

Rockwood Holdings, Inc.
Form 10-Q
October 26, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2012

Or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-32609

Rockwood Holdings, Inc.

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

52-2277366
(I.R.S. Employer
Identification No.)

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

100 Overlook Center, Princeton, New Jersey 08540

(Address of principal executive offices) (Zip Code)

(609) 514-0300

(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of October 24, 2012, there were 77,652,708 outstanding shares of common stock, par value \$0.01 per share, of the Registrant.

ROCKWOOD HOLDINGS, INC. AND SUBSIDIARIES

Notes To Condensed Consolidated Financial Statements (Unaudited)

1. BASIS OF PRESENTATION AND NEW ACCOUNTING STANDARDS:

Basis of Presentation Rockwood Holdings, Inc., which may be referred to as Rockwood or the Company prepared these unaudited condensed consolidated financial statements following the requirements of the Securities and Exchange Commission and accounting principles generally accepted in the United States of America (U.S. GAAP) for interim reporting. Under those rules, certain footnotes and other financial information that are normally required for annual financial statements can be condensed or omitted. The Company is responsible for the condensed consolidated financial statements included in this Form 10-Q. These condensed consolidated financial statements include all normal and recurring adjustments necessary for a fair presentation of the financial position as of September 30, 2012 and December 31, 2011, the results of operations and comprehensive income for the three and nine months ended September 30, 2012 and 2011, and cash flows and equity for the nine months ended September 30, 2012 and 2011. All intercompany balances and transactions have been eliminated. Material subsequent events are evaluated through the report issuance date and disclosed where applicable. These unaudited condensed consolidated financial statements and the related notes should be read in conjunction with the current report on Form 8-K filed with the Securities and Exchange Commission on September 18, 2012 (the Form 8-K) and the audited consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2011. The audited consolidated financial statements included in the Form 8-K update the following information in the Company s audited consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2011: the presentation of segment specific disclosures on a basis consistent with the Company s realigned segment reporting structure; the addition of certain guarantor information; and the addition of consolidated statements of comprehensive income. The changes included in the Form 8-K had no effect on previously reported results of operations, financial condition or cash flows. All other matters in the Annual Report on Form 10-K for the year ended December 31, 2011 remain unchanged.

Revenues, expenses, assets and liabilities can vary during each quarter of the year. Accordingly, the results and trends in these unaudited condensed consolidated financial statements may not be indicative of the full year results.

The preparation of financial statements and related disclosures in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenue and expenses during the periods reported. These estimates include, among other things, assessing the collectability of accounts receivable, the use and recoverability of inventory, the valuation of deferred tax assets, the measurement of the accrual for uncertain tax benefits, impairment of goodwill as well as property, plant and equipment and other intangible assets, the accrual of environmental and legal reserves and the useful lives of tangible and intangible assets, among others. Actual results could differ from those estimates. Such estimates also include the fair value of assets acquired and liabilities assumed allocated to the purchase price of business combinations consummated.

Noncontrolling interest represents the total of the noncontrolling party s interest in certain investments (principally the Titanium Dioxide Pigments venture and the Viance, LLC timber treatment joint venture) that are consolidated but less than 100% owned.

In the first quarter of 2012, the Company reorganized its Specialty Chemicals segment into two reportable segments: Lithium and Surface Treatment. The metal sulfides business that was previously reported in the Specialty Chemicals segment is now included in the Corporate and other category. All prior-period amounts related to the segment change have been retrospectively reclassified throughout these condensed consolidated financial statements. See Note 2, Segment Information, for further details.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Unless otherwise noted, all balance sheet-related items which are denominated in Euros are translated at the September 30, 2012 exchange rate of 1.00 = \$1.286. For the three months ended September 30, 2012 and 2011 and the nine months ended September 30, 2012 and 2011, the average rate of exchange of the Euro to the U.S. dollar is \$1.25 and \$1.41, respectively, and \$1.28 and \$1.41, respectively.

Recently Issued Accounting Standards:

In May 2011, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) that substantially converged the requirements for fair value measurement and disclosure between the FASB and the International Accounting Standards Board (IASB). This ASU is largely consistent with existing fair value measurement principles under U.S. GAAP. The Company began providing the required additional disclosures from this ASU beginning with its Form 10-Q for the period ended March 31, 2012 for items that are not measured at fair value in the condensed consolidated balance sheets but for which fair value is required to be disclosed in the footnotes (see Note 4, Financial Instruments and Fair Value Measurements).

In June 2011, the FASB issued an ASU that addressed the presentation of comprehensive income in the financial statements. This

accounting update allows an entity the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In addition, this ASU eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity and does not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. The Company began providing the required additional disclosures from this ASU beginning with its Form 10-Q for the period ended March 31, 2012 by adding a condensed consolidated statement of comprehensive income.

2. SEGMENT INFORMATION:

Rockwood operates in five reportable segments according to the nature and economic characteristics of its products and services as well as the manner in which the information is used internally by the Company's key decision maker, who is the Company's Chief Executive Officer. The five segments are: (1) Lithium; (2) Surface Treatment; (3) Performance Additives, which consists of Color Pigments and Services, Timber Treatment Chemicals and Clay-based Additives; (4) Titanium Dioxide Pigments; and (5) Advanced Ceramics.

Items that cannot be readily attributed to individual segments have been classified as Corporate and other. Corporate and other operating loss primarily represents payroll, professional fees and other operating expenses of centralized functions such as treasury, tax, legal, internal audit and consolidation accounting as well as the cost of operating the Company's central offices (including some costs maintained based on legal or tax considerations). The Corporate and other classification also includes the results of operations of the metal sulfides business, rubber/thermoplastics compounding business and the wafer reclaim business.

