Legg Mason Partners Fund Advisor, LLC (LMPFA) is the Fund's investment manager. Western Asset Management Company (Western Asset) and Western Asset Management Company Limited (Western Asset Limited) are the Fund's subadvisers. LMPFA, Western Asset and Western Asset Limited are wholly-owned subsidiaries of Legg Mason, Inc.

Letter from the chairman

Dear Shareholder,

Economic growth in the U.S. was mixed during the six-month reporting period ended November 30, 2008. Looking back, during the fourth quarter of 2007, U.S. gross domestic product (GDP) declined 0.2%. This weakness was triggered by problems in the housing market, an ongoing credit crunch and soaring oil and food prices. The economy then expanded 0.9% and 2.8% during the first and second quarters of 2008, respectively. This rebound was due, in part, to rising exports that were buoyed by a weakening U.S. dollar and solid consumer spending, which was aided by the government's tax rebate program. The dollar's rally and the end of the rebate program, combined with other strains on the economy, then caused GDP to take a step backward in the third quarter of 2008. According to the U.S. Department of Commerce, third quarter 2008 GDP declined 0.5%.

In early December 2008, after the reporting period ended, the National Bureau of Economic Research (NBER) announced that a recession had begun in December 2007. While one definition of a recession is based on having two consecutive quarters of negative growth (which has not yet occurred), the NBER determined that a recession had already started using its definition, which is based on a significant decline in economic activity spread across the economy, lasting more than a few months, normally visible in production, employment, real income and other indicators.

Regardless of how one defines a recession, it certainly has felt like we are in the midst of an economic contraction. Consumer spending, which represents approximately two-thirds of GDP, has fallen sharply. During November 2008, sales at U.S. retailers experienced their largest monthly decline in nearly 40 years. In terms of the job market, the U.S. Department of Labor reported that payroll employment declined in each of the 12 months of 2008. During 2008 as a whole, 2.6 million jobs were lost, the largest annual decline since World War II ended in 1945. In addition, at the end of 2008, the unemployment rate had risen to 7.2%, its highest level since January 1993.

Ongoing issues related to the housing and subprime mortgage markets and seizing credit markets prompted the Federal Reserve Board (Fed)ii to take

Western Asset Global High Income Fund Inc. I

Letter from the chairman *continued*

aggressive and, in some cases, unprecedented actions. Beginning in September 2007, the Fed reduced the federal funds rateⁱⁱⁱ from 5.25% to 4.75%. This marked the first such reduction since June 2003. The Fed then reduced the federal funds rate on six additional occasions through April 2008, bringing the federal funds rate to 2.00%. The Fed then shifted gears in the face of mounting inflationary prices and a weakening U.S. dollar. At its meetings in June, August and September 2008, the Fed held rates steady. Then, on October 8, 2008, in a global coordination effort with six central banks around the world, interest rates were cut in an attempt to reduce the strains in the global financial markets. At that time, the Fed lowered the federal funds rate from 2.00% to 1.50%. The Fed again cut rates from 1.50% to 1.00% at its regularly scheduled meeting on October 29, 2008. On December 16, 2008, after the reporting period ended, the Fed cut rates to a range of zero to 0.25%, the lowest level since the Fed started publishing the federal funds rate in 1990. In conjunction with its December meeting, the Fed stated that it will employ all available tools to promote the resumption of sustainable economic growth and to preserve price stability. In particular, the Committee anticipates that weak economic conditions are likely to warrant exceptionally low levels of the federal funds rate for some time.

In addition to the interest rate cuts, the Fed took several actions to improve liquidity in the credit markets. In March 2008, the Fed established a new lending program allowing certain brokerage firms, known as primary dealers, to also borrow from its discount window. Also in March, the Fed played a major role in facilitating the purchase of Bear Stearns by JPMorgan Chase. In mid-September 2008, it announced an \$85 billion rescue plan for ailing AIG and pumped \$70 billion into the financial system as Lehman Brothers' bankruptcy and mounting troubles at other financial firms roiled the markets.

The U.S. Department of the Treasury has also taken an active role in attempting to stabilize the financial system, as it orchestrated the government's takeover of mortgage giants Fannie Mae and Freddie Mac in September 2008. In addition, on October 3, 2008, the Treasury's \$700 billion Troubled Asset Relief Program (TARP) was approved by Congress and signed into law by President Bush. As part of TARP, the Treasury had planned to purchase bad loans and other troubled financial assets. However, in November 2008, Treasury Secretary Paulson said, "Our assessment at this time is that this is not the most effective way to use TARP funds, but we will continue to examine whether targeted forms of asset purchase can play a useful role, relative to other potential uses of TARP resources, in helping to strengthen our financial system and support lending."

II Western Asset Global High Income Fund Inc.

During the six-month reporting period ended November 30, 2008, both short- and long-term Treasury yields experienced periods of extreme volatility. Earlier in the year, investors were focused on the subprime segment of the mortgage-backed market. These concerns broadened, however, to include a wide range of financial institutions and markets. As a result, other fixed-income instruments also experienced increased price volatility. This unrest triggered several flights to quality, at which times Treasury yields moved lower (and their prices higher), while riskier segments of the market saw their yields move higher (and their prices lower). This was particularly true toward the end of the reporting period, as the turmoil in the financial markets and sharply falling stock prices caused investors to flee securities that were perceived to be risky, even high-quality corporate bonds and high-grade municipal bonds. On several occasions, the yield available from short-term Treasuries fell to nearly zero, as investors were essentially willing to forgo any return potential in order to access the relative safety of government-backed securities. During the six months ended November 30, 2008, two-year Treasury yields fell from 2.66% to 1.00%. Over the same time frame, 10-year Treasury yields moved from 4.06% to 2.93%. Looking at the six-month period as a whole, the overall bond market, as measured by the Barclays Capital U.S. Aggregate Index^{iv}, returned 0.24%.

