LETTER TO SHAREHOLDERS

[PHOTO OF JAMES B. HAWKES]

JAMES B. HAWKES
PRESIDENT

Amid an improving economic outlook, Eaton Vance Senior Income Trust, a closed-end fund traded on the New York Stock Exchange under the symbol EVF, again provided an attractive yield in a portfolio of senior floating-rate loans. Based on the Trust's June monthly dividend of \$0.035 per share and a closing share price of \$9.46, the Trust's market yield was 4.44% at June 30, 2004.(1)

AS THE ECONOMY STRENGTHENED AND INFLATION REEMERGED, SHORT-TERM INTEREST RATES EDGED HIGHER...

The fiscal year ended June 30, 2004 showed signs of a stronger economy and a continued improvement in credit climate for corporate borrowers. The Federal Reserve, which had kept a stable monetary policy throughout the first half of 2004, responded to anecdotal signs of inflation by raising its benchmark Federal Funds rate to 1.25% from 1.00% on June 30. While short-term rates remained very low by historical standards, the Fed indicated that it was prepared to raise rates again to halt any further inflationary momentum.

FLOATING-RATE LOANS POSTED A SOLID PERFORMANCE DURING THE FISCAL YEAR...

With credit quality improving and companies sporting healthier balance sheets, the loan market turned in a solid performance during the fiscal year. According to Loan Pricing Corp., new leveraged loan volume rose significantly in the second quarter of 2004 over the same period a year earlier, boosted, in part, by increased deal-making, rising merger and acquisition activity and corporate debt restructurings.

Investor demand was equally strong, as loan investors were attracted to one of the few income asset classes that could benefit from rising rates. That is, loans are priced at a credit spread over a floating short-term benchmark, typically the London-Interbank Offered Rate (LIBOR). Historically, when short-term rates (LIBOR) have moved higher, shareholders have benefited.

LOAN MARKET VOLATILITY REMAINED RELATIVELY LOW...

The loan market exhibited relatively low volatility during the fiscal year. That is an important consideration for investors in times of economic or political uncertainty, and especially in a rising rate environment. Importantly, we believe a rebounding economy can provide still more income opportunities in senior floating-rate loans. In the pages that follow, portfolio managers John Redding, Scott Page and Payson Swaffield discuss the events that impacted the loan market and the Trust during the past year.

Sincerely,

/s/ James B. Hawkes

MANAGEMENT DISCUSSION

[PHOTO OF JOHN P. REDDING]

JOHN P. REDDING

AN INTERVIEW WITH JOHN P. REDDING, SCOTT H. PAGE AND PAYSON F. SWAFFIELD,
PORTFOLIO MANAGERS OF EATON VANCE SENIOR INCOME TRUST.

Q: JOHN, THE ECONOMY STARTED TO SHOW SIGNS OF A SUSTAINABLE RECOVERY IN 2004.
HOW WOULD YOU CHARACTERIZE THE LOAN MARKET DURING THE FISCAL YEAR?

A: MR. REDDING: The loan market has responded well to the economic recovery and a continuing improvement in credit quality. With improving business conditions, the revenue outlook for many companies has brightened, giving many companies the ability to restructure their debt burden and improve their balance sheets.

The more robust economy and emerging signs of inflation have pushed interest rates modestly higher. After having held the line on short-term rates throughout the first half of the year, the Federal Reserve raised its benchmark Federal Funds rate - a key short-term interest rate barometer -

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

to 1.25% from 1.00% on June 30. That move represented the first such rate hike since May 2000 and could suggest still higher interest rates in the months ahead.

While the loan market's underlying fundamentals have improved, market technicals have firmed as well. Investor demand has been very strong, more than enough to offset the record increase in supply. The secondary market was equally strong, with bid prices on loans slightly above par. While strong demand resulted in a slight narrowing of credit spreads, loan yields still remained relatively attractive.

[PHOTO OF SCOTT H. PAGE]

SCOTT H. PAGE

Q: SCOTT, HOW WOULD YOU EVALUATE THE TRUST'S PERFORMANCE IN THIS ENVIRONMENT?

