**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM U-13-60

ANNUAL REPORT

FOR THE PERIOD

Beginning January 1, 2004 and ending December 31, 2004

TO THE

U.S. SECURITIES AND EXCHANGE COMMISSION

OF

XCEL ENERGY SERVICES INC.

(Exact Name of Reporting Company)

A *Subsidiary* SERVICE COMPANY

("Mutual" or "Subsidiary")

Date of Incorporation *April 2, 1997*

State or Sovereign Power under which Incorporated or Organized: **Delaware**

Location of Principal Executive Offices of Reporting Company: **Minneapolis, MN**

Name, title, and address of officer to whom correspondence concerning
this report should be addressed:

Teresa S. Madden
(Name)

Vice President and Controller
(Title)

800 Nicollet Mall
Minneapolis, MN 55402
(Address)

Name of Principal Holding Company Whose Subsidiaries are served by Reporting Company:

XCEL ENERGY INC.

INSTRUCTIONS FOR USE OF FORM U-13-60

1. **Time of Filing.** Rule 94 provides that on or before the first day of May in each calendar year, each mutual service company and each subsidiary service company as to which the Commission shall have made a favorable finding pursuant to Rule 88, and every service company whose application for approval or declaration pursuant to Rule 88 is pending shall file with the Commission an annual report on Form U-13-60 and in accordance with the Instructions for that form.
2. **Number of Copies.** Each annual report shall be filed in duplicate. The company should prepare and retain at least one extra copy for itself in case correspondence with reference to the report becomes necessary.
3. **Period Covered by Report.** The first report filed by any company shall cover the period from the date the Uniform System of Accounts was required to be made effective as to that company under Rules 82 and 93 to the end of that calendar year. Subsequent reports should cover a calendar year.
4. **Report Format.** Reports shall be submitted on the forms prepared by the Commission. If the space provided on any sheet of such form is inadequate, additional sheets may be inserted of the same size as a sheet of the form or folded to each size.
5. **Money Amounts Displayed.** All money amounts required to be shown in financial statements may be expressed in whole dollars, in thousands of dollars or in hundred thousands of dollars, as appropriate and subject to provisions of Regulation S-X (210.3-01(b)).
6. **Deficits Displayed.** Deficits and other like entries shall be indicated by the use of either brackets or a parenthesis with corresponding reference in footnotes. (Regulation S-X,210.3-01(c))
7. **Major Amendments or Corrections.** Any company desiring to amend or correct a major omission or error in a report after it has been filed with the Commission shall submit an amended report including only those pages, schedules, and entries that are to be amended or corrected. A cover letter shall be submitted requesting the Commission to incorporate the amended report changes and shall be signed by a duly authorized officer of the company.
8. **Definitions.** Definitions contained in Instruction 01-8 to the Uniform System of Accounts for Mutual Service Companies and Subsidiary Service Companies, Public Utility Holding Company Act of 1935, as amended February 2, 1979 shall be applicable to words or terms used specifically within this Form U-13-60.
9. **Organization Chart.** The service company shall submit with each annual report a copy of its current organization chart.
10. **Methods of Allocation.** The service company shall submit with each annual report a listing of the currently effective methods of allocation being used by the service company and on file with the Securities and Exchange Commission pursuant to the Public Utility Holding Company Act of 1935.
11. **Annual Statement of Compensation for Use of Capital Billed.** The service company shall submit with each annual report a copy of the annual statement supplied to each associate company in support of the amount of compensation for use of capital billed during the calendar year.

Current Liability Suspense Account	\$	\$
TOTAL	\$	\$

Schedule XIV NOTES TO FINANCIAL STATEMENTS

INSTRUCTIONS: The space below is provided for important notes regarding the financial statements or any account thereof. Furnish particulars as to any significant contingent assets or liabilities existing at the end of the year. Notes relating to financial statements shown elsewhere in this report may be indicated here by reference.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Financial Statement Presentation

Xcel Energy Services Inc. (XES or the Company) is a wholly owned subsidiary of Xcel Energy Inc. (Xcel Energy). XES is the service company for Xcel Energy and its subsidiaries and began its operations effective August 1, 2000. XES provides various administrative, management, environmental and other support services to Xcel Energy and its subsidiaries, at cost, pursuant to service agreements approved by the Securities and Exchange Commission (SEC) under the Public Utility Holding Company Act of 1935 (PUHCA), as amended. The majority of the services performed by XES for Xcel Energy and its subsidiaries are provided to Xcel Energy's four major operating utilities, Northern States Power Company, a Minnesota corporation (NSP-Minnesota), Northern States Power Company, a Wisconsin corporation (NSP-Wisconsin), Public Service Company of Colorado (PSCo) and Southwestern Public Service Company (SPS).

