MECHEL OAO

(Translation of registrant's name into English)

Krasnoarmeiskaya 1,

Moscow 125167

Russian Federation

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Yes No

Note: Regulation S-T Rule 101(b)(c) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Yes No

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission

**MECHEL ANNOUNCES THE COMMISSIONING OF AN AUTOMATED ALUMINA
TRANSSHIPMENT COMPLEX AT PORT KAMBARKA OAO**

Kambarka, Russia July 9, 2007 Mechel OAO (NYSE: MTL), one of the leading Russian mining and metals companies, announces the commissioning of an automated alumina transshipment complex, Albatross, at its subsidiary, Port Kambarka OAO, in line with its technical re-equipment plan.

The commissioning of the self-propelled weighing complex, Albatross, took place on July 7 during the celebration of Port Kambarka's 65th anniversary. This complex is the only self-propelled equipment of this kind in Russia and is designed for transshipping alumina from river to railway transport.

The first technical startup of the Albatross self-propelled weighing complex was performed in the port on April 25, 2007. The complex is installed on a self-propelled gantry equipped with an automation and control system. The complex is controlled by an operator from a cabin, which is a part of the complex. The complex is equipped with bunker scales, metering, video control, loading, compressed air preparation, and emergency valve systems.

Port Kambarka faces the new season equipped with the state-of-the-art loading equipment. The Albatross complex is designed for transshipping pulverulent and fine-grained bulk cargoes from river to railway transport. With this complex, we are able to increase cargo transshipping volumes, reduce loading time and improve the working conditions of the personnel. In addition, using the new complex enables Port Kambarka to enter the logistic system of alumina transportation for Russian aluminum plants. Mechel Management Company's Chief Executive Officer Vladimir Polin commented.
