internet, e-mail, proprietary company intranet information, etc. The network will support multiple user devices to include 802.11b-compatible Palm OS(TM) wireless hand held devices for the most mobile subscribers. SiriCOMM's technologies are expected to become commercially available before the end of the year 2003.

Development of SiriCOMM's Business and Products

Since SiriCOMM's inception in April of 2000, its founders have focused their efforts principally in three key areas - product development, pre-market demonstrations to potential customers, and the formation of critical industry alliances. The results of this disciplined approach are significant. First, a working prototype of the broadband wireless network and applications software was developed and refined into a highly marketable product. Patent applications are on file for the entire end-to-end system. Second, demonstrations of the prototype to qualified potential customers reaffirmed the feasibility of the network and the solid need for its unique services. SiriCOMM has made technical presentations to more than 30 communication, automobile, trucking and mobile technology companies during the last 24 months and has received favorable feedback at such demonstrations. Such demonstrations have produced a letter of intent from Christenson Transportation to utilize SiriCOMM's services and a letter of agreement from SmartStop to evaluate SiriCOMM's technology.

The first generation of SiriCOMM products can significantly improve the availability, timeliness, and accuracy of communications and decision support tools for most of the nation's law enforcement agencies, yachts, and trucks that operate in North America. Ultimately, with minor modifications, the SiriCOMM products will be applicable in any industry requiring mobile communications from remote locations, such as recreational vehicles and construction sites.

SiriCOMM intends to charge a monthly subscription fee of \$49.95 per user per month for its services.

The five principal components of the SiriCOMM service include:

1. An I.E.E.E. 802.11 standard compatible wireless device (PC or Palm OS(TM)) for the users. The 802.11 is a wireless standard

Edgar Filing: SIRICOMM INC - Form 10KSB

governed by the Institute of Electrical and Electronics Engineers that operates in the 2.4 Ghz unregulated frequency spectrum;

2. Wireless transmission and receiving equipment installed in strategic locations such as marinas, truck stops, weigh stations, and major shipper facilities;
3. Access to the AMC-6 geo-synchronous satellite;
4. Proprietary software processes and applications; and
5. Broadband wireless channels that enable transmission of extremely large amounts of data at speeds 20 to 100 times faster than current wireless solutions.

Users will be able to connect to the SiriCOMM network whenever they are within range (up to approximately one-half mile) of one of several planned access locations. SiriCOMM has test locations in Joplin, Missouri, Rock Hill, South Carolina, Columbia, Missouri and plans to activate one additional location near El Paso, Texas within the next 30 days. While in range, the subscriber will have wireless, universal access to the Internet and to the marina, agency, or fleet intranet, if one exists. For a low, fixed monthly subscription fee subscribers will be able to communicate unlimited amounts of data and messages to their homes, offices, or client support centers using SiriCOMM's high-speed wireless network.

At present SiriCOMM leases transponder access to the AMC-6 satellite on a month to month basis pursuant to an informal agreement with Cislunar, the satellite operator. The agreement with Cislunar is an oral agreement for month-to-month supply and purchase of transponder usage. Cislunar has accommodated SiriCOMM by reselling a very small amount of capacity to SiriCOMM on an as-needed basis and Cislunar is willing to continue to do so until SiriCOMM is in a position to build out its network. At that time, usage will likely increase substantially and both Cislunar and SiriCOMM recognize that a written agreement will need to be in place. SiriCOMM plans to enter into a formal agreement for monthly transponder usage when the system is offered commercially. At each ground location, the satellite receiver is linked to the 2.4 Ghz wireless network utilizing a local server and SiriCOMM's technology for rapidly cache and serve network requests. There are no limitations or special licenses required to operate local two-way data communications at 2.4Ghz wireless frequencies.

SiriCOMM does not have a commercial network presently running implementing its wireless data transmission technology. It plans to build a network with the capacity to service up to 250,000 simultaneous users within 6 months of raising the needed capital. The construction of the initial network is estimated to cost \$4-6 million and is expected to be financed by the private sale of the Company's securities following the SiriCOMM Acquisition. There are no firm commitments on anyone's part to invest in the Company and if the Company is unable to finance the acquisition through the private sale of its securities or other financing, the SiriCOMM technology may never be commercially sold. In addition, any sale of the Company's securities to finance the SiriCOMM technology will dilute the interest of existing shareholders in the Company.

7

Anticipated Accounting Treatment

We expect to account for the SiriCOMM Acquisition as a recapitalization of the equity of SiriCOMM, which in principle is equivalent to the issuance of

Edgar Filing: SIRICOMM INC - Form 10KSB

stock by SiriCOMM for the net monetary assets of the Company. We will apply this accounting treatment because the Company is a non-operating public shell and because SiriCOMM stockholders will own the majority of the outstanding common stock of the combined company following the transaction.

Research and Development

The Company plans to finance research and development for SiriCOMM through the possible private sale of securities following the acquisition, although there are no present commitments or agreements concerning such financing presently. SiriCOMM plans to spend approximately \$30,000 on additional research and development to improve and refine the previously developed suite of wireless applications.

Distribution

SiriCOMM plans to rely on agents and value added resellers for its sales and distribution. At present, SiriCOMM has informal agreements with original equipment manufacturers, truck stop operators and other sales agents.

