SALEM COMMUNICATIONS ANNOUNCES A 3.8% INCREASE IN FIRST QUARTER 2006 NET BROADCASTING REVENUE

CAMARILLO, CA May 8, 2006 Salem Communications (Nasdaq: SALM), a leading U.S. radio broadcaster, Internet content provider and magazine publisher targeting audiences interested in Christian and family-themed content and conservative values, today announced results for the three month period ended March 31, 2006.

Commenting on the company's results, Edward G. Atsinger III, president and CEO said, "Radio broadcasters, including Salem, faced a challenging advertising environment in the first quarter with industry revenue flat compared to the comparable period last year. Positives for Salem for the quarter included our News Talk stations, which posted 7% same station revenue growth, our consistent local and national block programming business, which grew revenue by 7% over last year on a same station basis, and our Internet business which achieved 30% revenue growth over last year.

Atsinger continued, "Looking further into 2006 and longer term, we are optimistic that we can continue to outperform the overall radio industry. Nearly half of our radio stations are in a start-up or early development stage and there is substantial upside if we can successfully take these stations to maturity. Furthermore, we have made it a priority to develop a new media strategy that embraces technology as a growth opportunity for Salem. The integration of our proven traditional media platform with new media offers significant growth opportunities for us to become a leading multi-media creator, aggregator and distributor of faith, family and values based content.

Regulation G

Station operating income, EBITDA and Adjusted EBITDA are financial measures not prepared in accordance with generally accepted accounting principles (GAAP). Station operating income is defined as net broadcasting revenues minus broadcasting operating expenses. EBITDA is defined as net income before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA before loss on early redemption of long-term debt, discontinued operations (net of tax), litigation costs, gain or loss on the disposal of assets and non-cash compensation expense. In addition, Salem has provided supplemental information as an attachment to this press release, reconciling these non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP. The company believes these non-GAAP financial measures, when considered in conjunction with the most directly comparable GAAP financial measures, provide useful measures of the company s operating performance.

Station operating income, EBITDA and Adjusted EBITDA are generally recognized by the broadcasting industry as important measures of performance and are used by investors as well as analysts who report on the industry to provide meaningful comparisons between broadcasting. Station operating income, EBITDA and Adjusted EBITDA are not a measure of liquidity or of performance in accordance with GAAP, and should be viewed as a supplement to and not a substitute for, or superior to, the company s results of operations presented on a GAAP basis such as operating income and net income. In addition, Salem s definitions of station operating income, EBITDA and Adjusted EBITDA are not necessarily comparable to similarly titled measures reported by other companies.
