PROXY STATEMENT

INTRODUCTION

This Proxy Statement and the accompanying proxy card are furnished to the stockholders of Schweitzer-Mauduit International, Inc., a Delaware corporation (the Corporation), in connection with the solicitation of proxies by the Board of Directors of the Corporation for use at the Annual Meeting of Stockholders to be held on April 28, 2005 (Annual Meeting) and at any adjournment thereof. Proxies in the accompanying form, properly signed and received in time for the meeting, will be voted as instructed. If no instructions are given, proxies will be voted for the election of the 2 directors nominated for election. Any proxy may be revoked by the stockholder granting it at any time before it is voted by delivering to the Secretary of the Corporation another signed proxy card, or a signed document revoking the earlier proxy or by attending the meeting and voting in person. The Corporation intends to mail this Proxy Statement and proxy card, together with the 2004 Annual Report to Stockholders, on or about March 17, 2005.

Each stockholder of record at the close of business on March 3, 2005 will be entitled to 1 vote for each share registered in such stockholder's name. As of March 3, 2005, there were [15,149,223] shares outstanding of the Corporation's common stock, par value \$0.10 per share (the Common Stock).

The Corporation will pay the entire cost of the proxy solicitation. The Corporation has retained American Stock Transfer & Trust Company, the Corporation's transfer agent, to aid in the solicitation of proxies. Proxy solicitation services on routine proxy matters are included in the fees paid to American Stock Transfer & Trust Company to act as the Corporation's stock transfer agent and registrar. Only reasonable out-of-pocket expenses on proxy solicitation services are charged separately. The Corporation will reimburse brokers, fiduciaries and other nominees for their reasonable expenses in forwarding proxy materials to beneficial owners. In addition to solicitation by mail, directors, officers and employees of the Corporation may solicit proxies in person, by telephone or by other means of communication.

If a stockholder is a participant in the Schweitzer-Mauduit International, Inc. Retirement Savings Plan (Plan), the proxy card represents the number of full shares of Common Stock held for the benefit of the participant in the Plan as well as any shares of Common Stock registered in the participant's name. Thus, a proxy card for such a participant grants a proxy for shares registered in the participant's name and serves as a voting instruction for the trustee of the Plan for the account in the participant's name. Information as to the voting instructions given by individuals who are participants in the Plan will not be disclosed to the Corporation.

Pursuant to Section 216 of the Delaware General Corporation Law and the Corporation's By-Laws, a quorum for the Annual Meeting will be a majority of the issued and outstanding shares of the Corporation's Common Stock, present in person or represented by proxy. Directors shall be elected by a plurality of the votes present in person or represented by proxy and entitled to vote on the election of directors. Votes may be cast in favor of or withheld from each nominee; votes that are withheld will be excluded entirely from the vote and will have no effect. Under applicable Delaware law, a broker non-vote will have no effect on the outcome of the election of directors. In all matters other than the election of directors that are presented for action at the Annual Meeting, the affirmative vote of a majority of shares present in person or represented by proxy and entitled to vote on the subject matter shall be the act of the stockholders.

NOMINATION OF DIRECTORS

Directors may be nominated by the Board of Directors or by stockholders in accordance with the By-Laws of the Corporation. The Nominating & Governance Committee will identify potential candidates and review all proposed nominees for the Board of Directors, including those proposed by stockholders, in accordance with its mandate contained in its charter. The Nominating & Governance Committee's review includes an assessment of the person's judgment, experience, independence, understanding of the Corporation's business or other related industries, commitment and availability to prepare for and attend Board and Board Standing Committee meetings and such other factors as the Nominating & Governance Committee determines are relevant in light of the needs of the Board of Directors and the Corporation. The Nominating & Governance Committee will select qualified candidates and review its recommendations with the Board of Directors, which will decide whether to invite the candidate to be a nominee for election to the Board of Directors.

The Nominating & Governance Committee Charter authorizes the Nominating & Governance Committee to retain such outside experts as it deems necessary and appropriate to assist it in the execution of its duties. The Nominating & Governance Committee retained Korn/Ferry International in November 2004 to assist it in the search for a potential candidate for the Board of Directors. The terms of engagement are consistent with those available from firms providing competitive services. There is no relationship between any member of Korn/Ferry International and any member of the Board of Directors or any member of the Corporation's management that would influence the performance of Korn/Ferry International's search services.

Any stockholder of record entitled to vote generally in the election of directors may submit a candidate for consideration by the Nominating & Governance Committee by notifying the Secretary and General Counsel in writing at the address noted on the face page of this Proxy Statement. The written notice of a stockholder's intent to make such nomination or nominations meeting the requirements described below has to be given, either by personal delivery or by United States mail, postage prepaid, to the Secretary and General Counsel of the Corporation, and received by the Corporation, not less than 50 days nor more than 75 days prior to the meeting; provided, however, that in the event that less than 60 days notice or prior public disclosure of the date of the meeting is given or made to stockholders, notice by the stockholder to be timely must be so received not later than the close of business on the 10th day following the day on which such notice of the date of meeting was mailed or such public disclosure was made, whichever first occurs.

The stockholder's notice to the Secretary and General Counsel shall state the following:

- the name and address of record of the stockholder who intends to make the nomination;
- a representation that the stockholder is a holder of record of shares of the Corporation entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice;
- the name, age, business and residence addresses, and principal occupation or employment of each nominee;
- a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the stockholder;
- such other information regarding each nominee proposed by such stockholder as would be required to be included in a proxy statement filed pursuant to the proxy rules of the Securities and Exchange Commission; and
- the consent of each nominee to serve as a director of the Corporation if so elected.

The Corporation may require any proposed nominee to furnish such other information as may reasonably be required by the Corporation to determine the eligibility of such proposed nominee to serve as a director of the Corporation.

PROPOSAL ONE

ELECTION OF DIRECTORS

The Board of Directors presently has 8 members, 5 of whom are independent. The Board of Directors is divided into 3 classes that are elected on a staggered basis with 1 class elected each year for a 3-year term. All of the current directors have served on the Corporation's Board of Directors since November 30, 1995.

