UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended December 31, 2009

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number 001-31558

BALLY TECHNOLOGIES, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

NEVADA

(State or other jurisdiction of incorporation or organization)

88-0104066

(I.R.S. Employer Identification No.)

6601 S. Bermuda Rd.

Las Vegas, Nevada 89119

(Address of principal executive offices)

(702) 584-7700

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer
(do not check if a smaller reporting company)

Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of Common Stock, \$0.10 par value, outstanding as of February 1, 2010, was 55,222,000 which do not include 3,673,000 shares held in treasury.

Table of Contents**BALLY TECHNOLOGIES, INC. AND SUBSIDIARIES****UNAUDITED CONDENSED CONSOLIDATED SUPPLEMENTAL CASH FLOW INFORMATION**

The following supplemental information is related to the unaudited condensed consolidated statements of cash flows:

	2009	Six Months Ended December 31, (in 000s)	2008
Cash paid for interest	\$	6,118	\$ 15,963
Cash paid for income taxes, net of refunds		11,960	38,005
Non-cash investing and financing transactions:			
Pay-off of debt from refinancing	\$		\$ 275,000
Transfer of inventory to leased gaming equipment (1)		21,019	24,132
Reclassify property, plant and equipment to inventory (1)		2,451	6,767
Acquisition of Bally trademark		7,500	
Accrual of capital expenditures		393	1,334

(1) As a result of the inability to separately identify the cash flows associated with the construction of leased gaming equipment, the Company has included all additions to leased gaming equipment as an increase in inventory under cash used in operating activities in the unaudited condensed consolidated statement of cash flows. In addition, cash generated from the sale of used gaming equipment classified as leased gaming equipment is also included in cash provided by operating activities in the unaudited condensed consolidated statement of cash flows. The Company has one process to procure raw materials for the assembly of both inventory and leased gaming equipment. The materials requisition planning process considers the number of devices the Company expects to build for sale and for use in its gaming operations division during a particular period, but it does not separately earmark purchases for leased gaming equipment. Without such an earmarking process, the Company is unable to determine whether the parts used to construct leased gaming equipment during a particular period came from inventory on hand at the beginning of the period or was constructed from inventory procured during the period of deployment, thus requiring the expenditure of cash.

Table of Contents

BALLY TECHNOLOGIES, INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and reflect all adjustments, consisting of normal recurring adjustments, which management believes are necessary to fairly present the financial position, results of operations and cash flows of Bally Technologies, Inc. (Bally or the Company), a Nevada corporation, and its subsidiaries for the respective periods presented. Certain information and note disclosures normally included in annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to those rules and regulations. The results of operations for an interim period are not necessarily indicative of the results that may be expected for any other interim period or the year as a whole. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto in the Company s Annual Report on Form 10-K for the fiscal year ended June 30, 2009. References to specific U.S. GAAP within this report cite topics within the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

The Company is the general partner of Rainbow Casino Vicksburg Partnership (RCVP), which operates the Rainbow Casino. The limited partner is entitled to receive 10% of the net available cash flows of RCVP after debt service and other items, as defined in the limited partnership agreement, which increases to 20% of the net available cash flows based on the incremental amount of revenues in excess of \$35.0 million, payable quarterly through December 31, 2010. The Company holds the remaining economic interest in the partnership. The Company consolidates RCVP and records an adjustment to reflect the portion of the earnings of RCVP attributable to the limited partner as a noncontrolling interest.

All intercompany accounts and transactions have been eliminated in consolidation.

The Company has evaluated the financial statements for subsequent events occurring between the end of our most recent fiscal quarter and February 2, 2010, the date of filing of this Form 10-Q.

Expense classification

The classification of certain costs within the Unaudited Condensed Consolidated Statement of Operations for the three and six months ended December 31, 2008 has been corrected to conform to the current year presentation. The reclassification reflects certain costs of services associated with revenue presented in *Cost of gaming equipment and systems* of \$1.5 million and \$2.7 million for the three and six months ended December 31, 2008, respectively, that had previously been presented as a component of *Selling, general and administrative expenses*. This correction was not material to the previously issued financial statements and did not have any impact on income from continuing operations, earnings per share, retained earnings, or cash flows.

Recently adopted accounting pronouncements - revenue recognition

Effective July 1, 2009, the Company adopted the provisions of two new Accounting Standards Updates (ASU) affecting revenue recognition: ASU No. 2009-13, *Multiple Deliverable Revenue Arrangements* and ASU No. 2009-14, *Certain Revenue Arrangements That Include Software Elements*. The Company has elected to adopt these ASUs prior to the required effective date using the prospective method as permitted under the guidance. Accordingly, this guidance is being applied to all new or materially modified revenue arrangements entered into since the start of the Company's fiscal year of adoption, which is July 1, 2009.

ASU No. 2009-13 replaces and significantly changes the existing separation criteria for multiple-deliverable revenue arrangements by eliminating the criterion for objective and reliable evidence of fair value for the undelivered products or services to determine a unit of accounting. Instead, revenue arrangements with multiple deliverables should be divided into separate units of accounting if the deliverables meet both of the following criteria:

- The delivered items have value to the customer on a standalone basis. The item or items have value on a standalone basis if they are sold separately by any vendor or the customer could resell the delivered item(s) on a standalone basis; and
- If the arrangement includes a general right of return relative to the delivered items, delivery or performance of the undelivered items is considered probable and substantially in the control of the vendor.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Table of Contents

ASU No 2009-13 also eliminates the use of the residual method of allocation and requires, instead, that arrangement consideration be allocated, at the inception of the arrangement, to all deliverables based on their relative selling price (i.e., the relative selling price method). When applying the relative selling price method, a hierarchy is used for estimating the selling price based first on vendor-specific objective evidence (VSOE), then third-party evidence (TPE) and finally management s estimate of the selling price (ESP).

ASU No 2009-14 amends the scope of software revenue recognition to exclude all tangible products containing both software and nonsoftware components that function together to deliver the product s essential functionality. As a result, certain products that were previously accounted for under the scope of software revenue recognition guidance are no longer accounted for as software. Prior to July 1, 2009, the Company determined its gaming devices included software that was more than incidental to the product as a whole; accordingly, the sales of gaming devices was accounted for under the scope of software revenue recognition guidance. Application of the new guidance resulted in the Company determining that gaming devices no longer fall under the scope of software revenue recognition guidance. Under the new guidance, which applies to new or modified arrangements since July 1, 2009, revenue related to systems arrangements that contain software and nonsoftware deliverables require an allocation of the arrangement fee to the separate deliverables using the relative selling price method. Revenue for the software deliverables continue to be recognized under the software revenue recognition guidance, while revenue for the nonsoftware deliverables, such as gaming devices and other hardware, are no longer accounted for under the software revenue recognition guidance.

The impact of applying the new accounting guidance to new or materially modified arrangements entered into since July 1, 2009, is as follows:

	Three Months Ended December 31, 2009		Six Months Ended December 31, 2009	
	As Reported	Pro Forma Basis as if the Previous Accounting Guidance Were in Effect	As Reported	Pro Forma Basis as if the Previous Accounting Guidance Were in Effect
	(in 000s)			
Revenues:				
Gaming Equipment	\$ 78,791	\$ 73,314	\$ 140,794	\$ 133,649
Systems	57,604	56,754	111,622	110,772
Gaming equipment and systems	\$ 136,395	\$ 130,068	\$ 252,416	\$ 244,421

The impact on future periods is dependent upon the prevalence of multiple deliverable arrangements whereby a combination of gaming devices, hardware, software, maintenance and product support fees and consulting services are sold under one arrangement and the software license is time-based. Under such arrangements, all revenue was previously recognized ratably over the term of the time-based license as the Company was unable to establish VSOE of fair value for the software maintenance and product support, which runs contemporaneously with the license period. Under the new guidance, revenue from non-software elements delivered under such multiple deliverable arrangements will no longer be deferred if VSOE of fair value does not exist for an undelivered element. Rather, the revenue allocated to the non-software elements using the relative selling price method would be recognized upon delivery and customer acceptance, and only the revenue allocated to the software elements will be deferred and recognized over the term of the time-based license.

