Seacoast Banking Corporation of Florida

8-K 03/14/05

Item 4.02.**Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

(a) In connection with the preparation of its Annual Report on Form 10-K for the period ended December 31, 2004, management of Seacoast Banking Corporation of Florida (the Company), determined that the Company's documentation relating to an interest rate swap entered into in January 2003 did not meet the requirements necessary to achieve hedge accounting under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities. As a result of this determination and resulting analysis, the Company's management and the Audit Committee of its Board of Directors concluded on March 8, 2005 that certain of the Company's previously issued financial statements should be restated to reflect the estimated fair value of the January 2003 interest rate swap, and that the interim consolidated statements included in the Company's Quarterly Reports on Form 10-Q for the quarters ended March 31, 2004, June 30, 2004, and September 30, 2004 should no longer be relied upon.

The Company will restate the affected interim consolidated statements in its Annual Report on Form 10-K for the period ended December 31, 2004, and the Company's Quarterly Reports on Form 10-Q for fiscal 2005 will reflect the restated information for the interim periods of 2004. The overall effect of the restatement is primarily to change the timing of the Company's recognition of changes in the estimated fair value of the January 2003 interest rate swap, which affects the Company's earnings but has no effect on cash flows in the affected periods. The Company's interim statements are restated by the changes shown below.

The Company's management has discussed the matters disclosed in this Current Report on Form 8-K with KPMG LLP.
