VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

1. Summary of Significant Accounting Policies*Condensed Consolidated Financial Statements*

The Condensed Consolidated Balance Sheet as of June 28, 2008, the Condensed Consolidated Statements of Operations for the thirteen and twenty-six week periods ended June 28, 2008 and June 30, 2007 and the Condensed Consolidated Statements of Cash Flows for the twenty-six week periods then ended have been prepared by the Company, without audit. In the opinion of management, all necessary adjustments (which include normal recurring adjustments) have been made to present fairly the financial statements as of June 28, 2008 and for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These Condensed Consolidated Financial Statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 29, 2007. The accounting policies and methods of computation followed in these interim financial statements are the same as those followed in the financial statements for the year ended December 29, 2007. The results of operations for the periods ended June 28, 2008 are not necessarily indicative of the operating results for the full year.

Inventories

At June 28, 2008, approximately 47.6% of inventory is valued at the lower of cost, determined on the last-in, first-out (LIFO) method, or market. All other inventory is valued at the lower of cost, determined on the first-in, first-out (FIFO) method or market. Finished goods and manufactured goods inventories include the costs of acquired raw materials and related factory labor and overhead charges required to convert raw materials to manufactured finished goods. The excess of replacement cost of inventories over the LIFO value was approximately \$58,600 and \$35,800 at June 28, 2008 and December 29, 2007, respectively.

Inventories consisted of the following:

	June 28, 2008	December 29, 2007
Raw materials and purchased parts	\$ 168,709	\$ 139,557
Work-in-process	20,203	21,481
Finished goods and manufactured goods	119,976	94,747
Subtotal	308,888	255,785
LIFO reserve	58,641	35,792
Net inventory	\$ 250,247	\$ 219,993

Stock Plans

The Company maintains stock-based compensation plans approved by the shareholders, which provide that the Compensation Committee of the Board of Directors may grant incentive stock options, nonqualified stock options, stock appreciation rights, non-vested stock awards and bonuses of common

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, except per share amounts)

(Unaudited)

1. Summary of Significant Accounting Policies (Continued)

stock. At June 28, 2008, 1,700,000 shares of common stock remained available for issuance under the plans. Shares and options issued and available are subject to changes in capitalization.

Under the plans, the exercise price of each option equals the market price at the date of the grant. Options vest beginning on the first anniversary of the grant in equal amounts over three to six years or on the fifth anniversary of the grant. Expiration of grants is from six to ten years from the date of grant. The Company recorded \$752 and \$1,488 of compensation expense (included in selling, general and administrative expenses) for the thirteen and twenty-six weeks ended June 28, 2008, respectively, and \$408 and \$897 of compensation expense for the thirteen and twenty-six weeks ended June 30, 2007, respectively. The associated tax benefits recorded for the thirteen and twenty-six weeks ended June 28, 2008 were \$288 and \$572, respectively and \$149 and \$327 for the thirteen and twenty-six weeks ended June 30, 2007, respectively.

Fair Value

On December 30, 2007, the Company adopted SFAS No. 157, Fair Value Measurements ("SFAS 157") which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The provisions of SFAS 157 apply to other accounting pronouncements that require or permit fair value measurements. As defined in SFAS 157, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In February 2008, the FASB issued FASB Staff Position No. 157-2 (FSP 157-2), "Effective Date of FASB Statement 157." FSP 157-2 delayed for one year the applicability of SFAS 157's fair-value measurements to certain nonfinancial assets and liabilities. The Company adopted SFAS 157 in 2008, except as it applies to those nonfinancial assets and liabilities affected by the one-year delay.

SFAS 157 establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. Inputs refers broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Trading Securities: The assets and liabilities recorded for the investments held in the Valmont Deferred Compensation Plan represent mutual funds, invested in debt and equity securities, classified as trading

1. Summary of Significant Accounting Policies (Continued)

securities in accordance with Financial Accounting Standard No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, considering the employee's ability to change investment allocation of their deferred compensation at any time. Quoted market prices are available for these securities in an active market and therefore categorized as a Level 1 input.

	Carrying Value June 28, 2008	Fair Value Measurement Using:

Liabilities:				
Trading Securities	\$ 13,210	\$ 13,210	\$	\$

Recently Issued Accounting Pronouncements

In December 2007, the FASB issued Statement 141R ("SFAS No. 141R"), *Business Combinations*. This Statement amends accounting and reporting standards associated with business combinations. This Statement requires the acquiring entity to recognize the assets acquired, liabilities assumed and noncontrolling interests in the acquired entity at the date of acquisition at their fair values, including noncontrolling interests. In addition, SFAS No. 141R requires that direct costs associated with an acquisition be expensed as incurred and sets forth various other changes in accounting and reporting related to business combinations. This Statement is effective at the beginning of the Company's 2009 fiscal year on a prospective basis. The Company is currently assessing the effect of this Statement on its consolidated financial statements.