A: MR. PAGE: The Trust posted a strongly positive total return during the fiscal year ended June 30, 2004. Based on share price, the Trust had a total return of 11.59%. On a net asset value basis, the Trust's 8.65% return outperformed its benchmark, the CSFB Leveraged Loan Index, which had a total return of 7.47%.(1)

That outperformance was especially noteworthy in light of the fact that the Trust was underweighted in the telecom and technology sectors, areas which bounced back dramatically in the first half of the fiscal year.

[PHOTO OF PAYSON F. SWAFFIELD]

PAYSON F. SWAFFIELD

Q: PAYSON, WHAT ACCOUNTED FOR INCREASED INVESTOR DEMAND DURING THE FISCAL YEAR?

A: MR. SWAFFIELD: Investors saw an opportunity to benefit from the prospect of rising rates. With more robust economic activity and some emerging signs of inflation, there was a growing likelihood that the Fed would raise rates, as it finally did on June 30.

Unlike fixed-rate bonds, floating-rate loans have reset provisions, which allow interest on the loans to be adjusted in response to changing short-term interest rate levels (e.g., LIBOR), usually within 40 to 90 days. That provision distinguishes floating-rate loans from other income-producing asset classes, which typically decline in price as interest rates rise.

Q: WHY DID CREDIT SPREADS NARROW DURING THE FISCAL YEAR?

A: MR. REDDING: The Trust's average spread over LIBOR did narrow slightly during the period. This trend has been driven primarily by two factors: increased investor demand and opportunistic repricings, which stemmed from improving business fundamentals. Importantly, despite such repricing activity, credit spreads remain attractive relative to our long-term experience.

Q: HOW HAVE YOU POSITIONED THE TRUST IN RECENT MONTHS?

A: MR. PAGE: We've continued our efforts to diversify the Trust's Senior Loan investments on a sector basis. As a result, at June 30, 2004, the Trust had investments in 300 issuers representing 49 different industries. The

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

Trust's largest sector weightings at June 30 were chemicals, at 8.8% of net assets (5.2% of total investments); auto components, at 8.6% (5.1% of total investments); real estate, at 8.4% (5.0% of total investments); cable television, at 8.1% (4.8% of total investments); and publishing and printing, at 7.9% (4.7% of total investments). That broad sector diversification mitigated the risk of a downturn in any single area of the economy.

Q: DID THE TRUST HAVE AN EXPOSURE TO THE ECONOMIC RECOVERY.

A: MR. SWAFFIELD: Yes. The Trust's investments included companies we believe can benefit from an economic recovery. Real estate was one of the largest sector weightings, with holdings including companies that manage diversified portfolios of retail, apartment and commercial office and multi-use properties.

Auto components was another GDP-sensitive area where the Trust had investments. These companies make parts for original equipment manufacturers as well as for the aftermarket. Many have global manufacturing facilities and serve global markets.

Chemicals was another investment area that could benefit from increased demand. The Trust had investments in manufacturers of commodity-grade chemicals that are key ingredients used in plastics, as well as speciality chemicals used in household products and pharmaceutical applications.

Q: WHICH NON-ECONOMICALLY SENSITIVE AREAS DID THE TRUST EMPHASIZE?

A: MR. PAGE: Cable television remained a significant investment for the Trust. Cable has been an attractive area because of its historically consistent revenue stream. The Trust had investments in operators in urban markets, as well as rural areas. While subscriber growth rates have slowed in recent years, some cable companies have benefited from a restructuring of debt that has strengthened their financial underpinnings. In addition, cable operators

4

have added revenue-enhancing services such as video-on-demand and Internet services, and may soon be positioned to compete for telephone services.

Other defensive sectors included food and beverages, entertainment, health care and drug retailers. These companies included a leading drug chain with 3,400 stores in 28 states; a nationwide operator of acute care hospitals; and an operator of 550 multiplex movie theaters targeting suburbs and mid-size markets in 39 states. These segments of the economy have tended to have relatively stable revenues and have generally been resistant to economic downturns.

