Edgar Filing: Storm Cat Energy CORP - Form S-1

Approximate date of commencement of proposed sale to the public: As soon as practicable after this registration statement becomes effective.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, other than securities offered only in connection with dividend or interest reinvestment plans, check the following box. x

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. o

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. o

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. o

CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to be Registered (1)	Proposed Maximum Offering Price Per Share (2)	Proposed Maximum Aggregate Offering Price (2)	Amount of Registration Fee
Common Shares, without par value per share, issuable upon conversion of Series A Subordinated Convertible Notes Due March 31, 2012	15,841,880	\$0.74	\$11,722,991	\$360

(1) Pursuant to Rule 416 under the Securities Act, such number of common shares registered hereby shall also include an indeterminate number of additional common shares that may be issued from time to time as a result of share splits, share dividends or similar transactions.

(2) Estimated solely for purposes of calculating the registration fee pursuant to Rule 457(c) and Rule 457(g) under the Securities Act of 1933, as amended, and based upon the average of the high and low sales prices reported for the common shares on the American Stock Exchange on February 28, 2007.

The Registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

Subject to Completion, dated March 1, 2007

The information in this preliminary prospectus is not complete and may be changed. These securities may not be sold until the registration statement filed with the Securities and Exchange Commission is effective. This preliminary prospectus is not an offer to sell nor does it seek an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

PROSPECTUS

15,841,880 Shares

Common Shares

The selling shareholders are offering 15,841,880 common shares. All of these 15,841,880 common shares may be acquired, at the option of the selling shareholders, at a price of \$1.17 per share upon the conversion of Series A Subordinated Convertible Notes due March 31, 2012, as such price may be adjusted in accordance with the terms of the convertible notes. We may force the conversion of the Series A Subordinated Convertible Notes at any time after July 31, 2008, if our common shares trade above \$2.05 per share, as may be adjusted, for 20 days within a period of 30 consecutive trading days. The Series A Subordinated Convertible Notes were acquired by the selling shareholders in a private placement transaction. All of these common shares are being sold by the selling shareholders named in this prospectus, or its transferees, pledgees, donees or successors-in-interest. The selling shareholders will receive all proceeds from the sale of the common shares being offered in this prospectus.

The selling shareholders may sell these common shares being offered by them on the American Stock Exchange, in market transactions, in negotiated transactions or otherwise, and at prices and at terms that will be determined by the then prevailing market price for the common shares or at negotiated prices directly or through a broker or brokers, who may act as agent or as principal or by a combination of such methods of sale. For additional information on the methods of sale, you should refer to the section entitled "Plan of Distribution" on page 20.

Our common shares trade on the American Stock Exchange under the symbol "SCU". On February 28, 2007, the closing price of our common shares on the American Stock Exchange was \$0.74. Our common shares also trade on the Toronto Stock Exchange under the symbol "SME". On February 28, 2007, the closing price of our common shares on the Toronto Stock Exchange was CDN\$.90.

Investing in our common shares involves risks. See "Risk Factors" beginning on page 6.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is _____, 2007.

SUMMARY

This summary highlights information contained elsewhere in this prospectus. It does not contain all of the information that you should consider before investing in our common shares. You should read the entire prospectus carefully. You should read Risk Factors beginning on page 6 for more information about important risks that you should consider before investing in our common shares.

As used in this prospectus, unless the context otherwise requires, the terms Storm Cat, we, our and us refer to Storm Cat Energy Corporation and its consolidated subsidiaries. You should assume that all figures are stated in U.S. dollars unless indicated otherwise.

Storm Cat Energy Corporation

General

Storm Cat is an independent oil and gas company focused on exploration and development of unconventional gas reserves, which are reserves from fractured shales, coal beds and tight sand formations. We have producing properties in Wyoming's Powder River Basin, and non-operated producing wells in the Fayetteville Share area of Arkansas. Our primary exploration and development acreage is located in Canada and the United States. During the past two years, our oil and gas activities have been conducted in the United States, Canada and Mongolia.

We were originally incorporated under the laws of British Columbia, Canada in 2000 as a mineral exploration company, Toby Ventures, Inc. In late 2003 we entered the oil and gas industry. In January 2004, we changed our name to Storm Cat Energy Corporation. Our business model consists of three strategies: (1) acquiring producing properties with drilling prospects in focused basins in both the United States and Canada; (2) exploring areas of moderate risk; and (3) initiating higher risk projects with the potential for higher reward.

On May 5, 2006, we closed a mineral leasehold transaction in the Powder River Basin, Campbell County, Wyoming, with two private companies. The acquisition included an interest in 3,948 gross (3,548 net) undeveloped acres. As consideration, we paid 50% in cash at closing and the private companies retained a carried interest as to capital costs covering their 10% working interest to be paid over a period of 18 months after closing. On May 10, 2006, we closed a \$2.0 million transaction in the Fayetteville Shale play in Arkansas with two private operators. We acquired an interest in approximately 16,364 gross undeveloped acres and 12,596 net mineral acres in Van Buren, Pope and Searcy Counties, Arkansas at a cost per net mineral acre of \$165.

On June 7, 2006, we acquired six state tracts in Sheridan County, Wyoming totaling 1,521 gross (and net) acres at a Wyoming State Lease Sale for \$0.7 million lease bonus (average of \$458/acre). Development preparation has begun on the acreage including permitting of locations and water management planning. Development should consist of 19 multi-seam wells.

On August 29, 2006, but effective as of July 1, 2006, we acquired producing leases totaling 25,200 gross acres and 17,000 net acres in Wyoming's Powder River Basin for \$30.7 million. The production from this field represented 26.4% of our 2006 production volumes and 22.9% of our 2006 natural gas revenue, and the reserves attributable to this acquisition comprise approximately 44.6% of our estimated proved reserves as of December 31, 2006.

On September 14, 2006, we entered into a Joint Development Agreement with an unaffiliated third party to jointly develop certain lands for coalbed methane in the Powder River Basin. Under this agreement, we and our partner will establish an area of mutual interest in which we will act as operator. We acquired an undivided 50% of our partner's working interest and production in existing wells, leasehold and infrastructure. We will have the option to earn an undivided 50% interest in our partner's leasehold within the area of mutual interest through development.

At December 31, 2006, in Wyoming's Powder River Basin, we had operational control of approximately 41,730 gross acres and 31,905 net acres. At year end we were operating 277 wells in the Powder River Basin and owned a working interest percentage in 41 additional non-operated wells. For the full year 2006, 86 wells were spud. Wells drilled during 2006 were concentrated in our Northeast Spotted Horse and Jamison/Twenty Mile operating areas.

At year end 2006, the Powder River Basin exit-rate production was 15 million cubic feet of natural gas per day (MMcf/d) gross and 8 MMcf/d net. The Powder River Basin production currently comprises 100% of our production.

In the Arkoma Basin's Fayetteville Shale play in Arkansas, we owned or controlled 20,051 gross and 13,982 net acres at December 31, 2006. This property consists of an 80% net revenue interest in 16,364 gross (12,596 net) acres and an 81% net revenue interest in 3,688 gross (1,386 net) acres in the Fayetteville Shale Prospect area of Arkansas (mostly in Van Buren County). We plan to commence drilling on the first of six net wells in the Fayetteville Shale beginning mid-year 2007.

Edgar Filing: Storm Cat Energy CORP - Form S-1

At year end 2006, we were participating in 14 (non-operated) Fayetteville Shale wells where we owned between a 1% and 8% working interest. These wells were at various stages of planning, drilling, completion or production.

In Elk Valley, British Columbia, we farmed-in on approximately 77,775 gross (77,775 net) acres on an unconventional natural gas prospect. On October 31, 2006 we assumed 100% operatorship of the Elk Valley land and the former operator retained a

1

Edgar Filing: Storm Cat Energy CORP - Form S-1

2.5% overriding royalty interest. During 2006 we drilled and completed five wells in Elk Valley. These wells are currently on production and have begun the de-watering stage. We expect to have preliminary production results from these wells during the second half of 2007.

We previously owned a 30% working interest in the Moose Mountain exploration project in Saskatchewan, covering 235,830 gross acres of unconventional natural gas exploration. We drilled, cased and completion tested three Moose Mountain wells in 2006. This property was fully impaired in the amount of \$1.9 million in the third quarter of 2006. We sold our working interest in this property to avoid plugging and abandonment costs, but we retained a 1% overriding royalty interest.

