**NOTES TO INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**
(Expressed in United States dollars)

Nine months ended May 31, 2007

Unaudited

1. ORGANIZATION

Destiny Media Technologies Inc. (the Company) was incorporated in August 1998 under the laws of the State of Colorado. The Company develops technologies that allow for the distribution over the Internet of digital media files in either a streaming or digital download format. The technologies are proprietary. The Company operates out of Vancouver, BC, Canada and serves customers predominantly located in the United States and Canada.

2. BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States for interim financial information and in accordance with Item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine months period ended May 31, 2007 are not necessarily indicative of the results that may be expected for the year ended August 31, 2007.

The balance sheet at August 31, 2006 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended August 31, 2006.

3. GOING CONCERN UNCERTAINTY

The interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future.

Destiny Media Technologies Inc.

**NOTES TO INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**
(Expressed in United States dollars)

Nine months ended May 31, 2007

Unaudited

3. GOING CONCERN UNCERTAINTY (cont d.)

During the most recently completed quarter, the Company was successful in raising \$2 million in net cash proceeds in an equity private placement. Additionally, the Company is aggressively implementing its business plan of transitioning new and existing customers (record labels) to transactional based contracts through the full commercial deployment of its Play MPE system. Until the end of the quarter ending February 28, 2007, the Company had been receiving a transaction fee based access fee to utilize the Play MPE system. In most cases, the major record labels were sending songs to trusted recipients through our digital system in addition to physical delivery of a CD. Usage has grown such that the various record labels are able to send the song digitally only and, subsequent to the current period, the Company has begun to charge for the service on a transaction fee basis. The Company is pursuing similar transaction fee based agreements with other large record labels and developing an Indie Uploader system for smaller labels. Through the end of the current quarter, the Company continued to utilize cash in operations (\$905,917 for the nine months ending May 31, 2007). However, management expects revenues, and cashflows, to increase significantly during the last quarter and into fiscal 2008. Management believes that current cash resources will be sufficient through fiscal 2008 irrespective of significant revenue growth associated with the Play MPE system.

There are no assurances that the Company will be successful in achieving these goals. In view of these conditions, the ability of the Company to continue as a going concern is not certain. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

4. SHAREHOLDER LOANS PAYABLE

Destiny Media Technologies Inc.

**NOTES TO INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**
(Expressed in United States dollars)

Nine months ended May 31, 2007

Unaudited

5. OBLIGATION FOR SHARE SETTLEMENT

During the fiscal year ended August 31, 2003, the Company issued 133,333 common shares to be delivered in settlement for proceeds of \$100,000 received in respect of a private placement that did not complete in August of 2000. As the private placement was not completed and although management expects that the amount ultimately will be settled through the release of the shares, the obligation for share settlement is recorded as a liability until settlement results between the Company and parties involved in the August 2000 private placement.

6. SHARE CAPITAL

[a] Issued and Authorized

The Company is authorized to issue up to 100,000,000 shares of common stock, par value \$0.001 per share.

During the nine months ended May 31, 2007, the Company completed a private placement which consisted of the issuance of 5,400,000 units at \$0.40 for net cash proceeds of \$1,970,815. Each unit consists of one common share and one warrant exercisable into one common share at \$0.50 expiring February 28, 2012. In connection with the private placement, the Company incurred \$205,059 of financing and share issue costs (of which \$15,874 is included in accounts payable at the end of the quarter) and issued as compensation an additional 20,000 common shares, 361,000 warrants exercisable into common shares at \$0.40 expiring February 28, 2012, and 400,000 warrants exercisable into common shares at \$0.50 expiring February 28, 2012.

Also, 596,778 stock options were exercised during the nine months ended May 31, 2007 for cash proceeds of \$186,000.

[b] Stock option plans

The Company had previously reserved a total of 8,850,000 common shares for issuance under its existing stock option plans, of which, 1,035,597 remain available for future option issuance. The options generally vest over a range of periods from the date of grant, some are immediate, and others are 12 or 24 months. Any options that do not vest as the result of a grantee leaving the Company are forfeited and the common shares underlying them are returned to the reserve. The options generally have a contractual term of five years.

Destiny Media Technologies Inc.

