Special Cautionary Notice Regarding Forward Looking Information

Certain matters discussed in this report, excluding historical information, include forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created by these sections. Although the International Bancshares Corporation (the Company) believes such forward-looking statements are based on reasonable assumptions, no assurance can be given that every objective will be reached. The words estimate, expect, intend, believe and project, as well as other words or expressions of a similar meaning are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this report. Such statements are based on current expectations, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors.

Risk factors that could cause actual results to differ materially from any results that are projected, forecasted, estimated or budgeted by the Company in forward-looking statements include, among others, the following possibilities:

- Local, regional, national and international economic business conditions and the impact they may have on the Company, the Company's customers, and such customers' ability to transact profitable business with the Company, including the ability of its borrowers to repay their loans according to their terms or a change in the value of the related collateral.
- Volatility and disruption in national and international financial markets.
- Government intervention in the U.S. financial system.
- Changes in consumer spending, borrowings and savings habits.
- Changes in interest rates and market prices, which could reduce the Company's net interest margins, asset valuations and expense expectations.
- Changes in the capital markets utilized by the Company and its subsidiaries, including changes in the interest rate environment that may reduce margins.
- Changes in state and/or federal laws and regulations to which the Company and its subsidiaries, as well as their customers, competitors and potential competitors, are subject, including, without limitation, changes in the accounting, tax and regulatory treatment of trust preferred securities, as well as changes in banking, tax, securities, insurance and employment laws and regulations.
- Changes in U.S. - Mexico trade, including, without limitation, reductions in border crossings and commerce resulting from the Homeland Security Programs called US-VISIT, which is derived from Section 110 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.
- The loss of senior management or operating personnel.
- Increased competition from both within and outside the banking industry.
- The timing, impact and other uncertainties of the Company's potential future acquisitions including the Company's ability to identify suitable potential future acquisition candidates, the success or failure in the integration of their operations and the Company's ability to maintain its current branch network and to enter new markets successfully and capitalize on growth opportunities.
- Changes in the Company's ability to pay dividends on its Preferred Stock or Common Stock.
- The effects of the proceedings pending with the Internal Revenue Service regarding the Company's lease financing transactions.
- Additions to the Company's loan loss allowance as a result of changes in local, national or international conditions which adversely affect the Company's customers.
- Greater than expected costs or difficulties related to the development and integration of new products and lines of business.
- Changes in the soundness of other financial institutions with which the Company interacts.
- Political instability in the United States and Mexico.

Table of Contents

- Technological changes.
- Acts of war or terrorism.
- Natural disasters.
- Reduced earnings resulting from the write down of the carrying value of securities held in our securities available-for-sale portfolio following a determination that the securities are other-than-temporarily impaired.
- The effect of changes in accounting policies and practices as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standards setters.
- The Company's success at managing the risks involved in the foregoing items.

Forward-looking statements speak only as of the date on which such statements are made. It is not possible to foresee or identify all such factors. The Company makes no commitment to update any forward-looking statement, or to disclose any facts, events or circumstances after the date hereof that may affect the accuracy of any forward-looking statement, unless required by law.

Recent Developments

On December 23, 2008, as part of the Capital Purchase Program (the "CPP") established by the United States Department of the Treasury (the "Treasury") under the Emergency Economic Stabilization Act (the "EESA"), the Company entered into a Letter Agreement incorporating an attached Securities Purchase Agreement - Standard Terms (collectively, the "Securities Purchase Agreement"), with the Treasury. The closing of the transactions contemplated in the Securities Purchase Agreement occurred on December 23, 2008.

Under the Securities Purchase Agreement, the Company agreed to sell 216,000 shares of the Company's fixed-rate cumulative perpetual preferred stock, Series A, par value \$.01 per share (the "Senior Preferred Stock"), having a liquidation preference of \$1,000 per share, for a total price of \$216,000,000. The Senior Preferred Stock will pay dividends at the rate of 5% per year for the first five years and 9% per year thereafter. The Senior Preferred Stock has no maturity date and ranks senior to the Company's common stock with respect to the payment of dividends and distributions and amounts payable upon liquidation, dissolution and winding up of the Company. The Senior Preferred Stock generally is non-voting except for class voting rights on matters that would adversely affect the rights of the holders of the Senior Preferred Stock.

Pursuant to the Securities Purchase Agreement, the Company may redeem the Senior Preferred Stock in whole or in part at par after three years from the date of the investment. Prior to such date, the Company may redeem the Senior Preferred Stock in whole or in part, at par if (i) the Company has raised aggregate gross proceeds in one or more Qualified Equity Offerings (as defined in the Securities Purchase Agreement) in excess of \$54 million and (ii) the aggregate redemption is subject to the consent of the Federal Reserve Bank of Dallas, which is the Company's primary Federal banking regulator.

In conjunction with the purchase of the Senior Preferred Stock, the Treasury received a warrant (the "Warrant") to purchase 1,326,238 shares of the Company's common stock (the "Warrant Shares") at \$24.43 per share, which would represent an aggregate common stock investment in the Company on exercise of the warrant in full equal to 15% of the Senior Preferred Stock investment. The term of the Warrant is ten years. The per share exercise price and the number of shares issuable upon exercise of the Warrant is subject to adjustment pursuant to customary anti-dilutive provisions in certain events, such as stock splits, certain distributions of securities or other assets to holders of the Company's common stock, and upon certain issuances of the Company's common stock at or below specified prices relative to the initial price per share exercise price of the Warrant. The Warrant is immediately exercisable. The number of shares issuable upon exercise of the Warrant is also subject to reduction in certain limited events that involve the Company conducting Qualified Equity Offerings on or prior to December 31, 2009. Both the Senior Preferred Stock and Warrant will be accounted for as components of Tier 1 capital.

The Company's intention is to utilize the extra capital provided by the TARP funds to support its efforts to prudently and transparently provide lending and liquidity.

Table of Contents

Item 1. Business

General

The Company is a financial holding company with its principal corporate offices in Laredo, Texas. Four bank subsidiaries provide commercial and retail banking services through 265 main banking and branch facilities located in 101 communities in South, Central and Southeast Texas and the State of Oklahoma. The Company was originally incorporated under the General Corporation Law of the State of Delaware in 1979. Effective June 7, 1995, the Company's state of incorporation was changed from Delaware to Texas. The Company was organized for the purpose of operating as a bank holding company within the meaning of the Bank Holding Company Act of 1956, as amended (the "BHCA"), and as such, is subject to supervision and regulation by the Board of Governors of the Federal Reserve System (the "FRB"). As a registered bank holding company, the Company may own one or more banks and may engage directly, or through subsidiary corporations, in those activities closely related to banking which are specifically permitted under the BHCA and by the FRB. Effective March 13, 2000, the Company became certified as a financial holding company. As a financial holding company, the Company may engage in a broad list of financial and non-financial activities. The Company's principal assets at December 31, 2008 consisted of all the outstanding capital stock of four Texas state banking associations (the "Banks" or "bank subsidiaries"). All of the Company's bank subsidiaries are members of the Federal Deposit Insurance Corporation (the "FDIC").

The bank subsidiaries are in the business of gathering funds from various sources and investing these funds in order to earn a return. Funds gathering primarily takes the form of accepting demand and time deposits from individuals, partnerships, corporations and public entities. Investments principally are made in loans to various individuals and entities as well as in debt securities of the U.S. Government and various other entities whose payments are guaranteed by the U.S. Government. Historically, the bank subsidiaries have primarily focused on providing commercial banking services to small and medium sized businesses located in their trade areas and international banking services. In recent years, the bank subsidiaries have also emphasized consumer and retail banking, including mortgage lending, as well as branches situated in retail locations and shopping malls.

The Company's philosophy focuses on customer service as represented by its motto, "We Do More." The Banks maintain a strong commitment to their local communities by, among other things, appointing selected members of the communities in which the Banks' branches are located to local advisory boards (the "local boards"). The local boards direct the operations of the branches, with the supervision of the lead Bank's board of directors, and assist in introducing prospective customers to the Banks as well as developing or modifying products and services to meet customer needs. The Banks function largely on a decentralized basis and the Company believes that such decentralized structure enhances the commitment of the Banks to the communities in which their branches are located. In contrast to many of their principal competitors, the credit decisions of the Banks are made locally and promptly. The Company believes that the knowledge and expertise afforded by the local boards are key components to sound credit decisions. Expense control is an essential element in the Company's profitability. The Company has centralized virtually all of the Banks' back office support and investment functions in order to achieve consistency and cost efficiencies in the delivery of products and services.

On July 28, 1980, the Company acquired all of the outstanding shares of its predecessor, International Bank of Commerce ("IBC"), which is today the flagship bank of the Company, representing the majority of the Company's banking assets. IBC was chartered under the banking laws of Texas in 1966 and has its principal place of business at 1200 San Bernardo Avenue, Laredo, Webb County, Texas. It is a wholly-owned subsidiary of the Company. Since the acquisition of the flagship bank in 1980, the Company has formed three banks: (i) Commerce Bank, a Texas state banking association which commenced operations in 1982, located in Laredo, Texas ("Commerce Bank"); (ii) International Bank of Commerce, Brownsville, a Texas state banking association which commenced operations in 1984, located in Brownsville, Texas ("IBC-Brownsville"); and (iii) International Bank of Commerce,

Table of Contents

Zapata, a Texas state banking association which commenced operations in 1984, located in Zapata, Texas (IBC-Zapata).