In allocating the arrangement fees to separate deliverables under the new accounting guidance, the Company used VSOE of selling price for gaming devices, maintenance and professional services; a combination of TPE and ESP for hardware, and ESP for system software deliverables. ESP for system software was determined based upon the Company s normal pricing and discounting practices.

Other recently adopted accounting pronouncements

On July 1, 2009, the Company adopted the new FASB ASC which establishes two levels of U.S. GAAP: authoritative and nonauthoritative. The ASC is now the single source of authoritative nongovernmental U.S. GAAP. All other literature is considered non-authoritative. The Company's adoption of this statement had no impact on the consolidated results of operations, financial position and cash flows, but rather changes the reference used to cite specific FASB accounting literature.

Table of Contents

On July 1, 2009, the Company adopted new accounting guidance related to business combinations which clarifies the accounting for certain separately identifiable intangible assets which an acquirer does not intend to actively use. This guidance requires an acquirer in a business combination to account for a defensive intangible asset as a separate unit of accounting which should be amortized to expense over the period the asset diminishes in value. Future effects will be dependent upon acquisitions of defensive intangible assets, if any, at that time. In addition, there is new guidance for determining the useful life of a recognized intangible asset. This guidance is applied prospectively to intangible assets acquired after the effective date. However, the disclosure requirements are applied prospectively to all intangible assets recognized in financial statements. In addition, the new guidance requires that an acquiring entity recognize all of the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions, requires the expense of acquisition costs, and also includes a substantial number of new disclosure requirements. The Company's adoption of this guidance did not have a significant impact on the disclosures or the consolidated results of operations, financial position and cash flows for the three and six months ended December 31, 2009.

On July 1, 2009, the Company adopted new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. Specifically, this guidance requires the recognition of a noncontrolling interest (minority interest) as equity in the consolidated financial statements and separate from the parent's equity. The amount of net income attributable to the noncontrolling interest will be included in consolidated net income on the face of the income statement. This guidance also clarifies that changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation are equity transactions if the parent retains its controlling financial interest and requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated. Such gain or loss will be measured using the fair value of the noncontrolling equity investment on the deconsolidation date. The guidance also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The adoption of this statement did not have a material impact on the consolidated results of operations, financial position and cash flows, but did affect presentation and disclosure. As a result of the adoption, the Company reclassified noncontrolling interests in the amount of \$2.4 million from minority interest to equity in the June 30, 2009 Unaudited Condensed Consolidated Balance Sheets and Statements of Stockholders' Equity. Certain reclassifications to the Unaudited Condensed Consolidated Statements of Operations and Unaudited Condensed Consolidated Statements of Cash Flows have been made to prior period amounts to conform to the presentation of the current period. Recorded amounts for prior periods previously presented as Net income which are now presented as Net income attributable to Bally Technologies Incorporated, have not changed as a result of the adoption of this guidance.

On July 1, 2009, the Company adopted new accounting guidance requiring additional disclosures about fair value of financial instruments in interim and annual financial statements. The Company's adoption of this guidance resulted in the disclosure of information about the fair value of financial instruments consistent with the disclosures in the Company's most recent annual financial statements.

Fair value of financial instruments

The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. The carrying amounts reflected in the accompanying unaudited condensed consolidated balance sheets for cash equivalents, accounts and notes receivable, investment to fund jackpot liabilities, accounts payable, jackpot liabilities and long-term debt approximate their respective fair values.

All financial assets and liabilities are recognized or disclosed at fair value using a fair value hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. There are three levels of inputs that may be used to measure fair value:

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

- Level 1: quoted prices in active markets for identical assets or liabilities;

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Table of Contents

The Company's only significant financial asset or liability measured at fair value on a recurring basis, excluding accrued interest components, consisted of a cash flow hedge related to a variable rate debt instrument as of December 31, 2009 (which is included in accrued liabilities in the unaudited condensed consolidated balance sheets) as follows:

	Fair Value Measurements Using Input Type			Total
	Level 1	Level 2 (in 000s)		
Liability:				
Derivative financial instrument	\$	\$	1,040	\$

At June 30, 2009, the derivative financial instrument was an asset valued at \$255,000. The valuation techniques used to measure the fair value of the derivative financial instrument above in which the counterparties have high credit ratings, were derived from pricing models, such as discounted cash flow techniques, with all significant inputs derived from or corroborated by observable market data. The Company's discounted cash flow techniques use observable market inputs, such as LIBOR-based yield curves. See Note 4 to unaudited condensed consolidated financial statements, *Long-Term Debt*.

Accounting for Derivative Instruments and Hedging Activity

The Company assesses, both at the inception of each hedge and on an on-going basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. Such highly effective derivatives are granted hedge accounting treatment. The derivative financial instrument meets these requirements and is accounted for as a cash flow hedge.

The impact of the cash flow hedge on the unaudited condensed consolidated financial statements is depicted below:

Fiscal 2010:

	Amount of Gain (Loss) Recognized in OCI on Derivative (Effective Portion)		Location of Gain (Loss) Reclassified from Accumulated OCI into Income (Effective Portion) (in 000s)	Amount of Gain (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	
	Three Months Ended	Six Months Ended		Three Months Ended	Six Months Ended
Derivative in Cash Flow Hedging Relationship	December 31, 2009	December 31, 2009		December 31, 2009	December 31, 2009
Interest rate swap agreement	\$ (568)	\$ (2,798)	Interest expense	\$ (822)	\$ (1,503)

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Fiscal 2009:

Derivative in Cash Flow Hedging Relationship	Amount of Gain (Loss) Recognized in OCI on Derivative (Effective Portion)		Location of Gain (Loss) Reclassified from Accumulated OCI into Income (Effective Portion) (in 000s)	Amount of Gain (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	
	Three Months Ended	Six Months Ended		Three Months Ended	Six Months Ended
	December 31, 2008	December 31, 2008		December 31, 2008	December 31, 2008
Interest rate swap agreement	\$ (680)	\$ (680)	Interest expense	\$	\$

Table of Contents*Inventories*

Inventories are stated at the lower of cost, determined on a first in, first out basis, or market. Cost elements included in work-in-process and finished goods include raw materials, direct labor and manufacturing overhead. Inventories consist of the following:

	December 31, 2009	(in 000s)	June 30, 2009
Raw materials	\$ 34,726		\$ 40,662
Work-in-process	1,007		1,432
Finished goods	7,959		10,848
Total	\$ 43,692		\$ 52,942

2. EARNINGS PER SHARE

Basic earnings per share are computed by dividing earnings by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflect the additional dilution from all potentially dilutive securities.