In the Western Canadian Sedimentary Basin of Alberta, Canada, we owned or controlled approximately 19,693 gross acres and 17,453 net acres at December 31, 2006. Efforts have been focused on evaluating the potential of the Horseshoe Canyon and Mannville Coals. Horseshoe Canyon has been established as a commercial production target in the Western Canadian Sedimentary Basin, while the Mannville Coals are still in the early stages of development. During the course of 2006, we experienced a greater than eight-fold increase in our undeveloped acreage position from a starting point of 2,080 acres (gross and net). In 2006, we drilled five gross wells. This total includes two wells drilled at no cost to us through a farm out of its interest in two sections of land.

The Alberta, Canada acreage is concentrated in five main areas. From north to south these are Judy Creek, Redwater, Wetaskiwin, Wainwright and Cessford. The Wetaskiwin area is prospective for gas from the Horseshoe Canyon and the Mannville Coals while the other areas are all prospective for gas from the Mannville Coals.

During 2006, we participated in the drilling of three wells in the Cessford area on a drill-to-earn farm-out deal. Two of the wells were drilled at no cost to us. The first well drilled was a vertical test which targeted a Lower Mannville Channel sand as well as the Mid Mannville Coal. Unfortunately, the channel sand was wet, and the well was completed uphole in the Mannville Coal section. A core was cut through the coals. Subsequent analysis showed significant quantities of gas in place, which led to the decision to begin horizontal development drilling. The remaining four earning wells have been farmed out to a third party. Two of the wells have been drilled, and the remaining two earning wells are scheduled to be drilled in the first and second quarters of 2007.

During the fourth quarter of 2006, we drilled a 1,450 meter vertical test in the Judy Creek area to evaluate the potential of the Mannville coals as well as unconventional targets in the Colorado Shale. The coals encountered were deemed to be too thin to follow up with horizontal wells.

We drilled a 760 meter vertical well in the Wetaskiwin area that was designed to test the gas potential of the Horseshoe Canyon Coal as well as conventional targets in the Belly River and Edmonton Sand. The well encountered gas pay in both the Upper Belly River Sand and the Horseshoe Canyon. Based on these results, we have entered into a drill-to-earn deal to earn a 100% working interest in four sections of land subject to a non-convertible overriding royalty. We will earn an interest in one section with each well drilled. Tie-in options are currently being evaluated.

In addition, we have acquired an 89.5% net revenue interest in 11,782 gross (11,782 net) acres and an 87.5% net revenue interest in 12,723 gross (12,723 net) acres in the Cook Inlet region of Alaska. We drilled one well in 2006. We are in the process of evaluating the completion potential and costs based upon equipment availability.

As of December 31, 2006, we had fully impaired our Mongolia property for a total of \$2.2 million.

Liquidity and Capital Resources

On July 28, 2006, we and Storm Cat Energy (USA) Corporation (Storm Cat (USA)), one of our wholly owned subsidiaries, entered into a Credit Agreement, with JPMorgan Chase Bank, N.A., as Global Administrative Agent, and the Lenders party thereto (the U.S. Credit Agreement). Additionally, on July 28, 2006, we entered into a Credit Agreement, with JPMorgan Chase Bank, N.A., Toronto Branch as Canadian Administrative Agent, JPMorgan Chase Bank, N.A., as Global Administrative Agent, and the Lenders party thereto. Pursuant to these credit agreements, we were permitted to borrow up to an aggregate principal amount of \$250,000,000 under the two credit agreements, to be allocated between the two agreements depending on the respective borrowing base under each such agreement. On August 29, 2006, we and Storm Cat (USA), entered into an amendment (the First Amendment) to the U.S. Credit Agreement to increase our Global Borrowing Base and U.S. Borrowing Base, each as defined in the Credit Agreement, from US \$11.0 million to US \$20.0 million and to obtain a secured bridge note of US \$15.0 million (the Secured Bridge Note). As of February 16, 2007, the Global Borrowing Base was \$20,000,000, all of which was allocated to the U.S. Borrowing Base.

On September 27, 2006, we closed a private placement of units and flow-through shares for CDN\$1.58 per unit and CDN\$1.80 per flow-through share. Each unit consisted of one common share and approximately 0.28 of a common share warrant that is exercisable through February 27,

Edgar Filing: Storm Cat Energy CORP - Form S-1

2008 at an exercise price of CDN\$1.90 per share. This private placement consisted of a total of 7,594,937 units and 6,172,839 flow-through common shares. Pursuant to the sale of units, we issued an aggregate of 2,126,582 warrants on the terms set forth above.

On January 19, 2007, we entered into a Series A Note Purchase Agreement for the private placement of Series A Subordinated Convertible Notes due March 31, 2012 (the Series A Notes) in a total aggregate principal amount of \$18.5 million and

2

a Series B Note Purchase Agreement for the private placement of Series B Subordinated Convertible Notes due March 31, 2012 (the Series B Notes) in a total aggregate principal amount of \$31.7 million. The Series A Notes and the Series B Notes will be convertible into our common shares at a price of \$1.17 per share, as may be adjusted in accordance with the terms of the Series A Notes or the Series B Notes (as applicable), and we may force the conversion of the Series A Notes or the Series B Notes (as applicable) at any time 18 months after the closing date of the applicable issuance that our common shares trade above \$2.05, as may be adjusted, for 20 days within a period of 30 consecutive trading days.

On January 30, 2007, we closed the private placement of Series A Notes. The Series A Notes will mature on March 31, 2012, unless earlier converted, redeemed or repurchased. The Series A Notes bear interest at a rate of 9 ¼% per annum, commencing on January 30, 2007. Interest on the Series A Notes is payable quarterly in arrears on March 31, June 30, September 30 and December 15 of each year, beginning on June 30, 2007.

We used some of the net proceeds from the private placements to repay the remaining \$7.5 million of mezzanine debt that was borrowed in connection with the Powder River Basin acquisition completed in August 2006. We intend to use the remaining net proceeds to fund our 2007 US capital expenditure budget requirements. As part of the private placements, we entered into registration rights agreements with the investors requiring us to file with the Securities and Exchange Commission (the SEC) a registration statement covering the common shares issuable upon conversion of the Series A Notes.

3

Acreage

The following table summarizes the gross and net acreage of properties in which we hold an interest as of December 31, 2006:

Storm Cat Energy Corporation Acreage as of December 31, 2006

Area	Gross Acres	Net Acres
<u>Powder River Basin, WY</u>		
Northeast Spotted Horse	6,320	5,950
Jamison	723	651
20 Mile	760	684
Ford Ranch (Focus + Ellbogen/Westbrook Leases)	4,711	3,604
Sheridan (State Lease Sale)	1,521	1,521
Recluse (Barrett Acquisition)	25,200	17,000
North Recluse (Petro-Canada Acquisition)	2,495	2,495
Total	41,730	31,905
<u>Fayetteville Shale, AR</u>		
Jordan Acquisition	16,364	12,596
Subsequent Lease Purchases	3,688	1,386
Total	20,052	13,982
<u>Cook Inlet, AK</u>		
Mental Health Trust Leases	11,782	11,782
State Lease Sale Tracts	12,723	12,723
Total	24,505	24,505
<u>Canada</u>		
Elk Valley (BC) - EnCana Drill to Earn	77,775	77,775
Alberta (AB) - Crown Lease Sale (Wetaskiwin) 12/14/05	2,068	2,068
Alberta (AB) - Cessford Farm-In (1)	3,200	2,240
Alberta (AB) - Crown Lease Sale (Redwater) 3/8/06	2,529	2,529
Alberta (AB) - Crown Lease Sale (Wainwright) 4/19/06	3,794	3,794

Alberta (AB) - Crown Lease Sale (Wetaskiwin) 5/31/06	1,107	1,107
Judy Creek	3,200	1,920
Total	97,468	95,228
Total Acres (1)	183,755	165,620

(1) Net Acres May Be Earned Pursuant to the Farm-In Arrangement

Reserve Estimates

Total proved reserves at December 31, 2006 were estimated at 25,015.3 Bcf equivalent as compared to 10,010 Bcf equivalent at December 31, 2005. Our estimated, pre tax future net revenue discounted at 10% (commonly known as the SEC PV-10 figure) for proved reserves at December 31, 2006 was \$32.04 million versus \$29.02 million at year end 2005. The PV-10 calculation used net commodity prices of \$4.46 and \$7.715, respectively, CIG Rocky Mountains per million British thermal units (MMBtu) of natural gas.

Edgar Filing: Storm Cat Energy CORP - Form S-1

Our total proved reserve estimates are prepared by independent engineering consultants, Netherland, Sewell & Associates, Inc. of Houston, Texas and conform to the definition as set forth in the SEC Regulation S-X Part 210.4-10(a) as clarified by subsequent Commission Staff Accounting bulletins. The proved reserves are also in accordance with Financial Accounting Standards Board Statement No. 69 (SFAS 69).

The reserve mix is 100% natural gas, with 53.4% categorized as proved developed and 46.6% proved undeveloped. In accordance with SEC guidelines, proved reserve estimates do not include any probable or possible reserves which may exist for our properties.