During the last several years, the Company has acquired various financial institutions and banking assets in its trade area and expanded its trade area to the State of Oklahoma. The community-focus of the subsidiary banks and the involvement of the local boards has resulted in the Company becoming aware of acquisition possibilities in the ordinary course of its business and in many instances before other potential purchasers. The Company's decision to pursue an acquisition is based on a multitude of factors, including the ability to efficiently assimilate the operations and assets of the acquired entity, the cost efficiencies to be attained and the growth potential of the market.

On December 4, 2008, the Company completed its acquisition of certain rights to InsCorp, Inc. insurance contracts for \$1,074,000. InsCorp, Inc. is a multi-line independently owned insurance agency, which insures oil operators, merchants and industrial businesses.

On March 16, 2007, the Company completed its acquisition of Southwest First Community, Inc. (Southwest Community), a bank holding company with approximately \$133 million in assets that owned State Bank & Trust in Beeville, Texas and Commercial State Bank in Sinton, Texas. The transaction was pursuant to the Agreement and Plan of Merger dated December 1, 2006 (the Merger Agreement). The Company paid consideration totaling \$23.5 million in cash.

The Company also has five direct non-banking subsidiaries. They are (i) IBC Life Insurance Company, a Texas chartered subsidiary which reinsures a small percentage of credit life and accident and health risks related to loans made by bank subsidiaries, (ii) IBC Trading Company, an export trading company which is currently inactive, (iii) IBC Subsidiary Corporation, a second-tier bank holding company incorporated in the State of Delaware, (iv) IBC Capital Corporation, a company incorporated in the State of Delaware for the purpose of holding certain investments of the Company and (v) Premier Tierra Holdings, Inc., a liquidating subsidiary formed under the laws of the State of Texas. The Company owns a fifty percent interest in Gulfstar Group I, Ltd. and related entities, which are involved in investment banking activities. The Company also owns a controlling interest in three merchant banking entities.

Table of Contents

Website Access to Reports

The Company makes its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, filed or furnished pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 available free of charge on or through the Company's internet website, www.ibc.com, as soon as reasonably practicable after such materials are electronically filed with, or furnished to, the Securities and Exchange Commission (SEC). Additionally, the Company has posted on its website a code of ethics that applies to its directors and executive officers (including the Company's chief executive officer and financial officer). The Company's website also includes the charter for its Audit Committee. The Company's website will also include the Proxy Statement relating to the Company's 2009 Annual Meeting of Shareholders upon filing of the definitive Proxy Statement with the SEC.

Services and Employees

The Company, through its bank subsidiaries, IBC, Commerce Bank, IBC-Zapata and IBC-Brownsville, is engaged in the business of banking, including the acceptance of checking and savings deposits and the making of commercial, real estate, personal, home improvement, automobile and other installment and term loans. Certain of the bank subsidiaries are very active in facilitating international trade along the United States border with Mexico and elsewhere. The international banking business of the Company includes providing letters of credit, making commercial and industrial loans, and providing a nominal amount of currency exchange. Each bank subsidiary also offers other related services, such as credit cards, travelers' checks, safety deposit, collection, notary public, escrow, drive-up and walk-up facilities and other customary banking services. Additionally, each bank subsidiary makes available certain securities products through third party providers. The bank subsidiaries also make banking services available during traditional and nontraditional banking hours through their network of over 420 automated teller machines, and through their 265 branches situated in retail locations and shopping malls. Additionally, IBC introduced IBC Bank Online, an Internet banking product, in order to provide customers online access to banking information and services 24 hours a day.

The Company owns U.S. service mark registrations for INTERNATIONAL BANK OF COMMERCE, WALL STREET INTERNATIONAL, INTERNATIONAL BANK OF COMMERCE CENTRE, OVERDRAFT COURTESY, IBC, IBC CONNECTION, IBC ELITE, IBC ELITE ADVANTAGE, IBC BANK, IBC OVERDRAFT COURTESY, BIZ RITE CHECKING, GOT YOU COVERED, OVERDRAFT COURTESY, GOT YOU COVERED, FREEBEE and a design mark depicting a bee character and IT'S A BRIGHTER CHRISTMAS as well as a design mark depicting the United States and Mexico, a design mark depicting IBC with the United States and Mexico, and a design mark depicting WALL STREET INTERNATIONAL. In addition, the Company owns Texas service mark registrations for RITE CHECK, THE CLUB, WALL STREET INTERNATIONAL, INTERNATIONAL BANK OF COMMERCE, WE DO MORE, and design marks depicting CHECK N SAVE and WALL STREET INTERNATIONAL, as well as a design mark depicting the United States and Mexico. The Company also owns Oklahoma service mark registrations for CHECK N SAVE, RITE CHECKING, THE CLUB, and WE DO MORE. Also, IBC owns certain pending applications for federal registrations of other proprietary service marks and is regularly investigating the availability of service mark registrations related to certain proprietary products.

No material portion of the business of the Company may be deemed seasonal and the deposit and loan base of the Company's bank subsidiaries is diverse in nature. There has been no material effect upon the Company's capital expenditures, earnings or competitive position as a result of Federal, State or local environmental regulation.

As of December 31, 2008, the Company and its subsidiaries employed approximately 3,053 persons full-time and 779 persons part-time.

Table of Contents

Competition

The Company is the third largest independent Texas bank holding company. The primary market area of the Company is South, Central and Southeast Texas, an area bordered on the east by the Galveston area, to the northwest by Roundrock, to the southwest by Del Rio and to the southeast by Brownsville, as well as the State of Oklahoma. The Company has increased its market share in its primary market area over the last several years through strategic acquisitions. The Company, through its bank subsidiaries, competes for deposits and loans with other commercial banks, savings and loan associations, credit unions and non-bank entities, which non-bank entities serve as an alternative to traditional financial institutions and are considered to be formidable competitors. The percentage of bank-related services being provided by non-bank entities has increased dramatically during the last several years.

The Company and its bank subsidiaries do a large amount of business for customers domiciled in Mexico, with an emphasis in Northern Mexico. Deposits from persons and entities domiciled in Mexico comprise a large and stable portion of the deposit base of the Company's bank subsidiaries. Such deposits comprised approximately 30% of the bank subsidiaries' total deposits for the three years ended December 31, 2008, 2007 and 2006.

Under the Gramm-Leach-Bliley Act (GLBA), effective March 11, 2000, banks, securities firms and insurance companies may affiliate under an entity known as a financial holding company which may then serve its customers' varied financial needs through a single corporate structure. GLBA has significantly changed the competitive environment in which the Company and its subsidiaries conduct business. The financial services industry is also likely to become even more competitive as further technological advances enable more companies to provide financial services. These technological advances may diminish the importance of depository institutions and other financial intermediaries in the transfer of funds between parties.

Supervision and Regulation

GENERAL-THE COMPANY. In addition to the generally applicable state and Federal laws governing businesses and employers, the Company and its bank subsidiaries are further extensively regulated by special Federal and state laws governing financial institutions. These laws comprehensively regulate the operations of the Company's bank subsidiaries and include, among other matters, requirements to maintain reserves against deposits; restrictions on the nature and amount of loans that may be made and the interest that may be charged thereon; restrictions on the amounts, terms and conditions of loans to directors, officers, large shareholders and their affiliates; restrictions related to investments in activities other than banking; and minimum capital requirements. The descriptions are qualified in their entirety by reference to the full text of the applicable statutes, regulations and policies. With few exceptions, state and Federal banking laws have as their principal objective either the maintenance of the safety and soundness of the Federal deposit insurance system or the protection of consumers, rather than the specific protection of shareholders of the Company. Further, the earnings of the Company are affected by the fiscal and monetary policies of the Federal Reserve System, which regulates the national money supply in order to mitigate recessionary and inflationary pressures. These monetary policies influence to a significant extent the overall growth of bank loans, investments and deposits and the interest rates charged on loans or paid on time and savings deposits. The nature of future monetary policies and the effect of such policies on the future earnings and business of the Company cannot be predicted.

Table of Contents

RECENT LEGISLATION. On October 3, 2008, the President signed into law the Emergency Economic Stabilization Act of 2008 or (EESA), which, among other measures, authorized the Secretary of the Treasury to establish the Troubled Asset Relief Program (TARP). Pursuant to TARP, the U.S. Treasury has the authority to, among other things, purchase up to \$700 billion of mortgages, mortgage-backed securities and certain other financial instruments from financial institutions for the purpose of stabilizing and providing liquidity to the U.S. financial markets. In addition, under TARP, the Treasury created a capital purchase program (CPP), pursuant to which it provides access to capital that will serve as Tier 1 capital to financial institutions through a standardized program to acquire preferred stock (accompanied by warrants) from eligible financial institutions. On December 23, 2008, the Company sold \$216 million of Series A Preferred Stock to the Treasury under the CPP. On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act of 2009 (the ARRA). ARRA is intended to provide a stimulus to the U.S. economy in the wake of the economic downturn brought about by the subprime mortgage crisis and the resulting credit crunch. The bill includes federal tax cuts, expansion of unemployment benefits and other social welfare provisions, and domestic spending in education, healthcare, and infrastructure, including the energy structure. The new law also includes numerous non-economic recovery related items, including a limitation on executive compensation of certain of the most highly-compensated employees and executive officers of financial institutions, such as the Company, that participated in the TARP Capital Purchase Program. The restrictions in the new law, which will be further described in rules to be adopted by the Commission and standards to be established by the Treasury Department, include the following:

- Limits on compensation incentives for risk taking by senior executive officers.
- Requirement of recovery of any compensation paid based on inaccurate financial information.
- Prohibition on Golden Parachute Payments.
- Prohibition on compensation plans that would encourage manipulation of reported earnings to enhance the compensation of employees.
- Publicly registered CPP recipients must establish a board compensation committee comprised entirely of independent directors, for the purpose of reviewing employee compensation plans.
- Prohibition on bonus, retention award, or incentive compensation, except for limited payments of long term restricted stock.
- Limitation on luxury expenditures.
- CPP recipients are required to permit a separate non-binding shareholder vote to approve the compensation of executives, as disclosed pursuant to the SEC's compensation disclosure rules.
- The chief executive officer and chief financial officer of each CPP recipient will be required to provide a written certification of compliance with these standards to the SEC.

