PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
To be held May 19, 2006

GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation of proxies by and on behalf of the Board of Directors of Spirit Finance Corporation, for use at the 2006 Annual Meeting of Stockholders of the Company to be held at the Four Seasons Resort, 10600 East Crescent Moon Drive, Scottsdale, Arizona 85262, on May 19, 2006, 9:00 a.m. local time, and at any and all postponements or adjournments thereof. This proxy statement, the accompanying form of proxy and the Notice of Annual Meeting will be first mailed or given to the Company's stockholders on or about March 24, 2006.

Because many of the Company's stockholders may be unable to attend the meeting in person, the Board of Directors solicits proxies by mail to give each stockholder an opportunity to vote on all matters presented at the meeting. Stockholders are urged to:

- (1) read this proxy statement carefully;
- (2) specify their choice in each matter by marking the appropriate box on the enclosed proxy card; and
- (3) sign, date and return the proxy card by mail in the postage paid, return-addressed envelope provided for that purpose.

ABOUT THE MEETING

What is being voted on at the meeting?

The Board of Directors is asking stockholders to consider two items at this year's meeting:

- (1) the election of ten directors to the Board of Directors; and
- (2) the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2006.

Who can vote at the meeting?

The Board of Directors has set March 7, 2006 as the record date for the meeting. Only persons holding shares of record at the close of business on March 7, 2006 will be entitled to receive notice of and to vote at the meeting.

How many votes do I have?

On March 7, 2006, there were 81,865,639 shares of the Company's common stock outstanding. Each share of the Company's common stock will be entitled to one vote on each matter properly submitted for vote at the meeting.

What constitutes a quorum for the meeting?

Edgar Filing: SPIRIT FINANCE CORP - Form DEF 14A

The presence, in person or by proxy, of the holders of a majority of the outstanding shares of the Company's common stock is necessary to establish a quorum at the meeting. Shares present, in person or by proxy, including shares as to which authority to vote on any proposal is withheld, shares abstaining as to any proposal, and broker non-votes (where a broker submits a proxy but does not have authority to vote a customer's shares on a proposal) on any proposal will be considered present at the

meeting for purposes of establishing a quorum for the transaction of business at the meeting. Each of these categories will be tabulated separately. The presence, in person or by proxy, of 40,932,820 shares is necessary to establish a quorum at the meeting.

How do I authorize my vote?

If you complete and properly sign the accompanying proxy card and return it to the tabulation agent, American Stock Transfer & Trust Company, it will be voted as you direct, unless you later revoke the proxy. If no instructions are specified, shares of common stock represented by a proxy will be voted for the proposals set forth on the proxy and in the discretion of the persons named as proxies on such other matters as may properly come before the meeting. Your proxy must be received by the tabulation agent by 5:00 p.m., New York City time, on Thursday, May 18, 2006 to be valid. If you are a registered stockholder (that is, if you hold your shares of common stock in certificate form) and you attend the meeting, you may deliver your completed proxy card in person. If you hold your shares of common stock in "street name" (that is, if you hold your shares of common stock through a broker or other nominee) and you wish to vote in person at the meeting, you will need to obtain a proxy from the institution that holds your shares.

Can I authorize my vote by telephone or electronically?

If you hold your shares in "street name," you may be able to grant your proxy by telephone, or electronically over the Internet, by following the instructions included with your proxy card. Please check your proxy card or contact your broker or nominee to determine whether you will be able to grant your proxy by telephone or electronically. The deadline for granting your proxy by telephone or electronically is 5:00 p.m., New York City time, on Thursday, May 18, 2006.

If you are a registered stockholder, then you may not grant your proxy by telephone or over the Internet. You must complete the enclosed proxy card and return it in the enclosed envelope so that it reaches the tabulation agent, American Stock Transfer & Trust Company, by 5:00 p.m., New York City time, on Thursday, May 18, 2006 to be valid.

Can I change my vote after I return my proxy card?

Yes. Even after you have submitted your proxy, you may change your vote at any time before the proxy is exercised by filing with the Secretary of the Company, at the principal office address of the Company, a written notice of revocation. You may also change your vote by executing a duly executed proxy bearing a later date and delivering that proxy to the tabulation agent, or by attending the meeting and voting in person. The powers of the proxy holders will be suspended if you attend the meeting in person and so request. However, attendance at the meeting will not by itself revoke a previously granted proxy. If you want to change or revoke your proxy and you hold your shares of common stock in "street name," contact your broker or the nominee that holds your shares.

Any written notice of revocation sent to the Company must include the stockholder's name and must be received prior to the meeting to be effective.

What vote is required to approve each item?

Election of Directors. The election of each director nominee (Proposal 1) requires the affirmative vote of a plurality of the votes cast at the meeting (which means the ten nominees receiving the most votes). The Company's stockholders are not entitled to cumulate votes with respect to the election of directors.

Ratification of Independent Registered Public Accounting Firm and Other Business. The affirmative vote of a majority of the votes cast at the meeting is required for the ratification of the

appointment of Ernst & Young LLP as the Company's independent registered public accounting firm (Proposal 2) and all other business not described in this proxy statement and properly submitted to the stockholders for their consideration at the meeting.

If you hold your shares in "street name," your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. If you do not give your broker or nominee specific instructions on such a matter, your shares may not be voted. Shares of common stock represented by "broker non-votes" will, however, be counted in determining whether there is a quorum.

Abstentions and broker non-votes are not counted for purposes of determining whether a proposal has been approved. Therefore, abstentions and broker non-votes will have no effect at the meeting, other than for determining whether a quorum is present.

Votes cast in person at the meeting or by proxy will be tabulated by the Company's transfer agent, American Stock Transfer & Trust Company.

**PROPOSAL NO. 1
ELECTION OF DIRECTORS**

It is intended that the shares of the Company's common stock represented by properly granted proxies will be voted to elect the director nominees, unless authority to so vote is withheld. Each nominee is currently a member of the Board of Directors and all of the nominees have indicated a willingness to serve as a director if elected. If elected, each nominee will serve until the 2007 Annual Meeting of Stockholders (and until the director's successor is duly elected and qualifies) or until the director's earlier removal or resignation. The Board of Directors has no reason to believe that any of the director nominees will be unable to serve as a director or become unavailable for any reason. If, at the time of the meeting, any of the director nominees shall become unavailable for any reason, the persons entitled to vote the proxy will vote, as such persons shall determine in his or her discretion, for such substituted nominee or nominees, if any, nominated by the Board of Directors. Mr. Morton H. Fleischer, Chairman of the Board, is an officer and director of the Company, and his son, Mr. Jeffrey M. Fleischer, Senior Vice President Acquisitions, Assistant Secretary and Assistant Treasurer, is an officer of the Company. There are no other family relationships among officers and directors of the Company.