The Board of Directors has determined that Ms. Arnold is independent and that Mr. Chambaz is not independent, as discussed further in the section of the Proxy Statement captioned "Board and Committee Governance" found at page 7. Should any nominee become unable to serve, proxies may be voted for another person designated by the Board of Directors. The nominees have advised the Corporation that they will serve if elected. The remaining 6 directors will continue to serve as directors for the terms set forth on page 4.

Lead Non-Management Director

On April 29, 2004, K.C. Caldabaugh was re-elected as the lead non-management director to preside at meetings of the non-management directors.

Standing Committees

The Audit Committee, the Compensation Committee and the Nominating & Governance Committee are the 3 Standing Committees of the Board of Directors. Each Standing Committee is composed entirely of independent directors.

Copies of the Corporation's Corporate Governance Guidelines and the charters for each of the Standing Committees can be found on the Corporation's website at <http://www.schweitzer-mauduit.com>. Copies of these documents may also be obtained by directing a written request to the Secretary and General Counsel at the Corporation's headquarters address noted on the first page of this Proxy Statement.

Director Independence

The Board of Directors unanimously adopted the following standard for director independence at its December 2002 meeting:

An independent director is a person who is free from any relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Annually, the Board of Directors will assess the independence of each non-management director based on the existence or absence of a material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company). The following persons shall not be considered independent:

- a) A director who is employed by the Company or any of its affiliates for the current year or any of the past five (5) years.
- b) A director who is, or in the past five (5) years has been, affiliated with or employed by a (present or former) auditor of the Company (or of an affiliate).
- c) A director who is, or in the past five (5) years has been, part of an interlocking directorate in which an executive officer of the Company serves on the compensation committee of another company that concurrently employs the director.
- d) A director who is, or in the past five (5) years has been, a Family Member of an individual who was employed by the Company or any of its affiliates as an executive officer. The term "Family Member" shall mean a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than household employees) who shares such person's home.

e) A director who, during the current fiscal year or any of the past five (5) fiscal years, personally provided services to the Company or its affiliates that had an annual value in excess of \$60,000; or who was paid or accepted, or who has a non-employee Family Member who was paid or accepted, any payments from the Company or any of its affiliates in excess of \$60,000 other than compensation for board service, benefits under a tax-qualified retirement plan, or non-discretionary compensation.

f) A director who is a partner in, or a controlling shareholder or an executive officer of, any organization (profit or non-profit) to which the Company made, or from which the Company received, payments (other than those arising solely from investments in the Company's securities) that exceed one percent (1%) of the recipient's annual consolidated gross revenues in the current year or any of the past five (5) fiscal years; unless, for provisions (e) and (f), the Board of Directors expressly determines in its business judgment that the relationship does not interfere with the director's exercise of independent judgment.

Based on the foregoing standard and the standards for independence articulated by the New York Stock Exchange and the Securities and Exchange Commission, the Board affirmatively determined by resolution dated February 23, 2005 that the following directors, who collectively constitute 63% of the full Board and represent 100% of the membership of the Standing Committees, are independent:

Ms. Claire L. Arnold

Mr. K.C. Caldabaugh

Mr. Leonard J. Kujawa

Mr. Richard D. Jackson

Mr. Larry B. Stillman

Wayne H. Deitrich and Jean-Pierre Le Hétêt, are members of management and are therefore not considered independent under the NYSE independence standards. Laurent G. Chambaz is not considered independent under the Corporation's independence standards due to sums paid within the last 5 years by a subsidiary of the Corporation to law firms in which Mr. Chambaz was a partner.

Financial Expert

The Board of Directors affirmatively determined by resolution dated February 23, 2005 that K.C. Caldabaugh, Richard D. Jackson and Leonard J. Kujawa qualify as financial experts, as such term is defined in Regulation S-K, Item 401(h), and each of these directors is a member of the Audit Committee.

Compensation of Directors

A director who is an officer or an employee of the Corporation or any of its subsidiaries or affiliates does not receive any fees for service as a member of the Board of Directors or any committee thereof, but is reimbursed for expenses incurred as a result of such service. Each director who is not an officer or employee of the Corporation or any of its subsidiaries or affiliates (a non-employee director) received the following compensation in 2004:

Compensation	Payment	Form of Payment
Retainer	Annually \$27,000	Common Stock paid pro rata quarterly in advance (1)
Board Meeting Fee	\$3,000	Cash per meeting attended
Committee Meeting Fee (2)	\$1,250	Cash per meeting attended
Chairperson of Committee	\$750	Cash per meeting Chaired in addition to the committee meeting fee
Lead Non-Management Director	Annually \$10,000	Cash paid quarterly in advance

(1) In 2004, each non-employee director received 864 shares of Common Stock under the Directors Plan or a similar amount in stock unit equivalents pursuant to the Schweitzer-Mauduit International, Inc. Deferred Compensation Plan for Non-Employee Directors for those directors who elected to participate in that plan.

(2) The members of the Audit Committee receive no direct or indirect compensation from the Corporation other than the compensation paid for service as a Director.

From 2000 to 2004 directors could annually elect to defer all or part of their compensation received from the Corporation pursuant to the Corporation's Non-Employee Directors Deferred Compensation Plan (Outside Director Deferral Plan). Participation in this plan allowed a director to defer receipt of compensation and to thereby also defer certain state and federal income taxes until the deferred compensation is paid upon the director's retirement from the Board of Directors or earlier death or disability. In connection with recent changes to regulations governing deferred compensation plans imposed by the American Jobs Creation Act of 2004, the Corporation adopted the Deferred Compensation Plan No. 2 for Non-Employee Directors. The Outside Director Deferral Plan shall be frozen as of December 31, 2004 to stop the accrual of additional unvested benefits. Participants will not accrue any additional benefits other than market-based investment earning or losses on their individual accounts under that plan. As of January 1, 2005 all directors who annually elect to defer all or part of their compensation received from the Corporation will participate in the Deferred Compensation Plan No. 2 for Non-Employee Directors. This plan is a non-qualified, deferred compensation plan that permits participants to defer the receipt of their annual retainer or fees not otherwise eligible for deferral. This plan is intended to operate in a manner substantially similar to the existing Outside Director Deferral Plan, subject to those new requirements and changes mandated under Section 409A of the Internal Revenue Code of 1986, as amended.