Periods of increased investor risk aversion caused the high-yield bond market to produce extremely poor results over the six months ended November 30, 2008. While the asset class modestly rallied on several occasions, it was not enough to overcome numerous flights to quality. In particular, seizing credit markets, coupled with fears of a global recession and rising corporate bond default rates, sent high-yield bond prices sharply lower in September, October and November 2008. During those three months, the Citigroup High Yield Market Index^v (the Index) returned -8.01%, -15.34% and -9.75%, respectively. Over the six months ended November 30, 2008, the Index returned -32.87%.

Despite periods of extreme market volatility, emerging market debt prices largely treaded water during the first half of the reporting period. During that time, the asset class was supported by solid demand, superior growth rates in emerging market countries, increased domestic spending and rating upgrades in countries such as Brazil. However, fears of a global recession, falling commodity prices and seizing credit markets sent emerging market debt prices sharply lower in September and October 2008. During those months, the JPMorgan Emerging Markets Bond Index Global (EMBI Global)^{vi} returned -6.84% and -14.89%, respectively. Over the six months ended November 30, 2008, the EMBI Global returned -18.78%.

Letter from the chairman *continued*

Performance review

For the six months ended November 30, 2008, Western Asset Global High Income Fund Inc. returned -34.77% based on its net asset value (NAV)^{vii} and -43.05% based on its New York Stock Exchange (NYSE) market price per share. The Fund's unmanaged benchmarks, the Barclays Capital U.S. Aggregate Index, the Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index^{viii} and the EMBI Global, returned 0.24%, -31.73% and -18.78%, respectively, over the same time frame. The Lipper Global Income Closed-End Funds Category Average^{ix} returned -20.52% for the same period. Please note that Lipper performance returns are based on each fund's NAV.

During the six-month period, the Fund made distributions to shareholders totaling \$0.51 per share, which may have included a return of capital. The performance table shows the Fund's six-month total return based on its NAV and market price as of November 30, 2008. **Past performance is no guarantee of future results.**

PERFORMANCE SNAPSHOT as of November 30, 2008 (unaudited)

| | |
|-----------------------|--------------------------|
| | 6-MONTH TOTAL RETURN* |
| PRICE PER SHARE | (not annualized) |
| \$8.32 (NAV) | -34.77% |
| \$6.52 (Market Price) | -43.05% |

All figures represent past performance and are not a guarantee of future results.

***Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.**

A special note regarding increased market volatility

In recent months, we have experienced a series of events that have impacted the financial markets and created concerns among both novice and seasoned investors alike. In particular, we have witnessed the failure and consolidation of several storied financial institutions, periods of heightened market volatility, and aggressive actions by the U.S. federal government to steady the financial markets and restore investor confidence. While we hope that the worst is over in terms of the issues surrounding the credit and housing crises, it is likely that the fallout will continue to impact the financial markets and the U.S. economy well into 2009.

Edgar Filing: WESTERN ASSET GLOBAL HIGH INCOME FUND INC. - Form N-CSRS

Like all asset management firms, Legg Mason has not been immune to these difficult and, in some ways, unprecedented times. However, today's challenges have only strengthened our resolve to do everything we can to

IV Western Asset Global High Income Fund Inc.

help you reach your financial goals. Now, as always, we remain committed to providing you with excellent service and a full spectrum of investment choices. And rest assured, we will continue to work hard to ensure that our investment managers make every effort to deliver strong long-term results.

We also remain committed to supplementing the support you receive from your financial advisor. One way we accomplish this is through our enhanced website, www.leggmason.com/cef. Here you can gain immediate access to many special features to help guide you through difficult times, including:

- Fund prices and performance
- Market insights and commentaries from our portfolio managers, and
- A host of educational resources.

During periods of market unrest, it is especially important to work closely with your financial advisor and remember that reaching one's investment goals unfolds over time and through multiple market cycles. Time and again, history has shown that, over the long run, the markets have eventually recovered and grown.

Information about your fund

Important information with regard to recent regulatory developments that may affect the Fund is contained in the Notes to Financial Statements included in this report.

Looking for additional information?

The Fund is traded under the symbol **EHI** and its closing market price is available in most newspapers under the NYSE listings. The daily NAV is available on-line under the symbol **XEHIX** on most financial websites. *Barron's* and *The Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites, as well as www.leggmason.com/cef.

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 6:00 p.m. Eastern Time, for the Fund's current NAV, market price and other information.

Letter from the chairman *continued*

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you meet your financial goals.

Sincerely,

R. Jay Gerken, CFA

Chairman, President and Chief Executive Officer

January 9, 2009

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

RISKS: An investment in the Fund is subject to investment risk, including the possible loss of the entire principal amount that you invest. The Fund may use derivatives, such as options and futures, which can be illiquid, may disproportionately increase losses and have a potentially large impact on Fund performance. Investing in foreign securities is subject to certain risks not associated with domestic investing, such as currency fluctuations, and changes in political and economic conditions. These risks are magnified in emerging or developing markets. High-yield bonds involve greater credit and liquidity risks than investment grade bonds. Leverage may magnify gains and increase losses in the Fund's portfolio.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

- i Gross domestic product (GDP) is the market value of all final goods and services produced within a country in a given period of time.
- ii The Federal Reserve Board (Fed) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.
- iii The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.

Edgar Filing: WESTERN ASSET GLOBAL HIGH INCOME FUND INC. - Form N-CSRS

- iv The Barclays Capital (formerly Lehman Brothers) U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.
- v The Citigroup High Yield Market Index is a broad-based unmanaged index of high-yield securities.
- vi The JPMorgan Emerging Markets Bond Index Global (EMBI Global) tracks total returns for U.S. dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities: Brady bonds, loans, Eurobonds and local market instruments.
- vii Net asset value (NAV) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund's market price as determined by supply of and demand for the Fund's shares.
- viii The Barclays Capital (formerly Lehman Brothers) U.S. Corporate High Yield 2% Issuer Cap Index is an index of the 2% Issuer Cap component of the Barclays Capital U.S. Corporate High Yield Index, which covers the U.S. dollar-denominated, non-investment grade, fixed-rate, taxable corporate bond market.
- ix Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. Returns are based on the six-month period ended November 30, 2008, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 16 funds in the Fund's Lipper category.