The affirmative vote of a plurality of the outstanding shares of the Company's common stock present or represented at the meeting is necessary to elect each director nominee. Stockholders of the Company will have an opportunity on their proxy to vote in favor of one or more director nominees while withholding authority to vote for one or more director nominees.

**THE BOARD OF DIRECTORS RECOMMENDS THAT
STOCKHOLDERS VOTE FOR THE ELECTION OF ALL OF THE
NOMINEES TO THE BOARD OF DIRECTORS**

Director Nominations

General. The nominating and governance committee has been delegated the responsibility to identify and recommend individuals qualified to become Board of Directors members and members of committees of the Board of Directors, develop and recommend to the Board of Directors a set of effective corporate governance policies and procedures applicable to the Company, and oversee the evaluation of the Board of Directors, committees of the Board of Directors, and management.

The goal of the nominating and governance committee's nominating process is to assist the Company in attracting competent individuals with the requisite management, financial, and other expertise who will act as directors in the best interests of the Company and all of its stockholders. The nominating and governance committee consults with other Board of Directors members, the Company's Chief Executive Officer, and other Company personnel in implementing this process. The nominating and governance committee will consider an individual recommended by a stockholder for nomination as a new director provided the stockholder making the recommendation follows the procedures for submitting a proposed nominee's name and the required information described below.

Director Qualifications and Nomination Process. The nominating and governance committee has developed a process for identifying and evaluating nominees in light of the standards discussed below and such other factors as the nominating and governance committee deems appropriate. These standards, and the nominating and governance committee's evaluation process, apply to all proposed nominees for directors, including those nominees recommended by stockholders. This process is based on the nominating and governance committee's familiarity with the composition of the current Board of Directors, its awareness of anticipated openings, and its assessment of desirable talents or expertise.

The nominating and governance committee regularly reviews the composition of the Board of Directors in light of its understanding of the backgrounds, industry, and professional experience, and the various communities, both geographic and demographic, represented by current members. It also monitors the expected service dates of Board of Directors members, any planned retirement dates, and other anticipated events that may affect a director's continued ability to serve. The nominating and governance committee periodically reviews information with respect to the business and professional expertise represented by current directors in order to identify any specific skills desirable for future Board of Directors members.

The nominating and governance committee will consider, in evaluating any candidate for nomination as a director, the current composition of the Board of Directors in light of the diverse communities and geographies served by the Company and the interplay of the candidate's experience with the experience of the other Board of Directors members, as well as such other factors as the nominating and governance committee considers appropriate. Although the nominating committee has not adopted specific minimum qualifications to serve on the Company's Board of Directors, in considering a director candidate the committee will consider, among other factors, the extent to which each director candidate:

has demonstrated business acumen and experience and ability to exercise sound business judgment in areas of or related to the Company's business;

has a reputation for integrity, strong moral character and adherence to high ethical standards;

holds or has held a generally recognized position of leadership in the community and/or a chosen field of endeavor, and has demonstrated high levels of accomplishments;

has an understanding of basic accounting concepts and ability to understand financial statements;

has an understanding of the basic role of a director of a publicly-held corporation;

has experience in corporate governance; and

can diversify and add to the overall quality and experience of the Company's Board of Directors.

Director Nominations by Stockholders. The nominating and governance committee will consider nominees recommended by stockholders. Recommendations for the Company's 2007 Annual Meeting of Stockholders must be submitted in writing to the Company's Secretary at 14631 N. Scottsdale Road, Suite 200, Scottsdale, AZ 85254. Such recommendations must include the name, address and principal business occupation of the candidate for the last five years, and must be received at the Company's offices between the dates of Saturday, December 9, 2006 and Monday, January 8, 2007. The nominating committee has the right to request, and the stockholder will be required to provide, such additional information with respect to the stockholder nominee as the committee may deem appropriate or desirable to evaluate the proposed nominee in accordance with the nomination process described above, including information about the proposed nominee that would be required to be disclosed by the Company in a proxy statement under Regulation 14A of the Securities Exchange Act of 1934.

Director Independence Determination

At its meeting on February 17, 2006, the Board of Directors reviewed information regarding the transactions or relationships between each director or any member of his or her immediate family, on the one hand, and the Company, on the other, for the purpose of determining a director's independence from the Company. Based on this review, the Board of Directors has concluded that except for Messrs. Morton H. Fleischer and Volk, who are officers of the Company, each director satisfied the NYSE independence tests as well as the Board of Directors' subjective review of independence described below.

Standards of Director Independence. The Board of Directors has at least a majority of directors, who, in the business judgment of the Board of Directors, meet the criteria for independence required by the NYSE and/or the SEC or other regulatory agency or agencies having jurisdiction over the activities of the Company. After considering the recommendations of the Board of Directors' nominating and governance committee, the Board of Directors will determine affirmatively whether a director is "independent" on an annual basis and the Company will disclose these determinations in its annual proxy statement. A director will not be independent unless the Board of Directors determines that the director does not have a material relationship with the Company, considering all relevant circumstances including direct relationships or ones arising from the director being a partner, stockholder or officer of a company that has a material relationship with the Company. A director will not be independent if (1) during the preceding three years, the director was employed by, or any of the director's immediate family members was employed as an executive officer by, the Company, its subsidiaries or any of its affiliates; (2) during the preceding three years, the director or any of the director's immediate family members received more than \$100,000 per year in direct compensation from the Company, its subsidiaries or any of its affiliates, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service); (3) (A) the director or an immediate family member is a current partner of a firm that is the company's internal or external auditor; (B) the director is a current employee of such a firm; (C) the director has an immediate family member who is a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax

planning) practice; or (D) the director or an immediate family member was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the listed company's audit within that time; (4) during the preceding three years, the director was part of an interlocking directorate in which an executive officer of the Company served on the compensation committee of the board of another company that concurrently employed the director or any of the director's immediate family members as an executive officer; or (5) during any of the preceding three years, the director was an employee of, or any of the director's immediate family members was an executive officer of, any organization to which the Company, its subsidiaries or any of its affiliates made, or from which the Company, its subsidiaries or any of its affiliates received, payments (other than those arising solely from investments in the Company's securities) that exceeded the greater of 2% of the recipient's (i.e., the Company's or the other organization's) consolidated gross revenues or \$1,000,000.

