Edgar Filing: CYANOTECH CORP - Form DEF 14A

Shares represented by proxies in the accompanying form which are properly executed and returned to Cyanotech by internet, by mail or by telephone will be voted at the Annual Meeting in accordance with the stockholder's instructions contained on the proxy or herein. Proxies will be solicited principally through the use of the mails, but, if deemed desirable, may be solicited personally or by telephone, e-mail, facsimile or letters from officers and regular Cyanotech employees who will receive no additional compensation. #### **REVOCABILITY OF PROXIES**

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is exercised at the stockholder meeting. Attendance at the meeting will not, by itself, revoke a proxy.

#### **IMPORTANT NOTICE**

##### **Regarding Availability of Proxy Materials**

**for the Annual Meeting to Be Held on September 9, 2009**

**As permitted by the Securities and Exchange Commission, the Company is making available its Notice of Annual Meeting, Proxy Statement and Annual Report for fiscal year ended March 31, 2009 at [www.envisionreports.com/CYAN](http://www.envisionreports.com/CYAN). If you received the Company's notice containing instructions on how to access these materials via the internet, you will not receive a printed copy of the proxy materials unless you follow the instructions contained in the notice which directs stockholders to that website, or to telephone toll-free 1-866-641-4276 or to email a request to [investorvote@computershare.com](mailto:investorvote@computershare.com).**

*Stockholders of Record.* If your shares are registered in your own name, to enroll in the electronic delivery service of future proxy materials via e-mail or the internet, with the control number on your proxy card go directly to the following website at [www.envisionreports.com/CYAN](http://www.envisionreports.com/CYAN) and follow the instructions therein.

*Beneficial Stockholders.* If your shares are not registered in your name, to enroll in the electronic delivery service, check the information provided to you by your bank or broker or contact your bank or broker for information on electronic delivery service.

**Delivery of One Proxy Statement and Annual Report**

**to a Single Household to Reduce Duplicate Mailings**

Each year in connection with the Annual Meeting of Stockholders, the Company is required to furnish to each stockholder of record a proxy statement and annual report and to arrange for a proxy statement, annual report and, if applicable, notice of internet availability of proxy materials to be furnished to each beneficial stockholder whose shares are held by or in the name of a broker, bank, trust or other nominee. Because many stockholders hold shares of the Cyanotech Common Stock in multiple accounts, this process may result in duplicate mailings of proxy materials to stockholders who share the same address. Stockholders can avoid receiving duplicate mailings and save the Company the cost of producing and mailing duplicate documents as follows:

*Stockholders of Record.* If your shares are registered in your own name and you are interested in consenting to the delivery of a single copy of proxy materials (other than proxy cards), go directly to the following website at [www.envisionreports.com/CYAN](http://www.envisionreports.com/CYAN) and follow the instructions therein.

*Beneficial Stockholders.* If your shares are not registered in your own name, your broker, bank, trust or other nominee that holds your shares may have asked you to consent to the delivery of a single copy of proxy materials (other than proxy cards) if there are other stockholders who share an address with you. If you currently receive more than one copy of proxy materials at your household and would like to receive only one copy in the future, you should contact your nominee.

---

*Right to Request Separate Copies.* If you consent to the delivery of a single copy of proxy materials but later decide that you would prefer to receive a separate copy of proxy material for each account at your address, then please notify the Company or your nominee, as applicable, and the Company or your nominee will promptly deliver such additional proxy materials. If you wish to receive a separate copy of the proxy materials for each account at your address in the future, you may call toll-free 1-866-641-4276 or email to [investorvote@computershare.com](mailto:investorvote@computershare.com).

**PROPOSAL ONE:  
Election of Directors**

**Board Nominees**

A board of six directors is to be elected at the meeting. Unless otherwise instructed, the proxy holders will vote the proxies received by them **FOR** the election of the six Board nominees named below, all six of whom are presently directors of the Company. Each nominee has consented to be named a nominee in this Proxy Statement and to continue to serve as a director if elected. If any nominee becomes unable or declines to serve as a director or if additional persons are nominated at the meeting, the proxy holders intend to vote all proxies received by them in such a manner as will assure the election of as many nominees listed below as possible (or, if new nominees have been designated by the Board of Directors, in such a manner as to elect such nominees) and the specific nominees to be voted for will be determined by the proxy holders. The Company is not aware of any reason that any nominee will be unable or will decline to serve as a director. Each director elected at this Annual Meeting will serve until the next Annual Meeting or until such director's successor has been elected and qualified. Voting for the election of directors is non-cumulative. It is the Company's policy that all Board members attend each annual meeting of stockholders; last year all Board members attended the annual meeting of stockholders.

