CORPORATE GOVERNANCE

Meetings of the Board of Directors

The Board of Directors of the Company held four meetings during 2007. Other than Mr. Oberdorf, each director attended at least 75% of the aggregate number of all meetings of the Board of Directors and its committees during such fiscal year. All of the Company's directors are encouraged to attend the Company's Annual Meeting of Stockholders. Six of the Company's directors were in attendance at the Company's 2007 Annual Meeting.

Independence and Board Committees

Independence

The Company's common stock is listed on the NASDAQ Stock Market LLC, or Nasdaq, and Nasdaq's listing standards relating to director independence apply to the Company. The Board of Directors has determined that the following current directors are independent under applicable Nasdaq listing standards: Messrs. Stevenson, Ross, Gould, Kozin and Oberdorf. The Board of Directors has also determined that Mr. Pierce, if elected, will qualify as an independent director under applicable Nasdaq listing standards.

Nominating Committee

The Board of Directors does not have a nominating committee. Director nominees are selected by a majority of the Company's independent directors. The Board of Directors believes that it is appropriate for the Company not to have a nominating committee because all its independent directors lead the nomination process and the establishment of a nominating committee would be redundant. The Board of Directors does not have a charter for nomination of directors.

The independent members of the Company's Board of Directors may consider candidates recommended by stockholders as well as from other sources such as other directors or officers, third party search firms or other appropriate sources. For all potential candidates, the independent members of the Company's Board of Directors may consider all factors it deems relevant, such as a candidate's personal integrity and sound judgment, business and professional skills and experience, independence, possible conflicts of interest, diversity, the extent to which the candidate would fill a present need on the Board, and concern for the long-term interests of the stockholders. In general, persons recommended by stockholders will be considered on the same basis as candidates from other sources. If a stockholder wishes to recommend a candidate for director for election at the 2009 Annual Meeting of Stockholders, it must follow the procedures described in "Stockholder Proposals and Recommendations For Director."

Compensation Committee

The Board of Directors has a Compensation Committee, which met on four occasions in 2007, and is currently composed of Messrs. Kozin, Oberdorf and Stevenson. The Compensation Committee operates pursuant to a written charter (the "Compensation Committee Charter") that was adopted by the Board of Directors and that complies with applicable Nasdaq listing standards. The Compensation Committee Charter is available at the Company's website, www.ufpt.com. Under the provisions of the Compensation Committee Charter, the primary functions of the Compensation Committee include determining salaries for the Company's named executive officers, individuals to whom stock options, other equity awards and cash awards are granted, and the terms upon which such grants and awards are made, incentive plans, benefits and overall compensation. For a further description of the Company's determination of executive and director compensation, see "Executive Compensation," below.

Audit Committee

The Board of Directors has an Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Audit Committee met five times in 2007, and is currently composed of Messrs. Stevenson, Gould and Oberdorf. The Audit Committee operates pursuant to a written charter (the "Audit Committee Charter") that was adopted by the Board of Directors and that complies with currently applicable SEC and Nasdaq rules. The Audit Committee Charter, as amended, is available at the Company's website, www.ufpt.com. Under the provisions of the Audit Committee Charter, the primary functions of the Audit Committee are to assist the Board of Directors with the oversight of (i) the Company's financial reporting process, accounting functions and internal controls and (ii) the qualifications, independence, appointment, retention, compensation and performance of the Company's registered public accounting firm. The Audit Committee is also responsible for the maintenance of "whistle-blowing" procedures, and the oversight of certain other compliance matters. See "Report of the Audit Committee" below.

The Board of Directors has determined that the current members of the Audit Committee are independent directors, as defined by the Audit Committee Charter and applicable SEC rules and Nasdaq listing standards. The Board of Directors has determined that Mr. Oberdorf qualifies as an "audit committee financial expert," as defined by applicable SEC rules, and satisfies Nasdaq's financial sophistication listing standards.

In 2006, the Compensation Committee engaged The Wilson Group, a Massachusetts-based compensation consulting firm, to perform a comprehensive comparative market study of the compensation programs offered to peer company chief executives and other executive officers. The Compensation Committee used this information in establishing 2006 and 2007 base salaries, incentive bonuses and other stock-based incentives for its named executive officers. The chief executive officer also makes recommendations to the Compensation Committee about the compensation of the Company's other named executive officers. The Compensation Committee considered the chief executive's recommendations before making a final determination of the compensation programs for the named executive officers.

The key objectives of its executive compensation programs are to attract, motivate and retain superior talent to enable the Company to achieve its business objectives and to align the financial interests of its executives with the stockholders of the Company. The compensation of named executive officers consists of (1) base salary, (2) incentive bonus, (3) long-term incentives and (4) other benefits and perquisites. In addition, the Company has an employment agreement with its chief executive officer.

Base Salary. Base salaries are determined based upon a variety of factors, including the executive's scope of responsibilities, a market competitive assessment of similar roles at other companies, and a comparison of salaries paid to peers within the Company. Base salaries are reviewed annually and may be adjusted after considering the above factors.

Incentive Bonus. In the past and for the Company's fiscal year ended 2007, the Company's named executive officers earned incentive bonuses. Bonuses are determined based on a combination of qualitative and quantitative, Company and individual measures, the details of which are established annually in the form of business objectives. The business objectives may vary for each executive based upon his or her responsibilities and may include financial and/or strategic measures. In 2007, the named executive officers' bonuses were largely based upon the Company achieving certain EBIT targets, which were based upon the Company's internal budgets, with the bonus amounts set to fluctuate up or down based on the extent to which the Company achieved, did not achieve, or exceeded the EBIT target. The bonus amounts for 2007 were also based in part on strategic objectives established for each named executive officer. The bonus amounts awarded for 2007 reflect the fact that the Company exceeded its EBIT target for 2007. At its discretion, the Compensation Committee may allow any executive officer to receive a portion of his or her awarded bonus in the form of Company Common Stock. In these situations, the Compensation Committee may also provide the named executive officer, at its discretion, an additional cash award in the form of a gross-up, in order to pay the income taxes associated with receiving the Company Common Stock. The goal in allowing the Company's named executive officers to receive a portion of their bonus in stock is to further align their interest with those of the Company's shareholders. The Compensation Committee retained sole discretion over all matters relating to the 2007 bonus payments, including, without limitation, the decision to pay any bonuses, the amount of each bonus, if any, the ability to increase or decrease any bonus payment and make changes to any financial and/or strategic measures, discretion over the payment of partial awards in the event of employment termination, and the decision whether to allow recipients to receive a portion and if so, how much of their bonuses in the form of Company Common Stock.

Long-term Incentives. It is the philosophy of the Company to provide executives with long-term incentives and, thus, align their financial interests with those of the Company's shareholders. Among the Company's various plans, the Company maintains two plans, the Company's 1993 Employee Stock

Option Plan and the Company's 2003 Incentive Plan, which provide long-term rewards and incentives to the Company's named executive officers, as well as other participants.

Beginning in 2006, the Company implemented a stock unit award program for the named executive officers under the 2003 Incentive Plan. The stock unit awards represent a right to receive shares of the Company's Common Stock in varying amounts based on the achievement of financial performance objectives for the Company and, in certain instances, time-based vesting requirements.

Named executive officers have stock options outstanding under the Company's 1993 Employee Stock Option Plan. The stock options allow the named executive officers, as well as other key employees, the right to acquire shares of Company stock at a price equal to the fair market value of the Company's stock on the date of grant. With the exception of the chief executive officer, whose stock options vested immediately upon grant, the stock options are subject to a vesting period. In 2007, no stock options were granted to named executive officers.

Other Benefits and Perquisites:

CEO Stock Awards For the past several years, and again in 2007, the Company has granted to Mr. R. Jeffrey Bailly, its Chief Executive Officer, an award of Common Stock as a component of his overall compensation. The objective of this equity component is to greater align the chief executive officer's interests with those of the Company's shareholders. The Compensation Committee retains sole discretion over all matters relating to this award of Common Stock, including, without limitation, the decision to make such award and the amount of the award, if any. The stock is typically issued to the chief executive officer on the last day of the fiscal year, assuming the chief executive officer remains employed by the Company on that date. The chief executive officer is also typically granted an additional cash award to pay the income taxes associated with receiving the Company's Common Stock (a "gross-up"). In 2007 the chief executive officer was granted 25,000 shares and the gross-up associated with this grant amounted to approximately \$140,000.

Deferred Compensation Plan In 2006, the Company implemented the UFP Technologies Executive Nonqualified Excess Plan ("Deferred Comp Plan"). Under the Deferred Comp Plan, named executive officers and other key employees are eligible to defer up to 90% of base salary and 100% of bonus and/or commissions into the Plan. Investments of the deferrals are directed by the participants and returns on the deferrals are determined accordingly. Employer contributions into the Plan are discretionary and determined by the Compensation Committee. No employer contributions were made in 2007.