The following computation of basic and diluted earnings per share applicable to the Company's common stock is as follows:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2009	2008	2009	2008
	(in 000s, except per share amounts)			
Net income attributable to Bally Technologies, Inc.	\$ 33,253	\$ 33,564	\$ 63,877	\$ 63,868
After tax interest expense on convertible debt		62	14	131
Diluted earnings attributable to Bally Technologies, Inc.	\$ 33,253	\$ 33,626	\$ 63,891	\$ 63,999
Weighted average common shares outstanding	54,518	54,419	54,393	54,745
Dilutive effect of:				
Stock options, Restricted Stock Units (RSU) and restricted stock	3,206	2,038	3,257	2,436
Warrants	26		24	11
Convertible debt (1)		274	44	236
Weighted average diluted shares outstanding	57,750	56,731	57,718	57,428
Basic earnings attributable to Bally Technologies, Inc. per share	\$ 0.61	\$ 0.62	\$ 1.17	\$ 1.17
Diluted earnings attributable to Bally Technologies, Inc. per share	\$ 0.58	\$ 0.59	\$ 1.11	\$ 1.11

(1) The Company had certain related party debt outstanding which was convertible into common stock at the Company's discretion. The related party debt was paid in full in December 2009. See Note 5 to unaudited condensed consolidated financial statements, *Related Party Transactions*.

Certain securities were excluded from the diluted per share calculation because their inclusion would be anti-dilutive. Such securities consist of the following:

	Three Months Ended December 31,		(in 000s)	Six Months Ended December 31,	
	2009	2008		2009	2008
Stock options, RSU and restricted stock	394	2,523		323	869
Warrants		100			
	394	2,623		323	869

Table of Contents**3. GOODWILL AND INTANGIBLE ASSETS**

Intangible assets consist of the following:

	Useful Life (Years)	December 31, 2009			June 30, 2009		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount (dollars in 000s)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Computer software	3 - 9	\$ 33,794	\$ (25,874)	\$ 7,920	\$ 27,488	\$ (19,083)	\$ 8,405
License rights	3 - 5	3,764	(1,952)	1,812	2,117	(1,814)	303
Trademarks	5	2,203	(1,889)	314	2,203	(1,693)	510
Core technology	5 - 8	22,763	(8,465)	14,298	22,763	(6,585)	16,178
Contracts	10	10,043	(5,866)	4,177	10,043	(5,364)	4,679
Other intangibles	3 - 7	1,686	(986)	700	7,627	(5,504)	2,123
Total finite lived intangible assets		74,253	\$ (45,032)	\$ 29,221	\$ 72,241	\$ (40,043)	\$ 32,198
Trademark	indefinite	7,500		7,500			
Total		\$ 81,753	\$ (45,032)	\$ 36,721	\$ 72,241	\$ (40,043)	\$ 32,198

In September 2009, the Company recorded an intangible asset of approximately \$7.5 million related to one-time consideration given for a perpetual, world-wide license for the use of the Bally trademark in connection with the Company's business. Consideration for this intangible asset included approximately \$5.0 million related to the delivery of gaming devices and \$2.5 million in forgiveness of certain customer receivable balances. Previously, a royalty fee was paid and expensed based upon the number of units produced and sold using the trademark.

Total amortization expense related to finite lived intangible assets for the three months ended December 31, 2009 and 2008 was \$2.5 million and \$2.3 million, respectively, which included computer software amortization expense of \$1.1 million and \$1.0 million, respectively. Total amortization expense related to finite lived intangible assets for the six months ended December 31, 2009 and 2008 was \$5.0 million and \$4.5 million, respectively, which included computer software amortization expense of \$2.3 million and \$2.0 million, respectively. Future amortization of finite lived intangible assets is scheduled as follows:

Year Ended June 30,	(in 000s)
2010 (remaining six months of fiscal year)	\$ 5,151
2011	8,519
2012	6,261
2013	5,170
2014	1,516
Thereafter	2,604
Total	\$ 29,221

All goodwill is associated with the Gaming Equipment and Systems segment. The changes in the carrying amount of goodwill for the six months ended December 31, 2009, are as follows:

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

	(in 000s)	
Balance at June 30, 2009	\$	161,960
Foreign currency translation adjustment		125
Balance at December 31, 2009	\$	162,085

Table of Contents**4. LONG-TERM DEBT**

Long-term debt consists of the following:

	December 31, 2009	(in 000s)	June 30, 2009
Term loan facility	\$ 191,250		\$ 206,250
Related party debt (see Note 5)			2,800
Other, generally unsecured		47	37
Long-term debt		191,297	209,087
Less current maturities		(37,547)	(35,337)
Long-term debt, net of current maturities	\$ 153,750		\$ 173,750

On September 29, 2008, the Company entered into a \$225.0 million term loan and a \$75.0 million revolving credit facility (collectively, the Credit Facility). The Credit Facility matures in September 2012. The Company has the option to request an increase in the size of the term loan and/or revolving credit facility by up to \$50.0 million in the aggregate provided that certain conditions are met. The proceeds from the Credit Facility and cash-on-hand of \$14.6 million were used to repay the then existing bank term loans totaling \$289.6 million. The Company also used cash-on-hand to pay for transaction fees and expenses totaling \$10.7 million, which are being amortized to interest expense over the term of the Credit Facility.

As of December 31, 2009, there was approximately \$75.0 million of undrawn availability under the revolving credit facility. Availability under the revolving credit facility is reduced to the extent of outstanding letters of credit.

The interest rate on the term loan is subject to a leverage-based pricing grid. If the Company's leverage ratio, as defined under the term loan, is greater than 1.5, the interest rate will be LIBOR plus a margin of 3.25%; if the leverage ratio is between 1.0 and 1.5, the interest rate will be LIBOR plus a margin of 3.00%; and if the leverage ratio is below 1.0, the interest rate will be LIBOR plus a margin of 2.75%. In December 2008, the Company entered into a floating-to-fixed interest rate swap, as discussed below, fixing the interest rate of the term loan at 1.89% plus the applicable margin (2.75% at December 31, 2009) for the remaining term.

The term loan is in its second year and requires quarterly principal reductions of \$8.75 million through September 30, 2010 and \$11.25 million during each of the third and fourth years of the agreement, with a balloon payment due at maturity in September 2012. The Credit Facility is collateralized by substantially all of the Company's domestic property and is guaranteed by each of the Company's domestic subsidiaries, excluding any noncontrolling interests, and is secured by a pledge agreement.

The Credit Facility contains a number of covenants that, among other things, restrict the ability of the Company and certain of its subsidiaries to dispose of assets, incur additional indebtedness or issue preferred stock, pay dividends or make other distributions, enter into certain acquisitions, repurchase equity interests or subordinated indebtedness, issue or sell equity interests of the Company's subsidiaries, engage in mergers or acquisitions or certain transactions with subsidiaries and affiliates, and that otherwise restrict corporate activities.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

The financial covenants under the Credit Facility consist of a leverage ratio and a fixed charges coverage ratio. The leverage ratio is computed as total debt outstanding at the end of the quarter divided by the trailing twelve months Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), excluding certain cash and non-cash charges. The fixed charges coverage ratio is computed as EBITDA, adjusted for both the trailing twelve months capital expenditures, share repurchases and cash taxes paid, divided by the trailing twelve months interest charges plus all payments of principal made during the previous twelve months.

A breach of any of the covenants or the inability to comply with the required financial ratios could result in a default under the Credit Facility. In the event of any such default, the lenders could elect to declare all borrowings outstanding under the Credit Facility, together with any accrued interest and other fees, to be due and payable. If the Company were unable to repay the indebtedness upon its acceleration, the lenders could proceed against the underlying collateral.

The Company was in compliance with all of the Credit Facility covenants as of December 31, 2009.

Table of Contents

The Company's related party debt, which totaled approximately \$2.8 million as of June 30, 2009, was paid in full during the quarter. It consisted of the debt owed to the former principals of Sierra Design Group (SDG). See Note 5, *Related Party Transactions*.