**NOTES TO INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**
(Expressed in United States dollars)

Nine months ended May 31, 2007

Unaudited

6. SHARE CAPITAL (cont d.)*Stock-based Payment Award Activity*

A summary of option activity under the Plans as of May 31, 2007, and changes during the nine-month period ended is presented below:

Options	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Average Intrinsic Value \$
Outstanding at August 31, 2006	2,129,000	0.39		
Granted	2,912,778	0.51		
Exercised	(596,778)	(0.31)		
Expired	(150,000)	0.25		
Outstanding at May 31, 2007	4,295,000	0.42	3.89	282,500
Vested or expected to vest at May 31, 2007	4,295,000	0.42	3.89	282,500
Exercisable at May 31, 2007	3,591,667	0.44	3.81	282,500

The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the quoted price of the Company's common stock for the options that were in-the-money at May 31, 2007.

Impact of Adoption of FAS 123(R)

At May 31, 2007, the Company has two stock-based employee compensation plans. Prior to September 1, 2006, the Company accounted for the plan under the recognition and measurement provisions of APB Opinion No.25, *Accounting for Stock Issued to Employees*, and related Interpretations, as permitted by FASB Statement No 123, *Accounting for Stock-Based Compensation*. No stock-based employee compensation cost was recognized in the Consolidated Statements of Operations for the nine months period ended May 31, 2006, as all options granted under the plan had an exercise price equal to, or greater than, the market value of the underlying common stock on the date of grant. Effective September 1, 2006, the Company adopted the fair value recognition provisions of FASB Statement No. 123(R), *Share-Based Payment*, using the modified-prospective-transition method. Under that transition method, compensation cost recognized in the nine-month period ended May 31, 2007 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of September 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123, and (b) compensation cost for all share-based payment granted, modified or cancelled, subsequent to September 1, 2006. Results for prior periods have not been restated.

Destiny Media Technologies Inc.

**NOTES TO INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**
(Expressed in United States dollars)

Nine months ended May 31, 2007

Unaudited

6. SHARE CAPITAL (cont d.)

As FAS123(R) requires that stock-based compensation expense be based on awards that are ultimately expected to vest, stock-based compensation expense for the nine-month period ended May 31, 2007 has considerations for estimated forfeitures. When estimating forfeitures, the Company considers voluntary termination behavior as well as trends of actual option forfeitures.

As a result of adopting Statement 123(R) on September 1, 2006, the Company's net loss for the nine-month period ended May 31, 2007, is \$275,789 higher than if it had continued to account for stock-based compensation under Opinion 25.

Total stock-based compensation for the nine-month period ended May 31, 2007 includes stock-based compensation expense related to employees of \$275,789 and stock-based-compensation expense related to consultants of \$361,607 reported in the statement of operations as follows:

	Three Months Ended		Nine Months Ended	
	May 31,		May 31	
	2007	2006	2007	2006
	\$	\$	\$	\$
Stock-based compensation:				
General and administrative	8,733	930	85,927	12,681
Sales and marketing	116,740	2,040	409,310	10,876
Research and development	10,641	654	142,159	9,335
Total stock-based compensation	136,114	3,624	637,396	32,892

6. SHARE CAPITAL (cont d.)*Valuation Assumptions*

The fair value of each option award is estimated on the date of grant using the Black-Scholes option-pricing model based on the following assumptions:

	Three Months Ended		Nine Months Ended	
	May 31,		May 31,	
	2007	2006	2007	2006
Expected term of stock options (years)	2.5-5.0		2.5-5.0	2.42
Expected volatility	85%-91%		85%-94%	97%
Risk-free interest rate	4.5%-4.67%		3.9%-5.0%	5.5%

Dividend yields

The weighted-average grant-date fair value of options granted during the nine-month period ended May 31, 2007 and 2006 was \$0.22 and \$0.11, respectively.

Expected volatilities are based on historical volatility of the Company's stock. The Company uses historical data to estimate option exercise and employee termination within the valuation model. The expected term of options granted represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the options is based on US treasury bill rates in effect at the time of grant.

6. SHARE CAPITAL (cont d.)*Pro forma Information for Periods Prior to the Adoption of FAS 123(R)*

Prior to the adoption of FAS No. 123(R), the Company provided the disclosures required under FAS No. 123, as amended by FAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosures. Employee stock-based compensation expense recognized under FAS 123(R) was not reflected in the results of operations for the three and nine months period ended May 31, 2006 for employee stock option awards as all options were granted with an exercise price equal to, or greater than, the market value of the underlying common stock on the date of grant. Previously reported amounts have not been restated. The pro forma information for the three and nine months May 31, 2006 is as follows:

	Three Months Ended May 31, 2006 \$	Nine Months Ended May 31, 2006 \$
Net loss as reported	(28,437)	(314,525)
Add: Stock-based employee compensation expense included in reported net loss		
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards	(5,628)	(16,884)
Pro forma net loss	(34,065)	(331,409)
Loss per share		
Basic and diluted as reported	(0.01)	(0.01)