Audit Committee Report

The following report summarizes the Audit Committee's actions during 2004. This report shall not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Corporation specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

In accordance with its written charter, the Audit Committee of the Board of Directors (Audit Committee) assists the Board of Directors by overseeing and monitoring:

- (1) the integrity of the Corporation s financial statements,
- (2) the Corporation s compliance with legal and regulatory requirements,
- (3) the outside auditor s qualifications and independence and
- (4) the performance of the Corporation s internal control function, its system of internal and disclosure controls and the outside auditor.

The members of the Audit Committee meet the applicable independence and experience requirements of the New York Stock Exchange and the standards for determining a director s independence adopted by the Board of Directors.

During 2004, the Audit Committee met 8 times, including discussion of the interim financial information and earnings guidance contained in each quarterly earnings announcement with the Chief Financial Officer, Controller and outside auditor prior to public release.

The following table summarizes the aggregate fees relating to amounts billed to the Corporation by its outside auditor, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu and their respective affiliates, (collectively, Deloitte) for the fiscal years ended December 31, 2004 and 2003:

	2004	2003
Audit Fees (1)	\$ 1,201,000	\$ 514,000
Audit-Related Fees (2)	30,000	60,000
Tax Fees (3)	34,000	384,000
All Other Fees (4)		
Total Fees	\$ 1,265,000	\$ 958,000

(1) Includes fees billed for 2004 and 2003 for professional services rendered in connection with the audit of the annual financial statements, review of financial statements included in the Form 10-Q filings and for services provided for statutory and regulatory filings or engagements. Includes fees billed for 2004 for professional services rendered in connection with the audit of the Corporation s internal control over financial reporting and management s assessment thereof, which totaled \$608,000.

(2) Includes fees incurred for 2004 and 2003 for assurance and related services and consultation on regulatory matters or accounting standards. Includes fees incurred for 2004 and 2003 for consultation concerning Sarbanes-Oxley Act of 2002, Section 404 readiness. Includes fees incurred for 2003 for the audit of employee benefit plans.

(3) Includes fees incurred for 2004 and 2003 for tax return preparation and compliance and tax advice and tax planning. Includes fees incurred for 2003 for tax consultation regarding a legal restructuring in the Corporation s international operations to better align the legal structure with the business purposes and for tax due diligence of a potential acquisition.

(4) Includes other fees not included in the above categories.

The services performed by the outside auditor in 2004 were pre-approved in accordance with the pre-approval policy and procedures adopted by the Audit Committee at its December 5, 2002 meeting, as amended at the April 21, 2003 meeting. These procedures describe the permitted audit, audit-related, tax, and other services (collectively, the Disclosure Categories) that the outside auditor may perform. The procedure requires that prior to the beginning of each fiscal year, a description of the services (the Service

List) expected to be performed by the outside auditor in each of the Disclosure Categories in the following fiscal year be presented to the Audit Committee for approval.

Services provided by the outside auditor during the following year that are included in the Service List are pre-approved following policies and procedure of the Audit Committee.

Any requests for audit, audit-related, tax, and other services not contemplated on the Service List must be submitted to the Audit Committee for specific pre-approval and cannot commence until such approval has been granted. Normally, pre-approval is provided at regularly scheduled meetings. However, the authority to grant specific pre-approval between meetings, as necessary, has been delegated to the Chairman of the Audit Committee. The Chairman must update the Audit Committee at the next regularly scheduled meeting of any services that were granted specific pre-approval.

In addition, although not required by the rules and regulations of the Securities and Exchange Commission, the Audit Committee is provided a range of fees associated with each proposed service on the Service List and any services that were not originally included on the Service List. Providing a range of fees for a service incorporates appropriate oversight and control of the outside auditor relationship, while permitting the Corporation to receive immediate assistance from the outside auditor when time is of the essence. The policy does not contain a *de minimis* provision that would provide retroactive approval for permissible non-audit services under certain circumstances.

On a periodic basis, the Audit Committee reviews the status of services and fees incurred year-to-date against the Service List and the forecast of remaining services and fees for the fiscal year.

In discharging its oversight responsibility as to the audit process, the Audit Committee obtained from the outside auditor a formal written statement describing all relationships between the outside auditor and the Corporation that might bear on the outside auditor's independence consistent with Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, discussed with the outside auditor any relationships that may impact their objectivity and independence, including the services and amounts reflected in the above table, and satisfied itself as to the outside auditor's independence.

The Committee reviewed with the outside auditor their audit plans, audit scope and identification of audit risks. The Audit Committee also discussed with management and the outside auditor the quality and adequacy of the Corporation's internal control function and its system of internal and disclosure controls.

The Audit Committee discussed and reviewed with the outside auditor all communications required by Securities and Exchange Commission regulations and by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees and, with and without management present, discussed and reviewed the results of the outside auditor's examination of the financial statements.

The Audit Committee discussed, reviewed and monitored the Corporation's plans and activities related to Sarbanes-Oxley Act Section 404 compliance on a regular basis. It is estimated that the Corporation incurred approximately \$1.3 million in Section 404 compliance costs in 2004.

The Audit Committee reviewed and discussed the audited financial statements of the Corporation as of and for the fiscal year ended December 31, 2004, with management and the outside auditor. Management has the responsibility for the preparation of the Corporation's financial statements and the outside auditor has the responsibility for conducting an audit of those statements.

Based on the above-mentioned review and discussions with management and the outside auditor, the Committee recommended to the Board of Directors that the Corporation's audited financial statements be included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2004, for filing with the Securities and Exchange Commission. The Audit Committee also recommended the reappointment of the outside auditor and the Board of Directors concurred in such recommendation.