Interest Rate Swap Agreement

In December 2008, the Company entered into a floating-to-fixed interest rate swap agreement with an original notional value of \$218.8 million and a maturity date of September 26, 2012. This interest rate swap serves to fix the floating LIBOR based debt under the term loan to fixed rate debt at an interest rate of 1.89% plus the applicable margin to manage the risk exposure to interest rate fluctuations.

The Company has documented and designated this interest rate swap as a cash flow hedge. Based on the assessment of effectiveness using statistical regression, the Company determined that the interest rate swap is effective. Effectiveness testing of the hedge relationship and measurement to quantify ineffectiveness is performed each fiscal quarter using the hypothetical derivative method. As the interest rate swap qualifies as a cash flow hedge, the Company adjusts the cash flow hedge on a quarterly basis to its fair value with a corresponding offset to accumulated OCI. The interest rate swap has been and is expected to remain highly effective for the life of the hedge. Effective amounts are reclassified to interest expense as the related hedged expense is incurred. Any ineffectiveness is reclassified from accumulated other comprehensive income to other income (expense). As of December 31, 2009, the Company had no ineffectiveness on its cash flow hedge. Amounts related to the swap expected to be reclassified from other comprehensive income to interest expense in the next twelve months total \$2.3 million.

Additional information on the Company's interest rate swap is as follows:

Interest Rate Swaps	Balance Sheet Location	Fair Value (in 000s)	Location of Offsetting Balance
Cash flow hedge \$191.3 million LIBOR based debt	Accrued Liabilities	\$ 1,040	Accumulated other comprehensive loss

5. RELATED PARTY TRANSACTIONS

In connection with the acquisition of SDG, the consideration paid included subordinated debt issued to the former principals of SDG. Certain of the former principals are now employees of the Company. At the Company's discretion, the principal and accrued interest thereon can be paid in cash, or can be converted into shares of the Company's common stock using the average stock price for the 20 business days prior to the delivery of such shares. As of June 30, 2009, the subordinated debt totaled \$2.8 million, all of which was included in current maturities. The subordinated debt was paid in full in December 2009.

Table of Contents**6. SHARE-BASED COMPENSATION***Employee Stock Purchase Plan*

In February 2008, the Company's stockholders approved the 2008 Employee Stock Purchase Plan (the 2008 ESPP Plan). The 2008 ESPP Plan provides that eligible employees are able to contribute up to 10% of their eligible earnings towards the quarterly purchase of the Company's common stock. The employee's purchase price is equal to 85% of the fair market value on date of purchase. During the six months ended December 31, 2009 and 2008, employees purchased 24,935 shares and 39,305 shares of common stock for approximately \$0.9 million and \$0.8 million, respectively, under the 2008 ESPP Plan.

Share-Based Award Plans

Stock option activity as of and for the six months ended December 31, 2009 is summarized below:

	Shares (in 000s)	Exercise Price (per share)	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in 000s)
Balance outstanding as of June 30, 2009	6,903	\$ 17.96		\$ 85,222
Granted	317	40.10		
Exercised	(1,363)	13.57		
Forfeited or expired	(38)	27.45		
Balance outstanding as of December 31, 2009	5,819	\$ 20.13	5.09	\$ 123,679
Exercisable as of December 31, 2009	4,348	\$ 17.92	4.76	\$ 101,816

Restricted stock and RSU activity as of and for the six months ended December 31, 2009 is summarized below:

	Restricted Stock (in 000s)	Weighted Average Grant Date Fair Value (per share)	RSUs (years)	Weighted Average Grant Date Fair Value (in 000s)
Balance outstanding as of June 30, 2009	310	\$ 30.42	623	\$ 17.71
Granted	105	38.98	42	38.98
Released	(26)	21.38	(8)	41.60
Forfeited or expired				
Balance outstanding as of December 31, 2009	389	\$ 33.35	657	\$ 18.77
Vested as of December 31, 2009			537	\$ 16.18

Share-Based Compensation

The following table presents share-based compensation expense included in the Company's unaudited condensed consolidated statements of operations:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2009	2008	2009	2008
	(in 000s)			
Selling, general and administrative	\$ 2,818	\$ 2,874	\$ 5,459	\$ 5,769
Research and development	777	633	1,596	1,259
Cost of gaming equipment and systems and operations	37	31	76	68
Share-based compensation expense before tax	3,632	3,538	7,131	7,096
Income tax benefit	1,271	1,239	2,496	2,484
Net share-based compensation expense	\$ 2,361	\$ 2,299	\$ 4,635	\$ 4,612

Table of Contents

As of December 31, 2009, there was \$14.6 million of total unrecognized compensation expense related to the unvested portion of stock options which will be recognized over the subsequent 1.90 years. In addition, as of December 31, 2009, there was \$10.0 million of total unrecognized compensation expense related to the unvested portion of restricted stock and RSUs which will be recognized over the subsequent 1.70 years.

7. STOCKHOLDERS EQUITY, WARRANTS AND RIGHTS

Warrants

The Company issued 100,000 stock purchase warrants in February 2004 in connection with an acquisition. The strike price of the warrant is \$24.69 with a term of seven years. During the six months ended December 31, 2009, 36,710 stock purchase warrants were exercised and converted into 14,290 shares of the Company's common stock. The exercises were cashless and net shares were issued for the difference between the strike price of the warrant and the market value of the Company's common stock upon exercise.

Share Repurchase Plan

On January 28, 1999, the Company's Board of Directors approved a share repurchase plan under which, subject to price and market conditions, purchases of shares could be made from time to time in the open market or in privately negotiated transactions using available cash. The Company's share repurchase limit was set on August 12, 2008 under the existing share repurchase plan at \$100 million. On December 2, 2009, the Board of Directors approved a new share repurchase plan to purchase up to \$100 million of common stock effective January 1, 2010. The new plan replaced the Company's existing \$100 million share repurchase plan.

During the six months ended December 31, 2009 and 2008, the Company repurchased 793,869 shares and 1,066,000 shares of common stock for \$31.1 million and \$27.0 million, respectively, under the previous share repurchase plan. As of January 1, 2010, \$100.0 million is available to be repurchased under the new share repurchase plan.

Special Stock

The Company's Articles of Incorporation authorize the issuance of up to 10,000,000 shares of special stock ("Special Stock"). The Special Stock may be issued from time to time in one or more series, each having such designations, preferences and relative, participating, optional or other special rights, qualifications, limitations or restrictions as shall be stated and expressed in the resolution providing for the issuance of Special Stock or any series thereof adopted by the Board of Directors. Special Stock consists of non-voting stock where no holder of the Special Stock shall be entitled to vote at any meeting of stockholders or otherwise, except as may be specifically provided by law or as approved by the Board of Directors in certain limited circumstances at the time of the stock issuance.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

To date, there have been four series of Special Stock authorized for issuance: the Initial Series, the Series B, the Series E and the Series F. In June 1996, the Company issued shares of Series E Special Stock to certain holders of the Company's 7 1/2% Convertible Subordinated Debentures (which were retired in 1996) who elected to receive such stock in lieu of receiving common stock. The holders of shares of Series E Special Stock have no voting rights except as required by law. A total of 115 shares of Series E Special Stock remain outstanding. No other shares of Special Stock remain outstanding.