Q: WERE THERE ANY SECTORS WHOSE PERFORMANCE HURT THE TRUST'S PERFORMANCE?

A: MR. REDDING: There were no sectors that specifically hurt the Trust's performance. However, as Scott indicated previously, the Trust underweighted the technology and telecom sectors. These sectors declined sharply during 2002's loan market decline and, not surprisingly, rebounded more than the broad market as the economy recovered in 2003 and 2004. Currently, we believe these sectors represent a heightened level of risk in the event of an economic reversal and have underweighted the Trust's exposure to these sectors.

Q: WOULD YOU COMMENT ON THE TRUST'S USE OF FINANCIAL LEVERAGE DURING THE LAST

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

FISCAL YEAR?

A: MR. SWAFFIELD: At June 30, 2004, the Trust had leverage in the amount of approximately 42% of the Trust's total assets. The Trust uses leverage through the issuance of preferred shares and a borrowing program. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of the common shares).

- (1) Net investment income per share was computed using average shares outstanding.
- (2) The Trust has adopted the provisions of the revised AICPA Audit and Accounting Guide for Investment Companies and began using the interest method to amortize premiums on fixed-income securities. The effect of this change for the year ended June 30, 2002 was to increase net investment income per share by \$0.001, increase net realized and unrealized losses per share by \$0.001, and increase the ratio of net investment income to average net assets attributable to common shares by less than 0.01%. Per share data and ratios for the periods prior to July 1, 2001 have not been restated to reflect this change in presentation.
- (3) Returns are historical and are calculated by determining the percentage change in market value with all distributions reinvested. Total return is not computed on an annualized basis.
- (4) Ratios do not reflect the effect of dividend payments to preferred shareholders. Ratios to average net assets attributable to common shares reflect the Trust's leverage capital structure.
- (5) Calculated by subtracting the Trust's total liabilities (not including the preferred shares) from the Trust's total assets, and dividing this by the number of preferred shares outstanding.
- (6) Plus accumulated and unpaid dividends.

EATON VANCE SENIOR INCOME TRUST as of June 30, 2004
NOTES TO FINANCIAL STATEMENTS

1 Significant Accounting Policies

Eaton Vance Senior Income Trust (the Trust) is an entity commonly known as a Massachusetts business trust and is registered under the Investment Company Act of 1940 as a non-diversified closed-end management investment company. The Trust's investment objective is to provide a high level of current income consistent with the preservation of capital, by investing primarily in senior, floating rate loans. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

Certain prior year amounts have been reclassified for presentation purposes.

A INVESTMENT VALUATION -- The Trust's investments are primarily in interests in senior floating rate loans (Senior Loans). Certain Senior Loans are deemed liquid because reliable market quotations are readily available for them. Liquid loans are valued on the basis of prices furnished by a pricing service. Other Senior Loans are valued at fair value by the Trust's investment adviser, Eaton Vance Management (EVM), under procedures established by the Trustees as permitted by Section 2(a)(41) of the Investment Company Act of 1940. Such procedures include the consideration of relevant factors, data and information relating to fair value, including (i) the characteristics of and fundamental analytical data relating to the Senior

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

Loan, including the cost, size, current interest rate, period until next interest rate reset, maturity and base lending rate of the Senior Loan, the terms and conditions of the Senior Loan and any related agreements and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the Borrower, based on evaluations of its financial condition, financial statements and information about the Borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the Senior Loan including price quotations for and trading in the Senior Loan and interests in similar loans and the market environment and investor attitudes towards the Senior Loan and interests in similar loans; (v) the experience, reputation, stability and financial condition of the agent and any intermediate participant in the loan; and (vi) general economic and market conditions affecting the fair value of the Senior Loan. Non-loan portfolio holdings (other than short-term obligations, but including listed issues) may be valued on the basis of prices furnished by one or more pricing services which determine prices for normal, institutional-size trading units of such securities using market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. In certain circumstances, portfolio securities will be valued at the last sales price on the exchange that is the primary market for such securities, or the average of the last quoted bid price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales during the day. Marketable securities listed in the NASDAQ National Market System are valued at the NASDAQ official closing price. The value of interest rate swaps will be based upon a dealer quotation. Short-term obligations which mature in 60 days or less are valued at amortized cost, if their original term to maturity when acquired by the Trust was 60 days or less or are valued at amortized cost using their value on the 61st day prior to maturity, if their original term to maturity when acquired by the Trust was more than 60 days, unless in each case this is determined not to represent fair value. Repurchase agreements are valued at cost plus accrued interest. Other portfolio securities for which there are no quotations or valuations are valued at fair value as determined in good faith by or on behalf of the Trustees.