EXECUTIVE COMPENSATION

Compensation Committee Report

The following report summarizes the Compensation Committee's philosophy on executive compensation and the actions taken during 2004. This report shall not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Corporation specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

Independence

The Compensation Committee was established by the Board of Directors on December 1, 1995 and is composed entirely of independent directors. The Board of Directors elects the members and the chairperson of the committee.

Duties of the Committee

The Compensation Committee is governed by the Compensation Committee Charter, a copy of which can be viewed on the Corporation's website. Pursuant to its charter, the Compensation Committee establishes the Corporation's compensation and benefit policies and practices for directors, executive officers and key managerial employees. The Compensation Committee annually approves the base salary for all executive officers and administers the Annual Incentive Plan, the Equity Participation Plan, pursuant to which stock options are granted, the Restricted Stock Plan and the Long-Term Incentive Plan, as well as approving any contributions by the Corporation to the account of any participant in the Corporation's deferred compensation arrangements. The Compensation Committee approves the performance objectives and targets under the Annual Incentive and the Long-Term Incentive Plans, except the Corporate unit objectives and targets under the Annual Incentive Plan, which are set by the entire Board of Directors. The Compensation Committee confirms actual performance against objectives and targets for each award period under the Annual Incentive and Long-Term Incentive Plans. The Compensation Committee reviews the performance objectives and targets when established and the actual performance achieved against those targets at the end of the performance period with the full Board of Directors.

Use of Outside Expertise

The Compensation Committee has retained Towers Perrin to advise it on the design and structure of the Corporation's executive compensation program and to conduct market analyses as to the specific levels and form of executive compensation paid by comparable manufacturing companies for like executive positions. In 2004, the Compensation Committee undertook a competitive bid process following which it decided to retain Towers Perrin as its compensation consultant for 2005. This decision was based, among other things, on Towers Perrin's capabilities both domestically and in each of the geographic regions where the Corporation or its subsidiaries has operations, as well as Towers Perrin's extensive databases and understanding of the Compensation Committee's compensation philosophy and the Corporation's financial drivers and market dynamics. Although Towers Perrin is also retained by the Corporation for actuarial and other services related to its retirement and other benefit plans. The Compensation Committee is satisfied that the objectivity of the services and information provided to the Compensation Committee by Towers Perrin are not compromised by the other business between Towers Perrin and the Corporation. Comparative compensation information was drawn from a broader range of companies than those included in the industry index used in the performance graph on page 27 of this Proxy Statement.

Executive Compensation Policies

The Corporation's executive compensation policies are designed to attract and retain qualified executives, to appropriately reward individual achievement, and to enhance the financial performance of the Corporation, and thus stockholder value, by significantly aligning the financial interests of the Corporation's executives with those of its stockholders. The Compensation Committee generally targets both the annual and long-term components of executive compensation at the 50th percentile of such compensation paid to persons holding similar executive positions at comparable companies based on an annual competitive compensation survey. To accomplish these objectives, the executive compensation program as administered by the Compensation Committee consists primarily of:

- (i) annual cash compensation, the components of which are base salary and an annual variable cash incentive payable pursuant to the Corporation's Annual Incentive Plan, which is performance based;
- (ii) long-term incentive compensation structured as 50% equity by grants of stock option awards pursuant to the Corporation's Equity Participation Plan and 50% cash in the form of a long-term performance incentive award payable in cash pursuant to the Corporation's Long-Term Incentive Plan;
- (iii) Special purpose or recognition grants of restricted stock pursuant to the Corporation's Restricted Stock Plan; and
- (iv) Participation in other benefit plans available to employees generally, including the Corporation's Retirement Plan, Retirement Savings Plan and a medical plan. The Named Executive Officers and certain other more highly compensated individuals also participate in a Supplemental Benefit Plan, a non-qualified retirement benefit plan, and may elect to participate in a deferred compensation plan.

Annual Salary and Incentive Bonuses

In determining the base salaries of executive officers, the Compensation Committee reviewed salaries paid to similarly situated executives in the companies reflected in the above-described compensation study. In establishing base salary levels, the Compensation Committee considers such factors as job complexity, performance, level of responsibility, the relationship of the position to the Corporation's long-term strategic goals, and the particular individual's skills, experience and background. While no pre-established weightings are given to these factors, particular emphasis is placed on attracting and retaining quality individuals in order to develop and retain an effective executive team for the Corporation.

The purpose of the Corporation's Annual Incentive Plan is to further unite the interests of the stockholders of the Corporation and its key employees through the annual establishment of corporate objectives and the annual payment of cash incentive awards to key employees based on individual performance and the attainment of the Corporation's objectives.

Target incentive cash opportunities under the Annual Incentive Plan for executive officers, including the CEO, can range from 30% to 75% of a participant's base salary with a maximum payout of up to 192.5% of the participant's target incentive award percentage. The Compensation Committee determines actual annual cash bonuses by measuring performance against specific goals established at the beginning of each year. The goals take into account, depending on the responsibility of the individual, 2 or more of the following:

- the individual's performance;
- the performance of the functional group or unit with which the individual is associated (primarily based upon the operating profit of such unit); and

- the overall performance of the Corporation (primarily based upon diluted earnings per share).

Such goals may or may not be equally weighted and may vary from one executive officer to another. With the exception of individual performance goals, which do not constitute more than 30% of any executive officer's total Annual Incentive Plan award opportunity, Annual Incentive Plan awards for the functional unit's and the Corporation's performance comprise the majority of any award opportunity.

Long-Term Incentive Compensation

The Corporation's long-term incentive compensation for its key executives consists of:

- (i) grants of stock options pursuant to the Corporation's Equity Participation Plan;
- (ii) grants of restricted stock pursuant to the Restricted Stock Plan; and
- (iii) a cash opportunity payable based on achievement of objectives generally over a 3-year performance period pursuant to the Corporation's Long-Term Incentive Plan.