Competition

SiriCOMM and countless other companies have developed many data transmission, location and network access products designed to meet the growing demand for communications services by businesses and government organizations that rely heavily on information technology. SiriCOMM's products will compete on the basis of product features, price, quality, reliability, brand name recognition, product breadth, developed sales channels, product documentation, product warranties and technical support and service. SiriCOMM believes that it will be generally competitive in each of these areas and that the data transmission speed provides competitive advantages. SiriCOMM's existing and potential competitors have significantly more financial, engineering, product development, manufacturing and marketing resources than it has. At present, there are no direct competitors to SiriCOMM's proposed products and services. Various businesses currently offer certain segments of SiriCOMM's comprehensive solution, but at much lower bandwidth, higher cost and/or with no software applications. There can be no assurance that competitors will not introduce comparable or superior products incorporating more advanced technology at lower prices, or that other changes in market conditions or technology will not adversely affect SiriCOMM's ability to compete successfully in the future.

Government Regulation and Industry Standards

SiriCOMM's planned products and services is presently not regulated by the FCC or local governments. The regulatory process in the United States can be time-consuming and can require the expenditure of substantial resources. There can be no assurance that the FCC or state regulatory agencies will not seek to regulate the use of frequencies utilized by SiriCOMM's planned services of if

8

such services are regulated, grant the requisite approvals for any of SiriCOMM's products on a timely basis, or at all. The failure of SiriCOMM's products to comply, or delays in compliance, with the various existing and evolving standards could negatively impact SiriCOMM's ability to sell its products. United States and state regulations regarding the manufacture and sale of modems and other data communications devices are subject to future change. We cannot predict what impact, if any, such changes may have on SiriCOMM's business.

Employees

Edgar Filing: SIRICOMM INC - Form 10KSB

The Company presently has 5 employees of which 4 are executive officers. Our employees are not unionized, and the Company believes its relationship with its employees is good.

ITEM 2 PROPERTIES

We operate our business in a leased facility. We occupy approximately 2,000 square feet in a building in Joplin, Missouri. Our rent for this space is \$1,200 per month. The Company leases the space on a month-to-month basis.

ITEM 3 LEGAL PROCEEDINGS

None.

ITEM 4 SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Pursuant to a written consent of a majority of the Company's shareholders, the Company approved an amendment and restatement of the Company's Certificate of Incorporation which (a) changed the name of the Company to SiriCOMM, Inc.; (b) combined the outstanding shares of the Company's Common Stock into a single class of Common Stock; (c) reverse split the outstanding shares of the Company's Common Stock one-for-sixty; (d) decreased the par value of the Company's Common Stock resulting from the reverse split to \$.001; (e) increased the number of shares of Common Stock the Company is authorized to issue to 50,000,000; and (f) increased the number of shares of Preferred Stock, \$.001 par value, the Company is authorized to issue from 2,000,000 to 5,000,000. As part of the aforementioned written consent, a majority of the company's shareholders approved the adoption of the Company's 2002 Equity Incentive Plan.

9

PART II

ITEM 5 MARKET FOR THE COMPANY'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

A. Market Information

The Company's Common Stock presently trades on the OTC Bulletin Board under the symbol "SIRC". From May 31, 1994 until November 21, 2002 our Common Stock traded on the OTC Bulletin Board under the symbol "FPHI."

The following table sets forth certain information with respect to the high and low market prices of the Company's Common Stock for the fiscal years ended September 30, 2000, 2001, and 2002. The high and low market prices for the fourth quarter of 2002 reflects a 60-for-1 reverse stock split effective November 21, 2002. No trading market exists for shares of the Company's Class B Common Stock.

Fiscal 2000 -----	HIGH ----	LOW ---
First Quarter	\$1.00	\$.25
Second Quarter	\$.6875	\$.25
Third Quarter	\$.375	\$.25
Fourth Quarter	\$.3125	\$.125
Fiscal 2001 -----	HIGH ----	LOW ---
First Quarter	\$.17	\$.093
Second Quarter	\$.07	\$.05

Edgar Filing: SIRICOMM INC - Form 10KSB

Third Quarter	\$.07	\$.025
Fourth Quarter	\$.045	\$.02
Fiscal 2002	HIGH	LOW
-----	----	---
First Quarter	\$.05	\$.01
Second Quarter	\$.08	\$.02
Third Quarter	\$.06	\$.025
Fourth Quarter	\$ 4.25	\$ 1.20

The closing price of the Company's Common Stock on December 31, 2002 was \$1.20.

The high and low prices are based on the average bid and ask prices for the Company's Common Stock, as reported by the OTC Bulletin Board. Such prices are inter-dealer prices without retail mark-ups, mark-downs or commissions and may not represent actual transactions.

10

B. Reverse Stock Split

In order to facilitate the acquisition of SiriCOMM, the Company effectuated a one for sixty reverse stock split, specifically, a conversion of every sixty issued and outstanding shares into one share of Common Stock as of November 21, 2002 (the "Reverse Stock Split"). Additionally, the Company combined its Class A and Class B Common Stock into a single class of Common Stock. As a result of the combination and Reverse Stock Split, each shares of Class B Common Stock became one-sixtieth of a share of Common Stock. As of January 9, 2003, the Company had 12,449,517 shares of Common Stock outstanding.

C. Holders

Records of the Company's stock transfer agent indicate that as of January 9, 2003, the Company had 29 record holders of its Common Stock. Since a significant number of the shares of the Company are held by financial institutions in "street name," it is likely that the Company has significantly more stockholders than indicated above. The Company estimates that it has approximately 1,500 record holders, including such shares held in "street name."