The following table sets forth certain information regarding the members of the Board of Directors, all of whom were elected at the last annual meeting of stockholders.

### **BOARD MEETINGS AND COMMITTEES**

#### **Board Meetings**

During fiscal year 2009 the Board met nine (9) times. Each of our Directors attended 85 percent or more of the meetings of the Board and of Board Committees on which he served.

#### **Director Nomination Process**

*Director Qualifications.* The Nominating and Corporate Governance Committee has established guidelines for considering nominations to the Company's Board of Directors. These include: (a) personal characteristics, including such matters as integrity, education, diversity of background and experience, absence of potential conflicts of interest with the Company or its operations, and the availability and willingness to devote sufficient time to the duties of a director of the Company; (b) experience in corporate management, such as serving as an officer or former officer of a

publicly held company; (c) experience in the Company's industry and with relevant social policy concerns; (d) experience as a board member of another company; (e) academic expertise in an area of the Company's operations; and (f) practical and mature business judgment. The criteria are not exhaustive and the Nominating and Corporate Governance Committee and the Board of Directors may consider other qualifications and attributes which the members believe are appropriate in evaluating the ability of an individual to serve as a member of the Board of Directors. Other considerations are set forth in the Company's Bylaws. The Nominating and Corporate Governance Committee's goal is to assemble a Board of Directors that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience. In doing so the Committee also considers candidates with appropriate non-business backgrounds.

*Identification and Evaluation of Nominees for Directors.* The Board of Directors believes that, based on the Nominating and Corporate Governance Committee's knowledge of the Company's corporate governance principles and the needs and qualifications of the Board at any given time, the Nominating and Corporate Governance Committee is best equipped to select nominees that will result in a well-qualified and well-rounded board of directors. It is the general policy of the Nominating and Corporate Governance Committee not to accept unsolicited nominations from stockholders. The Company's Bylaws contain procedures for stockholder nominations which are discussed in greater detail under **STOCKHOLDER PROPOSALS AND NOMINATIONS** on page 22. In making its nominations, the Nominating and Corporate Governance Committee identifies nominees by first evaluating the current members of the Board willing to continue their service. Current members with qualifications and skills that are consistent with the committee's criteria for Board service are re-nominated. As to new candidates, the committee will generally poll the Board members and members of management for recommendations. The committee may also review the composition and qualification of the boards of directors of the Company's competitors, and may seek input from industry experts or analysts. The committee reviews the qualifications, experience and

---

background of the candidates. Final candidates are interviewed by the independent directors and executive management. In making its determinations, the committee evaluates each individual in the context of the Board as whole, with the objective of assembling a group that can best represent stockholder interests through the exercise of sound judgment. After review of all pertinent data, and due deliberation by the committee, this slate of nominees is recommended to the Board of Directors and the stockholders for election. Historically, the Board of Directors has not relied on third-party search firms to identify director nominees. The committee may in the future choose to engage third-party search firms in situations where particular qualifications are required or where existing contacts are not sufficient to identify an appropriate candidate.

Each of the nominees for election at this annual meeting was unanimously recommended by the Nominating and Corporate Governance Committee for election.

### **Independent Directors**

The Board has determined that each of the nominees for director, other than Mr. Jacobson and Dr. Cysewski, has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company) and is independent under Nasdaq Rule 5605(a)(2). In making its determination, the Board considered transactions and relationships between each director (and any member of his immediate family) and the Company and its subsidiaries and relationships between the directors or their affiliates and members of the Company's senior management personnel and their affiliates.

The Independent Directors meet in executive session without the Chief Executive Officer or any other member of management attending, at least twice annually in accordance with Nasdaq Corporate Governance Rules. In fiscal year 2009 there were five (5) such sessions. Gregg W. Robertson acted as the Lead Independent Director for such meetings and was responsible for the issues discussed. Any Independent Director may request an executive session of Independent Directors to discuss any matter of concern.

### **Stockholder Communication with Directors**

Stockholders may, at any time, communicate in writing with any particular director, or the non-management directors as a group, by sending such written communication to Cyanotech Corporation Non-Management Directors, 73-4460 Queen Kaahumanu Highway, #102, Kailua Kona, Hawaii, 96740, or by e-mail to [board@cyanotech.com](mailto:board@cyanotech.com). Robertson, and John T. Waldron, held four (4) regularly scheduled meetings during fiscal year 2009.