**PROPOSAL NO. 2
RATIFICATION OF APPOINTMENT OF THE
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The audit committee has appointed Ernst & Young LLP to serve as the independent registered public accounting firm of the Company for the fiscal year ending December 31, 2006. The stockholders of the Company are being asked to ratify this appointment at the meeting. Ernst & Young LLP has served as the Company's independent registered public accounting firm since the Company's inception in August of 2003. A representative of Ernst & Young LLP is expected to be present at the meeting and will have the opportunity to make a statement if he or she so desires and will be available to respond to appropriate questions.

Although it is not required to do so, the Board of Directors is submitting its appointment of the Company's independent registered public accounting firm to the stockholders at the meeting in order to ascertain the views of stockholders regarding such appointment. A majority of the votes cast at the meeting, if a quorum is present, will be sufficient to ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2006. Whether the proposal is approved or defeated, the audit committee may reconsider its appointment.

**THE BOARD OF DIRECTORS RECOMMENDS THAT THE
STOCKHOLDERS VOTE "FOR" PROPOSAL NO. 2**

Audit Committee Pre-Approval Policies and Procedures

The audit committee is responsible for the appointment, compensation, and oversight of the work of the Company's independent registered public accounting firm. The audit committee has adopted policies and procedures that require audit committee pre-approval of all audit and permissible non-audit services provided to the Company by Ernst & Young LLP. The audit committee pre-approves on an annual basis services that are of a recurring nature. Changes in the scope of services that have been pre-approved on an annual basis are deemed to be pre-approved by the audit committee provided they do not result in fee increases in excess of a relatively small amount established by the audit committee. The audit committee must pre-approve any scope changes resulting in fee increases in excess of this amount. New recurring services and services that are not recurring in nature are pre-approved by the audit committee from time to time throughout the year. Actual fees incurred for services provided to the Company by Ernst & Young LLP are reported to the audit committee. In determining whether to pre-approve the provision by Ernst & Young LLP of a permissible non-audit service, the audit committee considers whether the provision of the service by Ernst & Young LLP could impair the independence of Ernst & Young LLP with respect to the Company. As part of this process, the audit committee considers the facts and circumstances of the proposed engagement, including whether Ernst & Young LLP can provide the service more effectively and economically than other firms because of its familiarity with the Company's business and operations. The audit committee also considers the proposed engagement in light of the other non-audit services provided to the Company by Ernst & Young LLP and the fees paid to Ernst & Young LLP for those services.

Report of the Audit Committee

The audit committee of Spirit Finance Corporation's (the "Company") Board of Directors is comprised of independent directors as required by the listing standards of the NYSE. The Board of Directors has approved a charter of the audit committee, which is attached to this Proxy Statement as Appendix A, as required by the NYSE and the rules and regulations of the SEC.

The role of the audit committee is to oversee the Company's financial reporting process on behalf of the Board of Directors. In fulfilling our oversight responsibilities, we approve the appointment of the Company's independent registered public accounting firm and review and discuss the audited financial statements included in the Company's Annual Report on Form 10-K with management, including the reasonableness of significant judgments and the clarity of the disclosures in the financial statements. Management of the Company has the primary responsibility for the Company's financial statements as well as the Company's financial reporting process, principles and internal controls. The independent registered public accounting firm is responsible for performing an audit of the Company's financial statements and expressing an opinion as to the conformity of such financial statements with accounting principles generally accepted in the United States of America.

We discussed with Ernst & Young LLP, the Company's independent registered public accounting firm, the overall scope of their respective audits. We meet with Ernst & Young LLP, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal control over financial reporting, and the overall quality of the Company's financial reporting. In the performance of our oversight function, the members of our committee necessarily relied upon the information, opinions, reports and statements presented to them by management of the Company and by Ernst & Young LLP.

In this context, we have reviewed and discussed the audited consolidated financial statements of the Company as of and for the year ended December 31, 2005 with management and Ernst & Young LLP. We have discussed with Ernst & Young LLP the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as currently in effect. In addition, we have received the written disclosures and the letter from Ernst & Young LLP required by

Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as currently in effect, and have discussed with Ernst & Young LLP their independence from the Company. We have also considered whether Ernst & Young LLP's provision of tax preparation and tax consulting services to the Company is compatible with maintaining Ernst & Young LLP's independence.

Based on the reviews and discussions referred to above, we recommended to the Board of Directors that the audited consolidated financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, for filing with the SEC.

EXECUTIVE COMPENSATION

The following table sets forth the salary and other compensation paid to our Chief Executive Officer, our former Chief Executive Officer and each of our other four most highly compensated senior executive officers (the "Named Executive Officers") for the fiscal years ended December 31, 2005, 2004 and 2003. The amounts included in the table include both compensation directly paid or accrued by us, as well as compensation paid on our behalf by our affiliates. The difference in salaries in 2003 primarily resulted from Messrs. Morton Fleischer and Volk not beginning employment with us until the beginning of the term of their employment agreements on December 15, 2003 and certain officers who joined us during different parts of the year in 2003. The salaries presented for 2003 do not represent a full year of operations and the individuals listed in the table each entered into an employment agreement with us on or subsequent to December 15, 2003.

The restricted stock was granted in February 2005 and in December 2003 and vests subject to continued service and performance conditions. Fifty percent of the restricted stock vests over time and the other 50% vests based on performance criteria. The foregoing compensation table does not include certain fringe benefits made available on a nondiscriminatory basis to all company employees such as group health insurance, dental insurance, short- and long-term disability insurance, vacation and sick leave. In addition, we make available certain non-monetary benefits to our executive officers with a view to acquiring and retaining qualified personnel and facilitating job performance. We consider such benefits to be ordinary and incidental business costs and expenses. The aggregate value of such benefits in the case of each executive officer is not included in the table because the aggregate value for each officer is less than the lesser of (a) ten percent of the cash compensation paid to each such executive officer, or (b) \$50,000.