8. INCOME TAXES

The provision for income taxes for interim periods is based on the current estimate of the annual effective tax rate expected to be applicable for the full fiscal year and the impact of discrete items, if any. The effective income tax rate was approximately 33.7% and 35.5% for the three months ended December 31, 2009 and 2008, respectively, and 34.5% and 36.0% for the six months ended December 31, 2009 and 2008, respectively. The lower rate in fiscal 2010 predominantly reflects changes in the forecasted geographical mix of taxable income for the fiscal year.

Table of Contents

The Internal Revenue Service (IRS) is examining the Company's United States federal income tax returns for 2003 through 2005. Throughout the examination, the IRS has proposed, and management has agreed to certain adjustments related to the open tax years that have been recorded in the income tax provision. In January 2009, the IRS completed its field examination of the open tax years and issued a Revenue Agent's Report (RAR). Also in January 2009, the Company paid \$3.4 million in tax and \$1.2 million in interest to the IRS to settle certain agreed adjustments. The Company filed a formal protest regarding certain unagreed adjustments and the case was assigned to the IRS Appeals Office in August 2009. The opening conference with the IRS Appeals Officer is set for March 2010. If successful in defending the Company's position, it would result in a reduction to unrecognized tax benefits and a corresponding reduction of income tax provisions of approximately \$4.8 million, excluding interest. If the IRS were to prevail in full, it would result in additional income tax provisions of approximately \$5.4 million, plus interest, for the tax years through 2005.

It is reasonably possible that within the next twelve months the Company will resolve some of the matters presently under consideration with the IRS which may increase or decrease unrecognized tax benefits for the open tax years. However, an estimate of such increase or decrease cannot reasonably be made.

As of December 31, 2009, the Company has accrued \$17.1 million related to uncertain tax positions, excluding related accrued interest and penalties, \$15.2 million of which, if recognized, would impact the effective tax rate. As of December 31, 2009, the Company has \$5.4 million accrued for the payment of interest and penalties.

9. COMMITMENTS AND CONTINGENCIES

Litigation

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties, or other sources are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated. The Company has not recorded any loss accruals for these contingencies.

On December 7, 2004, IGT filed a patent infringement lawsuit against the Company in the United States District Court for the District of Nevada. The complaint asserted that the Company's wheel-based games, such as Monte Carlo, Lucky Wheel and Cash For Life, its games with a reel in the top box, such as Bonus Frenzy, and its iVIEW products infringed on patents held by IGT, and sought injunctive relief and damages in unspecified amounts. As part of the defense, the Company asserted counterclaims seeking damages and other relief against IGT, including claims that IGT's patents were invalid, unenforceable and not infringed, as well as several claims that IGT engaged in anti-competitive conduct in violation of state and federal antitrust laws. In October 2008, the court granted the Company's motions for summary judgment, ruling that IGT's two wheel patents and a touch-screen player-tracking patent were invalid; that even if the patents were valid, the Company's wheel-based games at issue would not infringe; and that certain of its iVIEW products do not infringe the two asserted player-tracking patents. The court also found issues of material fact regarding IGT's alleged inequitable conduct before the U.S. Patent and Trademark Office and denied IGT's motions to dismiss those claims, leaving them for trial. However, the court postponed the trial until after IGT has appealed the court's summary judgments on patent infringement and validity. IGT appealed, and on October 22, 2009, the U.S. Court of Appeals for the Federal Circuit affirmed the District Court's decision in its entirety.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

In April 2006, IGT filed a patent infringement lawsuit against the Company in the United States District Court for the District of Delaware. The complaint asserted that the Company's Bally Power Bonusing products infringe patents held by IGT, and sought injunctive relief and damages in unspecified amounts. Of the nine patents and 200 claims originally filed in the case by IGT, all but three patents and eight claims have been dismissed. On April 28, 2009, the District Court issued an order finding that the Company's Power Promotions, Power Bank, and SDS/CMP Power Winners products do not infringe IGT's patents. The court also found that the Company's ACSC Power Winners and ACSC Power Reward products infringe some patent claims asserted by IGT, but not others. Appeals by both parties are expected. In the meantime, the Company has undertaken technical changes to ensure non-infringement for the two products partially in question, and on December 22, 2009, the court denied IGT's motion for a permanent injunction against the products. The Company does not believe that potential infringement damages, if any, would be material to its financial position as the revenues from these two products to date have not been material.

In September 2006, the Company filed a patent infringement lawsuit against IGT in the United States District Court for the District of Nevada. The complaint asserted that certain of IGT's bonus wheel games infringe a patent held by the Company, and sought injunctive relief and damages. IGT filed an answer generally denying the claims and filed a motion for summary judgment which was granted in September 2008 declaring the wheel patent obvious and therefore invalid. On October 22, 2009, the U.S. Court of Appeals for the Federal Circuit affirmed the District Court's decision.

Table of Contents**10. SEGMENT AND GEOGRAPHICAL INFORMATION**

The Company operates in two business segments: (i) Bally Gaming Equipment and Systems which designs, manufactures, assembles, distributes and operates gaming devices and licenses computerized monitoring and bonusing systems for gaming devices, and (ii) Casino Operations which owns and operates a casino in Vicksburg, Mississippi.

Certain expenses related to Company-wide initiatives are managed at the corporate level and are not allocated to either operating segment. The accounting policies of these segments are consistent with the Company's policies for the unaudited consolidated condensed financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We begin this section with a summary of our key operating business divisions as of December 31, 2009. The overview is followed by a detailed analysis of our results of operations and our financial condition and liquidity as of and for the three and six months ended December 31, 2009 and 2008. References to we, our, us, or the Company refer to Bally Technologies, Inc. and its subsidiaries.

Forward Looking Statements

Certain statements made or incorporated by reference in this Quarterly Report on Form 10-Q, in our other filings with the Securities and Exchange Commission (SEC), in our press releases and in statements made by or with the approval of authorized personnel constitute forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act) and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), and are subject to the safe harbor created thereby. Forward looking statements reflect intent, belief or current expectations with respect to, among other things, future events and financial trends affecting us. Forward looking statements are typically identified by words such as believes, estimates, expects, anticipates, plans, should, would and expressions.

Although we believe the expectations reflected in any forward looking statements are reasonable, readers are cautioned that forward looking statements involve known and unknown risks and uncertainties, are not guarantees of future performance and that actual results, performance or achievements may differ materially from any future results, performance or achievements expressed or implied by such forward looking statements. These differences can arise as a result of the risks described in Item 1A, Risk Factors included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2009 (the 2009 10-K), as well as other factors such as the impact of competition, the impact of any prolonged downturn in the economy or the financial markets, our ability to service debt, product development, foreign operations, dependence on key personnel, the ability to integrate future acquisitions, regulation by gaming authorities, the outcome of pending litigation matters, gaming taxes, market risks and the potential adverse effects to our financial condition, results of operations or prospects.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Forward looking statements in this Quarterly Report on Form 10-Q speak only as of the date hereof, and forward looking statements in documents incorporated by reference speak only as of the date of those documents. Unless otherwise required by law, we undertake no obligation to publicly update or revise these forward looking statements, whether as a result of new information, future events or otherwise. In light of these risks and uncertainties, we cannot assure you that the forward looking statements contained in this Quarterly Report on Form 10-Q will, in fact, transpire.

Business Overview

We are a diversified, worldwide gaming company that designs, manufactures, distributes and operates gaming devices and computerized monitoring and accounting systems for gaming devices. In addition to selling our gaming devices, we also offer our customers a wide range of rental options. Our primary technologies include gaming devices for land-based, riverboat and Native American casinos, video lottery and central determination markets and specialized system-based hardware and software products. Our specialized system-based hardware and software products provide casinos with a wide range of marketing, data management, accounting, security and other software applications and tools to more effectively manage their operations. We also own and operate the Rainbow Casino, a dockside riverboat casino in Vicksburg, Mississippi.