Pursuant to the ARRA, subject to consultation with the appropriate Federal banking agency, the Treasury Secretary shall permit a CPP participant to repay the CPP funds that they received without regard to whether the financial institution has replaced such funds from any other source, and when such CPP funds are repaid, the Treasury Secretary shall liquidate warrants associated with the CPP funds at the current market price. The Treasury Secretary has not, yet, promulgated regulations to implement this section.

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-K

There can be no assurance as to the actual impact that EESA and ARRA and such related measures undertaken to alleviate the credit crisis will have generally on the financial markets, including the extreme levels of volatility currently being experienced. The failure of such measures to help stabilize the financial markets and a continuation or worsening of current financial market conditions could materially and adversely affect our business, financial condition, results of operations, access to credit or the trading price of our common stock.

FRB APPROVALS. The Company is a registered bank holding company within the meaning of the BHCA, and is subject to supervision by the FRB and to a certain extent the Texas Department of Banking (the "DOB"). The Company is required to file with the FRB annual reports and other information regarding the business operations of itself and its subsidiaries. It is also subject to examination by the FRB. Under the BHCA, a bank holding company is, with limited exceptions, prohibited from acquiring direct or indirect ownership or control of any voting stock of any company which is not a bank or bank holding company, and must engage only in the business of banking, managing, controlling banks, and furnishing services to or performing services for its subsidiary banks. One of the exceptions to this prohibition is the ownership of shares of any company provided such shares do not constitute more than 5% of the outstanding voting shares of the company and so long as the FRB does not disapprove such ownership. Another exception to this prohibition is the ownership of shares of a company the activities of which the FRB has specifically determined to be so closely related to banking, managing or controlling banks as to be a proper incident thereto.

The BHCA and the Change in Bank Control Act of 1978 require that, depending on the circumstances, either FRB approval must be obtained or notice must be furnished to the FRB and not disapproved prior to any person or company acquiring control of a bank holding company, such as the Company, subject to certain exceptions for certain transactions. Control is conclusively presumed to exist if an individual or company acquires 25% or more of any class of voting securities of the bank holding company. Control is rebuttably presumed to exist if a person acquires 10% or more but less than 25% of any class of voting securities where the bank holding company, such as the Company, has registered Securities under Section 12 of the Securities Exchange Act of 1934 (the "Exchange Act").

As a bank holding company, the Company is required to obtain approval prior to merging or consolidating with any other bank holding company, acquiring all or substantially all of the assets of any bank or acquiring ownership or control of shares of a bank or bank holding company if, after the acquisition, the Company would directly or indirectly own or control 5% or more of the voting shares of such bank or bank holding company.

THE USA PATRIOT ACT. On October 26, 2001, the President signed into law a comprehensive anti-terrorism legislation entitled Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism (USA PATRIOT) Act of 2001 (the "Act"). Title III of the Act constitutes the USA PATRIOT ACT. The USA PATRIOT ACT and the regulations promulgated thereunder substantially expand and change the responsibilities of U.S. financial institutions with respect to countering money laundering and terrorist activities. The implementing regulations impose obligations on financial institutions to maintain appropriate policies, procedures and controls to detect, prevent and report money laundering and terrorist financing and to verify the identity of their customers. Also, the Act requires the bank regulatory agencies to consider the

Table of Contents

record of a bank or bank holding company in combating money laundering activities in their evaluation of bank and bank holding company merger or acquisition transactions. In recent years, money laundering and the Bank Secrecy Act compliance emerged as bank regulatory enforcement priorities. The Company has a program in place to monitor and enforce its policies on money laundering, corruption and bribery as well as its policies on prohibiting the use of Company assets to finance or otherwise aid alleged terrorist groups. Failure of a financial institution to maintain and implement adequate programs to combat money laundering and terrorist financing, or to comply with all the relevant laws or regulations, could have serious legal and reputational consequences for the institution.

OFFICE OF FOREIGN ASSETS CONTROL REGULATION. The United States has imposed economic sanctions that affect transactions with designated foreign countries, nationals and others. These are typically known as the OFAC rules based on their administration by the U.S. Treasury Department Office of Foreign Assets Control (OFAC). The OFAC administered sanctions take many forms, including without limitation, restrictions on trade or investment and the blocking of certain assets related to the designated foreign countries and nationals. Blocked assets, which may include bank deposits, cannot be paid out, withdrawn, set off or transferred in any manner without a license from OFAC. Failure to comply with the OFAC sanctions could have serious legal and reputational consequences.

FINANCIAL MODERNIZATION. On November 12, 1999, the Gramm-Leach-Bliley Act of 1999 (GLBA) was enacted. This comprehensive legislation eliminates the barriers to affiliations among banks, securities firms, insurance companies and other financial service providers. GLBA provides for a new type of financial holding company structure under which affiliations among these entities may occur. Under GLBA, a financial holding company may engage in a broad list of financial activities and any non-financial activity that the FRB determines is complementary to a financial activity and poses no substantial risk to the safety and soundness of depository institutions or the financial system. In addition, GLBA permits certain non-banking financial and financially related activities to be conducted by financial subsidiaries of banks.

Under GLBA, a bank holding company may become certified as a financial holding company by filing a declaration with the FRB, together with a certification that each of its subsidiary banks is well capitalized, is well managed, and has at least a satisfactory rating under the Community Reinvestment Act of 1977 (CRA). The Company has elected to become a financial holding company under GLBA and the election was made effective by the FRB as of March 13, 2000. During the second quarter of 2000, IBC established an insurance agency subsidiary which acquired two insurance agencies. As part of the Local Financial Corporation (LFIN) acquisition in 2004, the Company acquired a securities firm registered under the Exchange Act, IBC Investments, Inc. A financial holding company that has a securities affiliate registered under the Act or a qualified insurance affiliate may make permissible merchant banking investments. As of December 31, 2008, the Company has made 20 merchant banking investments.

In January 2001, the FRB and the Secretary of the Treasury promulgated final regulations governing the scope of permissible merchant banking investments. The investments that may be made under this new authority are substantially broader in scope than the investment activities otherwise permissible for bank holding companies, and are referred to as merchant banking investments in portfolio companies. Before making a merchant banking investment, a financial holding company must either be or have a securities affiliate registered under the Exchange Act or a qualified insurance affiliate. The merchant banking investments may be made by the financial holding company or any of its subsidiaries, other than a depository institution or subsidiary of a depository institution. The regulations place restrictions on the ability of a financial holding company to become involved in the routine management or operation of any of its portfolio companies. The regulation also generally limits the ownership period of merchant banking investments to no more than ten years.

Table of Contents

The FRB, the Office of the Comptroller of the Currency (the OCC), and the FDIC have adopted final rules governing the regulatory capital treatment of equity investments in non-financial companies held by banks, bank holding companies and financial holding companies. The final rule was effective April 1, 2002 and applies a graduated capital charge on covered equity investments which would increase as the proportion of such investments to Tier 1 Capital increases.

PREEMPTION. At the beginning of 2004, the OCC issued final rules clarifying when federal law overrides state law for national banks and their operating subsidiaries and confirming that only the OCC has the right to examine and take enforcement action against those institutions.

FINANCIAL PRIVACY. Additionally under the GLBA, federal banking regulators adopted rules that limit the ability of banks and other financial institutions to disclose non-public information about consumers to non-affiliated third parties. Pursuant to the rules, financial institutions must provide: (i) initial notices to customers about their privacy policies, describing the conditions under which they may disclose non-public personal information to non-affiliated third parties and affiliates; (ii) annual notices of their privacy policies to current customers; and (iii) a reasonable method for customers to opt out of disclosures to non-affiliated third parties. These privacy provisions affect how customer information is transmitted through diversified financial companies and conveyed to outside vendors. The Fair and Accurate Credit Transactions Act amended the Fair Credit Reporting Act and provided limitations on information sharing among affiliates. In order to share transaction and experience information, affiliates must provide consumers with a notice and opt out opportunity.

SARBANES-OXLEY ACT OF 2002. On July 30, 2002, President Bush signed into law the Sarbanes-Oxley Act of 2002. The Sarbanes-Oxley Act represents a comprehensive revision of laws affecting corporate governance, accounting obligations and corporate reporting. The Sarbanes-Oxley Act is applicable to all companies with equity securities registered or that file reports under the Securities Exchange Act of 1934. In particular, the Sarbanes-Oxley Act establishes: (i) new requirements for audit committees, including independence, expertise, and responsibilities; (ii) additional responsibilities regarding certification of financial statements by the Chief Executive Officer and Chief Financial Officer of the reporting company; (iii) new standards for auditors and regulation of audits; (iv) increased disclosure and reporting obligations for the reporting company and its directors and executive officers; and (v) new and increased civil and criminal penalties for violations of the securities laws.