Summarized financial information for each of the reportable segments is provided in the following tables:

(\$ in millions)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Net Sales:				
Lithium	\$ 116.0	\$ 114.3	\$ 355.3	\$ 351.9
Surface Treatment	175.3	185.8	547.7	562.5
Performance Additives	178.1	200.7	580.1	614.7
Titanium Dioxide Pigments	229.6	252.6	666.4	735.4
Advanced Ceramics	130.3	146.2	417.7	455.3
Corporate and other	33.5	41.3	110.7	135.1
Total	\$ 862.8	\$ 940.9	\$ 2,677.9	\$ 2,854.9

The Company uses Adjusted EBITDA on a segment basis to assess the ongoing performance of the Company's business segments and reporting units. Because the Company views Adjusted EBITDA on a segment basis as an operating performance measure, the Company uses income (loss) from continuing operations before taxes as the most comparable U.S. GAAP measure. The summary of segment information below includes Adjusted EBITDA, a non-GAAP financial measure used by the Company's chief decision maker and senior management to evaluate the operating performance of each segment. See Note 3, Segment Information, in the Company's 2011 Annual Report on Form 10-K for a discussion of the use of Adjusted EBITDA as a non-GAAP financial measure.

Eliminations (b)	(500.3)	(445.2)
Total	\$ 6,179.7	\$ 4,587.6

(a) Corporate and other identifiable assets primarily represent the operating assets of the businesses included herein described above, assets (primarily real estate) of legacy businesses formerly belonging to the Dynamit Nobel businesses acquired in 2004, deferred income tax assets and cash balances maintained in accordance with centralized cash management techniques.

(b) Amounts contained in the Eliminations column represent the individual subsidiaries' retained interest in their cumulative net cash balance (deposits less withdrawals) included in the corporate centralized cash system and within the identifiable assets of the respective segment. These amounts are eliminated as the corporate centralized cash system is included in the Corporate and other segment's identifiable assets.

Geographic information regarding net sales based on seller's location and long-lived assets are described in Note 3, Segment Information, in the Company's 2011 Annual Report on Form 10-K.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Major components within the reconciliation of income (loss) from continuing operations before taxes to Adjusted EBITDA are described more fully below:

3. VARIABLE INTEREST ENTITIES:

See Note 4, Variable Interest Entities, in the Company's 2011 Annual Report on Form 10-K for a detailed discussion of the Company's evaluation of variable interest entities.

Viance LLC Joint Venture

At September 30, 2012 and December 31, 2011, no consolidated assets of the Company were pledged as collateral for any obligations of Viance and the general creditors of Viance had no recourse against the Company. All intercompany accounts, balances and transactions have been eliminated. Viance's assets can only be used to settle direct obligations of Viance.

The carrying values of the assets and liabilities of the Viance joint venture included in the condensed consolidated balance sheets are as follows:

	September 30, 2012	December 31, 2011
ASSETS		
Current assets:		
Cash and cash equivalents	\$ 5.2	\$ 2.9
Other current assets	10.6	10.8
Total current assets	15.8	13.7
Other intangible assets, net	60.2	65.1

Total assets	\$ 78.8	\$ 81.9
Total liabilities	\$ 4.9	\$ 4.8

Titanium Dioxide Pigments Venture

In conjunction with this venture, there is a power plant that is legally owned and operated by a Finnish power cooperative (PVO). Kemira Oyj (Kemira), the noncontrolling shareholder in the venture, is a cooperative participant and has an interest in the power plant via ownership of a special share class. The venture purchased energy from Kemira of \$8.1 million and \$11.3 million in the three months ended September 30, 2012 and 2011, respectively, and \$27.7 million and \$32.8 million in the nine months ended September 30, 2012 and 2011, respectively. Apart from routine payables to Kemira or PVO in connection with this agreement, no results or balances of the power plant are reflected in the condensed consolidated financial statements.

Other

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

As of September 30, 2012 and December 31, 2011, Rockwood's aggregate net investment in ventures, particularly in the Surface Treatment segment, that are considered variable interest entities but are not consolidated as Rockwood is not the primary beneficiary, was \$23.9 million and \$18.6 million, respectively. These investments are classified as Other assets in the condensed consolidated balance sheets and represent Rockwood's approximate exposure to losses on these investments. Rockwood does not guarantee debt for or have other financial support obligations to these ventures.

4. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS:

Financial instruments include cash and cash equivalents, accounts receivable, accounts payable, debt instruments and derivatives. Due to their short term maturity, the carrying amount of receivables and payables approximates fair value. Cash equivalents primarily consist of highly liquid investments with original maturities of three months or less at the time of purchase and are recorded at cost, which approximates fair value. The Company has exposure to market risk from changes in interest rates and foreign currency exchange rates. As a result, certain derivative financial instruments may be used when available on a cost-effective basis to hedge the underlying economic exposure. Certain of these instruments qualify as cash flow and net investment hedges upon meeting the requisite criteria, including effectiveness of offsetting hedged exposures. Changes in the fair value of derivatives that do not qualify for hedge accounting are recognized in earnings as they occur. Derivative financial instruments are not used for trading purposes.

Qualifying Hedges

Cash Flow Hedges

Foreign currency forward contracts are utilized to hedge forecasted transactions for certain foreign currencies in the Company's Surface Treatment segment. These contracts are designated as foreign currency cash flow hedges. The effective portion of changes in fair value for the designated foreign currency hedges is temporarily reported in accumulated other comprehensive income and recognized in earnings when the hedged item affects earnings. The net deferred losses on foreign currency contracts for cash flow hedge accounting are expected to be reclassified into earnings by the end of December 2012.