We derive our revenue from the following four sources:

- *Gaming Equipment* Sale of gaming devices and related equipment, parts and conversion kits;
- *Gaming Operations* Operation of linked progressive systems, video lottery and centrally determined systems and the rental of gaming devices and content;
- *Systems* Sale of computerized monitoring systems and related recurring hardware and software maintenance revenue; and
- *Casino Operations* Operation of the Rainbow Casino.

We report our revenue and income in two reportable segments: the Bally Gaming Equipment and Systems segment, which includes our Gaming Equipment, Gaming Operations and Systems divisions, and our Casino Operations segment. Our total revenues were \$213.5 million and \$233.3 million for the three months ended December 31, 2009 and 2008, respectively, and \$410.0 million and \$470.7 million for the six months ended December 31, 2009 and 2008, respectively. Revenue from our Bally Gaming Equipment and Systems segment represented approximately 96% of our total revenues for both the three and six months ended December 31, 2009 and 2008, respectively.

We review certain financial measures in assessing our financial condition and operating performance not only in connection with creating our forecasts and in making comparisons to financial results from prior periods, but also in making comparisons to our competitors' financial results. We focus on fluctuations in revenue, cost and gross margin and also pay close attention to changes in consolidated operating income, net income, diluted earnings per share, adjusted EBITDA (earnings before interest, taxes, depreciation and amortization, including asset charges and share-based compensation), cash flows from operations and free cash flow (cash flows from operating activities less capital expenditures) as they are key indicators of our success in growing our business. We also measure changes in selling, general and administrative (SG&A) expenses as a percent of revenue, which indicate management's ability to control costs, as well as changes in research and development as a percent of revenue, which demonstrate investment in our technology assets. The measures listed above are not a comprehensive list of all factors considered by us in assessing our financial condition and operating performance, and we may consider other individual measures as required by trends and discrete events arising in a specific period, but they are the key indicators that we generally weigh most heavily from period to period.

We are currently operating in a challenging economic environment and the combination of economic uncertainty, lower demand for replacement products and reduced opportunities from new or expanded markets has negatively impacted our consolidated results. The gaming sector was negatively impacted by lower consumer spending and limited resources available to fund capital projects. The replacement cycle for gaming machines in North America continues to be sluggish, but we are cautiously optimistic that gaming operators' replacement game buying demand will begin to improve in calendar 2010. In fiscal year 2010, we have or will be releasing new cabinets and a more advanced operating system which will drive better quality games. During the three months ended December 31, 2009 and 2008, we sold 3,342 and 4,889 new gaming devices in the United States and Canada, respectively, and during the six months ended December 31, 2009 and 2008, we sold 5,760 and 10,088

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

new gaming devices in the United States and Canada, respectively. The adverse affects of the sluggish demand for game sales on our revenues is partially offset by the performance of gaming operations, our systems business, and our continued expansion into international markets during the period. International revenues were \$39.8 million and \$32.5 million for the three months ended December 31, 2009 and 2008, respectively, and \$75.3 million and \$66.6 million for the six months ended December 31, 2009 and 2008, respectively.

Table of Contents

Despite the challenging economic conditions, we have experienced continued strength in Gaming Operations and Systems revenues during the period. Gaming Operations revenues were \$68.6 million and \$66.4 million during the three months ended December 31, 2009 and 2008, respectively, and \$139.9 million and \$134.2 million for the six months ended December 31, 2009 and 2008, respectively. Revenues were higher than in the prior periods due primarily to the continued performance of existing and new premium game units and expansion in our centrally determined business. Gaming operations margins improved due to better management of our capital, more strategic placements and supply chain efficiencies. In addition, we experienced significant growth in the installed base of our centrally determined systems which increased by approximately 5,338 units over December 31, 2008 due primarily to increased placements, especially in the Class II and centrally determined markets. We recently released or are about to release some new products including our new spinning-wheel game, Cash Wheel , including Hot Shots Cash Wheel , our all new Digital Tower Series platform, which includes 77777 Jackpot , Fireball , Cash Spin, the first title using our U-Spin feature, and our Jumbo and DualVision cabinets. We continue to focus our efforts on the introduction of new and innovative games and cabinets both for our video and stepper platforms.

Systems revenues were \$57.6 million and \$55.9 million for the three months ended December 31, 2009 and 2008, respectively, and \$111.6 million and \$108.2 million for the six months ended December 31, 2009 and 2008, respectively. Maintenance revenue increased 20% in the three months ended December 31, 2009, and 15% in the six months ended December 31, 2009, when compared to the same periods in the prior year, as a result of an increased install base of customers on our systems. For systems, the new SDS® Version 11, which runs on both Unix and Windows off the same code base, our iVIEW Display Manager , and our Power Bonusing products are generating positive interest. During fiscal 2010, we released Version 11.0 systems products, added new international contracts, and in October 2009, a large resort and casino in southern California signed an agreement with the Company to provide up to 5,000 iVIEW Display Manager controllers. Over the last few years, we continued our focus on the basics of enterprise software development, delivery, customer support and services discipline, on improving core products, providing quality upgrade options for our customers, and increasing customer satisfaction levels through better service and support which are all serving us well in these difficult economic times.

There have been several recent developments fueled by the economic situation that we believe will benefit us in the long term. Domestically, we are focused on new opportunities including the actual or potential expansion of gaming in Ohio, Illinois, Kansas, Iowa, Maryland, Massachusetts, and New Hampshire. The breadth and timing of such opportunities remains uncertain due to the legislative process in these jurisdictions, as well as the difficult credit environment facing our customers and the risk of continued economic uncertainty. We are also engaged in expanding our position in Mexico as it moves to Class III gaming, as well as opportunities in the Italian and Australian markets. Further, as we continue to grow and become a strong player in Asia, opportunities are anticipated to arise in that region which would enable us to expand internationally.

Net cash provided by operating activities was \$50.4 million and \$73.5 million during the six months ended December 31, 2009 and 2008, respectively. Cash flow from operations decreased 31% for the six months ended December 31, 2009, when compared to the same period last year. Each fiscal period had similar operating results, but the current fiscal period's cash flow from operations was negatively impacted primarily by increases in accounts and notes receivable, when compared to the same period last year. Since December 31, 2008, we have also reduced our debt by \$89.4 million, including paying down the revolving line of credit to zero.

For the three months ended December 31, 2009, revenues from the Rainbow Casino decreased to \$8.5 million from \$9.6 million in the same period last year, and for the six months ended December 31, 2009, revenue decreased to \$17.7 million from \$19.7 million in the same period last year. These decreases reflect the impact of competition from a new casino that opened in late October 2008, other nearby expansions, and the current challenging economic environment.

Management continuously monitors and reviews its SG&A expenses in comparison to revenues. SG&A expenses increased as a percentage of revenue to 26% and 25% during the three and six months ended December 31, 2009, respectively, when compared to 25% and 24% during the

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

same periods in the prior year, respectively, due primarily to a \$3.0 million insurance reimbursement recognized in the same period last year. The reimbursement was from claims for the 2005 U.S. Gulf Coast hurricanes, which destroyed or temporarily shut down our gaming operations in the region when our rental and daily fee games were destroyed in third party locations.