NASDAQ LISTING STANDARDS. The Company is traded on the NASDAQ Stock Market. On November 4, 2003, the SEC approved the revised listing standards of the NASDAQ Stock Market. The new listing standards address disclosure requirements and standards relating to board independence and other corporate governance matters. The standards relating to board independence were slightly revised during 2007.

INTERSTATE BANKING. In 1994, Congress enacted the Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 (Interstate Banking Act), which rewrote federal law governing the interstate expansion of banks in the United States. Under the Interstate Banking Act, adequately capitalized, well managed bank holding companies with FRB approval may acquire banks located in any State in the United States, provided that the target bank meets the minimum age (up to a maximum of five years, which is the maximum Texas has adopted) established by the host State. Under the Interstate Banking Act, an anti-concentration limit will bar interstate acquisitions that would give a bank holding company control of more than ten percent (10%) of all deposits nationwide or thirty percent (30%) of any one State's deposits, or such higher or lower percentage established by the host State. The anti-concentration limit in Texas has been set at twenty percent (20%) of all federally insured deposits in Texas. As allowed by the Interstate Banking Act, the Company acquired LFIN, including its Oklahoma financial institution, during 2004.

Table of Contents

FRB ENFORCEMENT POWERS. The FRB has certain cease-and-desist and divestiture powers over bank holding companies and non-banking subsidiaries where their actions would constitute a serious threat to the safety, soundness or stability of a subsidiary bank. These powers may be exercised through the issuance of cease-and-desist orders or other actions. In the event a bank subsidiary experiences either a significant loan loss or rapid growth of loans or deposits, the Company may be compelled by the FRB to invest additional capital in the bank subsidiary. Further, the Company would be required to guaranty performance of the capital restoration plan of any undercapitalized bank subsidiary. The FRB is also empowered to assess civil money penalties against companies or individuals who violate the BHCA in amounts up to \$1,000,000 per day, to order termination of non-banking activities of non-banking subsidiaries of bank holding companies and to order termination of ownership and control of a non-banking subsidiary. Under certain circumstances the Texas Banking Commissioner may bring enforcement proceedings against a bank holding company in Texas.

COMPANY DIVIDENDS. The FRB's policy discourages the payment of dividends from borrowed funds and discourages payments that would affect capital adequacy. The FRB has issued policy statements which generally state that bank holding companies should serve as a source of financial and managerial strength to their bank subsidiaries, generally should not pay dividends except out of current earnings, and should not borrow to pay dividends if the bank holding company is experiencing capital or other financial problems.

CROSS-GUARANTEE PROVISIONS. The Financial Institutions Reform Recovery and Enforcement Act of 1989 (FIRREA) contains a cross-guarantee provision which generally makes commonly controlled insured depository institutions liable to the FDIC for any losses incurred in connection with the failure of a commonly controlled depository institution.

AUDIT REPORTS. Insured institutions with total assets of \$1 billion or more must submit annual audit reports prepared by independent auditors to federal and state regulators, as well as certain internal control assessments. In some instances, the audit report of the institution's holding company can be used to satisfy this requirement. Auditors must receive examination reports and examination related correspondence. In addition, financial statements prepared in accordance with accounting principles generally accepted in the United States of America, management's certifications concerning responsibility for the financial statements, internal controls and compliance with legal requirements designated by the FDIC, and an audit by the independent auditor regarding the internal controls must be submitted to federal and state regulators. The Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) requires that independent audit committees be formed, consisting of outside directors only. The committees of such institutions must include members with experience in banking or financial management, must have access to outside counsel, and must not include representatives of large customers.

During 1999, the SEC and the National Association of Securities Dealers adopted new rules, which became effective during 2000, to improve the function of corporate audit committees. The new rules require, among other things, that the audit committee review and assess the adequacy of its charter on an annual basis, that independent auditors review public companies' interim financial information prior to filing with the SEC and that companies include in their proxy statements certain information about their audit committees. The bank subsidiaries of the Company satisfy the annual audit requirement by relying on the audit of the Company. The Company is also subject to the enhanced audit committee requirements set forth in the Sarbanes-Oxley Act of 2002.

GENERAL - BANK SUBSIDIARIES. All of the bank subsidiaries of the Company are state banks subject to regulation by, and supervision of, the Texas DOB and the FDIC.

Table of Contents

DEPOSIT INSURANCE. All of the bank subsidiaries of the Company are examined by the FDIC, which currently insures the deposits of each member bank up to applicable limits. Deposits of each of the bank subsidiaries are insured by the FDIC through the Deposit Insurance Fund (DIF) to the extent provided by law. The FDIC uses a risk-based assessment system that imposes premiums based upon a matrix that takes into account a bank's capital level and supervisory rating. As of January 1, 2007, the previous nine risk categories utilized in the risk matrix were condensed into four risk categories which continue to be distinguished by capital levels and supervisory rating. During 2007, the bank subsidiaries of the Company were required to pay deposit insurance premiums. Under the Federal Deposit Insurance Reform Act of 2005, which became law in 2006, the bank subsidiaries of the Company received a one-time assessment credit that can be applied against future premiums, subject to certain limitations. During 2008, the credit was used to offset all the deposit insurance premiums owed by the bank subsidiaries of the Company and the remaining amount of the offset credit will be used against future deposit insurance premiums. During 2008, the bank subsidiaries of the Company paid Financing Corporation (FICO) assessments related to outstanding FICO bonds to the FDIC as a collection agent. The FICO is a mixed-ownership government corporation whose sole purpose was to serve as a financing vehicle for the defunct Federal Savings & Loan Insurance Corporation.

In an effort to restore capitalization levels and to ensure the DIF will adequately cover projected losses from future bank failures, the FDIC, in October 2008, proposed a rule to alter the way in which it differentiates for risk in the risk-based assessment system, and to revise deposit insurance assessment rates, including base assessment rates. For Risk Category 1, institutions such as the Company that do not have long-term debt issuer ratings, the FDIC proposes (i) to determine the initial base assessment rate using a combination of weighted-average CAMELS component ratings and the financial ratios method assessment rate (as defined), each equally weighted and (ii) to revise the uniform amount and the pricing multipliers. The FDIC also proposes to introduce three adjustments that could be made to an institution's initial base assessment rate, including (i) a potential decrease of up to 2 basis points for long-term unsecured debt, including senior and subordinated debt, (ii) a potential increase for secured liabilities in excess of 15% of domestic deposits and (iii) for non-Risk Category 1 institutions, a potential increase for brokered deposits in excess of 10% of domestic deposits. In addition, the FDIC proposed raising the current rates uniformly by 7 basis points for the assessment for the first quarter of 2009 resulting in annualized assessment rates for Risk Category 1 institutions ranging from 12 to 14 basis points. The proposal for first quarter 2009 assessment rates was adopted as a final rule in December 2008. The FDIC also proposed effective April 1, 2009, initial base assessment rates for Risk Category 1 institutions of 10-14 basis points. After the effect of potential base-rate adjustments, the annualized assessment rate for Risk Category 1 institutions would range from 8 to 21 basis points. A final rule related to this proposal is expected to be issued during the first quarter of 2009. The Company cannot provide any assurance as to the amount of any proposed increase in its deposit insurance premium rate, should such an increase occur, as such changes are dependent upon a variety of factors, some of which are beyond the Company's control.

Under the FDIA, the FDIC may terminate deposit insurance upon a finding that the institution has engaged in unsafe and unsound practices, is in an unsafe or uninsured condition to continue operations, or has violated any applicable law, regulation, rule or order or condition imposed by the FDIC.

On November 21, 2008, the Board of Directors of the FDIC adopted a final rule relating to the Temporary Liquidity Guarantee Program (TLG Program). Under the TLG Program, the FDIC will (i) guarantee, through the earlier of maturity or June 30, 2012, certain newly issued senior unsecured debt issued by participating institutions on or after October 14, 2008, and before June 30, 2009 and (ii) provide full FDIC deposit insurance coverage for non-interest bearing transaction deposit accounts. Negotiable Order of Withdrawal (NOW) accounts paying less than 0.5% interest per annum and Interest on Lawyers Trust Accounts held at participating FDIC-insured institutions through December 31, 2009. Coverage under the TLG Program was available for the first 30 days without charge. The fee assessment for coverage of senior unsecured debt ranges from 50 basis points to 100 basis points per annum, depending on the initial maturity of the debt. The fee assessment for deposit insurance coverage is 10 basis points per quarter on amounts in covered accounts exceeding \$250,000. The Company elected to

Table of Contents

participate in the broader FDIC insurance program, but opted out of the debt guarantee program. On February 2, 2009, the FDIC adopted a final rule clarifying the processing of deposit accounts in the event of an insured depository institution failure, which rule made it clear that Repo sweep account customers are protected because they will receive ownership of the underlying assets in the event of a bank failure.

CAPITAL ADEQUACY. The Company and its bank subsidiaries are currently required to meet certain minimum regulatory capital guidelines utilizing total capital-to-risk-weighted assets and Tier 1 Capital elements. At December 31, 2008, the Company's ratio of total capital-to-risk-weighted assets was 16.35%. The guidelines make regulatory capital requirements more sensitive to differences in risk profiles among banking organizations, consider off-balance sheet exposure in assessing capital adequacy, and encourage the holding of liquid, low-risk assets. At least one-half of the minimum total capital must be comprised of Core Capital or Tier 1 Capital elements. Tier 1 Capital of the Company is comprised of common shareholders' equity and permissible amounts related to the trust preferred securities. The deductible core deposit intangibles and goodwill of \$309,917,000 booked in connection with all the financial institution acquisitions of the Company after February 1992 are deducted from the sum of core capital elements when determining the capital ratios of the Company.

