THE MACERICH COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

1. Organization:

The Macerich Company (the "Company") is involved in the acquisition, ownership, development, redevelopment, management and leasing of regional and community shopping centers (the "Centers") located throughout the United States.

The Company commenced operations effective with the completion of its initial public offering on March 16, 1994. As of September 30, 2012, the Company was the sole general partner of, and held a 93% ownership interest in, The Macerich Partnership, L.P. (the "Operating Partnership"). The Company was organized to qualify as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Code").

The property management, leasing and redevelopment of the Company's portfolio is provided by the Company's management companies, Macerich Property Management Company, LLC, a single member Delaware limited liability company, Macerich Management Company, a California corporation, Macerich Arizona Partners LLC, a single member Arizona limited liability company, Macerich Arizona Management LLC, a single member Delaware limited liability company, Macerich Partners of Colorado LLC, a Colorado limited liability company, MACW Mall Management, Inc., a New York corporation, and MACW Property Management, LLC, a single member New York limited liability company. All seven of the management companies are collectively referred to herein as the "Management Companies."

All references to the Company in this Quarterly Report on Form 10-Q include the Company, those entities owned or controlled by the Company and predecessors of the Company, unless the context indicates otherwise.

2. Summary of Significant Accounting Policies:

Basis of Presentation:

The accompanying consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements and have not been audited by independent public accountants.

The accompanying consolidated financial statements include the accounts of the Company and the Operating Partnership. Investments in entities in which the Company retains a controlling financial interest or entities that meet the definition of a variable interest entity in which the Company has, as a result of ownership, contractual or other financial interests, both the power to direct activities that most significantly impact the economic performance of the variable interest entity and the obligation to absorb losses or the right to receive benefits that could potentially be significant to the variable interest entity are consolidated; otherwise they are accounted for under the equity method of accounting and are reflected as "investments in unconsolidated joint ventures."

The Company had identified Shoppingtown Mall, L.P. ("Shoppingtown Mall") and Camelback Shopping Center Limited Partnership as variable interest entities that met the criteria for consolidation. On September 14, 2011, the Company redeemed the outside ownership interests in Shoppingtown Mall

2. Summary of Significant Accounting Policies: (Continued)

for a cash payment of \$11,366 (See Note 13 Noncontrolling Interests). As a result of the redemption, the property became wholly-owned by the Company. On December 30, 2011, the Company conveyed Shoppingtown Mall to the mortgage note lender by a deed-in-lieu of foreclosure (See Note 16 Discontinued Operations). The net assets and results of operations of Camelback Shopping Center Limited Partnership included in the accompanying consolidated financial statements were insignificant to the net assets and results of operations of the Company.

All intercompany accounts and transactions have been eliminated in the consolidated financial statements.

The unaudited interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the consolidated financial statements for the interim periods have been made. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The accompanying consolidated balance sheet as of December 31, 2011 has been derived from the audited financial statements, but does not include all disclosures required by GAAP.

Capitalization of Costs:

The Company capitalizes costs incurred in redevelopment, development, renovation and improvement of properties. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. These capitalized costs include direct and certain indirect costs clearly associated with the project. Indirect costs include real estate taxes, insurance and certain shared administrative costs. In assessing the amounts of direct and indirect costs to be capitalized, allocations are made to projects based on estimates of the actual amount of time spent on each activity. Indirect costs not clearly associated with specific projects are expensed as period costs. Capitalized indirect costs are allocated to development and redevelopment activities based on the square footage of the portion of the building not held available for immediate occupancy. If costs and activities incurred to ready the vacant space cease, then cost capitalization is also discontinued until such activities are resumed. Once work has been completed on a vacant space, project costs are no longer capitalized. For projects with extended lease-up periods, the Company ends the capitalization when significant activities have ceased, which does not exceed the shorter of a one-year period after the completion of the building shell or when the construction is substantially complete.

Acquisition Costs:

The Company immediately expenses costs associated with business combinations as period costs.

2. Summary of Significant Accounting Policies: (Continued)

Recent Accounting Pronouncements:

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2011-4, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-4"). The amendments in this update result in additional fair value measurement and disclosure requirements within U.S. GAAP and International Financial Reporting Standards. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The adoption of ASU 2011-4 on January 1, 2012 did not have an impact on the Company's consolidated financial position or results of operations. The Company has disclosed in the notes to the consolidated financial statements whether the fair value measurements are Level 1, 2 or 3.

In June 2011, the FASB issued Accounting Standards Update No. 2011-5, Presentation of Comprehensive Income. The amendments require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income, the components of other comprehensive income and the total of comprehensive income. In December 2011, the FASB deferred portions of this update in its issuance of Accounting Standards Update No. 2011-12. The Company has elected the two-statement approach and the required consolidated financial statements are presented herein.

4. Investments in Unconsolidated Joint Ventures:

The Company has recently made the following investments and dispositions relating to its unconsolidated joint ventures:

On February 24, 2011, the Company's joint venture in Kierland Commons Investment LLC ("KCI") acquired an additional ownership interest in PHXAZ/Kierland Commons, L.L.C. ("Kierland Commons"), a 433,000 square foot regional shopping center in Scottsdale, Arizona, for \$105,550. The Company's share of the purchase price consisted of a cash payment of \$34,162 and the assumption of a pro rata share of debt of \$18,613. As a result of this transaction, KCI increased its ownership interest in Kierland Commons from 49% to 100%. KCI accounted for the acquisition as a business combination achieved in stages and recognized a remeasurement gain of \$25,019 based on the acquisition date fair value and its previously held investment in Kierland Commons. As a result of this transaction, the Company's ownership interest in KCI increased from 24.5% to 50%. The Company's pro rata share of the gain recognized by KCI was \$12,510 and was included in equity in income from unconsolidated joint ventures.

On February 28, 2011, the Company in a 50/50 joint venture acquired The Shops at Atlas Park, a 376,000 square foot community center in Queens, New York, for a total purchase price of \$53,750. The Company's share of the purchase price was \$26,875. The results of The Shops at Atlas Park are included below for the period subsequent to the acquisition.

On February 28, 2011, the Company acquired the additional 50% ownership interest in Desert Sky Mall, an 893,000 square foot regional shopping center in Phoenix, Arizona, that it did not own for \$27,625. The purchase price was funded by a cash payment of \$1,875 and the assumption of the third party's pro rata share of the mortgage note payable on the property of \$25,750. Concurrent with the purchase of the partnership interest, the Company paid off the \$51,500 loan on the property. Prior to the acquisition, the Company had accounted for its investment in Desert Sky Mall under the equity method. Since the date of acquisition, the Company has included Desert Sky Mall in its consolidated financial statements (See Note 15 Acquisitions).

4. Investments in Unconsolidated Joint Ventures: (Continued)

On April 1, 2011, the Company's joint venture in SDG Macerich Properties, L.P. ("SDG Macerich") conveyed Granite Run Mall to the mortgage note lender by a deed-in-lieu of foreclosure. The mortgage note was non-recourse. The Company's pro rata share of gain on the extinguishment of debt was \$7,753.

On June 3, 2011, the Company entered into a transaction with General Growth Properties, Inc., whereby the Company acquired an additional 33.3% ownership interest in Arrowhead Towne Center, an additional 33.3% ownership interest in Superstition Springs Center, and an additional 50% ownership interest in the land under Superstition Springs Center ("Superstition Springs Land") that it did not own in exchange for six anchor locations, including five former Mervyn's stores (See Note 16 Discontinued Operations) and a cash payment of \$75,000. As a result of this transaction, the Company now owns a 66.7% ownership interest in Arrowhead Towne Center, a 66.7% ownership interest in Superstition Springs Center and a 100% ownership interest in Superstition Springs Land. Although the Company had a 66.7% ownership interest in Arrowhead Towne Center and Superstition Springs Center upon completion of the transaction, the Company does not have a controlling financial interest in these joint ventures due to the substantive participation rights of the outside partner and, therefore, continues to account for its investments in these joint ventures under the equity method of accounting. Accordingly, no remeasurement gain was recorded on the increase in ownership. The Company has consolidated its investment in Superstition Springs Land since the date of acquisition (See Note 15 Acquisitions) and has recorded a remeasurement gain of \$1,734 as a result of the increase in ownership. This transaction is referred to herein as the "GGP Exchange". On October 26, 2012, the Company in a separate transaction, purchased the remaining 33.3% outside ownership interest in Arrowhead Towne Center (See Note 21 Subsequent Events).