Category	Net Reserves	Future Net Revenue (M\$/USD)	
	Gas (MMCF)	Total Undiscounted	Present Worth at 10% Discount
Proved Developed	13,368.1	\$ 28,892.8	\$ 23,927.9
• Producing	5,184.0	\$ 11,083.6	\$ 9,852.5
• Non-Producing	8,184.1	\$ 17,809.2	\$ 14,075.4
Proved Undeveloped	11,647.1	\$ 13,051.9	\$ 8,108.5
Total Proved	25,015.2	\$ 41,944.7	\$ 32,036.4

Assumes commodity prices of \$4.46/Mcf CIG Rocky Mountains

Other information

Our common shares trade on the American Stock Exchange under the symbol **SCU** and on the Toronto Stock Exchange under the symbol **SME**. Our principal executive offices are located at 1125 17th Street, Suite 2310, Denver, Colorado 80202. Our telephone number is (303) 991-5070. Our website address is www.stormcatenergy.com. Except for any documents that are incorporated by reference into this prospectus that may be accessed from our website, the information available on or through our website is not part of this prospectus.

RISK FACTORS

Our business, operations and financial condition are subject to various risks. You should consider carefully the following risk factors, in addition to the other information set forth in this prospectus, before deciding to participate in the offering. If any of these risks and uncertainties actually occur, our business, financial condition or results of operations could be materially and adversely affected, the value of our common shares could decline, and you may lose all or part of your investment.

Risks Related to Our Business

Price volatility may affect our financial condition.

The prices of oil and natural gas are volatile and our operating results and future rate of growth depend heavily on prevailing market prices for these resources. A substantial or extended decline in prices for these resources would have a material adverse effect on us. These prices are affected by numerous factors beyond our control, including international economic and political trends, the effects of inflation, currency exchange fluctuations, interest rates and global or regional consumption patterns, worldwide and domestic supplies of oil and gas, the ability of members of the Organization of Petroleum Exporting Countries (OPEC) to agree to and maintain oil price and production controls, actions of governmental authorities, the availability of transportation facilities, increased production due to new discoveries or improved recovery techniques and weather conditions.

We operate in a highly competitive industry.

We compete with other energy development companies for properties, equipment, materials and labor. Our industry is highly competitive in all aspects. Many of our competitors have larger operations and greater financial resources than we do. Competition in our business may adversely affect our ability to acquire properties, equipment and materials, attract and retain qualified labor, and attract the necessary capital to sustain our resource exploration and production in the future.

Oil and gas exploration is a speculative undertaking.

Oil and gas exploration is a speculative business. Our future success depends on our ability to economically locate oil and gas production and reserves in commercial quantities. Our anticipated exploration and development activities are subject to reservoir and operational risks. Even when oil and gas is found in what is believed to be commercial quantities, reservoir risks, which may be heightened in new discoveries, may lead to increased costs and decreased production. These risks include the inability to sustain deliverability at commercially productive levels as a result of decreased reservoir pressures, large amounts of water, or other factors that might be encountered. The effects of these factors may result in Storm Cat not receiving an adequate return on investment capital.

Reserves are imprecise estimates.

The information on reserves provided in this prospectus and other filings with the SEC are estimates of our reserves and the future revenues from these reserves. If the assumptions underlying these estimates prove to be incorrect, the quantity of our reserves and our future cash flows could be materially different from these estimates.

Reserve estimates are based on various assumptions, including assumptions required by the SEC relating to oil and natural gas prices, drilling and operating expenses, capital expenditures, taxes and availability of funds. The process of estimating reserves is complex. This process requires significant decisions and assumptions in the evaluation of available geological, geophysical, engineering and economic data.

Reserve estimates are dependent on many variables, and therefore, as more information becomes available, it is reasonable to expect that there will be changes to the estimates. Actual future production, oil and natural gas prices, revenues, taxes, development expenditures, operating expenses and quantities of recoverable oil and natural gas reserves will most likely vary from those estimated. Any significant variance could materially affect the estimated quantities and present value of reserves disclosed by us. In addition, estimates of proved reserves will be

adjusted in the future to reflect production history, results of exploration and development, prevailing oil and natural gas prices and other factors, many of which are beyond our control.

As of December 31, 2006, approximately 46.6% of our estimated proved reserves are classified as proved undeveloped. Estimation of proved undeveloped reserves and proved developed non-producing reserves is generally based on volumetric calculations rather than the performance data used to estimate reserves for producing properties. Recovery of proved undeveloped reserves generally requires significant capital expenditures and successful drilling operations. Revenues from proved developed non-producing and proved undeveloped reserves will not be realized until some time in the future. The reserve estimate includes an estimate of the capital expenditures required to develop these reserves as well as the timing of such expenditures. Although we have prepared estimates of our proved undeveloped reserves and the associated development costs in accordance with industry standards, they are based on estimates, and actual results may vary.

The present value of estimated reserves, or PV-10, should not be interpreted as the current market value of reserves attributable to our properties. The 10% discount factor, which is required in calculating PV-10 for reporting purposes, is not necessarily the most appropriate discount factor given actual interest rates and risks to which our business or the oil and natural gas industry in general are subject. We have based the PV-10 on prices and costs as of the date of the reserve estimate, in accordance with applicable regulations. Actual future prices and costs may be materially higher or lower. In addition to the price volatility factors discussed above, factors that will affect actual future net cash flows, include:

- the amount and timing of actual production;
- curtailments or increases in consumption by oil and natural gas purchasers; and
- changes in governmental regulations or taxation.

As a result, our actual future net cash flows could be materially different from the estimates included in this prospectus.

We face operating risks in our exploration and production activities.

Our business involves operating risks, including well blowouts, craterings, explosions, uncontrollable flows of oil, natural gas or well fluids, leaks, fires, formations with abnormal pressures, pipeline ruptures or spills, pollution, releases of toxic gas and other environmental hazards and risks, any one of which can cause personal injury, damage to property, equipment and the environment, as well as interruption of our operations. We maintain insurance against some, but not all, of these risks. If any of these events occurred, we could face substantial losses that could eliminate funds available for our operations.

Our industry is highly regulated.

Our business is heavily regulated by federal, state, and local authorities. These regulations control many aspects of our business including, among other things, land use, prospecting, the drilling and spacing of wells, protection of ground water, conservation of soil, safety standards, site reclamation, restoration, exports, labor standards, occupational health, waste disposal, toxic substances and other matters. The regulations and laws governing our industry are under constant review and may be amended or expanded. Regulation increases the cost of doing business and decreases profitability. If we fail to comply with these laws and regulations, we may be subject to substantial penalties or suspension or termination of our operations.

Our operations are subject to complex environmental regulations.

Our current and anticipated future operations require permits from various federal, state and local governmental authorities and such operations are and will be regulated by laws and regulations governing various elements of the oil and gas industries.

We cannot predict what environmental legislation, regulation or policy will be enacted or adopted in the future or how in the future laws and regulations will be administered or interpreted. The recent trend in environmental legislation and regulation generally is toward stricter standards and this trend is likely to continue in the future. This recent trend includes, without limitation, laws and regulations relating to air and water quality, waste handling and disposal, the protection of certain species and the preservation of certain lands. These regulations may require permits or other authorizations for certain activities. These laws and regulations may also limit or prohibit activities on certain lands lying within wetland areas, area providing for habitat for certain species or other protected areas. Compliance with more stringent laws and regulations, as well as potentially more vigorous enforcement policies or stricter interpretation of existing laws, may necessitate significant capital expenditures, may materially affect the results of our operations and business, or may cause material changes or delays in our intended activities.

There can be no assurance that we will be able to obtain all permits required for future exploration on reasonable terms or that such laws and regulations, or that new legislation or modifications to existing legislation, will not have an adverse effect on any project we might undertake. Our failure to comply with applicable laws, regulations and permitting requirements may result in enforcement actions, including orders issued by regulatory or judicial authorities causing our operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment or remedial actions.

Increases in taxes on energy sources may adversely affect our operations.

Federal, state and local governments which have jurisdiction in areas where we operates impose taxes on the oil and natural gas products sold. Historically, there has been on-going consideration by federal, state and local officials concerning a variety of energy tax proposals. Such matters are beyond our ability to accurately predict or control.

In the event that we do not have adequate cash flow to fund operations, it may be required to use debt or equity financing.

We make, and will continue to make, significant expenditures to find, acquire, develop and produce oil and natural gas reserves. If oil and natural gas prices decrease, or if operating difficulties are encountered that result in cash flow from operations being less than expected, we may have to reduce capital expenditures unless additional funds are raised through debt or equity financing. Debt or equity financing or cash generated by operations may not be available to us in sufficient amounts or on acceptable terms to meet these requirements.