In addition, the FRB has established minimum leverage ratio guidelines for bank holding companies. These guidelines provide for a minimum leverage ratio of Tier 1 capital to adjusted average quarterly assets (leverage ratio) equal to three percent for bank holding companies that meet certain specified criteria, including having the highest regulatory rating. All other bank holding companies will generally be required to maintain a leverage ratio of at least four to five percent. The Company's leverage ratio at December 31, 2008 was 9.97%. The guidelines also provide that bank holding companies experiencing internal growth or making acquisitions will be expected to maintain strong capital positions substantially above the minimum supervisory levels without significant reliance on intangible assets. Furthermore, the guidelines indicate that the FRB will continue to consider a tangible tier 1 leverage ratio (deducting all intangibles) in evaluating proposals for expansion or new activity. The FRB has not advised the Company of any specific minimum leverage ratio or tangible Tier 1 leverage ratio applicable to it. For a bank holding company to be considered well-capitalized under the regulatory framework for prompt corrective action, its leverage ratio must be at least 5.0%.

In March 2005, the Federal Reserve Board issued a final rule that would continue to allow the inclusion of trust preferred securities in Tier 1 capital, but with stricter quantitative limits. Under the final rule, after a five-year transition period ending March 31, 2009, the aggregate amount of trust preferred securities and certain other capital elements would be limited to 25% of Tier 1 capital elements, net of goodwill, less any associated deferred tax liability. The amount of trust preferred securities and certain other elements in excess of the limit could be included in Supplementary Capital or Tier 2 capital, subject to restrictions. Tier 2 capital includes among other things, perpetual preferred stock, qualifying mandatory convertible debt securities, qualifying subordinated debt, and allowances for probable loan and lease losses, subject to limitations. Bank holding companies with significant international operations will be expected to limit trust preferred securities to 15% of Tier 1 capital elements, net of goodwill; however, they may include qualifying mandatory convertible preferred securities up to the 25% limit. After the transition period, the Company believes that substantially all of the trust preferred securities issued by the Company will qualify as Tier 1 capital.

Each of the Company's bank subsidiaries is subject to similar capital requirements adopted by the FDIC. Each of the Company's bank subsidiaries had a leverage ratio in excess of five percent as of December 31, 2008. As of that date, the federal banking agencies had not advised any of the bank subsidiaries of any specific minimum leverage ratio applicable to it.

Effective December 19, 1992, the federal bank regulatory agencies adopted regulations which mandate a five-tier scheme of capital requirements and corresponding supervisory actions to implement the prompt corrective action provisions of FDICIA. The regulations include requirements for the capital categories that will serve as benchmarks for mandatory supervisory actions. Under the regulations, the highest of the five categories would be

Table of Contents

a well capitalized institution with a total risk-based capital ratio of 10%, a Tier 1 risk-based capital ratio of 6% and a Tier 1 leverage ratio of 5%. An institution would be prohibited from declaring any dividends, making any other capital distribution or paying a management fee if the capital ratios drop below the levels for an adequately capitalized institution, which are 8%, 4% and 4%, respectively. The corresponding provisions of FDICIA mandate corrective actions are taken if a bank is undercapitalized. Based on the Company's and each of the bank subsidiaries' capital ratios as of December 31, 2008, the Company and each of the bank subsidiaries were classified as well capitalized under the applicable regulations.

The risk-based standards that apply to bank holding companies and banks incorporate market and interest rate risk components. Applicable banking institutions are required to adjust their risk-based capital ratio to reflect market risk. Under the market risk capital guidelines, capital is allocated to support the amount of market risk related to a financial institution's ongoing trading activities. Financial institutions are allowed to issue qualifying unsecured subordinated debt (Tier 3 capital) to meet a part of their market risks. The Company does not have any Tier 3 capital and did not need Tier 3 capital to offset market risks.

The federal regulatory authorities' risk-based capital guidelines are based upon the 1988 capital accord of the Basel Committee on Banking Supervision (the BIS). The BIS is a committee of central banks and bank supervisors/regulators from the major industrialized countries that develops broad policy guidelines for use by each country's supervisors in determining the supervisory policies they apply. In June 2004, the BIS released a new capital accord to replace the 1988 capital accord with an update in November 2005 (BIS II). BIS II would set capital requirements for operational risk, and refine the existing capital requirements for credit risk and market risk exposures. The United States federal banking agencies are developing proposed revisions to their existing capital adequacy regulations and standards based on BIS II. A definitive final rule for implementing BIS II in the United States that would apply only to internationally active banking organizations, or core banks defined as those with consolidated total assets of \$250 billion or more or consolidated on-balance sheet foreign exposures of \$10 billion or more became effective as of April 1, 2008. Other U.S. banking organizations may elect to adopt the requirements of this rule (if they meet applicable qualification requirements), but they will not be required to apply them. The rule also allows a banking organization's primary federal supervisor to determine that the application of the rule would not be appropriate in light of the bank's asset size, level of complexity, risk profile, or scope of operations. The Company is not required to comply with Basel II at this time.

In July 2008, the banking agencies issued a proposed rule that would give banking organizations that are not required to comply with Basel II the option to implement a new risk-based capital framework. This framework would adopt the standardized approach of Basel II for credit risk, the basic indicator approach of Basel II for operational risk, and related disclosure requirements. While this proposed rule generally parallels the relevant approaches under Basel II, it diverges where United States markets have unique characteristics and risk profiles, most notably with respect to risk weighting residential mortgage exposures. Comments on the proposed rule were due to the agencies by October 27, 2008, but a definitive final rule has not been issued. The proposed rule, if adopted, would replace the agencies' earlier proposed amendments to existing risk-based capital guidelines to make them more risk sensitive (formerly referred to as the Basel I-A approach).

STATE ENFORCEMENT POWERS. The Banking Commissioner of Texas may determine to close a Texas state bank when he finds that the interests of depositors and creditors of a state bank are jeopardized through its insolvency or imminent insolvency and that it is in the best interest of such depositors and creditors that the bank be closed. The Texas DOB also has broad enforcement powers over the bank subsidiaries, including the power to impose orders, remove officers and directors, impose fines and appoint supervisors and conservators.

DEPOSITOR PREFERENCE. Because the Company is a legal entity separate and distinct from its bank subsidiaries, its right to participate in the distribution of assets of any subsidiary upon the subsidiary's liquidation or reorganization will be subject to the prior claims of the subsidiary's creditors. In the event of a liquidation or other resolution of a subsidiary bank, the claims of depositors and other general or subordinated creditors of the

Table of Contents

bank are entitled to a priority of payment over the claims of holders of any obligation of the institution to its shareholders, including any depository institution holding company (such as the Company) or any shareholder or creditor thereof.

CRA. Under the CRA, the FDIC is required to assess the record of each bank subsidiary to determine if the bank meets the credit needs of its entire community, including low and moderate-income neighborhoods served by the institution, and to take that record into account in its evaluation of any application made by the bank for, among other things, approval of the acquisition or establishment of a branch or other deposit facility, an office relocation, a merger, or the acquisition of shares of capital stock of another financial institution. The FDIC prepares a written evaluation of an institution's record of meeting the credit needs of its entire community and assigns a rating. The FIRREA requires federal banking agencies to make public a rating of a bank's performance under the CRA. Each bank subsidiary received a satisfactory CRA rating in its most recently completed examination. The Company's bank subsidiaries conduct an award-winning financial literacy program in their communities as part of their community outreach. Further, there are fair lending laws, including the Equal Credit Opportunity Act and the Fair Housing Act, which prohibit discrimination in connection with lending decisions. The board periodically conducts fair lending evaluations of banks and IBC is currently undergoing such an evaluation.

CONSUMER LAWS. In addition to the laws and regulations discussed herein, the Bank is also subject to certain consumer laws and regulations that are designed to protect consumers in transactions with banks. While the list set forth herein is not exhaustive, these laws and regulations include the Truth in Lending Act, the Truth in Savings Act, the Electronic Funds Transfer Act, the Expedited Funds Availability Act, the Real Estate Settlement Procedures Act and the Fair Credit Reporting Act, among others. In the residential real estate lending area, each subsidiary bank is required to comply with the Home Ownership Equity and Protection Act, which is implemented by Regulation Z, as well as certain state laws. These laws and regulations mandate certain disclosure requirements and regulate the manner in which financial institutions must deal with customers when taking deposits or making loans to such customers. The Bank must comply with the applicable provisions of these consumer protection laws and regulations as part of their ongoing customer relations.