On December 31, 2011, the Company and its joint venture partner reached agreement for the distribution and conveyance of interests in SDG Macerich that owned 11 regional shopping centers in a 50/50 partnership. Six of the eleven assets were distributed to the Company on December 31, 2011. The Company received 100% ownership of Eastland Mall in Evansville, Indiana, Lake Square Mall in Leesburg, Florida, SouthPark Mall in Moline, Illinois, Southridge Mall in Des Moines, Iowa, NorthPark Mall in Davenport, Iowa and Valley Mall in Harrisonburg, Virginia (collectively referred to herein as the "SDG Acquisition Properties"). The ownership interests in the remaining five regional malls were distributed to the outside partner. The remaining net assets of SDG Macerich were distributed during the nine months ended September 30, 2012. The SDG Acquisition Properties were recorded at fair value at the date of transfer, which resulted in a gain to the Company of \$188,264, which was included in equity in income of unconsolidated joint ventures, based on the fair value of the assets acquired and the liabilities assumed in excess of the book value of the Company's interest in SDG Macerich. The distribution and conveyance of the 11 regional shopping centers is referred to herein as the "SDG Transaction". Prior to the SDG Transaction, the Company accounted for its investment in the SDG Acquisition Properties under the equity method of accounting. Since the date of distribution and conveyance, the Company has included the SDG Acquisition Properties in its consolidated financial statements (See Note 15 Acquisitions).

On March 30, 2012, the Company sold its 50% ownership interest in Chandler Village Center, a 273,439 square foot community center in Chandler, Arizona, for a total sales price of \$14,795, resulting

in a gain of \$8,185 that was included in gain on remeasurement, sale or write down of assets, net during the nine months ended September 30, 2012. The sales price was funded by a cash payment of \$6,045 and the assumption of the Company's share of the mortgage note payable on the property of \$8,750. The Company used the cash proceeds from the sale to pay down its line of credit and for general corporate purposes.

On March 30, 2012, the Company sold its 50% ownership interest in Chandler Festival, a 500,426 square foot community center in Chandler, Arizona, for a total sales price of \$30,975, resulting in a gain of \$12,347 that was included in gain on remeasurement, sale or write down of assets, net during the nine months ended September 30, 2012. The sales price was funded by a cash payment of \$16,183 and the assumption of the Company's share of the mortgage note payable on the property of \$14,792. The Company used the cash proceeds from the sale to pay down its line of credit and for general corporate purposes.

On March 30, 2012, the Company's joint venture in SanTan Village Power Center, a 491,037 square foot community center in Gilbert, Arizona, sold the property for \$54,780, resulting in a gain to the joint venture of \$23,307. The cash proceeds from the sale were used to pay off the \$45,000 mortgage loan on the property and the remaining \$9,780 was distributed to the partners. The Company's share of the gain recognized was \$11,504, which was included in equity in income of unconsolidated joint ventures, offset in part by \$3,566 that was included in net income attributable to noncontrolling interests.

On May 31, 2012, the Company sold its 50% ownership interest in Chandler Gateway, a 259,535 square foot community center in Chandler, Arizona, for a total sales price of \$14,315, resulting in a gain of \$3,365 that was included in gain on remeasurement, sale or write down of assets, net during the nine months ended September 30, 2012. The sales price was funded by a cash payment of \$4,921 and the assumption of the Company's share of the mortgage note payable on the property of \$9,394. The Company used the cash proceeds from the sale to pay down its line of credit and for general corporate purposes.

On August 10, 2012, the Company was bought out of its ownership interest in NorthPark Center, a 1,946,178 square foot regional shopping center in Dallas, Texas, for \$118,810, resulting in a gain of \$24,590 that was included in gain on remeasurement, sale or write down of assets, net during the three and nine months ended September 30, 2012. The Company used the cash proceeds to pay down its line of credit.

The mortgage notes payable balances include the unamortized debt premiums (discounts). Debt premiums (discounts) represent the excess (deficiency) of the fair value of debt over (under) the principal value of debt assumed in various acquisitions and are amortized to interest expense over the remaining term of the related debt in a manner that approximates the effective interest method.

The Company expects that all loan maturities during the next twelve months will be refinanced, restructured, extended and/or paid-off from the Company's line of credit or with cash on hand.

Total interest expense capitalized was \$2,984 and \$2,979 during the three months ended September 30, 2012 and 2011, respectively, and \$7,899 and \$9,598 during the nine months ended September 30, 2012 and 2011, respectively.

Related party mortgage notes payable are amounts due to affiliates of NML. See Note 18 Related Party Transactions for interest expense associated with loans from NML.

The fair value of mortgage notes payable at September 30, 2012 and December 31, 2011 was \$3,531,796 and \$3,477,483, respectively, based on current interest rates for comparable loans. The carrying value of the Senior Notes at December 31, 2011 was \$437,788, which included an unamortized discount of \$1,530. The unamortized discount was amortized into interest expense over the term of the Senior Notes in a manner that approximated the effective interest method. As of December 31, 2011, the effective interest rate was 5.41%. The fair value of the Senior Notes at December 31, 2011 was \$439,318 (Level 1 measurement) based on the quoted market price.

The Company had a \$1,500,000 revolving line of credit that bore interest at LIBOR plus a spread of 0.75% to 1.10% that matured on April 25, 2011. Based on the Company's current leverage levels, the borrowing rate on the new facility is LIBOR plus 2.0%. The line of credit can be expanded, depending on certain conditions, up to a total facility of \$2,000,000 less the outstanding balance of the \$125,000 unsecured term loan as described below. As of September 30, 2012 and December 31, 2011, borrowings under the line of credit were \$255,000 and \$290,000, respectively, at an average interest rate of 2.76% and 2.96%, respectively. The fair value (Level 2 measurement) of the line of credit at September 30, 2012 and December 31, 2011 was \$256,132 and \$292,366, respectively, based on a present value model using a credit interest rate spread offered to the Company for comparable debt.

Term Loan:

On December 8, 2011, the Company obtained a seven-year, \$125,000 unsecured term loan under the line of credit that bears interest at LIBOR plus a spread of 1.95% to 3.20% depending on the Company's overall leverage and matures on December 8, 2018. As a result of this transaction, the mortgage note payable was reclassified to bank and other notes payable. This note bears interest at an effective rate of 6.34% and

matures in September 2013. At September 30, 2012 and December 31, 2011, the Greeley Note had a balance outstanding of \$24,239 and \$24,848, respectively. The fair value (Level 2 measurement) of the note at September 30, 2012 and December 31, 2011 was \$25,138 and \$26,510, respectively, based on current interest rates for comparable loans. The method for computing fair value was determined using a present value model and an interest rate that included a credit value adjustment based on the estimated value of the collateral for the underlying debt.

As of September 30, 2012 and December 31, 2011, the Company was in compliance with all applicable financial loan covenants.

12. Co-Venture Arrangement:

On September 30, 2009, the Company formed a joint venture, whereby a third party acquired a 49.9% interest in Freehold Raceway Mall and Chandler Fashion Center. As part of this transaction, the Company issued a warrant in favor of the third party to purchase 935,358 shares of common stock of the Company at an exercise price of \$46.68 per share. See Note 14 - Stockholders' Equity. The Company received approximately \$174,650 in cash proceeds for the overall transaction, of which \$6,496 was attributed to the warrants.