Effectiveness is assessed at inception of the hedge and on a quarterly basis. These assessments determine whether derivatives designated as qualifying hedges continue to be highly effective in offsetting changes in the cash flows of hedged items. Any ineffective portion of change in fair value is included in current period earnings. There was no impact of ineffectiveness on earnings during the three and nine months ended September 30, 2012.

Net Investment Hedges

In prior periods, the Company designated a portion of its Euro-denominated debt that is recorded on its U.S. books as a net investment hedge of its Euro-denominated investments (Euro debt of \$14.1 million at December 31, 2011). In March 2012, the Company dedesignated this net investment hedge. Prior to the dedesignation, foreign currency gains and losses resulting from the Euro-denominated debt discussed above were accounted for as a component of accumulated other comprehensive income. After the dedesignation, such foreign currency gains and losses resulting from the Euro-denominated debt have been recorded in the consolidated statements of operations.

Interest Rate Swaps Not Designated as Hedging Instruments

The Company is not required under the terms of its senior credit facility to hedge, or otherwise protect against interest rate fluctuations in its variable-rate debt. However, in June 2012, the Company's Titanium Dioxide Pigments venture entered into a new facility agreement (See Note 8, Long-Term Debt) which requires the venture to convert 50% of the term loan balances from variable to fixed interest rates for a period of two years.

To comply with the requirement to convert 50% of the term loan balances from variable to fixed interest rates under the new facility agreement, the venture entered into interest rate swaps in July 2012 with an aggregate notional amount of \$400.0 million. The new swaps mature in September 2014. The Company has not applied hedge accounting for these interest rate swaps and has recorded the mark-to-market adjustment of these derivatives as a component of interest expense in its condensed consolidated statements of operations. Including the effect of the interest rate swaps, the Company had \$1,174.1 million (\$837.3 million of which was subject to a Libor floor of 1.00%) and \$855.0 million (the majority of which was subject to a Libor floor of 1.00%) of variable-rate debt outstanding as of September 30, 2012 and December 31, 2011, respectively. The Company may in the future consider adjusting the amounts covered by these derivative contracts to better suit its capital structure and may allow all or a portion of these swaps to lapse, enter into replacement swaps or settle these swaps prior to expiration.

Prior to executing the new facility agreement, the venture had entered into interest rate swaps to manage its exposure to changes in interest rates related to certain variable-rate debt. These contracts effectively converted all of the obligations under the titanium dioxide pigments venture's term loan facility to fixed rate obligations. These interest rate swaps were rolled into the new swaps entered into in July 2012.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

The following table provides the fair value and balance sheet location of the Company's derivative instruments as of September 30, 2012 and December 31, 2011:

(\$ in millions)	Balance Sheet Location	September 30, 2012		December 31, 2011	
		Notional	Fair Value	Notional	Fair Value
Derivatives Designated as Hedging Instruments:					
Foreign exchange contracts	Accrued expenses and other current liabilities	\$ 3.6	\$ 0.1		\$
Total derivatives designated as hedging instruments			\$ 0.1		\$
Derivatives Not Designated as Hedging Instruments:					
Interest rate swaps	Accrued expenses and other current liabilities	\$ 659.1	\$ 2.8	\$ 252.7	\$ 1.5
	Other liabilities		2.1		0.7
Total derivatives not designated as hedging instruments			\$ 4.9		\$ 2.2
Total derivatives			\$ 5.0		\$ 2.2

All financial instruments, including derivatives, are subject to counterparty credit risk which is considered as part of the overall fair value measurement. Counterparty credit risk is mitigated by entering into derivative contracts with only major financial institutions of investment grade quality and by limiting the amount of exposure to each financial institution. The Company has considered credit adjustments in its determination of the fair value of its derivative assets and liabilities as of September 30, 2012 and December 31, 2011, based on market participant assumptions. In addition, based on the credit evaluation of each counter-party institution as of September 30, 2012 and December 31, 2011, the Company believes the carrying values to be fully realizable. No counterparty has experienced a significant downgrade in 2012 and the condensed consolidated financial statements would not be materially impacted if any counterparties failed to perform according to the terms of its agreement. Under the terms of the agreements, posting of collateral is not required by any party whether derivatives are in an asset or liability position.

The following table provides the gains and losses reported in Other Comprehensive Income (OCI) within Equity for the three and nine months ended September 30, 2012 and 2011:

(\$ in millions)	Amount of Gain or (Loss) Recognized in OCI on Derivatives and Other Financial Instruments (Effective Portion)			
	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Derivatives Designated as Cash Flow Hedges:				
Foreign exchange contracts	\$ 0.2	\$ (1.4)	\$ (0.1)	\$ 0.6
Non-Derivative Debt Designated as Net Investment Hedge:				
Euro-denominated debt	\$	\$ 1.6	\$ (0.3)	\$ (10.5)

For the three and nine months ended September 30, 2012, losses of \$0.2 million and \$0.3 million, respectively, were reclassified from accumulated other comprehensive income into income. For the three and nine months ended September 30, 2011, gains of \$1.1 million and \$1.4 million, respectively, were reclassified from accumulated other comprehensive income into income.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

The following table provides the gains and losses reported in the condensed consolidated statements of operations for the three and nine months ended September 30, 2012 and 2011:

(\$ in millions)	Amount of Gain or (Loss) Recognized in Income on Derivatives				Location of Gain or (Loss) Recognized in Income on Derivatives
	Three months ended September 30,		Nine months ended September 30,		
	2012	2011	2012	2011	
Derivatives Not Designated as Hedging Instruments:					
Interest rate contracts	\$ (2.3)	\$ (3.9)	\$ (2.5)	\$ 1.0	Interest expense, net
Total derivatives	\$ (2.3)	\$ (3.9)	\$ (2.5)	\$ 1.0	

The Company follows a fair value measurement hierarchy to measure assets and liabilities. As of September 30, 2012 and December 31, 2011, the assets and liabilities measured at fair value on a recurring basis are derivatives, cash equivalents and government securities. In addition, the Company measures its pension plan assets at fair value (see Item 8. Financial Statements and Supplementary Data - Note 14, Employee Benefit Plans in the Company's 2011 Annual Report on Form 10-K for further details). The Company's financial assets and liabilities are measured using inputs from the three levels of the fair value hierarchy as follows:

Level 1 Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date. The fair values of money market funds and government securities are based on unadjusted quoted market prices from various financial information service providers and securities exchanges.