- * Non-income producing security.
Face amount denominated in U.S. dollars, unless otherwise noted.
- (a) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.
 - (b) Payment-in-kind security for which part of the income earned may be paid as additional principal.
 - (c) Security is currently in default.
 - (d) Variable rate security. Interest rate disclosed is that which is in effect at November 30, 2008.
 - (e) Security is valued in good faith at fair value by or under the direction of the Board of Directors (See Note 2).
 - (f) Illiquid security.
 - (g) On September 7, 2008, the Federal Housing Finance Agency placed Fannie Mae and Freddie Mac into Conservatorship.
 - (h) This security is traded on a to-be-announced (TBA) basis (See Note 1).
 - (i) All or a portion of this security is held at the broker as collateral for open futures contracts.
 - (j) Rate shown represents yield-to-maturity.
- # Aggregate cost for federal income tax purposes is substantially the same.

1 For the six months ended November 30, 2008 (unaudited).

2 Per share amounts have been calculated using the average shares method.

3 For the period July 28, 2003 (inception date) to May 31, 2004.

4 Initial public offering price of \$15.00 per share less offering costs and sales load totaling \$0.70 per share.

5 Amount represents less than \$0.01 per share.

6 Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

7 The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

8 The prior investment manager fully reimbursed the fund for losses incurred resulting from an investment transaction error. Without this reimbursement, total return would not have changed.

9 Annualized.

10 Reflects fee waivers and/or expense reimbursements.

Edgar Filing: WESTERN ASSET GLOBAL HIGH INCOME FUND INC. - Form N-CSRS

- 11 Excluding mortgage dollar roll transactions. If mortgage dollar roll transactions had been included, the portfolio turnover rate would have been 148%, 483%, 533%, 527%, 437%, and 285% for the six months ended November 30, 2008, the years ended May 31, 2008, 2007, 2006, 2005, and the period ended May 31, 2004, respectively.

See Notes to Financial Statements.

- 24 Western Asset Global High Income Fund Inc. 2008 Semi-Annual Report

Notes to financial statements (unaudited)

1. Organization and significant accounting policies

Western Asset Global High Income Fund Inc. (the Fund) was incorporated in Maryland and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's primary investment objective is high current income. The Fund's secondary objective is total return.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

(a) Repurchase agreements. When entering into repurchase agreements, it is the Fund's policy that its custodian or a third party custodian take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults, and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

(b) Financial futures contracts. The Fund may enter into financial futures contracts typically to hedge a portion of the portfolio. Upon entering into a financial futures contract, the Fund is required to deposit cash or securities as initial margin, equal in value to a certain percentage of the contract amount (initial margin deposit). Additional securities are also segregated up to the current market value of the financial futures contracts. Subsequent payments, known as variation margin, are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying financial instruments. For foreign currency denominated futures contracts, variation margins are not settled daily. The Fund recognizes an unrealized gain or loss equal to the fluctuation in the value. When the financial futures contracts are closed, a realized gain or loss is recognized equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contracts.

The risks associated with entering into financial futures contracts include the possibility that a change in the value of the contract may not correlate with the changes in the value of the underlying financial instruments. In addition, investing in financial futures contracts involves the risk that the Fund could lose more than the initial margin deposit and subsequent payments required for a futures transaction. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

Notes to financial statements (unaudited) continued

(c) Forward foreign currency contracts. The Fund may enter into a forward foreign currency contract to hedge against foreign currency exchange rate risk on its non-U.S. dollar denominated securities or to facilitate settlement of a foreign currency denominated portfolio transaction. A forward foreign currency contract is an agreement between two parties to buy and sell a currency at a set price with delivery and settlement at a future date. The contract is marked-to-market daily and the change in value is recorded by the Fund as an unrealized gain or loss. When a forward foreign currency contract is closed, through either delivery or offset by entering into another forward foreign currency contract, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value of the contract at the time it was closed.

Forward foreign currency contracts involve elements of market risk in excess of the amounts reflected in the Statement of Assets and Liabilities. The Fund bears the risk of an unfavorable change in the foreign exchange rate underlying the forward foreign currency contract. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

(d) Mortgage dollar rolls. The Fund may enter into dollar rolls in which the Fund sells mortgage-backed securities for delivery in the current month, realizing a gain or loss, and simultaneously contracts to repurchase substantially similar (same type, coupon and maturity) securities to settle on a specified future date. During the roll period, the Fund forgoes interest paid on the securities. The Fund is compensated by the interest earned on the cash proceeds of the initial sale and by the lower repurchase price at the specified future date. The Fund maintains a segregated account, the dollar value of which is at least equal to its obligations with respect to dollar rolls.

The Fund executes its mortgage dollar rolls entirely in the to-be-announced (TBA) market, where the Fund makes a forward commitment to purchase a security and, instead of accepting delivery, the position is offset by a sale of the security with a simultaneous agreement to repurchase at a future date.

The risk of entering into a mortgage dollar roll is that the market value of the securities the Fund is obligated to repurchase under the agreement may decline below the repurchase price. In the event the buyer of securities under a mortgage dollar roll files for bankruptcy or becomes insolvent, the Fund's use of proceeds of the dollar roll may be restricted pending a determination by the other party, or its trustee or receiver, whether to enforce the Fund's obligation to repurchase the securities.

(e) Written options. When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability, the value of which is marked-to-market daily to reflect the current market value of the option written. If the option expires, the Fund realizes a gain from investments equal to the amount of the premium received. When a written call option is exercised,

the difference between the premium received plus the option exercise price and the Fund's basis in the underlying security (in the case of a covered written call option), or the cost to purchase the underlying security (in the case of an uncovered written call option), including brokerage commission, is treated as a realized gain or loss. When a written put option is exercised, the amount of the premium received is added to the cost of the security purchased by the Fund from the exercise of the written put option to form the Fund's basis in the underlying security purchased. The writer or buyer of an option traded on an exchange can liquidate the position before the exercise of the option by entering into a closing transaction. The cost of a closing transaction is deducted from the original premium received resulting in a realized gain or loss to the Fund.