In December 2007, the FASB issued Statement 160 ("SFAS No. 160"), *Noncontrolling Interests in Consolidated Financial Statements*. This Statement amended the accounting and reporting for noncontrolling interests in a consolidated subsidiary and for the deconsolidation of a subsidiary. Included in this statement is the requirement that noncontrolling interests be reported in the equity section of the balance sheet. This Statement is effective at the beginning of the Company's 2009 fiscal year. The Company is currently assessing the effect of this Statement on its consolidated financial statements.

2. Acquisitions

In January 2008, the Company acquired substantially all of the assets of Penn Summit LLC (Penn Summit), a manufacturer of steel utility and wireless communication poles located in Hazelton, Pennsylvania, for approximately \$57,904, including transaction costs. In addition, the Company assumed \$96 of interest-bearing debt as part of the acquisition. The Company recorded \$31,440 of goodwill as part of the purchase price allocation and assigned the goodwill to the Utility Support Structures segment. The Company financed the acquisition with cash balances and approximately \$7.5 million of

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, except per share amounts)

(Unaudited)

2. Acquisitions (Continued)

borrowings through its revolving credit agreement. The Company acquired Penn Summit to expand its geographic presence in the United States for steel utility support structures.

In February 2008, the Company acquired 70% of the outstanding shares of West Coast Engineering Group, Ltd. (West Coast), a Canadian and U.S. manufacturer of steel and aluminum structures for the lighting, transportation and wireless communication industries headquartered in Delta, British Columbia, for \$31.4 million Canadian dollars (\$31,472 U.S. dollars). In addition, \$6,304 of interest-bearing debt was assumed as part of the acquisition. The purchase price was financed through the Company's revolving credit agreement. The Company recorded \$19,438 of goodwill as part of the preliminary purchase price allocation and assigned the goodwill to the Engineered Support Structures segment. The Company acquired West Coast to expand its geographic presence in Canada and the United States for lighting and transportation structures.

The following table summarizes the preliminary fair values of the assets acquired and liabilities assumed as of the date of acquisition.

	Penn Summit	West Coast
Current Assets	\$ 12,167	\$ 12,794
Property, plant and equipment	5,177	10,112
Intangible assets	13,322	9,786
Goodwill	31,440	19,438
Total assets acquired	\$ 62,106	\$ 52,130
Current liabilities	4,106	7,765
Deferred income taxes		3,364
Long-term debt	96	6,304
Minority Interest		3,225
Total liabilities assumed	4,202	20,658
Net assets acquired	\$ 57,904	\$ 31,472

The purchase price allocation on the West Coast acquisition was not finalized in the second quarter of 2008, as the fair value determinations on the assets acquired and liabilities assumed was not complete. The Company expects to finalize the purchase price allocations in the third quarter of 2008.

On April 26, 2007, the Company acquired 70% of the outstanding shares of Tehomet Oy (Tehomet), a Finnish manufacturer of lighting poles. Tehomet's operations are included in the Company's condensed consolidated financial statement since the acquisition date. In June 2008, the Company acquired the remaining 30% of the outstanding shares of a North American Irrigation dealership from its minority shareholder for \$848.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, except per share amounts)

(Unaudited)

2. Acquisitions (Continued)

The Company's proforma results of operations for the twenty-six weeks ended June 30, 2007, assuming that the transaction occurred at the beginning of the periods presented are as follows:

	Thirteen Weeks Ended June 30, 2007	Twenty-six Weeks Ended June 30, 2007
Net sales	\$ 423,735	\$ 786,860
Net income	27,151	45,581
Earnings per share diluted	\$ 1.04	\$ 1.75

Subsequent to June 28, 2008, the Company acquired substantially all the operating assets of Site Pro 1, Inc., (Site Pro) a wireless communication components company headquartered in Long Island, New York. The purchase price for the assets was \$22.0 million. The Company financed the acquisition through borrowings against its revolving credit agreement. Site Pro will be reported as part of the ESS segment. The Company acquired Site Pro to expand its distribution network and capabilities in the wireless communication components market.

3. Goodwill and Intangible Assets

The Company's annual impairment testing of goodwill and intangible assets was performed during the third quarter of 2007. As a result of that testing, it was determined the goodwill and other intangible assets on the Company's Consolidated Balance Sheet were not impaired.