**NOTES TO INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**
(Expressed in United States dollars)

Nine months ended May 31, 2007

Unaudited

6. SHARE CAPITAL (cont d.)**[c] Warrants**

As at May 31, 2007, the Company has the following common stock warrants outstanding:

	Number of Common Shares Issuable	Exercise Price \$	Date of Expiry
\$0.22 Warrants	950,000	0.22	August 25, 2011
\$0.40 Warrants	361,000	0.40	February 28, 2012
\$0.50 Warrants	5,800,000	0.50	February 28, 2012
\$0.70 Warrants	500,000	0.70	April 9, 2012
	7,611,000		

5,400,000 of the \$0.50 warrants have a forced conversion feature by which the Company can demand exercise of the share purchase warrants if the common stock trades at a price equal to or greater than \$1.25 if certain conditions are met.

During this quarter, 1,750,000 \$0.25 warrants were exercised for gross proceeds of \$437,500. 225,000 \$0.30 warrants were exercised for gross proceeds of \$67,500. Another 25,000 \$0.30 warrants expired.

The \$0.40 and \$0.50 share purchase warrants were issued in connection with the private placement transaction described in Note 6[a].

On September 11, 2006, the Company entered into an agreement with Bryant Park Capital to act as an exclusive financial advisor to provide strategic assistance and maximize shareholder value. As part of the agreement, the Company has issued 950,000 warrants with a strike price of \$0.22. On April 9, 2007, the Company modified and expanded its agreement with Bryant Park Capital to include additional services not previously contemplated in the original agreement. As compensation, the company will pay Bryant Park Capital \$7,500 per month to the end of August 2007 and issue an additional 500,000 warrants exercisable into common shares at a price of \$0.70. The warrants vest monthly over the six months following the signing of the agreement.

The fair value of 950,000 \$0.22 warrants and 166,667 \$0.70 warrants, which vested during the nine months ending May 31, 2007, was measured using the Black-Scholes option-pricing model and amounted to \$285,661. This amount was expensed to sales and marketing in the statement of operations.

7. COMMITMENTS AND CONTINGENCIES

On March 7, 2006 the Company filed a statement of claim in the Federal Court of Canada against Musicrypt Inc. (the defendant) to assert that the Company's technology does not infringe on the stated patent owned by the defendant and to further declare that defendant's patent is invalid. This statement of claim was initiated by the Company as a result of the defendant's statements to the contrary. On June 7, 2006, the Company's counsel received a statement of defense and counterclaim from the defendant, requesting specified damages or audited Canadian profits from the Play MPE system if it is offered in Canada.

On January 11, 2007 the Federal Court of Canada issued a bifurcation order of the issues included in the action. Accordingly, only the issues of infringement and validity of the patent raised in the claim will be addressed in the current proceeding. The remaining issues including the counterclaim for specified damages will be subject of a separate determination to be conducted after the trial if it then appears that such issues need to be decided.

On May 3, 2007 the Company filed a statement of claim for damages against the defendant, John Heaven and Clifford Hunt (collectively the defendants) in the amount of \$25,000,000 caused by the defendants making statements constituting defamation and injurious falsehood, making false or misleading statements tending to discredit the business, making false or misleading representations contrary to the Competition Act, and unlawful interference with the Company's economic relations. The statement further requests an injunction from continuing the actions instigating the statement of claim.

On June 7, 2007 the defendant filed a statement of defense, denying the allegations set out in the statement of claim dated May 3, 2007, and counterclaim against the Company and our CEO, Steve Vestergaard, also in the amount of \$25,000,000, for making statements constituting defamation and injurious falsehood, making false or misleading statements tending to discredit the business, making false or misleading representations contrary to the Competition Act, and unlawful interference with the defendant's economic relations. The Company further requests an injunction from continuing the defamatory actions.

No amount has been recognized as a receivable for damages as outlined in the statement of claim. The amount of damages awarded, if any, in relation to either counterclaim cannot be reasonably estimated and no amount has been recognized. Management does not believe that the outcome of this matter will have an adverse impact on its result of operations and financial condition.

8. SEGMENTED INFORMATION AND ECONOMIC DEPENDENCE

The Company operates solely in the digital media software segment and all revenue from its products and services are made in this segment.