D. Dividends

The Company has not paid any cash dividends, to date, and does not anticipate or contemplate paying cash dividends in the foreseeable future. It is the present intention of management to utilize all available funds for working capital of the Company.

ITEM 6 MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Background

On December 31, 2001, Park Street Acquisition Corporation, a Florida corporation, acquired 3,500,000 shares of the Company's Class A common stock, 100,000 shares of Class B common stock from the Company for \$180,000. The proceeds of this sale were utilized to pay all of the Company's outstanding liabilities at December 31, 2001. Simultaneously, Park Street acquired 2,000,000 shares of Class A Preferred Stock from Fountain Holdings, LLC. As a result of these transactions, Park Street became the "control person" of Fountain Pharmaceuticals as that term is defined in the Securities Act of 1933, as amended. Simultaneously with these transactions, the Board of Directors of

Edgar Filing: SIRICOMM INC - Form 10KSB

Fountain Pharmaceuticals appointed Brendon K. Rennert President, Secretary and Treasurer of Fountain and nominated him to be the sole director of the Company subject to Rule 14f-1 of the Securities Exchange Act of 1934, as amended.

11

Results of Operations

No revenues were generated in fiscal 2002 as the Company ceased all revenue producing activities in July 2001.

General and administrative expenses decreased from \$290,826 in 2001 to \$161,908 in 2002 as a direct result of the aforementioned cessation of business. Selling and research and development expenses were eliminated and all assets were disposed in 2001.

General and administrative expenses in 2002 were limited to legal, consulting, accounting and corporate governance.

Interest expense decreased from \$269,061 to \$126,317 in 2002. The decrease is attributable to the June 2001 extinguishment of secured debt and December 2001 extinguishment of unsecured debt. This decline is partially offset by interest expense attributable to the convertible debenture in 2002 of \$103,649, \$100,000 of which is beneficial conversion feature interest as a result of the decision not to revise the per share conversion rate after the reverse split.

Extraordinary gain from extinguishment of debt in 2002 relates to the forgiveness of unsecured debt in connection with the Park Street Acquisition. Extraordinary gain in 2001 is attributable to the transfer of assets in lieu of foreclosure related to the secured debt default.

Liquidity and Management's Plan of Operations

In order to provide working capital, the Company entered into a secured credit arrangement with Mr. Schuchert in 1998. The Credit Agreement (the "Credit Agreement") provided for a secured line of credit of up to \$1,500,000, the principal and unpaid interest of which along with additional unsecured borrowings was in default on June 21, 2001. The line of credit was secured by all assets of the Company.

On June 21, 2001, Mr. Schuchert notified the Company that it was in default under the 1998 Credit Agreement. Mr. Schuchert requested immediate payment of the \$1,500,000 principal and accrued interest due under the Credit Agreement and, in the event such payments were not forthcoming on or before July 2, 2001, notice was given that Mr. Schuchert would take action to take possession of the Company's assets and other collateral as defined in the Credit Agreement.

The Company's Board of Directors voted on June 28, 2001 to comply with the agreement and transfer the assets of the Company at the close of business on July 6, 2001 to Mr. Schuchert, since the Company was not in a financial position to make the required payment. As a result, the secured debt was satisfied through this transfer of assets, although the unsecured facility remained outstanding at that date.

The Company's Board of Directors then suspended operations in July 2001.

12

Edgar Filing: SIRICOMM INC - Form 10KSB

On December 31, 2001, Park Street Acquisition Corporation, a Florida corporation, acquired 3,500,000 shares of the Company's Class A common stock and 100,000 shares of Class B common stock from the Company for \$180,000. The proceeds of this sale were utilized to pay all of the Company's outstanding liabilities at December 31, 2001. Simultaneously, Park Street acquired 2,000,000 shares of Class A Preferred Stock from Fountain Holdings, LLC. As a result of these transactions, Park Street became the "control person" of Fountain Pharmaceuticals as that term is defined in the Securities Act of 1933, as amended. Simultaneously with these transactions, the Board of Directors of Fountain Pharmaceuticals appointed Brendon K. Rennert President, Secretary and Treasurer of Fountain and nominated him to be the sole director of the Company.

As of December 29, 2001, the outstanding principal balance of the unsecured loan was \$1,477,401 including accrued interest. In connection with the acquisitions by Park Street, Mr. Schuchert released and discharged the Company from its obligations due him and Fountain Holdings pursuant to the Credit Agreement dated as of December 31, 1998, and from any other debt or obligation owing Schuchert or Fountain Holdings by the Company.

Under the terms of the warrant granted in connection with the aforementioned secured Credit Agreement, Mr. Schuchert was entitled to purchase 1.6 shares of Common Stock for each dollar advanced under the facility and 1.6 shares of Common Stock for each dollar of accrued interest that is unpaid when due under the facility at an exercise price of \$.65 per share with an expiration date of December 31, 2003. As of December 29, 2001, Mr. Schuchert was entitled to purchase an aggregate of 2,993,595 shares of Common Stock upon the exercise of such warrant. Mr. Schuchert sold these warrants to Park Street Acquisition Corporation for \$12,000. Simultaneously therewith, the Company and Park Street agreed to retire these warrants.

At September 30, 2002, the Company was a "shell" company.