Future cash flows and the availability of financing will be subject to a number of variables, such as:

- our success in locating and producing new reserves;
- the level of production from existing wells; and
- prices of oil and natural gas.

Issuing equity securities to satisfy our financing requirements could cause substantial dilution to existing stockholders. Debt financing could make us more vulnerable to competitive pressures and economic downturns.

Competition for materials and services is intense and could adversely affect the Company.

Major oil companies, independent producers, and institutional and individual investors are actively seeking oil and gas properties throughout the world, along with the equipment, labor and materials required to develop and operate properties. Shortages for equipment, labor or materials may result in increased costs or the inability to obtain such resources as needed. Many of our competitors have financial and technological resources which exceed those available to us.

Our hedging arrangements involve credit risk and may limit future revenues from price increases.

To manage our exposure to price risks associated with the sale of natural gas, we periodically enter into hedging transactions for a portion of our estimated natural gas production. These transactions may limit our potential gains if natural gas prices were to rise substantially over the price established by the hedge. In addition, such transactions may expose us to the risk of financial loss in certain circumstances, including instances in which:

- our production is less than expected;
- the contractual counterparties fail to perform under the contracts; or
- a sudden, unexpected event, materially impacts natural gas prices.

The terms of our hedging agreements may also require that it furnish cash collateral, letters of credit or other forms of performance assurance in the event that mark-to-market calculations result in settlement obligations by us to the counterparties, which would encumber our liquidity and capital resources.

In addition, hedging transactions using derivative instruments involve basis risk. Basis risk in a hedging contract occurs when the index upon which the contract is based is more or less variable than the index upon which the hedged asset is based, thereby making the hedge less effective.

We have minimized ineffectiveness by entering into gas derivative contracts indexed to Colorado Interstate Gas (CIG). As our derivative contracts contain the same index as our sale contracts, this results in hedges that are highly correlated with the underlying hedged item.

The marketability of our natural gas production is dependent upon infrastructure, such as gathering systems, pipelines and processing facilities, that we do not own or control.

The marketability of our natural gas production depends in part upon the availability, proximity and capacity of natural gas gathering systems, pipelines and processing facilities necessary to move our natural gas production to market. We do not own this infrastructure and is dependent on other companies to provide it.

Our operations are subject to a variety of contractual, regulatory and other constraints.

The production and sale of oil and natural gas are subject to a variety of federal, state and local government regulations. These include:

- the prevention of waste;
- the discharge of materials into the environment;
- the conservation of oil and natural gas;
- pollution;
- permits for drilling operations;
- drilling bonds;
- reports concerning operations
- the spacing of wells; and
- the unitization and pooling of properties.

Because current regulations covering our operations are subject to change at any time, and despite our belief that we are in substantial compliance with applicable environmental and other government laws and regulations, we may incur significant costs for future compliance.

We have a history of net losses.

Since our incorporation in May of 2000, we have experienced annual net losses. In the year ended December 31, 2006 our net loss (unaudited) is estimated to be \$7,380,000 and we have estimated our cumulative net loss (unaudited) from date of our incorporation to December 31, 2006 at approximately \$17,143,000. There is no guarantee as to when, if ever, we will realize a net profit.

We have limited cash flow to support our capital needs and will require additional capital to fund our operations.

Only a limited number of our projects have advanced to the commercial production stage and we have no history of positive cash flow to support our operations. Even if our current exploration programs are successful, we will require additional capital to complete future exploration activities and fund our operations. If we are unable to obtain additional financing, we may be forced to reduce or discontinue our activities, forfeit our interest in properties and/or reduce or terminate our operations, which would likely have a negative effect on our share price.

We have not paid dividends on our common shares since incorporation and do not anticipate doing so in the foreseeable future.

We may not be able to obtain additional funding to meet our capital needs and if we raise additional capital through equity, present and prospective shareholders may realize significant dilution.

There is no guarantee that we will be successful in raising additional capital or be able to obtain financing on favorable terms. Historically, our only source of funds has been through the sale of our common shares. Any transaction involving the issuance of previously authorized but unissued shares of common shares or securities convertible into common shares will result in dilution, which could be substantial, to present and prospective holders of our common shares.

We operate in international markets, which subject us to additional risks.

We operate in a number of countries, subjecting our business to risks that often characterize international markets, including economic and political instability; longer payment cycles; difficulties in collecting accounts receivable; licensing requirements; unexpected changes in regulatory requirements and tariffs; potentially adverse tax consequences and fluctuations in exchange rates.

Fluctuations in foreign currency exchange rates could adversely affect our business.

We maintain accounts in U.S. and Canadian dollars. A material decrease in the value of the Canadian dollar could relative to the U.S. dollar could negatively impact our income statement and share price.

We depend on certain key personnel.

We strongly depend on the business and technical expertise of our management and key personnel, particularly that of our President and Chief Executive Officer, J. Scott Zimmerman, our Chief Financial Officer, Paul Wiesner, and our Chief Operating Officer, Keith Knapstad. We carry no key man life insurance on any of our executives. As our operations expand, we will require additional key personnel and related resources.

Some of our officers and directors serve as officers and directors of other companies.

Some of our officers and directors are also officers, directors or shareholders of other companies including those that are similarly engaged in the business of acquiring, developing and exploiting oil and gas producing properties. Such associations may give rise to conflicts of interest from time to time. Our directors are required by law

to act honestly and in good faith with a view to the best interests of Storm Cat and to disclose any interest that they may have in any Storm Cat project or opportunity. Further, we have an internal conflict policy (Code of Business Conduct and Ethics), which addresses directors' conflicts of interest. Under this policy, if a conflict of interest arises at a meeting of our Board, any director with a conflict must disclose his interest and abstain from voting on such matters. In making the determination as to whether or not we will participate in any project or opportunity, the directors will primarily consider the degree of risk to us and our financial position at that time.

We focus heavily on risky unconventional plays, which rely on technological advances that in the future may not be effective.

Unconventional resources are reserves from fractured shales, coal beds and tight sand formations and they are a central element of our business model. The development of typical unconventional plays may involve greater extraction and retrieval costs than are involved in development of typical conventional plays. Often the quality of gas and commercial viability is less known in a typical unconventional play. Therefore, the process of developing an unconventional play involves significant expenditures before commercial viability can be ascertained and presents a risk of cost overruns and inadequate gas recovery.

Further, technological innovation is a key component to realizing the economic value of unconventional plays. We continue to explore and rely on advances in technologies such as drilling, well completion and geophysical technologies that have helped the viability of the unconventional play.

We may incur compression difficulties and expense.

As production increases, more compression is generally required to maximize the production flowing through the pipeline. Production costs increase as additional compression is required, primarily because the compression process requires more fuel. In addition, the compression process is a mechanical process, and should a breakdown occur, we will be unable to deliver gas until repairs to the machinery are completed.

A large percentage of our reserves are undeveloped.

A high percentage (approximately 46.6%) of our proved reserves are classified as proved undeveloped. Any adverse change, including unsuccessful drilling efforts or the decision not to drill undeveloped reserves will have a negative impact on results of operations.

If we are not successful in acquiring and developing producing properties, we may be unable to expand our business and be competitive in our industry.

We anticipate that a significant portion of our growth will be the result of acquisition and the exploitation of gas producing properties. The successful acquisition of producing properties requires an assessment of recoverable reserves, future gas prices, operating costs, potential environmental and other liabilities and other factors beyond our control. This assessment is necessarily inexact and its accuracy is inherently uncertain. It will not reveal all existing or potential problems, nor will it permit us to become sufficiently familiar with the properties to assess fully their deficiencies and capabilities. Inspections may not be performed on every well, and structural and environmental problems are not always observable even when inspection is undertaken. There can be no assurance that our acquisitions will be successful, and any unsuccessful acquisition could be costly, damaging to our operations, and could have a material adverse effect on our business.

Pipeline capacity may be inadequate.

Due to the nature of natural gas development, during certain time periods, pipeline capacity may be inadequate to meet our transportation needs. We do not have any current or future planned wells that are not serviced by a pipeline, or where the right-of-ways to tap into a pipeline are not already established. However, often, as new development comes on-line, existing pipelines may be close to or at capacity for a period of time before new pipelines are built. During periods when pipeline capacity is inadequate to meet demand, we may be forced to reduce production or incur additional expense as existing production is compressed to fit into existing pipelines.

We will not obtain title insurance or other warranties of title with our leases and working interests.

We do not obtain title insurance or other guaranty or warranty of good title with our gas leases and well working interests. Title insurance is not available for subsurface leases. Accordingly, third parties may assert claims against our legal entitlement to the gas leases and working interests being acquired, irrespective of our leases and working well interests. In order to alleviate this risk, we require a title search and title opinion on all leases prior to drilling. There is no assurance, however, that all title defects will be cured prior to drilling.