Amortized Intangible Assets

The components of amortized intangible assets at June 28, 2008 and December 29, 2007 were as follows:

	As of June 28, 2008		Weighted Average Life
	Gross Carrying Amount	Accumulated Amortization	
Customer Relationships	\$71,572	\$ 15,918	15 years
Proprietary Software & Database	2,609	2,226	6 years
Patents & Proprietary Technology	2,839	815	14 years
Non-compete Agreements	1,514	352	6 years
	\$78,534	\$ 19,311	

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, except per share amounts)

(Unaudited)

3. Goodwill and Intangible Assets (Continued)

	As of December 31, 2007		Weighted Average Life
	Gross Carrying Amount	Accumulated Amortization	
Customer Relationships	\$51,459	\$ 13,819	16 years
Proprietary Software & Database	2,609	2,158	6 years
Patents & Proprietary Technology	2,839	715	14 years
Non-compete Agreements	1,007	285	7 years
	\$57,914	\$ 16,977	

Amortization expense for intangible assets for the thirteen weeks ended June 28, 2008 and June 30, 2007 was \$1,447 and \$853, respectively. Amortization expense for intangible assets for the twenty-six weeks ended June 28, 2008 and June 30, 2007 was \$2,832 and \$1,683, respectively. Estimated amortization expense related to amortized intangible assets is as follows:

	Estimated Amortization Expense
2008	\$ 5,613
2009	5,610
2010	5,610
2011	5,610
2012	5,610

The useful lives assigned to finite-lived intangible assets included consideration of factors such as the Company's past and expected experience related to customer retention rates, the remaining legal or contractual life of the underlying arrangement that resulted in the recognition of the intangible asset and the Company's expected use of the intangible asset.

Non-amortized intangible assets

Intangible assets with indefinite lives are not amortized. The carrying values of trade names at June 28, 2008 and December 29, 2007 were as follows:

	June 28, 2008	December 29, 2007	Year Acquired
PiRod	\$ 4,750	\$ 4,750	2001
Newmark	11,111	11,111	2004
Tehomet	1,473	1,373	2007
Feralux	173	172	2007
West Coast	2,309		2008
	\$19,816	\$ 17,406	

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, except per share amounts)

(Unaudited)

3. Goodwill and Intangible Assets (Continued)

The PiRod and Newmark trade names were tested for impairment separately from goodwill in the third quarter of 2007. The values of the trade names were determined using the relief-from-royalty method. Based on this evaluation, the Company determined that its trade names were not impaired as of September 29, 2007.

In its determination of these intangible assets as indefinite-lived, the Company considered such factors as its expected future use of the intangible asset, legal, regulatory, technological and competitive factors that may impact the useful life or value of the intangible asset and the expected costs to maintain the value of the intangible asset. The Company expects that these intangible assets will maintain their value indefinitely. Accordingly, these assets are not amortized.

Goodwill

The carrying amount of goodwill as of June 28, 2008 was as follows:

	Engineered Support Structures Segment	Utility Support Structures Segment	Coatings Segment	Irrigation Segment	Total
Balance December 29, 2007	\$ 28,570	\$ 43,517	\$ 42,192	\$ 1,853	\$ 116,132
Acquisitions	19,438	31,440		202	51,080
Foreign currency translation	330				330
Balance June 28, 2008	\$ 48,338	\$ 74,957	\$ 42,192	\$ 2,055	\$ 167,542

In January 2008, the Company acquired substantially all of the net operating assets of a steel utility pole manufacturer in Hazelton, Pennsylvania. This acquisition increased the goodwill in the Utility Support Structures segment by \$31,440. In February 2008, the Company acquired 70% of the outstanding shares of a Canadian and U.S. manufacturer of steel and aluminum structures for the lighting, transportation and wireless communication industries headquartered in Delta, British Columbia. This acquisition increased the goodwill in the Engineered Support Structures segment by \$19,438. In June 2008, the Company acquired the minority owner's shares in a North American irrigation dealership, resulting in a \$202 increase of goodwill in the Irrigation segment.

4. Cash Flows

The Company considers all highly liquid temporary cash investments purchased with a maturity of three months or less to be cash equivalents. Cash payments for interest and income taxes (net of refunds) for the twenty-six weeks ended were as follows:

	June 28, 2008	June 30, 2007
Interest	\$ 9,572	\$ 8,950
Income Taxes	38,742	21,251

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, except per share amounts)

(Unaudited)

5. Earnings Per Share

The following table reconciles Basic and Diluted earnings per share (EPS):

	Basic EPS	Dilutive Effect of Stock Options	Diluted EPS
Thirteen weeks ended June 28, 2008:			
Net earnings	\$ 37,264		\$ 37,264
Shares outstanding	25,823	554	26,377
Per share amount	\$ 1.44	(.03)	\$ 1.41
Thirteen weeks ended June 30, 2007:			
Net earnings	\$ 26,961		\$ 26,961
Shares outstanding	25,497	610	26,107
Per share amount	\$ 1.06	(.03)	\$ 1.03
Twenty-six weeks ended June 28, 2008:			
Net earnings	\$ 66,963		\$ 66,963
Shares outstanding	25,763	543	26,306
Per share amount	\$ 2.60	(.05)	\$ 2.55
Twenty-six weeks ended June 30, 2007:			
Net earnings	\$ 45,689		\$ 45,689
Shares outstanding	25,459	559	26,018
Per share amount	\$ 1.79	(.03)	\$ 1.76

At June 28, 2008 and June 30, 2007 there were no outstanding options with exercise prices exceeding the market prices of common stock. Accordingly, no option shares were excluded from the computations of diluted earnings per share for the periods presented.