B INCOME -- Interest income from Senior Loans is recorded on the accrual basis at the then-current interest rate, while all other interest income is determined on the basis of interest accrued, adjusted for amortization of premium or discount. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities.

C FEDERAL TAXES -- The Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary. At June 30, 2004, the Trust, for federal income tax purposes, had a capital loss carryover of \$49,875,806, which will expire on June 30, 2009 (\$1,925,241), June 30, 2010 (\$27,557,475), June 30, 2011 (\$13,711,847), and June 30, 2012 (\$6,681,243). These amounts will reduce the Trust's taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code and thus will reduce the amount of the distributions to shareholders which would otherwise be necessary to relieve the Trust of any liability for federal income or excise tax.

Additionally, at June 30, 2004, the Trust had net capital losses of \$850,511

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

attributable to security transactions incurred after October 31, 2003. These are treated as arising on the first day of the Trust's taxable year ending June 30, 2005. At June 30, 2004 the undistributed ordinary income on a tax basis was \$1,295,331 and differed from accumulated net investment income due to the different treatment for premium amortization. All distributions in the year ended June 30, 2004 were from ordinary income for tax purposes.

D CREDIT DEFAULT SWAPS -- The Portfolio may enter into credit default swap contracts for risk management purposes, including diversification. When the Portfolio is a buyer of a credit default swap contract, the Portfolio is entitled to receive the par (or other agreed-upon) value of a referenced debt obligation from the counterparty to the contract in the event of a default by a third party, such as a U.S. or foreign corporate issuer, on the debt obligation. In return, the Portfolio would pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the Portfolio would have spent the stream of payments and received no benefit from the contract. When the Portfolio is the seller of a credit default swap contract, it receives the stream of payments, but is obligated to pay upon default of the referenced debt obligations. As the seller, the Portfolio would effectively add leverage to its portfolio because, in addition to its total net assets, the Portfolio would be subject to investment exposure on the notional amount of the swap. The Portfolio will segregate assets in the form of cash and cash equivalents in an amount equal to the aggregate market value of the credit default swap of which it is the seller, marked to market on a daily basis. These transactions involve certain risks, including the risk that the seller may be unable to fulfill the transaction.

E EXPENSE REDUCTION -- Investors Bank & Trust Company (IBT) serves as custodian of the Trust. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balances the Trust maintains with IBT. All credit balances used to reduce the Trust's custodian fees are reported as a reduction of expenses in the statement of operations.

F USE OF ESTIMATES -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

G INDEMNIFICATIONS -- Under the Trust's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties of the Trust and shareholders are indemnified against personal liability for obligations of the Trust. Additionally, in the normal course of business, the Trust enters into agreements with service providers that may contain indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

H OTHER -- Investment transactions are accounted for on the date the investments are purchased or sold. Gains and losses on securities sold are determined on the basis of identified cost.

2 Auction Preferred Shares (APS)

The Trust issued 2,200 shares of Auction Preferred Shares Series A and 2,200 shares of Auction Preferred Shares Series B on June 27, 2001 in a public offering. The underwriting discount and other offering costs were recorded as a reduction to paid in capital. Dividends on the APS, which accrue daily, are

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

paid cumulatively at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Dividend rates at June 30, 2004 were 1.65% and 1.20% for Series A and Series B Shares, respectively. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates.