Risks Related To Our Common Shares

U.S. Investors may have difficulty effecting service of process against some of our Canadian directors.

We are incorporated under the laws of the Province of British Columbia, Canada. Consequently, it may be difficult for United States investors to effect service of process in the United States upon our directors or officers who are not residents of the United States, or to realize in the United States upon judgments of United States courts predicated upon civil liabilities under the Securities Exchange Act of 1934, as amended (the Exchange Act). A judgment of a U.S. court predicated solely upon such civil liabilities would probably be enforceable in Canada by a Canadian court if the U.S. court in which the judgment was obtained had jurisdiction, as determined by the Canadian court, in the matter. There is substantial doubt whether an original action could be brought successfully in Canada against any of such persons or Storm Cat predicated solely upon such civil liabilities.

We were previously a Foreign Private Issuer and exempt from the Section 16 and the Proxy Rules of Section 14 of the Securities Exchange Act of 1934.

On June 30, 2006, we became a U.S. issuer under the U.S. federal securities laws. As such, we are subject to certain regulation under U.S. securities laws, such as Section 16 and the Proxy Rules of Section 14 of the Exchange Act. Prior to June 30, 2006, as a foreign private issuer, we made our Annual Report on Form 20-F and reported our current events, including the dissemination of proxy materials and information regarding our annual meeting of shareholders, on Form 6-K.

Our common shares are traded on more than one market and this may result in price variations.

Our common shares are traded primarily on the American Stock Exchange and on the Toronto Stock Exchange. Trading in our common shares on these markets is effected in different currencies (U.S. dollars on the American Stock Exchange and Canadian dollars on the Toronto Stock Exchange) and at different times, as the result of different time zones, different trading days and different public holidays in the United States and Canada. Consequently, the trading prices of our common shares on these two markets often differ, resulting from the factors described herein as well as differences in exchange rates and from political events and economic conditions in the United States and Canada. Any decrease in the trading price of our common shares on one of these markets could cause a decrease in the trading price of our common shares on the other market.

We are subject to the Continued Listing Criteria of The American Stock Exchange (AMEX) and the Toronto Stock Exchange (TSX).

Our common shares are currently listed on AMEX and TSX.

In order to maintain our listing on AMEX, we must maintain certain share prices, financial and distribution targets, including maintaining a minimum amount of shareholders' equity and a minimum number of public shareholders. In addition to objective standards, AMEX may delist the securities of any issuer if in its opinion, the issuer's financial condition and/or operating results appear unsatisfactory; if it appears that the extent of public distribution or the aggregate market value of the security has become so reduced as to make further dealings on AMEX inadvisable; if the issuer sells or disposes of principal operating assets or ceases to be an operating company; if an issuer fails to comply with AMEX's listing requirements; if an issuer's common shares sell at what AMEX considers a low selling price and the issuer fails to correct this via a reverse split of shares after notification by

AMEX; or if any other event shall occur or any condition shall exist which makes further dealings with AMEX, in its opinion, inadvisable.

Similarly, if we fail to meet any of the continued listing criteria of the TSX or are not in compliance with all TSX requirements applicable to listed companies, including TSX rules, policies, rulings and procedural requirements and any additions or amendments which may be made thereto from time to time, the TSX may delist our securities. Without limiting the generality of the foregoing, the TSX requires that we: (i) not issue any securities without the prior consent of the TSX; (ii) not undergo a material change in its business or affairs without the prior consent of the TSX; (iii) file copies of all written correspondence sent to holders of its listed securities with the TSX; (iv) not change the provisions attaching to any warrants, rights or other outstanding securities without the prior consent of the TSX; (v) pay all applicable TSX fees; and (vi) file, at any time upon demand, such other information or documentation concerning our business and affairs as the TSX may reasonably require.

The TSX has the right, at any time, to halt or suspend trading in any of listed securities with or without notice and with or without giving any reason for such action, or to delist such securities, provided that the TSX will not delist the securities without providing us with an opportunity to be heard.

If AMEX or the TSX delists our common shares, investors may face material adverse consequences, including, but not limited to, a lack of trading market for our securities, decreased analyst coverage of our securities, and an inability for us to obtain additional financing to fund operations.

Our share price has fluctuated and could continue to fluctuate significantly.

The market price for our common shares, as well as the price of shares of other energy companies, has been volatile. Numerous factors, many of which are beyond our control, may cause the market price of our common shares to fluctuate significantly, such as:

- fluctuations in our quarterly revenues and earnings and those of our publicly held competitors;
- shortfalls in our operating results from levels forecast by securities analysts;
- announcements concerning us or our competitors;
- changes in pricing policies by us or our competitors;
- general market conditions and changes in market conditions in our industry; and
- the general state of the securities market.

In addition, trading in shares of companies listed on AMEX and the Toronto Stock Exchange, generally, and trading in shares of energy companies, specifically, has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to operating performance. These broad market and industry factors may depress our share price, regardless of our actual operating results. In addition, if we issue additional shares in financings or acquisitions, our shareholders will experience additional dilution and the existence of more shares could decrease the amount that purchasers are willing to pay for our common shares.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated herein by reference contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended, and within the meaning of Canadian securities legislation:

i. any statements contained herein or therein regarding the prospects for our business or any of our services;

ii. any statements preceded by, followed by or that include the words may, will, seeks, believes, expects, anticipates, intends, continues, estimates, plans or similar expressions; and

iii. other statements contained herein or therein regarding matters that are not historical facts.

Edgar Filing: Storm Cat Energy CORP - Form S-1

Forward-looking statements in this prospectus and our filings with the SEC include, without limitation, statements regarding:

- financial position;
- business strategy;

13

- budgets;
- amount, nature and timing of capital expenditures;
- drilling of wells;
- potential reserves;
- timing and amount of future production of natural gas and oil;
- operating costs and other expenditures;
- future net revenues from production and estimates of potential oil and gas reserves;
- cash flow and anticipated liquidity; and
- prospect development and property acquisitions.

Our business and results of operations are subject to risks and uncertainties, many of which are beyond our ability to control or predict. Because of these risks and uncertainties, actual results may differ materially from those expressed or implied by forward-looking statements, and investors are cautioned not to place undue reliance on such statements, which speak only as of the date thereof. In addition to the specific risk factors described in the section entitled Risk Factors, important factors that could cause actual results to differ materially from our expectations and may affect our operations, revenues or the common shares, include, but are not limited to:

- the effects of competition;
- risks associated with oil and gas exploration;
- operational hazards;
- availability and cost of material and equipment;
- availability of capital and unexpected substantial variances in capital requirements;
- uncertainty of reserve estimates and timing of development expenditures;
- the impact of petroleum and natural gas price fluctuations;
- our ability to find, acquire, market, develop and produce new properties;
- the threat of terrorist attacks or war;
- the impact of current and future laws and governmental regulations;
- climactic conditions;
- liability for environmental claims;
- the impact of the departure of any key officers; and

- general economic, market or business conditions.

We do not intend to update these forward-looking statements except as required by law.

14

USE OF PROCEEDS

The proceeds from the sale of the common shares offered pursuant to this prospectus are solely for the account of the selling shareholders. Accordingly, we will not receive any proceeds from the sale of the common shares offered by this prospectus.

DIVIDEND POLICY

We currently intend to retain our future earnings, if any, to finance the further development and expansion of our business and do not intend to pay dividends for the foreseeable future. Any future determination to pay dividends will be at the discretion of our board of directors and will depend on our financial condition, results of operations, capital requirements, restrictions contained in future financing instruments and other factors our board of directors deems relevant.

DESCRIPTION OF OUR COMMON SHARES

For a full description of our common shares, please see the documents identified in the section **Incorporation by Reference** in this prospectus. As of the date of this prospectus, we are authorized to issue an unlimited number of common shares. As of February 22, 2007, we had 80,479,820 issued and outstanding common shares, and had reserved an additional (1) 7,661,813 common shares for issuance upon exercise of outstanding warrants, (2) 3,763,748 common shares for issuance under our Amended and Restated Option Share Plan, and (3) 15,841,880 common shares for issuance upon conversion of our Series A Notes. Each common share is entitled to one vote in the election of directors and other matters.

The Series A Note Purchase Agreement, dated as of January 19, 2007, by and among Storm Cat Energy Corporation and the investors set forth therein grants the investors certain preemptive rights to purchase additional equity. No other shareholders have pre-emptive purchase rights. We have only one class of shares issued, the common shares. We have authorized, but not issued, preferred shares.

