INFORMATION CONCERNING SOLICITATION AND VOTING

Record Date and Share Ownership

Stockholders of record at the close of business on January 19, 2001 (the Record Date) are entitled to notice of and to vote at the Annual Meeting. At the Record Date, 127,360,597 shares of Inktomi's common stock (Common Stock) were issued and outstanding and held of record by approximately 1,315 stockholders.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to Inktomi (attention: Tim Stevens, Vice President of Business Affairs, General Counsel and Assistant Secretary) a written notice of revocation or a duly executed proxy bearing a later date or by attending the meeting of stockholders and voting in person.

Voting

Each share of Common Stock outstanding on the Record Date is entitled to one vote. The required quorum for the transaction of business at the Annual Meeting is a majority of the votes eligible to be cast by holders of shares of Common Stock issued and outstanding on the Record Date. For purposes of determining the presence of a quorum, abstentions and broker non-votes will be counted by Inktomi as present at the meeting. Abstentions will also be counted by Inktomi in determining the total number of votes cast with respect to a proposal (other than the election of directors). Broker non-votes will not be counted in determining the number of votes cast with respect to a proposal. All votes will be tabulated by the inspector of elections appointed for the Annual Meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes.

Voting Electronically via the Internet or by Telephone

Stockholders whose shares are registered directly with Wells Fargo may vote either via the Internet or by calling Wells Fargo. Specific instructions for voting via Internet or by telephone are set forth on the enclosed proxy card. The Internet and telephone voting procedures are designed to authenticate the stockholder's identity and to allow stockholders to vote their shares and confirm that their instructions have been properly recorded.

If your shares are registered in the name of a bank or brokerage, you may be eligible to vote your shares electronically via the Internet or by telephone. A large number of banks and brokerage firms are participating in the

ADP Investor Communication Services online program. This program provides eligible stockholders who receive a paper copy of the Annual Report and Proxy Statement the opportunity to vote via the Internet or by telephone. If your bank or brokerage firm is participating in ADP's program, your voting form will provide instructions. If your voting form does not reference Internet or telephone information, please complete and return the paper proxy card in the self-addressed, postage paid envelope provided.

Solicitation of Proxies

The cost of soliciting proxies will be borne by Inktomi. Proxies may be solicited by certain of Inktomi's directors, officers and regular employees, without additional compensation, in person or by telephone, email or facsimile. In addition, Inktomi may retain the services of one or more firms to assist in the solicitation of proxies, for an estimated fee of \$6,000 plus reimbursement of expenses. In addition, Inktomi may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners.

The Audit Committee reviews the internal accounting procedures of Inktomi and consults with and reviews the services provided by Inktomi's independent accountants. Each of the Audit Committee members is independent as that term is defined in Rule 4200(a)(14) of the National Association of Securities Dealers' listing standards. Stockholder ratification of the selection of PricewaterhouseCoopers LLP as Inktomi's independent auditors is not required by Inktomi's Bylaws or otherwise. However, the Board is submitting the selection of PricewaterhouseCoopers LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Board in its discretion may direct the appointment of different independent auditors at any time during the year if it determines that such change would be in the best interests of Inktomi and its stockholders.

Vote Required

The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and voting at the Annual Meeting will be required to ratify the selection of PricewaterhouseCoopers LLP.

Recommendation of the Board

The Board of Directors recommends that the stockholders vote **FOR** the ratification of the appointment of PricewaterhouseCoopers LLP as Inktomi's independent auditors for the fiscal year ending September 30, 2001.

- (4) Option was granted under Inktomi's 1998 Stock Plan. All shares under the option are immediately exercisable; however, as a condition of exercise, the optionee must enter into a stock restriction agreement giving Inktomi the right in the event of any termination of employment to repurchase all then unvested shares at cost. The shares vest over 50 months beginning April 2000.
- (5) Option was granted under Inktomi's 1998 Nonstatutory Stock Option Plan. Employment Contracts, Termination of Employment and Change of Control Plans and Agreements

Inktomi has an employment agreement with David C. Peterschmidt, its President and Chief Executive Officer. The agreement provides for an initial annual salary of \$150,000. The agreement is for no specified length of term, and either party has the right to terminate the agreement at any time with or without cause. The agreement does not provide for any mandatory severance, although Inktomi has the right to continue to pay Mr. Peterschmidt his then current salary for up to 12 months following termination of employment, in which case Mr. Peterschmidt may not compete against Inktomi for such time period.

Under each of Inktomi's stock option plans, all shares under the options are immediately exercisable; however, as a condition of exercise, the optionee must enter into a stock restriction agreement giving Inktomi the right in the event of any termination of employment to repurchase all then unvested shares. In March 2000, the Board of Directors of Inktomi amended each of Inktomi's stock option plans to provide that each outstanding option will fully vest in the event an optionee is terminated from employment without cause within twelve months of a change of control of Inktomi.

Each of the executive officers of Inktomi have entered into Management Retention and Change of Control Agreements that provide for full vesting of all outstanding options and restricted stock in the event such executive is constructively terminated within twelve months of a change of control of Inktomi.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors currently consists of Frank Gill, Fredric W. Harman and John A. Porter, all of whom are outside directors of Inktomi. The Compensation Committee reviews and recommends to the Board of Directors the compensation and benefits of all officers of Inktomi and establishes and reviews general policies relating to compensation and benefits of employees of Inktomi. The following is the report of the Compensation Committee describing compensation policies and rationale applicable to Inktomi's executive officers with respect to the compensation paid to such executive officers for the fiscal year ended September 30, 2000. The information contained in this report, as well as the information contained in the stock price performance graph which follows, shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the 1934 Securities Exchange Act, as amended, except to the extent that Inktomi specifically incorporates such information by reference in such filing.