AFFILIATE TRANSACTIONS. The Company, IBC and the other bank subsidiaries of the Company are affiliates within the meaning of Section 23A of the Federal Reserve Act which sets forth certain restrictions on loans and extensions of credit between a bank subsidiary and affiliates, on investments in an affiliate's stock or other securities, and on acceptance of such stock or other securities as collateral for loans. Such restrictions prevent a bank holding company from borrowing from any of its bank subsidiaries unless the loans are secured by specific obligations. Further, such secured loans and investments by a bank subsidiary are limited in amount, as to a bank holding company or any other affiliate, to 10% of such bank subsidiary's capital and surplus and, as to the bank holding company and its affiliates, to an aggregate of 20% of such bank subsidiary's capital and surplus. Certain restrictions do not apply to 80% or more owned sister banks of bank holding companies. Each bank subsidiary of the Company is wholly-owned by the Company. Section 23B of the Federal Reserve Act requires that the terms of affiliate transactions be comparable to terms of similar non-affiliate transactions. On October 31, 2002, the Board of Governors of the Federal Reserve System adopted a final rule (Regulation W) to implement comprehensively sections 23A and 23B of the Federal Reserve Act and provides several new exemptions consistent with the purposes of the statute. The final rule combines statutory restrictions on transactions between a member bank and its affiliates with numerous Board interpretations and exemptions in an effort to simplify compliance with sections 23A and 23B.

INSIDER LOANS. The restrictions on loans to directors, executive officers, principal shareholders and their related interests (collectively referred to herein as insiders) contained in the Federal Reserve Act and Regulation O apply to all insured institutions and their subsidiaries and holding companies. These restrictions include limits on loans to one borrower, prohibition on preferential terms, and other conditions that must be met before such a loan can be made. There is also an aggregate limitation on all loans to insiders and their related interests. These loans cannot exceed the institution's total unimpaired capital and surplus, and the FDIC may

Table of Contents

determine that a lesser amount is appropriate. Insiders are subject to enforcement actions for knowingly accepting loans in violation of applicable restrictions.

LENDING RESTRICTIONS. The operations of the Banks are also subject to lending limit restrictions pertaining to the extension of credit and making of loans to one borrower. Further, under the BHCA and the regulations of the FRB thereunder, the Company and its subsidiaries are prohibited from engaging in certain tie-in arrangements with respect to any extension of credit or provision of property or services; however, the FRB adopted a rule relaxing tying restrictions by permitting a bank holding company to offer a discount on products or services if a customer obtains other products or services from such company. In February 2005, the banking agencies issued best practices guidelines on overdraft protection programs which state that overdraft protection programs are an extension of credit, but are not subject to Truth-in-Lending disclosure requirements.

DIVIDENDS. The ability of the Company to pay dividends is largely dependent on the amount of cash derived from dividends declared by its bank subsidiaries. The payment of dividends by any bank or bank holding company is affected by the requirement to maintain adequate capital as discussed above. The ability of the Banks, as Texas banking associations, to pay dividends is restricted under Texas law. A Texas bank generally may not pay a dividend reducing its capital and surplus without the prior approval of the Texas Banking Commissioner. The FDIC has the right to prohibit the payment of dividends by a bank where the payment is deemed to be an unsafe and unsound banking practice. Additionally, as a result of the Company's participation in the CPP, the Company is restricted in the payment of dividends and may not without the Treasury Department's consent, declare or pay any dividend on the Company Common Stock other than a regular semi-annual cash dividend of not more than \$.33 per share, as adjusted for any stock dividend or stock split. The restriction ceases to exist only on the earlier to occur of December 23, 2011 or the date on which the Company has redeemed all of the Preferred Stock issued as part of the CPP program or the date on which the Treasury has transferred all of the Preferred Stock to third parties not affiliated with the Treasury. At December 31, 2008, there was an aggregate of approximately \$237,000,000 available for the payment of dividends to the Company by IBC, Commerce Bank, IBC-Zapata and IBC-Brownsville under the applicable restrictions, assuming that each of such banks continues to be classified as well capitalized. Further, the Company could expend the entire \$237,000,000 and continue to be classified as well capitalized. Note 20 of Notes to Consolidated Financial Statements of the Company in the 2008 Annual Report is incorporated herein by reference.

POWERS. As a result of FDICIA, the authority of the FDIC over state-chartered banks was expanded. FDICIA limits state-chartered banks to only those principal activities permissible for national banks, except for other activities specifically approved by the FDIC. The new Texas Banking Act includes a parity provision which establishes procedures for state banks to notify the Banking Commissioner if the bank intends to conduct any activity permitted for a national bank that is otherwise denied to a state bank. The Banking Commissioner has thirty (30) days to prohibit the activity. Also, the Texas Finance Code includes, a super parity provision with procedures for state banks to notify the Banking Commissioner if the bank intends to conduct any activity permitted for any depository institution in the United States. The Banking Commissioner has thirty (30) days to prohibit the activity.

FINANCIAL SUBSIDIARIES. Under GLBA, a national bank may establish a financial subsidiary and engage, subject to limitations on investment, in activities that are financial in nature, other than insurance underwriting as principal, insurance company portfolio investment, real estate development, real estate investment and annuity issuance. To do so, a bank must be well capitalized, well managed and have a CRA rating of satisfactory or better. Subsidiary banks of a financial holding company or national banks with financial subsidiaries must remain well capitalized and well managed in order to continue to engage in activities that are financial in nature without regulatory actions or restrictions, which could include divestiture of the financial subsidiary or subsidiaries. In addition, a bank may not acquire a company that is engaged in activities that are financial in nature unless the bank and each affiliated bank has a CRA rating of satisfactory or better.

Table of Contents

The powers of state-chartered banks that are not members of the Federal Reserve System were not directly addressed by GLBA. However, Texas state nonmember banks should indirectly benefit from the enhanced powers made available to financial subsidiaries of national banks by GLBA through the Texas parity statute, which authorizes state-chartered banks to engage in powers available for national banks, subject to certain state and federal law restrictions.

INSTABILITY OF REGULATORY STRUCTURE. New legislation could be adopted which would change banking statutes and the operating environment of the Company and the bank subsidiaries in substantial and unpredictable ways. Such changes could have a material effect on the business of the Company. The Company cannot predict whether any such legislation will be adopted and the Company cannot determine the ultimate effect that potential legislation, if enacted, or implementing regulations with respect thereto, would have upon the financial condition or results of operations of the Company or its subsidiaries.

Item 1A. Risk Factors

Risk Factors

You should carefully consider the risks and uncertainties the Company describes below and the other information in this Annual Report or incorporated by reference before deciding to invest in, or retain, shares of the Company's common stock. These are not the only risks and uncertainties that the Company faces. Additional risks and uncertainties that the Company does not know about or that the Company currently believes are immaterial, or that the Company has not predicted, may also harm the Company's business operations or adversely affect the Company. If any of these risks or uncertainties actually occurs, the Company's business, financial condition, operating results or liquidity could be materially harmed.

Risks Related to the Company's Business

Losses from loan defaults may exceed the allowance the Company establishes for that purpose, which could have an adverse effect on the Company's business.

Losses from loan defaults may exceed the allowance the Company establishes for that purpose. Like all financial institutions, the Company maintains an allowance for probable loan losses to provide for losses inherent in the loan portfolio. The allowance for probable loan losses reflects management's best estimate of probable loan losses in the loan portfolio at the relevant balance sheet date. This evaluation is primarily based upon a review of the Company and the Company's historical loan loss experience, known risks contained in the loan portfolio, composition and growth of the loan portfolio, and economic factors. The determination of an appropriate level of loan loss allowance is an inherently difficult process and is based on numerous assumptions. As a result, the Company's allowance for loan losses may not be adequate to cover actual losses, and future provisions for loan losses may adversely affect the Company's earnings. The Company believes its allowance for probable loan losses is adequate at December 31, 2008.

If real estate values in the Company's target markets decline, the loan portfolio would be impaired.

A significant portion of the Company's loan portfolio consists of loans secured by real estate located in the markets served by the Company. Real estate values and real estate markets are generally affected by, among other things, changes in national, regional, or local economic conditions; fluctuations in interest rates and the availability of loans to potential purchases, changes in the tax laws and other governmental statutes, regulations, and policies; and acts of nature. If real estate prices decline significantly in any of these markets, the value of the real estate collateral securing the Company's loans would be reduced. Such a reduction in the value of the Company's collateral could increase the number of impaired loans and adversely affect the Company's financial performance.

Table of Contents

The Company's subsidiary banks face strong competition in their market areas, which may limit their asset growth and profitability.

The Company's primary market areas are South, Central and Southeast Texas, including Austin and Houston, and the State of Oklahoma. The banking business in these areas is extremely competitive, and the level of competition facing the Company may increase further, which may limit the growth and profitability of the Company. Each of the Company's subsidiary banks experience competition in both lending and attracting funds from other banks, savings institutions, credit unions and non-bank financial institutions located within its market area, many of which are significantly larger institutions. Non-bank competitors competing for deposits and deposit type accounts include mortgage bankers and brokers, finance companies, credit unions, securities firms, money market funds, life insurance companies, and mutual funds. For loans, the Company encounters competition from other banks, savings associations, finance companies, mortgage bankers and brokers, insurance companies, small loan and credit card companies, credit unions, pension trusts, and securities firms.

The Company relies, in part, on external financing to fund the Company's operations and the unavailability of such funds in the future could adversely impact the Company's growth strategy and prospects.

The Company relies on deposits, repurchase agreements, advances from the Federal Home Loan Bank (FHLB) of Dallas and other borrowings to fund its operations. The subsidiary banks have also historically relied on certificates of deposit. While the Company has reduced its reliance on certificates of deposit and has been successful in promoting its transaction and non-transaction deposit products (demand deposit accounts, money market, savings and checking), jumbo deposits nevertheless constituted a large portion of total deposits at December 31, 2008. Jumbo deposits tend to be a more volatile source of funding. Although management has historically been able to replace such deposits on maturity if desired, no assurance can be given that the Company would be able to replace such funds at any given point in time.