Option Grants in 2005

There were no options granted to our CEO or Named Executive Officers during 2005.

Employment Agreements

We have entered into employment agreements with Morton H. Fleischer, Christopher H. Volk, Catherine Long, Michael T. Bennett, Jeffrey M. Fleischer and Gregg A. Seibert. The employment agreements provide for annual base salaries and maximum bonuses, and expire on December 15, 2006. On December 15, 2006, the employment agreements will automatically extend for one additional year unless either party terminates the agreement not later than 60 days before expiration. The employment agreements for Ms. Long and Messrs. Bennett, Jeffrey Fleischer and Seibert provide that base salaries will be increased on January 1 of each year by a minimum increase equal to the increase in the Consumer Price Index and that the maximum bonuses will be reviewed once a year to determine whether they should be increased. The employment agreements of Messrs. Morton Fleischer and Volk do not provide for minimum annual increases but do provide for annual review of base salary and maximum bonuses. The compensation committee of our Board of Directors has the discretion to increase any or all of the base salaries and bonuses in additional amounts as it deems appropriate.

The base salaries and maximum bonuses for our CEO and Named Executive Officers set by the compensation committee of our Board of Directors for 2006 are shown in the table below:

Name and Title of Executive Officer	2006 Annual Base Salary	2006 Maximum Bonus(1)
Morton H. Fleischer Chairman of the Board	\$ 375,000	\$ 562,500
Christopher H. Volk President and Chief Executive Officer	\$ 400,000	\$ 600,000
Catherine Long Chief Financial Officer, Senior Vice President and Treasurer	\$ 300,000	\$ 330,000
Michael T. Bennett Senior Vice President Operations, Chief Compliance Officer and Secretary	\$ 275,000	\$ 302,500
Jeffrey M. Fleischer Senior Vice President Acquisitions, Assistant Secretary and Assistant Treasurer	\$ 275,000	\$ 302,500
Gregg A. Seibert Senior Vice President Underwriting, Assistant Secretary and Assistant Treasurer	\$ 275,000	\$ 302,500

(1) Actual bonuses will be paid based on performance criteria and targets set by the compensation committee of our Board of Directors. The compensation committee of our Board of Directors has the discretion to award additional bonus amounts as it deems appropriate based on the performance of each officer.

These employment agreements provide that the executive officers agree to devote substantially all of their professional time to our operations. The agreements permit us to terminate the executives' employment, with appropriate notice, with or without "cause." "Cause" is generally defined to mean:

conviction of, or the entry of a plea of guilty or nolo contendere to, a felony (excluding a conviction or plea of guilty or nolo contendere arising under a statutory provision imposing criminal liability on a strict liability basis due to the position held by the executive with us,

Edgar Filing: SPIRIT FINANCE CORP - Form DEF 14A

provided the act or omission of the executive or officer with respect to such matter was not taken or omitted to be taken in contravention of any applicable policy or directive of our Board of Directors);

a breach of the executive's duty of loyalty which is materially detrimental to us;

a failure to perform or adhere to duties that are consistent with the executive's employment agreement, or the reasonable and customary guidelines of employment or reasonable and customary corporate governance guidelines or policies, including without limitation any business code of ethics adopted by our Board of Directors, or the failure to follow the lawful directives of our Board of Directors provided such directives are consistent with the terms of the executive's employment agreement, which continues for a period of 30 days after written notice to the executive;

negligence or misconduct in the performance of the executive's duties that have a material adverse effect on us; or

a material breach of the executive's employment agreement by the executive that continues for 30 days after written notice to the executive.

Under the employment agreements, the executive officers receive three weeks of paid vacation annually and various other customary benefits. The employment agreements referred to above provide that the executive officers are eligible to participate in our Stock Option Plan and are eligible to receive the same benefits, including medical insurance coverage and retirement plan benefits in a 401(k) plan, to the same extent as other similarly situated employees, and such other benefits as are commensurate with their positions. Participation in employee benefit plans will be subject to the terms of the benefit plans as in effect from time to time. If the executive's employment ends for any reason, we will pay accrued salary, bonuses and incentive payments already determined, and other existing obligations. In addition, if we terminate the executive's employment without cause, or if the executive officer terminates employment with good reason as defined in the agreement, we will be obligated to pay (1) a lump sum payment of severance equal to two times, in the case of Morton H. Fleischer and Christopher H. Volk, or one and one-half times in the case of Catherine Long, Michael T. Bennett, Jeffrey M. Fleischer and Gregg A. Seibert, the annual salary and annual maximum bonus payable under the agreement, (2) the incentive bonus prorated for the year in which the termination occurred, (3) payment of premiums for certain group health coverage, and (4) other benefits as provided for in the employment agreement. Additionally, in the event of a termination by us for any reason other than for cause, or if the executive terminates employment with good reason, all of the options and restricted shares granted to the executive will become fully vested, and the executive will have a period of two years in which to exercise all vested options.

If a change in control of our company occurs, the executive officers will become fully vested in their options and restricted shares. In general terms, a change of control occurs:

if a person, entity or affiliated group (with certain exceptions) acquires more than 50% of our then outstanding voting securities;

if we merge into another entity unless the holders of our voting shares immediately prior to the merger have at least 50% of the combined voting power of the securities in the merged entity or its parent;

upon the liquidation, dissolution, sale or disposition of all or substantially all of our assets such that after that transaction the holders of our voting shares immediately prior to the transaction own less than 50% of the voting securities of the acquiror or its parent; or

if a majority of the independent members of our Board of Directors votes in favor of a resolution stating that a change in control has occurred.

If payments become due as a result of a change in control and the excise tax imposed by Internal Revenue Code Section 4999 applies, the terms of the employment agreements require us to gross up the executive for the amount of this excise tax plus the amount of income and other taxes due as a result of the gross up payment.

For a 24-month period in the case of Messrs. Morton Fleischer and Volk, and 12 months in the case of Ms. Long and Messrs. Bennett, Jeffrey Fleischer and Seibert, after termination of an executive's employment for any reason except for cause, the executive will agree not to compete with us by working with or investing in (subject to limited exceptions) any enterprise engaged in a business substantially similar to our business during the period of the executive's employment with us. In the event the executive is terminated for cause, the executive will agree not to compete with us for a 12-month period.