On November 21, 2002, the Company completed the acquisition of all of the issued and outstanding shares of SiriCOMM, Inc., a Missouri Corporation. An aggregate 9,623,195 post-reverse split shares were issued to SiriCOMM's 18 shareholders. Furthermore, the Company agreed to issue the equivalent of 15.5% of the post-merger entity to retire \$1,000,000 of convertible notes issued by SiriCOMM. As a result and following completion of the acquisition, the sole director of Fountain resigned and four of SiriCOMM's principal shareholders were elected in his place. In connection with this transaction the Company changed its name to "SiriCOMM, Inc."

Since SiriCOMM is considered the acquirer for accounting and financial reporting purposes, the transaction will be accounted for in accordance with reverse acquisition accounting principles as though it were a recapitalization of SiriCOMM and a sale of shares by SiriCOMM in exchange for the net assets of Fountain. Future financial statements will include the historical results of operations and cash flows of SiriCOMM.

SiriCOMM is a development-stage entity engaged in the development of broadband wireless applications service provider technologies for the marine and highway transportation industries. The Company's current development activities include integrating multiple technologies including satellite communications, the Internet and intranets, wireless networking and productivity enhancing software into commercially viable products and services for its target industries.

Since its inception, SiriCOMM has financed its activities primarily

Edgar Filing: SIRICOMM INC - Form 10KSB

from short-term loans. To date, SiriCOMM has not introduced its products and services commercially, has limited assets, significant liabilities and limited business operations. Managements' plan of operation for fiscal 2003 is to raise additional capital (\$6-\$10 million) and build a network to service up to 250,000 simultaneous users. The construction of the initial network is estimated to cost \$4-\$6 million and is expected to be financed by a private sale of securities. There are no firm commitments on anyone's part to invest in the Company and if the Company is unable to obtain such financing, the SiriCOMM technology may never be commercially sold.

There can be no assurances that the Company will be successful in obtaining debt or equity financing in order to achieve its financial objectives and continue as a going concern.

The Company further anticipates that the \$100,000 convertible debenture outstanding and in default will be satisfied through a conversion to common stock.

Subsequent to September 30, 2002, SiriCOMM raised \$125,000 in connection with two loan agreements. The loans provide for a one year maturity and interest at 4 percent. In connection with the loans, the company agreed to issue an aggregate 49,208 post-merger shares of stock.

On January 3, 2003, the Board of Directors authorized the issuance of 1,922,000 shares of stock pursuant to the conversion of the aforementioned \$1,000,000 in convertible notes of SiriCOMM Missouri.

Employment Arrangements

At September 30, 2002, we had no formal written employment agreements with any executive officers. As a result of the acquisition of SiriCOMM, the Company's wholly owned subsidiary SiriCOMM, Inc. (Missouri) is obligated under four executive employee agreements with its four officers/directors. As part of these agreements, the Company is obligated to pay those officers/directors an aggregate compensation of \$525,000 annually through February 2005.

Stock Options

2002 Incentive Stock Option Plan

The Company's sole director adopted a 2002 Equity Incentive Plan (the "Plan"). The written consent approved the Plan. The Plan designates a Stock Option Committee appointed by the Board of Directors and authorizes the Stock Option committee to grant or award to eligible participants of the Company and its subsidiaries and affiliates, until May 15, 2012, stock options, stock appreciation rights, restricted stock performance stock awards and Bonus Stock awards for up to 3,000,000 shares of the New Common Stock of the Company. The initial members of the Stock Option Committee have not yet been appointed. There are no awards outstanding under the Plan. A complete copy of the Plan is attached hereto as Appendix B.

The following is a general description of certain features of the Plan:

1. Eligibility. Officers, other key employees and consultants of the Company, its subsidiaries and its affiliates who are responsible for the management, growth and profitability of the business of the Company, its subsidiaries and its affiliates are eligible to be granted stock options, stock appreciation rights, and restricted or deferred stock awards under the Plan. Directors are eligible to receive Stock Options.

2. Administration. The Incentive Plan is administered by the Stock Option Committee of the Company. The Stock Option Committee has full power to select, from among the persons eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to any participants and to determine the specific terms of each grant, subject to the provisions of the Incentive Plan.

3. Stock Options. The Plan permits the granting of non-transferable stock options that are intended to qualify as incentive stock options ("ISO's") under section 422 of the Internal Revenue Code of 1986 and stock options that do not so qualify ("Non-Qualified Stock Options"). The option exercise price for each share covered by an option shall be determined by the Stock Option Committee but shall not be less than 100% of the fair market value of a share on the date of grant. The term of each option will be fixed by the Stock Option Committee, but may not exceed 10 years from the date of the grant in the case of an ISO or 10 years and two days from the date of the grant in the case of a Non-Qualified Stock Option. In the case of 10% stockholders, no ISO shall be exercisable after the expiration of five (5) years from the date the ISO is granted.

19

Edgar Filing: SIRICOMM INC - Form 10KSB

4. Stock Appreciation Rights. Non-transferable stock appreciation rights ("SAR's") may be granted in conjunction with options, entitling the holder upon exercise to receive an amount in any combination of cash or unrestricted common stock of the Company (as determined by the Stock Option Committee), not greater in value than the increase since the date of grant in the value of the shares covered by such right. Each SAR will terminate upon the termination of the related option.