The APS are redeemable at the option of the Trust at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Trust is in default on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Trust is required to maintain certain asset coverage with respect to the APS as defined in the

28

Trust's By-Laws. The Trust pays annual fees equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

3 Distributions to Shareholders

The Trust intends to make monthly distributions to common shareholders of net investment income, after payment of any dividends on any outstanding preferred shares. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on June 30, 2004 was 1.65% and 1.20%, for Series A and Series B shares, respectively. For the year ended June 30, 2004, the Trust paid dividends to Auction Preferred shareholders amounting to \$635,322 and \$621,852 for Series A and Series B shares, respectively, representing an average APS dividend rate for such period of 1.14% and 1.12%, respectively.

4 Common Shares of Beneficial Interest

The Agreement and Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares of beneficial interest. Transactions in common shares were as follows:

	Year Ended June 30,	
	2004	2003
Issued to shareholders electing to receive payments of distributions in Trust common shares	279,215	95,799
NET INCREASE	279,215	95,799

5 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee, computed at a monthly rate of $17/240$ of 1% (0.85% annually) of the Trust's average weekly gross assets, was earned by EVM as compensation for management and investment advisory services rendered to the Trust. For the year ended June 30, 2004, the fee was equivalent to 0.85% (annualized) of the Trust's average weekly gross assets and amounted to \$4,531,804. Except for Trustees of the Trust who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Trust out of such investment adviser fee. EVM also serves as the administrator of the Trust. An administration fee, computed at the monthly rate of $1/48$ of 1% (0.25% annually) of the average weekly gross assets of the Trust, is paid to EVM for managing and administering business affairs of the Trust. For the year ended June 30, 2004, the fee was equivalent to 0.25% of the Trust's average weekly gross assets for such period and amounted to \$1,332,884.

Certain officers and Trustees of the Trust are officers of the above organization.

6 Investment Transactions

The Trust invests primarily in Senior Loans. The ability of the issuers of the Senior Loans held by the Trust to meet their obligations may be affected by economic developments in a specific industry. The cost of purchases and the proceeds from principal repayments and sales of Senior Loans, corporate bonds and equities aggregated \$418,336,746 and \$418,658,502, respectively, for the year ended June 30, 2004.

7 Short-Term Debt and Credit Agreements

The Trust has entered into a revolving credit agreement that will allow the Trust to borrow \$120 million to support the issuance of commercial paper and to permit the Trust to invest in accordance with its investment practices. Interest is charged under the revolving credit agreement at the bank's base rate or at an amount above either the bank's adjusted certificate of deposit rate or federal funds effective rate. Interest expense includes commercial paper program fees of approximately \$335,000 and a commitment fee of approximately \$183,000 which is computed at the annual rate of 0.15% on the unused portion of the revolving credit agreement. There were no significant borrowings under this agreement during the period. As of June 30, 2004, the Trust had commercial paper outstanding of \$120,000,000, at an interest rate of 1.17% and is reflected in the demand note payable on the Statement of Assets and Liabilities. Maximum and average borrowings for the year ended June 30, 2004 were \$120,000,000 and \$109,877,049, respectively, and the average interest rate was 1.06%.

8 Financial Instruments

The Portfolio may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities and to assist in managing exposure to various market risks. These financial instruments include written options, financial futures contracts and interest rate swaps and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Portfolio has in particular classes of financial instruments and does not

necessarily represent the amounts potentially subject to risk. The

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

At June 30, 2004, the Trust had entered into credit default swaps with Credit Suisse First Boston dated February 6, 2004 whereby the Trust will receive 2.45% per year times the notional amount of \$3,900,000. The Trust makes payment only upon a default event on underlying loan assets (50 in total, each representing 2% of the notional value of the swap). At June 30, 2004, the Trust had sufficient cash segregated to cover potential obligations arising from open swap contracts.