The risk in writing a covered call option is that the Fund may forego the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. The risk in writing a call option is that the Fund is exposed to the risk of loss if the market price of the underlying security increases. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

(f) Stripped securities. The Fund invests in Stripped Securities, a term used collectively for stripped fixed income securities. Stripped securities can be principal only securities (PO), which are debt obligations that have been stripped of unmatured interest coupons or, interest only securities (IO), which are unmatured interest coupons that have been stripped from debt obligations. As is the case with all securities, the market value of Stripped Securities will fluctuate in response to changes in economic conditions, interest rates and the market's perception of the securities. However, fluctuations in response to interest rates may be greater in Stripped Securities than for debt obligations of comparable maturities that pay interest currently. The amount of fluctuation increases with a longer period of maturity.

The yield to maturity on IO's is sensitive to the rate of principal repayments (including prepayments) on the related underlying debt obligation and principal payments may have a material effect on yield to maturity. If the underlying debt obligation experiences greater than anticipated prepayments of principal, the Fund may not fully recoup its initial investment in IO's.

(g) Securities traded on a to-be-announced basis. The Fund may trade securities on a to-be-announced (TBA) basis. In a TBA transaction, the Fund commits to purchasing or selling securities which have not yet been issued by the issuer and for which specific information is not known, such as the face amount and maturity date and the underlying pool of investments in U.S. government agency mortgage pass-through securities. Securities purchased on a TBA basis are not settled until they are delivered to the Fund, normally 15 to 45 days after purchase. Beginning on the date the Fund enters into a TBA transaction, cash, U.S. government securities or other liquid high-grade debt obligations are

Notes to financial statements (unaudited) continued

segregated in an amount equal in value to the purchase price of the TBA security. These securities are subject to market fluctuations and their current value is determined in the same manner as for other securities.

(h) Cash flow information. The Fund invests in securities and distributes dividends from net investment income and net realized gains, which are paid in cash and may be reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments are presented in the Statement of Cash Flows.

(i) Foreign currency translation. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including gains and losses on forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities, at the date of valuation, resulting from changes in exchange rates.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

(j) Swap contracts. Swaps involve the exchange by the Fund with another party of the respective amounts payable with respect to a notional principal amount related to one or more indices or securities. The Fund may enter into these transactions to preserve a return or spread on a particular investment or portion of its assets, as a duration management technique, or to protect against any increase in the price of securities the Fund anticipates purchasing at a later date. The Fund may also use these transactions for speculative purposes, such as to obtain the price performance of a security without actually purchasing the

security in circumstances where, for example, the subject security is illiquid, is unavailable for direct investment or available only on less attractive terms.

Swaps are marked-to-market daily based upon quotations from market makers and the change in value, if any, is recorded as an unrealized gain or loss in the Statement of Operations. Net receipts or payments of interest are recorded as realized gains or losses, respectively.

Swaps have risks associated with them, including possible default by the counterparty to the transaction, illiquidity and, where swaps are used as hedges, the risk that the use of a swap could result in losses greater than if the swap had not been employed.

(k) Credit default swaps. The Fund may enter into credit default swap (CDS) contracts for investment purposes, to manage its credit risk or to add leverage. CDS agreements involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default by a third party, typically corporate issuers or sovereign issuers of an emerging country, on a specified obligation or in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the referenced entities comprising a credit index. The Fund may use a CDS to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where a Fund has exposure to the sovereign issuer) or to take an active long or short position with respect to the likelihood of a particular issuer's default. As a seller of protection, the Fund generally receives an upfront payment or a fixed rate of income throughout the term of the swap provided that there is no credit event. If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the maximum potential amount of future payments (undiscounted) that the Fund could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. These potential amounts will be partially offset by any recovery values of the respective referenced obligations, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Fund for the same referenced entity or entities. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap. As a buyer of protection, the Fund generally receives an amount up to the notional value of the swap if a credit event occurs.

Implied credit spreads utilized in determining the period end market value of credit default swap agreements on corporate issues or sovereign issues of an emerging country are disclosed in the Notes to Financial Statements and serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for credit derivatives. Spreads are the theoretical price a lender receives for credit default protection. When spreads rise, market perceived credit risk rises and when spreads fall, market perceived credit risk falls. The implied credit spread of a particular referenced entity

Notes to financial statements (unaudited) continued

reflects the cost of buying/selling protection and may include upfront payments required to enter into the agreement. For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values serve as the indicator of the current status of the payment/performance risk. Wider credit spreads and decreasing market values, when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

Payments received or made at the beginning of the measurement period are reflected as such on the Statement of Assets and Liabilities. These upfront payments are recorded as realized gain or loss on the Statement of Operations and are amortized over the life of the swap. A liquidation payment received or made at the termination of the swap is recorded as realized gain or loss on the Statement of Operations. Net periodic payments received or paid by the Fund are recorded as realized gain or loss on the Statement of Operations. Notional amounts of all credit default swap agreements outstanding as of the report date are disclosed in the Notes to Financial Statements.

Entering into a CDS agreement involves, to varying degrees, elements of credit, market and documentation risk in excess of the related amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreement may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreement, and that there will be unfavorable changes in net interest rates.

(l) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Foreign dividend income is recorded on the ex-dividend date or as soon as practicable after the Fund determines the existence of a dividend declaration after exercising reasonable due diligence. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

(m) Distributions to shareholders. Distributions from net investment income for the Fund, if any, are declared and paid on a monthly basis. Distributions of net realized gains, if any, are declared at least annually. Distributions are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

(n) Federal and other taxes. It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund

intends to distribute substantially all of its taxable income and net realized gains, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements. However, due to the timing of when distributions are made, the Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund's annual taxable income exceeds the distributions from such taxable income for the year.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of November 30, 2008, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

(o) Reclassification. GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share.