2003 Stock Option and Incentive Plan

General. The Stock Option Plan provides for the ability to make grants of incentive stock options and non-qualified stock options and awards of restricted common stock. The Stock Option Plan also provides for the ability to make grants of share appreciation rights, performance units, dividend equivalents and other equity-based awards. The maximum number of shares of common stock that may be subject to grants to any individual in any calendar year is 500,000 shares of common stock.

If any grant terminates, expires or is forfeited without having been exercised or is cancelled without the delivery of shares of common stock, the common stock covered by such grant will again be available for issuance under the Stock Option Plan, as well as any shares of common stock that are delivered by the grantee or withheld by us upon the exercise of the option or other award under the Stock Option Plan in payment of the exercise price. In connection with certain extraordinary events, the compensation committee of our Board of Directors is able to make adjustments to the total number of shares of common stock offered under the Stock Option Plan, the maximum number of shares of common stock that may be awarded to an individual in a calendar year, the number and kind of shares of common stock covered by outstanding awards and the purchase prices specified in outstanding grants as may be determined to be appropriate.

Administration. The compensation committee has the sole authority to determine who will receive awards, the types of awards that will be granted and the number of shares of common stock subject to each such award. The compensation committee also interprets the Stock Option Plan and award agreements and sets the terms and conditions for each grant. The compensation committee is not able to amend the terms of any previously granted option to reprice, replace or regrant the option through cancellation or by lowering the exercise price of the previously granted option, unless our stockholders provide prior approval. The determinations of the compensation committee are made in its sole discretion and are final, binding and conclusive.

Eligibility for Participation. Grants under the Stock Option Plan may be made to our employees and consultants and to those employees and consultants of our subsidiaries and affiliates and to any non-employee member of the Board of Directors. The compensation committee determines which employees, consultants and non-employee members of the Board of Directors receive grants under the Stock Option Plan.

Stock Options. The compensation committee may grant options intended to qualify as incentive stock options, or ISOs, within the meaning of Section 422 of the Internal Revenue Code, as amended, or non-qualified stock options, or NQSOs, that are not intended to so qualify, or any combination of ISOs or NQSOs. Grants of NQSOs under the Stock Option Plan may be made to any of the Company's employees and consultants and those employees and consultants of our subsidiaries and affiliates and to any non-employee member of the Board of Directors. Grants of ISOs under the Stock

Option Plan may be made only to the Company's employees and employees of our 50% or more owned subsidiaries.

The compensation committee will fix the exercise price per common share on the date of grant. The exercise price for NQSOs and ISOs may not be less than the fair market value of the underlying shares of common stock on the date of grant. However, if the grantee of an ISO is a person who holds more than 10% of the combined voting power of all classes of our outstanding shares of common stock or our subsidiaries, the exercise price per share of an ISO must be at least 110% of the fair market value of a share of common stock on the date of grant. To the extent that the aggregate fair market value of shares of common stock, determined on the date of grant, with respect to which ISOs become exercisable for the first time by a grantee during any calendar year exceeds \$100,000, such ISOs must be treated as NQSOs. For purposes of the Stock Option Plan, fair market value of a share of common stock on the date of grant is the average of the daily market price for the five consecutive trading days immediately preceding the grant date.

The compensation committee will determine the term of each option; provided, however, that the exercise period for ISOs may not exceed 10 years from the date of grant and, if the grantee of an ISO is a person who holds more than 10% of the combined voting power of all classes of our outstanding shares of common stock or our subsidiaries, the term may not exceed five years from the date of grant. The vesting period for options will commence on the date of grant and end on a date as is determined by the compensation committee, in its sole discretion, which is specified in the award agreement. The compensation committee may provide in an award agreement that an option may become exercisable prior to the date the option becomes exercisable and if the option is exercised prior to such vesting date, the grantee will receive restricted shares that vest over the remaining vesting period of the option.

A grantee may exercise an option by delivering notice of the exercise to us and by paying the exercise price, plus any withholding tax due, (1) in cash or certified check, (2) with approval of the compensation committee: (A) by delivering shares of common stock already owned by the grantee and having a fair market value on the date of exercise equal to the exercise price, (B) surrendering of shares of common stock issuable upon exercise of the option, (C) making payment through the delivery of property of any kind which constitutes good and valuable consideration or (D) any combination of the permitted exercise methods or by such other method the compensation committee may approve that is permitted by applicable law.

Restricted Shares. The compensation committee may grant restricted shares to anyone eligible to participate in the Stock Option Plan. The compensation committee may require that grantees pay consideration for the restricted shares and may establish conditions under which restrictions on the restricted shares will lapse over a period of time or according to such other criteria as the compensation committee determines appropriate. The compensation committee will determine the number of shares of common stock subject to the grant of restricted shares and the other terms and conditions of the grant. Unless the compensation committee determines otherwise, during the restriction period, the grantee will have the right to vote the shares of common stock subject to the restricted share grant and to receive any dividends or other distributions paid on such shares of common stock, subject to any restrictions determined to be appropriate by the compensation committee.

Performance Units. Performance units may be granted under the Stock Option Plan. The compensation committee may grant units to anyone eligible to participate in the Stock Option Plan. Each unit provides the grantee with the right to receive an amount based on the value of the unit, which will be determined by the compensation committee, if performance goals established by the compensation committee are met. Units will be based on the fair market value of the shares of common stock or such other measurement base that the compensation committee determines to be appropriate. The compensation committee will determine the number of units that will be granted, the

requirements applicable to the units, the performance period during which performance will be measured, the performance goals applicable to the units and such other conditions as the compensation committee determines appropriate. The applicable performance goals may relate to our financial performance or that of our subsidiaries, the performance of the shares of common stock, the grantee's performance or such other criteria that the compensation committee determines appropriate. If the performance goals are met, units will be paid to the grantee in cash, in shares of common stock or a combination of cash and shares of common stock, as determined by the compensation committee.

Dividend Equivalents. The compensation committee may grant dividend equivalents in connection with options granted under the Stock Option Plan. The compensation committee may grant dividend equivalents to anyone eligible to participate in the Stock Option Plan. Dividend equivalents are payable in cash or shares of common stock and may be paid currently or accrued as contingent obligations. The terms and conditions of dividend equivalents are determined by the compensation committee.