9 Federal Income Tax Basis of Unrealized Appreciation (Depreciation)

The cost and unrealized appreciation (depreciation) in value of the investment securities at June 30, 2004, as computed on a federal income tax basis, were as follows:

AGGREGATE COST	\$	530,395,782

Gross unrealized appreciation	\$	9,122,157
Gross unrealized depreciation		(1,385,124)

NET UNREALIZED APPRECIATION	\$	7,737,033

Unrealized depreciation on swap contracts was \$7,429.

EATON VANCE SENIOR INCOME TRUST as of June 30, 2004
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Shareholders of Eaton Vance Senior Income Trust:

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Eaton Vance Senior Income Trust (the Trust) as of June 30, 2004, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the years in the two-year period ended June 30, 2004, and the financial highlights for each of the years in the five-year period ended June 30, 2004. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. Our procedures included confirmation of securities and Senior Loans owned at June 30, 2004 by correspondence with the custodian, brokers and selling or agent banks; where replies were not received from brokers and selling or agent banks, we performed other auditing procedures. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights referred to

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

above present fairly in all material respects, the financial position of Eaton Vance Senior Income Trust at June 30, 2004, the results of its operations, the changes in its net assets, its cash flows and its financial highlights for the respective stated periods in conformity with accounting principles generally accepted in the United States of America.

EATON VANCE SENIOR INCOME TRUST DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the Plan) pursuant to which shareholders automatically have dividends and capital gains distributions reinvested in common shares (the Shares) of the Trust unless they elect otherwise through their investment dealer. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Trust's transfer agent, PFPC Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Trust. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC Inc. at 1-800-331-1710.

ITEM 2. CODE OF ETHICS

The registrant has adopted a code of ethics applicable to its Principal Executive Officer, Principal Financial Officer and Principal Accounting Officer. The registrant undertakes to provide a copy of such code of ethics to any person upon request, without charge, by calling 1-800-262-1122.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT

The registrant's Board has designated William H. Park, Samuel L. Hayes, III and Norton H. Reamer, each an independent trustee, as its audit committee financial experts. Mr. Park is a certified public accountant who is the President and Chief Executive Officer of Prizm Capital Management, LLC (investment management firm). Previously, he served as Executive Vice President and Chief Financial Officer of United Asset Management Corporation ("UAM") (a holding company owning institutional investment management firms). Mr. Hayes is the Jacob H. Schiff Professor of Investment Banking Emeritus of the Harvard University Graduate School of Business Administration. Mr. Reamer is the President, Chief Executive

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

Officer and a Director of Asset Management Finance Corp. (a specialty finance company serving the investment management industry) and is President of Unicorn Corporation (an investment and financial advisory services company). Formerly, Mr. Reamer was Chairman of Hellman, Jordan Management Co., Inc. (an investment management company) and Advisory Director of Berkshire Capital Corporation (an investment banking firm), Chairman of the Board of UAM and Chairman, President and Director of the UAM Funds (mutual funds).

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

(a) - (d)

The following table presents the aggregate fees billed to the registrant for the registrant's fiscal years ended June 30, 2003 and June 30, 2004 by the registrant's principal accountant for professional services rendered for the audit of the registrant's annual financial statements and fees billed for other services rendered by the principal accountant during such period.

FISCAL YEAR ENDED	6/30/03	6/30/04
Audit Fees	\$ 84,666	\$ 87,179
Audit-Related Fees(1)	31,930	21,218
Tax Fees(2)	6,000	6,100
All Other Fees(3)	0	0
Total	\$ 122,596	\$ 114,497

- (1) Audit-related fees consist of the aggregate fees billed for assurance and related services that are reasonably related to the performance of the audit of financial statements and are not reported under the category of audit fees.
- (2) Tax fees consist of the aggregate fees billed for professional services rendered by the principal accountant relating to tax compliance, tax advice, and tax planning.
- (3) All other fees consist of the aggregate fees billed for products and services provided by the principal accountant other than audit, audit-related, and tax services.