The Equity Participation Plan is intended to provide a means of encouraging an ownership interest in the Corporation by those employees who have contributed or are determined to be in a position to contribute materially to the success of the Corporation, thereby increasing their motivation for and interest in the achievement of the Corporation's long-term success. Because the value of a stock option bears a direct relationship to the price of shares of the Corporation's Common Stock, stock options are viewed as a means of encouraging executives and other key management employees to increase long-term stockholder value. The Compensation Committee grants stock option awards based on such factors as the competitive target long-term incentive opportunity for executives with comparable responsibilities in similarly sized corporations, individual contributions to corporate performance and management recommendations. The Equity Participation Plan mandates that the strike price of any options awarded be set at no less than the fair market value of the Common Stock at the time of grant.

The Restricted Stock Plan is intended to promote the long-term financial success of the Corporation by attracting to and retaining for the Corporation and its Affiliates outstanding executive personnel and to motivate such personnel by means of restricted stock grants to contribute to the Corporation's success. The Compensation Committee designates the participants in the Restricted Stock Plan and establishes the terms on which grants of restricted stock are made. Awards of restricted stock are made from the Corporation's treasury stock and constitute an immediate transfer of ownership to the participant of shares of the Corporation's Common Stock, including the right to vote the shares and to receive dividends thereon, at a share price established by the Compensation Committee in its discretion. The Participant's continued ownership of and right to freely transfer the restricted stock is subject to such conditions on transferability and to such risks of forfeiture as are established by the Compensation Committee at the time of the grant, which may include continued employment with the Corporation for a defined period, achievement of specified management performance objectives or other conditions. As with stock options, a portion of the value of restricted stock bears a direct relationship to the value of the Corporation's Common Stock and, therefore, total stockholder return.

The Long-Term Incentive Plan is designed to enable the Corporation to attract and retain key executives by providing a competitive and diversified total compensation package and to help focus executives' attention on the long-term performance of the Corporation. The Compensation Committee designates participants in the Long-Term Incentive Plan, determines cash award opportunities generally on the basis of a 3-year performance period and is otherwise responsible for administration of the Long-Term Incentive Plan. Performance is measured on a cumulative basis and a portion of each performance cycle's overall cash award opportunity may be earned annually. A part of the award opportunity may still be earned in each year even if the cumulative performance objectives are not met provided that pre-established stand-alone annual objectives are achieved. Payment of any earned award is made at the end of

the performance period and is subject to the participant's continued employment at the time of payment, except in the case of death, disability or an approved retirement. New award opportunities are not established until the current performance period is concluded thereby maintaining a clearer focus on the long-term performance objectives established by the Compensation Committee for each performance cycle. The Long-Term Incentive Plan award opportunities are based on a competitive market analysis of long-term incentive opportunities for executive management positions in comparable companies. Under the Long-Term Incentive Plan, a target cash award is established for each participant, which, taken together with a participant's stock option and restricted stock grants, is structured to provide the participant with a total long-term incentive award commensurate with the participant's responsibilities. The award opportunity is allocated 50% in cash and 50% in equity opportunity in the form of stock options granted under the Equity Participation Plan or restricted stock granted under the Restricted Stock Plan. A participant in the Long-Term Incentive Plan can earn cash awards that range from 0% up to 200% of the performance award opportunity allocated by the Compensation Committee.

The Compensation Committee established an award opportunity for the 2004-2005 performance cycle. This award opportunity is a 2-year period because the number of shares authorized for the grant of stock options under the Equity Participation Plan was insufficient to address a 3-year cycle. As each long-term incentive opportunity is a combination of cash and equity opportunities, this 2-year period was appropriate. The Corporation decided not to seek shareholder authorization for additional shares to be issued for stock option grants until an evaluation of the continued use of stock options in light of pending changes in their accounting treatment is completed.

Deferred Compensation

As an adjunct to the annual salary and to the annual bonus and long-term incentive bonus that may be earned under the Annual Incentive and Long-Term Incentive Plans, respectively, by the Named Executive Officers and other key employees, the Corporation has a Deferred Compensation Plan. The Deferred Compensation Plan permits eligible employees who elect to participate to defer receipt and taxation of a portion of their annual salary and incentive bonuses. The amount of annual salary and incentive bonus awards that may be deferred is limited to 25% and 50%, respectively. Eligibility to participate in the Deferred Compensation Plan is limited to management and highly compensated employees as defined in the Employee Retirement Income Security Act of 1974, as amended. The Corporation may, with Compensation Committee approval, make cash contributions to a participant's account in the Deferred Compensation Plan. In connection with the recent changes to the regulations governing deferred compensation plans imposed by the American Jobs Creation Act of 2004, contributions and deferrals into the Deferred Compensation Plan have been frozen to stop the accrual of additional unvested benefits in that plan as of December 31, 2004. Participants will not accrue any additional benefits other than market-based investment earning or losses on their individual accounts in that plan. New deferrals and any future contributions will go into the Deferred Compensation Plan No. 2. This plan is also a non-qualified, deferred compensation plan. This plan is intended to operate in a manner substantially similar to the Deferred Compensation Plan, subject to those new requirements and changes mandated under Section 409A of the Internal Revenue Code of 1986, as amended.

Compensation of Chief Executive Officer

The Compensation Committee has traditionally used the same compensation policy for all executive officers described above to determine the compensation for Wayne H. Deitrich, the Chairman and Chief Executive Officer. In 2003, Mr. Deitrich proposed and the Compensation Committee agreed by Unanimous Written Consent to revise the basis on which Mr. Deitrich's base salary would be determined. Under the revised compensation approach, Mr. Deitrich's base salary will remain at \$500,000 per annum (75% of the targeted 50th percentile or 37.5% of the target level of the base salary paid to the Chairman

and Chief Executive Officers of public companies comparable to the Corporation in 2003). Mr. Deitrich's base salary will not be adjusted unless the 50th percentile target level, as determined by an independent consultant's competitive compensation analysis, is greater than \$667,000, at which point his base salary will adjust to 75% of the new target level. Effective in 2003, annually, the Board of Directors evaluates Mr. Deitrich's performance and, if the Board determines it to be satisfactory, the Board may award Mr. Deitrich up to 3,500 shares of Restricted Stock in recognition of his annual performance. As a result of these changes, an increased portion of Mr. Deitrich's total compensation is tied to the value of the Corporation's stock and thereby his interests are further aligned with the economic interest of the Corporation's stockholders. Mr. Deitrich will continue to participate in the Annual Incentive Plan, Long-Term Incentive Plan, Restricted Stock Plan and the Equity Participation Plan on the same basis as the other officers of the Corporation.