Other Equity-Based Awards. The compensation committee may grant other types of stock-based awards (including the grant of unrestricted shares of common stock), cash-based awards or other equity-based awards under the Stock Option Plan. The compensation committee may grant other equity-based awards to anyone eligible to participate in the Stock Option Plan. Equity-based awards are payable in cash, shares of common stock or other equity determined by the compensation committee. The terms and conditions of other equity-based awards are determined by the compensation committee.

Qualified-Performance Compensation. The Stock Option Plan permits the compensation committee to impose and identify specific performance goals that must be met with respect to grants of options, stock appreciation rights, restricted shares, units, dividend equivalents and other equity-based awards. The compensation committee will determine the performance periods for the performance goals. Forfeiture of all or part of any such grant will occur if the performance goals are not met, as determined by the compensation committee. Prior to, or soon after the beginning of, the performance period, the compensation committee will establish in writing the performance goals that must be met, the applicable performance periods, the amounts to be paid if the performance goals are met and any other conditions.

The performance goals will be based on one or more of the following measures related to the Company's operations: pre-tax income, operating income, cash flow, earnings per share, return on equity, return on invested capital or assets, cost reductions or savings, funds from operations, stock price, sales or new investments funded, distributions to stockholders, dividend yield and/or such other identifiable and measurable performance objectives determined by the compensation committee.

Deferrals. The compensation committee may permit or require grantees to defer receipt of the payment of cash or the delivery of shares of common stock that would otherwise be due to the grantee in connection with an award under the Stock Option Plan. The compensation committee will establish the rules and procedures applicable to any deferrals.

Change of Control. If a merger, consolidation, sale, transfer, exchange or other disposition of all or substantially all of our assets or other event occurs that affects the shares of common stock, the compensation committee may take any of the following actions to provide: (1) for the purchase of any outstanding award for the payment of an amount of cash equal to the amount that would have been attained upon the exercise of such award or realization of the grantee's rights (net of any required payments by the grantee) had such award been currently exercisable, payable, fully vested or the restrictions lapsed or replace such award with other rights or property selected by the compensation committee, (2) that the award cannot be exercised after such event, (3) for a specified period of time prior to such transaction or event such award will be fully exercisable, (4) that the award will be assumed by the successor or surviving corporation, or a parent or subsidiary thereof or substituted for

similar awards, (5) that the restrictions on restricted shares will be terminated, or (6) for such further provisions or limitations as the compensation committee deems appropriate and in our best interests, including adjustments in the number or type of shares subject to the award.

Amendment and Termination of the Stock Option Plan. The Board of Directors or the compensation committee may amend or terminate the Stock Option Plan at any time, subject to stockholder approval if required to comply with applicable law, regulation or rule. Unless sooner terminated, the Stock Option Plan will terminate on December 15, 2013.

The following table shows information related to our compensation plans that authorize the issuance of equity securities as of December 31, 2005.

401(k) Plan

We adopted a defined contribution savings plan, or "401(k) Plan," to provide retirement income to the Company's employees, including the Company's executive officers. The 401(k) Plan is qualified under Section 401(a) of the Internal Revenue Code and incorporates features permitted under Section 401(k) of the Internal Revenue Code.

The 401(k) Plan is available to full-time employees who have completed at least six months of service with us. The 401(k) Plan allows participants to elect to contribute up to 100% of annual compensation on a pre-tax basis with a maximum pre-tax contribution of \$14,000 for 2005. In addition, the 401(k) Plan allows individuals who are at least 50 years of age by the end of the tax year to make additional contributions, known as catch-up contributions, in the maximum amount of \$4,000 for 2005. We provide a matching contribution in cash, equal to 100% of each participant's elective deferral that does not exceed 3% of compensation, plus 50% of the elective deferral that exceeds 3% of compensation but does not exceed 5% of compensation, which matching contributions vest immediately.

Any additional company matching contributions or any profit sharing contributions by us are subject to a vesting schedule and will be 100% vested after three years of service. Participant contributions are fully vested at all times and all contributions are invested as directed by each participant in investment funds available under the 401(k) Plan. At the termination of employment, the distribution will be based on the total account balance that is vested and will be payable in a lump-sum as soon as practical or at a later date elected by the participant or the participant's beneficiary.

REPORT OF THE COMPENSATION COMMITTEE*

*

The material in this report is not soliciting material, is not deemed filed with the SEC and is not incorporated by reference in any filing of the Company under the Securities Act or the Exchange Act, whether made before or after the date of this Proxy Statement and irrespective of any general incorporation language in such filing.

The Compensation Committee of Spirit Finance Corporation's (the "Company") Board of Directors is composed exclusively of independent directors. The two members of the Compensation Committee are Kenneth B. Roath, chairman, and Paul F. Oreffice. We are responsible for, among other matters, establishing the compensation of our executive officers and administering compensation plans. From time to time, we may retain compensation and other consultants to assist us in carrying out our duties. In evaluating bonus awards for 2005 and setting base salaries and determining long-term incentive awards for 2006, we retained a compensation consultant to assist us in (1) identifying a peer group of companies and gathering information about executive officer compensation at those companies, (2) analyzing the information gathered about the peer companies, and (3) considering the reasonableness of the level and form of compensation proposed for the Company's officers.

Compensation Philosophy

The Company's investment strategy targets businesses operating in various industries in which the Company believes it offers real estate financing solutions that make the Company an efficient capital provider for its customers by offering flexible, cost-effective solutions that enhance stockholder value for its customers, which differentiates the Company's financial solutions from those offered by other providers of capital. In our view, the Company's success depends on the expertise, talent, experience and long-term commitment of the Company's employees, especially its senior executives. The Company's compensation practices and programs are intended to achieve the following objectives:

To attract, retain, motivate and reward key employees to drive the successful implementation of the Company's current and long-term strategic, business and financial goals;

To align the financial interests of the Company's executives with those of the Company's stockholders;

To establish appropriate incentives for management and employees that are consistent with the Company's culture and values; and

To provide an annual compensation program with a performance orientation that rewards achievement of both Company and individual performance with the proper balance between salary, performance-based pay and long-term incentives.

In accordance with these objectives, a significant part of executive compensation is subject to the overall performance of the Company and the total return generated for the Company's stockholders. We believe that this creates an environment that allows the Company to achieve its objectives and maximizes value for its stockholders.