Supplemental Disability Insurance Beginning in 2007, named executive officers received long-term disability insurance coverage to supplement the Company's group long-term disability plan. The objective is to provide named executive officers with sufficient coverage to replace a significant portion of his or her wages in the event of disability. The premiums are paid for by the Company and will amount to approximately \$14,000 for all named executive officers in 2007.

Profit Sharing/401(K) Plan All employees, including named executive officers, who meet certain criteria are eligible to participate in the UFP Technologies, Inc. Profit Sharing Plan ("PSP"). Participants in the PSP can defer up to 20% of their gross compensation, subject to IRS limitations on a pre-tax basis. The Company matches employee deferrals at a discretionary rate, which was 50% of employee deferrals up to a maximum of 2% of an employee's gross wages in 2007. In addition, the Company may make an additional discretionary profit sharing contribution which was 2.2% of gross wages in 2007. No employee deferrals are required to receive an allocated portion of the profit sharing contribution.

Perquisites The Company provides welfare benefits to its named executive officers at no cost to the executives. The chief executive officer is also eligible for additional perquisites including club

memberships, life insurance and Company paid tax preparation fees. These chief executive officer perquisites are offered principally to facilitate the chief executive officer's role as a Company representative within the community, and to entertain customers.

Policy on Stock Option Timing and Pricing.

The Company's Board of Directors adopted a policy whereby stock options are to only be granted by majority vote of members of the Compensation Committee at a regularly scheduled Committee meeting. The Company's policy is to permit trading of Company securities commencing 48 hours after the release of quarterly or annual earnings, assuming that, at such time, there is, in the opinion of the Directors, no material inside information pending. The Company has amended its 1993 Employee Stock Option Plan and its 2003 Incentive Plan to establish fair market value as the closing price on the date of grant of any equity security, including stock options, granted pursuant to such plans. Previously, the Company used the closing price on the day preceding the grant date as the fair market value.

Tax Considerations

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that the Company may not deduct compensation of more than \$1,000,000 that is paid to certain individuals. The Company believes that compensation paid under the management incentive plans are generally fully deductible for federal income tax purposes. However, in certain situations, the Committee may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for its named executive officers. In this regard, for 2007, no named executive officer received a base salary in excess of \$1,000,000 and, therefore, the Company believes that all executive compensation is deductible for federal income tax purposes.

The new base salaries are as follows: \$315,00, \$210,000, \$210,000, \$195,000 and \$160,000 for Messrs. Bailly, Lataille, LeSavoy, Rock and Shaw, respectively.
- (2) For both 2006 and 2007 represents stock unit awards of 75,000, 18,000, 18,000, 18,000 and 15,000 awarded to Messrs. Bailly, Lataille, LeSavoy, Rock and Shaw, respectively. The 2006 stock unit awards were granted on June 8, 2006 and valued at \$6.15, the closing price of the Company's stock on the date immediately preceding the date of grant. 50,000 of the 2007 stock unit awards were granted on February 26, 2007 and valued at \$4.64 and the remaining 94,000 stock unit awards were granted on June 6, 2007 and valued at \$5.06, in both cases the closing price of the Company's common stock on the date of grant. Amounts reflected in the table represent the portion of value of the stock unit awards that was amortized as compensation expense in 2006 and 2007 in accordance with SFAS 123 (R). In the case of Mr. Bailly, these amounts also include (i) for 2006, 25,000 shares of the Company's common stock that was granted to him on April 26, 2006 and issued on January 3, 2007 valued at \$3.34, the closing price of the Company's common stock on the date immediately preceding the date of grant, and (ii) for 2007, 25,000 shares of the Company's common stock that was granted to him on February 26, 2007 and issued on January 2, 2008 valued at \$4.64, the closing price of the Company's common stock on the grant date.
- (3) Represents bonuses earned in 2006 and 2007 and paid in cash in March, 2007 and 2008, respectively. Consistent with past practices, the named executive officers were allowed to take up to 50% of their earned bonuses in the form of Company common stock with the number of shares determined as the bonus amount divided by the closing price of the Company's common stock on the date of grant. For 2006 and 2007 the dates of grant of the common stock portion of the bonuses were February 26, 2007 and February 8, 2008, respectively, and the fair-market value of the common stock was \$4.64 and \$6.18, respectively. Bonuses earned in 2006 and paid in 2007 were as follows: \$147,700 and 31,832 shares of stock for Mr. Bailly, \$34,750 and 6,466 shares of stock for Mr. Lataille, \$33,250 and 7,166 shares of stock for Mr. LeSavoy, \$35,000 and 7,543 shares of stock for Mr. Rock and \$30,375 and 2,182 shares of stock for Mr. Shaw. Employment Contract

On October 8, 2007, the Company entered into a new employment agreement with Mr. R. Jeffrey Bailly, the Company's President and Chief Executive Officer and the Chairman of the Company's Board of Directors. The Agreement supersedes Mr. Bailly's prior employment agreement with the Company, dated April 3, 2000, and is terminable by either party at any time, as provided below.

The employment agreement provides that Mr. Bailly will receive a minimum annual salary of \$300,000 and consideration for discretionary bonuses. Pursuant to the agreement, Mr. Bailly will receive an annual stock grant award (the "Annual Stock Grant Award") on or about January 1 of each year entitling him to receive on or before December 31 (the "Issue Date") of each year an aggregate of 25,000 shares of the Company's common stock, provided that Mr. Bailly remains employed with the Company through the Issue Date of each such year. Subject to applicable "golden-parachute" rules, the Company has agreed to reimburse Mr. Bailly for the amount of federal and state income taxes attributable to the Annual Stock Grant Award. Annual Stock Grant Awards are to be made under the Company's 2003 Incentive Plan. Mr. Bailly's agreement prohibits him from competing with the Company for a period of eighteen months following the termination of his employment for any reason. The employment agreement provides Mr. Bailly with certain other benefits, including the opportunity to participate in the Company's stock option plans, insurance plans and other employment benefits as may be generally available to senior executives of the Company, as well as for the direct payment or reimbursement of tax preparation fees, certain dues and fees relating to club memberships and other fringe benefits.

Under the terms of the Agreement, if (i) Mr. Bailly's employment with the Company is terminated by the Company without cause, (ii) if Mr. Bailly terminates his employment with the Company for good reason (including a reduction in his base salary, the amount of the Annual Stock Grant Award or certain other benefits, removal from his position as president or chief executive officer, required relocation outside the greater Boston, Massachusetts area or a material reduction in his overall level of responsibility), or (iii) Mr. Bailly voluntarily terminates his employment within six months of a change of control of the Company, then the Company is required to pay Mr. Bailly a lump sum amount equal to three times his average annual compensation for the two years preceding. However, these termination payments shall be limited to an amount that would not result in the imposition of an excise tax or denial of a tax deduction for the Company under the tax code's golden parachute rules. If Mr. Bailly's employment with the Company is terminated by the Company without cause, or if Mr. Bailly terminates his employment with the Company for good reason, or upon a change of control of the Company, then (i) any shares in the Annual Stock Grant Award not issued to Mr. Bailly to which he would otherwise be entitled as of the next Issue Date following such change of control or such termination will be immediately issued to him and (ii) any of Mr. Bailly's other earned but unvested Stock Rights, as defined in the Agreement, will immediately vest in full. If Mr. Bailly's employment with the Company is terminated by the Company without cause, or if Mr. Bailly

terminates his employment with the Company for good reason, the Company will continue to pay Mr. Bailly's health insurance for up to thirty-six months.

Recent Developments Interest of R. Jeffrey Bailly in Proposal No. 3

On February 21, 2008, the Compensation Committee approved, subject to shareholder approval of the amendments to the 2003 Equity Incentive Plan that are the subject of, and are discussed under, Proposal No. 3 below, (i) the grant of stock unit awards to Mr. Bailly and (ii) the award to Mr. Bailly of a cash bonus for fiscal year 2008. If Proposal No. 3 is not approved by the Company's shareholders, neither of these awards will be granted.

If granted, the stock unit awards would be similar to the stock unit awards discussed below under the "Grants of Plan Based Awards" table in that they would be subject to the Company achieving specified financial performance objectives. Such performance objectives would be based on the Company's operating income for calendar year 2008 relative to an operating income target established by the Compensation Committee. However, Mr. Bailly's stock unit awards would not be subject to time-based vesting criteria and would all vest immediately following determination of satisfaction of the awards' performance criteria. The grants of stock unit awards are to be made under and pursuant to the Company's 2003 Incentive Plan. The maximum number of awards to be granted to Mr. Bailly would be 75,000 stock unit awards, if the "Threshold," "Target" and "Maximum" operating income targets were all achieved. Subject to the terms of the Company's 2003 Incentive Plan and the stock unit award agreement evidencing such award, each stock unit award would provide Mr. Bailly with the right to receive one share of common stock of the Company. Mr. Bailly would have no rights as a stockholder of the Company in relation to such awards, including, without limitation, the right to vote or to receive dividends, until and to the extent any applicable performance objectives have been satisfied and the issuance of the shares of common stock in respect of the stock unit awards has been appropriately evidenced.