Level 2 Inputs are directly or indirectly observable, which include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. The fair values of derivatives are based on quoted market prices from various banks for similar instruments. The valuation of these instruments reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including forward curves.

Level 3 Inputs are unobservable inputs that are used to measure fair value to the extent observable inputs are not available. The Company does not have any financial assets or liabilities that are recorded on its condensed consolidated balance sheets as of September 30, 2012 and December 31, 2011 that are classified as Level 3 inputs.

In accordance with the fair value hierarchy, the following table provides the fair value of the Company's financial assets and liabilities that are measured at fair value in the condensed consolidated balance sheets as of September 30, 2012 and December 31, 2011:

(\$ in millions)	As of September 30, 2012			As of December 31, 2011		
	Total	Level 1	Level 2	Total	Level 1	Level 2
Assets						
Cash equivalents	\$ 1,077.5	\$ 1,077.5	\$	\$ 154.7	\$ 154.7	\$
Government securities	0.3	0.3		0.9	0.9	
Total assets at fair value	\$ 1,077.8	\$ 1,077.8	\$	\$ 155.6	\$ 155.6	\$
Liabilities						

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Interest rate swaps	\$	4.9	\$	\$	4.9	\$	2.2	\$	\$	2.2
Foreign exchange contracts		0.1			0.1					
Total liabilities at fair value	\$	5.0	\$	\$	5.0	\$	2.2	\$	\$	2.2

Note Receivable

The Company has a non-interest bearing note receivable from its titanium dioxide pigments venture partner that is due in August 2028 with a carrying value of \$10.1 million in the condensed consolidated balance sheets as of September 30, 2012. The fair value of the note receivable is approximately \$6.2 million at September 30, 2012 and is categorized as Level 3 in the fair value hierarchy. The fair value is determined based on an internally developed valuation that uses current interest rates in developing a present value of the receivable.

Debt

The carrying value of the Company's term loans under the senior secured credit facilities and Titanium Dioxide Pigments venture facility agreement approximates fair value as they bear interest based on prevailing variable market rates currently available. As a result, the Company categorizes these term loans as Level 2 in the fair value hierarchy.

Based on quoted market values in active markets from financial service providers at September 30, 2012, the Company estimates the fair value of its Senior Notes due in 2020 (2020 Notes) approximated \$1,268.8 million. As a result, the Company categorizes these 2020 Notes as Level 1 in the fair value hierarchy. As of September 30, 2012, the principal carrying amount of the 2020 Notes was \$1,250.0 million.

5. INVENTORIES:

Inventories are comprised of the following:

(\$ in millions)	September 30, 2012	December 31, 2011
Raw materials	\$ 287.8	\$ 222.9
Work-in-process	106.3	88.9
Finished goods	452.7	355.3
Packaging materials	7.4	7.2
Total	\$ 854.2	\$ 674.3

6. GOODWILL:

Below are goodwill balances and activity by segment:

(\$ in millions)	Lithium	Surface Treatment	Advanced Ceramics	Corporate and other	Total
Balance, December 31, 2011	\$ 259.3	\$ 336.2	\$ 249.4	\$ 4.7	\$ 849.6

Other	58.8	(41.8)	17.0	51.1	(36.5)	14.6
Total	\$ 926.4	\$ (473.7)	\$ 452.7	\$ 936.0	\$ (426.3)	\$ 509.7

In the first quarter of 2012, the Company wrote-off a trade name in the amount of \$10.3 million in the Lithium segment in connection with the restructuring of the Specialty Chemicals business.

Amortization of other intangible assets was \$17.5 million and \$19.5 million for the three months ended September 30, 2012 and 2011, respectively, and \$53.5 million and \$58.9 million for the nine months ended September 30, 2012 and 2011, respectively.

Estimated amortization expense for each of the five succeeding fiscal years is as follows:

(\$ in millions) Year ending	Amortization Expense
2012	\$ 70.7
2013	69.2
2014	60.2
2015	54.2
2016	51.4

8. LONG-TERM DEBT:

Long-term debt and loans payable are summarized as follows:

(\$ and in millions)	September 30, 2012	December 31, 2011
Senior secured credit facilities:		
Term Loan A	\$ 336.9	\$
Term Loan B	837.2	845.8
2020 Notes	1,250.0	
2014 Notes (250.1 and \$200.0 as of December 31, 2011)		524.1
Titanium Dioxide Pigments venture term loans		
Facility A (200.0 and 195.0, respectively)	257.2	252.7
Facility B (200.0)	257.2	
Capitalized lease obligations	33.4	35.4
Other loans	28.9	29.7
	3,000.8	1,687.7
Less current maturities	(327.7)	(250.5)
	\$ 2,673.1	\$ 1,437.2