*The Nominating and Corporate Governance Committee* operates and acts under a written charter, which was adopted and approved by the Cyanotech Board of Directors in June 2004. A copy of the Nominating and Corporate Governance Committee Charter was filed as an exhibit to the 2004 Notice of Annual Meeting and Proxy Statement and is hereby incorporated by reference. The Nominating and Corporate Governance Committee's functions include (1) reviewing the background and qualifications of potential nominees for the Cyanotech Board of Directors presented by stockholders, directors and management, (2) recommending to the Board a slate of nominees to be submitted to the stockholders for election at the next Annual Meeting of Stockholders, (3) advising the Board with respect to matters of Board composition and procedures, and (4) overseeing the annual evaluation of the Board. Among the qualifications considered in the selection of candidates are knowledge, experience, skills, expertise, diversity, personal and professional integrity, character, business judgment, time availability, dedication and absence of conflicts of interest see caption Director Nomination Process above. All members of the Nominating and Corporate Governance Committee are independent directors under Nasdaq Rule 5605(a)(2). The Nominating and Corporate Governance Committee, comprised of independent directors John T. Waldron (Chair), Michael A. Davis and David I. Rosenthal, held one (1) regularly scheduled meeting during fiscal year 2009.

*The Compensation and Stock Option Committee* operates and acts under a written charter, which was adopted and approved by the Cyanotech Board of Directors and which is also available on the Company's website at [www.cyanotech.com](http://www.cyanotech.com). The Compensation and Stock Option Committee reviews and makes recommendations to the Board concerning the Company's executive compensation policy, bonus plans and incentive option plans, and approves the grants of stock options to officers, employees and consultants. At least once a year, the Compensation and Stock Option Committee meets in executive session with the other independent directors of the Board to evaluate the Chief Executive Officer's (CEO) performance. All members of the Compensation and Stock Option Committee are independent directors as defined under Nasdaq Rule 5605(a)(2). ## **PROPOSAL TWO:**

### **Ratification of Selection of Independent Registered Public Accounting Firm**

The firm of Grant Thornton LLP has served as the Company's independent registered public accounting firm for the past year. The Audit Committee has selected, and the Board of Directors has approved, the firm to continue in this capacity for the current fiscal year ending March 31, 2010. A representative of Grant Thornton LLP is expected to attend the annual meeting with the opportunity to make a statement and to respond to appropriate questions from stockholders present at the meeting. Although it is not required to do so, the Company wishes to provide stockholders with the opportunity to indicate their approval of the selection of the independent registered public accounting firm and accordingly is submitting a proposal to ratify the selection of Grant Thornton LLP.

On July 10, 2008, KPMG LLP ( KPMG ) was notified on behalf of the Audit Committee and the Board of Directors of Cyanotech Corporation (the Company ) that KPMG was dismissed as the Company's principal auditor (independent registered public accounting firm). The termination was approved by the Company's Audit Committee.

The audit reports of KPMG on the consolidated financial statements of the Company as of and for the year ended March 31, 2008 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

During the Company's two most recent fiscal years ended March 31, 2009 and 2008, the Company did not have any disagreements with KPMG on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of KPMG, would have caused it to make reference to the subject matter of the disagreements in connection with its report. Also during this period, there have been no reportable events as that term is described in Item 304(a)(1)(v) of Regulation S-K, except that KPMG advised the Company of the following material weaknesses:

- A material weakness related to controls around the Company's inventory process as of March 31, 2008, and

- The Company did not have adequately trained internal accounting resources as of March 31, 2008. The Audit Committee discussed the reportable events with KPMG. The Company authorized KPMG to respond fully to the inquiries of the successor accountant concerning the subject matter of the reportable events.

On April 3, 2008 the Audit Committee issued a request for proposal to determine the Company's principal auditor for the year ending March 31, 2009. As a result of this process, the Audit Committee decided to select Grant Thornton LLP ( Grant Thornton ) as the Company's principal auditor for the year ending March 31, 2009, subject to Grant Thornton's customary client acceptance procedures. On July 22, 2008, the Audit Committee engaged Grant Thornton LLP to become the Company's auditor (independent registered public accounting firm).