Compensation Philosophy and Review

Inktomi's executive compensation program is designed to align the interests of executives with the interests of stockholders and to reward executives for achieving corporate and individual objectives. The executive compensation program is also designed to attract and retain the services of qualified executives in the highly competitive Internet and computer networking marketplaces. Executive compensation currently consists of a base salary, quarterly incentive plan, long-term equity incentives, and other compensation and benefit programs generally available to other employees.

The Compensation Committee has considered the potential impact of Section 162(m) of the Internal Revenue Code on the compensation paid to Inktomi's executive officers. Section 162(m) disallows a tax deduction for any publicly-held corporation for individual compensation exceeding \$1.0 million in any taxable year for any of the executive officers, unless compensation is performance-based. In general, it is the Compensation Committee's

13

policy to qualify, to the maximum extent possible, its executives' compensation for deductibility under applicable tax laws.

Base Salaries

Base salary levels for the Chief Executive Officer (the CEO) and other executive officers are intended to compensate executives competitively within the high-technology marketplace. Base salaries are determined on an individual basis by evaluating each executive's scope of responsibility, past performance, prior experience and data on prevailing compensation levels in relevant markets for executive talent.

Regarding the latter measure, certain companies included in the peer group index of the stock performance graph are also included in surveys reviewed by the Compensation Committee in determining salary levels for the CEO and other executive officers of Inktomi. Base salaries for executives are reviewed annually by the Compensation Committee.

Quarterly Incentive Plan

Inktomi provides quarterly incentive bonuses for its executive officers as well as other key management employees. The quarterly incentive plan is intended to provide a direct link between management compensation and the achievement of corporate, divisional and individual objectives. The level of bonus is based as a percentage of the base salary for the manager for the year. At the beginning of each quarter, Inktomi sets certain corporate objectives (including financial performance goals), each business unit sets certain divisional objectives and each individual manager sets his or her own personal objectives to support the achievement of the corporate and divisional objectives. At the end of the quarter, performance is assessed and the level of bonus payable, if any, is determined. Achievement of corporate and divisional objectives is given more weight than achievement of individual objectives for purposes of determining the quarterly bonus.

Long-Term Equity Incentives

Inktomi provides long-term equity incentives to its executive officers and to all other employees through the grant of stock options under its stock option plans. The purpose of granting stock options is to create a direct link between compensation and the long-term performance of Inktomi. Stock options are generally granted at an exercise price equal to 100% of the fair market on the date of grant, have a ten year term and generally vest in installments over 50 months. Because the receipt of value by an executive officer under a stock option is dependent upon an increase in the price of Inktomi's Common Stock, this portion of the executives' compensation is directly aligned with an increase in stockholder value. The primary stock options granted to executive officers are generally in conjunction with the executive officer's acceptance of employment with Inktomi. When determining the number of stock options to be awarded to an executive officer, the Compensation Committee considers the executive's current contribution to Inktomi's performance, the executive officer's anticipated contribution in meeting Inktomi's long-term strategic performance goals, and comparisons to formal and informal surveys of executive stock option grants made by other Internet and computer networking companies. The Compensation Committee also reviews stock option levels for executive officers periodically in light of the current business environment, long-term strategic and performance objectives and each executive's current and anticipated contributions to Inktomi's future performance. Reflecting the increasing scope of Inktomi's business, the Compensation Committee recommended (and the full Board of Directors granted) stock option grants in June 2000 for the CEO of 1,200,000 shares and for the other Named Executive Officers of an aggregate of 800,000 shares. These options vest monthly over 50 months beginning as of April 1, 2000.

Other Compensation

Inktomi's executive officers are also eligible to participate in compensation and benefit programs generally available to other employees, including Inktomi's Employee Stock Purchase Plan. In addition, from time to time, executive officers have received sign-on bonuses or other bonuses based on extraordinary effort.

CEO Compensation

David C. Peterschmidt is President, CEO and Chairman of the Board of Directors. The Compensation Committee reviews Mr. Peterschmidt's compensation annually using the same criteria and policies as are employed for other executive officers. Mr. Peterschmidt's compensation was initially determined in part by the terms of an employment agreement entered into upon his acceptance of employment with Inktomi in July 1996. See

Management Employment Contracts, Termination of Employment and Change of Control Plans and Agreements above. However, the Compensation Committee retains the discretion to increase Mr. Peterschmidt's compensation to levels above those provided in the employment agreement. Mr. Peterschmidt received his first increase in base salary from \$150,000 during fiscal 1998 to \$250,000 for fiscal 1999. His salary was increased to \$325,000 for the 2000 fiscal year. The Compensation Committee based its decision to increase Mr. Peterschmidt's base salary on a variety of factors, including his leadership skills, the increasing scope and responsibility of the CEO office and comparisons of CEO compensation levels for companies of similar size and maturity. For the latest increase, the Compensation Committee also focused on the performance of Inktomi during the 1999 fiscal year in setting compensation for the 2000 fiscal year, noting that Inktomi successfully grew its Network Products business, scaled up operations in its Portal Services business, expanded its international operations and presence, and completed a follow on secondary public offering. Mr. Peterschmidt received bonuses under the quarterly incentive plan equal to 121% of his base salary for fiscal 2000, or \$394,070, in recognition of his significant contributions in leading the company to the achievements noted above during the prior fiscal year. In addition, he received a stock option grant in fiscal 2000 as described above.