Revenue from external customers is delineated by the location of the customer and by the recipient of the digital content. For example, a record label based in the United States sending music content outside the US will be listed as US revenue. Thus, our revenue by location of customer, is as follows:

	Three Months Ended		Nine Months Ended	
	May 31,		May 31,	
	2007	2006	2007	2006
	\$	\$	\$	\$
United States	247,205	203,430	545,996	500,518
Canada	9,890	18,677	36,896	45,954
Other	2,113	56,413	16,314	138,819
Total revenue	259,208	278,520	599,206	685,291

During the nine months ended May 31, 2007, two customers represented 35% of the total revenue balance [May 31, 2006 one customer represented 25% of the total revenue balance].

As at May 31, 2007, one customer represented 71% of the trade receivables balance [May 31, 2006 three customers represented 58%].

The Company has substantially all its assets in Canada and its current and planned future operations are, and will be, located in Canada.

9. RECENT ACCOUNTING PRONOUNCEMENTS

FASB Statement No. 48 Accounting for Uncertainty in Income Taxes

In July 2006 the FASB issued Financial Interpretation No. 48, Accounting for Uncertainty in Income Taxes, (FIN 48). FIN 48 creates a single model to address uncertainty in income tax positions. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. It also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition and, clearly scopes income taxes out of FASB Statement No. 5, Accounting for Contingencies . FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, Accounting for Income Taxes . This includes tax positions considered to be routine as well as those with a high degree of uncertainty. FIN 48 is effective for fiscal years beginning after December 15, 2006. Differences between the amounts recognized in the statements of financial position prior to the adoption of FIN 48 and the amounts recognized after adoption should be accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. The cumulative effect adjustment would not apply to those items that would not have been recognized in earnings, such as the effect of adopting FIN 48 on tax positions related to business combinations. The Company will adopt FIN 48 effective September 1, 2007 and does not expect the adoption to have a material impact on the Company's financial statements.

FASB Statement No. 157 Fair Value Measurement

In September 2006, FASB issued SFAS 157 Fair Value Measurements . This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company will adopt SFAS 157 effective September 1, 2008 and does not expect the adoption to have a material impact on the Company's financial statements.

9. RECENT ACCOUNTING PRONOUNCEMENTS (cont d.)

SAB 108 Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements

In September 2006, the SEC issued Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements When Quantifying Misstatements in Current Year Financial Statements*

(SAB 108), which provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. It establishes an approach that requires quantification of financial statement misstatements based on the effects of the misstatements on each of the company's financial statements and the related financial statement disclosure. SAB 108 will be effective for the fiscal year ending August 31, 2007. The Company adopted SAB 108 effective September 1, 2006 and the adoption does not have a material impact on the Company's financial statements.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

FORWARD LOOKING STATEMENTS

The following discussion should be read in conjunction with the accompanying financial statements and notes thereto included within this Quarterly Report on Form 10-QSB. In addition to historical information, the information in this discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements involve risks and uncertainties, including statements regarding the Company's capital needs, business strategy and expectations. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements.

In some cases, you can identify forward-looking statements by terminology such as *may*, *will*, *should*, *expect*, *intend*, *anticipate*, *believe*, *estimate*, *predict*, *potential* or *continue*, the negative of such terms or other similar terminology. Actual events or results may differ materially. In evaluating these statements, you should consider various factors described in this Quarterly Report, including the risk factors accompanying this Quarterly Report, and, from time to time, in other reports the Company files with the Securities and Exchange Commission. These factors may cause the Company's actual results to differ materially from any forward-looking statement. The Company disclaims any obligation to publicly update these statements, or disclose any difference between its actual results and those reflected in these statements. The information constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

OVERVIEW

We develop and market digital software tools for providing media content on the internet.

There are two main ways that content is accessed by users:

1. Technologies such as television or radio allow users to experience the content as it is broadcast. The analogous technique on the internet is to stream the media to the users.
2. Consumers can own content which they can experience at any time. For example, they may buy a music CD or a DVD. The analogous process on the internet is to securely download the content from a remote site to a local hard drive.

The company has developed branded solutions to facilitate both streaming media and secure media distribution.

1. Streaming Media

A) Clipstream

The Clipstream suite of streaming media products are built around Sun Java, so they play instantly when a web page loads or an email opens. Clipstream reliably reaches more viewers on more operating systems than other solutions and it has a high level of security. Because it is compatible with standards based web servers and caching infrastructure, it is uniquely easy to deploy, it uses up to 90% less bandwidth than competing solutions and it plays more reliably.

Clipstream is available in on demand and live versions.

We launched a major upgrade of Clipstream (Clipstream 3) in February.