One performance measure that we use is the total rate of return to the Company's stockholders, which we define as dividends paid (assuming reinvestment in the Company's common stock) plus appreciation in the price of the Company's common stock. This performance measure annually determines the vesting of approximately 20.5% of the currently unvested restricted stock that we granted to the Company's employees that remains outstanding. In addition, acquisition targets and funds from operations, or FFO, are the primary performance measures we use in determining the annual bonus to be awarded to our senior executive officers. We also use other financial-based measures in evaluating Company and individual performance.

We typically meet at the beginning of each year to set the compensation level for the Chief Executive Officer and to review with the Chief Executive Officer the base salary adjustments, incentive

bonuses and long-term incentive awards for the other senior executive officers. We also review senior management's recommendations for base salary adjustments and equity awards for the coming year and incentive bonuses in respect of the preceding year for other officers and other eligible employees. We also meet periodically during the year to evaluate the performance of management relative to objectives and to perform our other functions.

Compensation of executive officers is generally established after a review of data for executives in similar positions in comparable REITs and other real estate finance companies. When reviewing individual compensation levels, we consider individual and corporate performance, levels of responsibility, and competitive pay practices. These factors vary from individual to individual and other subjective features are also considered such as the individual's experience. We generally seek to set the base salary of the Company's officers at levels that place them around the middle of base salaries for the Company's peer group. When awarding annual bonuses and equity-based incentive awards, we focus more on individual and Company performance as well as compensation levels of the Company's peer group.

When setting future compensation levels, we consider not only base salary and bonus, but also the total annual compensation of the Company's officers. We consider total compensation to include base salary and cash incentive bonuses as well as factoring in the estimated monetary value of previously granted equity-based incentive awards (restricted stock and stock options) that will vest in the current year.

Base Salaries

We believe that the base salary levels of the Company's executive officers are reasonably related to the base salary levels of executive officers of comparable REITs and other real estate finance companies. We also believe that the current base salary levels of the Company's executive officers take into account the unique talents and experience of our executive officers. All of the Company's executive officers' employment agreements have set floors on base salary and other elements of compensation for their contract terms, but we can increase the base salary levels at any time. The increases take into account such factors as individual past performance, changes in responsibilities, changes in pay levels of companies deemed comparable by us and inflation.

Annual Bonuses

Each named executive officer's employment agreement provides for an annual bonus within a range based on a percentage of the executive's base salary, as described in detail above under the section entitled " Employment Agreements," and are subject to adjustment by the Compensation Committee. The bonus ranges are merely minimum bonus amounts if targets set by us are met. Ultimately, we have discretion to pay higher amounts we determine after review of the criteria described above.

We use performance bonuses to reflect the level of involvement and success of the Company's executive officers in advancing corporate goals. The awards earned depend on the extent to which Company performance objectives and the individual's performance objectives are achieved. Based on meeting Company and individual objectives for 2005, we awarded \$1,095,000 in bonuses to the officers named in the summary compensation table above for fiscal year 2005, which represented 65% of the maximum target bonuses set forth in their respective employment agreements.

Long-Term Incentive Compensation

We recognize that while the bonus programs provide awards for achieving positive performance for near-term goals, equity-based incentives create an essential long-term partnering of our executive officers with the Company's stockholders. Long-term equity incentives are provided to executives either

through restricted stock grants or through the grant of stock options or other awards under the Company's 2003 Stock Option and Incentive Plan which is administered by us. We have the discretion to determine those individuals to whom options or awards will be granted and to determine the terms and provisions of awards, including the exercise or purchase price, expiration date, vesting schedule, performance vesting conditions and terms of exercise, subject to the provisions of the plan. The exercise price of incentive stock options must be equal to or greater than the fair market value of our common stock on the date of grant. Grants of restricted shares of our common stock have a purchase price of no less than the par value of our common stock, and generally vest based on time and, in some cases, vest partially based on Company performance criteria we set. The officers listed in the summary compensation table above received grants of 185,000 shares of restricted stock during 2005. In addition, in 2005, 83,227 shares of restricted stock were granted to other officers, Company employees and non-employee directors. Dividends are paid on shares of restricted stock the same as all other shares of our common stock.

Chief Executive Officer Compensation

We use the same procedures described above in setting the annual salary, bonus and long-term incentive compensation of the Chief Executive Officer. During 2005, Mr. Fleischer served as the Company's Chairman of the Board and Chief Executive Officer until September when he retired as Chief Executive Officer. Mr. Fleischer continues to serve as the Company's Chairman of the Board. Mr. Volk was appointed to replace Mr. Fleischer as Chief Executive Officer and continues to serve as President of the Company. For the fiscal year ended December 31, 2005, Mr. Fleischer received a base salary of \$375,000 and was awarded a bonus of \$225,000. Mr. Fleischer also received a grant of 50,000 shares of restricted stock in 2005, which was valued at \$590,000 based on a stock price of \$11.80 per share, the fair market value of the Company's common stock on the date of the grant. For the fiscal year ended December 31, 2005, Mr. Volk received a base salary of \$375,000 and was awarded a bonus of \$225,000. Mr. Volk also received a grant of 50,000 shares of restricted stock in 2005, which was valued at \$590,000 based on a stock price of \$11.80 per share, the fair market value of the Company's common stock on the date of the grant.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended, disallows a tax deduction for any publicly held corporation for individual compensation of more than \$1.0 million in any taxable year to any named executive officers, other than compensation that is performance-based under a plan that is approved by the stockholders and that meets certain other technical requirements. Our policy with respect to Section 162(m) is to make every reasonable effort to ensure that compensation is deductible to the extent permitted while simultaneously providing our executives with appropriate rewards for their performance. In the appropriate circumstances, however, we are prepared to exceed the limit on deductibility under Section 162(m) to the extent necessary to ensure our executive officers are compensated in a manner consistent with our best interests and those of our stockholders.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

From time to time our senior management may be presented with various real estate investment opportunities related to our business. In order to mitigate potential conflicts, if one of our affiliates has an investment opportunity that fits within our real estate investment objectives and a majority of our independent directors determines that it is in our best interests, we will not permit our affiliates to make that investment. Our affiliates generally consist of our directors, our officers, our employees, Spirit Finance Holdings, LLC, Fleischer Ranches, LLC, any entity controlled by these individuals or entities and any entity or person that becomes affiliated with us in the future. Generally, we will permit our affiliates to make these real estate investments if:

the real estate investment does not fit our investment objectives;

the investment would create too great a concentration of our real estate investments in a single tenant, a single type of tenant, a particular geographic area, a particular property or a particular property type;

the investment would cause us, or would potentially cause us, to fail to qualify as a REIT;

the investment would require us to incur debt greater than our targeted leverage ratio; or

a majority of our independent directors determines that the investment is not an appropriate real estate investment for us for any other reason.