On September 25, 2012, the Company's indirect wholly-owned subsidiary, Rockwood Specialties Group, Inc. (RSGI), issued \$1.25 billion of 4.625% Senior Notes due in 2020. The 2020 Notes are fully and unconditionally guaranteed on a senior unsecured basis by the Company and each of RSGI's existing and future domestic subsidiaries that is a guarantor under RSGI's senior secured credit facilities. The 2020 Notes pay interest at a rate of 4.625% per annum semi-annually on April 15 and October 15 of each year, commencing April 15, 2013. The Notes will mature on October 15, 2020. In October 2012, the Company used a portion of the proceeds to prepay \$250 million of term loan B under its senior secured credit facility, and expects to use the remaining proceeds to fund general corporate purposes, which may include strategic investments, including the acquisition of Talison, and the repayment of debt. The Talison acquisition is expected to be completed in the fourth quarter of 2012 for C\$6.50 per share for an equity purchase price of approximately C\$724 million (\$736 million, based on an exchange rate of C\$1 = \$1.0166 as of September 30, 2012) plus any amount in connection with any exercise of outstanding Talison stock options through the closing date.

In June 2012, the Company's titanium dioxide venture, Sachtleben GmbH, entered into a new facility agreement in the aggregate amount of 430.0 million (\$553.0 million), consisting of 200.0 million (\$257.2 million) of term loan A, 200.0 million (\$257.2 million) of term loan B and a 30.0 million (\$38.6 million) revolving credit facility. The venture used the proceeds to retire existing term loans (195.0 million - \$244.1 million), pay a dividend to the venture partners (88.8 million - \$112.3 million, of which \$68.5 million was paid to Rockwood and \$43.8 million was paid to Kemira) and to acquire certain business assets, including production assets and inventory, of crenox GmbH. Term loan A is payable in

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

semi-annual installments over its five-year term. Term loan B and the revolving credit facility have a maturity of five years. In connection with this refinancing, the Company recorded a charge of \$2.8 million in 2012 comprised of fees of \$2.5 million and the write-off of deferred financing costs of \$0.3 million.

On February 22, 2012, the Company issued a new tranche of term loan A under its existing senior secured credit facility in the amount of \$350.0 million. The proceeds, along with cash on hand, were used in March 2012 to redeem all of its 2014 Notes (250.1 million and \$200.0 million, or \$534.1 million in the aggregate based on the exchange rate in effect on the date of payment) and pay accrued interest. In the first quarter of 2012, the Company paid redemption premiums of \$6.7 million and wrote-off \$3.0 million of deferred financing costs associated with the redemption of the 2014 Notes.

The Company recorded a charge of \$16.6 million in the nine months ended September 30, 2011 comprised of related fees of \$13.5

million and the write-off of deferred financing costs of \$3.1 million in connection with the refinancing of its senior secured credit facility in February 2011.

For further details of the terms of the Company's long-term debt, see Item 8. Financial Statements and Supplementary Data - Note 10, Long-Term Debt in the Company's 2011 Annual Report on Form 10-K.

9. INCOME TAXES:

In the second quarter of 2012, the Company recorded an income tax benefit resulting from a \$139.0 million reversal of the Company's federal valuation allowance against its net federal deferred tax assets. The Company evaluates evidence at each balance sheet date to determine if it is more likely than not that the Company will be able to utilize its net deferred tax assets in future years. At June 30, 2012, the evidence related to the net federal deferred tax assets indicated that the positive factors outweighed the negative factors. Accordingly, the Company concluded that it was more likely than not that the net federal deferred tax assets will be utilized in future years and reversed \$139.0 million of its federal valuation allowance.

The effective tax rate on income from continuing operations was 27.6% and (16.7)% for the three and nine months ended September 30, 2012, respectively, compared to 28.2% and 27.9% for the three and nine months ended September 30, 2011, respectively. Excluding the impact of the \$139.0 million valuation allowance reversal from the second quarter, the effective tax rate on income from continuing operations was 25.5% for the nine months ended September 30, 2012, respectively. The effective rate for each period is lower than the U.S. statutory rate of 35% primarily due to the favorable impact of domestic income that was not tax effected due to a valuation allowance reversal and a beneficial foreign earnings mix.

The following table reflects the activity in the Company's worldwide valuation allowance:

(\$ in millions)	Valuation Allowance	
Balance as of December 31, 2011	\$	181.8
U.S. valuation allowance reversal - future years' income		(139.0)
U.S. valuation allowance reversal - current year income		(8.0)
Other		(2.0)
Balance as of September 30, 2012	\$	32.8

Unrecognized tax benefits at September 30, 2012 were \$30.8 million, all of which, if recognized, would impact the effective tax rate. The Company had accrued \$9.1 million for interest and penalties as of September 30, 2012. The Company recognizes interest and penalties related to unrecognized tax benefits in its income tax provision.

The Company is currently under audit in certain jurisdictions and during the next twelve months, it is reasonably possible that resolution of these audits could result in a benefit of up to \$1.2 million or a charge of up to \$0.2 million.

10. STOCK-BASED COMPENSATION:

In December 2011, the Company approved 257,440 market-based restricted stock unit awards to its management and key employees which will vest on January 1, 2015 as long as the employee continues to be employed by the Company on this date and upon the achievement of certain performance targets approved by the Compensation Committee. In January 2012, the performance targets that formed the basis for vesting of these restricted stock units were set. As a result, the Company recognized compensation cost beginning in January 2012. A portion of the share units vest based on the percentage change in the price of the Company's common stock over the award period January 1, 2012 to December 31, 2014. The remaining portion vest based upon the Company's total shareholder return as compared to the total shareholder return for the Dow Jones U.S. Chemical Index for the period January 1, 2012 to December 31, 2014.