5. Restricted Stock. Restricted shares of the common stock may be awarded by the Stock Option Committee subject to such conditions and restrictions as they may determine. The Stock Option Committee shall also determine whether a recipient of restricted shares will pay a purchase price per share or will receive such restricted shares without, any payment in cash or property. No Restricted Stock Award may provide for restrictions beyond ten (10) years from the date of grant.

6. Performance Stock. Performance shares of Common Stock may be awarded without any payment for such shares by the Stock Option Committee if specified performance goals established by the Committee are satisfied. The designation of an employee eligible for a specific Performance Stock Award shall be made by the Committee in writing prior to the beginning of the period for which the performance is based. The Committee shall establish the maximum number of shares to stock to be issued to a designated Employee if the performance goal or goals are met. The committee reserves the right to make downward adjustments in the maximum amount of an Award if, in its discretion unforeseen events make such adjustment appropriate. The Committee must certify in writing that a performance goal has been attained prior to issuance of any certificate for a Performance Stock Award to any Employee.

7. Bonus Stock. The committee may award shares of Common Stock to Eligible Persons, without any payment for such shares and without any specified performance goals. The Employees eligible for bonus Stock Awards are senior officers and consultants of the Company and such other employees designated by the Committee.

8. Transfer Restrictions. Grants under the Plan are not transferable except, in the event of death, by will or by the laws of descent and distribution.

9. Termination of Benefits. In certain circumstances such as death, disability, and termination without cause, beneficiaries in the Plan may exercise Options, SAR's and receive the benefits of restricted stock grants following their termination or their employment or tenure as a Director as the case may be.

10. Change of Control. The Plan provides that (a) in the event of a "Change of Control" (as defined in the Plan), unless otherwise determined by the Stock Option Committee prior to such Change of Control, or (b) to the extent expressly provided by the Stock Option Committee at or after the time of grant, in the event of a "Potential Change of Control" (as defined in the Plan), (i) all stock options and related SAR's (to the extent outstanding for at least six months) will become immediately exercisable: (ii) the restrictions and deferral limitations applicable to outstanding restricted stock awards and deferred stock awards will lapse and the shares in question will be fully vested: and (iii) the value of such options and awards, to the extent determined by the Stock Option Committee, will be cashed out on the basis of the highest price paid (or

offered) during the preceding 60-day period, as determined by the Stock Option

Edgar Filing: SIRICOMM INC - Form 10KSB

Committee. The Change of Control and Potential Change of Control provisions may serve as a disincentive or impediment to a prospective acquirer of the Company and, therefore, may adversely affect the market price of the common stock of the Company.

11. Amendment of the Plan. The Plan may be amended from time to time by majority vote of the Board of Directors provided as such amendment may affect outstanding options without the consent of an option holder nor may the plan be amended to increase the number of shares of common stock subject to the Plan without stockholder approval.

In December 1998, the Company adopted the Fountain Pharmaceuticals, Inc. 1998 Stock Option Plan (the 1998 Plan). Nonqualified and incentive stock options may be granted under the 1998 Plan. The term of options granted under the 1998 Plan are fixed by the plan administrator provided, however, that the maximum option term may not exceed ten (10) years from the grant date and the exercise price per share may not be less than the fair market value per share of the Common Stock on the grant date. Under the 1998 Plan, all full-time employees of the Company or its subsidiaries, including those who are officers and directors, non-employee directors and consultants are eligible to receive options pursuant to the 1998 Plan, if selected. Directors and consultants are also eligible. The 1998 Plan provided for the authority to issue options covering up to 750,000 shares of the Company's Common Stock; provided, however, that option to purchase no more than 500,000 shares shall be granted to any one participant. As a result of the 60 for 1 reverse stocksplit effectuated on November 21, 2002, the 1998 Plan covers only 12,500 shares of the Company's common stock.

The 1998 Option Plan is administered by a committee of the Board of Directors or the full Board of Directors. The Board of Directors may modify, amend, or terminate the 1998 Plan at any time except that, to the extent then required by applicable law, rule, or regulation, approval of the holders of a majority of the Common Stock represented in person or by proxy at a meeting of the shareholders will be required to increase the maximum number of shares of Common Stock available for grant under the 1998 Plan (other than increases due to adjustments in accordance with the 1998 Plan). No modification, amendment, or termination of the 1998 Plan shall adversely affect the rights of a participant under a grant previously made to him without the consent of such participant.

As of January 9, 2003, the Company had no options outstanding under the 1998 Plan.

ITEM 11 SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth, as of January 9, 2003, information with respect to the securities holdings of all persons which the Company, pursuant to filings with the Securities and Exchange Commission, has reason to believe may be deemed the beneficial owners of more than 5% of the Company's outstanding Common Stock. The following table indicates the beneficial ownership of such individuals numerically calculated based upon the total number of shares of Common Stock outstanding. Also set forth in the table is the beneficial ownership of all shares of the Company's outstanding stock, as of such date, of all officers and directors, individually and as a group.

Also reflects 12,449,517 shares of the Company's Common Stock outstanding as of January 9, 2003.