Discontinued utility operations of Xcel Energy include the activity of Viking Gas Transmission Co., an interstate natural gas pipeline company that was sold in January 2003; Black Mountain Gas Co., a regulated natural gas and propane distribution company that was sold in October 2003; and Cheyenne Light, Fuel and Power Company, a regulated electric and natural gas utility that was sold in January 2005.

During 2003, Xcel Energy also divested its ownership interest in NRG Energy, Inc. (NRG), an independent power producer. On May 14, 2003, NRG filed for bankruptcy to restructure its debt. As a result of the reorganization, Xcel Energy relinquished its ownership interest in NRG.

Regulation

XES is subject to regulation by the SEC under the PUHCA. XES' accounting policies conform to accounting principles generally accepted in the United States of America. XES maintains its accounts in accordance with the Uniform System of Accounts for Mutual Service Companies as administered by the SEC.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying amount of financial instruments approximates fair value. Fair values have been determined through information obtained from market sources and management estimates.

Income Taxes

The Company's operations are included in the consolidated Federal income tax return of Xcel Energy. The allocation of income tax consequences to the Company, including alternative minimum tax, is calculated under a parent company policy which provides that benefits or liabilities created by the Company, computed on a separate return basis, will be allocated to (and paid to or by) the Company to the extent the benefits are usable or additional liabilities are incurred in Xcel Energy's consolidated tax returns. Deferred taxes are provided on temporary differences between the financial accounting and tax bases of assets and liabilities using the tax rates that are in effect at the balance sheet date (see Note 6).

Stock-based Compensation

The Company uses the intrinsic value based method of accounting for its stock-based compensation plan.

2. COMMON STOCK

XES is authorized to issue 1,000 shares of Common Stock at a par value of one cent (\$0.01) per share. As of Dec. 31, 2004, all shares of common stock were issued and held by Xcel Energy.

3. SHORT-TERM BORROWINGS

The Board of Directors has authorized the Company to borrow directly from Xcel Energy. At Dec. 31, intercompany borrowings outstanding and the weighted average interest rate were as follows:

(Thousands of Dollars)	2004	2003
Intercompany borrowings	\$ 23,300	\$ 20,100
Weighted average interest rate	4.02%	1.24%

In 2003, Xcel Energy established a money pool arrangement with the utility subsidiaries, subject to receipt of required state regulatory approvals. The money pool allows for short-term loans between the utility subsidiaries and from the holding company to the utility subsidiaries at market-based interest rates. The money pool arrangement does not allow loans from the utility subsidiaries to the holding company. State regulatory commission approvals have been received for NSP-Minnesota, PSCo and SPS, and borrowing and lending activity for these utilities has commenced. On Jan. 18, 2005, NSP-Wisconsin submitted a letter to the Public Service Commission of Wisconsin (PSCW) withdrawing its request for approval to participate in the money pool arrangement after it became apparent the conditions likely to be imposed by the PSCW would have limited flexibility and reduced the economic benefits of NSP-Wisconsin's participation.

XES is the administrator of the utility money pool. At Dec. 31, 2004, XES held a note payable to Xcel Energy and a note receivable from Cheyenne, both in the amount of \$32.5 million, related to funds contributed to the utility money pool from Cheyenne. The interest rate for funds in the utility money pool was 4.02% at Dec. 31, 2004.

4. COMMITMENTS AND CONTINGENCIES**Leasing Programs**

The Company made payments for leases of various facilities used in the normal course of business. The majority of the operating leases are under a leasing program that has initial noncancelable terms of one year, while the remaining leases have various terms. These leases may be renewed or replaced. No material restrictions exist in these leasing agreements concerning dividends, additional debt, or further

Edgar Filing: XCEL ENERGY INC - Form U-13-60

leasing. Rental expense under operating lease obligations for the years ended Dec. 31, 2004 and 2003 was approximately \$10.7 million and \$12.5 million, respectively.