As a result of the Company having certain rights under the agreement to repurchase the assets after the seventh year of the venture formation, the transaction did not qualify for sale treatment. The Company, however, is not obligated to repurchase the assets. The transaction has been accounted for as a profit-sharing arrangement, and accordingly the assets, liabilities and operations of the properties remain on the books of the Company and a co-venture obligation was established for the amount of \$168,154, representing the net cash proceeds received from the third party less costs allocated to the warrant. The co-venture obligation is increased for the allocation of income to the co-venture partner and decreased for distributions to the co-venture partner. The co-venture obligation was \$95,018 and \$125,171 at September 30, 2012 and December 31, 2011, respectively.

13. Noncontrolling Interests:

The Company allocates net income of the Operating Partnership based on the weighted average ownership interest during the period. The net income of the Operating Partnership that is not attributable to the Company is reflected in the consolidated statements of operations as noncontrolling interests. The Company adjusts the noncontrolling interests in the Operating Partnership at the end of each period to reflect its ownership interest in the Company. The Company had a 93% and 92% ownership interest in the Operating Partnership as of September 30, 2012 and December 31, 2011, respectively. The remaining 7% and 8% limited partnership interest as of September 30, 2012 and December 31, 2011, respectively, was owned by certain of the Company's executive officers and directors, certain of their affiliates, and other third party investors in the form of OP Units. The OP Units may be redeemed for shares of stock or cash, at the Company's option. The redemption value for each OP Unit as of any balance sheet date is the amount equal to the average of the closing price per share of the Company's common stock, par value \$0.01 per share, as reported on the New York Stock Exchange for the 10 trading days ending on the respective balance sheet date. Accordingly, as of

(Unaudited)

13. Noncontrolling Interests: (Continued)

September 30, 2012 and December 31, 2011, the aggregate redemption value of the then-outstanding OP Units not owned by the Company was \$632,918 and \$554,341, respectively.

The Company issued common and preferred units of MACWH, LP in April 2005 in connection with the acquisition of the Wilmorite portfolio. The common and preferred units of MACWH, LP are redeemable at the election of the holder, the Company may redeem them for cash or shares of the Company's stock at the Company's option and they are classified as permanent equity.

Included in permanent equity are outside ownership interests in various consolidated joint ventures. The joint ventures do not have rights that require the Company to redeem the ownership interests in either cash or stock.

The outside ownership interests in the Company's joint venture in Shoppingtown Mall had a purchase option for \$11,366. In addition, under certain conditions as defined by the partnership agreement, these partners had the right to "put" their partnership interests to the Company. Due to the redemption feature of the ownership interest in Shoppingtown Mall, these noncontrolling interests were included in temporary equity as redeemable noncontrolling interests. The Company exercised its right to redeem the outside ownership interests in the partnership for cash and the redemption closed on September 14, 2011. On December 30, 2011, the Company conveyed Shoppingtown Mall to the mortgage note lender by a deed-in-lieu of foreclosure (See Note 10 Mortgage Notes Payable).

14. Stockholders' Equity:

At-The-Market Stock Offering Program ("ATM Program"):

On August 17, 2012, the Company entered into an equity distribution agreement ("Distribution Agreement") with a number of sales agents to issue and sell, from time to time, shares of common stock, par value \$0.01 per share, having an aggregate offering price of up to \$500,000 (the "Shares"). Sales of the Shares, if any, may be made in privately negotiated transactions and/or any other method permitted by law, including sales deemed to be an "at the market" offering, which includes sales made directly on the New York Stock Exchange or sales made to or through a market maker other than on an exchange. The Company will pay each sales agent a commission that will not exceed, but may be lower than, 2% of the gross proceeds of the Shares sold through such sales agent under the Distribution Agreement.

During the three months ended September 30, 2012, the Company sold 2,961,903 shares of common stock under the ATM Program in exchange for aggregate gross proceeds of \$177,896 and net proceeds of \$175,869 after commissions and other transaction costs. The proceeds from the sales were used to pay down the Company's line of credit. As of September 30, 2012, \$322,104 remained available to be sold under the ATM Program. Actual future sales will depend upon a variety of factors including but not limited to market conditions, the trading price of the Company's common stock and the Company's capital needs. The Company has no obligation to sell the remaining shares available for sale under the ATM Program.

Warrants:

On September 30, 2009, the Company issued a warrant in connection with its formation of a co-venture to own and operate Freehold Raceway Mall and Chandler Fashion Center (See Note 12 Co-Venture Arrangement). The warrant provided for the purchase of 935,358 shares of the Company's common stock. The warrant was valued at \$6,496 and recorded as a credit to additional paid-in capital. The warrant was immediately exercisable upon its issuance and was scheduled to expire on December 1, 2012. The warrant had an exercise price of \$46.68 per share, with such price subject to anti-dilutive adjustments. The warrant allowed for either gross or net issue settlement at the option of the warrant holder. In the event that the warrant holder elected a net issue settlement, the Company could have elected to settle the warrant in cash or shares; provided, however, that in the event the Company elected to deliver cash, the holder could have elected to instead have the exercise of the warrant satisfied in shares. In addition, the Company had entered into a registration rights agreement with the warrant holders requiring the Company to provide certain registration rights regarding the resale of shares of common stock underlying the warrant. In December 2011, the holders requested a net issue exercise of 311,786 shares of the warrant and the Company elected to deliver a cash payment of \$1,278 in exchange for the portion of the warrant exercised. On April 10, 2012, the holders requested a net exercise of an additional 311,786 shares of the warrant and the Company elected to deliver a cash payment of \$3,448 in exchange for the portion of the warrant exercised. On October 24, 2012, the holders requested a net exercise of the remaining 311,786 shares of the warrant and the Company elected to deliver a cash payment of \$3,922 in exchange for the final portion of the warrant exercised.

The issuance of the warrants was exempt from registration under the Securities Act of 1933, as amended ("Securities Act"), pursuant to Section 4(2) of the Securities Act. Each investor represented that it was an accredited investor, as defined in Rule 501 of Regulation D, and that it was acquiring the securities for its own account, not as nominee or agent, and not with a view to the resale or distribution of any part thereof in violation of the Securities Act.

15. Acquisitions:

Desert Sky Mall:

On February 28, 2011, the Company acquired the additional 50% ownership interest in Desert Sky Mall, an 893,000 square foot regional shopping center in Phoenix, Arizona, that it did not own for \$27,625. The acquisition was completed in order to gain 100% ownership and control over this well located asset. The purchase price was funded by a cash payment of \$1,875 and the assumption of the third party's pro rata share of the mortgage note payable on the property of \$25,750. Concurrent with the purchase of the partnership interest, the Company paid off the \$51,500 loan on the property. Prior to the acquisition, the Company had accounted for its investment under the equity method (See Note 4 Investments in Unconsolidated Joint Ventures).

Table of Contents**THE MACERICH COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Dollars in thousands, except per share amounts)****(Unaudited)****15. Acquisitions: (Continued)**

The following is a summary of the allocation of the fair value of Desert Sky Mall:

Property	\$ 46,603
Deferred charges, net	5,474
Cash and cash equivalents	6,057
Tenant receivables	202
Other assets, net	4,481
 Total assets acquired	 62,817

Accounts payable	33
Other accrued liabilities	3,017
 Total liabilities assumed	 54,550
 Fair value of acquired net assets (at 100% ownership)	 \$ 8,267

The Company determined that the purchase price represented the fair value of the additional ownership interest in Desert Sky Mall that was acquired. Accordingly, the Company also determined that the fair value of the acquired ownership interest in Desert Sky Mall equaled the fair value of the Company's existing ownership interest.