ITEM 12 CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Line of Credit Agreement and Grant of Warrant

As of December 31, 1998, the Company entered into a credit arrangement with Mr. Schuchert. The Credit Agreement provided for a secured line of credit of up to \$1,500,000, the principal and unpaid interest of which were due on the earlier of December 31, 2000, 180 days from written demand of the lender or upon an event of default under the agreement. On June 21, 2001, Mr. Schuchert called the secured line of credit. Under the terms of the warrant granted to Mr. Schuchert in connection with the Credit Agreement, Mr. Schuchert was entitled to purchase 1.6 shares of Common Stock for each dollar advanced under the facility at a purchase price of \$.65 per share with an expiration date of December 31, 2003. As of December 29, 2001, Mr. Schuchert was entitled to purchase an aggregate of 2,993,595 shares of Common Stock upon the exercise of such warrant. The warrant was purchased by Park Street Acquisition Corporation from Mr. Schuchert for \$12,000. Simultaneously therewith the Company and Park Street agreed to retire the warrants. See ITEM 6 - MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION - Liquidity and Capital Resources.

22

Purchase of Securities

On July 17, 1997, the Company completed the sale of 2,000,000 shares of Series A Convertible Preferred Stock in a private transaction. The Preferred Stock was sold for \$2.5 million in a private transaction to Fountain Holdings, LLC, a Wyoming limited liability company controlled by Mr. Joseph S. Schuchert, Jr. Mr. Schuchert joined the Company's Board of Directors in connection with this transaction. The Preferred Stock was sold pursuant to the terms of a Stock Purchase and Subscription Agreement dated July 11, 1997 (the Stock Purchase Agreement).

Under the terms of the Stock Purchase Agreement, the holders of the Preferred Stock may convert their Preferred Stock into shares of the Company's

Edgar Filing: SIRICOMM INC - Form 10KSB

Common Stock and Class B Common Stock, representing one-half of the approximately 50,656,149 (pre-split) issued and outstanding shares of stock as of July 17, 1997 (which included for that purpose 3,050,000 (pre-split) shares reserved for issuance pursuant to certain outstanding Common Stock purchase warrants). On a post-split basis, the Preferred Stock is currently convertible into 1,264,151 shares of Common Stock and 2,252 shares of Class B Common Stock. The conversion rate of the Preferred Stock is adjustable for certain events such as a reclassification, reorganization, combination and stock-split. On December 31, 2001 all 2,000,000 shares of Preferred Stock were acquired by Park Street for an aggregate purchase price of \$8,000.

Simultaneously with the transactions described above, Park Street acquired directly from the Company 3,500,000 shares of the Company's Class A Common Stock and 100,000 shares of the Company's Class B Common Stock for an aggregate purchase price of \$180,000. The proceeds of this transaction were utilized by the Company to retire all of its remaining liabilities. As a result of the foregoing, Park Street became the "control person" of the Company as that term is defined in the Securities Act of 1933, as amended.

Loans From Affiliates

During fiscal years ended September 30, 2000 and 2001, Mr. Schuchert made advances to the Company as an additional unsecured loan. As of December 29, 2001, the outstanding principal balance of this unsecured loan was \$1,254,571 plus estimated accrued interest of \$230,000 as of December 29, 2001. In connection with the acquisitions by Park Street, Mr. Schuchert released and discharged the Company from its obligations due him and Fountain Holdings pursuant to the Credit Agreement dated as of December 31, 1998, and from any other debt or obligation owing Schuchert or Fountain Holdings by the Company. (See ITEM 6 - MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION - Liquidity and Capital Resources.

ITEM 14 CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures within 90 days of the filing date of this annual report, and, based on their evaluation, our principal executive officer and principal financial officer have concluded that these controls and procedures are effective. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rule and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Independent Auditors' Report

Board of Directors
SiriCOMM, Inc.
Tampa, Florida

We have audited the accompanying balance sheet of SiriCOMM, Inc. (formerly known as Fountain Pharmaceuticals, Inc., the "Company"), as of September 30, 2002, and the related statements of operations, stockholders' deficit and cash flows for each of the two years in the period then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of September 30, 2002, and the results of its operations and its cash flows for each of the two years in the period then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company, on November 21, 2002, acquired SiriCOMM, Inc. (a predecessor company). SiriCOMM, Inc. is a pre-revenue, development stage enterprise that will require currently uncommitted capital in order to further develop its technologies and continue operationally. These uncertainties surrounding the Company's ability to raise sufficient working capital and SiriCOMM Inc.'s ability to develop its technologies to a state of commercial viability raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

SIRICOMM, INC.
F/K/A FOUNTAIN PHARMACEUTICALS, INC.
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED SEPTEMBER 30, 2002 AND 2001

1. Nature of business, basis of presentation and summary of significant accounting policies:

Nature of business prior to July 6, 2001:

SiriCOMM, Inc. formerly known as Fountain Pharmaceuticals, Inc. (the "Company"), incorporated in the State of Delaware on March 23, 1989, was organized to develop and commercialize certain proprietary compound encapsulation technologies for use in consumer market items using technologies developed privately and assigned to the Company. The Company developed proprietary products utilizing its technologies consisting principally of non-regulated sunscreens, lotions and moisturizers.

Discontinuance of all operations:

The Company incurred recurring losses and had a working capital deficit at June 21, 2001. Through June 21, 2001 these losses had been principally funded through sales of common and preferred stock and advances under a secured line of credit with a related party. On June 21, 2001, the related party lender notified the Company that it was in default under a secured credit agreement and requested immediate

Edgar Filing: SIRICOMM INC - Form 10KSB

payment of the \$1,500,000 principal and accrued interest due under the agreement and, in the event such payments were not forthcoming on or before July 2, 2001, notice was given that the lender would take action to take possession of the Company's assets and other collateral as defined in the secured credit agreement.