Expected operating lease expenses at Dec. 31, 2004 are as follows:

(Thousands of Dollars)

2005	\$	9,670
2006		8,821
2007		8,184
2008		8,272
2009		8,439
Thereafter		9,648

Technology Agreement

XES has a contract that extends through 2011 with International Business Machines Corp. (IBM) for information technology services. The contract is cancelable at our option, although there are financial penalties for early termination. In 2004, Xcel Energy paid IBM \$152.5 million under the contract and \$24.5 million for other project business. In 2003, XES paid IBM \$114.2 million under the contract and \$19.4 million for other project business. The contract also has a committed minimum payment each year from 2005 through 2011.

5. BENEFIT PLANS AND OTHER POSTRETIREMENT BENEFITS

Xcel Energy offers various benefit plans to its benefit employees. At Dec. 31, 2004, there were 10,650 full-time Xcel Energy employees (including 3,015 full-time Company employees) eligible for benefits.

Pensions

The Company participates in various tax qualified noncontributory defined benefit pension plans, which cover substantially all Xcel Energy employees. Xcel Energy, as the plan sponsor, has overall responsibility for directly allocating such costs of each individual plan to each of the participating employers. The plans' actuary determined this allocation based on benefit obligations for active participants. Benefits are based on a combination of years of service, the employee's average pay and Social Security benefits.

Xcel Energy's policy is to fully fund into an external trust the actuarially determined pension costs recognized for ratemaking and financial reporting purposes, subject to the limitations of applicable employee benefit and tax laws. Plan assets principally consist of the common stock of public companies, corporate bonds and U.S. government securities. In 2004, Xcel Energy completed a review of its pension plan asset allocation and adopted revised asset allocation targets. The target range for our pension asset allocation is 60 percent in equity investments, 20 percent in fixed income investments, no cash investments and 20 percent in nontraditional investments, such as real estate, timber ventures, private equity and a diversified commodities index.

The actual composition of pension plan assets at Dec. 31 was:

	<u>2004</u>	<u>2003</u>
Equity securities	69%	75%
Debt securities	19	14
Real estate	4	3
Cash	1	
Nontraditional investments	7	8
	<u>100%</u>	<u>100%</u>

Summary information of the actuarially computed benefit obligation, plan assets, funded status and prepaid pension asset for the Xcel Energy plans at Dec. 31, 2004 and 2003, is presented in the following table:

(Thousands of Dollars)	<u>2004</u>	<u>2003</u>
Benefit obligation	\$ 2,732,263	\$ 2,632,491
Fair value of plan assets	3,062,016	3,024,661
Funded status: Plan assets exceed benefit obligations	\$ 329,753	\$ 392,170
Xcel Energy prepaid pension asset (a)	\$ 642,873	\$ 566,568

(a) \$18.5 million of the 2004 prepaid pension asset and \$18.7 million of the 2003 prepaid pension asset relates to Xcel Energy's remaining obligation for companies that are now classified as discontinued operations.

The Company's net periodic pension credit for the years ended Dec. 31, 2004 and 2003 was \$13.1 million and \$18.3 million, respectively. Significant assumptions used by the Company's actuary in the determination of these amounts are presented in the following table:

	<u>2004</u>	<u>2003</u>
Significant assumptions used to measure benefit obligations:		
Discount rate for year-end valuation	6.00%	6.25%
Expected average long-term increase in compensation level	3.50%	3.50%
Significant assumptions used to measure costs:		
Expected average long-term rate of return on assets	9.00%	9.25%

Defined Contribution Plans

The Company participates in various defined contribution plans, which cover substantially all Xcel Energy employees. Total contributions to these plans by Xcel Energy were approximately \$21.9 million and \$15.9 million in 2004 and 2003, respectively.

Postretirement Health Care Benefits

The Company participates in various health and welfare plans administered by Xcel Energy. Xcel Energy has contributory health and welfare benefit plans that provide health care and death benefits to most Xcel Energy retirees. The former NSP discontinued contributing toward health care benefits for nonbargaining employees retiring after 1998 and for bargaining employees of NSP-Minnesota and NSP-Wisconsin who retired after 1999. Xcel Energy discontinued contributing toward health care benefits for former NCE nonbargaining employees retiring after June 30, 2003.