2. Investment valuation

Effective June 1, 2008, the Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Debt securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the bid and asked prices as of the close of business of that market. Equity securities for which market quotations are available are valued at the last reported sale price or official closing price on the primary market or exchange on which they trade. Future contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly

Notes to financial statements (unaudited) continued

affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these investments at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

| | NOVEMBER 30, 2008 | QUOTED PRICES (LEVEL 1) | OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2) | SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3) |
|------------------------------|-------------------|----------------------------|---|--|
| Investments in Securities | \$456,716,978 | \$ 216,530 | \$456,500,326 | \$122 |
| Other Financial Instruments* | (37,190,975) | (1,684,167) | (35,506,808) | |
| Total | \$419,526,003 | \$(1,467,637) | \$420,993,518 | \$122 |

* Other financial instruments may include written options, futures, swaps and forward contracts.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

| | INVESTMENTS IN SECURITIES |
|--|------------------------------|
| Balance as of May 31, 2008 | \$ 2 |
| Accrued premiums/discounts | |
| Realized gain (loss) | |
| Change in unrealized appreciation (depreciation) | |
| Net purchases (sales) | |
| Transfers in and/or out of Level 3 | 120 |
| Balance as of November 30, 2008 | \$122 |

3. Investment management agreement and other transactions with affiliates

Legg Mason Partners Fund Advisor, LLC (LMPFA) is the Fund's investment manager. Western Asset Management Company (Western Asset) and Western Asset Management Company Limited (Western Asset Limited) are the Fund's subadvisers. LMPFA, Western Asset and Western Asset Limited are wholly-owned subsidiaries of Legg Mason, Inc. (Legg Mason).

LMPFA provides administrative and certain oversight services to the Fund. The Fund pays LMPFA an investment management fee, calculated daily and paid monthly, at an annual rate of 0.85% of the Fund's average daily net assets plus the proceeds of any outstanding borrowings.

LMPFA has delegated to Western Asset the day-to-day portfolio management of the Fund. Western Asset Limited provides certain advisory services to the Fund relating to currency transactions and investment in non-U.S. dollar denominated securities. Western Asset Limited does not receive any compensation from the Fund and is paid by Western Asset for its services to the Fund. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund. In turn, Western Asset pays Western Asset Limited a subadvisory fee of 0.30% on assets managed by Western Asset Limited.

During the periods in which the Fund is utilizing borrowings, the fee which is payable to the investment manager as a percentage of the Fund's assets will be higher than if the Fund did not utilize borrowings because the fee is calculated as a percentage of the Fund's net assets, including those investments purchased with borrowings. Borrowings for the purpose of the calculation of the management fee include loans from certain financial institutions, the use of mortgage dollar roll transactions and reverse repurchase agreements, if any.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

4. Investments

During the six months ended November 30, 2008, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) and U.S Government & Agency Obligations were as follows:

| | INVESTMENTS | U.S. GOVERNMENT & AGENCY OBLIGATIONS |
|-----------|--------------|---|
| Purchases | \$39,410,036 | \$753,062,213 |
| Sales | 51,033,461 | 780,629,765 |

At November 30, 2008, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

| | |
|-------------------------------|-----------------|
| Gross unrealized appreciation | \$ 5,719,034 |
| Gross unrealized depreciation | (141,962,042) |
| Net unrealized depreciation | \$(136,243,008) |

Notes to financial statements (unaudited) *continued*

At November 30, 2008, the Fund had the following open futures contracts:

| | NUMBER OF CONTRACTS | EXPIRATION DATE | BASIS VALUE | MARKET VALUE | UNREALIZED GAIN (LOSS) |
|---|------------------------|--------------------|----------------|-----------------|---------------------------|
| Contracts to Buy: | | | | | |
| 90 Day Eurodollar | 79 | 3/09 | \$19,123,194 | \$19,370,800 | \$ 247,606 |
| 90 Day Eurodollar | 83 | 6/09 | 20,108,914 | 20,350,562 | 241,648 |
| 90 Day Eurodollar | 13 | 9/09 | 3,154,046 | 3,186,138 | 32,092 |
| | | | | | \$ 521,346 |
| Contracts to Sell: | | | | | |
| Australian Dollar | 16 | 12/08 | \$ 1,270,480 | \$ 1,048,800 | \$ 221,680 |
| Eurodollar | 32 | 12/08 | 5,583,878 | 5,080,000 | 503,878 |
| U.S. Treasury 2-Year Note | 45 | 3/09 | 9,697,813 | 9,756,562 | (58,749) |
| U.S. Treasury 5-Year Note | 310 | 3/09 | 35,711,972 | 36,180,391 | (468,419) |
| U.S. Treasury 10-Year Note | 368 | 3/09 | 42,546,516 | 44,516,500 | (1,969,984) |
| U.S. Treasury 30-Year Bond | 48 | 3/09 | 5,685,331 | 6,119,250 | (433,919) |
| | | | | | \$(2,205,513) |
| Net unrealized loss on open futures contracts | | | | | \$(1,684,167) |

At November 30, 2008, the Fund had the following open forward foreign currency contracts:

| FOREIGN CURRENCY | LOCAL CURRENCY | MARKET VALUE | SETTLEMENT DATE | UNREALIZED GAIN(LOSS) |
|--|-------------------|-----------------|--------------------|--------------------------|
| Contracts to Buy: | | | | |
| Euro | 2,350,000 | \$2,982,394 | 2/3/09 | \$(136,714) |
| Contracts to Sell: | | | | |
| Pound Sterling | 1,683,000 | \$2,589,143 | 2/3/09 | \$ 256,743 |
| Net unrealized gain on open forward foreign currency contracts | | | | \$ 120,029 |

During the six months ended November 30, 2008, written option transactions for the Fund were as follows:

| | NUMBER OF CONTRACTS | PREMIUMS |
|--|------------------------|-----------|
| Written options, outstanding May 31, 2008 | | |
| Options written | 688 | \$649,795 |
| Options closed | (24) | (26,724) |
| Options expired | (650) | (612,988) |
| Written options, outstanding November 30, 2008 | 14 | \$ 10,083 |

At November 30, 2008, the Fund held TBA securities with a total cost of \$116,146,553.