The Company's Board of Directors voted on June 28, 2001 to comply with the agreement and transfer the assets of the Company in satisfaction of the secured debt at the close of business on July 6, 2001, since the Company was not in a financial position to make the required payment. As a result, the Company recognized a \$1,531,721 extraordinary gain on extinguishment of this related party debt in the accompanying 2001 statement of operations. The Company suspended operations in July 2001.

1. Nature of business, basis of presentation and summary of significant accounting policies (continued):

Discontinuance of all operations (continued):

On December 31, 2001, Park Street Acquisition Corporation (Park Street), acquired 3,500,000 shares of the Company's common stock and 100,000 shares of Class B common stock from the Company for \$180,000. The proceeds of this sale were utilized to pay all of the Company's outstanding liabilities at December 31, 2001 (other than certain unsecured related party debt). Simultaneously, Park Street acquired 2,000,000 shares of Class A Preferred Stock from Fountain Holdings, LLC ("Holdings") and all Common Stock Purchase Warrants (the "warrants") in the name of Holdings to purchase shares of the Company's Class A Common Stock. The aggregate purchase price paid to Holdings was \$20,000, allocated \$8,000 towards the purchase of the Preferred Stock and \$12,000 towards the purchase of the warrants. As a result of these transactions, Park Street became the "control person" of the Company, as that term is defined in the Securities Act of 1933, as amended.

In connection with the acquisitions by Park Street, a related party unsecured lender released and discharged the Company from its obligations due pursuant to an unsecured line of credit, and from any other debt or obligation owing himself or related entities by the Company. As a result, the Company has recognized an extraordinary gain of \$1,477,401 for the extinguishment of the debt and related accrued interest.

Subsequent to closing, Park Street and the Company agreed to retire the warrants. In May 2002, Park Street returned the preferred stock to the Company; therefore, no preferred stock is issued and outstanding at September 30, 2002.

Use of estimates:

Preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets

Edgar Filing: SIRICOMM INC - Form 10KSB

and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED SEPTEMBER 30, 2002 AND 2001

1. Nature of business, basis of presentation and summary of significant accounting policies (continued):

Stock-based compensation:

The Company accounts for compensation costs associated with stock options and warrants issued to employees under the provisions of Accounting Principles Board Opinion No. 25 ("APB 25") whereby compensation is recognized to the extent the market price of the underlying stock exceeds the exercise price of the option granted. Stock-based compensation to non-employees is accounted for using the fair value based method prescribed by Financial Accounting Standard No. 123 (Accounting for Stock Based Compensation).

Net income (loss) per share:

Net income (loss) per share was computed based on the weighted average number of shares outstanding during the periods presented. All weighted average shares and per share computations in the accompanying statement of operations have been determined by giving retroactive effect to the reverse stock split (see Note 8).

Diluted net income (loss) per share in 2002 is considered to be the same as basic net income (loss) per share.

Diluted income (loss) per share in 2001 is computed assuming conversion of all preferred stock and potentially dilutive stock options and warrants. Potential common shares outstanding are excluded from the computation if their effect is anti-dilutive.

Fair value of financial instruments:

The carrying amount of the debenture, accounts payable and accrued expenses approximates fair value because of the short maturity of those investments.

2. Acquisition and management's plan of operation:

On November 21, 2002, the Company completed the acquisition of all of the issued and outstanding shares of SiriCOMM, Inc., ("SiriCOMM"). An

Edgar Filing: SIRICOMM INC - Form 10KSB

aggregate 9,623,195 post-reverse split shares (see Note 8) were issued to SiriCOMM shareholders. Furthermore, the Company has agreed to issue the equivalent of 15.5% of the post-merger entity's shares (1,922,000 post reverse split shares) to retire \$1,000,000 of convertible notes issued by SiriCOMM. As a result and following completion of the acquisition, the sole director of the Company resigned and four of SiriCOMM's principal shareholders were elected in his place. In connection with this transaction the Company changed its name to "SiriCOMM, Inc."

Since SiriCOMM is considered the acquirer for accounting and financial reporting purposes, the transaction will be accounted for in accordance with reverse acquisition accounting principles as though it were a recapitalization of SiriCOMM and a sale of shares by SiriCOMM in exchange for the net assets of the Company. Future financial statements will include the historical results of operations and cash flows of SiriCOMM.

SiriCOMM is a development-stage entity engaged in the development of broadband wireless applications service provider technologies for the marine and highway transportation industries. SiriCOMM's current development activities include integrating multiple technologies including satellite communications, the Internet and intranets, wireless networking and productivity enhancing software into commercially viable products and services for its target industries.

Since its inception, SiriCOMM has financed its activities primarily from short-term loans. To date, SiriCOMM has not introduced its products and services commercially, has limited assets, significant liabilities and limited business operations. Managements' plan of operation for fiscal 2003 is to raise additional capital (\$6-\$10 million) and build a network to service up to 250,000 simultaneous users. The construction of the initial network is estimated to cost \$4-\$6 million and is expected to be financed by a private sale of securities. There are no firm commitments on anyone's part to invest in the Company and if the Company is unable to obtain such financing, the SiriCOMM technology may never be commercially sold.

There can be no assurances that the Company will be successful in obtaining debt or equity financing in order to achieve its financial objectives and continue as a going concern. The financial statements do not include any adjustments to the carrying amount of assets and the amounts and classifications of liabilities that might result from the outcome of this uncertainty.