Our common shares are issued in registered form, and our transfer agent is Pacific Corporate Trust Company, 510 Burrard Street, Third Floor, Vancouver, British Columbia, Canada, V6C 3B9.

PRICE HISTORY OF THE SHARES

Our common shares are traded on the American Stock Exchange under the symbol **SCU** and the Toronto Stock Exchange under the symbol **SME**. The following tables set forth, for each of the quarterly periods indicated, the range of high and low sales prices on the American Stock Exchange and the Toronto Stock Exchange.

Quarterly High and Low Market Price for the Two Most Recent Fiscal Years on the Toronto Stock Exchange(CDN\$)

Quarter Ended	High	Low
December 31, 2006	\$ 2.04	\$ 1.35
September 30, 2006	\$ 2.60	\$ 1.50
June 30, 2006	\$ 3.41	\$ 2.11
March 31, 2006	\$ 3.86	\$ 2.85
December 31, 2005	\$ 4.36	\$ 2.40
September 30, 2005	\$ 3.35	\$ 1.50
June 30, 2005	\$ 3.88	\$ 1.78
March 31, 2005	\$ 3.25	\$ 2.25

Quarterly High and Low Market Price for the Two Most Recent Fiscal Years on the American Stock Exchange (\$ U.S.) *

Quarter Ended	High	Low
December 31, 2006	\$ 1.82	\$ 1.16
September 30, 2006	\$ 2.50	\$ 1.34
June 30, 2006	\$ 3.00	\$ 1.85

Edgar Filing: Storm Cat Energy CORP - Form S-1

March 31, 2006	\$	3.37	\$	2.38
December 31, 2005	\$	3.75	\$	2.01

We completed a two-for-one forward share split on March 31, 2005. All share prices have been adjusted for the share split effective March 31, 2005.

* Our common shares began trading on the American Stock Exchange on October 3, 2005.

On February 28, 2007, the last sale price of our common shares as reported on the American Stock Exchange was \$0.74 per share and the last sale price of our common shares as reported on the Toronto Stock Exchange was CDN\$0.90 per share. On February 28, 2007, the number of our common shareholders of record was 45.

15

THE SELLING SHAREHOLDERS

We initially issued the common shares to the selling shareholders, as initial purchasers in transactions exempt from the registration requirements of the Securities Act of 1933, as amended (the Securities Act). We have agreed to include in this registration statement the common shares common shares issuable upon the conversion of the Series A Notes.

The selling shareholders, including their transferees, pledges, donees or other successors, may from time to time offer and sell pursuant to this prospectus any or all of the common shares issuable upon conversion of the Series A Notes. Any selling shareholder may also elect not to sell any common shares issuable upon conversion of the Series A Notes held by it. Only common shares issuable upon conversion of the Series A Notes listed below or in any prospectus supplement hereto may be offered for resale by the selling shareholders pursuant to this prospectus. None of the selling shareholders has, or had, any position, office or other material relationship with us or any of our affiliates beyond their investment in or receipt of our securities, except for Trapeze Capital Corp. and Trapeze Asset Management Inc. (collectively, Trapeze), who prior to the purchase of the Series A Notes held 13,767,776 common shares representing approximately 17.12% of our outstanding shares, plus 2,126,582 common share purchase warrants, each exercisable to purchase a common share at a price of CDN\$1.90 per share. These securities were acquired by Trapeze in a private placement completed in September 2006. Their combined purchase of Series A Notes totaled \$3.7 million, which, upon conversion at US\$1.17 per share would initially result in the issuance of 3,162,394 common shares (subject to adjustment in accordance with the terms of the Series A Notes). Consequently, on a fully-converted basis as at February 5, 2007 (and assuming no other outstanding warrants, options or convertible securities are exercised or converted), these Trapeze entities held 22.22% of our issued and outstanding voting shares. Kellogg Capital Group LLC is a member of the National Association of Securities Dealers Regulation, Inc. Crestview Capital Master, LLC, GPC LX, LLC and UBS AG Canada Branch are the only selling shareholders who are affiliated with a registered broker-dealer.

We have agreed with the selling shareholders to keep the registration statement of which this prospectus constitutes a part effective until the earlier of (1) such time as all of the shares covered by this prospectus have been disposed of pursuant to and in accordance with the registration statement, and (2) the date on which the shares (other than shares held by our Affiliates) may be sold pursuant to Rule 144(k) of the Securities Act.

The following table is prepared based on information supplied to us by the selling shareholders. Although we have assumed for purposes of the table below that the selling shareholders will sell all of the shares offered by this prospectus, because the selling shareholders may offer from time to time all or some of their shares covered under this prospectus, or in another permitted manner, no assurances can be given as to the actual number of shares that will be resold by the selling shareholders or that will be held by the selling shareholders after completion of the resales. In addition, the selling shareholders may have sold, transferred or otherwise disposed of the Series A Notes in transactions exempt from the registration requirements of the Securities Act, since the date the selling shareholders provided the information regarding their securities holdings. Information concerning the selling shareholders may change from time to time and changed information will be presented in a supplement to this prospectus if and when necessary and required. Except as described above, there are currently no agreements, arrangements or understandings with respect to the resale of any of the shares covered by this prospectus. Pursuant to the purchase agreements pursuant to which the conversion of the Series A Notes were sold, each of the selling shareholders warranted and covenanted to us that the selling shareholder purchased the conversion of the Series A Notes in the ordinary course of business and did not have, directly or indirectly, any intention of distributing any of the conversion of the Series A Notes or the common shares issuable upon conversion of the conversion of the Series A Notes or any agreement, arrangement or understanding with any other persons regarding the distribution of the common shares.

Edgar Filing: Storm Cat Energy CORP - Form S-1

Ireland, through its subsidiaries, owns a majority of the limited liability company membership interests in Guggenheim Alternative Asset Management, LLC. The investment manager of GPC LX, LLC is Wolverine Asset Management, LLC. Christopher Gust is the portfolio manager that oversees the investment of assets of GPC LX, LLC on behalf of Wolverine Asset Management, LLC. The Governor and Company of the Bank of Ireland, through its subsidiaries, owns a majority of IAM Capital Corporation. IAM Capital Corporation is a broker/dealer registered with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers Regulation, Inc. IAM Capital Corporation was organized for the limited purpose of offering investments in limited partnerships to which IAM Capital Corporation's parent, Iridian Asset Management LLC, acts as the investment advisor.

- (15) UBS AG Canada Branch is an affiliate of a registered broker-dealer.

PLAN OF DISTRIBUTION

We are registering the common shares issuable upon conversion of the Series A Notes to permit the resale of these common shares by the holders of the Series A Notes from time to time after the effectiveness of the registration statement. We will not receive any of the proceeds from the sale by the selling shareholders of the common shares. We will bear all fees and expenses incident to our obligation to register the common shares.

The selling shareholders may sell all or a portion of the common shares beneficially owned by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the common shares are sold through underwriters or broker-dealers, the selling shareholders will be responsible for underwriting discounts or commissions or agent's commissions. The common shares may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions:

- on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- in the over-the-counter market;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- through the writing of options, whether such options are listed on an options exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales entered into after the effective date of the registration statement;
- sales pursuant to Rule 144;
- broker-dealers may agree with the selling shareholders to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

If the selling shareholders effect such transactions by selling common shares to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling

Edgar Filing: Storm Cat Energy CORP - Form S-1

shareholders or commissions from purchasers of the common shares for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the common shares or otherwise, the selling shareholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the common shares in the course of hedging in positions they assume. The selling shareholders may also

20

sell common shares short and deliver common shares covered by the registration statement to close out short positions and to return borrowed shares in connection with such short sales. The selling shareholders may also loan or pledge common shares to broker-dealers that in turn may sell such shares.

The selling shareholders may pledge or grant a security interest in some or all of the Series A Notes or common shares issuable upon conversion thereof owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the common shares from time to time pursuant to the registration statement or any amendment to the registration statement under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933, as amended, amending, if necessary, the list of selling shareholders to include the pledgee, transferee or other successors in interest as selling shareholders under the registration statement and the related prospectus. The selling shareholders also may transfer and donate the common shares in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of the registration statement and the related prospectus.

The selling shareholders and any broker-dealer participating in the distribution of the common shares may be deemed to be underwriters within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the common shares is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of common shares being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling shareholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Under the securities laws of some states, the common shares may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the common shares may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling shareholder will sell any or all of the common shares registered pursuant to the registration statement.

The selling shareholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the common shares by the selling shareholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the common shares to engage in market-making activities with respect to the common shares. All of the foregoing may affect the marketability of the common shares and the ability of any person or entity to engage in market-making activities with respect to the common shares.