Spirit Finance purchased four Flying J interstate travel plaza facilities for approximately \$37,500,000 in December 2003. The properties were leased back to the seller under an operating lease; rental revenues totaled \$3,598,000 in 2005, \$3,556,000 in 2004 and \$96,000 in 2003 under this lease. Mr. Morton Fleischer, our Chief Executive Officer until September 2005, and the Company's Chairman of the Board, is a member of the board of directors of Flying J.

One of the Company's independent directors, Jim Parish, was a member of the board of directors of Taco Bueno, Inc. from 2001 until July, 2005. Taco Bueno, Inc. is a customer operating the underlying properties that secure approximately \$23,280,000 of our real estate and mortgage loan investments held at December 31, 2005. Interest income on the mortgage loans receivable and rental revenue on the lease aggregated \$2,204,000 in 2005, \$2,012,000 in 2004 and \$46,000 in 2003.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our officers and directors, and the persons who own more than 10% of our common stock, to file with the SEC initial reports of ownership and reports of changes in ownership of common stock of the Company. Officers, directors and greater than 10% stockholders are required by regulation of the SEC to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on our review of copies of Forms 3, 4 and 5, and the amendments thereto, received by the Company for the year ended December 31, 2005, or written representations from certain reporting persons that no Form 5s were required to be filed by those persons, we believe that during the year ended December 31, 2005, all filing requirements were complied with by our executive officers, directors and beneficial owners of more than ten percent of our stock.

AUDIT COMMITTEE CHARTER

I. PURPOSE

The Board of Directors ("Board") is the ultimate corporate governance body of Spirit Finance Corporation, a Maryland corporation (the "Corporation"). As such, the Board is charged with overseeing all material aspects of the Corporation's operations. To assist the Board in performing its oversight role, and to help the Board meet its fiduciary duties to the shareholders of the Corporation, the Board has created an Audit Committee. For its part, the Audit Committee is charged with assisting the Board in monitoring (1) the integrity of the Corporation's financial statements, (2) the Corporation's compliance with legal and regulatory requirements, (3) the independent auditor's qualifications and independence, (4) the performance of the Corporation's internal audit function and independent auditors, and (5) such other duties as directed by the Board.

The Audit Committee members may not be professional accountants or auditors and their functions are not intended to duplicate or to certify the activities of management and the independent auditor. The Audit Committee serves a board level oversight role, in which it provides advice and counsel to management and the auditors on the basis of the information it receives, discussions with management and the auditors and the experience of the Audit Committee's members in business, financial and accounting matters.

II. MEMBERSHIP

On or immediately before the initial filing of the Corporation's registration statement with the Securities and Exchange Commission (the "Commission") the Audit Committee shall consist of at least three members, and prior to that time the Audit Committee shall consist of at least two members. Each such member shall meet the independence and experience requirements of the New York Stock Exchange ("NYSE"), The NASDAQ Stock Market, Inc. ("NASDAQ"), Section 10A of the Securities Exchange Act of 1934 and the rules and regulations of the Commission. All members of the Audit Committee shall have a requisite working familiarity with basic finance and accounting practices in compliance with the applicable rules of the Commission and the NYSE and NASDAQ. At least one member of the Audit Committee shall be an "audit committee financial expert" as defined by the Commission. No member of the Audit Committee shall simultaneously serve on the audit committees of more than two other public companies.

III. STRUCTURE

The Audit Committee members shall be appointed by the Board, and, in making its decision, the Board should consider the recommendation of the Nominating and Governance Committee. Each appointment shall be for a term of one year and the members shall serve until the member's successor is duly elected and qualified, but the Board may remove Audit Committee members at any time by Board action.

The Board shall elect a chairperson annually, who shall create the agenda for Committee meetings and otherwise preside over Committee meetings. The chairperson may require officers and employees of the Corporation or the Corporation's outside counsel or independent or internal auditors to attend or participate in Audit Committee meetings as appropriate.

IV. MEETINGS

The Audit Committee shall meet at least four times per year, and shall also meet prior to each time the Corporation intends to issue a press release with its quarterly or annual earnings information. These meetings may be combined with regularly scheduled meetings, or more frequently as circumstances may require. Members of the Audit Committee may participate in a meeting by means of a conference telephone or similar communications equipment if all persons participating in the meeting can hear each other at the same time. Participation in a meeting by these means shall constitute presence in person at the meeting. The Audit Committee may also take action without a meeting, if a

consent in writing to such action is signed by each member of the Audit Committee, or each member grants electronic consent, and such written or electronic consent is filed with the minutes of proceedings of the Audit Committee.

The Audit Committee may ask members of management or others to attend the meetings and provide pertinent information as needed. Minutes of all meetings shall be recorded and maintained by the Audit Committee. If deemed necessary by the Audit Committee to comply with the procedures established by the Audit Committee for handling complaints regarding accounting matters or matters under the Corporation's whistleblower policy, any identifying information transcribed in the minutes of the Audit Committee meeting delivered to persons in connection with the complaint shall be redacted.

V. QUORUM

A majority of the appointed Audit Committee members shall constitute a quorum and shall be able to conduct the Audit Committee's business.

VI. RESPONSIBILITIES

At any time during the year, the Audit Committee shall be authorized to hire outside counsel or other consultants and advisers as necessary, and receive appropriate funding for compensation of such consultants and advisers. The Audit Committee shall review and concur in the appointment, replacement, reassignment, or dismissal of the internal auditors. Further, the Audit Committee shall also review and evaluate the performance of the independent auditors and review with the full Board any proposed discharge of the independent auditors. The Audit Committee shall directly appoint, retain, compensate, evaluate and terminate the independent auditor and have the sole authority to approve all audit engagement fees and terms.

ANNUAL MEETING DATE: MAY 19, 2006

THIS PROXY IS SOLICITED ON BEHALF OF THE COMPANY'S BOARD OF DIRECTORS

The undersigned stockholder of Spirit Finance Corporation (the "Company"), a Maryland corporation, hereby constitutes and appoints Christopher H.