Fair value of existing ownership interest (at 50% ownership)	\$ 4,164
Carrying value of investment in Desert Sky Mall	(2,296)

In June 2011, the Company recorded an impairment charge of \$35,729 related to Shoppingtown Mall. As a result of the maturity default on the mortgage note payable and the corresponding reduction of the estimated holding period, the Company wrote down the carrying value of the long-lived assets to its estimated fair value of \$38,968. The Company had classified the estimated fair value as a Level 3 measurement due to the highly subjective nature of the computation, which involved estimates of holding period, market conditions, future occupancy levels, rental rates, capitalization rates, lease-up periods and capital improvements. On December 30, 2011, the Company conveyed Shoppingtown Mall to the mortgage note lender by a deed-in-lieu of foreclosure. Table of Contents**THE MACERICH COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Dollars in thousands, except per share amounts)****(Unaudited)****19. Share and Unit-Based Plans: (Continued)**

\$54.97 per LTIP Unit. The new grants vest over a service period ending January 31, 2013 based on the percentile ranking of the Company in terms of total return to stockholders (the "Total Return") per common stock share relative to the Total Return of a group of peer REITs, as measured at the end of the measurement period. Upon the occurrence of specified events and subject to the satisfaction of applicable vesting conditions, LTIP Units (after conversion into OP Units) are ultimately redeemable for common stock of the Company on a one-unit for one-share basis.

The fair value of the Company's LTIP Units granted in 2012 was estimated on the date of grant using a Monte Carlo Simulation model. The stock price of the Company, along with the stock prices of the group of peer REITs, was assumed to follow the Multivariate Geometric Brownian Motion Process. Multivariate Geometric Brownian Motion Process modeling is commonly used in financial markets, as it allows the modeled quantity (in this case, the stock price) to vary randomly from its current value based on the stock price's expected volatility and current market interest rates. The volatilities of the returns on the price of the Company and the peer group REITs were estimated based on a 0.92-year look-back period. The expected growth rate of the stock prices over the derived service period was determined with consideration of the risk free rate as of the grant date.

The following summarizes the compensation cost under the share and unit-based plans:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2012	2011	2012	2011

The initial purchase price of \$200.0 million was funded by a cash payment of \$78.6 million and the assumption of the mortgage note payable of \$121.4 million. The cash purchase price was funded from borrowings under the Company's line of credit. The purchase and sale agreement includes contingent consideration based on the performance of Fashion Outlets of Niagara Falls USA from the acquisition date through July 21, 2014 that could increase the purchase price from the initial \$200.0 million up to a maximum of \$218.7 million. As of September 30, 2012, the Company estimated the fair value of the contingent consideration as \$15.7 million, which has been included in other accrued liabilities.

On December 31, 2011, the Company and its joint venture partner reached agreement for the distribution and conveyance of interests in SDG Macerich that owned 11 regional malls in a 50/50 partnership. Leesburg, Florida, SouthPark Mall in Moline, Illinois, Southridge Mall in Des Moines, Iowa, NorthPark Mall in Davenport, Iowa and Valley Mall in Harrisonburg, Virginia (collectively referred to herein as the "SDG Acquisition Properties"). These wholly-owned assets were recorded at fair value at the date of transfer, which resulted in a gain to the Company of \$188.3 million. The gain reflected the fair value of the net assets received in excess of the book value of the Company's interest in SDG Macerich. The distribution and conveyance of the properties from SDG Macerich to the Company is referred to herein as the "SDG Transaction".

Other Transactions and Events:

On July 15, 2010, a court appointed receiver assumed operational control of Valley View Center and responsibility for managing all aspects of the property. In March 2012, the Company recorded an impairment charge of \$54.3 million to write down the carrying value of the long-lived assets to its estimated fair value. On April 23, 2012, the property was sold by the receiver for \$33.5 million, which resulted in a gain on the extinguishment of debt of \$104.0 million.

On April 1, 2011, the Company's joint venture in SDG Macerich conveyed Granite Run Mall to the mortgage note lender by a deed-in-lieu of foreclosure. The mortgage note was non-recourse. The Company's pro rata share of gain on extinguishment of debt was \$7.8 million.

On May 11, 2011, the non-recourse mortgage note payable on Shoppingtown Mall went into maturity default. As a result of the maturity default and the corresponding reduction of the estimated holding period, the Company recognized an impairment charge of \$35.7 million to write-down the carrying value of the long-lived assets to its estimated fair value. On September 14, 2011, the Company exercised its right and redeemed the outside ownership interests in the Center for a cash payment of \$11.4 million. On December 30, 2011, the Company conveyed the property to the mortgage note lender by a deed-in-lieu of foreclosure. Redevelopment and Development Activity:

In August 2011, the Company entered into a joint venture agreement with a subsidiary of AWE/Talisman for the development of Fashion Outlets of Chicago in the Village of Rosemont, Illinois. The Company will own 60% of the joint venture and AWE/Talisman will own 40%. The Center will be a fully enclosed two level, 528,000 square foot outlet center. The site is located within a mile of O'Hare International Airport. The project broke ground in November 2011 and is expected to be completed in Summer 2013. The total estimated project cost is approximately \$200.0 million. As of September 30, 2012, the joint venture has incurred \$61.8 million of development costs. On March 2, 2012, the joint venture obtained a construction loan on the property that allows for borrowings up to \$140.0 million, bears interest at LIBOR plus 2.50% and matures March 2, 2017. As of September 30, 2012, no borrowings have been made under the loan. Fashion Outlets of Chicago is referred to herein as the Development Property.

The Company's joint venture in Tysons Corner, a 1,985,000 square foot regional shopping center in McLean, Virginia, is currently expanding the property to include a 500,000 square foot office building, a 450 unit residential tower and a 300 room hotel. The joint venture started the expansion project in October 2011 and expects it to be completed in Fall 2014. The total cost of the project is estimated at \$600.0 million, of which \$300.0 million is estimated to be the Company's pro rata share. The Company has funded \$48.6 million of the total of \$97.2 million incurred by the joint venture as of September 30, 2012.

Inflation:

In the last three years, inflation has not had a significant impact on the Company because of a relatively low inflation rate. Most of the leases at the Centers have rent adjustments periodically through the lease term. These rent increases are either in fixed increments or based on an annual multiple of increases in the Consumer Price Index ("CPI"). In addition, about 6% to 15% of the leases

Table of Contents

expire each year, which enables the Company to replace existing leases with new leases at higher base rents if the rents of the existing leases are below the then existing market rate. The Company has generally entered into leases that require tenants to pay a stated amount for operating expenses, generally excluding property taxes, regardless of the expenses actually incurred at any Center, which places the burden of cost control on the Company. Additionally, certain leases require the tenants to pay their pro rata share of operating expenses.

Seasonality:

The shopping center industry is seasonal in nature, particularly in the fourth quarter during the holiday season when retailer occupancy and retail sales are typically at their highest levels. In addition, shopping malls achieve a substantial portion of their specialty (temporary retailer) rents during the holiday season and the majority of percentage rent is recognized in the fourth quarter. As a result of the above, earnings are generally higher in the fourth quarter.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Some of these estimates and assumptions include judgments on revenue recognition, estimates for common area maintenance and real estate tax accruals, provisions for uncollectible accounts, impairment of long-lived assets, the allocation of purchase price between tangible and intangible assets, and estimates for environmental matters. The Company's significant accounting policies are described in more detail in Note 2 Summary of Significant Accounting Policies in the Company's Notes to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K. However, the following policies are deemed to be critical.