The cash bonus award would also be made under and pursuant to the Company's 2003 Incentive Plan. This award would be based on the Company's achievement of a specified operating income target for 2008 established by the Compensation Committee. If granted, the target amount of the cash bonus award would be \$141,750, plus or minus up to 10% of the difference between the 2008 operating income target established by the Compensation Committee and the Company's actual 2008 operating income. The Compensation Committee has also approved, subject to shareholder approval of the amendments to the 2003 Equity Incentive Plan that are the subject of, and are discussed under, Proposal No. 3 below, the grant to Mr. Bailly of the right to elect to take up to 50% of such cash bonus award, if any, in the form of Company Common Stock, with the number of shares determined as the bonus amount divided by the closing price of the Company's Common Stock on the date of grant.

- (1) Amount shown does not reflect compensation actually received by the named executive officer nor does it necessarily reflect the actual value that will be recognized by the named executive officer. Instead, the amount shown is the stock based compensation expense of restricted stock granted to the named executive officer as determined pursuant to SFAS 123 (R). The assumptions used to calculate the value of restricted stock awards are set forth under Note 1(n) Share-Based Compensation, to the Company's consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007.
- (2) The stock unit awards listed under the "Threshold" column above are subject to a time-based vesting requirement. One-third of these awards vest on July 1, 2008, one-third of these awards vest on July 1, 2009 and one-third of these awards vest on July 1, 2010, provided that the recipient remains continuously employed by the Company through each such vesting date.
- (3) The stock unit awards listed under the "Target" and "Maximum" columns above are subject to a different time-based vesting requirement and to the Company meeting certain financial performance objectives, described below. One-third of these awards vest on July 1, 2009, one-third of these awards vest on July 1, 2010 and one-third of these awards vest on July 1, 2011, provided that the recipient remains continuously employed by the Company through each such vesting date.
- (4) The stock unit awards listed under the "Target" and "Maximum" columns above are also subject to the Company achieving specified financial performance objectives. The performance objectives were based on the Company's earnings before interest and taxes ("EBIT") for calendar year 2007 relative to an EBIT target established by the Compensation Committee. If the Company achieved the EBIT target, which it did, then all of the stock unit awards listed in the "Target" column above became eligible to become vested, subject to the time-based vesting and continuous employment requirements described above. To the extent the Company achieved in excess of the EBIT target, stock unit awards listed in the "Maximum" column above (in addition to the stock unit awards listed in the "Target" column above) became eligible to become vested, subject to the time-based vesting and continuous employment requirements described above, based on a straight-line interpolation of the EBIT target established by the Compensation Committee in increments of 20% of such stock unit awards, up to the maximum amount listed in the "Maximum" column. In 2007, the Company achieved in excess of the EBIT target in an amount sufficient to result in the award to each of the named executive officers of the total potential awards indicated in the "Maximum" column above.
- (5) Reflects grants of stock unit awards to the named executive officers pursuant to the Company's 2003 Incentive Plan. Recipients of the stock unit awards will have no rights as stockholders of the Company, including, without limitation, the right to vote or to receive dividends, until and to the extent any applicable performance objectives have been satisfied, such stock unit awards have

Edgar Filing: UFP TECHNOLOGIES INC - Form DEF 14A

vested, and the issuance of the shares of common stock in respect of the stock unit awards has been appropriately evidenced. Based upon the Company's financial results for the fiscal year ended 2007, the actual number of awards received by each of the named executive officers was equal to the total potential awards indicated in the "Maximum" column above. Any unvested stock unit awards shall terminate upon the cessation of a recipient's employment with the Company. In the event of a change in control of the Company (as defined in the stock unit award agreement evidencing the award) at any time, the stock unit awards listed in the "Threshold" column above, to the extent not already vested, shall become fully vested immediately prior to the effective date of such change in control. In the event of a change in control of the Company (as defined in the stock unit award agreement evidencing the award) on or after January 1, 2008, to the extent the EBIT target has been achieved or exceeded the applicable number of stock unit awards listed in the "Target" and "Maximum" columns above, to the extent not already vested, shall become fully vested immediately prior to the effective date of such change in control.

1993 Stock Option Plan. Effective October 1993, the Company adopted the 1993 Stock Option Plan (the "1993 Plan"). The purpose of the 1993 Plan is to benefit the Company through the maintenance and development of its businesses by offering certain present and future key individuals a favorable opportunity to become holders of stock in the Company over a period of years, thereby giving them a permanent stake in the growth and prosperity of the Company. As of April 18, 2008, there are 321,043 shares of Common Stock available for issuance under the 1993 Plan. The 1993 Plan may be administered by the Board of Directors of the Company or by a committee appointed by the Board of Directors. Employees of the Company (including officers and directors of the Company who are also employees), as well as certain consultants and advisors of the Company, are eligible to receive grants of options under the 1993 Plan. Under the 1993 Plan, the Company may grant both incentive stock options intended to qualify under Section 422 of the Internal Revenue Code of 1986 ("incentive stock options") and other options which are not qualified as incentive stock options. Unless otherwise determined by the Board of Directors or the committee, all options granted under the 1993 Plan vest at the rate of 25% per year, with the first installment vesting at the end of one year from the date of grant.

2003 Incentive Plan. The Company's 2003 Incentive Plan is the subject of, and is discussed under, Proposal No. 3. below.

Potential Payments upon Termination or Change of Control and Severance Plans

Mr. R. Jeffrey Bailly may be entitled to payment upon his termination or upon a change of control of the Company, as described above. If Mr. Bailly is terminated without cause or if he terminates his employment for good reason or within six months of a change of control of the Company, then Mr. Bailly is entitled to a lump sum amount equal to three times his average annual compensation for the two years preceding, as limited by applicable IRS golden parachute regulations. Accordingly, assuming the triggering event occurred on December 31, 2007, Mr. Bailly would have been entitled to receive \$1,811,882.

In September 1993, the Company adopted a policy that all named executive officers of the Company not otherwise a party to an employment agreement with the Company will receive a severance benefit should the employee's employment with the Company be terminated by the Company other than for cause in connection with a change in control of the Company, in the form of a base salary continuation for a period equal to the sum of (i) four months plus (ii) one month for each year of service with the Company up to a maximum of 18 months. Accordingly, assuming termination of such named executive officers on December 31, 2007, such officers would have been entitled to the following payments:

PROPOSAL NO. 2
AMENDMENT OF THE COMPANY'S
1998 DIRECTOR STOCK OPTION INCENTIVE PLAN

Effective July 15, 1998, the Company adopted the 1998 Director Stock Option Incentive Plan (as amended, the "Director Plan"). The purpose of the Director Plan is to maximize long-term stockholder value by aligning the interests of nonemployee directors of the Company with those of its stockholders by offering nonemployee directors ownership of the Company's Common Stock. The Company proposes, subject to stockholder approval, to amend the Director Plan to increase the number of shares of Common Stock available for issuance under the Director Plan from 725,000 shares to 975,000 shares. The following is a summary description of the Director Plan and is qualified in its entirety by reference to the full text of the Director Plan, a copy of which is attached hereto as *Appendix A*.

Description of the Director Plan

The Director Plan may be administered by the Board of Directors or by any committee of the Board of Directors, including the Compensation Committee. Subject to the express provisions of the Director Plan, the Compensation Committee has the authority to interpret and construe the Director Plan and to adopt rules and regulations for administering the Director Plan.

Only nonemployee directors of the Company are eligible to receive grants of options under the Director Plan. As of the date of this proxy statement, the Company's nonemployee directors are Messrs. Stevenson, Ross, Gould, Gestal, Kozin, Oberdorf and Richard L. Bailly. If he is elected, Mr. Pierce will also be a nonemployee director of the Company.

Under the Director Plan, 118,196 shares of Common Stock are currently available for the grant of stock options, subject to adjustment in the event of stock splits, stock dividends or changes in corporate structure affecting Common Stock. If the amendment is approved, a total of 368,196 shares of Common Stock will be available under the Director Plan. To the extent a stock option granted under the Director Plan expires or terminates unexercised, the shares of Common Stock allocable to the unexercised portion of such option are available for awards under the Director Plan. In addition, to the extent that shares are delivered to pay all or a portion of an option exercise price, such shares will become available for awards under the Director Plan.

The Director Plan, as originally adopted, became effective on July 15, 1998. The Director Plan will terminate when shares of Common Stock are no longer available under the Director Plan unless terminated earlier by the Board of Directors. The Board of Directors or the stockholders may amend or discontinue the Director Plan at any time except that no amendment or discontinuance may change or impair any options previously granted without the consent of the optionee, or where stockholder approval is required by applicable law, rule or regulation. Should an optionee cease to be a member of the Board of Directors of the Company for any reason other than death or permanent disability, such optionee's options may be exercised to the extent exercisable on the date of such termination by the optionee or, if he or she is not living, by his or her heirs, legatees or legal representative, as the case may be, during their specified term but, with respect to Automatic Options, not later than three months after the date of such termination. Should such an optionee cease to be a member of the Board of Directors of the Company because of death or permanent disability, such options may be exercised in full by the optionee or, if she or she is not living, by his or her heirs, legatees or legal representatives, as the case may be, during their specified term but not later than one year after the date of death or permanent disability.