Edgar Filing: XCEL ENERGY INC - Form U-13-60

In conjunction with the 1993 adoption of Statement of Financial Accounting Standards No. 106 "Employers' Accounting for Postretirement Benefits Other Than Pensions," Xcel Energy elected to amortize the unrecognized accumulated postretirement benefit obligation (APBO) on a straight-line basis over 20 years.

In 2004, the investment strategy for the union asset fund was changed to increase the exposure to equity funds. Also, a portion of the assets contributed on behalf of nonbargaining retirees has been funded into a sub-account of the Xcel Energy pension plans. These assets are invested in a manner consistent with the investment strategy for the pension plan.

The actual composition of postretirement benefit plan assets at Dec. 31, was:

	<u>2004</u>	<u>2003</u>
Fixed income/debt securities	21%	2%
Equity and equity mutual fund securities	54	14
Cash equivalents	25	84
	100%	100%

Summary information of the actuarially computed benefit obligation, plan assets, funded status and accrued benefit cost for the Xcel Energy plans at Dec. 31 is presented in the following table:

<u>(Thousands of Dollars)</u>	<u>2004</u>	<u>2003</u>
Benefit obligation	\$ 929,125	\$ 775,230
Fair value of plan assets	318,667	285,861
Funded status: Plan obligations exceed assets	\$ 610,458	\$ 489,369
Xcel Energy accrued benefit liability recorded (a)	\$ 127,746	\$ 120,510

(a) \$0.7 million of the 2004 accrued benefit liability and \$1.1 million of the 2003 accrued benefit liability relate to Xcel Energy's remaining obligation for companies that are now classified as discontinued operations.

The Company's net periodic postretirement benefit cost for the years ended Dec. 31, 2004 and 2003 was \$2.0 million and \$1.3 million, respectively. Significant assumptions used by the Company's actuary in the determination of these amounts are presented in the following table:

	<u>2004</u>	<u>2003</u>
Significant assumptions used to measure benefit obligations:		
Discount rate for year-end valuation	6.00%	6.25%
Significant assumptions used to measure costs:		
Expected average long-term rate of return on assets	5.50-8.50%	8.00-9.00%

Xcel Energy bases its investment-return assumption for the postretirement health care fund assets on expected long-term performance for each of the investment types included in its postretirement health care asset portfolio. Given the fairly short time period in which funding has been required, Xcel Energy does not consider the actual historical returns achieved by its postretirement health care fund asset portfolio to be significant in establishing long-term return assumptions. Instead, Xcel Energy considers the long-term return levels projected and recommended by investment experts, weighted for the target mix of asset categories in our portfolio. Investment-return volatility is not considered to be a material factor in postretirement health care costs.

Effective Dec. 31, 2004, Xcel Energy raised its initial medical trend assumption from 6.5 percent to 9.0 percent and lowered the ultimate trend assumption from 5.5 percent to 5.0 percent. The period

until the ultimate rate is reached also was increased from two years to six years. This trend assumption was used to value the actuarial benefit obligations at year-end 2004, and will be used in 2005 retiree medical cost determinations.

A 1-percent increase in the assumed health care cost trend rate would increase the Company's total accumulated benefit obligation by approximately \$5,543,000 and the service and interest cost components of net periodic postretirement benefit costs by approximately \$389,000. A 1-percent decrease in the assumed health care cost trend rate will decrease the Company's total accumulated benefit obligation by approximately \$4,595,000 and the service and interest cost components of net periodic postretirement benefit costs by approximately \$317,000.

Impact of 2003 Medicare Legislation On Dec. 8, 2003, President Bush signed into law the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act). The Act expanded Medicare to include, for the first time, coverage for prescription drugs. This new coverage is generally effective Jan. 1, 2006. Many of Xcel Energy's retiree medical programs provide prescription drug coverage for retirees over age 65 with coverage at least equivalent to the benefit to be provided under Medicare. While retirees remain in Xcel Energy's postretirement health care plan without participating in the new Medicare prescription drug coverage, Medicare will share the cost of Xcel Energy's plan. This legislation has therefore reduced Xcel Energy's share of the obligation for future retiree medical benefits.