All restricted stock units contain a provision in which the units shall immediately vest and become converted into the right to receive a cash payment after a change in control as defined in the award agreement. As the provisions for redemption are outside the control of the Company, the fair value of these units as of September 30, 2012 and December 31, 2011 has been recorded as mezzanine equity (outside of permanent equity) in the condensed consolidated balance sheets.

The aggregate compensation cost for stock options, restricted stock units and Board of Director stock grants recorded under the stock-

based compensation plans caused income from continuing operations before taxes to decrease by \$2.9 million and \$3.4 million for the three months ended September 30, 2012 and 2011, respectively, and \$8.7 million and \$9.8 million for the nine months ended September 30, 2012 and 2011, respectively. The total tax benefit recognized related to stock awards was \$0.3 million and \$0.4 million for the three months ended September 30, 2012 and 2011, respectively, and \$1.1 million and \$0.9 million for the nine months ended September 30, 2012 and 2011, respectively.

See Item 8. Financial Statements and Supplementary Data - Note 13, Stock-Based Compensation, in the Company's 2011 Annual Report on Form 10-K for further details of the Company's stock-based compensation plans.

11. PENSION AND POSTRETIREMENT LIABILITIES:

The following table represents the net periodic benefit cost of defined benefit pension plans:

(\$ in millions)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Service cost	\$ 2.4	\$ 2.3	\$ 7.2	\$ 6.8
Interest cost	7.7	8.5	23.3	25.5
Expected return on assets	(3.8)	(4.3)	(11.5)	(12.8)
Amortization of actuarial losses	1.7	0.7	5.2	2.0
Amortization of prior service cost	0.2	0.2	0.6	0.5
Total pension cost	\$ 8.2	\$ 7.4	\$ 24.8	\$ 22.0

Contributions to defined benefit pension plans, including benefit payments paid directly to plan participants, are expected to approximate \$25.4 million during 2012, of which \$17.0 million was contributed in the nine months ended September 30, 2012.

The Company also sponsors and participates in various defined contribution and multi-employer plans. The expense for the defined contribution plans was \$2.9 million and \$2.9 million for the three months ended September 30, 2012 and 2011, respectively, and \$9.8 million and \$9.6 million for the nine months ended September 30, 2012 and 2011, respectively. The expense for the multi-employer plans was \$1.7 million and \$1.4 million for the three months ended September 30, 2012 and 2011, respectively, and \$4.3 million and \$4.0 million for the nine months ended September 30, 2012 and 2011, respectively.

12. EARNINGS PER COMMON SHARE:

Basic and diluted earnings per common share (EPS) were computed using the following common share data:

(\$ in millions, except per share amounts; shares in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
EPS Numerator:				
Amounts attributable to Rockwood Holdings, Inc. shareholders:				
Income from continuing operations	\$ 61.6	\$ 75.9	\$ 362.3	\$ 228.1
Income from discontinued operations (a)				120.3
Net income	\$ 61.6	\$ 75.9	\$ 362.3	\$ 348.4
EPS Denominator:				
Basic weighted average number of common shares outstanding				
	77,639	76,703	77,542	76,430
Effect of dilutive stock options and other incentives				
	2,324	3,327	2,372	3,477
Diluted weighted average number of common shares outstanding and common stock equivalents				
	79,963	80,030	79,914	79,907
Basic earnings per common share attributable to Rockwood Holdings, Inc. shareholders:				
Earnings from continuing operations	\$ 0.79	\$ 0.99	\$ 4.67	\$ 2.98
Earnings from discontinued operations, net of tax (a)				1.58
Basic earnings per common share	\$ 0.79	\$ 0.99	\$ 4.67	\$ 4.56
Basic earnings per common share attributable to Rockwood Holdings, Inc. shareholders:				
Earnings from continuing operations	\$ 0.77	\$ 0.95	\$ 4.53	\$ 2.85
Earnings from discontinued operations, net of tax (a)				1.51
Diluted earnings per common share	\$ 0.77	\$ 0.95	\$ 4.53	\$ 4.36

(a) Primarily relates to the gain on sale of the plastic compounding business in January 2011.

There were no outstanding shares that would have had an anti-dilutive effect.

13. RESTRUCTURING AND OTHER SEVERANCE COSTS:

The Company records restructuring liabilities that represent charges incurred in connection with consolidations and cessations of certain of its operations, including operations from acquisitions, as well as headcount reduction programs. These charges include severance costs, facility/entity closure costs and asset write-downs. Severance charges are based on various factors including the employee's length of service, contract provisions, salary levels and local governmental legislation. At the time a related charge is recorded, the Company calculates its best estimate based upon detailed analysis. Although significant changes are not expected, actual costs may differ from these estimates.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

The following table provides the restructuring and other severance costs for the three and nine months ended September 30, 2012 and 2011:

(\$ in millions)	Three months ended September 30,				Nine months ended September 30,			
	2012		2011		2012		2011	
Severance/Relocation	\$	1.4	\$	1.9	\$	3.1	\$	5.0
Facility/entity closure and other		3.1		1.3		5.8		2.5
Asset write-downs		0.1				11.6		
Restructuring charge		4.6		3.2		20.5		7.5
Other severance costs		1.4		1.3		3.4		2.0
Total	\$	6.0	\$	4.5	\$	23.9	\$	9.5

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

For the three months ended September 30, 2012, the restructuring charges primarily relate to facility closure and severance/relocation costs in connection with organizational changes in the Surface Treatment, Lithium and Performance Additives segments.

For the nine months ended September 30, 2012, the restructuring charges primarily relate to the write-off of a trade name in the amount of \$10.3 million in the Lithium segment in connection with the reorganization of the Specialty Chemicals segment and facility closure costs in connection with organizational changes in the Lithium, Surface Treatment and Performance Additives segments.