6. Comprehensive Income

Results of operations for foreign subsidiaries are translated using the average exchange rates during the period. Assets and liabilities are translated at the exchange rates in effect on the balance sheet dates. Currency translation adjustment is the Company's only component of accumulated other comprehensive income. The Company's other comprehensive income for the thirteen and twenty-six weeks ended June 28, 2008 and June 30, 2007, respectively, were as follows:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 28, 2008	June 30, 2007	June 28, 2008	June 30, 2007
Net earnings	\$ 37,264	\$ 26,961	\$ 66,963	\$ 45,689
Currency translation adjustment	4,631	2,967	10,482	4,657
Total comprehensive income	\$ 41,895	\$ 29,928	\$ 77,445	\$ 50,346

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in thousands, except per share amounts)

(Unaudited)

7. Business Segments

The Company aggregates its operating segments into four reportable segments. Aggregation is based on similarity of operating segments as to economic characteristics, products, production processes, types or classes of customer and the methods of distribution. Net corporate expense is net of certain service-related expenses that are allocated to business units generally based on employee headcounts and sales dollars.

Reportable segments are as follows:

ENGINEERED SUPPORT STRUCTURES: This segment consists of the manufacture of engineered metal structures and components for the lighting and traffic and wireless communication industries, certain international utility industries and for other specialty applications;

UTILITY SUPPORT STRUCTURES: This segment consists of the manufacture of engineered steel and concrete structures primarily for the North American utility industry;

COATINGS: This segment consists of galvanizing, anodizing and powder coating services; and

IRRIGATION: This segment consists of the manufacture of agricultural irrigation equipment and related parts and services.

In addition to these four reportable segments, the Company has other businesses that individually are not more than 10% of consolidated sales. These businesses, which include the manufacture of tubular products and the distribution of industrial fasteners, are reported in the "Other" category.

In 2007, the Company determined that its Tubing business did not meet the quantitative thresholds as a reportable segment. Accordingly, the Tubing business and its financial results are included in "Other". The Company reclassified information related to the Tubing business for 2007 to conform to the 2008 presentation.

The accounting policies of the reportable segments are the same as those described in Note 1. The Company evaluates the performance of its business segments based upon operating income and

8. Guarantor/ Non-Guarantor Financial Information

On May 4, 2004, the Company completed a \$150,000,000 offering of 6⁷/₈% Senior Subordinated Notes. The Notes are guaranteed, jointly, severally, fully and unconditionally, on a senior subordinated basis by certain of the Company's current and future direct and indirect domestic subsidiaries (collectively the "Guarantors"), excluding its other current domestic and foreign subsidiaries which do not guarantee the debt (collectively referred to as the "Non-Guarantors"). All Guarantors are 100% owned by the parent company.

Condensed consolidated financial information for the Company ("Parent"), the Guarantor subsidiaries and the Non-Guarantor subsidiaries is as follows:

CONDENSED CONSOLIDATED STATEMENTS OF OPERATIONS

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

PART 1. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward looking statements are based on assumptions that management has made in light of experience in the industries in which the Company operates, as well as management's perceptions of historical trends, current conditions, expected future developments and other factors believed to be appropriate under the circumstances. These statements are not guarantees of performance or results. They involve risks, uncertainties (some of which are beyond the Company's control) and assumptions. Management believes that these forward-looking statements are based on reasonable assumptions. Many factors could affect the Company's actual financial results and cause them to differ materially from those anticipated in the forward-looking statements. These factors include, among other things, risk factors described from time to time in the Company's reports to the Securities and Exchange Commission, as well as future economic and market circumstances, industry conditions, company performance and financial results, operating efficiencies, availability and price of raw materials, availability and market acceptance of new products, product pricing, domestic and international competitive environments, and actions and policy changes of domestic and foreign governments.

This discussion should be read in conjunction with the financial statements and the notes thereto, and the management's discussion and analysis, included in the Company's Annual Report on Form 10-K for the fiscal year ended December 29, 2007. We aggregate our businesses into four reportable segments. See Note 7 to the Condensed Consolidated Financial Statements.

Overview

General

The sales increases for the thirteen and twenty-six week periods ended June 28, 2008, as compared with the same periods of 2007, were due to increased selling prices to recover higher raw material costs, acquisitions completed after March 31, 2007, currency translation effects and sales volume increases. The main sales unit volume increases were realized in the Irrigation and Coatings segments. Unit volumes in the Utility and Engineered Support Structures (ESS) segments for quarter and year-to-date periods ended June 28, 2008 were comparable with the same periods in 2007. In the aggregate, sales unit volume increased approximately 5% for the thirteen week period ended June 28, 2008, as compared with the same period in 2007. On a year-to-date basis, sales unit volumes in 2008 increased over 2007 by approximately 8%. Our costs for hot-rolled steel products escalated rapidly throughout 2008, resulting in higher costs for the items we manufacture. Where possible, we passed on these higher costs to our customers through sales price increases.

