Compensation Discussion and Analysis

We provide what we believe is a competitive total compensation package to our executive management team through a combination of a base salary, an annual bonus opportunity, a long-term incentive opportunity, retirement benefits, perquisites and other benefits.

We place significant emphasis on pay-for-performance based incentive compensation which is designed to reward the achievement of predetermined company and individual goals and the generation of increased stockholder value. This Compensation Discussion and Analysis explains our compensation philosophy, policies and practices with respect to our chief executive officer, chief financial officer, and the other three most highly compensated executive officers, who are collectively referred to as our named executive officers.

The Objectives of our Executive Compensation Program.

Our Compensation Committee is responsible for establishing and administering our policies governing the compensation for our executive officers. The Compensation Committee is composed entirely of independent, non-employee directors.

Our executive compensation program is designed to achieve the following objectives:

- Attract and retain talented and experienced executives;
- Motivate and reward executives whose knowledge, skills and performance are critical to our success;
- Align the interests of our executive officers and stockholders by motivating executive officers to increase stockholder value;
- Provide a competitive compensation package which is weighted towards pay-for-performance, and in which total compensation is primarily determined by the company's and the individual's achievement of results and the creation of stockholder value;

- Foster a shared commitment among executives by aligning the company's and their individual goals; and
- Compensate our executives to manage our business to meet our objectives.

The Compensation Committee meets outside the presence of all of our executive officers, including the named executive officers, to consider appropriate compensation for our chief executive officer. For all other named executive officers, the Compensation Committee meets outside the presence of all executive officers except our chief executive officer. The annual performance reviews of our executive officers are considered by the Compensation Committee when making decisions on setting base salary, targets for and payments of annual bonus opportunities and grants of long-term equity incentive awards. When making decisions on executive officers, the Compensation Committee considers competitive compensation data, the importance of the position to us, the past salary history of the executive officer and the contributions we expect the executive officer to make to the success of our business.

To assist management and the Compensation Committee in assessing and determining competitive compensation packages, we engaged compensation consultants Mercer Human Resource Consulting (Mercer).

We use the following principles to guide our decisions regarding executive compensation:

Provide compensation opportunities targeted at market median levels.

To attract and retain executives with the ability and the experience necessary to lead us and deliver strong performance to our stockholders, we strive to provide a total compensation package that is competitive with total compensation provided by other similarly sized business service companies. Our policy is to target total compensation at median levels among this peer group, with leverage provided through the incentive programs such that above target performance yields above average compensation and below target performance yields below average compensation. Because a large portion of total executive compensation is provided in the form of incentives that are contingent on performance, actual compensation of these executives will vary above and below these targeted median levels depending on our companywide and their individual performance. In periods of strong performance, actual compensation will exceed these targeted levels. If a downturn in performance occurs, the Compensation Committee expects actual compensation to be below these targeted levels.

The Compensation Committee periodically reviews data on industry compensation levels and financial performance to assess competitive levels of compensation for our executive officers. In January 2007, the Compensation Committee, with the assistance of Mercer, compared the total compensation of selected named executive officers and the compensation practices of business service companies with similar gross revenue and full time employee equivalents. The process utilized by us and our consultants is as follows:

- Mercer benchmarks the total compensation of our named executive officers relative to these peer companies, providing advice on how to structure cash and equity incentives, and providing guidance on changing regulatory requirements and best practices. Compensation elements, including salary, bonus, total cash compensation, long-term incentives, and total direct compensation, are analyzed from the preceding year's proxy disclosures by these peer companies.
- Mercer provides market analysis reports showing the estimated market value for each job benchmarked. Based on feedback from us, Mercer makes any necessary revisions. Market comparison reports are generated and provided for the Compensation Committee's review.

Require performance goals to be achieved and/or stockholder value to be increased in order to increase compensation.

Our executive compensation program includes pay-for-performance. Performance is measured based on our overall financial performance as well as achievement of company, departmental and individual performance goals, as determined by our Compensation Committee. The goals for our company, departments and individuals are established so that target attainment is not assured. The attainment of payment for performance at or above target levels will require significant effort on the part of our executives.