At November 30, 2008, the Fund had the following open swap contracts:

CREDIT DEFAULT SWAPS ON CREDIT INDICES SELL PROTECTION(1)

| SWAP COUNTERPARTY (REFERENCE ENTITY) | NOTIONAL AMOUNT(2) | TERMINATION DATE | PERIODIC PAYMENTS RECEIVED BY THE FUND | MARKET VALUE(3) | UPFRONT PREMIUMS PAID/ (RECEIVED) | UNREALIZED APPRECIATION/ (DEPRECIATION) |
|---|-----------------------|---------------------|---|--------------------|--|---|
| Barclay s Capital Inc. (CDX North America High Yield Index) | \$147,000,000 | 12/20/12 | 3.750% quarterly | \$(33,961,689) | \$1,653,750 | \$(35,615,439) |

(1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

(2) The maximum potential amount the Fund could be required to make as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

(3) The quoted market prices and resulting values for credit default swap agreements on asset-backed securities and credit indices serve as an indicator of the current status of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit derivative should the notional amount of the swap agreement been closed/sold as of the period end. Decreasing market values when compared to the notional amount of the swap, represent a deterioration of the referenced entity s credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

Percentage shown is an annual percentage rate.

5. Loan

At November 30, 2008, the Fund had a \$150,000,000 credit line available pursuant to a revolving credit and security agreement dated as of December 21, 2006 and amended as of December 19, 2007 and again as of December 17, 2008, (Agreement), with CIESCO, LLC and Citibank, N.A. (Citibank). Citibank acts as administrative agent and secondary lender. Also as of November 30, 2008, the Fund had a \$100,000,000 loan outstanding pursuant to the Agreement. The loan generally bears interest at a variable rate based on the weighted average interest rates of the underlying commercial paper or LIBOR, plus any applicable margin. In addition, the Fund pays a commitment fee on the total amount of the loan available, whether used or unused. For the six months ended November 30, 2008, the Fund paid \$113,368 in commitment fees. Securities

Edgar Filing: WESTERN ASSET GLOBAL HIGH INCOME FUND INC. - Form N-CSRS

held by the Fund are subject to a lien, granted to the lenders, to the extent of the borrowing outstanding and any additional expenses. For the six months ended November 30, 2008, based on the number of days during the reporting period that the Fund had a loan balance outstanding, the average daily loan balance was \$100,000,000 and the weighted average interest rate was 3.18%. Total interest expense incurred on the loan for the six months ended November 30, 2008 was \$1,617,650.

6. Distributions subsequent to November 30, 2008

On November 17, 2008, the Board of Directors declared three dividends, each in the amount of \$0.085 per share, payable on December 26, 2008, January 30,

Notes to financial statements (unaudited) continued

2009 and February 27, 2009 to shareholders of record on December 19, 2008, January 23, 2009 and February 20, 2009, respectively.

7. Capital shares

On October 22, 2003, the Fund's Board authorized the Fund to repurchase from time to time in the open market up to 3,000,000 shares of the Fund's common stock. The Board directed the management of the Fund to repurchase shares of the Fund's common stock at such times and in such amounts as management believes will enhance shareholder value, subject to review by the Fund's Board. Since the inception of the repurchase plan, the Fund has not repurchased any shares.

8. Capital loss carryforward

As of May 31, 2008, the Fund had a net capital loss carryforward of \$3,634,848, of which \$2,706,694 expires in 2015, and \$928,154 expires in 2016. These amounts will be available to offset any future taxable gains.

9. Recent accounting pronouncement

In March 2008, the Financial Accounting Standards Board issued the Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effect on the Fund's financial position, performance and cash flows. Management is currently evaluating the impact the adoption of FAS 161 will have on the Fund's financial statements and related disclosures.

Board approval of management and subadvisory agreements (unaudited)

Background

The Investment Company Act of 1940 (the 1940 Act) requires that the Board of Directors (the Board) of Western Asset Global High Income Fund, Inc. (the Fund), including a majority of its members that are not considered to be interested persons under the 1940 Act (the Independent Directors) voting separately, approve the continuation of the investment management contract (the Management Agreement) with the Fund's manager, Legg Mason Partners Fund Advisor, LLC (the Manager) and the sub-advisory agreements (the Sub-Advisory Agreements) with the Manager's affiliates, Western Asset Management Company (Western Asset) and Western Asset Management Company Limited (together with Western Asset, the Subadviser), on an annual basis. In response to a request by the Independent Directors, an in-person meeting of the Board was held on October 23, 2008 (the Leadership Meeting) with senior leadership of the Manager, the Subadviser and their corporate parent, Legg Mason, Inc. (Legg Mason) to discuss the investment advisory and other services provided to the Fund and other funds in the same complex under the Board's supervision (the Legg Mason Closed-end Funds). During this Leadership Meeting, information was presented to the Board regarding, among other things, the Subadviser's economic and financial markets outlook and its investment strategies given that outlook. Additionally, the Board received information regarding recent organizational changes and the continuing financial and other resources available to the Legg Mason organization to support its activities in respect of the Legg Mason Closed-end Funds. At a meeting (the Contract Renewal Meeting) held in-person on November 12 and 13, 2008, the Board, including the Independent Directors, considered and approved continuation of each of the Management and Sub-Advisory Agreements for an additional one-year term. To assist in its consideration of the renewals of the Management and Sub-Advisory Agreements, the Board received and considered a variety of information about the Manager and Subadviser, as well as the management and sub-advisory arrangements for the Fund and other funds overseen by the Board (together with the information provided at the Leadership and Contract Renewal Meetings, the Contract Renewal Information), certain portions of which are discussed below. A presentation made by the Manager and Subadviser to the Board at the Contract Renewal Meeting in connection with its evaluations of the Management and Sub-Advisory Agreements encompassed the Fund and all the funds for which the Board has responsibility. In addition to the Contract Renewal Information, the Board received performance and other information throughout the year related to the respective services rendered by the Manager and the Subadviser to the Fund. The Board's evaluation took into account the information received throughout the year and also reflected the knowledge and familiarity gained as members of the Board of the Fund and the other Legg Mason Closed-end Funds with respect to the services provided to the Fund by each of the Manager and Subadviser.

The discussion below covers both advisory and administrative functions being rendered by the Manager, each such function being encompassed by the

Board approval of management and subadvisory agreements (unaudited) *continued*

Management Agreement, and the investment advisory function being rendered by the Subadviser.

In its deliberations regarding renewal of the Management and Sub-Advisory Agreements, the Fund's Board, including the Independent Directors, considered the factors below.