Corporate Tax Deduction for Executive Compensation

Pursuant to the Omnibus Budget Reconciliation Act of 1993 (OBRA), annual compensation payable to the CEO and each of the 4 highest paid executive officers of a public corporation will not be deductible by the corporation for Federal Income Tax purposes to the extent any such officer's overall compensation exceeds \$1,000,000. Certain types of compensation, including qualifying performance-based incentive compensation that is stockholder approved, are deductible and excluded for purposes of calculating the \$1,000,000 base under Code Section 162(m). OBRA recognizes stock option plans as performance-based if such plans meet certain requirements. The Compensation Committee will take advantage of qualifying compensation paid to the Named Executive Officers under OBRA to maintain the Corporation's deduction for such expenses where it deems appropriate and advisable. The Board of Directors has determined that it is in the Corporation's best interest to qualify the Annual Incentive Plan and the Long-Term Incentive Plan under Code Section 162(m) and therefore presented those plans for stockholder approval in 2004, which approval was granted. However, all executive compensation plans and compensation paid to the Named Executive Officers may not be so qualified, but it is not currently expected that the Corporation will lose the benefit of any tax deduction to which it would otherwise be entitled but for the failure to obtain such qualification.

(1) Represents shares of Common Stock underlying options granted on January 2, 2004 pursuant to the Corporation's Equity Participation Plan.

(2) The Corporation granted options during fiscal year 2004 to employees to purchase an aggregate of 187,900 shares of Common Stock.

(3) The exercise price of the options granted in 2004 was based upon the mean of the high and low sales prices of the Corporation's Common Stock on January 2, 2004, the date the options were granted.

(4) The options granted in January 2004 are exercisable in increments of 30%, 30% and 40% on or after January 2, 2005, January 2, 2006 and January 2, 2007, respectively.

(5) Calculation is based on the Black-Scholes option-pricing model adapted for use in valuing stock options. The following assumptions were used for the 2004 grants: market value of the stock equal to the exercise price; ten-year option term; estimated volatility of 29.17%; risk-free rate of return of 4.58% based on the interest rate on 10-year government securities; and a yield of 2.54%. The resulting Black-Scholes option value was \$9.25.

The following table sets forth information concerning the pre-tax value of unexercised options held by the Corporation's Named Executive Officers as of December 31, 2004. As noted in the following table, Named Executive Officers exercised options in 2004.

Long Term Incentive Plan

The following table provides information respecting the award opportunity provided to the Corporation's Named Executive Officers for the second year (2005) of the Performance Cycle commencing January 1, 2004 and ending December 31, 2005 (2004 Performance Cycle) pursuant to the Corporation's Long-Term Incentive Plan. Long-Term Incentive Plan awards for the 2004 Performance Cycle are contingent on achieving predetermined performance objectives established by the Compensation Committee for such period and are based on a range of percentages of the Participant's base salaries in effect each year for achieving the Threshold, Target, Maximum and Outstanding Performance Objectives, respectively. Performance at less than Threshold results in no award. Additional information about the purpose of and method for determining Long-Term Incentive Plan awards is set forth herein on page 16 under the caption Executive Compensation Compensation Committee Report . Under the 2004 Performance Cycle, performance is measured against objectives in each year of the multi-year award cycle. If an award is earned in any year of the multi-year cycle, it is earned but not paid in that year. Earned awards are paid at the end of the performance cycle provided that the participant is still employed on that date. Awards earned in 2004 are reflected in the Bonus column of the Summary Compensation Table found on page 19.

Defined Benefit Retirement Plan

The Corporation provides certain benefits to its U.S. employees through the Schweitzer-Mauduit International, Inc. Retirement Plan (the Retirement Plan), a U.S. pension plan covering hourly and salaried employees. In July 2000, the Retirement Plan was amended to add a cash balance formula benefit that would apply to newly hired employees, certain employees previously covered under the final average pay formula benefit and employees who had the right to elect coverage under either the new cash balance formula benefit or the final average pay formula benefit. The final average pay formula benefit and the cash balance formula benefit provisions of the Retirement Plan are discussed separately below.

Final Average Pay Formula Benefit

The final average pay formula benefit entitles each vested salaried U.S. employee participating in that benefit formula to an annual pension benefit at normal retirement equal to 1.50% of final average earnings times the employee's years of service, subject to a deduction for social security benefits or, if greater, 1.125% of final average earnings times years of service plus a specific amount for certain employees. Final average earnings is defined as the highest average of any 5 years of Earnings (as defined in the Retirement Plan) out of the last 15 calendar years of employment, or over the last 60 months of credited service, if

greater. The minimum monthly benefit payable in a single-life annuity to salaried employees is the lesser of \$125 or \$25 times years of service.

Retirement benefits for salaried participants who have at least 5 years of vesting service may begin on a reduced basis at age 55, or on an unreduced basis at normal retirement age. Unreduced benefits also are available for salaried participants with 10 years of vesting service at age 62 or as early as age 60 with 30 years of vesting service. The normal form of benefit for unmarried salaried participants is a single-life annuity payable monthly. Benefits will be actuarially adjusted if the employee receives one of the available forms of joint and survivor or other optional forms of benefit.

Table A illustrates the estimated annual benefits payable upon retirement at age 65 without regard to IRS limitations under the Retirement Plan for specified highest 5-year average remuneration and years-of-service classifications for U.S. salaried employees, computed on a single-life annuity basis, without deduction for Social Security or other offset amounts. Benefits will be adjusted if the employee receives one of the optional forms of benefit. Benefits under the Retirement Plan will be limited to the extent required by U.S. tax provisions. Any excess over such limitation for certain salaried employees will be paid pursuant to supplemental arrangements.