The compensation package for our executive officers includes both a cash opportunity and equity incentive plans that align each executive's compensation with our short-term and long-term performance goals and objectives. Our Compensation Committee determines an overall

available bonus pool to compensate all employees for achieving our annual financial goals at the corporate level. The Compensation Committee then has full discretion to allocate this overall available pool to executive officers to reward these individuals for achieving personal performance objectives.

Offer a comprehensive benefits package to all full-time employees.

Our employees, including our executive officers, are entitled to various employee benefits. These benefits include the following: medical, vision and dental care plans; flexible spending accounts for healthcare and dependent care; life and disability insurance; a 401(k) plan; and paid time off.

Provide fair and equitable compensation.

We provide a total compensation program that we believe will be perceived by both our executive officers and our stockholders as fair and equitable. In addition to conducting analyses of market compensation levels and considering individual circumstances related to each executive officer, we have designed the total compensation programs to be consistent for our executive management team.

Our Executive Compensation Programs

We aim to deliver a substantial portion of total compensation in the form of cash and equity incentives to achieve its objective of holding executives accountable for company performance and offering rewards for successful business results and increased shareholder value. Compensation opportunities for our executive officers, including our named executive officers, are designed to be competitive within our industry. We believe that a substantial portion of each named executive officer's compensation should be performance-based. In 2007, as a result of lower than expected overall financial performance, variable incentive compensation ranged from approximately 0% to 26% of total compensation of our named executive officers.

In determining whether to adjust the compensation of our executive officers, including our named executive officers, annually we ask each of them to undertake a self-assessment. Each named executive officer provides the completed self-assessment to our president and our chief executive officer for their review prior to submitting recommendations to the Compensation Committee. The president's and chief executive officer's recommendation to the Compensation Committee consists of each named executive officer's self-assessment and any revisions or comments the president and chief executive officer suggest. The Compensation Committee discusses each recommendation with the president and chief executive officer, except that the president is not present when his or the chief executive officer's compensation is discussed and the chief executive officer is not present when his compensation is discussed. Once the review process is complete, the Compensation Committee establishes the annual base and incentive compensation target for each named executive officer.

Annual Cash Compensation

To attract and retain executives with the ability and the experience necessary to lead us and deliver strong performance to our stockholders, we provide a competitive total compensation package. We target base salaries at median among business service companies with similar gross revenue and full time employee equivalents and take into consideration individual performance and experience to ensure that each executive is appropriately compensated.

Base Salary.

We design base salaries to compensate our executives for their position and level of responsibility. Each of our named executive officers has an employment agreement with the Company. The Compensation Committee reviews base salaries annually and may adjust individual salaries commensurately with performance, business impact, tenure and experience, and changes in job responsibilities and market practice. When establishing the base salary of any executive officer, we also consider business requirements for certain skills, individual experience and contributions, the roles and responsibilities of the executive and other factors. We believe that a competitive base salary is necessary to attract and retain an executive management team with the appropriate abilities and experience required to lead us.

The base salaries paid to our named executive officers are set forth below in the Summary Compensation Table. For the fiscal year ended December 31, 2007, the aggregate annual base salary of our named executive officers was approximately \$1,725,891, with our chief executive officer receiving \$533,007 of that amount. We believe that the base salary paid to our executive officers during 2007 achieves our executive compensation objectives, compares favorably to our peer group and is within our target of providing a base salary at the market median.

Annual Cash Bonus Awards.

Target annual incentive opportunities are provided to be able to reward for the achievement of yearly performance objectives, and to provide an element of annual cash compensation that is variable in nature. Target incentive opportunities are designed to provide compensation around the median of the market. The incentive plan is largely discretionary though the funding of the pool through EBITDA targets is not. The Compensation Committee sets an EBITDA target and rate at which the bonus pool is funded for performance on, above and below target. After performance has been determined and the pool has been funded, the Compensation Committee has the discretionary ability to allocate amounts of the bonus pool to an individual based on departmental and individual performance.

With regard to the named executive officers, 2007 annual cash bonus awards were subject to the size of the pool and the allocation process described above. In 2007, the Compensation Committee determined that based upon Company performance and market conditions for the Company's services, the Company would not pay fiscal 2007 cash bonuses with respect to four of its five executive officers, including Frank P. Filippis, D. Keith Johnson, Frederick C. Herbst and Steven L. Cohen. A cash bonus in the amount of \$115,500 was paid to Kevin J. Kanouff.

Equity Incentive Compensation

Long-term incentive awards are granted to align our executives with our shareholders by focusing on our stock price performance and other indicators of long-term performance. These awards also contribute to stronger retention rates through the application of multi-year vesting provisions. Our policy is to use both stock options and restricted stock to properly incentivize our executive officers to focus on the long-term success of the Company. In addition to stock options and restricted stock, we have the flexibility to use other long-term equity incentive vehicles.

Given the changing and very difficult market conditions of 2007, and consistent with our compensation policy of retaining talented and experienced executives, we concluded that a retention program was necessary to retain key employees as part of an overall strategic plan to operate and grow the Company. In August 2007, at a meeting of the Board, there was an extensive discussion regarding the unprecedented disruption of the non-agency segment of the mortgage market and its short and long-term impacts on the Company. Company management discussed the need for a plan to retain employees in light of the market disruption and the fact that the strike prices on the vast majority of employees' outstanding options were substantially below the Company's current and anticipated future stock price.

In September 2007, we were increasingly concerned that employees were looking for other opportunities as a result of extensive conversations with clients and concurrent news in the popular and industry press to the effect that our primary markets were unlikely to recover in the near term. In attempt to forestall or mitigate additional employee departures, we re-engaged Mercer to assist us in preparing an incentive and retention plan for senior management and other key employees (the Incentive and Retention Plan).

In October 2007, Mercer delivered to us a draft of the Incentive and Retention Plan. The draft of the Incentive and Retention Plan proposed senior officers and certain other employees receive a combination of cash and equity awards that vested over six (6) to eighteen (18) months. Company management, the Compensation Committee and the full Board discussed the Incentive and Retention Plan proposed by Mercer.

Edgar Filing: CLAYTON HOLDINGS INC - Form 10-K/A

In November 2007, Company management and the Compensation Committee worked together to revise the Incentive and Retention Plan. Company management delivered a memorandum to the Compensation Committee summarizing its recommendation for retention equity awards and 2007 bonuses. In December 2007, Company management and the Compensation Committee continued to work together to revise the Incentive and Retention Plan.

On December 19, 2007, the Compensation Committee resolved to recommend awards of restricted stock to Company executives, senior managers, revenue generators and other key employees. The Compensation Committee concluded that each of Messrs. Filippis, Herbst, Johnson and Cohen should not receive a cash bonus for 2007 as a result of the Company's financial performance. In lieu of a cash bonus, however, the Compensation Committee concluded that equity awards that vested ratably every six (6) months over a two (2) year period for such officers

would be an appropriate means to compensate them for 2007, align their interests with those of the stockholders for 2008 and beyond and were consistent with the Company's desire to retain these individuals. Also on December 19, 2007, the Board discussed issues related to employee retention. The Compensation Committee then presented its recommendations to the Board for equity awards under the Incentive and Retention Plan. The Board discussed the Compensation Committee's recommendations and recommended that all such awards, and the documentation related thereto, be approved by the Compensation Committee based upon the closing price of the Company's stock on December 20, 2007.

On December 21, 2007, the Compensation Committee approved the awards recommended by the Board on December 19, 2007 and the terms of the letter agreements with each of Messrs. Filippis, Herbst, Johnson and Cohen. On December 21, 2007, each of Messrs. Filippis, Johnson, Herbst and Cohen entered into a letter agreement with the Company in which the Company agreed to grant him 411,356, 277,736, 189,724 and 145,276 shares of restricted common stock (the Phantom Awards), respectively, on the date of the 2008 annual meeting of Company's stockholders, subject to the approval of an increase to the number of shares of common stock reserved under the Company's 2006 Stock Option and Incentive Plan (the Option Plan). If a Sale Event (as defined in the Option Plan) occurs prior to stockholder approval, the entire award is settled in cash. On December 21, 2007, Mr. Kanouff was awarded 62,500 shares of restricted common stock (collectively with the Phantom Awards, the December Awards).

Employee Equity Compensation Plans***2005 Stock Option and Grant Plan***

Our 2005 Stock Option and Grant Plan, or 2005 Option Plan, was adopted by our Board of Directors and approved by our stockholders on March 31, 2005. In connection with the combination of Clayton Services and CFIS, the outstanding options held by employees and officers of each of Clayton Services and CFIS were converted into options under our 2005 Option Plan. The existing option plans for each of Clayton Services and CFIS were terminated in all respects. We reserved 7,398,236 shares of our common stock for the issuance of awards under the 2005 Option Plan.

The 2005 Option Plan is administered by our Compensation Committee or by our Board of Directors. The administrator of the 2005 Option Plan has full power and authority to select the participants to whom awards will be granted, to make any combination of awards to participants, to accelerate the exercisability or vesting of any award and to determine the specific terms and conditions of each award, subject to the provisions of the 2005 Option Plan.

The 2005 Option Plan permits us to make grants of incentive stock options, non-qualified stock options, restricted stock awards and unrestricted stock awards to officers, employees, directors, consultants and other key persons. Stock options granted under the 2005 Option Plan have a maximum term of ten years from the date of grant and incentive stock options have an exercise price of no less than the fair market value of the common stock on the date of grant.

Upon the completion of our initial public offering on March 29, 2006, the vesting term for all options granted under the 2005 Option Plan was automatically accelerated by one year. In the event of a merger, sale or dissolution of Clayton, or a similar sale event, all stock options will become fully exercisable and all other awards granted under the 2005 Option Plan will become fully vested and non-forfeitable unless the parties to the transaction, in their discretion, provide for appropriate substitutions or assumptions of outstanding awards. The 2005 Option Plan will automatically terminate upon the consummation of the sale event, unless the parties, in their sole discretion, provide otherwise.

In connection with the adoption of our 2006 Stock Option and Incentive Plan, which is discussed in detail below, our Board of Directors determined not to grant any further awards under the 2005 Option Plan.

2006 Stock Option and Incentive Plan

Our 2006 Stock Option and Incentive Plan, or 2006 Option Plan, was adopted by our Board of Directors and approved by our stockholders in March 2006. The 2006 Option Plan permits us to make grants of incentive stock options, non-qualified stock options, stock appreciation rights, deferred stock awards, restricted stock awards, unrestricted stock awards, and dividend equivalent rights. We reserved 1,814,130 shares of our common stock for the issuance of awards under the 2006 Option Plan. This number is subject to adjustment in the event of a stock

split, stock dividend or other change in our capitalization. Generally, shares that are forfeited or canceled from awards under the 2006 Option Plan also will be available for future awards.

The 2006 Option Plan is administered by either a committee of at least two non-employee directors, or by our full Board of Directors. The administrator of the 2006 Option Plan has full power and authority to select the participants to whom awards will be granted, to make any combination of awards to participants, to accelerate the exercisability or vesting of any award and to determine the specific terms and conditions of each award, subject to the provisions of the 2006 Option Plan.

All full-time and part-time officers, employees, non-employee directors and other key persons (including consultants and prospective employees) are eligible to participate in the 2006 Option Plan, subject to the discretion of the administrator. There are certain limits on the number of awards that may be granted under the 2006 Option Plan. For example, no more than 750,000 shares of stock may be granted in the form of stock options or stock appreciation rights to any one individual during any one-calendar-year period.

The exercise price of stock options awarded under the 2006 Option Plan may not be less than the fair market value of the common stock on the date of the option grant and the term of each option may not exceed ten years from the date of grant. The administrator will determine at what time or times each option may be exercised and, subject to the provisions of the 2006 Option Plan, the period of time, if any, after retirement, death, disability or other termination of employment during which options may be exercised.

To qualify as incentive options, stock options must meet additional federal tax requirements, including a \$100,000 limit on the value of shares subject to incentive options which first become exercisable in any one calendar year, and a shorter term and higher minimum exercise price in the case of certain large stockholders. No incentive stock option awards may be granted under the 2006 Option Plan after March 2016.

Stock appreciation rights may also be granted under our 2006 Option Plan. Stock appreciation rights allow the recipient to receive the appreciation in the fair market value of our common stock between the exercise date and the date of grant. The administrator determines the terms of stock appreciation rights, including when such rights become exercisable and whether to pay the increased appreciation in cash or with shares of our common stock, or a combination thereof. The exercise price of stock appreciation rights granted under our 2006 Option Plan may not be less than the fair market value of our common stock on the date of grant.

Restricted stock may also be granted under our 2006 Option Plan. Restricted stock awards are shares of our common stock that vest in accordance with terms and conditions established by the administrator. The administrator will determine the number of shares of restricted stock granted to any recipient. The administrator may impose whatever vesting conditions it determines to be appropriate. For example, the administrator may set restrictions based on the achievement of specific performance goals. Shares of restricted stock that do not vest are subject to our right of repurchase or forfeiture.

Deferred and unrestricted stock awards may also be granted under our 2006 Option Plan. Deferred stock awards are units entitling the recipient to receive shares of stock paid out on a deferred basis, and subject to such restrictions and conditions, as the administrator shall determine. Certain grantees, including directors, will be permitted to defer their compensation and receive deferred stock awards in lieu of current cash compensation. All deferred compensation will be structured to meet the requirements of Section 409A of the Internal Revenue Code. Our 2006 Option Plan also gives the administrator discretion to grant stock awards free of any restrictions.

Edgar Filing: CLAYTON HOLDINGS INC - Form 10-K/A

Dividend equivalent rights may be granted under our 2006 Option Plan. Dividend equivalent rights are awards entitling the grantee to current or deferred payments equal to dividends on a specified number of shares of stock. Dividend equivalent rights may be settled in cash or shares and subject to other conditions, as the administrator shall determine.

Unless the administrator provides otherwise, our 2006 Option Plan does not allow for the transfer of awards and only the recipient of an award may exercise an award during his or her lifetime.

In the event of a merger, sale or dissolution of Clayton, or a similar sale event, all stock options and stock appreciation rights granted under the 2006 Option Plan will automatically become fully exercisable and all other awards granted under the 2006 Option Plan will become fully vested and non-forfeitable, except that all shares of restricted stock granted to date may be assumed or substituted for similar awards, if the parties to the transaction, in their discretion, so provide. In addition, upon the effective time of any such sale event, the 2006 Option Plan and all awards will terminate unless the parties to the transaction, in their discretion, provide for appropriate substitutions or assumptions of outstanding awards.

Our Board of Directors may amend or discontinue the 2006 Option Plan at any time and the administrator may amend or cancel any outstanding award for the purpose of satisfying changes in law or for any other lawful purpose. No such amendment may adversely affect the rights under any outstanding award without the holder's consent. Other than in the event of a necessary adjustment in connection with a change in the company's stock or a merger or similar transaction, the administrator may not reprice or otherwise reduce the exercise price of outstanding stock options. Further, amendments to the 2006 Option Plan will be subject to approval by our stockholders if the amendment (i) increases the number of shares available for issuance under the 2006 Option Plan, (ii) expands the types of awards available under, the eligibility to participate in, or the duration of, the plan, (iii) materially changes the method of determining fair market value for purposes of the 2006 Option Plan; (iv) is required by the Nasdaq Global Market rules, or (v) is required by the Internal Revenue Code to ensure that incentive options are tax-qualified.

Option Exercises and Stock Vested

No named executive officers exercised any options or had any restricted stock vest in 2007.

Potential Payments Upon Termination or Change of Control.

We have entered into certain agreements and maintain certain plans that may require us to make certain payments and/or provide certain benefits to the named executive officers in the event of a termination of their employment or a change of control of Clayton. The following tables and narrative disclosure summarize the potential payments to each named executive officer assuming that one of the events listed in the tables below occurs. The tables assume that the event occurred on December 31, 2007, the last day of our fiscal year.

Stock Options and Restricted Stock

Stock options and restricted stock held by our named executive officers fully vest upon a change of control, unless, under specific circumstances, provision for their assumption or continuation is made. The following tables assumed that the stock options and restricted stock are not assumed or continued.

Frank P. Filippis. In the case of termination by Mr. Filippis for good reason, or by us without cause, he will receive a lump sum payment equal to 200% of the sum of his annual base salary and target bonus as in effect on the date of termination. Additionally, Mr. Filippis will receive payment of the pro rata portion of his target bonus for the year in which the termination occurs, and the partially employer-subsidized continuation of group health plan benefits for two years. If Mr. Filippis' employment terminates because of his death or disability, he, or his estate, will receive the pro rata portion of his target bonus earned through such termination date. In some circumstances involving a change of control, all outstanding options held by Mr. Filippis will vest and become exercisable. Finally, in the event that any severance payments made to Mr. Filippis would be subject to certain excise taxes by the Internal Revenue Service, we will gross-up the payments such that the net amount received by Mr. Filippis, after any such excise taxes are incurred, is equal to the severance amount payment.

Mr. Filippis also entered into an employee confidentiality and non-competition agreement with us concurrently with the execution of his employment agreement, whereby Mr. Filippis agreed not to compete with us, or solicit or divert our clients for a period ending two years following the termination of his employment with us for any reason. Additionally, Mr. Filippis agreed to refrain from soliciting or hiring any of our employees for a period of one year following the termination of his employment with us for any reason.

Total	\$ 4,585,474	\$ 4,585,474	\$ 7,045,061

(1) Under the terms of his employment agreement with us, Mr. Filipps may terminate his employment for "Good Reason" at any time during the one-year period following a change of control. This Change of Control Payment assumes Mr. Filipps invokes this provision of his employment agreement.

(2) Under the terms of the December Awards, if Mr. Filipps' employment is terminated by us without cause or by him with good reason, then the award would be settled in cash in lieu of restricted shares, and he shall be entitled to the value of the vested portion plus an additional 12 months of vesting under the award. Upon a change of control of the Company, the award would be settled in cash in lieu of restricted shares, and he shall be entitled to the value of the entire award (vested and unvested).

(3) The estimated Tax Gross-up payment is based, in part, on Mr. Filippis' 2006 compensation, which is disproportionately low, thereby resulting in an estimated Tax Gross-up payment which may be disproportionately high.

David Keith Johnson. In the event that Mr. Johnson's employment is terminated by us without cause or by Mr. Johnson for good reason, then Mr. Johnson is entitled to receive a lump-sum payment equal to his annual base salary and all medical and health benefits for 12 months following the termination date. In the event Mr. Johnson's employment is terminated within 18 months after the consummation of a change of control by us without cause or by him for good reason, he will be entitled to receive a lump-sum payment equal to 200% of his annual base salary and target incentive bonus in effect on the date of termination. In a change of control, all outstanding options held by Mr. Johnson will vest and become exercisable and, in some circumstances, all shares of restricted stock will become fully vested and nonforfeitable.

Mr. Johnson also entered into an employee confidentiality and non-competition agreement with us concurrently with the execution of his employment agreement, whereby Mr. Johnson agreed not to compete with us, or solicit or divert our clients for a period ending one year following the termination of his employment with us for any reason or for two years following a change of control. Additionally, Mr. Johnson agreed to refrain from soliciting or hiring any of our employees for a period of one year following the termination of his employment with us for any reason or for two years following a change of control.

Frederick C. Herbst. Mr. Herbst is an employee at-will and his employment agreement may be terminated by either party upon 30 days written notice. Notwithstanding the at-will nature of his employment, if his employment is terminated by us without cause or by Mr. Herbst for good reason, Mr. Herbst is entitled to severance payments equal to one year's salary payable over the twelve months following his termination and continuation of his group health plan benefits so long as he is receiving severance payments. Discussion of Director Compensation

In January 2007, the Board of Directors adopted a Non-Employee Directors Compensation Plan, under which the Company's non-employee directors will receive cash and equity awards for their service to the Company. Our non-employee directors each receive an annual fee from us of \$30,000. In addition, we pay our non-employee directors a fee of \$1,000 for each in-person board of directors meeting they attend and \$500 for each telephonic board of directors meeting they attend. The chairperson of our Audit Committee receives an additional annual fee of \$10,000, and the chairperson of each of our Compensation Committee and Nominating and Corporate Governance Committee receives an additional annual fee of \$5,000. We also reimburse non-employee directors for reasonable expenses incurred in connection with attending board of directors and committee meetings. The equity awards under the Non-Employee Directors Compensation Plan will consist of initial award of \$60,000 worth of restricted deferred stock units and subsequent annual awards of \$30,000 worth of restricted deferred stock units, pro rated for years of partial service. All the restricted deferred stock units granted under our Non-Employee Directors Compensation Plan vest generally one year from the award date.

Directors who are also our employees receive no additional compensation for their services as directors. In addition, directors who are affiliated with TA Associates have agreed to forego board and board committee compensation, including the equity compensation described below, for so long as TA Associates, Inc. beneficially owns more than 10% of our common stock.

Item 13.

Certain Relationships and Related Transactions, and Director Independence

Transactions with Related Persons

In accordance with its charter, the Audit Committee conducts an appropriate review of all related party transactions for potential conflict of interest situations on an ongoing basis, and the approval of the Audit Committee is required for all related party transactions.

Edgar Filing: CLAYTON HOLDINGS INC - Form 10-K/A

Harvey Allon, the husband of Margaret Sue Allon, a former director through February 29, 2008, is a Managing Director of Braddock Financial Corporation (Braddock), an investment firm. Clayton Fixed Income Services has provided credit risk management services to Braddock since 1999. All members of our Board of Directors, including the members of our Audit Committee, are aware of this pre-existing relationship. Any services we provide to Braddock are on standard terms and negotiated at arms length. During 2007, we received approximately \$203,000 in revenue from Braddock for these services. Our provision of services to Braddock in 2007 was ratified by the Audit Committee. In connection with the resignation of Ms. Allon from our Board of Directors, the provision of continued services to Braddock no longer constitute transactions with a related party.

Independence of Members of the Board of Directors

The Board of Directors has determined that Messrs. Gilbert, Libman, Raiter, Skelly and Sonderby are independent within the meaning of the director independence standards of both Nasdaq and the SEC, including Rule 10A-3(b)(1) under the Exchange Act. Mr. Kafker is independent within the meaning of the Nasdaq independence

standards, but not the SEC standards. The Board of Directors has determined that each of the committees of the Board of Directors is currently independent within the meaning of Nasdaq's and the SEC's director independence standards.

Executive Sessions of Independent Directors

Non-management members of the Board of Directors typically meet without the employee director of the Company following regularly scheduled in-person meetings of the Board of Directors. Executive sessions of the independent directors are held at least one time each year following regularly scheduled in-person meetings of the Board of Directors. These executive sessions include only those directors who meet the independence requirements promulgated by Nasdaq, and Mr. Kafker is responsible for chairing these executive sessions.

Item 14. Principal Accounting Fees and Services

Matters Concerning Our Independent Auditors

The Audit Committee charter contains procedures for the pre-approval of audit and non-audit services (the "Pre-Approval Policy") to ensure that all audit and permitted non-audit services to be provided to the Company have been pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of our independent registered public accounting firm for specific audit and non-audit services, except that pre-approval of non-audit services is not required if the de minimus provisions of Section 10A(i)(1)(B) of the Exchange Act are satisfied. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit Committee before it may be provided by our independent registered public accounting firm. All of the audit-related, tax and all other services provided by Grant Thornton LLP to the Company in 2007 were approved by the Audit Committee by means of specific pre-approvals or pursuant to the Pre-Approval Policy. All non-audit services provided in 2007 were reviewed with the Audit Committee, which concluded that the provision of such services by Grant Thornton LLP was compatible with the maintenance of that firm's independence in the conduct of its auditing functions.

Fees Billed by Grant Thornton LLP

The following table shows the aggregate fees for professional services rendered by Grant Thornton LLP to the Company and its predecessor for the years ended December 31, 2007 and December 31, 2006.

Tax Fees			219,514
All Other Fees			
Total	\$ 1,349,025	\$	1,179,175

Audit Fees

Audit Fees for both years consist of fees for professional services associated with the annual consolidated financial statements audit, review of the interim consolidated financial statements and services that are normally provided by Grant Thornton LLP in connection with statutory audits required in regulatory filings.

Audit-Related Fees

Audit-Related Fees represent fees primarily for use of accounting research software in 2007 and professional services rendered in reviewing the Company's internal controls in accordance with Statements on Auditing Standards No. 70 in 2006.

Tax Fees

Tax Fees consist of fees for professional services rendered for assistance with federal and state tax compliance.