Table of Contents**Results of Operations**

Our results of operations are summarized below:

	Overall Consolidated Operating Results							
	Three Months Ended December 31,				Six Months Ended December 31,

Bally Gaming Equipment and Systems

We are one of the leading providers of technology to the gaming industry. The Bally Gaming and Systems segment consists of three primary sub-groups: Gaming Equipment, which includes the sale of gaming devices and related equipment, parts and conversion kits; Gaming Operations, which includes the operation of wide-area progressive, video lottery and centrally determined systems and the rental of gaming devices and content; and Systems, which includes the sale and support of computerized monitoring systems and related recurring hardware and software maintenance revenue.

The summary financial results and operating statistics for Bally Gaming Equipment and Systems are as follows:

	Three Months Ended December 31,				Six Months Ended December 31,			
	2009	%	2008	%	2009	%	2008	%
(dollars in millions)								
Revenues:

Three Months Ended December 31, 2009 Compared to Three Months Ended December 31, 2008

Total revenues for our Bally Gaming Equipment and Systems segment decreased \$18.6 million, or 8%, in the three months ended December 31, 2009, when compared to the same period last year, as a result of the following:

Gaming Equipment Revenue. Gaming Equipment revenue decreased \$22.5 million, or 22%, to approximately \$78.8 million primarily as a result of an 18% decrease in new gaming device sales to 4,997 units in the three months ended December 31, 2009, when compared to 6,099 units in the same period last year. New gaming device sales decreased due to a continued sluggish North America replacement market and fewer new casino openings and expansions during this quarter as compared to the same period last year. ASP decreased to \$14,289 in the three months ended December 31, 2009 compared to \$14,531 in the same period last year. The 2% decrease in ASP was driven by the mix of new products sold in the comparative periods.

Gaming Equipment Gross Margin. Gaming Equipment gross margin increased to 53% in the three months ended December 31, 2009 from 49%, in the same period last year, primarily as a result of improved purchasing and manufacturing efficiencies. In addition, royalty expense decreased \$1.9 million in the three months ended December 31, 2009 when compared to the same period last year, due to a reduction in fees associated with unit sales and game conversions with third party titles.

Gaming Operations Revenue. Gaming Operations revenue increased \$2.2 million, or 3%, to approximately \$68.6 million in the three months ended December 31, 2009, when compared to the same period last year, primarily as a result of an increase in participation, rental and license revenue, offset by a decrease in wide-area progressive revenue. The improvement in participation and rental revenue was primarily due to an increase in premium revenue units and from our installed base of devices connected to our centrally determined systems (Class II, Video Lottery and iVIEW network) that increased 12% from 44,536 units as of December 31, 2008 to 49,874 units as of December 31, 2009. The improvement

in license revenue was predominately from Washington.

Gaming Operations Gross Margin. Gross margin increased to 70% in the three months ended December 31, 2009 from 68%, in the same period last year, primarily as a result of the increases in participation, rental and license revenue which had little associated variable costs. In addition, there was a decrease in progressive jackpot expense and royalty expense during the same period.

Table of Contents

Systems Revenue. Systems revenue increased \$1.7 million, or 3%, to approximately \$57.6 million in the three months ended December 31, 2009 when compared to the same period last year primarily as a result of higher maintenance revenue in the current period. Maintenance revenue increased \$2.4 million, or 20%, in the three months ended December 31, 2009, when compared to the same period last year, as a result of the increased install base of customers on our systems.

Systems Gross Margin. Systems gross margin decreased to 72% in the three months ended December 31, 2009 from 74%, in the same period last year, primarily as a result of a change in the mix of products sold in the comparative periods.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased \$1.8 million, or 4%, in the three months ended December 31, 2009, when compared to the same period last year, due primarily to a decrease in consulting and legal fees offset by an increase in insurance expense due to a \$3.0 million insurance reimbursement recognized in the same period last year. The reimbursement was from claims for the 2005 U.S. Gulf Coast hurricanes which destroyed or temporarily shut down our gaming operations in the region when our rental and daily fee games were destroyed in third party locations. Consulting fees decreased due to a companywide initiative to reduce external consulting and convert individuals to full time positions only where necessary. Legal fees decreased due to a reduction in services provided during the same period.

Research and Development Costs. Research and development costs increased \$0.2 million, or 1%, in the three months ended December 31, 2009, when compared to the same period last year. The Company remains focused on its technology assets due to the competitive landscape that requires a continual investment in future generations of gaming products and systems.

Depreciation and Amortization Expense. Depreciation and amortization expense was \$4.7 million in both the three months ended December 31, 2009 and 2008.

Six Months Ended December 31, 2009 Compared to Six Months Ended December 31, 2008

Total revenues for our Bally Gaming Equipment and Systems segment decreased \$58.7 million, or 13%, in the six months ended December 31, 2009, when compared to the same period last year, as a result of the following:

Gaming Equipment Revenue. Gaming Equipment revenue decreased by \$67.8 million, or 32%, to approximately \$140.8 million primarily as a result of a 30% decrease in new gaming device sales to 8,933 units in the six months ended December 31, 2009, when compared to 12,697 units in the same period last year. New gaming device sales decreased due to a continued sluggish North America replacement market and fewer new casino openings and expansions during this period as compared to the same period in the prior year. In addition, during the six months ended December 31, 2008, we sold 505 OEM units. ASP decreased less than 1% to \$14,213 in the six months ended December 31, 2009 compared to \$14,288 in the same period last year. The decrease in ASP was driven by the mix of new products sold in the comparative periods.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Gaming Equipment Gross Margin. Gaming Equipment gross margin increased to 50% in the six months ended December 31, 2009 from 47%, in the same period last year, primarily as a result of improved purchasing and manufacturing efficiencies. In addition, royalty expense decreased \$3.7 million in the six months ended December 31, 2009 when compared to the same period last year, due to a reduction in fees associated with unit sales and game conversions with third party titles. There was also a \$1.4 million decrease in inventory write-downs during the period as a result of improved material planning efforts and a concentrated effort to convert or rework slower moving inventory, when compared to the same period last year.

Table of Contents

Gaming Operations Revenue. Gaming Operations revenue increased \$5.7 million, or 4%, to approximately \$139.9 million in the six months ended December 31, 2009, when compared to the same period last year, primarily as a result of an increase in participation and license revenue. The improvement in participation revenue was primarily due to an increase in premium revenue units and from our installed base of devices connected to our centrally determined systems (Class II, Video Lottery and iVIEW network) that increased 12% from 44,536 units as of December 31, 2008 to 49,874 units as of December 31, 2009. The improvement in license revenue was predominately from Washington.

Gaming Operations Gross Margin. Gross margin increased to 71% in the six months ended December 31, 2009 from 69%, in the same period last year, primarily as a result of the increases in participation and license revenue which had little associated variable costs.

Systems Revenue. Systems revenue increased \$3.4 million, or 3%, to approximately \$111.6 million in the six months ended December 31, 2009, when compared to the same period last year, primarily as a result of higher maintenance revenue in the current period. Maintenance revenue increased \$3.6 million, or 15%, in the six months ended December 31, 2009, when compared to the same period last year, as a result of the increased install base of customers on our systems.

Systems Gross Margin. Systems gross margin decreased to 69% in the six months ended December 31, 2009 from 71%, in the same period last year, primarily as a result of an increase in discounts and a change in the mix of products sold in the comparative periods.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased \$7.1 million, or 7%, in the six months ended December 31, 2009, when compared to the same period last year, due primarily to decreases in consulting and legal fees offset by an increase in insurance expense due primarily to a \$3.0 million insurance reimbursement recognized in the same period last year. The reimbursement was from claims for the 2005 U.S. Gulf Coast hurricanes which destroyed or temporarily shut down our gaming operations in the region when our rental and daily fee games were destroyed in third party locations. The decrease in consulting expense was due to a companywide initiative to reduce external consulting and convert individuals to full time positions only where necessary. Legal fees decreased due to a reduction in services provided during the same period.

