Disclaimer

This release contains certain forward-looking statements relating to the proposed acquisition by Novartis of shares in Speedel and to the respective businesses of Novartis and Speedel. Such forward-looking statements are not historical facts and can generally be identified by the use of forward-looking terminology such as *to receive*, *will*, *expected*, or similar expressions, or by express or implied discussions regarding the potential completion of the proposed acquisition of Speedel by Novartis; potential future sales or earnings of Novartis; or by discussions of strategy, plans, expectations or intentions or potential synergies, strategic benefits or opportunities that may result from the proposed acquisition. You should not place undue reliance on these statements. Such forward-looking statements reflect the current plans, expectations, objectives, intentions or views of Novartis with respect to future events and involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from any future results, performance or achievements expressed or implied by such statements. In particular, there can be no guarantee that the proposed acquisition will be completed in the expected form or within the expected time frame or at all. Nor can there be any guarantee that Novartis will achieve any particular future financial results or future growth rates or that Novartis will be able to realize any of the potential synergies, strategic benefits or opportunities as a result of the proposed acquisition. Among other things, the expectations of Novartis could be affected by unexpected regulatory actions or delays or government regulation generally; Novartis' ability to successfully merge the two companies and retain key personnel; unexpected clinical trial results, including unexpected new clinical data and unexpected additional analysis of existing clinical data; Novartis' ability to obtain or maintain patent or other proprietary intellectual property protection; competition in general; government, industry and general public pricing pressures; the impact that the foregoing factors

could have on the values attributed to the Novartis Group's assets and liabilities as recorded in the Group's consolidated balance sheet, as well as other risks and factors referred to in Novartis AG's Forms 20-F on file with the US Securities and Exchange Commission. Novartis is providing the information in this release as of this date and does not undertake any obligation to update any forward-looking statements as a result of new information, future events or otherwise.
