## YSEEK, INC. NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2002

The information presented herein as of March 31, 2002, and for the three-months ended March 31, 2002 and 2001, is unaudited.

#### (1) Basis of Presentation:

The accompanying financial statements of Yseek, Inc. (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal required adjustments) considered necessary for a fair presentation have been included.

Operating results for the three-month period ended March 31, 2002, are not necessarily indicative of the results that may be expected for the year ending December 31, 2002. For further information, refer to the financial statements and footnotes included in the Company's annual report of Form 10-KSB for the year ended December 31, 2001.

Net loss per common share is computed in accordance with the requirements of Statement of Financial Accounting Standards No. 128 (SFAS 128). SFAS 128 requires net loss per share information to be computed using a simple weighted average of common shares outstanding during the periods presented. In computing diluted loss per share, warrants exercisable into common shares were excluded because the effect is antidilutive.

## (2) Reformation Agreement and Loss From Impairment of Assets:

In December 1999, the Company purchased all the outstanding stock of Rankstreet.com, Inc. In the transaction accounted for as a purchase, the total purchase price of \$2,763,510 (including the value of contingent shares issued in May 2000 and February 2001) was classified as goodwill. The goodwill was being amortized over five years and as of December 31, 2000, accumulated amortization totaled \$525,082.

Additionally, during 2000 the Company contracted with consultants to develop a web site for Rankstreet. The website was capitalized with a value of \$206,250 and was being amortized over three years. Accumulated amortization as of December 31, 2000 was \$59,289.

In April 2001, the existing management and Board of Directors of the Company resigned and were replaced by individuals with experience with internet based business. The new Board of Directors evaluated the website and the goodwill that was acquired in the purchase of Rankstreet.com, Inc. and deemed it to be impaired and of no future value to the Company.

Upon further investigation by the Company's new management it was determined that certain contingencies in the original acquisition agreement had not been met. In June 2001, the original stockholders of Rankstreet.com, Inc. entered into a reformation agreement with the Company. This agreement concluded that the 3,000,000 shares issued in December 1999 and May 2000 would be returned since the contingencies related to these shares had not been met. Those shares were returned to the Company in June 2001. This reformation results in a reduction in goodwill related to the Rankstreet acquisition of \$2,562,500, the original value of the shares issued. This resulted in the recovery of amortization in the amount of \$324,069. The Company recognized an impairment loss due to the Rankstreet website of \$129,773. The March 31, 2001 financial statements have been restated to reflect this agreement.

F-5

Item 2. Management's Discussion and Analysis or Plan of Operation

#### PLAN OF OPERATION

In the fourth quarter of 2000 and the first quarter of 2001, the Company entered into strategic alliances with companies and individuals with substantial experience in the Internet industry. The alliances allowed the Company to acquire management and marketing expertise through consulting agreements. Although these agreements expired near the end of 2001, certain individuals are continuing to provide very limited management and marketing experience in their roles as officers of the Company. Those individuals are expected to resume providing additional services in the future, most likely in exchange for stock. This will allow the company to continue to move forward without the use of its limited funds.

Additionally, the Company acquired a ten-year software license for the use of a keyword biddable search engine and related domain names. The Company entered into two traffic promotion agreements whereby each promoter provided hits to the Company web site. The Company issued stock in exchange for these agreements enabling the Company to move forward on its plans without the use of any funds.

In April 2001, the Company's officers resigned. Individuals affiliated with the consultants noted above were elected to the Board of Directors. These individuals have substantial experience with profitable Internet companies and web sites.

The Company's plans for the next twelve months include the continued promotion of its Web search portal, Yseek.com. The search portal was launched in mid 2001 and the company has entered into several agreements with search engines during the 3rd and 4th quarters of 2001. Other companies owned by officers of the Company have continued to provide traffic to the Yseek site and the Company is providing other options for traffic generation alliances. The Company believes there will be sufficient traffic to make the site a profitable internet portal. The Company's officers and consultants are involved with the internet industry on a full time basis and are proceeding cautiously to attempt to learn from the success and failures of other internet companies.

Additionally the Company's expansion plans include acquiring and developing other profitable business ventures. The Company is currently actively exploring several possible acquisitions however there are no pending letters of intent, active negotiations or other plans.

In conjunction with planning the course of action for the next twelve months, the new Board of Directors investigated the viability of Rankstreet.com. Rankstreet was to be an all-in-one Web site including a directory, web counter and business to business Internet advertising agency. The Board determined that there was no value in pursuing the marketing and enhancement of the Rankstreet web site and has abandoned any such plans. Additionally, management determined that the contingencies stated in the acquisition agreement had not been met. In June, 2001, the former stockholders of Rankstreet.com, Inc. entered into a reformation agreement and returned 3,000,000 shares for which the contingencies were not met.

The Companies plans to market the Yseek.com search engine and to acquire and develop other profitable business ventures that will require additional funds. During 2001, the Company received \$95,000 in loans from a relative of a Board member, from two officers of the Company and a company owned by officers. During the 1st quarter of 2002, the Company received \$19,314 from a company owned by officers. These loans all bear interest at 14% and are currently due on demand.

As of March 31, 2002 the Company had minimal available funds. However, most of the Company's operations are being conducted within the consulting agreements entered into in the fourth quarter of 2000 and the cash outflows have been substantially reduced. Additionally two of the Company's officers and board members have agreed to fund the Company's operations as they currently exist.

There is currently no expected purchase or sale of plant and equipment or expected significant changes in the number of employees.