All restructuring actions still in progress as of September 30, 2012 are expected to be substantially complete within the next twelve months, except for severance and facility closure costs in connection with the future consolidation of the North American Surface Treatment and Color Pigments and Services businesses. However, payouts of certain liabilities resulting from these actions will take place over several years. Selected information for outstanding liabilities from recent restructuring actions is as follows:

(\$ in millions)	Severance/ Relocation	Facility/Entity Closure and Other	Total
Liability balance, December 31, 2011	\$ 5.8	\$ 2.4	\$ 8.2
Restructuring charge in 2012 (a)	3.1	5.8	8.9
Utilized	(3.2)	(5.4)	(8.6)
Foreign exchange and other	(0.4)	0.1	(0.3)
Liability balance, September 30, 2012	\$ 5.3	\$ 2.9	\$ 8.2

(a) Excludes \$11.6 million of asset write downs described above.

The total charges for open restructuring actions and the future costs for those actions are summarized below:

(\$ in millions)	Lithium	Surface Treatment	Performance Additives	Total
Severance/Relocation				
Total charges	\$ 3.2	\$ 3.6	\$ 3.4	\$ 10.2
Incurred to date	(3.0)	(3.2)	(2.5)	(8.7)
Expected future costs	\$ 0.2	\$ 0.4	\$ 0.9	\$ 1.5
Facility/Entity Closure				
Total charges (a)	\$ 15.4	\$ 5.9	\$ 3.3	\$ 24.6
Incurred to date (a)	(14.0)	(4.0)	(1.3)	(19.3)
Expected future costs	\$ 1.4	\$ 1.9	\$ 2.0	\$ 5.3

(a) Includes \$10.3 million related to the write-off of a trade name in the Lithium segment in connection with the reorganization of the Specialty Chemicals segment into two reportable segments.

14. COMMITMENTS AND CONTINGENCIES:

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Legal Proceedings The Company is involved in various legal proceedings, including commercial, intellectual property, product liability, regulatory and environmental matters of a nature considered normal for its business. The Company accrues for amounts related to these matters if it is probable that a liability has been incurred and an amount can be reasonably estimated. The Company discloses such matters when there is at least a reasonable possibility that a material loss may have been incurred. However, the Company cannot predict the outcome of any litigation or the potential for future litigation.

Former Glass Sealants Business

A subsidiary in the Surface Treatment segment formerly operated a business of manufacturing and distributing sealants for insulating glass, which was sold in 2003. This subsidiary has been named as a defendant in several lawsuits in Germany and the Netherlands, which were initiated prior to and after the sale of the business, relating to allegedly defective sealants. The court in the Dutch litigation recently concluded that our subsidiary breached certain implied product warranties and is responsible for certain alleged damages to be determined. The Company's subsidiary has appealed this decision. In general, this subsidiary may be required to compensate damage claims asserted by the various plaintiffs in these actions. Although the Company expects its subsidiary to have coverage under its product liability insurance policies should damages ultimately be awarded or agreed to, in such an event, its insurance may not cover such damages and, if not, its subsidiary may not have sufficient cash flow to pay them. The Company estimates that the possible range of loss from those damage claims, net of expected insurance recoveries, is from 1.0 million (\$1.3 million) to 4.0 million (\$5.1 million) as of September 30, 2012. However, the Company does not believe that the resolution of these matters will have a material effect on its financial condition, results of operations or cash flows.

Migratory Bird Matter

In August 2011, the U.S. Department of Justice Environment and Natural Resources Division (DOJ), along with the U.S. Fish and Wildlife Service (FWS) and the Nevada Department of Wildlife (NDOW) commenced an investigation relating to alleged migratory bird deaths at the Company's subsidiary in Silver Peak, Nevada in violation of the Migratory Bird Treaty Act of 1918. The Company's subsidiary is working with the DOJ, FWS and NDOW to address any migratory bird issues. To date, no proceedings have been initiated and no fines have been levied. The Company does not expect the resolution of this matter to have a material impact on its financial condition, results of operations or cash flows.

Real Estate Transfer Tax Matter

In December 2009, the Company received a tax assessment from German tax authorities, claiming that the Company's acquisition of Dynamit Nobel in 2004 triggered a real estate transfer tax obligation in the amount of 4.2 million (\$5.4 million). The Company appealed the assessment to the German tax authorities on the grounds that it had already paid the relevant real estate transfer tax and that the further assessment would constitute duplicate taxation of the real estate transfers. However, in October 2011, the German tax authorities affirmed their position with regard to the assessment. Consequently, the Company appealed this assessment with the fiscal court and intends to vigorously defend its position in this matter. The Company estimates that the possible range of loss from these claims as of September 30, 2012 is from 0.0 million to 4.2 million (\$5.4 million). The Company does not expect this matter to have a material impact on its financial condition, results of operations or cash flows.

Inspector General Subpoena

In February 2010, a subsidiary of the Company received a subpoena from the Inspector General of the Department of Defense (DOD) seeking information related to a product in the Timber Treatment Chemicals business in the Performance Additives segment. The United States government recently filed a notice of election indicating that it will not intervene at this time regarding a complaint, which was ordered to be unsealed by the court in June 2012, filed by Osmose, Inc. The complaint alleges that our subsidiary misrepresented properties of certain fire retardants in relation to a military specification for such products. The Company cannot predict the likelihood of further legal action or estimate the loss or possible range of loss, if any, in connection with this matter and intends to vigorously defend this matter.

