ITEM 9. REGULATION FD DISCLOSURE

CareDecision Corporation ("CareDecision" or the "Company") [OTCBB: CDED] disclosed April 22, 2004 that we are in the latter stages of negotiation with CareGeneration, Inc., a leading distributor of pharmaceutical products and a division of Kelly Co. World Group, Inc., for the implementation and on-going support of our patent pending MD@Rx, MD@Desktop, MD@Practice-Probe and MD@Server products and technologies, to be used in a nationwide e-health initiative.

MD@Rx is the pharmaceutical component of our core product, the patent-pending wireless MD@HandTM. MD@RxT, a clinical prescription application, resides on a wireless PDA that provides physicians with prescribing information, drug interaction tables, step therapy protocols and electronic prescribing capability at the point of clinical decision.

We expect this proposed alliance with Kelly Co. World Group, Inc. to crystallize the completion of our corporate transformation while concurrently initiating a new stage in our development and progression towards increasing shareholder value.

Edgar Filing: CAREDECISION CORP - Form 8-K

Kelly Co. World Group, Inc.'s implementation of these pharmaceutical delivery and e-health initiatives is designed to bring together the resources necessary to solve a systemic problem in the U.S., providing quality medicine and care to America's uninsured. We believe this e-prescription initiative and medication distribution plan will be of benefit to many Americans, who the companies believe are not being serviced by existing e-health initiatives.

Date: April 22, 2004.