The Company did not engage Grant Thornton in any prior consultations during the Company's fiscal years ended March 31, 2008 or March 31, 2007, or the subsequent period through the date of the filing of a current report on Form 8-K dated July 10, 2008, regarding either: (a) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements; or (b) any matter that was the subject of either a disagreement or a reportable event (as defined in Item 304(a)(1)(v), respectively, of Regulation S-K). The Audit Committee then selected, and the Board of Directors approved, Grant Thornton LLP as the independent registered public accounting firm for the Company for the fiscal year ending March 31, 2009.

*Compensation Discussion and Analysis*

**Who is responsible for determining appropriate executive compensation?**

The Compensation Committee has the responsibility for recommending the total compensation program for the Company and its subsidiaries, subject to the approval of the Board. This included determining compensation for the past fiscal year 2009, as well as for the current fiscal year 2010, for the Cyanotech Corporation Named Executive Officers ( NEO s ) the individuals named in the Summary Compensation Table herein: (1) Andrew H. Jacobson, President and Chief Executive Officer of the

---

Company; (2) Deanna L. Spooner, Chief Financial Officer, Vice President-Finance and Administration, Secretary and Treasurer of the Company; (3) Gerald R. Cysewski, Ph.D., Executive Vice President and Chief Scientific Officer, (4) Glenn D. Jensen, Vice President-Operations and (5) Robert J. Capelli, Vice President-Sales and Marketing of the Company.

**What are the objectives of the Company's compensation programs?**

The goals of the compensation program are to align compensation with business objectives and performance, and to enable the Company to attract, motivate and retain executives of outstanding ability, potential and drive commensurate with the size and development requirements of the Company. Key components include:

- The Company pays competitively with comparable small companies with which the Company competes for talent. To ensure that pay is competitive, the Company compares its pay practices with these companies and sets its pay parameters based in part on this review.
- The Company maintains annual incentive opportunities sufficient to provide motivation to achieve specific operating goals and to generate rewards that bring total compensation to competitive levels.
- The Company provides stock options for executive officers to ensure that they are motivated over the long term to respond to the Company's business challenges.

The Compensation Committee endeavors to balance Company needs and values with the employees' needs and believes that it is important that the Committee maintain this relationship.

**What are the compensation programs designed to reward?**

The Company's compensation programs are designed to recognize and reward for the Company's annual and long-term performance and individual performance that enhance shareholder value. To that end:

- *Company Performance.* The Compensation Committee considers each executive's overall contribution to the Company's long-term and short-term results and projections in relation to the Company goal of achieving sustainable profitability from sales of its products.
- *Individual Performance.* The Compensation Committee has not established specific individual goals. The Company has a small executive team of talented individuals with clear divisions of responsibility for achieving the Company's goals. The Compensation Committee evaluates the Chief Executive Officer as a committee or in conjunction with the other independent members of the Board of Directors (as determined by

the full Board). That evaluation entails a review of the Chief Executive Officer's Letter Agreement and his performance and progress towards achieving sustainable profitability through improved long-term and short-term results attributable directly and indirectly to his efforts. The Compensation Committee or the full Board (excluding the Chief Executive Officer) acting with the Committee or upon its recommendations also considers relative shareholder return over the same period and chief executive compensation for similar-sized companies with similar results within the relevant geographic and industry area. For other NEOs, the Compensation Committee considers a performance assessment and base salary recommendation from the Chief Executive Officer. The performance evaluations of these executives are based on an overall assessment of each executive's contribution to the Company's long-term and short-term results and projections in relation to the Company goal of achieving sustainable profitability from sales of its products. The compensation for the Vice President-Sales includes a direct commission-based component.

**What are the elements of executive compensation?**

The elements of the Company's executive compensation include:

- Base salary and bonus, if awarded.
  
  - Incentive stock option grants.
-

**How is base salary determined?**

The base salaries of the executive officers are determined initially on the basis of one or more salary surveys conducted by third parties as well as surveys of biopharmaceutical companies both nationally and more specifically in the Western United States obtained from public information such as filings with the Securities and Exchange Commission. Based on such surveys, the executive officers' salaries are set within the ranges of the surveys targeted at the median; the exact level is determined after the Committee considers the experience and capability of the executive officer, the level of responsibility and the needs of the Company.

**What were the base salary increases for fiscal year 2009?**

Upon acceptance by Ms. Spooner of the position of Chief Financial Officer, Vice President Finance and Administration, Secretary and Treasurer as of November 14, 2008, the annual compensation for that position was increased to \$150,000 per year, subject to approval, which was granted, by the Company's senior debt holder.