The Company's business is subject to interest rate risk and variations in interest rates may negatively affect the Company's financial performance.

The Company is unable to predict fluctuations of market interest rates, which are affected by many factors, including:

- Inflation;
- Recession;
- A rise in unemployment;
- Tightening of the money supply; and
- Domestic and international disorder and instability in domestic and foreign financial markets.

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-K

Changes in the interest rate environment may reduce the Company's profits. The Company expects that the bank subsidiaries will continue to realize income from the differential or spread between the interest earned on loans, securities and other interest-earning assets, and the interest paid on deposits, borrowings and other interest-bearing liabilities. Net interest spreads are affected by the difference between the maturities and repricing characteristics of interest-earning assets and interest-bearing liabilities.

Table of Contents

The Company is subject to extensive regulation which could adversely affect the Company including changes in U.S. Mexico trade and travel along the Texas border.

The Company's operations are subject to extensive regulation by federal, state and local governmental authorities and are subject to various laws and judicial and administrative decisions imposing requirements and restrictions on part or all of the Company's operations. Because the Company's business is highly regulated, the laws, rules and regulations applicable to the Company are subject to regular modification and change. There can be no assurance that there will be no laws, rules or regulations adopted in the future, which could make compliance more difficult or expensive, or otherwise adversely affect the Company's business, financial condition or prospects. Additionally, any reductions in border crossings and commerce resulting from the Homeland Security Programs called US-VISIT, which is derived from Section 110 of the Illegal Immigration Reform and Immigration Responsibility Act of 1996 could affect the Company negatively, and any possible negative consequences from an adverse immigration law could also have a negative affect on the Company's operations.

The effects of the proceedings pending with the Internal Revenue Service regarding the Company's lease financing transactions could adversely affect the Company.

The Company was involved in lawsuits with the IRS relating to two lease-financing transactions that the Company entered into through two subsidiary partnerships. In 2006, the trial court rendered a judgment against the Company on one of the lawsuits, which judgment was affirmed by the appellate court in the third quarter of 2007 and became non-appealable in the third quarter of 2007. The other partnership tax case was stayed by the same trial court pending the appeal. Following the resolution of the first case, the trial court reopened the second case and set it for trial on September 2, 2008. Subsequently, the Company settled the second case. Under the terms of the settlement, the Company conceded the entire amount in dispute based upon the similarity of the facts of the case to the first case and the likelihood of an unfavorable outcome of the litigation based upon the Court rulings in the first case. The Company has expensed approximately \$25,700,000 in connection with the lawsuits, which amount is the total of tax adjustments due and the interest due on such adjustments for both lawsuits. Management continues to evaluate the proceedings with the IRS on the Final Partnership Administrative Adjustments.

The Company's potential future acquisitions could be adversely affected by a number of factors.

Acquisitions of other financial institutions have been a key element of the Company's growth. There are a number of factors that may impact the ability of the Company to continue to grow through acquisition transactions, including strong competition from other financial institutions who are active or potential acquirors of financial institutions in the existing or future markets of the Company.

The Company relies heavily on its chief executive officer.

The Company has experienced substantial growth in assets and deposits during the past, particularly since Dennis E. Nixon became our President in 1979. Although Mr. Nixon is the chief executive officer and one of the substantial shareholders, the Company does not have an employment agreement with Mr. Nixon and the loss of his services could have a material adverse effect on the Company's business and prospects.

System failure or breaches of our network security could subject us to increased operating costs as well as litigation and other liabilities.

The computer systems and network infrastructure our Company uses could be vulnerable to unforeseen problems. Our operations are dependent upon our ability to protect our computer equipment against damage from fire, power loss, telecommunications failure or a similar catastrophic event. Any damage or failure that causes an interruption in our operations could have an adverse effect on our customers. In addition, we must be able to protect the computer systems and network infrastructure utilized by us against physical damage, security breaches and service disruption caused by the Internet or other users. Such computer break-ins and other disruptions would jeopardize the security of information stored in and transmitted through our computer systems and network infrastructure, which may result in significant liability to us.

Risks Related to the Company's Industry

Changes in economic and political conditions could adversely affect the Company's earnings, as our borrowers' ability to repay loans and the value of the collateral securing our loans decline.

The Company's success depends, to a certain extent, upon economic and political conditions, local, national and international with respect to Mexico, as well as governmental monetary policies. Conditions such as inflation, recession, unemployment, changes in interest rates, changes in capital markets, money supply, political issues, legislative and regulatory changes and other factors beyond the Company's control may adversely affect the Company's asset quality, deposit levels and loan demand and, therefore, the Company's earnings. The Company is particularly affected by conditions in its primary market areas of South, Central and Southeast Texas, including

Table of Contents

Austin and Houston, and the State of Oklahoma.

The Company depends on the accuracy and completeness of information about customers and counterparties.

In deciding whether to extend credit or enter into other transactions, the Company may rely on information furnished by or on behalf of customers and counterparties, including financial statements, credit reports and other financial information. The Company may also rely on representations of those customers, counterparties or other third parties, such as independent auditors, as to the accuracy and completeness of that information. Reliance on inaccurate or misleading financial statements, credit reports or other financial information could have a material adverse impact on the Company's business and, in turn, the Company's financial condition and results of operations.

If the Company does not adjust to rapid changes in the financial services industry, its financial performance may suffer.

The Company's ability to deliver strong financial performance and returns on investment to shareholders will depend in part on its ability to expand the scope of available financial services to meet the needs and demands of its customers and its ability to stay abreast of technological innovations and evaluate those technologies that will enable it to compete on a cost-effective basis.

In addition to the challenge of competing against other banks in attracting and retaining customers for traditional banking services, the Company's competitors also include securities dealers, brokers, mortgage bankers, investment advisors, specialty finance and insurance companies who seek to offer one-stop financial services that may include services that banks have not been able or allowed to offer to their customers in the past. The increasingly competitive environment is primarily a result of changes in regulation, changes in technology and product delivery systems and the accelerating pace of consolidation among financial service providers. Such changes in the financial industry may result in the loss of fee income, as well as the loss of customer deposits and the related income generated from those deposits. The loss of these revenue streams and the lower cost deposits as a source of funds could have a material adverse effect on the Company's financial condition and results of operations.

Further, the costs of new technology, including personnel, can be high in both absolute and relative terms. There can be no assurance, given the fast pace of change and innovation, that the Company's technology, either purchased or developed internally, will meet or continue to meet the needs of the Company and the needs of our customers.

Risks Related to the Company's Stock

The Company's stock price may be volatile.

Several factors could cause the Company's stock price to fluctuate substantially in the future. These factors include:

- Actual or anticipated variations in earnings;
- The Company's announcements of developments related to its businesses;
- Operating and stock performance of other companies deemed to be peers;
- New technology used or services offered by traditional and non-traditional competitors;
- News reports of trends, concerns and other issues related to the financial services industry; and
- Changes in the Company's ability to pay dividends.

The Company's stock price may fluctuate significantly in the future, and these fluctuations may be unrelated to

Table of Contents

the Company's performance. General market price declines or market volatility in the future could adversely affect the price of its common stock, and the current market price may not be indicative of future market prices.

The holders of our junior subordinated debentures have rights that are senior to those of our shareholders.

As of December 31, 2008, we had \$201 million in junior subordinated debentures outstanding that were issued to our statutory trusts. The trusts purchased the junior subordinated debentures from us using the proceeds from the sale of trust preferred securities to third party investors. Payments of the principal and interest on the trust preferred securities are conditionally guaranteed by us to the extent not paid or made by each trust, provided the trust has funds available for such obligations.

The junior subordinated debentures are senior to our shares of common stock and the Senior Preferred Stock. As a result, we must make payments on the junior subordinated debentures (and the related trust preferred securities) before any dividends can be paid on our common stock or preferred stock and, in the event of our bankruptcy, dissolution or liquidation, the holders of the debentures must be satisfied before any distributions can be made to our shareholders. If certain conditions are met, we have the right to defer interest payments on the junior subordinated debentures (and the related trust preferred securities) at any time or from time to time for a period not to exceed 10 consecutive semi-annual periods on one of the trusts and up to 20 consecutive quarters in a deferral period on the other seven trusts, during which time no dividends may be paid to holders of our common stock or preferred stock.

Risks Related to Participation in the CPP

We may be adversely affected as a result of the CPP.

In connection with our sale of Senior Preferred Stock to the Treasury Department under the CPP, the company also issued to the Treasury Department a warrant to purchase 1,326,238 shares of our common stock. The terms of the transaction with the Treasury will result in limitations on our ability to pay dividends and repurchase our shares. Until December 23, 2011 or until Treasury no longer holds any shares of the Series A Preferred Stock, the Company will not be able to increase cash dividends above current levels (\$.33 per share of common stock on a semi-annual basis) nor repurchase any of our shares without the Treasury's approval, with limited exceptions, most significantly repurchases in connection with benefit plans. In addition, we will not be able to pay any dividends at all on our common stock unless we are current on our dividend payments on the Senior Preferred Stock. These restrictions, as well as the dilutive impact of the warrant, may have a negative effect on the market price of our common stock.

Unless the Company is able to redeem the Senior Preferred Stock prior to February 15, 2014, the cost of this capital will increase substantially on that date, from 5.00% on the liquidation preference of \$1,000 per share of Senior Preferred Stock (approximately \$10,800,000 million annually) to 9.00% on the liquidation preference of \$1,000 per share of Senior Preferred Stock (approximately \$19,440,000 million annually). Depending on our financial condition at the time, this increase in dividends on the Series A Preferred Stock could have a negative effect on our liquidity.