B) Radio Destiny

Radio Destiny allows consumers to start their own internet based radio station from their PC. Content is automatically aggregated on our site: <http://www.stationdirectory.com>

2. Secure Media Distribution

A) Play MPE System

In October 2004, we launched a complete solution for assisting record labels in securely moving content to trusted third parties, including radio stations on a pilot basis. We are transitioning various record labels from a low fixed monthly cost to full transactional fee based contracts. Effective March 1, 2007, we have agreed to a transactional fee based contract with Universal Music Group.

The system recognizes authorized computers and content is received in an encrypted secure form. If the content owner allows export, the system embeds a tracking signature or watermark into the music that identifies that user. The watermark survives compression and duplication to analog devices.

The system consists of servers at two hosting facilities, encoding tools, list management tools, a Mac and PC player application and custom database applications. To utilize the system the following steps occur:

- i) A record label initiates a send with the encoder tool of the MPE system,
- ii) Optional email alert can be sent to the recipient(s),
- iii) The song will become available on the recipient's desktop, and
- iv) The system automatically generates an invoice in accordance with the relevant agreement.

B) PODDS.CA

We have developed our own iTunes style online store application and accompanying server and encoder software. We have also licensed the iPod AAC format patent. Users can securely purchase digital music directly from a player application which they download to their computer. We expect to license this software to third parties that want to offer digital audio content for sale via private labelled online music stores.

We have licensed catalogue music from all four major record labels that we are selling to commercial users and digital jukeboxes using our download service.

These technologies rely on proprietary algorithms, compression and watermarking technologies that were developed internally.

RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED MAY 31, 2007

Revenue

Overall, our third quarter revenues exceeded management projections and grew by 50% over the previous quarter to approximately \$259,000 from approximately \$172,000.

This revenue growth was due an increase in our total MPE revenue to 250% of our second quarter results. While still at modest levels, this impressive growth led to a total third quarter revenue that was 17% in excess of the combined first and second quarter MPE revenue.

This acceleration in revenue is fueled primarily by the success of our Play MPE system, and is the direct result of the progress we have made in becoming an industry standard across geographic locations and across formats. During the

quarter we have begun to transition the record labels to transaction based

pricing models and this increase is the result of the initiation of this process. Overall, our MPE revenue grew from approximately \$65,000 in the second quarter to approximately \$165,000 for the current quarter representing a growth of 150%.

Our revenue model is based on invoicing on a price per send. At May 31, 2007, we have delivered approximately 49,000 individual songs in almost 49,000,000 transactions. We refer to a transaction as one song which is made available to one recipient. For revenue purposes, fees are based on sends as defined in their respective agreements, and could include a single transaction or group of transactions. A send is a song, bundle of songs, album, box set, or video, sent to a particular recipient. The revenue associated with each send will be on a sliding scale depending on the size of the particular send.

The MPE security engine powers two products: the Play MPE (www.plaympe.com) media distribution system, and our online music store software suite (www.podds.ca).

As expected, revenue from our Clipstream suite of products (www.clipstream.com) represent 57% of the levels seen in the previous year to date leading to an overall decline in year to date revenue of approximately 13%. This reflects a management strategy of focusing sales, marketing and support resources on MPE until the launch of Clipstream 3. This new version, launched February 22, 2007, includes significant improvements in quality and other benefits to end users. Sales and marketing efforts in the third quarter have been focused on reaching Clipstream resellers rather than selling directly to end users. The company is targeting resellers in the advertising and market research space where the advantages of Clipstream's 98% user reach and security are important to end customers.

Overall, our revenues decreased to \$599,206 for the nine months ended May 31, 2007 from \$685,291 for the nine months ended May 31, 2006, representing a decrease of \$86,085.

Pirate Radio sales represent 4% of our total revenue for the nine months ending May 31, 2007.

Operating Expenses

As a result of the adopting FAS123(R) on September 1, 2006, the Company recorded additional non-cash stock compensation expense for options granted to employees. Total non-cash stock compensation for the period, and included in our operating expenses are outlined below:

	Three Months Ended		Nine Months Ended	
	May 31,		May 31	
	2007	2006	2007	2006
	\$	\$	\$	\$
General and administrative	8,733	930	85,927	12,681
Sales and marketing	116,740	2,040	409,310	10,876
Research and development	10,641	654	142,159	9,335
Total stock-based compensation	136,114	3,624	637,396	32,892

General and administrative	May 31 2007	May 31 2006	\$ Change	% Change
	(9 months)	(9 months)		
Wages and benefits	259,994	171,652	88,342	51.5%
Rent	21,244	24,476	(3,232)	-13.2%
Telecommunications	10,267	14,249	(3,982)	-27.9%
Bad debt	(1,316)	1,410	(2,726)	-193.3%
Office and miscellaneous	42,849	82,207	(39,358)	-47.9%
Professional fees	156,618	91,343	65,275	71.5%
	489,656	385,337	104,319	27.1%

Our general and administrative expenses consist primarily of salaries and related personnel costs including overhead, professional fees, and other general office expenditures. General and administrative costs increased to \$489,656 for the nine months ended May 31, 2007 from \$385,337 for the nine months ended May 31, 2006, an increase of \$104,319 or approximately 27%. As mentioned above, non-cash stock compensation of \$78,911 is included this year and accounts for the majority of the increase. Additionally, we incurred some additional professional fees associated with the preparation of various contracts as we pursue transactional pricing for our Play MPE system.