Research and Development Costs. Research and development costs decreased \$0.2 million in the six months ended December 31, 2009, when compared to the same period last year. The Company remains focused on its technology assets due to the competitive landscape that requires a continual investment in future generations of gaming products and systems.

Depreciation and Amortization Expense. Depreciation and amortization expense increased \$0.7 million, or 8%, in the six months ended December 31, 2009, when compared to same period last year, primarily as a result of additions of core technology assets, property and equipment and leased gaming equipment year over year.

Table of Contents*Casino Operations*

Our Rainbow Casino is one of five casinos currently operating in the Vicksburg, Mississippi market. Our casino draws customers primarily from within a 75-mile radius surrounding Vicksburg, which includes Jackson, Mississippi. The summary of our financial results and operating statistics for our Casino Operations is as follows:

	Three Months Ended December 31,				Six Months Ended December 31,			
	2009	% Rev	2008	% Rev	2009	% Rev	2008	% Rev
	(dollars in millions)

Average number of table games	6		10		6		10	

Three Months Ended December 31, 2009 Compared to Three Months Ended December 31, 2008

Casino Operations. Revenue decreased by \$1.2 million, or 12%, for the three months ended December 31, 2009 when compared to the same period last year due primarily to increased competition and a continuing sluggish economy that reduced patronage during the quarter. The Mississippi River counties reported an 8% decline in gaming revenues during the three months ended December 31, 2009, when compared to the same period last year. In addition, there was a 40% reduction in the average number of table games at our property during the three months ended December 31, 2009, when compared to the same period last year. The reduction in table games had a minimal effect on revenue because they were seldom open due to lack of demand.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased by \$0.3 million, or 14%, for the three months ended December 31, 2009, when compared to the same period last year, due primarily to a decrease in advertising expenditures during the period.

Depreciation and Amortization Expense. Depreciation and amortization expense increased by \$0.1 million, or 13%, for the three months ended December 31, 2009, when compared to the same period last year, due primarily to the increase in the number of newer slot machines deployed during the period.

Six Months Ended December 31, 2009 Compared to Six Months Ended December 31, 2008

Casino Operations. Revenue decreased by \$2.0 million, or 10%, for the six months ended December 31, 2009 when compared to the same period last year due primarily to increased competition and a continuing sluggish economy that reduced patronage during the period. The Mississippi River counties reported a 9% decline in gaming revenues during the six months ended December 31, 2009, when compared to the same period last year. In addition, there was a 40% reduction in the average number of table games at our property during the six months ended December 31, 2009, when compared to the same period last year. The reduction in table games had a minimal effect on revenue because they were seldom opened due to lack of demand.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased by \$0.6 million, or 14%, for the six months ended December 31, 2009, when compared to the same period last year, due primarily to a decrease in payroll and related expenses and advertising expenditures during the period.

Depreciation and Amortization Expense. Depreciation and amortization expense increased by \$0.4 million, or 27%, for the six months ended December 31, 2009, when compared to the same period last year, due primarily to the increase in the number of newer slot machines deployed during the period.

Table of Contents*Parent Company*

The summary financial results of Bally Technologies, Inc., our parent entity, are set forth below. These results also include certain other income and expenses that are otherwise not allocated to a specific business segment.

	Three Months Ended December 31,		Six Months Ended December 31,	
	2009	2008	2009	2008
	(dollars in millions)			
General and administrative	\$ 5.3	\$ 5.8	\$ 8.9	\$ 14.0
Depreciation and amortization	0.0	0.0	0.0	0.3
Operating loss	\$ 5.3	\$ 5.8	\$ 8.9	\$ 14.3
Other income (expense)				
Interest income	\$ 0.6	\$ 0.9	\$ 1.3	\$ 2.1
Interest expense	(3.2)	(6.2)	(6.5)	(11.3)
Other, net	(1.1)	(1.6)	(1.0)	(4.2)
Total other expense	\$ (3.7)	\$ (6.9)	\$ (6.2)	\$ (13.4)
Income tax expense	\$ (17.1)	\$ (18.7)	\$ (34.1)	\$ (35.8)
Net income (loss) attributable to noncontrolling interests	\$ 0.4	\$ 0.3	\$ 1.1	\$ (0.2)

Three Months Ended December 31, 2009 Compared to Three Months Ended December 31, 2008

General and Administrative Expenses. General and administrative expenses decreased \$0.5 million, or 9%, in the three months ended December 31, 2009, when compared to the same period last year, primarily as a result of a decrease in accounting fees of \$1.5 million offset by an increase in legal fees of \$0.9 million during the same period.

Other Income (Expense). Other expense decreased \$3.2 million, or 46%, in the three months ended December 31, 2009, when compared to the same period last year. Other expense decreased primarily due to a decrease in interest expense and a decrease in losses incurred on foreign currency transactions as a result of the weakening U.S. dollar during the same period. Interest expense decreased \$3.0 million primarily due to a reduction in both the principal balance and the interest rate on the term loan which decreased from 7.30% in three months ended December 31, 2008 to 4.64% in the same period this year. In December 2008, we entered into a floating-to-fixed interest rate swap to fix the interest rate at 1.89% plus an applicable margin (2.75% at December 31, 2009) until the term loan's maturity in September 2012.

Income Tax Expense. The effective income tax rate for the three months ended December 31, 2009 and 2008 was 33.7% and 35.5%, respectively. At the end of each interim period, we make our best estimate of the effective tax rate expected to be applicable for the full fiscal year and the impact of discrete items, if any, and adjust the quarterly rate, as necessary.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Net income (loss) attributable to noncontrolling interests. Net income attributable to noncontrolling interests increased in the three months ended December 31, 2009, when compared to the same period last year, due primarily to an increase in net earnings from certain noncontrolling interests.

Six Months Ended December 31, 2009 Compared to Six Months Ended December 31, 2008

General and Administrative Expenses. General and administrative expenses decreased \$5.1 million, or 36%, in the six months ended December 31, 2009, when compared to the same period last year, primarily as a result of a decrease in accounting fees of \$4.3 million and a decrease in legal fees of \$0.8 million during the same period.

Table of Contents

Other Income (Expense). Other expense decreased \$7.2 million, or 54%, in the six months ended December 31, 2009, when compared to the same period last year. Other expense decreased primarily due to a decrease in interest expense, the write-off of previously capitalized debt issuance costs of \$0.8 million in the prior period upon the financing of the Company's new term loan and revolving credit facility, and a decrease in losses incurred on foreign currency transactions as a result of the weakening U.S. dollar. Interest expense decreased \$4.8 million primarily due to a reduction in both the principal balance and the interest rate on the term loan which decreased from 7.30% in six months ended December 31, 2008 to 4.64% in the same period this year. In December 2008, we entered into a floating-to-fixed interest rate swap to fix the interest rate at 1.89% plus an applicable margin (2.75% as of December 31, 2009) until the term's maturity in September 2012.

Income Tax Expense. The effective income tax rate for the six months ended December 31, 2009 and 2008 was 34.5% and 36.0%, respectively. At the end of each interim period, we make our best estimate of the effective tax rate expected to be applicable for the full fiscal year and the impact of discrete items, if any, and adjust the quarterly rate, as necessary.

Net income (loss) attributable to noncontrolling interests. Net income attributable to noncontrolling interests increased in the six months ended December 31, 2009, when compared to the same period last year, due primarily to an increase in net earnings from certain noncontrolling interests.