The estimated years of benefit service, which includes years of benefit service while at Kimberly-Clark Corporation (from which the Corporation was spun-off in November, 1995) as of normal retirement at age 65, for Messrs. Deitrich and Roberts, are 38.5 and 36.6, respectively. Mr. Thompson has his retirement benefits determined under the cash balance formula benefit.

Mr. Bellanger and Mr. Le Hétêt's retirement benefits are provided under a foreign subsidiary's pension plan that bases benefits on years of service and compensation. The projected benefit is based on the normal retirement age of 65.

Named Executive Officer	Years of Credited Service	Projected Benefit (Euros)	Projected Benefit (Dollars)
Thierry E. Bellanger	43	309,706	420,054
Jean-Pierre Le Hétêt	29	354,894	481,343

Cash Balance Benefit Formula

The cash balance formula benefit covers all salaried employees hired on or after July 1, 2000 and salaried employees as of July 1, 2000 who are not grandfathered under the terms of the Retirement Plan, or were grandfathered employees who chose the cash balance formula benefit. Salaried employees who, as of July 1, 2000, had either attained the sum of their age plus years of vesting service equal to 65 or more, or attained the sum of their age plus years of vesting service equal to 60 or more and had at least 15 years of vesting service were grandfathered under the final average pay formula benefit. The grandfathered employees had until October 1, 2000 to elect to remain under the final average pay formula benefit or to take the cash balance formula benefit. The terms of participation of hourly employees in the cash balance benefit formula are negotiated for each bargaining unit as part of the collective bargaining process.

For salaried employees who as of July 1, 2000 were not grandfathered, or who were grandfathered but elected the cash balance formula benefit, an initial account balance was established based on the employee's accrued benefit payable at normal retirement age under the final average pay formula benefit converted to a lump sum based on a mortality table and an interest rate that was consistent with industry norms.

A Retirement Contribution Credit is added to the participant's account balance each year in which the participant accrues a year of vesting service. The Retirement Contribution Credit is determined in accordance with the schedule noted in Table B. The account balance is also credited with an interest credit based on the average yield for 30-year Treasury securities for the November immediately preceding the current Retirement Plan year.

Table B
Retirement Contribution Credit

Participant's Attained Age Plus Years of Vesting Service	Percentage of All Earnings	Plus Additional Percentage of Earnings Over Social Security Wage Base
35 or less	2.4	2.4
36 to 44	3.2	3.2
45 to 54	4.0	4.0
55 to 64	4.8	4.8
65 and over	6.4	5.7

Participants have the option to receive their vested account balance as either a lump-sum payment or an immediate single life annuity or a 50% joint and survivor annuity if married when they terminate employment with the Corporation or become disabled.

Mr. Thompson is the only Named Executive Officer who participates in the cash balance formula benefit. Messrs. Deitrich and Roberts are grandfathered employees who elected to remain covered by the final average pay formula benefit.

Table C shows the estimated annual retirement benefit payable under the cash balance formula benefit for Mr. Thompson computed as a single life annuity based on 2003 earnings, without taking Code limitations into account. These estimates assume an average annual interest credit of 5.12%, actual 2003 earnings and earnings increases of 4% per year thereafter. The Social Security wage base was also assumed to increase 4% per year.

Supplemental Retirement Arrangements.

The Corporation's supplemental retirement arrangements provide a benefit equal to the difference between:

- (i) the benefit payable to a participant under the Retirement Plan and
- (ii) the benefit that would be payable to such participant under such plan, calculated without regard to the compensation limit under Code Section 401(a)(17) and the limitations on benefits under Code Section 415 (excess benefits).

Participants who accrue a final average pay formula benefit obtain their excess benefits through the Supplemental Benefit Plan to the Retirement Plan. The excess benefit amount for cash balance plan participants is annually credited to the participant's deferred compensation plan account. These supplemental arrangements are unfunded and participation is limited to salaried employees with earnings in excess of Code Section 401(a)(17) limits and who are members of a select group of management or highly-compensated employees.

Executive Severance Plan

The Corporation's Executive Severance Plan (the Severance Plan) provides that in the event of termination of a participant's employment with the Corporation or one of its French affiliates for any reason other than Death, Disability or Retirement (as defined in the Severance Plan) within 2 years after a change of control of the Corporation, as defined in the Severance Plan, a participant employed in the United States will be entitled to:

- (i) receive a cash payment in an amount equal to 3 times the highest annual compensation (base salary and annual incentive awards) paid or payable within the 3 year period ending on the date of termination;
- (ii) receive health, dental and life insurance benefits from the Corporation for a period of 3 years; and
- (iii) receive a cash payment in an amount equal to the actuarial equivalent of the accrued benefits the participant would have earned under the Retirement Plan and the Supplemental Plan if the participant had continued participation in those plans for 3 years following termination.

A participant employed by one of the Corporation's French affiliates is entitled to essentially the same payments and benefits as a United States participant, subject to certain adjustments which take into account the differences between the respective compensation, benefit and pension plans and programs in the United States and France. Severance payments under the Severance Plan for participants subject to United States Federal Income Tax will be limited to the extent necessary to avoid an excise tax on the participant under Code Section 4999 if the parachute payments under Code Section 280G with respect to such participant are less than 3.5 times the base amount for purposes of Code Section 280G. If such parachute payments equal or exceed 3.5 times such base amount with respect to a participant, the Corporation shall pay the participant an additional gross-up payment to compensate such participant for the excise tax liability under Code Section 4999. The Compensation Committee of the Board of Directors of the Corporation has established the eligibility criteria for participation and, from time to time, designates key employees as participants in the Severance Plan. Subject to certain conditions, the Severance Plan may be amended or terminated by resolution of the Board of Directors, but no such

amendment or termination shall be effective during the 2-year period following a change of control of the Corporation without the consent of all of the participants. The Corporation has agreements under the Severance Plan with the Named Executive Officers and certain other key employees. The maximum amount payable upon termination (with respect to base salary and annual incentive compensation) pursuant to the agreements under the Severance Plan with the Named Executive Officers, assuming that a change of control of the Corporation and the termination of their employment had occurred on December 31, 2004, would have been as follows:

- Mr. Deitrich, \$3,105,000
- Mr. Bellanger, \$1,188,750
- Mr. Le Hétêt, \$2,086,383
- Mr. Roberts, \$1,337,349
- Mr. Thompson \$1,127,784

If a participant's employment is otherwise terminated for any reason other than Death, Retirement, Voluntary Resignation or Cause (as defined in the Severance Plan), the participant will receive a cash payment in an amount of up to 24 months base salary.