We will pay all expenses of the registration of the common shares pursuant to the registration rights agreement, estimated to be \$360,860 in total, including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state or provincial securities or blue sky laws; provided, however, that a selling shareholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling shareholders against liabilities, including some liabilities under the Securities Act, in accordance with the registration rights agreement, or the selling shareholders will be entitled to contribution. We may be indemnified by the selling shareholders against civil liabilities, including liabilities under the Securities Act, that may arise from any written information furnished to us by the selling shareholder specifically for use in the registration statement and the related prospectus, in accordance with the registration rights agreement, or we may be entitled to contribution.

Once sold under the registration statement and the related prospectus, the common shares will be freely tradable in the hands of persons other than our affiliates.

LEGAL MATTERS

The validity of the issuance of the common shares offered by this prospectus will be passed upon for us by Bull, Housser & Tupper, LLP, Vancouver, British Columbia, Canada.

EXPERTS

The consolidated financial statements incorporated in this prospectus by reference from our Annual Report on Form 20-F/A for the year ended December 31, 2005 have been audited by Hein & Associates LLP, an independent registered public accounting firm, and Amisano Hanson, Chartered Accountants, as stated in their report, which is incorporated herein by reference, and have been so incorporated in reliance upon the report of such firm given upon their authority as experts in accounting and auditing.

The reserve estimates in this prospectus have been prepared by Netherland, Sewell & Associates, Inc. independent reservoir engineers, and have been included in reliance on the report of such firm given upon their authority as experts in reserve engineering.

ENFORCEMENT OF CIVIL LIABILITIES

We are incorporated under the laws of the Province of British Columbia, Canada. Further, some of our assets are located outside of the United States. Consequently, it may be difficult for United States investors to effect service of process in the United States upon our directors or officers who are not residents of the United States, or to realize in the United States upon judgments of United States courts predicated upon civil liabilities under the U.S. securities laws. A judgment of a U.S. court predicated solely upon such civil liabilities would probably be enforceable in Canada by a Canadian court if the U.S. court in which the judgment was obtained had jurisdiction, as determined by the Canadian court, in the matter. There is substantial doubt whether an original action could be brought successfully in Canada against any of such persons or Storm Cat predicated solely upon such civil liabilities.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC, a registration statement on Form S-1, of which this prospectus is a part, under the Securities Act with respect to the common shares offered hereby. This prospectus does not contain all of the information included in the registration statement. Statements in this prospectus concerning the provisions of any document are not necessarily complete. You should refer to the copies of the documents filed as exhibits to the registration statement or otherwise filed by us with the SEC for a more complete understanding of the matter involved. Each statement concerning these documents is qualified in its entirety by such reference.

We are subject to the informational requirements of the Securities and Exchange Act of 1934, as amended (the Exchange Act), and, accordingly, file reports, proxy statements and other information with the SEC. The SEC maintains a web site at <http://www.sec.gov> that contains reports and information statements and other information regarding registrants that file electronically with the SEC. You may read and copy the registration statement, these reports and other information at the public reference facility maintained by the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, DC 20549. You may obtain information on the operation of the public reference room by calling the SEC at 1-800-SEC-0330.

You may read and copy our SEC reports and other information at the American Stock Exchange at 86 Trinity Place, New York, New York 10006.

INCORPORATION BY REFERENCE

The SEC allows us to incorporate by reference in this prospectus the information that we file with them. This means that we can disclose important information to you in this document by referring you to other filings we have made with the SEC. The information incorporated by reference is considered to be part of this prospectus. We incorporate by reference the documents listed below:

- our Definitive Proxy Statement on Schedule 14A filed with the SEC on March 1, 2007 (Commission File No. 001-32628);
- our Annual Report on Form 20-F/A for our fiscal year ended December 31, 2005, filed with the SEC on January 5, 2007 (Commission File No. 001-32628);
- our Quarterly Report on Form 10-Q for our second quarter ended June 30, 2006, filed with the SEC on August 9, 2006 (Commission File No. 001-32628);
- our Quarterly Report on Form 10-Q/A for our third quarter ended September 30, 2006, filed with the SEC on November 13, 2006 (Commission File No. 001-32628);
- News Release dated February 7, 2006, News Release dated April 3, 2006, News Release dated April 4, 2006, News Release dated May 9, 2006, Unaudited Interim Consolidated Financial Statements for the period ended March 31, 2006, Management Discussion and Analysis, dated May 15, 2006, for the period ended March 31, 2006, News Release dated May 16, 2006 and Annual General Meeting Materials contained in our report on Form 6-K furnished to the SEC on June 19, 2006 (Commission File No. 001-32628);
- our Current Reports on Forms 8-K and 8-K/A filed with the SEC on July 21, 2006, August 2, 2006, , September 5, 2006, September 21, 2006, October 3, 2006, November 15, 2006, December 20, 2006, January 25, 2007 and February 5, 2007 (Commission File No. 001-32628);
- News Release dated January 5, 2006, contained in our report on Form 6-K furnished to the SEC on January 19, 2006 (Commission File No. 001-32628); and
- the description of our common shares as set forth in our registration statement on Form 8-A filed with the SEC on September 26, 2005 (Commission File No. 001-32628).

This prospectus may contain information that updates, modifies or is contrary to information in one or more of the documents incorporated by reference in this prospectus. Reports we file with the SEC after the date of this prospectus may also contain information that updates, modifies or is contrary to information in this prospectus or in documents incorporated by reference in this prospectus. Investors should review these reports as they may disclose a change in our business, prospects, financial condition or other affairs after the date of this prospectus.

Upon your written or oral request, we will provide at no cost to you a copy of any and all of the information that is incorporated by reference in this prospectus.

Requests for such documents should be directed to:

PART II
INFORMATION NOT REQUIRED IN THE PROSPECTUS

PART II
INFORMATION NOT REQUIRED IN THE PROSPECTUS

Item 13. *Other Expenses of Issuance and Distribution.*

We will pay all expenses in connection with the registration and sale of the common shares by the selling shareholders. None of the expenses will be borne by the selling shareholders. The estimated expenses of issuance and distribution are set forth below.

SEC Registration Fees	\$ 360
AMEX Filing Fees	45,000
Transfer Agent Fees	500
Costs of Printing and Engraving	5,000
Legal Fees and Expenses	200,000
Accounting Fees	10,000
Engineering/Consulting Fees	100,000
Total	\$ 360,860

*All of the above items except the registration fee and AMEX filing fees are estimated.

Item 14. *Indemnification of Directors and Officers.*

Under the Business Corporations Act of British Columbia (the Business Corporations Act) a corporation may indemnify present or former directors or officers, or other individuals who act or acted at the corporation's request as a director or officer, or an individual acting in a similar capacity, of another entity, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by the individual with respect to any civil, criminal, administrative, investigative or other proceeding in which the individual is involved, because of that association with the Registrant or other entity. To qualify for indemnification under the Business Corporations Act, an individual must (1) act honestly and in good faith with a view to the best interest of the corporation, or as the case may be, to the best interests of the other entity for which the individual acted as a director or officer or in a similar capacity at the corporation's request, and (2) in the case of criminal or administrative action that is enforced by a monetary penalty, the individual must have had reasonable grounds for believing that the individual's conduct was lawful. In actions brought by or on behalf of the corporation, indemnification may only be made with court approval. A corporation may advance moneys to the individuals for all costs, charges and expenses of a proceeding, as long as the individual undertakes in writing to repay the moneys if indemnification is ultimately prohibited by the Business Corporations Act.

The Registrant's Articles (the Articles), provide that subject to the limitations contained in the Business Corporations Act, the Registrant must indemnify its directors, former directors or alternate directors and his or her heirs and legal personal representatives against all penalties to which such person is or may be liable. Further, the Articles provide that the Registrant must pay the expenses actually and reasonably incurred by such person in respect of that proceeding. In accordance with the Articles, the Registrant may indemnify its officers and individuals whom act at the request of the Registrant, in a position equivalent to that of a director or officer of a partnership, trust, joint venture, or other unincorporated entity. A director, alternate director or officer's failure to comply with the Business Corporations Act or the Articles does not invalidate any indemnification the individual is entitled to under the Articles.

In accordance with the Articles, the Registrant maintains insurance to cover (1) individuals who are or were directors, alternate directors, officers, employees or agents of the Registrant or corporations affiliated with the

Registrant; (2) individuals who, at the request of the Registrant, are or were directors, officers, employees or agents of a corporation, partnership, trust, joint venture, or other unincorporated entity; or (3) individuals who, at the request of the Registrant, hold or held a position equivalent to that of a director, alternate director or officer of a partnership, trust, joint venture, or other unincorporated entity, against any liability incurred by the individual in his capacity with or acting on behalf of the Registrant.

