To the Retirement Board
Green Mountain Power Corporation

We have audited the accompanying statements of net assets available for plan benefits of Green Mountain Power Corporation Employee Savings and Investment Plan and Trust (the Plan) as of December 31, 2002, and the related statement of changes in net assets available for plan benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Edgar Filing: GREEN MOUNTAIN POWER CORP - Form 11-K

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2002, and the changes in net assets available for plan benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary schedules of assets held at year end, reportable transactions and nonexempt transactions are presented for purposes of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE 1 PLAN DESCRIPTION

The following description of the Green Mountain Power Corporation Employee Savings and Investment Plan and Trust (the Plan) is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Green Mountain Power Corporation (the "Company"). The Plan covers substantially all full-time employees of the Company.

The Company's Retirement Board is the Plan Administrator with the authority to control and manage the operation and administration of the Plan. The Plan's assets are held by the Trustee of the Plan, which invests cash received, including interest and dividend income, and makes distributions to participants. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 15% of pretax annual compensation, as defined by the Plan. The Company contributes a matching contribution of 100% of the first 4% of contributions made by the participants.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and plan earnings, and charged with participant's withdrawals, distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, net of applicable Federal tax.

Vesting

Participants are immediately vested in their voluntary contributions as well as the Company's contribution and any earnings thereon.

Trustee

The Company changed Trustees on December 2, 2002, changing from American Century to Cigna.

NOTE 1 PLAN DESCRIPTION (continued)

American Century Strategic Allocation Funds: Moderate/Aggressive -These asset

allocation funds invest in stocks, bonds and money market securities. The
diversification of these investments depends on the objective; whether it is
moderate or aggressive.

Participants' Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a
maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan
transactions are treated as a transfer between the investment fund and the
participant loan fund. Loan terms range from 1 - 5 years or up to 30 years for
the purchase of a principal residence. The loans are secured by the balance in
the participant's account and bear interest at the Trustee's prime rate.
Principal and interest is paid ratably through monthly payroll deductions.
Payment of Benefits

On termination of service due to death, disability or retirement, a participant
may elect to receive either a lump-sum amount or to purchase an annuity equal to
the value of the participant's vested interest in his or her account. For
termination of service due to other reasons, a participant may receive the value
of the vested interest in his or her account as a lump-sum distribution.

NOTE 2 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of
accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted
accounting principles requires the Plan Administrator to make estimates and
assumptions that affect the reported amounts of assets and liabilities and

Edgar Filing: GREEN MOUNTAIN POWER CORP - Form 11-K

disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. The Company stock is valued at its quoted market price. Participant loans are stated at cost that approximates fair value.

Payment of Benefits

Benefit payments are recorded when paid.

NOTE 3 RELATED PARTY TRANSACTIONS

The Plan's investments are held in trust by UMB Bank, N.A. and managed by Cigna. Prior to December 3, 2002, the plan was managed by American Century Recordkeeping Services. The Plan's administrative expenses represent fees paid for these services and qualify as party-in-interest transactions. Automatic Data Processing, Inc. provides payroll processing for the Company and qualifies as a party-in-interest, however the Company pays for the cost of the services directly.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue contributions or terminate the Plan at any time, subject to provisions of ERISA.