**Are bonuses paid to executive officers?**

The Committee believes that, as a general rule, annual compensation in excess of base salaries should be dependent on the employee's performance and the Company's performance, and should be awarded based on recommendations of the Committee, and in the discretion of the Board. Accordingly, at the beginning of a fiscal year, the Committee may adopt an incentive plan for executive officers and other key management personnel under which executive officers and other key management personnel may earn bonuses, provided the Company achieves or exceeds the pre-tax net income goal established for the year.

The net income goal is established in part on the basis of an annual operating plan developed by management and approved by the Board of Directors. The annual operating plan is designed to maximize profitability, within the constraints of economic and competitive conditions, some of which are outside the control of the Company, and is developed on the basis of: (i) the Company's performance in the prior year; (ii) estimates of sales revenue for the plan year based upon recent market conditions and trends and other factors which, based on historical experience, are expected to affect the level of sales that can be achieved; (iii) historical operating cost and cost savings that management believes can be achieved; and (iv) competitive conditions faced by the Company. Taking all of these factors into account, as part of the operating plan, bonus awards are determined and fixed at what is believed to be a realistic level so as to make the incentives meaningful to executives and to avoid penalizing executives and other key management personnel for conditions outside of their control.

In certain instances, bonuses may be awarded not only on the basis of the Company's overall profitability, but also on the achievement by an executive of specific objectives within his or her area of responsibility. For example, a bonus may be awarded for an executive's efforts in achieving greater than anticipated cost savings, or establishing new or expanded markets for the Company's products. Typically, the maximum bonus that may be awarded for achievement of specific objectives is determined at the beginning of the year to provide the requisite incentive for such performance.

As a result of such performance-based criteria, executive compensation, and the proportion of each executive's total cash compensation that is represented by incentive or bonus income, may increase in those years in which the Company achieves the anticipated level of growth and

profitability. On the other hand, in years in which the Company experiences less than anticipated growth, bonuses and total executive compensation should be lower or not awarded.

As approved under the terms and conditions of the Company's agreement with its senior debt holder, and as reported herein, the Company's former Chief Financial Officer, Executive Vice President and Chief Scientific Officer, Vice President Operations and Vice President Sales and Marketing were each awarded a bonus of \$5,000 in September 2008.

**What is the Company's incentive stock option program?**

The 2005 Stock Option Plan (the "2005 Plan") rewards select executives and key employees as an incentive for them to join or remain in the service of the Company. The Compensation and Stock Option Committee administers the Plan.

---

**How does the Company award stock option grants?**

The Committee generally intends to make stock option grants on an annual basis. Each grant is designed to align the interests of the executive officers with those of the stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. Each grant generally allows the executive officer to acquire shares of the Company's Common Stock at a fixed price per share (usually the market price on the date of grant) over a specified period of time (up to 10 years), thus providing a return to the executive officer only if he or she remains in the employ of the Company and the market price of the shares appreciate over the option term. The size of the option grant to each executive officer generally is set at a level that is intended to create a meaningful opportunity for stock ownership based upon the individual's current position with the Company, but also taken into account are the size of comparable awards made to individuals in similar positions in the industry as reflected in external surveys, the individual's potential for future responsibility and promotion over the option term, the individual's personal performance in recent periods and the number of options held by the individual at the time of grant. Generally, as an executive officer's level of responsibility increases, a greater portion of his or her total compensation will be dependent upon Company performance and stock price appreciation rather than base salary. The relative weight given to these factors varies with each individual, in the sole discretion of the Committee.

**What perquisites and other personal benefits do executive officers have?**

None

**Do executive officers have change-in-control agreements?**

The Company's Chief Executive Officer under a Letter Agreement stating terms of employment dated May 16, 2008, includes terms which would result in full vesting of all outstanding options should a change in control, as defined in the Letter Agreement, occur and if he is also terminated other than for cause, a severance payment equal to twice his then-annual salary. Additionally, provisions are contained in the 2005 Stock Option Plan concerning acceleration of stock options when a Change in Control or a Corporate Transaction, as defined in such Plan, occurs unless the outstanding options are assumed or replaced by the successor corporation with comparable, equalized options or a cash incentive program in accordance with the terms of the 2005 Stock Option Plan.

**How was the Chief Executive Officer's compensation determined last fiscal year?**

The compensation payable to Mr. Jacobson, the Company's Chief Executive Officer was determined by the Committee and was set forth in a Letter Agreement stating terms of employment dated May 16, 2008. Base salary was set at a level which the Board felt would be competitive with the base salary levels in effect for chief executive officers at similarly-sized companies within the industry of \$335,000 annually, plus eligibility for performance-based bonuses in fiscal years 2010 and 2011. Additionally, stock options to purchase shares equivalent to approximately 7.5% of the Company's outstanding common stock were also granted under the Letter Agreement and are included in the Summary Compensation and Fiscal Year-End Option Value tables herein.

