Explanation of the anticipated change in results of operations from the corresponding period for the last fiscal year which will be reflected by the earnings statement to be included in Cyanotech Corporation's Form 10-Q for the quarter ended June 30, 2006.

Cyanotech anticipates a significant change in the results of operations for the quarterly period ended June 30, 2006 compared to the corresponding period in 2005. We currently estimate for the quarter ended June 30, 2006 Cyanotech Corporation will report a net loss of \$249,000 or (\$0.01) per diluted share compared to net income of \$153,000 or \$0.01 per diluted share for the quarter ended June 30, 2005.

The decrease in the Company's net income is primarily due to decreased net sales stemming from decreased customer orders on a comparative basis. In addition, some costs included in the Company's cost of sales have increased on a comparative basis.

The foregoing estimates of Cyanotech's results of operations for the quarterly period ending June 30, 2006 are subject to change pending the completion of review of such period's results with respect to a matter involving the Company's historical treatment of certain inventory related costs.