Nature, Extent and Quality of the Services under the Management Agreement and Sub-Advisory Agreement

The Board received and considered Contract Renewal Information regarding the nature, extent and quality of services provided to the Fund by the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreements, respectively, during the past year. The Board also reviewed Contract Renewal Information regarding the Fund's compliance policies and procedures established pursuant to Rule 38a-1 under the 1940 Act.

The Board reviewed the qualifications, backgrounds and responsibilities of the Fund's senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of the Fund. The Board also considered, based on its knowledge of the Manager and its affiliates, the Contract Renewal Information and the Board's discussions with the Manager at the Contract Renewal Meeting, the financial resources available to the Legg Mason organization.

The Board considered the responsibilities of the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreements, respectively, including the Manager's coordination and oversight of services provided to the Fund by the Subadviser and others.

The Board concluded that, overall, the nature, extent and quality of services provided (and expected to be provided) to the Fund under the Management Agreement and the Sub-Advisory Agreements have been satisfactory under the circumstances.

Fund Performance

The Board received and considered performance information and analyses (the Lipper Performance Information) for the Fund, as well as for a group of funds (the Performance Universe) selected by Lipper, Inc. (Lipper), an independent provider of investment company data. The Board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in the Performance Universe. The Performance Universe consisted of the Fund and all funds (including the Fund) classified by Lipper as leveraged closed-end global income funds regardless of asset size. The Performance Universe consisted of nine funds, including the Fund, for the 3-year period ended June 30, 2008 and six funds, including the Fund, for the 1-year period ended June 30, 2008. The Board also considered the volatile

market conditions during the past year and the Fund's performance in relation to its benchmarks and in absolute terms.

The Lipper Performance Information comparing the Fund's performance to that of the Performance Universe showed, among other things, that the Fund's performance was ranked seventh among the nine funds in the Performance Universe for the 1- and 3-year periods ended June 30, 2008. The Board considered the Manager's explanation of the underperformance relative to the Performance Universe. Among other things, one relatively large credit default swap transaction, which increased the Fund's exposure to the broad high yield market, detracted significantly from performance as did a general overweight to the broad high yield market and the Manager's issue selection. The Board noted that the small size of the Performance Universe made meaningful comparisons difficult. The Board also considered the volatile market conditions during the year and the Manager's belief that such market conditions were particularly adverse to its investment strategies for the Fund in which risk products and spreads play a significant role.

Based on its review, which included consideration of all of the factors noted above, the Board concluded that the Fund's performance was disappointing but that a decision against continuation of the Management and Sub-advisory Agreements for an additional one-year period would not be in the interests of shareholders. The Board determined that it will continue to evaluate and to discuss with the Manager the Fund's performance.

Management Fees and Expense Ratios

The Board reviewed and considered the management fee (the Management Fee) payable by the Fund to the Manager in light of the nature, extent and quality of the management and sub-advisory services provided by the Manager and the Subadviser. The Board noted that the compensation paid to the Subadviser is paid by the Manager, not the Fund, and, accordingly, that the retention of the Subadviser does not increase the fees or expenses otherwise incurred by the Fund's shareholders.

Additionally, the Board received and considered information and analyses prepared by Lipper (the Lipper Expense Information) comparing the Management Fee and the Fund's overall expenses with those of funds in a relevant expense group (the Expense Universe) selected and provided by Lipper for the latest fiscal year. The Expense Universe consisted of all funds, including the Fund, classified by Lipper as closed-end leveraged global income funds. The Expense Universe consisted of four funds, including the Fund, that had assets ranging from \$126.4 million to the Fund's \$418.7 million. The Expense Universe included not only the Fund, but one other fund in the Legg Mason complex.

The Lipper Expense Information, comparing the Management Fee as well as its actual total expenses to the Fund's Expense Universe, showed that the

Board approval of management and subadvisory agreements (unaudited) *continued*

Management Fee on a contractual basis was better than the median of the Fund's Expense Universe but on an actual basis (i.e., giving effect to any voluntary fee waivers implemented by the Manager with respect to the Fund and by the managers of the other funds in the Expense Universe) was worse than the median for the Expense Universe on a common assets only basis. The actual Management Fee was better than the median on the basis of common and leveraged assets. The actual total expenses of the Fund also were below the Expense Universe median on both a common assets only basis and a common and leveraged assets basis.

The Board considered that the small size and the composition of the Expense Universe, as well as the range of sizes among the four constituent funds in the Expense Universe, made meaningful comparisons difficult.

The Board also reviewed Contract Renewal Information regarding fees charged by the Manager to other U.S. clients investing primarily in an asset class similar to that of the Fund, including, where applicable, separate accounts. The Board was advised that the fees paid by such other clients generally are lower, and may be significantly lower, than the Management Fee. The Contract Renewal Information discussed the significant differences in scope of services provided to the Fund and to these other clients, noting that the Fund is provided with administrative services, office facilities, Fund officers (including the Fund's chief executive, chief financial and chief compliance officers), and that the Manager coordinates and oversees the provision of services to the Fund by other fund service providers. The Board considered the fee comparisons in light of the differences required to manage these different types of accounts. The Contract Renewal Information included an analysis of complex-wide management fees provided by the Manager, which, among other things, set out a proposed framework of fees based on asset classes.

Taking all of the above into consideration, the Board determined that the Management Fee and the sub-advisory fee were reasonable in light of the nature, extent and quality of the services provided to the Fund under the Management Agreement and the Sub-Advisory Agreements.

Manager Profitability

The Board, as part of the Contract Renewal Information, received a profitability analysis of the Manager and its affiliates in providing services to the Fund. The Board also received profitability information with respect to the Legg Mason fund complex as a whole. In addition, the Board received information with respect to the Manager's revenue and cost allocation methodologies used in preparing such profitability data. In 2007, the Board received a report from an outside consultant that had reviewed the Manager's methodology and was assured by Management at the Contract Renewal Meeting that there have been no significant changes in that methodology since the report was rendered. The profitability to the Subadviser was not considered to be a material factor in the Board's considerations since the Subadviser's fee is paid by the Manager, not

the Fund. The profitability analysis presented to the Board as part of the Contract Renewal Information indicated that profitability to the Manager in providing services to the Fund had increased by 1 percent during the period covered by the analysis. The Board expressed its continuing concern regarding the level of profitability to the Manager from providing services to the Fund. The Board considered the Manager's explanation of the profitability level reflected in the analysis presented at the Contract Renewal Meeting. The Board concluded that it would be appropriate to continue to monitor profitability in light of the nature, scope and quality of the investment advisory and other services provided by the Manager and the Subadviser to the Fund.