Revenue Recognition:

Minimum rental revenues are recognized on a straight-line basis over the term of the related lease. The difference between the amount of rent due in a year and the amount recorded as rental income is referred to as the "straight line rent adjustment." Currently, approximately 62% of the mall store and freestanding store leases contain provisions for CPI rent increases periodically throughout the term of the lease. The Company believes that using an annual multiple of CPI increases, rather than fixed contractual rent increases, results in revenue recognition that more closely matches the cash revenue from each lease and will provide more consistent rent growth throughout the term of the leases. Percentage rents are recognized when the tenants' specified sales targets have been met. Estimated recoveries from certain tenants for their pro rata share of real estate taxes, insurance and other shopping center operating expenses are recognized as revenues in the period the applicable expenses are incurred. Other tenants pay a fixed rate and these tenant recoveries' revenues are recognized on a straight-line basis over the term of the related leases.

Property:

Maintenance and repair expenses are charged to operations as incurred. Costs for major replacements and betterments, which includes HVAC equipment, roofs, parking lots, etc., are capitalized and depreciated over their estimated useful lives. Gains and losses are recognized upon disposal or retirement of the related assets and are reflected in earnings.

Table of Contents

Property is recorded at cost and is depreciated using a straight-line method over the estimated useful lives of the assets as follows:

Buildings and improvements	5 - 40 years
Tenant improvements	5 - 7 years
Equipment and furnishings	5 - 7 years

Capitalization of Costs:

The Company capitalizes costs incurred in redevelopment, development, renovation and improvement of properties. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. These capitalized costs include direct and certain indirect costs clearly associated with the project. Indirect costs include real estate taxes, insurance and certain shared administrative costs. In assessing the amounts of direct and indirect costs to be capitalized, allocations are made to projects based on estimates of the actual amount of time spent on each activity. Indirect costs not clearly associated with specific projects are expensed as period costs. Capitalized indirect costs are allocated to development and redevelopment activities based on the square footage of the portion of the building not held available for immediate occupancy. If costs and activities incurred to ready the vacant space cease, then cost capitalization is also discontinued until such activities are resumed. Once work has been completed on a vacant space, project costs are no longer capitalized. For projects with extended lease-up periods, the Company ends the capitalization when significant activities have ceased, which does not exceed the shorter of a one-year period after the completion of the building shell or when the construction is substantially complete.

Accounting for Acquisitions:

The Company first determines the value of land and buildings utilizing an "as if vacant" methodology. The Company then assigns the fair value to any debt assumed at acquisition. The Company then allocates the purchase price based on fair value of the land, building, tenant improvements and identifiable intangible assets received and liabilities assumed. Tenant improvements represent the tangible assets associated with the existing leases valued on a fair value basis at the acquisition date prorated over the remaining lease terms. The tenant improvements are classified as an asset under property and are depreciated over the remaining lease terms. Identifiable intangible assets and liabilities relate to the value of in-place operating leases which come in three forms: (i) leasing commissions and legal costs, which represent the value associated with "cost avoidance" of acquiring in-place leases, such as lease commissions paid under terms generally experienced in the Company's markets; (ii) value of in-place leases, which represents the estimated loss of revenue and of costs incurred for the period required to lease the "assumed vacant" property to the occupancy level when purchased; and (iii) above or below market value of in-place leases, which represents the difference between the contractual rents and market rents at the time of the acquisition, discounted for tenant credit risks. Leasing commissions and legal costs are recorded in deferred charges and other assets and are amortized over the remaining lease terms. The value of in-place leases are recorded in deferred charges and other assets and are amortized over the remaining lease terms plus an estimate of renewal of the acquired leases. Above or below market leases are classified in deferred charges and other assets or in other accrued liabilities, depending on whether the contractual terms are above or below market.

The allocated values of above and below-market leases are amortized into minimum rents on a straight-line basis over the individual remaining lease terms. The remaining lease terms of below-market leases may include certain below-market fixed-rate renewal periods. In considering whether or not a lessee will execute a below-market fixed-rate lease renewal option, the Company evaluates

Table of Contents

economic factors and certain qualitative factors at the time of acquisition such as tenant mix in the center, the Company's relationship with the tenant and the availability of competing tenant space.

The Company immediately expenses costs associated with business combinations as period costs.

Asset Impairment:

The Company assesses whether an indicator of impairment in the value of its properties exists by considering expected future operating income, trends and prospects, as well as the effects of demand, competition and other economic factors. Such factors include projected rental revenue, operating costs and capital expenditures as well as estimated holding periods and capitalization rates. If an impairment indicator exists, the determination of recoverability is made based upon the estimated undiscounted future net cash flows, excluding interest expense. The amount of impairment loss, if any, is determined by comparing the fair value, as determined by a discounted cash flows analysis, with the carrying value of the related assets. The Company generally holds and operates its properties long-term, which decreases the likelihood of their carrying values not being recoverable. Properties classified as held for sale are measured at the lower of the carrying amount or fair value less cost to sell.

The Company reviews its investments in unconsolidated joint ventures for a series of operating losses and other factors that may indicate that a decrease in the value of its investments has occurred which is other-than-temporary. The investment in each unconsolidated joint venture is evaluated periodically, and as deemed necessary, for recoverability and valuation declines that are other than temporary.

Fair Value of Financial Instruments:

The fair value hierarchy distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity and the reporting entity's own assumptions about market participant assumptions.

Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The Company calculates the fair value of financial instruments and includes this additional information in the notes to consolidated financial statements when the fair value is different than the carrying value of those financial instruments. When the fair value reasonably approximates the carrying value, no additional disclosure is made.

Deferred Charges:

Costs relating to obtaining tenant leases are deferred and amortized over the initial term of the agreement using the straight-line method. As these deferred leasing costs represent productive assets incurred in connection with the Company's provision of leasing arrangements at the Centers, the related cash flows are classified as investing activities within the Company's Consolidated Statements of Cash Flows. Costs relating to financing of shopping center properties are deferred and amortized over the life of the related loan using the straight-line method, which approximates the effective interest method. In-place lease values are amortized over the remaining lease term plus an estimate of the renewal term. Leasing commissions and legal costs are amortized on a straight-line basis over the individual remaining lease years. The ranges of the terms of the agreements are as follows:

Deferred lease costs	1 - 15 years
Deferred financing costs	1 - 15 years
In-place lease values	Remaining lease term plus an estimate for renewal
Leasing commissions and legal costs	1 - 10 years

Results of Operations

Many of the variations in the results of operations, discussed below, occurred because of the transactions affecting the Company's properties described above, including the Acquisition Properties (as defined below) and the Development Property.

For purposes of the discussion below, the Company defines "Same Centers" as those Centers that are substantially complete and in operation for the entirety of both periods of the comparison. Non-Same Centers for comparison purposes include recently acquired properties ("Acquisition Properties") and those Centers or properties that are going through a substantial redevelopment often resulting in the closing of a portion of the Center ("Development Properties"). The Company moves a Center in and out of Same Centers based on whether the Center is substantially complete and in operation for the entirety of both periods of the comparison. Accordingly, the Same Centers consists of all consolidated centers, excluding the Acquisition Properties and the Development Properties for the periods of comparison.

For comparison of the three months ended September 30, 2012 to the three months ended September 30, 2011, the Acquisition Properties include Fashion Outlets of Niagara Falls USA, the SDG Acquisition Properties and 500 North Michigan Avenue. For comparison of the nine months ended September 30, 2012 to the nine months ended September 30, 2011, the Acquisition Properties include Desert Sky Mall, the Kohl's store at Capitola Mall, Superstition Springs Land, Fashion Outlets of Niagara Falls USA, the SDG Acquisition Properties and 500 North Michigan Avenue. The increase in revenues and expenses of the Acquisition Properties during the three and nine months ended September 30, 2012 in comparison to the three and nine months ended September 30, 2011 is primarily due to the inclusion of the SDG Acquisition Properties in the results of operations in 2012. (See "Acquisitions and Dispositions" in Management's Overview and Summary).