The improvement in gross margin (gross profit as a percent of sales) for the thirteen and twenty-six week periods ended June 28, 2008, as compared with the same periods of 2007, resulted mainly from improved factory productivity, improved sales pricing and the operational improvements in the North America specialty structures operations. On a segment basis, the most significant gross margin improvement was in the Coatings division.

The increases in selling, general and administrative (SG&A) expenses for the second quarter and year-to-date periods ended June 28, 2008, as compared with the same periods in 2007, mainly resulted from:

Increased salary and benefit costs to support the increase in sales activity (approximately \$3.0 million and \$5.6 million, respectively);

Net effect of acquisitions and divestitures (approximately \$2.0 million and \$4.4 million, respectively) completed after March 31, 2007;

Higher employee incentives related to improved operating performance (approximately \$0.7 million and \$2.7 million, respectively), and;

Currency translation effects (approximately \$1.9 million and \$3.4 million, respectively).

These increases were somewhat offset by lower employee benefit costs (especially group medical expenses) for the second quarter and year-to-date periods ended June 28, 2008, as compared with the same periods in 2007 (approximately \$1.3 million and \$2.7 million, respectively) and decreased deferred compensation expense related to the investment performance of the marketable securities underlying the deferred compensation plan (\$1.0 million for the twenty-six week period ended June 28, 2008). We recorded the investment losses in these securities as "Other Expense" in our condensed consolidated statement of operations for the twenty-six week period ended June 28, 2008. The impact of these investments on the condensed consolidated statement of operations for the thirteen weeks and twenty-six weeks ended June 28, 2008 and the thirteen and twenty-six weeks ended June 30, 2007 were not significant.

All reportable segments contributed to the improved operating income in 2008 for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007. The most significant operating income improvements were realized in the Irrigation and Coatings segments.

Net interest expense for the thirteen and twenty-six weeks ended June 28, 2008 were comparable with the same periods in 2007, as the effect of higher average borrowing levels in 2008 on interest expense were largely offset by lower interest rates on our variable rate debt in 2008, as compared with 2007.

Edgar Filing: VALMONT INDUSTRIES INC - Form 10-Q

Our effective tax rate for the second quarter ended June 28, 2008 was slightly higher as compared with 2007, mainly due to slightly higher tax rates outside the United States. On a year-to-date basis, the effective income tax rate in 2008 was comparable with 2007.

Our cash flows provided by operations were \$49.5 million for the twenty-six weeks ended June 28, 2008, as compared with \$6.5 million of cash provided by operations for the same period in 2007. The higher operating cash flows in 2008 principally resulted from increased earnings in 2008 and a lower increase in working capital required by the increased net sales realized in 2008, as compared with 2007.

Acquisitions and Divestitures

In fiscal 2007 and 2008, we acquired the following businesses:

Tehomet Oy (Tehomet), a manufacturer of lighting structures located in Finland and Estonia that we acquired in April 2007;

Penn Summit Tubular LLC (Penn Summit), a manufacturer of steel utility and wireless communication structures located in Hazelton, Pennsylvania that we acquired in January 2008, and;

West Coast Engineering Group, Ltd. (West Coast), a manufacturer of steel lighting and wireless communication structures located in Canada and the U.S. that we acquired in February 2008.

We report Tehomet and West Coast as part of the Engineered Support Structures (ESS) segment and Penn Summit as part of the Utility Support Structures segment. In addition, we divested of certain operations that were included as part of our "Other" businesses. These operations included our tubing operation in Waverly, Nebraska, which was closed in late 2007 and our French machine tool accessory operation, which was sold to a third party in January 2008.

The aggregate net increases of our net sales associated with these events for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007 were approximately \$17.7 million and \$27.3 million, respectively. The operating income net increases for these periods over 2007 were approximately \$3.4 million and \$2.0 million, respectively.

Foreign Currency Translation

For the thirteen and twenty-six week periods ended June 28, 2008, we realized approximately \$12.5 million and \$21.5 million, respectively, of increased sales related to the financial statement translation of our international operations into U.S. dollars. These translation effects also resulted in an increase in operating income for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007 of approximately \$1.6 million and \$2.6 million, respectively.

As foreign currencies such as the Euro and the Brazilian real have strengthened in relation to the U.S. dollar in 2008, as compared with 2007, our sales denominated in those currencies translated to a higher amount of U.S. dollars.