3. Subordinated convertible debenture:

On February 20, 2002 the Company issued a 6% Subordinated Convertible Debenture (the Debenture) due May 31, 2002 in the principal amount of \$100,000. The Debenture is convertible into the Company's common stock at \$1.00 per share, which resulted in a beneficial conversion feature of \$100,000. The beneficial conversion feature amount was allocated to paid in capital and immediately charged to operations. Despite the fact

Edgar Filing: SIRICOMM INC - Form 10KSB

the Debenture is past due, the Debenture holder has not made a demand for payment or conversion.

4. Income taxes:

Deferred tax assets consist of the following at September 30, 2002:

Net operating loss carryover	\$	57,0
Valuation allowance		(57,0

(a) Under Section 382 and 383 of the Internal Revenue Code of 1986, if an ownership change occurs with respect to a "loss corporation", as defined, there are annual limitations on the amount of net operating loss and research and development tax credit carryovers which are available to the Company. Furthermore, the new corporation must continue the business enterprise of the old corporation. As a result, the company lost past net operating loss carryovers of approximately \$4.3 million, all of which had been previously reserved. Further, as a result of a subsequent ownership change, net operating loss carryforwards of \$152,000, which would otherwise expire in 2022, will also be lost. The related deferred tax asset is fully reserved.

5. Related party transactions:

Interest expense on related party borrowings was approximately \$267,000 for the year ended September 30, 2001 and \$25,000 through December 31, 2001, at which time the unsecured related party debt was discharged. (See Note 1.)

6. Stockholders' deficit:

Voting rights:

At September 30, 2002, shareholders of common stock and Class B common stock are entitled to one and five votes per share, respectively.

1998 Stock option plan:

In December 1998, the Company adopted a stock option plan providing for nonqualified and incentive stock options. The Plan provides for the authority to issue options covering up to 750,000 shares of the Company's common stock; provided, however, that options to purchase no more than 500,000 shares shall be granted to any one participant. As a result of the sixty-to-one reverse stock split effectuated on November 21, 2002 (see Note 8), the 1998 Plan covers only 12,500 shares of the Company's common stock. No options are currently outstanding under the plan (see Note 7).

6. Stockholders' deficit (continued):

2002 Incentive stock option plan:

The Company has adopted an incentive stock option plan (the "Plan") covering 3,000,000 post reverse split shares of the Company's common stock, pursuant to which eligible participants of the Company and its subsidiaries and affiliates are eligible to receive stock options, stock appreciation rights, restricted stock performance stock awards and bonus stock until May 15, 2012.

The Plan permits the granting of non-transferable stock options that are intended to qualify as incentive stock options ("ISO's") under section 422 of the Internal Revenue code of 1986 and stock options that

Edgar Filing: SIRICOMM INC - Form 10KSB

do not so qualify ("Non-Qualified Stock Options"). The option exercise price for each share covered by an option shall be determined by the Stock Option Committee but shall not be less than 100% of the fair market value of a share on the date of grant. The term of each option will be fixed by the Stock Option Committee, but may not exceed 10 years from the date of the grant in the case of an ISO or 10 years and two days from the date of the grant in the case of a Non-Qualified Stock Option. In the case of 10% stockholders, no ISO shall be exercisable after the expiration of five years from the date the ISO is granted.

Non-transferable stock appreciation rights ("SAR's") may be granted in conjunction with options, entitling the holder upon exercise to receive an amount in any combination of cash or unrestricted common stock of the Company as determined by the Stock Option Committee, not greater in value than the increase since the date of grant in the value of the shares covered by such right. Each SAR will terminate upon the termination of the related option.

Restricted shares of the common stock may be awarded by the Stock Option Committee subject to such conditions and restrictions as they may determine. The Stock Option Committee shall also determine whether a recipient of restricted shares will pay a purchase price per share or will receive such restricted shares without any payment in cash or property. No restricted stock award may provide for restrictions beyond ten (10) years from the date of grant.

Performance shares of common stock may be awarded without any payment for such shares by the Stock Option Committee if specified performance goals established by the Committee are satisfied. The Committee shall establish the maximum number of shares of stock to be issued to a designated employee if the performance goals are attained. The Committee must certify in writing that a performance goal has been attained prior to issuance of any certificate for a performance stock award to any employee.

The committee may also award shares of common stock as bonus stock to senior officers, consultants and employees designated by the Committee, without any payment for such shares and without any specified performance goals.

The Plan provides that (a) in the event of a "Change of Control" (as defined in the Plan), unless otherwise determined by the Stock Option Committee prior to such Change of Control, or (b) to the extent expressly provided by the Stock Option Committee at or after the time of grant, in the event of a "Potential Change of Control" (as defined in the Plan), (i) all stock options and related SAR's (to the extent outstanding for at least six months) will become immediately exercisable: (ii) the restrictions and deferral limitations applicable

to outstanding restricted stock awards and deferred stock awards will lapse and the shares in question will be fully vested: and (iii) the value of such options and awards, to the extent determined by the Stock Option Committee, will be cashed out on the basis of the highest price paid (or offered) during the preceding 60-day period, as determined by the Stock Option Committee. The Change of Control and Potential Change of Control provisions may serve as a disincentive or impediment to a prospective acquirer of the Company and, therefore, may adversely affect the market price of the common stock of the Company.

There are no awards currently outstanding under this Plan.