Unconsolidated joint ventures are reflected using the equity method of accounting. The Company's pro rata share of the results from these Centers is reflected in the Consolidated Statements of Operations as equity in income of unconsolidated joint ventures.

The Company considers tenant annual sales per square foot (for tenants in place for a minimum of 12 months and 10,000 square feet and under) for regional shopping centers, occupancy rates (excluding large retail stores or "Anchors") for the Centers and releasing spreads (i.e. a comparison of average base rent per square foot on leases executed during the trailing twelve months to average base

Table of Contents

rent per square foot on leases expiring during the year based on spaces 10,000 square feet and under) to be key performance indicators of the Company's internal growth.

Tenant sales per square foot increased from \$467 for the twelve months ended September 30, 2011 to \$511 for the twelve months ended September 30, 2012. Occupancy rate increased from 91.9% at September 30, 2011 to 93.0% at September 30, 2012. Releasing spreads increased 18.5% for the twelve months ended September 30, 2012. These calculations exclude Valley View Center, Granite Run Mall, Shoppingtown Mall, Prescott Gateway and Centers under development or redevelopment.

The Company's recent trend of retail sales growth continued during the twelve months ended September 30, 2012 with tenant sales per square foot and releasing spreads increasing compared to the twelve months ended September 30, 2011. The Company expects that releasing spreads will continue to be positive during the remainder of 2012 as it renews or relets leases that are scheduled to expire during the year. The Company's occupancy rate as of September 30, 2012 also increased compared to September 30, 2011. Although certain aspects of the U.S. economy, the retail industry as well as the Company's operating results have continued to improve, economic and political uncertainty remains in various parts of the world. In addition, the U.S. economy is still experiencing weakness, high levels of unemployment have persisted and rental rates and valuations for retail space have not fully recovered to pre-recession levels. Any further continuation of these adverse conditions could harm the Company's business, results of operations and financial condition.

Comparison of Three Months Ended September 30, 2012 and 2011

Revenues:

Minimum and percentage rents (collectively referred to as "rental revenue") increased \$12.3 million, or 11.0%, from 2011 to 2012. The increase in rental revenue is attributed to an increase of \$12.3 million from the Acquisition Properties. Rental revenue includes the amortization of above and below-market leases, the amortization of straight-line rents and lease termination income. The amortization of above and below-market leases decreased from \$2.6 million in 2011 to \$0.5 million in 2012. The amortization of straight-line rents decreased from \$2.4 million in 2011 to \$1.8 million in 2012. Lease termination income remained constant at \$1.3 million in 2011 and 2012.

Tenant recoveries increased \$5.0 million, or 7.8%, from 2011 to 2012. This increase in tenant recoveries is attributed to an increase of \$5.6 million from the Acquisition Properties offset in part by a decrease of \$0.6 million from the Same Centers.

Management Companies' revenue increased from \$9.8 million in 2011 to \$9.9 million in 2012 due primarily to an increase in development fees.

Shopping Center and Operating Expenses:

Shopping center and operating expenses increased \$4.6 million, or 7.3%, from 2011 to 2012. The increase in shopping center and operating expenses is attributed to an increase of \$7.1 million from the Acquisition Properties offset in part by a decrease of \$2.5 million from the Same Centers. The decrease from the Same Centers is primarily attributed to a decrease in utilities, property taxes and other operating expenses.

Management Companies' Operating Expenses:

Management Companies' operating expenses increased \$0.5 million from 2011 to 2012 due to an increase in compensation costs in 2012.

Table of Contents

REIT General and Administrative Expenses:

REIT general and administrative expenses increased by \$0.6 million from 2011 to 2012 due to an increase in compensation costs in 2012.

Depreciation and Amortization:

Depreciation and amortization increased \$7.9 million from 2011 to 2012. The increase in depreciation and amortization is primarily attributed to an increase of \$8.0 million from the Acquisition Properties offset in part by a decrease of \$0.1 million from the Same Centers.

Interest Expense:

Interest expense decreased \$1.1 million from 2011 to 2012. The decrease in interest expense was primarily attributed to decreases of \$8.0 million from the Senior Notes which were paid off in full in March 2012 (See Liquidity and Capital Resources) offset in part by increases of \$3.5 million from the Acquisition Properties, \$1.3 million from the borrowings under the Company's line of credit, \$1.1 million from the Same Centers, \$0.8 million from the term loan (See Liquidity and Capital Resources) and \$0.2 million from the Development Property.

The above interest expense items are net of capitalized interest, which was \$3.0 million in 2011 and 2012.

Equity in Income of Unconsolidated Joint Ventures:

Equity in income of unconsolidated joint ventures decreased \$0.7 million from 2011 to 2012.

Gain on Remeasurement, Sale or Write Down of Assets, net:

Gain on remeasurement, sale or write down of assets increased \$20.9 million from 2011 to 2012. The increase is primarily attributed to the \$24.6 million gain on the buyout of the Company's ownership interest in NorthPark Center in 2012 offset in part by the write down of certain development costs.

Income (Loss) From Discontinued Operations:

Income from discontinued operations increased \$4.3 million from 2011 to 2012. The increase in income from discontinued operations is primarily due to the \$4.0 million loss from operations at Valley View Center in 2011 (See "Other Transactions and Events" in Management's Overview and Summary).

Net Income:

Net income increased \$33.0 million from 2011 to 2012. The increase is primarily attributed to the increase in gain on remeasurement, sale or write down of assets, net of \$20.9 million and the increase in income from discontinued operations of \$4.3 million as discussed above.

Funds From Operations ("FFO"):

Primarily as a result of the factors mentioned above, FFO diluted increased 8.3% from \$104.2 million in 2011 to \$112.9 million in 2012. For a reconciliation of FFO and FFO diluted to net income available to the common stockholders, the most directly comparable GAAP financial measure, see "Funds from Operations and Adjusted Funds from Operations."

Table of Contents

Comparison of Nine Months Ended September 30, 2012 and 2011

Revenues:

Rental revenue increased by \$43.5 million, or 13.4%, from 2011 to 2012. The increase in rental revenue is attributed to an increase of \$45.5 million from the Acquisition Properties offset in part by a decrease of \$2.0 million from the Same Centers. The amortization of above and below-market leases decreased from \$6.7 million in 2011 to \$4.3 million in 2012. The amortization of straight-line rents increased from \$3.9 million in 2011 to \$4.4 million in 2012 primarily because of the Acquisition Properties. Lease termination income decreased from \$4.4 million in 2011 to \$3.6 million in 2012.

Tenant recoveries increased \$18.1 million, or 10.1%, from 2011 to 2012. This increase in tenant recoveries is attributed to an increase of \$18.7 million from the Acquisition Properties offset in part by a decrease of \$0.6 million from the Same Centers.

Management Companies revenue increased from \$28.5 million in 2011 to \$30.7 million in 2012 due primarily to an increase in development fees.

Shopping Center and Operating Expenses:

Shopping center and operating expenses increased \$19.0 million, or 10.6%, from 2011 to 2012. The increase in shopping center and operating expenses is attributed to an increase of \$23.2 million from the Acquisition Properties offset in part by a decrease of \$4.2 million from the Same Centers. The decrease at the Same Centers is primarily attributed to a decrease in utilities and other operating expenses.

Management Companies' Operating Expenses:

Management Companies' operating expenses decreased \$0.1 million from 2011 to 2012.

REIT General and Administrative Expenses:

REIT general and administrative expenses decreased by \$0.6 million from 2011 to 2012.

Depreciation and Amortization:

Depreciation and amortization increased \$32.6 million from 2011 to 2012. The increase in depreciation and amortization is primarily attributed to an increase of \$28.3 million from the Acquisition Properties and \$4.3 million from the Same Centers.