Engineered Support Structures (ESS) segment

For the second quarter and year-to-date periods ended June 28, 2008, as compared with the same periods in 2007, the sales increases were due to the increased sales prices to recover higher steel costs, currency translation impacts (approximately \$10.2 million and \$17.2 million, respectively) and the effect of the Tehomet and West Coast acquisitions (approximately \$9.8 million and \$18.3 million, respectively). Unit volumes in 2008 were comparable with 2007 on a quarterly and year-to-date basis. On a regional basis, sales unit volume increases in North America were essentially offset by lower unit sales in China.

Edgar Filing: VALMONT INDUSTRIES INC - Form 10-Q

In North America, lighting and traffic structure sales in 2008 were higher than 2007, due to a combination of increased unit volume and sales price increases. In the transportation market channel, sales were higher in 2008, as compared with 2007, as highway spending funded through the U.S. and state programs was stronger than in 2007. Sales in the commercial market channel in 2008 were higher than 2007, due predominantly to sales price increases. Sales of lighting structures to electrical utilities in 2008 lagged 2007, due to the recent weakness in the residential housing market. In Europe, sales in local currency were higher in 2008, as compared with 2007 due mainly to sales price increases to recover higher steel costs and the Tehomet acquisition. Sales of lighting structures in China in 2008 were higher than 2007, on both a quarterly and year-to-date basis, mainly due to continued market expansion and increased sales efforts.

Sales of Specialty Structures products decreased in 2008 as compared with 2007, on both a quarterly and year-to-date basis. In North America, structure sales in the wireless communication market in 2008 improved over 2007, while weakness in wireless communication components and highway sign sales resulted in lower sales in those product lines in 2008, as compared with 2007. Sales of wireless communication poles in China were down sharply in 2008 as compared with 2007, both on a quarterly and year-to-date basis. We believe a major contributing factor to the decrease in wireless communication structures sales was reorganization of the Chinese wireless communication industry, which is causing some delays in ordering patterns for structures.

The increases in operating income of the ESS segment for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007, were mainly due to:

Improvement in the North American specialty structures operations (approximately \$1.6 million and \$4.4 million, respectively), including the impact of actions taken in late 2007 to consolidate sign structure manufacturing operations, and;

The West Coast and Tehomet acquisitions (approximately \$1.8 million and \$1.4 million, respectively).

These improvements were offset somewhat by lower factory productivity in our North American lighting structures operations. International ESS operating income was comparable to 2007, as currency translation effects (approximately \$1.1 million and \$1.7 million, respectively) offset increased market development expenses and lower operating income in China, which included start-up losses related to our third plant in China. This manufacturing facility will begin production in the third quarter of 2008.

The increases in SG&A expense for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007, were mainly due to:

Increased salary and employee benefit costs (approximately \$1.6 million and \$2.6 million, respectively);

West Coast and Tehomet acquisitions (approximately \$1.5 million and \$2.7 million, respectively), and;

Foreign currency translation (approximately \$1.7 million and \$3.1 million, respectively).

Utility Support Structures segment

The sales increases in the Utility Support Structures segment for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods of 2007, were due to the acquisition of Penn Summit and sales price increases implemented to recover higher steel costs. Unit sales of transmission, substation and distribution pole structures to utility customers in 2008 was slightly lower than 2007, both on a quarterly and year-to-date basis, mainly due to customers delaying shipments to future dates. These delays typically relate to factors such as weather or construction delays. Order flow continues to be strong, as sales backlogs were at record levels as of June 28, 2008. The increase in demand for

utility structures was the result of continued investment by utility companies to improve the electrical transmission and distribution infrastructure in the United States. Gross profit increased in the second quarter of 2008, as compared with 2007 due to improved factory operating performance this year. The increases in SG&A spending for the thirteen and twenty six weeks ended June 28, 2008, as compared with the same periods in 2007, were primarily due to the Penn Summit acquisition (\$2.1 million and \$4.2 million, respectively) and increased salary, benefits and incentive expenses related to the higher sales activity and operating profit levels (approximately \$0.7 million and \$1.1 million, respectively).

Coatings segment

Coatings segment sales for the thirteen and twenty-six week periods ended June 28, 2008 were above 2007 levels, mainly due to increased demand for galvanizing services, offset to an extent by lower selling prices. In our galvanizing operations, pounds of steel galvanized (including intersegment sales) in 2007 for the thirteen and twenty-six weeks ended June 28, 2008 increased over the same periods in 2007 by approximately 7% and 10%, respectively. The volume increases were due to stronger industrial economic conditions in our market areas, including increased galvanizing services provided to our other operations in the U.S. The increases in operating income for the thirteen and twenty-six weeks ended June 28, 2008 as compared with the same periods in 2007 were principally due to lower zinc costs and improvement in our utilization of zinc. The main reason for the SG&A spending increase for the second quarter and year-to-date periods ended June 28, 2008, as compared with the same periods in 2007, was higher incentive expenses associated with increased operating profit this year. In the second quarter of 2007, we recorded a valuation charge of approximately \$0.7 million related to the disposal of manufacturing equipment in our anodizing operation.