Item 15. *Recent Sales of Unregistered Securities*

In January 2004, we completed a private placement of 3,976,000 common share units at a price of CDN\$0.125 per unit for gross proceeds of CDN\$497,000. Each unit consisted of one common share and one common share purchase warrant, with each warrant exercisable into one common share at a price of CDN\$0.25 per share until January 16, 2005. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

In May 2004, we closed a private placement of 3,750,000 common share units at a price of CDN\$0.40 per unit for gross proceeds of CDN\$1,500,000. Each unit consisted of one common share and one-half of a common share purchase warrant, with each full warrant exercisable into one common share at a price of CDN\$0.50 until May 4, 2005. We paid a placement agent CDN\$42,240 in cash. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

In October 2004, we closed a private placement of 1,875,000 common share units at a price of CDN\$0.40 per unit for gross proceeds of CDN\$750,000. Each unit consisted of one common share and one common share warrant, with each warrant exercisable into one common share at a price of CDN\$0.50 until October 18, 2005, or at a price of CDN\$0.625 until April 18, 2006. We paid a placement agent 88,550 units, with each unit having the same terms and conditions as the units offered in the private placement. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On November 10, 2004, we closed a private placement of 1,600,000 common share units at a price of CDN\$0.625 per unit for gross proceeds of CDN\$1,000,000. Each unit consisted of one common share and one-half of a common share purchase warrant, with each full warrant exercisable into one common share at a price of CDN\$0.775 until November 10, 2005. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On December 17, 2004, we closed a private placement of 3,840,000 common share units at a price of CDN\$0.625 per unit for gross proceeds of CDN\$2,400,000. Each unit consisted of one common share and one-half of a common share purchase warrant, with each full warrant exercisable into one common share at a price of CDN\$0.775 until December 17, 2005. We paid a placement agent in connection with the offering CDN\$192,000 in cash and 576,000 warrants, with each warrant exercisable into one common share at a price of CDN\$0.775 until December 17, 2005. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On February 24, 2005, we closed a private placement of 6,400,000 common share units at a price of CDN\$1.95 per unit for gross proceeds of CDN\$12,480,000. Each unit consisted of one common share and one common share purchase warrant, with each warrant exercisable into one common share at a price of CDN\$2.60 on or before February 24, 2007. We paid five placement agents and a finder a total of approximately CDN\$443,180 in cash payments and issued 165,996 common share units as placement agent fees. Each unit was identical to the units offered in the private placement. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On September 27, 2005, we closed a private placement of 1,875,000 common share units for gross proceeds of CDN\$4,500,000 and 2,142,858 flow-through common shares for gross proceeds of CDN\$6,000,002. Each unit, priced at CDN\$2.40 per unit, comprises one common share and one-half common share purchase warrant. Each whole common share purchase warrant is exercisable into one common share at a price of CDN\$3.00 for a period of 18 months from closing. Each flow-through common share is priced at CDN\$2.80 per share. We paid three

Edgar Filing: Storm Cat Energy CORP - Form S-1

registered securities dealers a total of approximately CDN\$787,500 in cash payments and issued 301,339 warrants as placement agent fees. Each warrant entitles the holder to purchase one common share at a price of CDN\$2.40 per share on or before March 27, 2007. The common shares, warrants and flow-through common shares were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On October 25, 2005, we closed a private placement of 5,092,328 common shares at a price of \$2.15 per share for gross proceeds of \$10,948,505. In addition to the common shares, the investors received common share warrants exercisable for three tenths (3/10) of a common share, for each common share purchased or 1,527,696 warrants. Each full warrant will be exercisable until October 25, 2007 at an exercise price of \$2.52 per share. In connection with the closing, we paid two placement agents a total of \$628,530 in cash. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On November 30, 2005, we closed a private placement of 2,325,581 common shares at a price of \$2.15 per share for gross proceeds of approximately \$5,000,000. In addition to the common shares, the investors received common share warrants exercisable for three tenths (3/10) of a common share, for each common share purchased or 697,674 warrants. Each full warrant will be exercisable until October 25, 2007 at an exercise price of \$2.52 per share. We paid two placement agents a total of \$300,000 in cash. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On December 21, 2005, we closed a private placement of 992,063 common shares at a price of \$2.52 per share for gross proceeds of approximately \$2,500,000. In addition to the common shares, the investors received common share warrants exercisable for three tenths (3/10) of a common share, for each common share purchased or 297,617 warrants. Each full warrant will be exercisable until October 25, 2007 at an exercise price of \$2.97 per share. We paid two placement agents a total of \$150,000 in cash. The common shares and warrants were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On September 27, 2006, we closed a private placement of common share units and flow-through shares for CDN\$1.58 per unit and CDN\$1.80 per flow-through share. Each unit consisted of one common share and approximately 0.28 of a common share warrant that is exercisable through February 27, 2008 at an exercise price of CDN\$1.90 per share. This private placement consisted of a total of 7,594,937 units and 6,172,839 flow-through common shares. Pursuant to the sale of units, we issued an aggregate of 2,126,582 warrants on the terms set forth above. The common shares, warrants and flow-through common shares were issued in reliance upon the exemption from registration provided under Section 4(2) of the Securities Act of 1933, as amended.

On January 30, 2007, we closed a private placement of Series A Subordinated Convertible Notes Due March 31, 2012 (the Series A Notes) in a total aggregate principal amount of \$18,535,000. The Series A Notes will mature on March 31, 2012, unless earlier converted, redeemed or repurchased. The Series A Notes bear interest at a rate of 9 ¼% per annum, commencing on January 30, 2007. Interest on the Series A Notes is payable quarterly in arrears on March 31, June 30, September 30 and December 15 of each year, beginning on June 30, 2007. The Series A Notes will be convertible into our common shares at a price of \$1.17 per share, as may be adjusted in accordance with the terms of the Series A Notes, and we may force the conversion of the Series A Notes at any time after July 30, 2008 that our common shares trade above \$2.05, as may be adjusted, for 20 days within a period of 30 consecutive trading days. The private placement was made in reliance upon an exemption or exemptions from registration under Section 4(2) of the Securities Act of 1933, as amended and/or Regulation D promulgated thereunder.

Item 16. Exhibits

The following documents are filed as exhibits to this registration statement:

Edgar Filing: Storm Cat Energy CORP - Form S-1

Exhibit Number	Description
3.1	Notice of Articles, dated July 10, 2006 (incorporated by reference to Exhibit 3.1 to Storm Cat's quarterly report on Form 10-Q filed on August 9, 2006 (Commission File No. 001-130688))
3.2	Articles, dated May 21, 2004 (incorporated by reference to Exhibit 4.2.1 to Storm Cat Energy Corporation's registration statement on Form F-3 filed on December 23, 2005 (Commission File No. 333-130688))
3.2.1	Amendment to Articles, dated June 23, 2005 (incorporated by reference to Exhibit 4.2.2 to Storm Cat Energy Corporation's registration statement on Form F-3 filed on December 23, 2005 (Commission File No. 333-130688))
3.2.2	Amendment to Articles, dated June 27, 2006 (incorporated by reference to Exhibit 3.1 to Storm Cat Energy Corporation's Quarterly Report on Form 10-Q filed on August 9, 2006 (Commission File No. 001-130688))

Item 17. Undertakings

The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required in Section 10(a)(3) of the Securities Act of 1933;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and
 - (iii) To include any material information with respect to the Plan of Distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;
 - (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof;
 - (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering;
 - (4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use;
 - (5) The undersigned registrant hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report, to
-

security holders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X is not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the prospectus to provide such interim financial information.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 8 above, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, as amended, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-1 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Denver, State of Colorado on this 1st day of March, 2007.

STORM CAT ENERGY CORPORATION

By: /s/ J. Scott Zimmerman
J. Scott Zimmerman

President and Chief Executive Officer

KNOW ALL MEN BY THESE PRESENTS, that each person whose signature appears below constitutes and appoints J. Scott Zimmerman and Paul Wiesner, and each of them, his true and lawful attorneys-in-fact and agents, with full power of substitution and resubstitution, to sign, execute and file with the Securities and Exchange Commission (or any other governmental or regulatory authority), for us and in our names in the capacities indicated below, this registration statement on Form S-1 (including all amendments thereto) with all exhibits and any and all documents required to be filed with respect thereto, granting unto said attorneys-in-fact and agents and each of them, full power and authority to do and to perform each and every act and thing necessary or desirable to be done in and about the premises in order to effectuate the same as fully to all intents and purposes as he himself might or could do if personally present, hereby ratifying and confirming all that said attorneys-in-fact and agents, or any of them, may lawfully do or cause to be done by virtue hereof.

Pursuant to the requirements of the Securities Act of 1933, as amended, this registration statement on Form S-1 has been signed on by the following persons in the capacities and on the dates indicated:
