Report of Independent Registered Public Accounting Firm

Plan Administrator

Hewlett-Packard Company 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of Hewlett-Packard Company 401(k) Plan as of December 31, 2007 and 2006, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2007 and 2006, and the changes in its net assets available for benefits for the year ended December 31, 2007, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2007, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements

December 31, 2007

1. Description of the Plan

The following brief description of the Hewlett-Packard Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Hewlett-Packard Company (the Company or HP) and designated domestic subsidiaries who are on the U.S. payroll and who are employed as regular full-time or regular part-time or limited-term employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

In May 2007, the Investment Review Committee approved changes to the Plan's investment lineup, including elimination of three of the Tier 1 funds, creation of ten Target Retirement Date Funds to replace the eliminated Tier 1 funds, and changing the default fund for automatic enrollment from the Stable Value Fund to the appropriate target date fund based on the participant's expected retirement date at age 65. The changes were implemented on September 4, 2007.

Assets of the Plan are invested in a three-tier investment structure. Tier 1 includes 1 ready-made portfolio, i.e., the Conservative Portfolio, and 10 Target Retirement Date Funds to be utilized based on the employee's current age and anticipated retirement date at age 65. Tier 2 includes 14 institutional funds in a range of asset classes. Tier 3 includes 16 brand-name mutual funds spanning several investment categories. Additionally, the Plan offers Company common stock as an investment option. All investments in participant accounts are participant-directed.

The Plan includes a non-leveraged employee stock ownership plan (the ESOP) within the meaning of Internal Revenue Code (the Code) Section 4975(e)(7). The ESOP is maintained as part of the Plan and is designed to invest primarily in the Company's common stock. The purpose of the ESOP is to permit participants the option of having dividends on the Company's common stock re-invested in the Plan or paid directly to them in cash. Participants in the Plan who were formerly participants in the Compaq Computer Corporation 401(k) Investment Plan, but who did not become employees of the Company subsequent to the acquisition of Compaq Computer Corporation in May 2002 are not eligible to participate in the ESOP.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Contributions

As soon as administratively feasible, normally about 15 days after the employee's employment start date, employees are automatically enrolled in the Plan at a 3% contribution rate, in one of the ten Target Retirement Date Funds based on the employee's current age and anticipated retirement age. Prior to the implementation of the Target Retirement Date Funds, the employees were automatically enrolled in the Stable Value Fund.

Participants may annually contribute, on a pretax basis, up to 50% of their eligible compensation, as defined by the Plan. Contributions are subject to annual deductibility limits specified under the Code. The annual limitation was \$15,500 for 2007.

Contributions can be made as whole or fractional percentages of pay. Employees can choose pre-tax contributions, after-tax Roth 401(k) contributions, or a combination of the two.

Effective January 1, 2007, after-tax Roth 401(k) contributions were permitted to be made to the Plan. The Plan also accepts rollover contributions from a Roth deferral account to the Plan as described in Code section 402A(e)(1) and only to the extent the rollover is permitted under the rules of section 402(c) of the Code. After-tax Roth 401(k) contributions shall be treated as deferred contributions for all purposes under the Plan, including Company matching contributions.

Participants who are age 50 or older by the end of the plan year can contribute an additional \$5,000 above the annual limitation. Catch-up contributions can be pre-tax contributions, after-tax Roth 401(k) contributions, or a combination of the two. These catch-up contributions are not eligible for the Company match. Participants may also make rollover contributions of amounts representing distributions from other qualified defined benefit or defined contribution plans.

Effective January 1, 2006, employees with 62 or more points, calculated as age plus years of service, receive Company matching contributions equal to 100% of the first 3% and 50% of the next 2% of the eligible compensation the participant contributes to the Plan. Effective January 1, 2006, employees with fewer than 62 points, calculated as age plus years of service, as well as participants first hired or rehired on and after January 1, 2006, are eligible for an enhanced Company matching contribution equal to 100% of the first 6% of the eligible compensation the participant contributes to the Plan.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Vesting

Participants are fully vested at all times with regard to their contributions and earnings thereon.

Participants who became employees before January 1, 2006 are also one hundred percent vested in their Company matching contributions and earnings thereon at all times.

Effective January 1, 2006, all new employees are subject to a three-year cliff vesting schedule with regard to Company matching contributions. As a result, participants with no prior HP service who enter the Plan on or after January 1, 2006, do not vest in Company matching contributions until the earlier of earning three years of credited service, attaining age 65, death before termination of employment, or becoming eligible for disability benefits under the Company's long-term disability benefits program, at which time they will become 100% vested in their Company matching contributions and earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (i) Company contributions and (ii) Plan earnings and losses. Allocations are determined in accordance with the provisions of the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Participant Loans

The Plan offers two types of loans, namely general-purpose loans and primary residence loans. The repayment period for a general-purpose loan may not exceed five years, and the repayment period for a primary residence loan may not exceed 15 years.

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loans are secured by the participant's account and bear interest at a rate equal to the prevailing prime rate plus 1%. Principal and interest is paid ratably through payroll deductions.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Payment of Benefits

On termination of service, death or retirement, participants may elect to receive a lump-sum amount equal to the value of their account. Lump-sum payments may be made in cash or shares of stock for distribution from the Company Stock Fund. Hardship distributions and in-service withdrawals are permitted if certain criteria are met. Participants may also, at any time, withdraw all or part of their rollover accounts.

Administrative and Investment Management Expenses

Certain fees and expenses of the Plan for legal, accounting, and other administrative services are paid directly by the Company on behalf of the Plan. Other administrative fees and all investment management fees are charged to individual participants' accounts. Certain administrative fees and investment management fees related to Tiers 1 and 2 investment options are paid directly to the Plan's investment managers and are reported separately on the statement of changes in net assets available for benefits. Investment management fees charged by the Tier 3 mutual funds are deducted from the net asset values of the mutual funds and are, therefore, recorded as a component of the net realized and unrealized appreciation in fair value of the Plan's investments.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting and New Accounting Pronouncement

The financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and Statement of Position 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting and New Accounting Pronouncement (continued)

the Plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive guaranteed investment contracts (GICs) and synthetic investment contracts (synthetic GICs). As required by the FSP, the statement of net assets available for benefits presents the fair value of the investment contracts, as well as an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The fair value of the GICs are calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The underlying investments of the synthetic GICs are valued at quoted redemption values on the last business day of the Plan's year-end. Wrapper contracts are valued using a replacement cost methodology as of the last day of the plan year. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses.

In September 2006, the Financial Accounting Board issued Statement of Financial Accounting Standards No. 157 (SFAS No. 157), *Fair Value Measurements*. SFAS No. 157 establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning November 15, 2007. The Plan will adopt the provisions of SFAS No. 157 for its December 31, 2008 financial statements. The Plan is currently evaluating the potential impact of adoption of SFAS No. 157; however, management does not believe adoption will have a material impact on the Plan's financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The shares of the common collective trust funds are valued at the unit prices established by the funds' sponsors on the last business day of the plan year, based on the fair value of the assets underlying the funds. Short-term investments are valued at cost plus accrued interest, which approximates fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last day of the plan year. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)**Use of Estimates**

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

The fair values of individual investments that represent 5% or more of the fair value of the Plan's net assets are as follows:

	2007	December 31	2006
Hewlett-Packard Company common stock	\$ 1,395,814,908	\$	1,273,215,440
Vanguard Employee Benefit Index Fund	1,047,528,380		1,053,361,470
Vanguard PRIMECAP Fund	807,456,538		791,767,220
Fidelity Contrafund	738,930,008		638,892,576
Dwight Target 2 Fund	609,625,823		575,468,656
Fidelity Magellan Fund	608,536,858		578,461,920

For the year ended December 31, 2007, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated in fair value as determined by quoted market prices as follows:

Net realized and unrealized appreciation in fair value of investments:	
Registered investment companies	\$ 11,202,359
Common stock	135,292,224
Company common stock	272,202,448
Common collective trust funds	121,782,554
Corporate debt	104,851
Total net realized and unrealized appreciation in fair value of investments	\$ 540,584,436

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

4. Guaranteed and Synthetic Investment Contracts

The Plan offers a Stable Value Fund, which invests in GICs and synthetic GICs, to provide participants with a stable, fixed-rate return and protection of principal from market changes. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rates are based on a formula agreed upon with the issuer. The interest rate paid by the issuer or contract rate may be fixed over the life of the contract or adjusted periodically, but cannot fall below 0%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include amendments to the plan document, changes to Plan's prohibition of competing investment options, complete or partial termination of the Plan, the failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, the redemption of all or a portion of the Plan's interest in the investment at the direction of the Company, or delivery of any communication to participants designed to influence participants not to invest in the Stable Value Fund. The Company does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

GICs generally do not permit issuers to terminate the contract prior to the scheduled maturity date. Wrapper contracts, a component of synthetic GICs generally allow the issuer to terminate upon notice at any time for market value. Wrap contracts generally also contain provisions to allow the Plan to elect to convert the wrapped portfolio to a declining direction strategy upon termination by the issuer. Such provisions are intended to result in contract value equaling market value by the ultimate termination date.

Average yields earned on the Stable Value Fund are as follows:

	Year Ended December 31	
	2007	2006
Based on actual earnings	5.52%	5.47%
Based on interest rate credited to participants	5.12%	5.23%

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

5. Forward Foreign Currency Contracts

The Plan began using forward foreign currency contracts in 2006, as the Plan holds investments denominated in foreign currencies. Forward foreign currency contracts are generally utilized to hedge a portion of the currency exposure that results in those investments denominated in foreign currencies. The forward foreign currency contracts are not designated as hedging instruments.

Forward foreign currency contracts are generally marked-to-market at the prevailing forward exchange rate of the underlying currencies and the difference between contract value and market value is recorded as unrealized appreciation (depreciation) in net assets. When the forward foreign currency contract is closed, the Plan transfers the unrealized appreciation (depreciation) to a realized gain (loss) equal to the change in the value of the forward foreign currency contract when it was opened and the value at the time it was closed or offset.

Certain risks may arise upon entering into a forward foreign currency contract from the potential inability of the counterparties to meet the terms of their contracts. Additionally, when utilizing forward foreign currency contracts to hedge, the Plan gives up the opportunity to profit from favorable exchange rate movements during the term of the contract. As of December 31, 2007 and 2006, the value of currencies under forward foreign currency contracts represented less than 1% of net assets, respectively.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 22, 2000, stating that the Plan is qualified under Section 401(a) of the Code, and therefore the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

7. Related Party Transactions

Transactions in shares of the Company's common stock qualify as party-in-interest transactions under the provisions of ERISA. During 2007, the Plan made purchases of approximately \$124,793,000 and sales of approximately \$275,444,000 of the Company's common stock.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2007	December 31	2006
Net assets available for benefits per the financial statements	\$ 11,140,328,140	\$	10,251,307,406
Less: Adjustment to fair value from contract value related to fully benefit-responsive investment contracts	(2,332,025)		(14,872,081)
Net assets available for benefits per the Form 5500	\$ 11,137,996,115	\$	10,236,435,325

The following is a reconciliation of the net investment income per the financial statements for the year ended December 31, 2007 to the Form 5500:

	Year Ended December 31, 2007
Net investment income per the financial statements	\$ 1,099,109,736
Less: Current year adjustment between fair value and contract value related to fully benefit responsive investment contracts	(2,332,025)
Add: Prior year adjustment between fair value and contract value related to fully benefit responsive investment contracts	14,872,081
Net investment income per Form 5500	\$ 1,111,649,792

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

10. Subsequent Events

Effective January 1, 2008, all participants under the Plan were eligible for a Company matching contribution equal to 100% of the first 6% of the eligible compensation the participant contributes to the Plan.

The Investment Review Committee recently evaluated the Plan's existing fund offerings and decided to remove the Fidelity Growth and Income Portfolio from the investment options in the Extended Choices. The change will be effective after the close of the market on April 25, 2008. The Fidelity Growth and Income Portfolio will be replaced with a Tier 2 fund, the Large Cap Core Stock Fund.