Sales and marketing	May 31 2007	May 31 2006	\$ Change	% Change
	(9 months)	(9 months)		
Wages and benefits	269,202	203,955	65,247	32.0%
Rent	20,051	24,476	(4,425)	-18.1%
Telecommunications	9,690	14,249	(4,559)	-32.0%
Meals and entertainment	2,512	-	2,512	-
Travel	32,610	6,884	25,726	373.7%
Advertising and marketing	556,002	80,926	475,076	587.0%
	890,067	330,490	559,577	169.3%

Sales and marketing expenses consist primarily of salaries and related personnel costs including overhead, sales commissions, advertising and promotional fees, and travel costs. Sales and marketing costs were \$890,067 for the nine months ended May 31, 2007 compared to \$330,490 for the nine months ended May 31, 2006, representing an increase of \$559,577 or approximately 169%. This increase is due primarily to non-cash stock compensation to employees (\$72,598 included in wages and benefits) and Bryant Park Capital (\$321,752 included in advertising and marketing). Total non-cash stock compensation expense for the period is \$394,350. Over the course of the quarter, we have hired a number of staff to assume the marketing and support responsibilities of our Play MPE system as we continue to increase its install base and usage by various record labels and recipients. Travel costs increased due to our attendance at various trade shows and conferences we attended for sales and marketing efforts in expanding the awareness of both our MPE and our Clipstream suite of products.

Research and development	May 31 2007 (9 months)	May 31 2006 (9 months)	\$ Change	% Change
Wages and benefits	551,522	231,253	320,269	138.5%
Rent	45,065	32,975	12,090	36.7%
Telecommunications	21,779	19,454	2,325	12.0%
Repairs and maintenance	1,740	-	1,740	-
	620,106	283,682	336,424	118.6%

Research and development costs consist primarily of salaries and related personnel costs including overhead, and consulting fees with respect to product development and deployment. Research and development costs increased to \$620,106 for the nine months ended May 31, 2007 from \$283,682 for the nine months ended May 31, 2006, representing an increase of \$336,424 or approximately 119%.

The increase is due in part to non-cash stock compensation expense, included in wages and benefits of \$164,135 (or 30% of wages and benefits). We have been actively recruiting additional staff for our development team as we continue to add functionality to our existing products and expand the product base.

Amortization

Amortization expense arose from fixed assets and other assets. Amortization increased to \$43,591 for the nine months ended May 31, 2007 from \$39,884 for the nine months ended May 31, 2006, a increase of \$3,707 or 9%.

Other earnings and expenses

Interest income increased by \$18,525 for the nine months ended May 31, 2007 as result of the investment received at the end of our second quarter.

Interest and other expense decreased to \$10,362 for the nine months ended May 31, 2007 from \$17,388 for a decrease of \$7,026.

Losses

Our loss from operations increased to \$1,444,214 for the nine months ended May 31, 2007 from \$354,102 for the nine months ended May 31, 2006, representing an increase of \$1,090,112. The increase in the loss from operations was due primarily to stock-based compensation expense which was \$637,396 for the nine months ended May 31, 2007 (\$32,286 for the same period ending May 31, 2006).

Our net loss increased to \$1,436,051 for the nine months ended May 31, 2007 from \$314,525 for the nine months ended May 31, 2006, representing an increase of \$1,121,526.

For our fiscal year ending August 31, 2007, our management plans on concentrating its efforts in the following areas in order to achieve profitability:

LIQUIDITY AND FINANCIAL CONDITION

We had cash of \$1,965,660 as at May 31, 2007 compared to cash of \$156,337 as at August 31, 2006. We had a working capital surplus of \$1,895,297 as at May 31, 2007 compared to a working capital deficiency of \$59,429 as at August 31, 2006

Working Capital Surplus

The increase in our working capital surplus is attributed to a significant increase to cash. We have raised \$2,160,000 through private placement and received proceeds of \$505,000 on warrants exercised which led to a significant increase in our cash.