Economies of Scale

The Board received and discussed Contract Renewal Information concerning whether the Manager realizes economies of scale if the Fund's assets grow. The Board noted that because the Fund is a closed-end fund with no current plans to seek additional assets beyond maintaining its dividend reinvestment plan, any significant growth in its assets generally will occur through appreciation in the value of the Fund's investment portfolio, rather than sales of additional shares in the Fund. The Board determined that the management fee structure was appropriate under present circumstances.

Other Benefits to the Manager and the Subadviser

The Board considered other benefits received by the Manager, the Subadviser and its affiliates as a result of their relationship with the Fund.

* * * * *

In light of all of the foregoing, the Board determined that, under the circumstances, continuation of the Management and Sub-Advisory Agreements would be consistent with the interests of the Fund and its shareholders and unanimously voted to continue each Agreement for a period of one additional year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve continuation of the Management and Sub-Advisory Agreements, and each Board member attributed different weights to the various factors. The Independent Directors were advised by separate independent legal counsel throughout the process. Prior to the Contract Renewal Meeting, the Board received a memorandum discussing its responsibilities in connection with the proposed continuation of the Management and Sub-Advisory Agreements as part of the Contract Renewal Information and the Independent Directors separately received a memorandum discussing such responsibilities from their independent counsel. Prior to voting, the Independent Directors also discussed the proposed continuation of the Management Agreement and the Sub-Advisory Agreements in private sessions with their independent legal counsel at which no representatives of the Manager were present.

Additional shareholder information (unaudited)

Results of annual meeting of shareholders

The Annual Meeting of Shareholders of Western Asset Global High Income Fund Inc. was held on September 25, 2008, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the Meeting.

Election of directors

| NOMINEES | VOTES FOR | VOTES WITHHELD |
|------------------|---------------|----------------|
| Carol L. Colman | 21,833,334.95 | 630,824.00 |
| Daniel P. Cronin | 21,826,422.95 | 637,736.00 |
| Paolo M. Cucchi | 21,808,332.95 | 655,826.00 |

At November 30, 2008, in addition to Carol L. Colman, Daniel P. Cronin and Paolo M. Cucchi, the other Directors of the Fund were as follows:

R. Jay Gerken
 Leslie H. Gelb
 William R. Hutchinson
 Dr. Riordan Roett
 Jeswald W. Salacuse

Dividend reinvestment plan (unaudited)

Unless you elect to receive distributions in cash, all distributions, on your Common Shares will be automatically reinvested by American Stock Transfer & Trust Company (AST), as agent for the Common Shareholders (the Plan Agent), in additional Common Shares under the Dividend Reinvestment Plan (the Plan). You may elect not to participate in the Plan by contacting the Plan Agent. If you do not participate, you will receive all cash distributions paid by check mailed directly to you by AST as distribution paying agent.

If you participate in the Plan, the number of Common Shares you will receive will be determined as follows:

(1) If the market price of the Common Shares on the record date (or, if the record date is not a New York Stock Exchange trading day, the immediately preceding trading day) for determining shareholders eligible to receive the relevant distribution (the determination date) is equal to or exceeds 98% of the net asset value per share of the Common Shares, the Fund will issue new Common Shares at a price equal to the greater of (a) 98% of the net asset value per share at the close of trading on the Exchange on the determination date or (b) 95% of the market price per share of the Common Shares on the determination date.

(2) If 98% of the net asset value per share of the Common Shares exceeds the market price of the Common Shares on the determination date, the Plan Agent will receive the distribution in cash and will buy Common Shares in the open market, on the Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the distribution payment date, or (b) the record date for the next succeeding distribution to be made to the Common Shareholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price rises so that it equals or exceeds 98% of the net asset value per share of the Common Shares at the close of trading on the Exchange on the determination date before the Plan Agent has completed the open market purchases or (ii) if the Plan Agent is unable to invest the full amount eligible to be reinvested in open market purchases, the Plan Agent will cease purchasing Common Shares in the open market and the Fund shall issue the remaining Common Shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the Exchange on the determination date or (b) 95% of the then current market price per share.

The Plan Agent maintains all participants' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. Any proxy you receive will include all Common Shares you have received under the Plan.

Dividend reinvestment plan (unaudited) *continued*

You may withdraw from the Plan by notifying the Plan Agent in writing at 59 Maiden Lane, New York, New York 10038 or by calling the Plan Agent at 1-877-366-6441. Such withdrawal will be effective immediately if notice is received by the Plan Agent not less than ten business days prior to any distribution record date; otherwise such withdrawal will be effective as soon as practicable after the Plan Agent's investment of the most recently declared distribution on the Common Shares. The Plan may be terminated by the Fund upon notice in writing mailed to Common Shareholders at least 30 days prior to the record date for the payment of any distribution by the Fund for which the termination is to be effective. Upon any termination, you will be sent a certificate or certificates for the full Common Shares held for you under the Plan and cash for any fractional Common Shares. You may elect to notify the Plan Agent in advance of such termination to have the Plan Agent sell part or all of your shares on your behalf. You will be charged \$5.00 plus a \$0.05 per Common Share service charge and the Plan Agent is authorized to deduct brokerage charges actually incurred for this transaction from the proceeds.

There is no service charge for reinvestment of your distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases. Because all distributions will be automatically reinvested in additional Common Shares, this allows you to add to your investment through dollar cost averaging, which may lower the average cost of your Common Shares over time.

Automatically reinvesting distributions does not mean that you do not have to pay income taxes due upon receiving distributions.

The Fund reserves the right to amend or terminate the Plan if, in the judgment of the Board of Directors, the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan and your account may be obtained from the Plan Agent at 1-877-366-6441.