(e)(1) The registrant's audit committee has adopted policies and procedures relating to the pre-approval of services provided by the registrant's principal accountant (the "Pre-Approval Policies"). The Pre-Approval Policies establish a framework intended to assist the audit committee in the proper discharge of its pre-approval responsibilities. As a general matter, the Pre-Approval Policies (i) specify certain types of audit, audit-related, tax, and other services determined to be pre-approved by the audit committee; and (ii) delineate specific procedures governing the mechanics of the pre-approval process, including the approval and monitoring of audit and non-audit service fees. Unless a service is specifically pre-approved under the Pre-Approval Policies, it must be separately pre-approved by the audit committee.

The Pre-Approval Policies and the types of audit and non-audit services

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

pre-approved therein must be reviewed and ratified by the registrant's audit committee at least annually. The registrant's audit committee maintains full responsibility for the appointment, compensation, and oversight of the work of the registrant's principal accountant.

(e) (2) No services described in paragraphs (b)-(d) above were approved by the registrant's audit committee pursuant to the "de minimis exception" set forth in Rule 2-01(c) (7) (i) (C) of Regulation S-X.

(f) Not applicable.

(g) The following table presents (i) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed for services rendered to the registrant by its principal accountant for the registrant's last two fiscal years; and (ii) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed for services rendered to the Eaton Vance organization for the registrant's last two fiscal years.

FISCAL YEAR ENDED	6/30/03	6/30/04
REGISTRANT	\$ 37,930	\$ 27,318
EATON VANCE (1)	\$ 402,045	\$ 287,437

(1) Eaton Vance Management, a subsidiary of Eaton Vance Corp., acts as the registrant's investment adviser and administrator.

(h) The registrant's audit committee has considered whether the provision by the registrant's principal accountant of non-audit services to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant that were not pre-approved pursuant to Rule 2-01(c) (7) (ii) of Regulation S-X is compatible with maintaining the principal accountant's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a) (58) (A) of the Securities and Exchange Act of 1934, as amended. Norton H. Reamer (Chair), Samuel L. Hayes, III, William H. Park and Lynn A. Stout are the members of the registrant's audit committee.

ITEM 6. SCHEDULE OF INVESTMENTS

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the "Fund Policy"), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the "Policies") which are described below. The Trustees will review the Fund's proxy voting records

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board of the Fund except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues and on matters regarding the state of organization of the company. On all other matters, the investment adviser will take management's proposals under advisement but will consider each matter in light of the guidelines set forth in the Policies. Except in the instance of routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders (on which the investment adviser will routinely vote with management), the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies guidelines when it believes the situation warrants such a deviation. The Policy includes voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the investment adviser's general counsel or chief equity investment officer. The general counsel or chief equity investment officer will determine if a conflict exists. If a conflict does exist, the proxy will either be voted strictly in accordance with the Policy or the investment adviser will seek instruction on how to vote from the Board.

Effective August 31, 2004, information on how the Fund voted proxies relating to portfolio securities during the 12 month period ended June 30, 2004 [is/will be] available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

ITEM 8. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not Applicable.

ITEM 9. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Effective February 9, 2004, the Governance Committee of the Board of Trustees formalized the procedures by which a Fund's shareholders may recommend nominees to the registrant's Board of Trustees. The Governance Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder of a Fund if such recommendation contains sufficient background information concerning the candidate, and is received in a sufficiently timely manner (and in any event no later than the date specified for receipt of shareholder proposals in any applicable proxy

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-CSR

statement with respect to a Fund). Shareholders shall be directed to address any such recommendations to the attention of the Governance Committee, c/o the Secretary of the Fund.

ITEM 10. CONTROLS AND PROCEDURES

(a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the registrant has been accumulated and communicated to the registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant's internal controls over financial reporting during the period that has materially affected, or is reasonably likely to materially affect the registrant's internal control over financial reporting.

ITEM 11. EXHIBITS

- (a) (1) Registrant's Code of Ethics - Not applicable (please see Item 2).
- (a) (2) (i) Treasurer's Section 302 certification.
- (a) (2) (ii) President's Section 302 certification.
- (b) Combined Section 906 certification.