As of Dec. 31, 2003, Xcel Energy had reduced the postretirement health care benefit obligation by \$64.6 million due to the expected sharing of the cost of the program by Medicare under the new legislation. Also, beginning in 2004, the annual net periodic postretirement benefit cost was reduced by approximately \$10 million as a result of the expected sharing of the cost of the program by Medicare, with similar savings expected in subsequent years. These estimated reductions do not reflect any changes that may result in future levels of participation in the plan or the associated per capita claims cost due to the availability of prescription drug coverage for Medicare-eligible retirees. Also, in reflecting this legislation, Medicare cost sharing for a plan has been assumed only if Xcel Energy's projected contribution to the plan is expected to be at least equal to the Medicare Part D basic benefit.

6. INCOME TAXES

The provision for income taxes for the years ended Dec. 31, 2004 and 2003 consist of the following:

(Thousands of Dollars)	2004	2003
Current income taxes:		
Federal	\$ 15,540	\$ 164
State	2,989	(380)
Total current income taxes	18,529	(216)
Deferred income taxes:		
Federal	(14,168)	380
State	(2,920)	71
Total deferred income taxes	(17,088)	451
Total provision for income taxes	\$ 1,441	\$ 235

Edgar Filing: XCEL ENERGY INC - Form U-13-60

A reconciliation of the statutory U.S. income tax rate and the effective tax rates for the years ended Dec. 31, 2004 and 2003 follows:

(Thousands of Dollars)	2004		2003			
Tax computed at U.S. statutory rate on pre-tax accounting income	\$	504	35%	\$	82	35%
Increase (decrease) in tax from:						
State income taxes, net of Federal income tax benefit		45	3	(211)	(90)	
Non-deductible business meals		346	24	395	168	
Stock options		(142)	(10)	(155)	(66)	
Lobbying expenses		(70)	(5)	140	60	
Excess executive compensation		559	39	42	18	
Out of period adjustments		199	14	(58)	(25)	
Total income taxes	\$	1,441	100%	\$	235	100%

The tax effects of significant temporary differences representing deferred tax liabilities and assets are as follows:

(Thousands of Dollars)	2004		2003			
Deferred income tax liabilities:						
Difference between book and tax basis of property	\$	1,682	\$	1,415		
Information systems charges		11,369		2,500		
Pension related costs		28,907		19,929		
Rent adjustments				2,307		
Vacation liability				652		
Prepaid advertising				175		
Total	\$	41,958	\$	26,978		
Deferred income tax assets:						
Postretirement benefit costs	\$	19,898	\$	4,913		
Employee severance costs		440		504		
NOL carryforward adjustment		3,572		199		
Executive incentive plans		7,441		9,855		
Vacation liability		4,075				
State tax deduction cash vs accrual		1,049				
Total	\$	36,475	\$	15,471		
Net deferred income tax liability	\$	5,483	\$	11,507

SCHEDULE XVIII NOTES TO STATEMENT OF INCOME

INSTRUCTIONS: The space below is provided for important notes regarding the statement of income or any account thereof. Furnish particulars as to any significant increases and services rendered or expenses incurred during the year. Notes related to financial statements shown elsewhere in this report may be indicated here by reference.

- Account 921 The increased cost is due to an accounting process change for the IBM bill and is offset in account 922.
- Account 922 Costs for Aviation Services, Information Technology, Supply Chain Purchasing and Facilities are initially recorded in income statement clearing accounts (408, 920-926) according to the nature of the cost. At month-end these costs are transferred to the balance sheet clearing accounts (184) and account 922 is credited. The increased credit amount is due to an accounting process change for the IBM bill and is offset in account 921.
- Account 923 The increased cost is due to additional computer support and consulting for business systems applications, and engineering support for plant rehabilitation projects.
- Account 925 The decrease in cost is due to recording insurance expense directly in affiliate companies' prepaid insurance balance sheet accounts.
- Account 931 Costs for Facilities are initially recorded in income statement clearing accounts (418, 920-926) according to the nature of the cost. At month-end, these costs are billed out of the Service Co. based on labor distribution and charged to Account 931.

Also see Notes to Financial Statements on pages 14-14f for additional Notes to Statement of Income.