Performance Graph

The following graph compares the total cumulative stockholder return on the Corporation's Common Stock during the period from December 31, 1999 through December 31, 2004, with the comparable cumulative total returns of the Dow Jones Wilshire 5000 Index and a self-constructed peer group that reflects, but is not exactly comparable to the Dow Jones Paper Products Index (Peer Group). The graph assumes that the value of the investment in the Common Stock and each index was \$100 on December 31, 1999 and that all dividends were reinvested. The Peer Group is comprised of the following companies:

- Bowater Incorporated
- International Paper Company
- P.H. Glatfelter Company
- MeadWestvaco Corporation and
- Wausau-Mosinee Paper Corporation

In the previous years' proxy statement, the Peer Group for the performance graph included Boise Cascade Corporation and FiberMark, Inc. Boise Cascade Corporation was removed from the Peer Group because the company was divided into two separate units and sold. The former paper product manufacturer is now Boise Cascade LLC and is no longer a publicly traded company. FiberMark, Inc. is in bankruptcy and no longer constitutes a comparable base of comparison.

The stock price performance shown on the graph below is not necessarily indicative of future price performance.

CERTAIN TRANSACTIONS AND BUSINESS RELATIONSHIPS

In 2004, the Corporation and certain of its subsidiaries retained the legal services of the law firm UGGC & Associés. Laurent G. Chambaz, a director of the Corporation, is a partner in UGGC Associés. The cost of such services during 2004 was \$227,462 representing less than 1% of the law firm's gross revenues.

In 2004, the Corporation acquired various materials and manufacturing supplies used at its Lee Mills from the West Haven, Connecticut and the Dallas, Texas locations of xpedx totaling \$74,183. Larry B. Stillman, a director of the Corporation, has been the Vice President, Northwest Group, xpedx since 1988. However, the Northwest Group of xpedx has no management or profit and loss responsibility for these locations of xpedx.

Management believes that the cost of services rendered by Mr. Chambaz during 2004 were reasonable compared with the cost of obtaining similar services from unaffiliated third parties. Materials and supplies were obtained from xpedx based on a competitive bidding process.

OTHER MATTERS

The management of the Corporation knows of no other matters to be presented at the 2005 Annual Meeting of Stockholders. Should any other matter requiring a vote of the stockholders arise at the meeting, the persons named in the proxy will vote the proxies in accordance with their best judgment.

Outside Auditors

The Board of Directors of the Corporation has approved the Audit Committee's retention of Deloitte & Touche LLP as the principal outside auditors for the Corporation for the current year. Deloitte & Touche LLP has been the outside auditor for the Corporation since its incorporation. Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting with the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions from stockholders.

Stockholder Proposals

Under Securities and Exchange Commission rules, if a stockholder wishes to have a proposal considered for inclusion in the Corporation's proxy statement and form of proxy for the 2006 Annual Meeting of Stockholders, a proposal must be received by the Secretary of the Corporation at the Corporation's principal executive offices no later than November 17, 2005. The Corporation reserves the right to decline to include in the Corporation's proxy statement any stockholder's proposal that does not comply with the rules of the Securities and Exchange Commission for inclusion therein.

The By-Laws of the Corporation include requirements applicable to stockholder proposals other than those included in the proxy materials pursuant to the regulations of the Securities and Exchange Commission. Pursuant to the By-Laws, a stockholder proposing to nominate persons for election to the Board of Directors or to introduce other business at the Annual Meeting of Stockholders must give timely written notice to the Corporation's Secretary. To be timely, a stockholder's notice must be delivered and received at the Corporation's principal executive offices not less than 50 days nor more than 75 days prior to the Annual Meeting of Stockholders; provided that if less than 60 days notice or prior public disclosure of the date of the Annual Meeting of Stockholders is given or made to stockholders, notice by the stockholder to be timely must be so received not later than the close of business on the 10th day following the day on which such notice of the Annual Meeting of Stockholders date was mailed or such public disclosure of the date was made, whichever first occurs.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Corporation's directors and executive officers and persons who own more than 10% of a registered class of the Corporation's equity securities to file reports with the Securities and Exchange Commission regarding beneficial ownership of Common Stock and other equity securities of the Corporation. Officers, directors and greater than 10% stockholders are required by Securities and Exchange Commission regulations to furnish the Corporation with copies of all forms they file pursuant to Section 16(a).

To the Corporation's knowledge, based solely on a review of copies of such reports filed during the fiscal year ended December 31, 2004, all officers and directors timely complied with Rule 16(a). One greater than 10% beneficial owner, Mr. Thomas A. Russo, did not timely file a Form 3 reporting his acquisition of a 10% beneficial interest and 25 Form 4 reports relating to 29 transactions in the Corporation's Common Stock.

Form 10-K

The Corporation's Annual Report to the Securities and Exchange Commission on Form 10-K for the fiscal year ended December 31, 2004 (including the consolidated financial statements and schedules thereto, but excluding exhibits) has been included with the mailing of this Proxy Statement to stockholders of record and beneficial holders as of March 3, 2005. **Additional copies of the Corporation's Annual Report to the Securities and Exchange Commission on Form 10-K for the fiscal year ended December 31, 2004 (excluding exhibits) will be provided without charge to each stockholder so requesting in writing. Each request must set forth a good faith representation that, as of March 3, 2005, the record date for the Annual Meeting, the person making the request beneficially owned shares of the Corporation's Common Stock. The written request should be directed to: Paul C. Roberts, Chief Financial Officer and Treasurer.**