Irrigation segment

For the thirteen and twenty-six weeks ended June 28, 2008 the sales increases in the Irrigation segment, as compared with the same periods in 2007, were due to a combination of higher sales volumes and increased selling prices in light of higher steel costs. In global markets, generally higher farm commodity prices and net farm income in 2008 and 2007 resulted in improved demand for irrigation machines. Sales demand in international markets was stronger in 2008, as compared with 2007, in most geographic regions, with the most significant sales increases taking place in Brazil, South Africa, the Middle East and the Pacific Rim. In North America, demand for irrigation machines and service parts in the second quarter of 2008 was enhanced by a pattern of severe storms in the U.S. Sales unit volumes for the thirteen and twenty-six week periods ended June 28, 2008 were approximately 27% and 29% higher, respectively, as compared with the same periods in 2007.

The increase in operating income for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007, was due to improved sales volumes, sales price increases to offset steel cost increases and operating leverage realized through control of SG&A spending. The increases in SG&A spending for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007 were mainly attributable to increased employee incentives associated with improved operational performance (\$0.3 million and \$1.3 million, respectively) and increased salary and benefit expense for additional administrative personnel (\$1.3 million and \$2.0 million, respectively).

Other

This mainly includes our tubing, industrial fastener and French machine tool accessories operations. The decreases in sales for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007, was due to the sale of our machine tool accessory operation in early 2008 and the closure of a small tubing facility in late 2007. The impact of these actions on our operating income was not significant.

Net corporate expense

The decreases in net corporate expenses for the thirteen and twenty-six weeks ended June 28, 2008, as compared with the same periods in 2007, were due to:

decreased employee group insurance costs in 2008 (\$1.3 million and \$2.4 million, respectively), and;

lower deferred compensation liabilities related to investment losses in the assets in the deferred compensation plan of approximately \$1.0 million for the twenty-six week period ended June 28, 2008.

These decreases more than offset higher employee incentives due to improved earnings and common stock price (which is used to value certain long-term management incentives) this year (approximately \$0.5 million and \$1.8 million, respectively).

Liquidity and Capital Resources

Cash Flows

Working Capital and Operating Cash Flows Net working capital was \$321.1 million at June 28, 2008, as compared with \$350.6 million at December 29, 2007. The ratio of current assets to current liabilities was 1.90:1 at June 28, 2008, as compared with 2.29:1 at December 29, 2007. The decrease in net working capital and the current ratio mainly relates to the classification of the \$42.2 million of borrowings under our revolving credit facility, which expires in May 2009, as a current liability at June 28, 2008. The increases in accounts receivable and inventories were associated with higher sales activity in 2008, as compared with 2007. Cash flow provided by operations was \$49.5 million for the twenty-six week period ended June 28, 2008, as compared with \$6.5 million provided by operations for the same period in 2007. The increase in operating cash flows in 2008, as compared with 2007, related primarily to increased net earnings and a lower increase in working capital in 2008, as compared with 2007. In 2008 and 2007, we distributed \$589 and \$9,186, respectively, from our non-qualified deferred compensation plan to participants under the transition rules of section 409A of the Internal Revenue Code.

Investing Cash Flows Capital spending during the twenty-six weeks ended June 28, 2008 was \$25.4 million, as compared with \$27.0 million for the same period in 2007. Our capital spending in 2008 and 2007 included additional manufacturing capacity for ESS, Utility Support Structures and Irrigation segments. We expect that our capital spending for the 2008 fiscal year will be between \$60 million and \$70 million.

Investing cash flows in 2008 also reflected the aggregate of \$90.2 million of cash paid for the West Coast and Penn Summit acquisitions and \$0.9 million that we paid for the remaining shares of a North American irrigation dealership in the second quarter of 2008. In 2007, we spent approximately \$12.3 million (net of cash acquired) to acquire 70% of the outstanding stock of Tehomet Oy, a Finnish manufacturer of lighting structures. Subsequent to June 28, 2008, we acquired substantially all the operating assets of Site Pro 1, Inc. (Site Pro), a wireless communication components company headquartered in Long Island, New York. The purchase price for the assets was \$22.0 million and was financed through borrowings against our revolving credit agreement. Site Pro is managed as part of the ESS segment.

The cash used to pay the distributions from our non-qualified deferred compensation plan was generated from the liquidation of investments, which was classified as "Proceeds from sale of assets" in the statement of cash flows for the twenty-six week periods ended June 28, 2008 and June 30, 2007, respectively.

Edgar Filing: VALMONT INDUSTRIES INC - Form 10-Q

Financing Cash Flows Our total interest-bearing debt increased from \$238.3 million as of December 29, 2007 to \$259.6 million as of June 28, 2008, which was reported as an increase in financing cash flows for the twenty-six weeks ended June 28, 2008. The main reasons for the increase in borrowings relate to the debt that we incurred to fund the West Coast and Penn Summit acquisitions (approximately \$39 million) and approximately \$6.4 million of debt that we assumed as part of the West Coast and Penn Summit acquisitions. We funded the Penn Summit acquisition in part through approximately \$50 million of our cash balances.

Sources of Financing and Capital

We have historically funded our growth, capital spending and acquisitions through a combination of operating cash flows and debt financing. We have an internal long-term objective to maintain long-term debt as a percent of invested capital at or below 40%. At June 28, 2008, our long-term debt to invested capital ratio was 25.9%, as compared with 27.3% at December 29, 2007. We may exceed our internal objective of 40% from time to time in order to take advantage of opportunities to grow and improve our businesses, such as the Newmark, Whatley and Sigma acquisitions that were completed in 2004. Subject to our level of acquisition activity and steel industry operating conditions (which could affect the levels of inventory we need to fulfill customer commitments), we plan to maintain this ratio below 40% in 2008.

Our debt financing at June 28, 2008 consisted primarily of long-term debt. We also maintain certain short-term bank lines of credit totaling \$32.7 million, \$22.3 million which was unused at June 28, 2008. Our long-term debt principally consists of:

\$150 million of senior subordinated notes that bear interest at 6.875% per annum and are due in May 2014. We are allowed to repurchase the notes starting in May 2009 at specified prepayment premiums. These notes are guaranteed by certain of our U.S. subsidiaries.

\$150 million revolving credit agreement with a group of banks that accrues interest at our option at (a) the higher of the prime lending rate and the Federal Funds rate plus 50 basis points or (b) an interest rate spread over the LIBOR of 62.5 to 137.5 basis points (inclusive of facility fees), depending on our ratio of debt to earnings before taxes, interest, depreciation and amortization (EBITDA). At June 28, 2008, we had outstanding balances under the revolving credit agreement totaling \$42.2 million. The revolving credit agreement has a termination date of May 4, 2009 and contains certain financial covenants that limit our additional borrowing capability under the agreement. At June 28, 2008, we had the ability to borrow an additional \$98.8 million under this facility. The weighted average effective interest rate on borrowings outstanding under this agreement at June 28, 2008 was 3.78% per annum. We are in the process of renewing our revolving credit agreement and we expect to complete negotiations for a new revolving credit agreement before May 2009.

Term loan with a group of banks that accrues interest at our option at (a) the higher of the prime lending rate and the Federal Funds rate plus 50 basis points or (b) LIBOR plus a spread of 62.5 to 137.5 basis points, depending on our debt to EBITDA ratio and had an outstanding balance of \$28.3 million at June 28, 2008. This loan requires quarterly principal payments through May 2009. The future principal payments due in 2008 and 2009 in millions are \$16.4 and \$11.9, respectively. The effective interest rate on this loan was 3.1875% per annum at June 28, 2008.

These debt agreements include certain covenants that require us to maintain certain coverage ratios and may limit us with respect to certain business activities. At June 28, 2008, we were in compliance with all covenants related to our debt agreements.

Financial Obligations and Financial Commitments

There have been no material changes to our financial obligations and financial commitments as described on page 37 in our Form 10-K for the year ended December 29, 2007.

Off Balance Sheet Arrangements

There have been no changes in our off balance sheet arrangements as described on page 37 in our Form 10-K for the fiscal year ended December 29, 2007.

Critical Accounting Policies

There have been no changes in the Company's critical accounting policies during the quarter ended June 28, 2008. These policies are described on pages 39-42 in our Form 10-K for fiscal year ended December 29, 2007.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

There were no material changes in the company's market risk during the quarter ended June 28, 2008. For additional information, refer to the section "Risk Management" on pages 38-39 in our Form 10-K for the fiscal year ended December 29, 2007.

Item 4. Controls and Procedures

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports the Company files or submits under the Securities Exchange Act of 1934 is (1) accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures and (2) recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms.

There were no changes in the Company's internal controls over financial reporting during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

Period	(a) Total Number of Shares Purchased	(b) Average Price paid per share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
March 30, 2008 to April 26, 2008	25,297	\$ 104.72		
April 27, 2008 to May 31, 2008	3,369	101.62		
June 1, 2008 to June 28, 2008				
Total	28,666	\$ 104.36		

During the second quarter, the only shares reflected above were those delivered to the Company by employees as part of stock option exercises, either to cover the purchase price of the option or the related taxes payable by the employee as part of the option exercise. The price paid per share was the market price at the date of exercise.

Item 5. Other Information

On April 28, 2008, the Company's Board of Directors declared a quarterly cash dividend on common stock of 13 cents per share, which was paid on July 15, 2008, to stockholders of record June 27, 2008. The indicated annual dividend rate is 52 cents per share.

Item 6. Exhibits
