Notes to Condensed Financial Statements
June 30, 2010
(Unaudited)

Note 1: Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Regulation S-K. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company, the accompanying unaudited condensed financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of June 30, 2010, the results of operations for the six months ended June 30, 2010, and cash flows for the six months ended June 30, 2010. These financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's annual report on Form 10-K for the year ended December 31, 2009. There have been no updates or changes to our audited financial statements for the year ended December 31, 2009. There is no provision for dividends for the quarter to which this quarterly report relates.

The results of operations for the six months ended June 30, 2010 are not necessarily indicative of the results to be expected for the full year.

Proposed Acquisition

During the six months ended June 30, 2010, the Company entered into an agreement to acquire the assets of Hunt Global Resources, Inc. ("Hunt"), a Houston based company focused on the use of new technologies to maximize the value of its natural resources projects. The completion of acquisition is contingent upon the deliverance of audited financial statements of Hunt. At this time, the Company has not closed on the acquisition. See Note 5 Subsequent Events.

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form 10-Q

During the six months ended June 30, 2010, Hunt advanced the Company funds totaling \$37,535 to support operations. These funds are due on demand.

Going Concern

The Company's financial statements for the six months ended June 30, 2010 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company reported an accumulated deficit of \$1,275,725 as of June 30, 2010. The Company recognized losses of \$64,948 from its operational activities during the six months ended June 30, 2010. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Recent Accounting Pronouncements

There were various other accounting standards and interpretations issued during the six months ended 2010, none of which are expected to have a material impact on the Company's financial position, operations or cash flows.

Note 2: Convertible Promissory Notes

During the year ended December 31, 2009, the Company issued Convertible Promissory Notes payable to unrelated third parties totaling \$100,000 with interest accruing at 8% per annum (paid quarterly) maturing twelve months from date of issuance. The notes were immediately convertible to restricted shares of common stock at \$0.10 per share.

A beneficial conversion feature (difference between conversion price and the quoted stock price on the date of commitment) embedded in the convertible promissory notes was measured at \$100,000 and recorded as a debt discount on the transaction date. As of December 31, 2009, \$98,333 of the discount was amortized to interest expense, leaving an unamortized discount of \$1,667 in the accompanying financial statements for the year ended December 31, 2009.

In January 2010, all of the holders of the outstanding Convertible Promissory Notes gave conversion notice to the Company that they would convert their notes into shares of the Company's common stock. The conversion of the Convertible Promissory Notes resulted in the issuance of 1,000,000 shares of Company's common stock to the convertible promissory note holders of such notes as of January 15, 2010. After the conversion of such Convertible Promissory Notes the Company does not have any Convertible Promissory Notes outstanding.

The following is a summary of convertible promissory notes at June 30, 2010 and December 31, 2009:

In January 2010, all of the holders of the outstanding Convertible Promissory Notes totaling \$100,000 gave conversion notice to the Company that they would convert their notes into shares of the Company's common stock. The conversion of the Convertible Promissory Notes resulted in the issuance of 1,000,000 shares of Company's common stock to the convertible promissory note holders of such notes as of January 15, 2010. After the conversion of such convertible Promissory Notes the Company does not have any Convertible Promissory Notes outstanding.

Stock Options

Pursuant to our Employee/Consultant Stock Option Plan, stock options generally are granted with an exercise price equal to the market price of our common stock at the date of grant. Substantially all of the options granted to employees and consultants are exercisable pursuant to an immediate vesting schedule with a maximum contractual term of 5 years. The risk-free interest rate for periods within the expected life of the option is based on the U.S. Treasury bond rate in effect at the time of grant. We do not pay dividends and do not expect to do

so in the future. Expected volatilities are based on the historical volatilities of appropriate industry sector index. The expected term of the options granted during 2009 is approximately 3 years calculated using the simplified method.

We use historical volatility of appropriate industry sector index as we believe it is more reflective of market conditions and a better indicator of volatility. We use the simplified calculation of expected life. If we determined that another method used to estimate expected volatility was more reasonable than our current methods, or if another method for calculating these input assumptions was prescribed by authoritative guidance, the fair value calculated for share-based awards could change significantly. Higher volatility and longer expected lives result in an increase to share-based compensation determined at the date of grant.