Our accounts payable and accrued liabilities decreased to \$300,316 as at May 31, 2007 from \$328,773 at August 31, 2006, representing a decrease of \$28,457 or 9%.

Our shareholder loans payable of \$17,142 as at August 31, 2006 was repaid in full during the first quarter.

Our current deferred revenues increased to \$19,990 as at May 31, 2007 from \$10,469 as at August 31, 2006, representing a total increase of \$9,521 or 91%.

CASHFLOWS

Operating

Net cash used in operating activities increased to \$921,791 for the nine months ending May 31, 2007, compared to \$440,727 for the nine months ended May 31, 2006.

Investing

Net cash used in investing activities increased to \$46,448 for purchasing equipment during the quarter ended May 31, 2007, as compared with \$14,736 investing activities for the nine months ended May 31, 2006.

Financing

Net cash provided from financing activities increased to \$2,645,183 during the period ended May 31, 2007, as compared to \$440,854 over the same period in the prior year.

During the nine months ended May 31, 2007, the Company completed a private placement which consisted of the issuance of 5,400,000 common shares for net cash proceeds of \$1,970,815. The private placement included a finders fee of \$144,400, 20,000 common shares, 361,000 warrants exercisable into common shares at \$0.40 expiring February 28, 2012, and 400,000 warrants exercisable into common shares at \$0.50 expiring February 28, 2012 and related legal fee of \$60,659 of which \$15,874 was included in accounts payable at the end of the quarter. The private placement also included the issuance of 5,400,000 warrants exercisable into common shares at \$0.50 expiring February 28, 2012. Also, 596,778 stock options were exercised for cash proceeds of \$186,000. 1,975,000 warrants were exercised for cash proceeds of \$505,000.

Going Concern

We have incurred recurring losses from operations which have been primarily financed by equity transactions. Our consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern. Management expects revenues to grow and become cash flow positive in the short term.

During the most recently completed quarter, the Company was successful in raising \$2 million in net cash proceeds in an equity private placement. Additionally, the Company is aggressively implementing its business plan of transitioning new and existing customers (record labels) to transactional based contracts through the full commercial deployment of its Play MPE system. Until the end of the current quarter, the Company had been receiving a nominal fixed access fee to utilize the Play MPE system. In most cases, the major record labels were sending songs to trusted recipients through our digital system in addition to physical delivery of a CD. Usage has grown such that the various record labels are able to send the song digitally only and, subsequent to the current period, the Company has begun to charge for the service on a transaction fee basis. The Company is pursuing similar transaction fee based agreements with other large record labels and developing an Indie Uploader system for smaller labels. Through the end of the current quarter, the Company continued to utilize cash in operations (\$905,917 for the nine months ending May 31, 2007). However, management expects revenues, and cashflows, to increase significantly during the second half of the year. Management believes that current cash resources will be sufficient through fiscal 2008 irrespective of significant revenue growth associated with the Play MPE system.

There are no assurances that the Company will be successful in achieving these goals. In view of these conditions, the ability of the Company to continue as a going concern is not certain. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

CRITICAL ACCOUNTING POLICIES

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States, and make estimates and assumptions that affect our reported amounts of assets, liabilities, revenue and expenses, and the related disclosures of contingent liabilities. We base our estimates on historical experience and other assumptions that we believe are reasonable in the circumstances. Actual results may differ from these estimates.

The following critical accounting policies affect our more significant estimates and assumptions used in preparing our consolidated financial statements.

- The consolidated financial statements have been prepared on the going concern basis, which assumes the realization of assets and liquidation of liabilities in the normal course of operations. If we were not to continue as a going concern, we would likely not be able to realize on our assets at values comparable to the carrying value or the fair value estimates reflected in the balances set out in the preparation of the consolidated financial statements. There can be no assurances that we will be successful in generating additional cash from equity or other sources to be used for operations. The consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.
- We recognize revenue when there is persuasive evidence of an arrangement, delivery has occurred, the fee is fixed or determinable, collection is reasonably assured, and there are no substantive performance obligations remaining. Our revenue recognition policies are in conformity with AICPA's Statement of Position No. 97-2, Software Revenue Recognition, as amended (SOP 97-2). We generate revenue from software arrangements involving multiple element sales arrangements. Revenue is allocated to each element of the arrangement based on the relative fair value of the elements and is recognized as each element is delivered and we have no significant remaining performance obligations. If evidence of fair value for each element does not exist, all revenue from the arrangement is recognized over the term of the arrangement. To-date, evidence of fair value for each element has not been available on sales arrangements. Changes in our business priorities or model in the future could materially impact our reported revenue and cash flow. Although such changes are not currently contemplated, they could be required in response to industry or customer developments.
- During the first and the second quarter of fiscal year ending August 31, 2007, we implemented the following new critical accounting policy related to our stock-based compensation. Beginning September 1, 2006 we began accounting for stock options under the provisions of Financial Accounting Standards 123 (revised 2004), Share-Based Payment (FAS 123(R)), which requires the recognition of the fair value of the stock-based compensation. Under the fair value recognition provisions for FAS 123(R), stock-based compensation cost is estimated at the grant date based on the fair value of the rewards expected to vest and recognized as expense ratably over the requisite service period of the award. We have used the Black-Scholes valuation model to estimate fair value of our stock-based awards which requires various judgmental assumptions including estimating stock price volatility and expected life. Our computation of expected volatility is based on historical implied volatility. In addition, we consider many factors when estimating expected life, including types of awards and historical experience. If any of the assumptions used in the Black-Scholes valuation model change significantly, stock-based compensation expense may differ materially in the future from that recorded in the current period.

We adopted FAS 123(R) using the modified-prospective method which requires the application of the accounting standard to existing non-vested awards as of September 1, 2006 and awards granted, modified, repurchased or cancelled subsequently. Our consolidated financial statements as of and for the first quarter of 2006 reflect the impact of FAS 123(R). In accordance with the modified-prospective method, the consolidated financial statements for prior periods have not been restated to reflect, and do not include, the impact of FAS 123(R).

9. RECENT ACCOUNTING PRONOUNCEMENTS

FASB Statement No. 48 Accounting for Uncertainty in Income Taxes

In July 2006 the FASB issued Financial Interpretation No. 48, Accounting for Uncertainty in Income Taxes, (FIN 48). FIN 48 creates a single model to address uncertainty in income tax positions. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. It also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition and, clearly scopes income taxes out of FASB Statement No. 5, Accounting for Contingencies . FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, Accounting for Income Taxes . This includes tax positions considered to be routine as well as those with a high degree of uncertainty. FIN 48 is effective for fiscal years beginning after December 15, 2006. Differences between the amounts recognized in the statements of financial position prior to the adoption of FIN 48 and the amounts recognized after adoption should be accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. The cumulative effect adjustment would not apply to those items that would not have been recognized in earnings, such as the effect of adopting FIN 48 on tax positions related to business combinations. The Company will adopt FIN 48 effective September 1, 2007 and does not expect the adoption to have a material impact on the Company's financial statements.

FASB Statement No. 157 Fair Value Measurement

In September 2006, FASB issued SFAS 157 Fair Value Measurements . This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company will adopt SFAS 157 effective September 1, 2008 and does not expect the adoption to have a material impact on the Company's financial statements.

SAB 108 Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements

In September 2006, the SEC issued Staff Accounting Bulletin No. 108, Considering the Effects of Prior Year Misstatements When Quantifying Misstatements in Current Year Financial Statements (SAB 108), which provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. It establishes an approach that requires quantification of financial statement misstatements based on

the effects of the misstatements on each of the company's financial statements and the related financial statement disclosure. SAB 108 will be effective for the fiscal year ending August 31, 2007. The Company will adopt SAB 108 effective September 1, 2006 and does not expect the adoption to have a material impact on the Company's financial statements.

ITEM 3. CONTROLS AND PROCEDURES.

As required by Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Exchange Act), we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures at May 31, 2007. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer, Mr. Steven Vestergaard, and our Chief Financial Officer, Mr. Frederick Vandenberg. Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures, as defined in Rule 13a-15(e) are effective. There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to the date we carried out our evaluation.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

On May 3, 2007 the Company filed a statement of claim for damages from Musicrypt Inc., John Heaven and Clifford Hunt in the amount of \$25,000,000 caused by the defendants making statements constituting defamation and injurious falsehood, making false or misleading statements tending to discredit the business, making false or misleading representations contrary to the Competition Act, and unlawful interference with the Company's economic relations. The Company also requests an injunction from continuing the defamatory actions.

On June 7, 2007 the defendants filed a statement of defense, denying the allegations set out in the statement of claim dated May 3, 2007, and counterclaim against the Company and our CEO, Steve Vestergaard, also in the amount of \$25,000,000, for making statements constituting defamation and injurious falsehood, making false or misleading statements tending to discredit the business, making false or misleading representations contrary to the Competition Act, and unlawful interference with Musicrypt's economic relations. The counterclaim further requests an injunction continuing the actions instigating the statement of claim.