### **Report of the Audit Committee of the Board of Directors**

The Audit Committee, which met four (4) times in fiscal 2009, reviewed and discussed the Company's audited financial statements with management. The Audit Committee discussed with Grant Thornton LLP, the Company's independent registered public accounting firm, the matters required to be discussed by Statement of Auditing Standards No. 114, Communication with Audit Committees, which includes, among other items, matters related to the conduct of the audit of the Company's financial statements. The Audit Committee also received written disclosures and the letter from Grant Thornton LLP required by Independence Standards Board Standard No. 1, which relates to the independent registered public accounting firm's independence from the Company and its related entities.

The Audit Committee is governed by the Audit Committee Charter adopted by the Board of Directors, a copy of which was attached as Exhibit A to the 2004 Proxy Statement and is available on the Company's website at [www.cyanotech.com](http://www.cyanotech.com). Pursuant to such Charter, the Audit Committee has the following primary responsibilities:

- 1) Review the performance of the independent registered public accounting firm and make recommendations to the Board of Directors regarding the appointment or termination of the independent registered public accounting firm;
- 2) Confer annually with the independent registered public accounting firm concerning the scope of their examinations of the books and records of the Company and its subsidiaries; reviewing and approving the independent registered public accounting firm's annual engagement letter, and authorizing the independent registered public accounting firm to perform such supplemental reviews or audits as the Committee may deem desirable;
- 3) Review the range and cost of audit and non-audit services performed by the independent registered public accounting firm;
- 4) Review the Company's audited financial statements and the independent registered public accounting firm's opinion rendered with respect to such financial statements, including reviewing the nature and extent of any significant changes in accounting principles or the application thereof;

The firm of Grant Thornton LLP, an independent registered public accounting firm, served as the Company's independent registered public accounting firm for the fiscal year ended March 31, 2009. As stated in Proposal Two, the Audit Committee has selected and the Board has approved Grant Thornton to serve as the Company's independent registered public accounting firm for the fiscal year ended March 31, 2010.

## Edgar Filing: CYANOTECH CORP - Form DEF 14A

Audit services provided by Grant Thornton consisted of the examination of the Company's annual financial statements and services related to filings with the SEC as well as their review of the Company's quarterly financial statements. All fees paid to Grant Thornton were reviewed and considered for independence by the Audit Committee. In addition, the Audit Committee (i) discussed with Grant Thornton the qualification of the partners and managers assigned to the Company's audit, (ii) reviewed with Grant Thornton the quality control system for the US accounting and audit practice to provide reasonable assurance that the audit was conducted with professional standards, and (iii) confirmed with Grant Thornton that there was appropriate continuity of personnel working on our audits and availability of national office consultation.

## STOCKHOLDER PROPOSALS AND NOMINATIONS

Stockholders who wish to present proposals in accordance with Rule 14a-8 of Regulation 14A under the Securities Exchange Act of 1934 which they desire to be considered at the 2010 Annual Meeting of Stockholders must timely submit such proposals in order that they will be received by the Company no later than March 31, 2010. However, submission of a proposal does not assure the proponent that the proposal will be included in the Company's 2010 proxy materials because all applicable rules of the Securities and Exchange Commission (SEC) must be followed by both the proponent and the Company.

In addition, the Company's Bylaws provide a procedure for stockholders to propose a matter (other than a matter brought pursuant to SEC Rule 14a-8) at a meeting of stockholders, or to nominate a person or persons as a director. Procedurally, eligible stockholders must submit for actual receipt by the Company, Attention Corporate Secretary, at its principal executive office, any proposal or nomination within 120-150 days prior to the anniversary date of the prior year's annual meeting of stockholders. To be in proper form, a stockholder's notice must include the specified information concerning the proposal or nominee, as well as the stockholder and possibly affiliated persons, as described in our Bylaws. A stockholder who wishes to consider submitting a proposal or nomination is encouraged to seek independent counsel about our Bylaw requirements and procedures, as well as SEC requirements and procedures. The Company will not consider any proposal or nomination that does not meet all requirements of our Bylaws and of the SEC. The Company also reserves the right to reject, rule out of order, or take other appropriate action with respect to any proposal that does not comply with these and other applicable requirements.