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-K

The programs established or to be established under the EESA and Capital Purchase Program may have adverse effects upon the Company. The Company may face increased regulation of the financial services industry. Compliance with such regulation may increase the Company's costs and limit its ability to pursue business opportunities. The effects of such recently enacted legislation and regulatory programs on the Company cannot reliably be determined at this time.

You may not receive dividends on the common stock.

Holders of our common stock are entitled to receive dividends only when, as and if declared by our Board of Directors. Although we have historically declared cash dividends on our common stock, we are not required to do so and our Board of Directors may reduce or eliminate our common stock dividend in the future. Further, the terms of the Senior Preferred Stock limit our payment of dividends on common stock, as described above. This could adversely affect the market price of our common stock.

We may experience increases in the cost of compensation programs.

In addition, pursuant to the Securities Purchase Agreement we adopted Treasury's standards for executive compensation for the period during which the Treasury holds the equity issued pursuant to the Securities Purchase Agreement, including the common stock that may be issued pursuant to the warrant. These standards include an agreement not to deduct for tax purposes executive compensation in excess of \$500,000 for each applicable senior executive. This change to the deductibility limit on executive compensation will likely increase the overall cost of our compensation programs in future periods if such compensation exceeds the deductibility limit.

We may lose members of our management team due to compensation restrictions.

The Company's ability to retain key officers and employees may be negatively impacted by recent legislation and regulation affecting the financial services industry. On February 17, 2009, the American Recovery and Reinvestment Act of 2009 (the "ARRA") was signed into law. While the U.S. Treasury must promulgate regulations to implement the restrictions and standards set forth in the new law, the ARRA, among other things, significantly expands the executive compensation restrictions previously imposed by the Emergency Economic Stabilization Act of 2008. Such restrictions apply to any entity that has received or will receive funds under the TARP Capital Purchase Program, and shall generally continue to apply for as long as any securities issued under TARP, including preferred stock issued under the Capital Purchase Program, remain outstanding. These ARRA restrictions shall not apply to any TARP recipient during such time when the federal government (i) only holds any warrants to purchase common stock of such recipient or (ii) does not hold any preferred stock or warrants to purchase common stock of such recipient. As a result of our participation in the TARP Capital Purchase Program, the restrictions and standards set forth in the ARRA shall be applicable to the Company, subject to regulations promulgated by the U.S. Treasury. Such restrictions and standards may further impact management's ability to retain key officers and employees as well as the Company's ability to compete with financial institutions that are not subject to the same limitations as the Company under the ARRA.

Item 1B. Unresolved Staff Comments

N/A

Item 2. Properties

The principal offices of the Company and IBC are located at 1200 San Bernardo Avenue, Laredo, Texas and 2418 Jacaman Road, Laredo, Texas in buildings owned and completely occupied by the Company and IBC and containing approximately 147,000 square feet. The bank subsidiaries of IBC have 265 main banking and branch facilities. All the facilities are customary to the banking industry. The bank subsidiaries own most of their banking

Table of Contents

facilities and the remainder are leased. The facilities are located in the regions of Laredo, San Antonio, Houston, Zapata, Eagle Pass, the Rio Grande Valley of Texas, the Coastal Bend area of Texas, and throughout the State of Oklahoma.

As Texas state-chartered banks, no bank subsidiary of the Company may, without the prior written consent of the Banking Commissioner, invest an amount in excess of its Tier 1 capital in bank facilities, furniture, fixtures and equipment. None of the Company's bank subsidiaries exceeds such limitation.

Item 3. Legal Proceedings

The Company and its bank subsidiaries are involved in various legal proceedings that are in various stages of litigation. Some of these actions allege lender liability claims on a variety of theories and claim substantial actual and punitive damages. The Company and its subsidiaries have determined, based on discussions with their counsel that any material loss in such actions, individually or in the aggregate, is remote or the damages sought, even if fully recovered, would not be considered material to the consolidated financial position or results of operations of the Company and its subsidiaries. However, many of these matters are in various stages of proceedings and further developments could cause management to revise its assessment of these matters. Further information regarding legal proceedings has been provided in Note 17 of the Notes to consolidated financial statements located on page 66 of the 2008 Annual Report to Shareholders which is incorporated herein by reference.

Item 4. Submission of Matters to a Vote of Security Holders

The Special Meeting of Shareholders of the Company was held on December 19, 2008 for the consideration of the following items, each of which was approved by the number of votes set forth below:

				Votes For	Votes Against
1.	To act on a proposed amendment to the Company's Articles of Incorporation to authorize issuance of up to 25,000,000 shares of preferred stock.			41,669,485	10,109,698
	Abstentions :	7,913	Broker Non-Votes:	13,322,932	
				Votes For	Votes Against
2.	To grant management the authority to adjourn, postpone or continue the special meeting.			43,037,171	8,677,288
	Abstentions :	72,636	Broker Non-Votes:	13,322,933	

Table of Contents**Item 4A. Executive Officers of the Registrant**

Certain information is set forth in the following table concerning the executive officers of the Company, each of whom has been elected to serve until the 2009 Annual Meeting of Shareholders and until his successor is duly elected and qualified.

Name	Age	Position of Office	Officer of the Company Since
Dennis E. Nixon	66	Chairman of the Board of the Company since 1992 and President of the Company since 1979, Chief Executive Officer and Director of IBC	1979
R. David Guerra	56	Vice President of the Company since 1986 and President of IBC McAllen Branch and Director of IBC	1986
Imelda Navarro	51	Treasurer of the Company since 1982 and Senior Executive Vice President of IBC and Director of IBC since 2002	1982

There are no family relationships among any of the named persons. Each executive officer has held the same position or another executive position with the Company during the past five years.

Item 9. Changes In and Disagreements with Accountants on Accounting and Financial Disclosure

As noted in the form 8-K filed on August 30, 2007, the Board of Directors of International Bancshares Corporation issued a press release stating that on August 24, 2007, the Audit Committee, with the approval of the Board of Directors, dismissed KPMG LLP ("KPMG") as the principal accountants for the Company and engaged the accounting firm of McGladrey & Pullen, LLP as the Company's independent registered accounting firm. The reports of KPMG on the Company's financial statements as of and for the years ended December 31, 2006 and 2005 did not contain any adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles, except as follows:

KPMG's report on the consolidated financial statements of the Company as of and for the year ended December 31, 2006, contained a separate paragraph stating that "As discussed in Note 1 to the Consolidated Financial Statements, effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R, *Share-based Payment*, to account for stock-based compensation.

KPMG's report on the consolidated financial statements of the Company as of and for the year ended December 31, 2005, contained a separate paragraph stating that "As discussed in note 1 to the consolidated financial statements, effective December 31, 2003, the Company changed the method of accounting for its investment in its statutory business trusts.

The audit reports of KPMG on management's assessment of the effectiveness of internal control over financial reporting and the effectiveness of internal control over financial reporting as of December 31, 2006 and 2005 did not contain any adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles.

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-K

During the fiscal years ended December 31, 2006 and 2005, and the subsequent interim period through August 24, 2007, there were no: (1) disagreements with KPMG on any matter of accounting principles, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of KPMG, would have caused KPMG to make reference in connection with their opinion to the subject matter of the disagreement, or (2) reportable events (as defined in paragraphs (A) through (D) of Regulation S-K Item 304(a)(1)(v)).

The Company has agreed to indemnify and hold KPMG harmless against and from any and all legal costs and expenses incurred by KPMG in successful defense of any legal action or proceeding that arises as a result of KPMG's consent to the inclusion (or incorporation by reference) of its audit report on the Company's past financial statements included (or incorporated by reference) in this Form 10-K.

Table of Contents

Item 9A. Controls and Procedures

As of the end of the period covered by this Annual Report on Form 10-K, an evaluation was carried out by the management of International Bancshares Corporation, (the Corporation) with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Corporation's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of the end of the period covered by this report. Additionally, there were no changes in the Corporation's internal control over financial reporting that occurred during the quarter ended December 31, 2008 that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

The management of the Company is responsible for establishing and maintaining adequate internal controls over financial reporting, as defined under Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934. The Company's internal control over financial reporting is a process designed under the supervision of the Company's Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with generally accepted accounting principles.

As of December 31, 2008, management assessed the effectiveness of the design and operation of the Company's internal controls over financial reporting based on the criteria for effective internal control over financial reporting established in Internal Control Integrated Framework, issued by the Committee of Sponsoring Organizations (COSO) of the Treadway Commission. Based on the assessment, management determined that the Company maintained effective internal control over financial reporting as of December 31, 2008, based on those criteria.

McGladrey & Pullen, LLP, the independent registered public accounting firm that audited the 2008 consolidated financial statements of the Company included in this Annual Report on Form 10-K, has audited the effectiveness of the Company's internal control over financial reporting as of December 31, 2008. Their report, which expresses an unqualified opinion, on the effectiveness of the Company's internal control over financial reporting as of December 31, 2008 is included in this Item under the heading Report of Independent Registered Public Accounting Firm.

Table of Contents

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

International Bancshares Corporation:

We have audited International Bancshares Corporation and subsidiaries (the Company) internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control, based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, International Bancshares Corporation and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Table of Contents

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of International Bancshares Corporation and subsidiaries as of and for the years ended December 31, 2008, and our report dated February 24, 2009 expressed an unqualified opinion on those consolidated financial statements.