METHODS OF ALLOCATION

Revenue Ratio Based on the sum of the monthly revenue amounts for the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Revenue Ratio with intercompany dividends assigned to Xcel Energy Inc. Based on the sum of the monthly revenue amounts for the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. Xcel Energy Inc. will be assigned the amount of intercompany dividends. This ratio will be determined annually, or at such time as may be required due to significant changes.

Employee Ratio Based on the number of employees at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Employee Ratio with number of common officers assigned to Xcel Energy Inc. Based on the number of employees at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. Xcel Energy Inc. will be assigned the number of common officers. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total Assets Ratio Based on the total assets as of December 31 for the prior year, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Square Footage Ratio Based on the total square footage as of December 31 for the prior year, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Invoice Transaction Ratio Based on the sum of the monthly number of invoice transactions processed for the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Customer Bills Ratio Based on the average of the monthly total number of customer bills issued during the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such a time as may be required due to significant changes.

Edgar Filing: XCEL ENERGY INC - Form U-13-60

MWh Generation Ratio Based on the sum of the monthly electric MWh generated during the prior year ending December 31, the numerator of which is for an applicable Operating Company and the denominator of which is for all applicable Operating Companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total MWh Sales Ratio Based on the sum of the monthly electric MWh hours sold during the prior year ending December 31, the numerator of which is for an applicable Operating Company and the denominator of which is for all applicable Operating Companies. This includes sales to ultimate customers, wholesale customers, and non-requirement sales for resale. This ratio will be determined annually, or at such time as may be required due to significant changes.

Customers Ratio Based on the average of the monthly total electric customers (and/or gas customers, or residential, business and large commercial and industrial customers where applicable) for the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Labor Dollars Ratio Based on the XES department (performing center) labor dollars charged to Operating companies and other affiliates for the month. The numerator of which is the labor dollars charged to an Operating Company or affiliate company and the denominator of which is for all Operating Companies and affiliate companies charged by the department for the month.

Delivery Services Gross Plant Ratio Based on transmission and distribution gross plant for the Delivery Business unit, both electric and gas for the prior year ending December 31, the numerator of which is an applicable Operating Company and the denominator of which is for all applicable Operating Companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Meters Ratio Based on the number of meters at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Customer Contacts Ratio Based on the total annual number of customer contacts at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Accounts Payable Transactions Ratio Based on the total annual number of accounts payable transactions by system application at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Inventory Transactions Ratio Based on the total annual number of inventory transactions by system application at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Work Management Transactions Ratio Based on the total annual number of work management transactions by system application at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is

for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Purchasing Transactions Ratio Based on the total annual number of purchasing transactions by system application at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total Plant Ratio Based on total property, plant and equipment at the end of the prior year ending December 31, the numerator of which is an applicable Operating Company and the denominator of which is for all applicable Operating Companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total Phones Ratio Based on the number of phones at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total Radios Ratio Based on the number of radios at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total Computers Ratio Based on the number of computers at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total Software Application's Users Ratio Based on the number of users of a specific software application at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

ANNUAL STATEMENT OF COMPENSATION FOR USE OF CAPITAL BILLED

For the Period Ended December 31, 2004

The following annual statement was supplied to each associate company in support of the amount of compensation for use of capital billed during 2004:

In accordance with Instruction 01-12 of the Securities and Exchange Commission's Uniform System of Accounts for Mutual Service Companies and Subsidiary Service Companies, Xcel Energy Services Inc. (XES) submits the following information on the billing of interest on borrowed funds to associated companies for the year 2004:

- A. Amount of interest billed to associate companies is contained on page 16, Analysis of Billing.

- B. Amount of interest XES pays Xcel Energy Inc. is based on Xcel Energy's weighted cost of debt adjusted for their commitment (facilities) fees. Interest is billed to associate companies based on each company's Accounts Receivable balance weighted with other significant Service Company assets in which the benefits can be directly assigned to specific companies. Companies with outstanding Accounts Receivable balances greater than 30 days and more than \$1,000 are charged a 1% penalty on the outstanding balance in addition to their monthly interest expense. The penalty amounts reduce the monthly interest amount allocated based on total Accounts Receivable balances.

SIGNATURE CLAUSE

Pursuant to the requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations of the Securities and Exchange Commission issued thereunder, the undersigned company has duly caused this report to be signed on its behalf by the undersigned officer thereunto duly authorized.