Interest Expense:

Interest expense decreased \$8.0 million from 2011 to 2012. The decrease in interest expense was primarily attributed to decreases of \$19.3 million from the Senior Notes, which were paid off in full in March 2012 (See Liquidity and Capital Resources), \$5.3 million from the Same Centers and \$0.2 million from the Development Property offset in part by increases of \$13.4 million from the Acquisition Properties, \$2.4 million from the term loan (See Liquidity and Capital Resources) and \$1.0 million from the borrowings under the Company's line of credit. The decrease in interest expense at the Same Centers is primarily attributed to the maturity of a \$400.0 million interest rate swap agreement in April 2011.

The above interest expense items are net of capitalized interest, which decreased from \$9.6 million in 2011 to \$7.9 million in 2012, primarily due to a decrease in interest rates.

Table of Contents

Loss on Early Extinguishment of Debt:

The loss on early extinguishment of debt of \$9.1 million in 2011 is attributed to the prepayment of the mortgage note payable on Chesterfield Towne Center.

Equity in Income of Unconsolidated Joint Ventures:

Equity in income of unconsolidated joint ventures decreased \$6.9 million from 2011 to 2012. The decrease is primarily attributed to the \$7.8 million pro rata share of the gain on extinguishment of debt on Granite Run Mall in 2011 (See "Other Transactions and Events" in Management's Overview and Summary).

Gain on Remeasurement, Sale or Write Down of Assets:

Gain on remeasurement, sale or write down of assets increased \$36.5 million from 2011 to 2012. The increase is primarily attributed to the buyout of the Company's ownership interest in NorthPark Center in 2012 and the sales of the Company's ownership interests in Chandler Festival, Chandler Village Center and Chandler Gateway in 2012 (See "Acquisitions and Dispositions" in Management's Overview and Summary).

Income (Loss) From Discontinued Operations:

Income from discontinued operations increased \$120.0 million from 2011 to 2012. The increase in income from discontinued operations is primarily due to the gain on extinguishment of debt of \$104.0 million on Valley View Center and \$16.3 million on Prescott Gateway in 2012, the \$7.8 million gain on the sale of Carmel Plaza in 2012 and the impairment charge of \$35.7 million on Shoppingtown Mall in 2011 offset in part by the impairment charge of \$54.3 million on Valley View Center in 2012 (See "Other Transactions and Events" in Management's Overview and Summary).

Net Income (Loss):

Net income increased \$186.7 million from 2011 to 2012. The increase is primarily attributed to the increases in income from discontinued operations of \$120.0 million and the gain on remeasurement, sale or write down of assets of \$36.5 million as discussed above.

Funds From Operations ("FFO"):

Primarily as a result of the factors mentioned above, FFO diluted increased 58.6% from \$280.8 million in 2011 to \$445.3 million in 2012. For a reconciliation of FFO and FFO diluted to net income (loss) available to the common stockholders, the most directly comparable GAAP financial measure, see "Funds from Operations and Adjusted Funds from Operations."

Operating Activities:

Cash provided by operating activities increased from \$180.5 million in 2011 to \$256.2 million in 2012. The increase was primarily due to changes in assets and liabilities and the results at the Acquisition Properties as discussed above.

Investing Activities:

Cash provided by investing activities increased from a deficit of \$184.5 million in 2011 to a surplus of \$91.5 million in 2012. The increase in cash provided by investing activities was primarily due to an increase of \$124.4 million in proceeds from the sale of assets and a decrease of \$102.3 million in contributions to unconsolidated joint ventures offset in part by a decrease of \$38.0 million in acquisitions of property, development, redevelopment, expansion, renovations and property

improvements. The increase in proceeds from the sale of assets is primarily due to the buyout of the Company's ownership interest in NorthPark Center and the sales of The Borgata, Carmel Plaza, Chandler Festival, Chandler Village Center, Chandler Gateway, Hilton Village and a former Mervyn's store in 2012 (See "Acquisitions and Dispositions" in Management's Overview and Summary).

Financing Activities:

Cash used in financing activities increased from \$302.2 million in 2011 to \$338.4 million in 2012. The increase in cash used in financing activities was primarily due to an increase in payments on mortgages, bank and other notes payable of \$1.4 billion offset in part by an increase in proceeds from mortgages, bank and other notes payable of \$1.1 billion and the net proceeds from the ATM Program of \$175.9 million (See Liquidity and Capital Resources).

Liquidity and Capital Resources

The Company anticipates meeting its liquidity needs for its operating expenses and debt service and dividend requirements for the next twelve months through cash generated from operations, working capital reserves and/or borrowings under its unsecured line of credit.

The following tables summarize capital expenditures incurred at the Centers:

(Dollars in thousands)	For the Nine Months Ended September 30,	
	2012	2011
Consolidated Centers:		
Acquisitions of property and equipment	\$ 86,424	\$ 294,980
Development, redevelopment, expansion and renovations	101,584	73,544
Tenant allowances	12,577	15,200
Deferred leasing charges	17,644	22,884
	\$ 218,229	\$ 406,608
Joint Venture Centers (at Company's pro rata share):		
Acquisitions of property and equipment	\$ 3,064	\$ 139,116
Development, redevelopment, expansion and renovations	54,330	27,379
Tenant allowances	4,841	5,475
Deferred leasing charges	3,407	4,104
	\$ 65,642	\$ 176,074

The Company expects amounts to be incurred during the next twelve months for tenant allowances and deferred leasing charges to be comparable or less than 2011 and that capital for those expenditures will be available from working capital, cash flow from operations, borrowings on property specific debt or unsecured corporate borrowings. The Company expects to incur between \$200 million and \$300 million during the next twelve months for development, redevelopment, expansion and renovations. Capital for these major expenditures, developments and/or redevelopments has been, and is expected to continue to be obtained from a combination of debt or equity financings, which are expected to include borrowings under the Company's line of credit and construction loans. The Company has also generated liquidity in the past through equity offerings, property refinancings, joint venture transactions and the sale of non-core assets. Furthermore, the Company has filed a shelf registration statement which registered an unspecified amount of common stock, preferred stock, depository shares, debt securities, warrants, rights and units.

The capital and credit markets can fluctuate, and at times, limit access to debt and equity financing for companies. As demonstrated by the Company's recent activity, including its new \$500 million ATM

Table of Contents

Program discussed below and its \$1.5 billion line of credit, the Company has recently been able to access capital; however, there is no assurance the Company will be able to do so in future periods or on similar terms and conditions. Many factors impact the Company's ability to access capital, such as its overall debt level, interest rates, interest coverage ratios and prevailing market conditions. In the event that the Company has significant tenant defaults as a result of the overall economy and general market conditions, the Company could have a decrease in cash flow from operations, which could result in borrowings under its line of credit. These events could result in an increase in the Company's proportion of floating rate debt, which would cause it to be subject to interest rate fluctuations in the future.

On August 17, 2012, the Company entered into an equity distribution agreement ("Distribution Agreement") with a number of sales agents to issue and sell, from time to time, shares of common stock, having an aggregate offering price of up to \$500 million (the "Shares"). Sales of the Shares, if any, may be made in privately negotiated transactions and/or any other method permitted by law, including sales deemed to be an "at the market" offering, which includes sales made directly on the New York Stock Exchange or sales made to or through a market maker other than on an exchange. This offering is referred to herein as the "ATM Program." During the three months ended September 30, 2012, the Company sold 2,961,903 shares of common stock under this ATM Program in exchange for aggregate gross proceeds of \$177.9 million and net proceeds of \$175.9 million, after commissions and other transaction costs. The proceeds from the sales were used to pay down the Company's line of credit. As of September 30, 2012, \$322.1 million remained available to be sold under the ATM Program. Actual future sales will depend upon a variety of factors including but not limited to market conditions, the trading price of the Company's common stock and our capital needs. The Company has no obligation to sell the remaining shares available for sale under the ATM Program.