Automatic options, elective options and discretionary options may be granted under the Director Plan. Since July 1, 1999 and continuing in effect on July 1 in each subsequent calendar year, each person who is at the time serving as a nonemployee director is automatically granted an option (each an "Automatic Option") to purchase 2,500 shares of Common Stock.

Edgar Filing: UFP TECHNOLOGIES INC - Form DEF 14A

Under the Director Plan each nonemployee director may elect to receive all or a portion of his annual director fees or fees for serving as a member of any committee of the Board of Directors earned during each calendar year in the form of an option ("Elective Options"). Each such election must be irrevocable and made by December 31 of each year for fees to be received in the following calendar year. The number of shares of Common Stock into which Elective Options granted in any year are exercisable shall be determined based on an independent appraisal for such year of the intrinsic value of the options granted and the amount of fees covered by the director's election for such year. Elective Options, if any, are granted on the date of the annual meeting of stockholders.

The Compensation Committee may grant options to nonemployee directors from time to time in its discretion subject to the provisions of the Director Plan (the "Discretionary Options"). The Compensation Committee may establish the terms of the Discretionary Option in its sole discretion including, without limitation, the time to expiration (which shall not exceed 10 years) and the vesting schedule of such options.

Each Automatic Option and Elective Option granted is for a term of ten years and is exercisable for any or all of the shares covered by such Option on the date of grant under the Director Plan. The exercise price per share of all Discretionary Options granted under the Director Plan will be determined by the Compensation Committee in its discretion, and may be greater than, but not less than, 100% of the fair market value per share of Common Stock on the grant date, which is defined as the closing price of the Common Stock on the trading day coinciding with the date of grant of the Option. The exercise price of an Automatic Option or an Elective Option will be 100% of the fair market value of Common Stock as of the applicable grant date. Options may be exercised (i) by the payment of cash in the amount of the aggregate option price, (ii) by surrendering shares of Common Stock owned by the participant, (iii) by a combination of (i) and (ii), having a combined value equal to the aggregate option price of the shares subject to the option or the portion of the option being exercised, or (iv) by any other means the Compensation Committee deems appropriate. Any option or portion thereof that is not exercised on or before the tenth anniversary of the date of grant will expire.

Options granted under the Director Plan are not transferable by the participant other than by court order, will or the laws of descent and distribution and are exercisable during the participant's lifetime only by the participant.

Federal Income Tax Consequences

The following general discussion of the United States federal income tax consequences of the issuance and exercise of options granted under the Director Plan is based upon the provisions of the Internal Revenue Code as in effect on the date hereof, current regulations promulgated and proposed thereunder, existing public and private administrative rulings and pronouncements of the Internal Revenue Service, and judicial decisions, all of which are subject to change. This discussion is not intended to be a complete discussion of all of the United States federal income tax consequences of the Director Plan or of all of the requirements that must be met in order to qualify for the tax treatment described herein. Changes in the law and regulations may modify the discussion, and in some cases the changes may be retroactive. No information is provided as to state tax laws. The Director Plan is not qualified under Section 401 of the Internal Revenue Code and is not subject to the provisions of the Employee Retirement Income Security Act of 1974. In addition, because tax consequences may vary and certain exceptions may apply depending upon the personal circumstances of individuals, each option holder should consider his or her personal situation and consult with his or her tax advisor with respect to the specific tax consequences applicable to him or her.

The recipient of an option under the Director Plan generally will not recognize any taxable income upon the grant of an option under the plan. Generally, he or she will recognize ordinary taxable income at the time the option is exercised in an amount equal to the excess of the fair market value of

the shares of the Company common stock received on the date of exercise over the option exercise price. However, directors generally will be subject to Section 16(b) of the Securities Exchange Act upon their sale of shares of the Company common stock and this may affect their tax liability. In the case of exercise of an option within six months of grant by someone whose sale of shares of the Company common stock would subject him or her to liability under Section 16(b), recognition of income by the option holder will be postponed. The Internal Revenue Service regulations have not yet been amended to conform with the rules under Section 16(b). However, it is generally anticipated that the date of recognition will be postponed to the earlier of (i) six months after the date the option was granted, or (ii) the first day on which the sale of the shares would not subject the individual to liability under Section 16(b). It is possible that the six month period will instead run from the option holder's most recent grant or purchase of the Company common stock prior to his or her exercise of the option. The option holder will generally recognize ordinary taxable income on the recognition date in an amount equal to the excess of the fair market value of the shares at that time over the option exercise price. Despite this general rule, the option holder may make an election pursuant to Section 83(b) of the Internal Revenue Code, in which case the option holder will recognize ordinary taxable income at the time the option is exercised and not on the later recognition date. In order to be effective, the 83(b) election must be filed with the Company and the Internal Revenue Service within 30 days after exercise.

The application of the tax rules to an option holder who receives shares that are subject to a substantial risk of forfeiture (for example, if the shares must be returned to the Company if the recipient does not continue to work for the Company for a period of time specified in the award) are more complex. In that case, the recipient generally will not recognize income until the date that the shares are no longer subject to the substantial risk of forfeiture, unless a Section 83(b) election (described above) is made.

The Company will generally be entitled to a compensation deduction for federal income tax purposes in an amount equal to the taxable income recognized by the option holder, provided the Company reports the income on a form W-2 or 1099 (whichever is applicable) that is timely provided to the option holder and timely filed with the Internal Revenue Service.

When an option holder subsequently disposes of the shares of the Company common stock received upon exercise of an option, he or she will generally recognize capital gain or loss (long-term or short-term depending on the holding period of the shares) in an amount equal to the difference between amount realized and the fair market value of the shares on the date of exercise. The holding period for the shares generally would begin on the date the shares were acquired and would not include the period of time during which the option was held.

An option holder who pays the exercise price, in whole or in part, by delivering shares of the Company common stock already owned by him or her will generally recognize no gain or loss for United States federal income tax purposes on the shares surrendered, but otherwise will be taxed according to the rules described above. To the extent the shares acquired upon exercise are equal in number to the shares surrendered, the basis of the shares received will be equal to the basis of the shares surrendered. The basis of shares received in excess of the shares surrendered upon exercise will be equal to the fair market value of the shares on the date of exercise, and the holding period for the shares received will commence on that date.

New Plan Benefits

Each of the Company's nonemployee directors will receive Automatic Options to purchase 2,500 shares of Company Common Stock under the Director Plan on July 2, 2008. No Discretionary Options have been or will be made in respect of the Company's 2008 fiscal year prior to stockholder approval of the amendment to the Director Plan described herein. Because the number of Elective Options that

may be acquired under the Director Plan by eligible participants in respect of the Company's 2008 fiscal year depends on elections to be made by such participants, the Company is not able to estimate the number of such options that may be acquired under the Director Plan by eligible participants. The Company's nonemployee directors have a financial interest in Proposal No. 2 because, if adopted, Proposal No. 2 would increase the number of shares available for issuance under the Director Plan to such nonemployee directors.

The affirmative vote of the holders of a majority of the shares present in person or by proxy at the Meeting and entitled to vote on the proposal to amend the Director Plan is required to amend the Director Plan.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" APPROVAL OF PROPOSAL NO. 2.

**PROPOSAL NO. 3
AMENDMENT OF THE COMPANY'S
2003 INCENTIVE PLAN**

Effective June 4, 2003, the Company adopted the 2003 Equity Incentive Plan (as amended, the "Incentive Plan"). On February 21, 2008, the Board of Directors, subject to shareholder approval, amended the Incentive Plan. The purpose of the proposed amendment is to permit certain performance-based cash awards to be made under the Incentive Plan. The amendment also adds appropriate language so as to enable grants of stock-based awards under the Incentive Plan to continue to be eligible for exclusion from the \$1,000,000 limitation on deductibility under Section 162(m) of the Internal Revenue Code (the "Code"). On February 21, 2008, the Board of Directors also changed the name of the Incentive Plan from the "2003 Equity Incentive Plan" to the "2003 Incentive Plan," in part to reflect the proposed amendment described above.

The Incentive Plan is intended to benefit the Company by offering equity-based and other incentives to certain of the Company's executives and employees, thereby encouraging the continuance of their involvement with the Company's businesses. The following is a summary description of the Incentive Plan and is qualified in its entirety by reference to the full text of the Incentive Plan, which is set forth as *Appendix B* to this Proxy Statement.

Description of the 2003 Incentive Plan

The Incentive Plan will be administered by the Compensation Committee, or another committee consisting of not less than two directors as appointed from time to time by the Board of Directors. Only independent directors may serve on the committee administering the Incentive Plan (hereinafter, the "Committee"). Subject to the express provisions of the Incentive Plan, the Committee has the authority to interpret and construe the Incentive Plan and to adopt rules and regulations for administering the Incentive Plan. Such powers of the Committee include, except as otherwise provided in the Incentive Plan, exclusive authority to select the employees or determine classes of employees to be granted awards under the Incentive Plan, to determine the aggregate amount, type, size, and terms of the awards to be made to eligible employees, and to determine the time when awards will be granted. The Committee shall take into account compliance with Section 409A of the Code in connection with any grant of an award under the Incentive Plan, to the extent applicable.

Executives and other employees of the Company (including directors and officers) who (i) are employed full time or part time by the Company or its subsidiaries on a salaried basis and (ii) are selected on the basis of such criteria as the Committee may determine, are eligible to participate in the Incentive Plan. Employees who participate in other incentive or benefit plans of the Company or any of its subsidiaries may also participate in the Incentive Plan.

Awards may be granted in the form of any or a combination of the following:

Stock Options options entitling the recipient to acquire shares of Common Stock upon payment of the exercise price, which shall consist of options intended to qualify as incentive stock options under Section 422 of the Code and nonqualified stock options;

Stock Appreciation Rights ("SARs") rights entitling the holder upon exercise to receive cash or Common Stock, as the Committee determines, equal to a function (determined by the Committee using such factors as it deems appropriate) of the amount by which the Common Stock has appreciated in value since the date of the award;

Restricted Stock an award of Common Stock subject to forfeiture if specified events are not satisfied;

Edgar Filing: UFP TECHNOLOGIES INC - Form DEF 14A

Unrestricted Stock an award of Common Stock not subject to any restrictions under the Incentive Plan;

Stock Unit Awards awards payable in Common Stock that may, but are not required to, include awards subject to performance criteria;

Stock-Based Awards awards that are denominated or payable in, valued in whole or in part by reference to, or otherwise based on or related to shares of Common Stock as deemed by the Committee to be consistent with the purposes of the Incentive Plan;

Cash Performance Awards an award subject to performance criteria payable in cash;

Performance Awards awards subject to performance criteria; or

Grants of cash, or loans, made in connection with other awards in order to help defray in whole or in part the economic cost (including tax cost) of the award to the participant.

Under the Incentive Plan, "performance criteria" means specified criteria the satisfaction of which is a condition for the exercisability, vesting or full enjoyment of an award. For purposes of performance awards that are intended to qualify for the performance-based compensation exception under Section 162(m) of the Code, a performance criterion shall mean an objectively determinable measure of performance relating to any of the following (determined either on a consolidated basis or, as the context permits, on a divisional, subsidiary, line of business, project or geographical basis or in combinations thereof): (i) sales; revenues; assets; liabilities; costs; expenses; earnings before or after deduction for all or any portion of interest, taxes, depreciation, amortization or other items, whether or not on a continuing operations or an aggregate or per share basis; return on equity, investment, capital or assets; one or more operating ratios; borrowing levels, leverage ratios or credit rating; market share; capital expenditures; cash flow; working capital requirements; stock price; stockholder return; sales, contribution or gross margin, of particular products or services; particular operating or financial ratios; customer acquisition, expansion and retention; or any combination of the foregoing; or (ii) acquisitions and divestitures (in whole or in part); joint ventures and strategic alliances; spin-offs, split-ups and the like; reorganizations; recapitalizations, restructurings, financings (issuance of debt or equity) and refinancings; transactions that would constitute a change of control; or any combination of the foregoing. A performance criterion measure and targets with respect thereto determined by the Committee need not be based upon an increase, a positive or improved result or avoidance of loss. In the case of an award intended to be eligible for the performance-based compensation exception under Section 162(m), the Incentive Plan and such award shall be construed to the maximum extent permitted by law in a manner consistent with qualifying the award for such exception.

Unless the Committee expressly provides otherwise, (A) an award requiring exercise by the holder will not be deemed to have been exercised until the Committee receives a written notice of exercise (in form acceptable to the Committee) signed by the appropriate person and accompanied by any payment required under the award; and (B) if the award is exercised by any person other than the participant, the Committee may require satisfactory evidence that the person exercising the award has the right to do so. The Committee shall determine the exercise price of each Stock Option or SAR; provided, that each Stock Option or SAR must have an exercise price that is not less than the fair market value of the Stock subject to the Stock Option, determined as of the date of grant. Where the exercise of an award is to be accompanied by payment, the Committee may determine the required or permitted forms of payment.

The restrictions on Restricted Stock awards may include, without limitation, restrictions on the right of the grantee to sell, assign, transfer or encumber shares while such shares are subject to other restrictions imposed under the Incentive Plan, the duration of such restrictions; the events (which may, in the discretion of the Committee, include performance-based events or objectives) the occurrence of which would cause a forfeiture of the Restricted Stock in whole or in part; and such other terms and

conditions as the Committee in its discretion deems appropriate. If so determined by the Committee at the time of an award of Restricted Stock, the lapse of restrictions on Restricted Stock may be based on the extent of achievement over a specified performance period of one or more performance targets based on performance criteria established by the Committee. Restricted Stock awards shall be effective upon execution of the applicable Restricted Stock agreement by the Company and the participant. Following a Restricted Stock award and prior to the lapse or termination of the applicable restrictions, the share certificates for such Restricted Stock shall be held in escrow by the Company. Upon the lapse or termination of the applicable restrictions (and not before such time), the certificates for the Restricted Stock shall be issued or delivered to the participant. From the date a Restricted Stock award is effective, the participant shall be a shareholder with respect to all the shares represented by such certificates and shall have all the rights of a shareholder with respect to all such shares, including the right to vote such shares and to receive all dividends and other distributions paid with respect to such shares, subject only to the restrictions imposed by the Committee.

Stock Unit Awards shall be evidenced by a written agreement in the form prescribed by the Committee in its discretion, which shall set forth the number of shares of Common Stock to be awarded pursuant to the award, the restrictions imposed thereon (which may include, without limitation: restrictions on the right of the grantee to sell, assign, transfer or encumber the award prior to vesting, and, in the discretion of the Committee, certain continued service requirements and terms under which the vesting of such awards might be accelerated) and such other terms and conditions as the Committee in its discretion deems appropriate. If so determined by the Committee at the time of the grant of a Stock Unit Award, vesting of the award may be contingent on achievement over a specified performance period of one or more performance targets based on performance criteria established by the Committee. Stock Unit Awards shall be effective upon execution of the applicable Stock Unit Award Agreement by the Company and the participant. Upon a determination of satisfaction of the applicable performance-related conditions and satisfaction of the applicable continued service requirements (and not before such time), shares of Stock shall be issued to the participant pursuant to the award. The participant shall not have any rights of a shareholder of the Company with respect to such shares prior to such issuance.

The Committee shall have the authority in its discretion to grant to eligible participants Unrestricted Stock and other Stock-Based Awards and shall determine the terms and conditions, if any, of any other Stock-Based Awards made under the Incentive Plan. The Committee shall also have the authority in its discretion to grant to eligible participants awards not based on the Common Stock, including, without limitation, Cash Performance Awards, and other Performance Awards as deemed by the Committee to be consistent with the purposes of the Incentive Plan.

A maximum of 1,250,000 shares of Common Stock, subject to adjustments for stock splits, stock dividends, mergers, consolidations, and similar transactions as provided in the Incentive Plan, may be delivered in satisfaction of Stock-Based Awards under the Incentive Plan. Currently, 441,001 shares of Common Stock remain available for issuance under the Incentive Plan.

The Committee may adopt reasonable counting procedures to ensure appropriate counting, avoid double counting and make adjustments if the number of shares of Stock actually delivered differs from the number of shares previously counted in connection with an award. To the extent that an award expires or is canceled, forfeited, settled in cash or otherwise terminated or concluded without a delivery to the participant of the full number of shares to which the award related, the undelivered shares will again be available for grant. Shares withheld in payment of the exercise price or taxes relating to an award and shares equal to the number surrendered in payment of any exercise price or taxes relating to an award shall be deemed to constitute shares not delivered to the participant and shall be deemed to again be available for awards under the Incentive Plan; provided, however, that, where shares are withheld or surrendered more than ten years after the date of the most recent stockholder approval of the Incentive Plan or any other transaction occurs that would result in shares becoming so available,

such shares shall not become available if and to the extent that it would constitute a material revision of the Incentive Plan subject to stockholder approval under then applicable rules of the national securities exchange on which the Stock is listed or the Nasdaq Stock Market, as applicable. Common Stock delivered by the Company under the Incentive Plan may be authorized but unissued Common Stock or previously issued Common Stock acquired by the Company and held in treasury. No fractional shares of Common Stock will be delivered under the Incentive Plan.

In the event of any change in the Company's outstanding Common Stock by reason of any stock dividend or split, recapitalization, merger, consolidation, combination or exchange of shares, or other similar corporate change, an equitable adjustment shall be made, as determined by the Committee, so as to preserve, without increasing or decreasing, the value of awards and authorizations, in (i) the maximum number or kind of shares issuable or awards which may be granted under the Incentive Plan, (ii) the maximum number, kind or value of any Incentive Plan awards which may be awarded or paid in general or to any one employee or to all employees in a fiscal year, (iii) the performance-based events or objectives applicable to any Incentive Plan awards, (iv) any other aspect or aspects of the Incentive Plan or outstanding awards made thereunder as specified by the Committee, or (v) any combination of the foregoing. Such adjustments shall be made by the Committee and shall be conclusive and binding for all purposes of the Incentive Plan.

Except as may otherwise be provided in an award agreement or a written employment agreement between the participant and the Company which has been approved by the Committee, upon certain fundamental corporate events described in the Incentive Plan, in lieu of providing the adjustment set forth above, the Committee may, in its discretion, cancel any or all vested and/or unvested awards as of the consummation of such corporate event, and provide that holders of awards so canceled will receive a payment in respect of cancellation of their awards based on the amount of the per share consideration being paid for the Common Stock in connection with such corporate event, less, in the case of Stock Options and other awards subject to exercise, the applicable exercise price, subject to and as set forth in the Incentive Plan.

The maximum number of shares of Common Stock subject to awards that may be granted to any person in any calendar year shall be 150,000. In addition, in no event shall the number of awards providing for the acquisition of shares of Common Stock for a consideration less than fair market value as of the date of grant or exercise of such awards granted to all participants in any fiscal year exceed 250,000. For this purpose, fair market value may be determined as of a date not more than two trading days prior to the date of grant or exercise in order to facilitate compliance with the reporting requirements under Section 16 of the Securities Exchange Act of 1934. Subject to these limitations, each person eligible to participate in the Incentive Plan shall be eligible in any year to receive awards covering up to the full number of shares of Common Stock then available for awards under the Incentive Plan.

No more than \$1,000,000 may be paid to any individual with respect to any Cash Performance Award or other Performance Award (other than an award expressed in terms of shares of Common Stock or units representing Common Stock, which shall instead be subject to the limit set forth in the paragraph above). In applying the dollar limitation of the preceding sentence: (A) multiple Cash or other Performance Awards to the same individual that are determined by reference to performance periods of one year or less ending with or within the same fiscal year of the Company shall be subject in the aggregate to one \$1,000,000 limit, and (B) multiple Cash or other Performance Awards to the same individual that are determined by reference to one or more multi-year performance periods ending in the same fiscal year of the Company shall be subject in the aggregate to separate \$1,000,000 limits.

The holder of a Incentive Plan award shall have no rights as a Company shareholder with respect thereto unless and until the date as of which shares of Common Stock shall have been issued in respect of such award.

Except as the Committee shall otherwise determine, no Incentive Plan award or any rights or interests therein of the recipient thereof shall be assignable or transferable by such recipient except upon death to his or her designated beneficiary or by will or the laws of descent and distribution, and, except as aforesaid, during the lifetime of the recipient, a Incentive Plan award shall be exercisable only by, or payable only to, as the case may be, such recipient or his or her guardian or legal representative.

The Board may at any time terminate or from time to time amend or suspend the Incentive Plan in whole or in part in such respects as the Board may deem advisable in order that awards granted thereunder shall conform to any change in the law, or in any other respect which the Board may deem to be in the best interests of the Company; provided, however, that no amendment of the Incentive Plan shall be made without shareholder approval if shareholder approval of the amendment is at the time required by applicable law, or by the rules of the Nasdaq Stock Market or any stock exchange on which Common Stock may be listed.

The Board shall have the power to amend the Incentive Plan in any manner deemed necessary or advisable for awards granted under the Incentive Plan to qualify for exemption from Section 16(b) of the Securities Exchange Act of 1934, to qualify as "performance-based" compensation under Section 162(m) of the Code or to comply with applicable law, and any such amendment shall, to the extent deemed necessary or advisable by the Board, be applicable to any outstanding awards theretofore granted under the Incentive Plan notwithstanding any contrary provisions contained in any award agreement. With the consent of the participant affected, the Board may amend outstanding agreements evidencing Incentive Plan awards in a manner not inconsistent with the terms of the Incentive Plan. Unless required by law, no such action or amendment shall adversely affect any rights of participants or obligations of the Company to participants with respect to any award theretofore made under the Incentive Plan without the consent of the affected participant. The Incentive Plan shall remain in effect, subject to the right of the Board of Directors to further amend or terminate the Incentive Plan at any time, until all shares subject to it shall have been purchased or acquired according to the Incentive Plan's provisions.

Federal Income Tax Consequences

The following discussion of the Federal income tax consequences of the issuance of awards granted under the Incentive Plan is based upon the provisions of the Internal Revenue Code of 1986, as amended, as in effect on the date hereof, current regulations adopted and proposed thereunder, and existing administrative rulings and pronouncements of the Internal Revenue Service. It is not intended to be a complete discussion of all of the Federal income tax consequences of the Incentive Plan or of all of the requirements that must be met in order to qualify for the described tax treatment. The Incentive Plan provides the Company with broad discretion to grant many different types of awards. The discussion below illustrates the Federal income tax consequences of only some of the types of awards the Company is permitted to make under the Incentive Plan. Depending on the type of award granted under the Incentive Plan, the Federal income tax consequences to the Company and recipients of awards could materially differ from the discussion below. In addition, because the tax consequences may vary, and certain exceptions to the general rules discussed herein may be applicable, depending upon the personal circumstances and the type of award granted, each recipient should consider his or her personal situation and consult with his or her tax advisor with respect to the specific tax consequences applicable to each recipient. No information is provided in the discussion below about state tax laws.

Nonqualified Stock Options. An option holder will not recognize any taxable income upon the grant of a nonqualified option under the Incentive Plan. Generally, an option holder recognizes ordinary taxable income at the time a nonqualified option is exercised in an amount equal to the excess of the fair market value of the shares of Common Stock on the date of exercise over the exercise price.

However, if the Company imposes restrictions on the shares that do not permit the recipient to transfer the shares to others and that require the recipient to return the shares to the Company at less than fair market value upon termination of employment (a "risk of forfeiture"), the date on which taxable income (if any) is recognized will be the date on which the stock becomes "freely transferable" or not subject to risk of forfeiture (the "Recognition Date"). In this circumstance, the option holder will generally recognize ordinary taxable income on the Recognition Date in an amount equal to the excess of the fair market value of the shares at that time over the exercise price. If an option holder is subject to Section 16(b) of the Securities Exchange Act of 1934, as amended, the date on which the fair market value of the shares is determined may similarly be postponed. The IRS regulations have not yet been amended to conform with the most recent changes to Section 16(b). However, it is generally anticipated that the date on which the fair market value of the shares is determined will be postponed to the earlier of (i) the date six months after the options are granted, or (ii) the first day on which the sale of the shares would not subject the holder to liability under Section 16(b). It is possible that the six month period will instead run from the option holder's most recent grant or purchase of stock prior to his or her exercise of the option.

Despite this general rule, in the case of a risk of forfeiture, or in the case of holders subject to Section 16(b) (if the Recognition Date is after the date of exercise), then the option holder may make an election pursuant to Section 83(b) of the Code. In this case, the option holder will recognize ordinary taxable income at the time the option is exercised and not on the later date. In order to be effective, the Section 83(b) election must be filed with the Company and the Internal Revenue Service within 30 days of exercise.

The Company will generally be entitled to a compensation deduction for Federal income tax purposes in an amount equal to the taxable income recognized by the option holder, provided the Company reports the income on a form W-2 or 1099, whichever is applicable, that is timely provided to the option holder and filed with the IRS.

When an option holder subsequently disposes of the shares of Common Stock received upon exercise of a nonqualified option, he or she will recognize long-term or short-term capital gain or loss (depending upon the holding period), in an amount equal to the difference between the sale price and the fair market value on the date on which the option holder recognized ordinary taxable income as a result of the exercise of the nonqualified option. The holding period for the shares generally would begin on the date the shares were acquired and would not include the period of time during which the option was held.

An option holder who pays the exercise price for a nonqualified option, in whole or in part, by delivering shares of Common Stock already owned by him or her will recognize no gain or loss for Federal income tax purposes on the shares surrendered, but otherwise will be taxed according to the rules described above.

Any nonqualified options having an exercise price less than the fair market value of the Common Stock at the time such options are granted may be considered deferred compensation subject to Section 409A of the Code. Section 409A provides rules regarding the timing of deferred compensation payments. Independent of the tax treatment described above, an additional 20% tax would be imposed on the grant of nonqualified options that fail to comply with the rules of Section 409A.

Edgar Filing: UFP TECHNOLOGIES INC - Form DEF 14A

Incentive Stock Options. An option holder generally will not recognize taxable income upon either the grant or the exercise of an incentive stock option. However, under certain circumstances, there may be alternative minimum tax or other tax consequences, as discussed below.

An option holder will recognize taxable income upon the disposition of the shares received upon exercise of an incentive stock option. Any gain recognized upon a disposition that is not a "disqualifying disposition" will be taxable as long-term capital gain. A "disqualifying disposition" means any disposition of shares acquired on the exercise of an incentive stock option within two years of the date the option was granted or within one year of the date the shares were issued to the option holder. The use of shares acquired pursuant to the exercise of an incentive stock option to pay the option price under another stock option is treated as a disposition for this purpose. In general, if an option holder makes a disqualifying disposition, an amount equal to the excess of (a) the lesser of (i) the fair market value of the shares on the date of exercise or (ii) the amount actually realized on the disposition over (b) the option exercise price, will be taxable as ordinary income and the balance of the gain recognized, if any, will be taxable as either long-term or short-term capital gain, depending on the optionee's holding period for the shares. The holding period for the shares generally would begin on the date the shares were acquired and would not include the period of time during which the option was held. In the case of a gift or certain other transfers, the amount of ordinary income taxable to the optionee is not limited to the amount of gain which would be recognized in the case of a sale. Instead, it is equal to the excess of the fair market value of the shares on the date of exercise over the option exercise price.

The tax result may change if (a) the Company imposes restrictions on the shares which do not permit the recipient to transfer the shares to others and which require the recipient to return the shares to the Company at less than fair market value upon termination of employment, or (b) the recipient is an officer or director of the Company subject to Section 16(b). In the case of a disqualifying disposition of shares acquired pursuant to the exercise of such an incentive stock option, the date on which the fair market value of the shares is determined may be postponed, and the tax consequences will be similar to the treatment that applies to shares acquired pursuant to nonqualified options granted under the Incentive Plan, including the ability to make a Section 83(b) election, as described above.

In general, in the year an incentive stock option is exercised, the holder must include the excess of the fair market value of the shares issued upon exercise over the exercise price in the calculation of alternative minimum taxable income. The application of the alternative minimum tax rules for an option holder subject to Section 16(b) or who receives shares that are not "substantially vested" are more complex and may depend upon whether the holder makes a Section 83(b) election, as described above.

The Company will not be entitled to any deduction with respect to the grant or exercise of an incentive stock option provided the holder does not make a disqualifying disposition. If the option holder does make a disqualifying disposition, the Company will generally be entitled to a deduction for Federal income tax purposes in an amount equal to the taxable income recognized by the holder, provided the Company reports the income on a Form W-2 or 1099 (whichever is applicable) that is timely provided to the option holder and filed with the IRS.

Stock Appreciation Rights. A recipient of a SAR will not be considered to receive any income at the time a SAR is granted, nor will the Company be entitled to a deduction at that time. Upon the exercise of a SAR, the holder will have ordinary income equal to the cash received upon the exercise. At that time, the Company will be entitled to a tax deduction equal to the amount of ordinary income realized by the holder.

To the extent that a SAR is settled in cash or is granted at a price that is less than the fair market value of the Common Stock on the date of grant, such SAR should be considered deferred

compensation subject to Section 409A of the Code. Section 409A provides rules regarding the timing of deferred compensation payments. Independent of the tax treatment described above, an additional 20% tax would be imposed on the grant of a SAR that fails to comply with the rules of Section 409A.

Restricted Stock and Performance Shares. The recipient of restricted stock or performance shares will generally not recognize income at the time that shares subject to such restrictions are issued, unless a section 83(b) election (described below) is made. Absent a section 83(b) election, recipients of restricted shares will recognize income at the time the restrictions are removed from the shares. In such event, recipients will recognize ordinary compensation income on the date the restrictions are removed in an amount equal to the excess of the then fair market value of such shares over the purchase price (if any) paid for such shares. The tax basis in the shares with respect to which restrictions are removed will be equal to the sum of the amount paid for such shares plus the amount of ordinary compensation income recognized by the recipient. The holding period for such shares for purposes of determining whether any capital gain or loss is short term or long term will begin just after the restrictions are removed (absent a Section 83(b) election).

Recipients will generally recognize capital gain or loss on a sale or exchange of the shares. The gain or loss will equal the difference between the proceeds received and the adjusted tax basis in the shares. The gain or loss recognized on a sale or exchange of the shares will be long-term capital gain or loss if the shares are held for more than one year. The deductibility of capital losses is subject to limitation.

If a recipient makes a section 83(b) election with respect to the shares, the recipient will recognize ordinary compensation income at the time the shares are issued and not when the restrictions are removed from such shares. In such event, the tax basis in the shares would equal their fair market value on the date issued, and the holding period for the shares would begin just after such date. However, if a section 83(b) election is made and any shares are forfeited, a recipient will not be entitled to recover any of the taxes paid in connection with the 83(b) election described above, nor will the recipient receive any capital loss. The advisability of making a section 83(b) election will depend on various factors and each recipient's individual circumstances. Recipients are urged to consult with his or her own tax advisors regarding whether, where and how to make a section 83(b) election. Recipients who decide to do so must make a section 83(b) election no later than the thirtieth day following the issuance of the shares and, once made, such election generally would be irrevocable by a recipient.

Any distributions that the Company makes in respect of the shares will be treated as a dividend, taxable to recipients as ordinary income, to the extent it is paid out of the Company's current or accumulated earnings and profits. If the distribution exceeds the Company's current or accumulated earnings and profits, such excess will be treated first as a tax-free return of the recipient's investment, up to the recipient's basis in the shares. Any remaining excess will be treated as capital gain. The Company will generally be entitled to a compensation deduction for Federal income tax purposes in an amount equal to, and at the same time as, the ordinary compensation income recognized by recipients. The Company will report the income on a Form W-2 or 1099, whichever is applicable, and will recognize a deduction in such amount.

Restricted stock and performance shares may be considered deferred compensation subject to Section 409A of the Code. Section 409A provides rules regarding the timing of deferred compensation payments. Independent of the tax treatment described above, an additional 20% tax would be imposed on the grant of restricted stock or performance shares that fail to comply with the rules of Section 409A.

Common Stock. A person who receives an award of Common Stock generally will have taxable income at the time the shares are received (i) in an amount equal to the excess of the then fair market value of such shares over the purchase price (if any) paid for such shares, if the Common Stock is not subject to restrictions, or (ii) as described in the preceding paragraph for restricted stock, if they are

subject to restrictions. The tax treatment of a stock award that consists of other rights will depend on the provisions of the award. It may be immediately taxable if there are no restrictions on the receipt of the cash or other property that the stock award represents, or the tax consequences may be deferred if the receipt of cash or other property for the stock award is restricted, or subject to vesting or performance goals. In those situations in which a participant receives property subject to restrictions, the participant may wish to make a Section 83(b) election, as described above. At the time that the holder of the stock award has ordinary income, the Company will be entitled to a tax deduction equal to the amount of ordinary income realized by the holder.

An award of Common Stock may be considered deferred compensation subject to Section 409A of the Code. Section 409A provides rules regarding the timing of deferred compensation payments. Independent of the tax treatment described above, an additional 20% tax would be imposed on an award of Common Stock that fails to comply with the rules of Section 409A.

New Plan Benefits

As described above under "Proposal No. 1 Recent Developments Interest of R. Jeffrey Bailly in Proposal No. 3," if Proposal No. 3 is approved, R. Jeffrey Bailly may receive grants of (i) up to 75,000 stock unit awards and (ii) a cash bonus of \$141,750, subject to adjustment as described above, in each case under and pursuant to the terms of the Incentive Plan and depending on the Company's 2008 operating income measured against specified 2008 operating income targets established by the Compensation Committee. The terms of these awards are discussed in detail above. In addition, the Company's named executive officers and employee directors have a general ongoing financial interest in Proposal No. 3 because, if adopted, Proposal No. 3 would increase the types of awards issuable under the Incentive Plan to such executive officers and employee directors.

The affirmative vote of the holders of a majority of shares of Common Stock present in person or by proxy at the Meeting and entitled to vote on the proposal to amend the Incentive Plan is required to amend the Incentive Plan.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" APPROVAL OF PROPOSAL NO. 3.

PROPOSAL NO. 4
TO ADJOURN THE ANNUAL MEETING OF STOCKHOLDERS
OF
UFP TECHNOLOGIES, INC.

Proposal No. 4 asks the stockholders of the Company to consider and vote upon a proposal to approve an adjournment of the Meeting, if necessary, including adjournments to permit further solicitation of proxies in favor of each of the proposals to elect directors, to amend the 1998 Director Stock Option Incentive Plan and to amend the 2003 Incentive Plan.

If a quorum is not present at the Meeting, stockholders of the Company may be asked to vote on the proposal to adjourn the Meeting to solicit additional proxies. If a quorum is present at the Meeting, but there are not sufficient votes at the time of the Meeting to approve one or more of the proposals, stockholders of the Company may also be asked to vote on the proposal to approve the adjournment of the Meeting to permit further solicitation of proxies in favor of the other proposals.

If the adjournment proposal is submitted for a vote at the Meeting, and if stockholders of the Company vote to approve the adjournment proposal, the Meeting will be adjourned to enable the Company's Board of Directors to solicit additional proxies in favor of one or more proposals. If the adjournment proposal is approved, and the Meeting is adjourned, the Company's Board of Directors will use the additional time to solicit additional proxies in favor of any of the proposals to be presented at the Meeting, including the solicitation of proxies from stockholders that have previously voted against the relevant proposal. Among other things, approval of the adjournment proposal could mean that, even though the Company may have received proxies representing a sufficient number of votes against a proposal to defeat it, management of the Company could present the adjournment proposal for a vote of the Company's stockholders and thereby cause the Meeting to be adjourned without a vote on the proposal, and seek during that period to convince the holders of those shares to change their votes to vote in favor of the proposal.

The Company's Board of Directors believes that, if the number of shares of Common Stock voting in favor of any of the proposals presented at the Meeting is insufficient to approve a proposal, it is in the best interests of the Company's stockholders to enable the Company's Board of Directors, for a limited period of time, to continue to seek to obtain a sufficient number of additional votes in favor of the proposal.

The affirmative vote of the holders of a majority of shares of Common Stock present in person or by proxy at the Meeting and entitled to vote on the proposal to adjourn the Meeting is required to adjourn the Meeting.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" APPROVAL OF PROPOSAL NO. 4.

OTHER MATTERS

Voting Procedures

The votes of stockholders present in person or represented by proxy at the Meeting will be tabulated by an inspector of elections appointed by the Company. A quorum, consisting of a majority of shares of all stock issued, outstanding and entitled to vote at the Meeting, will be required to be present in person or by proxy for consideration of the proposal to elect directors. If a quorum is not present, a vote of a majority of the votes properly cast will adjourn the Meeting.

The nominees for director of the Company who receive the greatest number of votes cast by stockholders present in person or represented by proxy at the Meeting and entitled to vote thereon will be elected directors of the Company. The affirmative vote of the holders of a majority of shares of Common Stock present in person or represented by proxy at the Meeting and entitled to vote thereon is required to approve the amendment to the 1998 Director Stock Option Incentive Plan, the amendment to the 2003 Incentive Plan, and to adjourn the Meeting.

Abstentions will have no effect on the outcome of the vote for the election of directors, but will have the effect of being cast against the other proposals, even though the stockholder so abstaining may intend a different result.

Shares of Common Stock held of record by brokers who do not return a signed and dated proxy will not be considered present at the Meeting, will not be counted towards a quorum and will not be voted in the election of directors or on the other proposals. Shares of Common Stock held of record by brokers who return a signed and dated proxy but who fail to vote (a "broker nonvote") on the election of directors or on the other proposals will count toward the quorum but will have no effect on the proposals not voted.

Reporting Under Section 16(a) of the Securities Exchange Act of 1934

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors and persons who own more than 10 percent of the Company's Common Stock to file initial reports of their ownership and changes in ownership of the Company's Common Stock with the SEC. Based solely on the Company's review of the copies of such reports it has received and written representations from certain reporting persons, the Company believes that each person who was required to file such reports complied with the applicable filing requirements during 2007.

Other Proposed Action

The Board of Directors knows of no matters that may come before the Meeting other than those discussed above. However, if any other matters should properly be presented to the Meeting, the persons named as proxies shall have discretionary authority to vote the shares represented by the accompanying proxy in accordance with their own judgment and applicable laws and regulations.

Stockholders who wish to make a proposal at the Company's 2009 Annual Meeting other than one that will be included in the Company's proxy materials should notify the Company no later than March 14, 2009. If a stockholder who wishes to present such a proposal fails to notify the Company by this date, the proxies that management solicits for the meeting will have discretionary authority to vote on the stockholder's proposal if it is properly brought before the meeting. If a stockholder makes a timely notification, the proxies may still exercise discretionary voting authority under circumstances consistent with the proxy rules of the Securities and Exchange Commission.

Stockholders may make recommendations to the Board of Directors of candidates for its consideration as nominees for director at the Company's 2009 Annual Meeting of Stockholders by submitting the name, qualifications, experience and background of such person, together with a statement signed by the nominee in which he or she consents to act as such, to the Board of Directors, c/o Secretary, UFP Technologies, Inc., 172 East Main Street, Georgetown, MA 01833. Notice of such recommendations should be submitted in writing as early as possible, but in any event not later than 90 days prior to the anniversary date of the immediately preceding annual meeting or special meeting in lieu thereof and must contain specified information and conform to certain requirements set forth in the Company's Bylaws. The letter of recommendation from one or more stockholders should state whether or not the person(s) making the recommendation has beneficially owned 5% or more of the Company's Common Stock for at least one year. The Board of Directors may refuse to acknowledge the nomination of any person not made in compliance with these procedures or in the Company's Bylaws.

UFP TECHNOLOGIES, INC.
1998 DIRECTOR STOCK OPTION INCENTIVE PLAN
(AS AMENDED FEBRUARY 24, 1999, JULY 2, 2001, FEBRUARY 28, 2002, APRIL 28, 2004, FEBRUARY 26, 2007 AND
FEBRUARY 21, 2008)

1. Statement of Purpose. This 1998 Director Stock Option Incentive Plan (as amended, the "Plan") is intended to promote the interests of UFP Technologies, Inc., a Delaware corporation (the "Company"), by offering non-employee members of the Board of Directors of the Company (individually a "Non-employee Director" and collectively "Non-employee Directors") the opportunity to participate in a special stock option program designed to provide them with significant incentives to remain in the service of the Company.

2. Administration. The Plan shall be administered by the Board of Directors of the Company or by any committee of the Board of Directors, including the Compensation Committee (the "Committee"). The Committee shall have full and plenary authority to interpret the terms and provisions of the Plan.

3. Eligibility. Non-employee Directors of the Company shall be eligible to receive grants of non-statutory options under this Plan (individually an "Option" and collectively "Options") pursuant to the provisions of Section 5 hereof.

4. Stock Subject to Plan. The stock issuable under this Plan shall be shares of the Company's Common Stock, par value \$.01 per share (the "Common Stock"). Such shares may be made available from authorized but unissued shares of Common Stock or shares of Common Stock reacquired by the Company. The aggregate number of shares of Common Stock issuable upon exercise of Options under this Plan shall not exceed 975,000 shares, subject to adjustment from time to time in accordance with Section 9 hereof.

5. Granting of Options.

a.

Automatic Granting of Options.

(i) Commencing July 1, 1999, and continuing in effect on July 1, in each subsequent calendar year, each individual who is at the time serving as a Non-employee Director shall receive an automatic grant of an Option to purchase 2,500 shares of Common Stock (subject to adjustment as provided in Section 10 hereof). Each Option granted pursuant to this Section 5(a) (herein referred to individually as an "Automatic Option" or collectively as "Automatic Options") shall be for a term of ten (10) years. Each Option shall become exercisable for any or all of the shares covered by such Option on the later of the date on which this Plan is ratified by the shareholders of the Company or on the date of automatic grant pursuant to this Section 5(a). The Automatic Option shall thereafter remain so exercisable until the expiration or sooner termination of the Option term. The foregoing automatic grant dates under this Section 5(a) are herein referred to individually as an "Automatic Grant Date" and collectively as "Automatic Grant Dates".

(ii) Should an Optionee cease to be a member of the Board of Directors of the Company for any reason other than death or permanent disability, such Optionee's Automatic Options may be exercised (to the extent they were exercisable on the date of such termination) by the Optionee or, if he or she is not living, by his or her heirs, legatees or legal representative, as the case may be, during their specified term but not later than three (3) months after the date of such termination.

(iii) Should an Optionee cease to be a member of the Board of Directors of the Company because of death or permanent disability (as that term is defined in Section 22(e)(3) of the Code, as now in effect or as subsequently amended), such Automatic Options may be exercised in full, by the Optionee

or, if he or she is not living, by his or her heirs, legatees or legal representatives, as the case may be, during their specified term but not later than one (1) year after the date of death or permanent disability.

b.

Options in Lieu of Director Fees.

(i) Each Non-Employee Director may elect to receive any or all of his or her annual director fees or fees for serving as a member of any committee of the Board of Directors earned during the second half of 1998 and each subsequent calendar year in the form of Non-Qualified Stock Options under this Section 5(b). Each Option granted pursuant to this Section 4(b) is herein referred to individually as an "Elective Option" or collectively as "Elective Options". Each such election must be irrevocable, and made in writing and filed with the Secretary of the Company by June 30, 1998 (for fees earned in the second half of 1998) and (for fees earned in subsequent calendar years) by December 31 of each year for fees to be received in the following calendar year.

(ii) A Non-Employee Director may file a new election each calendar year applicable to fees earned in the immediately succeeding calendar year. If no new election or rev