A summary of changes in the number of stock options outstanding for the six months ended June 30, 2010 is as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our unaudited financial statements and notes thereto included herein. In connection with, and because we desire to take advantage of, the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, we caution readers regarding certain forward looking statements in the following discussion and elsewhere in this report and in any other statement made by, or on our behalf, whether or not in future filings with the Securities and Exchange Commission. Forward-looking statements are statements not based on historical information and which relate to future operations, strategies, financial results or other developments. Forward looking statements are necessarily based upon estimates and assumptions that are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control and many of which, with respect to future business decisions, are subject to change. These uncertainties and contingencies can affect actual results and could cause actual results to differ materially from those expressed in any forward looking statements made by, or on our behalf. We disclaim any obligation to update forward-looking statements.

The independent registered public accounting firm's report on the Company's financial statements as of December 31, 2009, and for each of the years in the two-year period then ended, includes a "going concern" explanatory paragraph, that describes substantial doubt about the Company's ability to continue as a

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form 10-Q

going concern.

PLAN OF OPERATIONS

At June 30, 2010, we had cash on hand of \$1,962. We intend to use our cash funds to continue operations.

During the year ended December 31, 2009, we raised \$100,000 in Convertible Notes that would have matured after one year. Payments of interest at the rate of 8.0% per annum were accrued each quarter to each investor beginning June 30, 2009. During the year ended December 31, 2009, we paid interest of \$4,744. The investor also had the option, based on their conversion terms, to convert to restricted shares of common stock at \$0.10 per share with immediate convertibility (i.e. \$2,500 = 25,000 shares.) In January 2010, all of the investors of the \$100,000 Convertible Promissory Notes elected to convert their promissory notes into shares of the Company's common stock. The Company issued 1,000,000 shares of its restricted common stock upon the conversion of \$100,000 in principal.

The Company entered into an agreement to acquire the assets of Hunt Global Resources, Inc. ("Hunt"), a Houston based company focused on the use of new technologies to maximize the value of its natural resources projects. The transaction is structured in the form of a reverse merger where the shareholders of Hunt will receive in excess of 90% of the issued and outstanding stock of Company when the transaction is complete. As a result of the transaction, Hunt will acquire all of the outstanding assets and liabilities of the Company.

The transaction contemplates the issuance of shares as follows:

- A) 29,000,000 shares of Common Stock of the Company to Hunt;
- B) 125,000 Class A Preferred Convertible Shares (having a conversion ratio of one preferred to 208 common shares of the Company and subject to the common stock of the Company having traded at an average bid price of \$3.00 for ten consecutive trading days); and
- C) 125,000 Class B Convertible Preferred Shares (having a conversion ratio of one preferred for 248 common shares of the Company and subject to the common stock of the Company having traded at an average bid price of \$7.00 for ten consecutive trading days).

1

The completion of the acquisition is contingent upon the receipt of audited financial statements of Hunt. Such audited financial statements have not been completed at the time of this filing.

On June 28, 2010, the Hunt Global Resources, Inc. agreed to extend the term of its agreement with Tombstone Technologies, Inc. until July 31, 2010. Hunt has signed a letter of extension which will extend the merger process until September 30, 2010.

In the continuance of our business operations we do not intend to purchase or sell any significant assets and we do not expect a significant change in the number of employees of the Company.

We have adopted and maintain disclosure controls and procedures (as such term is defined in Rules 13a 15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods required under the SEC's rules and forms and that the information is gathered and communicated to our management, including our Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), as appropriate, to allow for timely decisions regarding required disclosure.

As required by SEC Rule 15d-15(b), Messrs. Harris and Cox our Chief Executive Officer and Chief Financial Officer for the quarter ended June 30, 2010, carried out an evaluation under the supervision and with the participation of our management, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 15d-14 as of the end of the period covered by this report. Based on the foregoing evaluation, Messrs. Harris and Cox have concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC filings and to ensure that information required to be disclosed in our periodic SEC filings is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure as a result of the deficiency in our internal control over financial reporting discussed below.

3

There was no change in our internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2010, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