The Company's total outstanding loan indebtedness at September 30, 2012 was \$5.5 billion (including \$380.0 million of unsecured debt and \$1.7 billion of its pro rata share of joint venture debt). The majority of the Company's debt consists of fixed-rate conventional mortgage notes collateralized by individual properties. The Company expects that all of the maturities during the next twelve months will be refinanced, restructured, extended and/or paid off from the Company's line of credit or cash on hand. The Company's loan obligations regarding Valley View Center and Prescott Gateway were discharged on April 23, 2012 and May 31, 2012, respectively (See "Other Transactions and Events" in Management's Overview and Summary).

On March 15, 2012, the Company paid off in full the \$439.3 million of outstanding senior convertible notes ("Senior Notes") that had matured. The repayment was funded by borrowings under the Company's line of credit.

The Company has a \$1.5 billion revolving line of credit that bears interest at LIBOR plus a spread of 1.75% to 3.0% depending on the Company's overall leverage and matures on May 2, 2015 with a one-year extension option. Based on the Company's current leverage levels, the borrowing rate on the new facility is LIBOR plus 2.0%. The line of credit can be expanded, depending on certain conditions, up to a total facility of \$2.0 billion less the outstanding balance of the \$125.0 million unsecured term loan, as discussed below. All obligations under the line of credit are unconditionally guaranteed by the Company and certain of its direct and indirect subsidiaries and are secured, subject to certain exceptions, by pledges of direct and indirect ownership interests in certain of the subsidiary guarantors. At September 30, 2012, total borrowings under the line of credit were \$255.0 million with an average effective interest rate of 2.76%.

The Company has a \$125 million unsecured term loan under the Company's line of credit that bears interest at LIBOR plus a spread of 1.95% to 3.20% depending on the Company's overall leverage and matures on December 8, 2018. Based on the Company's current leverage levels, the borrowing rate is LIBOR plus 2.20%. As of September 30, 2012, the total interest rate was 2.57%.

At September 30, 2012, the Company was in compliance with all applicable loan covenants under its agreements.

At September 30, 2012, the Company had cash and cash equivalents available of \$76.6 million.

Off-Balance Sheet Arrangements:

The Company accounts for its investments in joint ventures that it does not have a controlling interest in or is not the primary beneficiary of, using the equity method of accounting and those investments are reflected on the Consolidated Balance Sheets of the Company as "Investments in unconsolidated joint ventures" and "Distributions in excess of investments in unconsolidated joint ventures".

In addition, certain joint ventures also have secured debt that could become recourse debt to the Company or its subsidiaries, in excess of the Company's pro rata share, should the joint ventures be unable to discharge the obligations of the related debt. At September 30, 2012, the balance of the debt that could be recourse to the Company was \$370.5 million offset in part by indemnity agreements from joint venture partners for \$177.8 million. The maturities of the recourse debt, net of indemnification, are \$167.0 million in 2013, \$16.7 million in 2015 and \$9.0 million in 2016.

Additionally, as of September 30, 2012, the Company is contingently liable for \$4.2 million in letters of credit guaranteeing performance by the Company of certain obligations relating to the Centers. The Company does not believe that these letters of credit will result in a liability to the Company.

Long-term Contractual Obligations:

The following is a schedule of long-term contractual obligations as of September 30, 2012 for the consolidated Centers over the periods in which they are expected to be paid (in thousands):

Funds From Operations and Adjusted Funds From Operations

The Company uses FFO in addition to net income to report its operating and financial results and considers FFO and FFO diluted as supplemental measures for the real estate industry and a supplement to Generally Accepted Accounting Principles ("GAAP") measures. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from extraordinary items and sales of depreciated operating properties, plus real estate related depreciation and amortization, impairment write-downs of real estate and write-downs of investments in an affiliate where the write-downs have been driven by a decrease in the value of real estate held by the affiliate and after adjustments for

Table of Contents

unconsolidated joint ventures. Adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis.

Adjusted FFO ("AFFO") excludes the FFO impact of Shoppingtown Mall and Valley View Center for the three and nine months ended September 30, 2012 and 2011. In December 2011, the Company conveyed Shoppingtown Mall to the lender by a deed-in-lieu of foreclosure. In July 2010, a court-appointed receiver assumed operational control of Valley View Center and responsibility for managing all aspects of the property. Valley View Center was sold by the receiver on April 23, 2012, and the related non-recourse mortgage loan obligation was fully extinguished on that date. On May 31, 2012, the Company conveyed Prescott Gateway to the lender by a deed-in-lieu of foreclosure and the debt was forgiven resulting in a gain on the extinguishment of debt of \$16.3 million. AFFO also excludes the gain on the extinguishment of debt on Prescott Gateway for the three and nine months ended September 30, 2012.

FFO and FFO on a diluted basis are useful to investors in comparing operating and financial results between periods. This is especially true since FFO excludes real estate depreciation and amortization, as the Company believes real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. The Company believes that AFFO and AFFO on a diluted basis provide useful supplemental information regarding the Company's performance as they show a more meaningful and consistent comparison of the Company's operating performance and allow investors to more easily compare the Company's results without taking into account non-cash credits and charges on properties controlled by either a receiver or loan servicer. FFO and AFFO on a diluted basis are measures investors find most useful in measuring the dilutive impact of outstanding convertible securities.

FFO and AFFO do not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income as defined by GAAP, and are not indicative of cash available to fund all cash flow needs. The Company also cautions that FFO and AFFO, as presented, may not be comparable to similarly titled measures reported by other real estate investment trusts.

Management compensates for the limitations of FFO and AFFO by providing investors with financial statements prepared according to GAAP, along with this detailed discussion of FFO and AFFO and a reconciliation of FFO and AFFO and FFO and AFFO-diluted to net income available to common stockholders. Management believes that to further understand the Company's performance, FFO and AFFO should be compared with the Company's reported net income and considered in addition to cash flows in accordance with GAAP, as presented in the Company's Consolidated Financial Statements.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The Company's primary market risk exposure is interest rate risk. The Company has managed and will continue to manage interest rate risk by (1) maintaining a ratio of fixed rate, long-term debt to total debt such that floating rate exposure is kept at an acceptable level, (2) reducing interest rate exposure on certain long-term floating rate debt through the use of interest rate caps and/or swaps with appropriately matching maturities, (3) using treasury rate locks where appropriate to fix rates on anticipated debt transactions, and (4) taking advantage of favorable market conditions for long-term debt and/or equity.

The following table sets forth information as of September 30, 2012 concerning the Company's long-term debt obligations, including principal cash flows by scheduled maturity, weighted average interest rates and estimated fair value ("FV") (dollars in thousands):

The consolidated Centers' total fixed rate debt at September 30, 2012 and December 31, 2011 was \$2.7 billion and \$2.6 billion, respectively. The average interest rate on fixed rate debt at September 30, 2012 and December 31, 2011 was 5.08% and 5.53%, respectively. The average interest rate on the floating rate debt at September 30, 2012 and December 31, 2011 was 3.71% and 3.88%, respectively.

In addition, the Company has assessed the market risk for its floating rate debt and believes that a 1% increase in interest rates would decrease future earnings and cash flows by approximately \$12.9 million per year based on \$1.3 billion of floating rate debt outstanding at September 30, 2012.

The fair value of the Company's long-term debt is estimated based on a present value model utilizing interest rates that reflect the risks associated with long-term debt of similar risk and duration.

In addition, the method of computing fair value for mortgage notes payable included a credit value adjustment based on the estimated value of the property that serves as collateral for the underlying debt (See Note 10 Mortgage Notes Payable and Note 11 Bank and Other Notes Payable in the Company's Notes to the Consolidated Financial Statements).

Item 4. Controls and Procedures

In addition, there has been no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15(d)-15(f) under the Securities Exchange Act of 1934) that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