Other Matters

Although the Company expects to continue to pay legal fees in connection with the above matters and other legal actions such as chromated copper arsenate, ceramic hips, and other product liability matters, based on currently available facts, the Company does not believe that any other individual action will have a material effect on its financial condition, results of operations or cash flows.

Reserves in connection with known product liability matters, net of expected insurance recoveries, do not individually exceed \$2.0 million and in the aggregate equal \$3.7 million as of September 30, 2012. The Company's reserve estimates are based on available facts, including damage claims and input from its internal and external legal counsel, past experience, and, in some instances where defense costs are being paid by its insurer, known or expected insurance recoveries. The Company is unable to estimate the amount or range of any potential incremental charges should facts and circumstances change and may in the future revise its estimates based on new information becoming available. Further, the Company cannot predict the outcome of any litigation or the potential for future litigation.

Indemnity Matters The Company is indemnified by third parties in connection with certain matters related to acquired businesses. Although the Company has no reason to believe that the financial condition of those parties who may have indemnification obligations to the Company is other than sound, in the event the Company seeks indemnity under any of these agreements or through other means,

there can be no assurance that any party who may have obligations to indemnify the Company will adhere to their obligations and the Company may have to resort to legal action to enforce its rights under the indemnities. In cases where the Company's indemnification claims to such third parties are uncontested, the Company expects to realize recoveries within the short term.

The Company may be subject to indemnity claims relating to properties or businesses it divested. For example, the Company has agreed to indemnify the buyer of its former plastic compounding business for certain known and unknown environmental actions which may arise in the future that relate to the period prior to the closing.

Rockwood's pension liability includes defined benefit obligations to employees of a previously divested company which cannot legally be transferred to the owners under local law. The owner of the business had agreed to indemnify the Company for these obligations, however, such company has filed for bankruptcy. Accordingly, as of September 30, 2012, the Company has recorded a reserve of \$4.9 million (\$6.3 million) against its related receivable of \$5.4 million (\$6.9 million) due from the current owner. The Company cannot predict the ultimate outcome of this matter.

In the opinion of management, and based upon information currently available, the ultimate resolution of any indemnification obligations owed to the Company or by the Company is not expected to have a material effect on the Company's financial condition, results of operations or cash flows.

Safety, Health and Environmental Matters

For further details of the Company's Safety, Health and Management Systems, SHE Capital Expenditures, and Regulatory Developments, see Item 8. Financial Statements and Supplementary Data - Note 19, Commitments and Contingencies in the Company's 2011 Annual Report on Form 10-K.

Environmental Reserves

Environmental laws have a significant effect on the nature and scope of any clean-up of contamination at current and former operating facilities, the costs of transportation and storage of chemicals and finished products and the costs of the storage and disposal of wastes.

In addition, Superfund statutes in the United States as well as statutes in other jurisdictions impose strict, joint and several liability for clean-up costs on the entities that generated waste and/or arranged for its disposal at contaminated third party sites, as well as the past and present owners and operators of contaminated sites. All responsible parties may be required to bear some or all clean-up costs regardless of fault, legality of the original disposal or ownership of the disposal site.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

The following table provides a list of the Company's present and former facilities with environmental contamination or reclamation obligations for which the Company has reserved for at September 30, 2012:

Country	Location	(a)	(b)	(c)	(d)	(e)
Brazil	Diadema			X

-
- (a) The Company is currently operating groundwater monitoring and/or remediation systems at these locations.
- (b) The Company is currently operating groundwater monitoring and/or remediation systems at these locations for which prior owners or insurers have assumed all or most of the responsibility.
- (c) The Company is currently conducting investigations into additional possible soil and/or groundwater contamination at these locations.
- (d) The Company has land restoration obligations generally relating to landfill activities or surface mining at these locations.
- (e) The Company is responsible for liabilities related to environmental matters at these formerly owned or closed facilities.

The Company is also responsible for environmental matters at some of its former off-site disposal locations owned by third parties. These sites are considered Superfund sites as defined by the EPA or state regulatory authority. The Company is a potentially responsible party or *de minimis* participant at the following Superfund locations: Augusta, GA and South Gate, CA.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Although the Company cannot provide assurances in this regard, the Company does not believe that these issues will have a material effect on its financial condition, results of operations or cash flows. Nonetheless, the discovery of contamination arising from present or historical industrial

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

operations at some of the Company's or its predecessor's former and present properties and/or at sites where the Company and its predecessor disposed wastes could expose the Company to cleanup obligations and other damages in the future.

The Company has established financial reserves relating to anticipated environmental cleanup obligations, site reclamation and remediation and closure costs, which are reviewed at least quarterly based on currently available information. Liabilities are recorded when potential liabilities are either known or believed to be probable and can be reasonably estimated. In the event that the Company establishes a financial reserve in connection with site remediation costs, the Company records a reserve for the estimated cost of the remediation, even though the costs of the remediation will likely be spread out over many years. The Company does not include unasserted claims in its reserves.

The Company's liability estimates are based upon available facts, existing technology, indemnities from third parties, past experience and, in some instances, insurance recoveries where the remediation costs are being paid by its insurers, and are generated by several means, including State-mandated schedules, environmental consultants and internal experts, depending on the circumstances. On a consolidated basis, the Company has accrued \$50.1 million and \$49.8 million for environmental liabilities as of September 30, 2012 and December 31, 2011, most of which were classified as other non-current liabilities in the consolidated balance sheets.

Included in the environmental liabilities are reclamation obligations of \$21.4 million and \$23.2 million as of September 30, 2012 and December 31, 2011, respectively. These obligations primarily relate to post-closure reclamation of landfills in the Titanium Dioxide Pigments segment and surface mining and manufacturing sites within the Lithium segment.

The remaining environmental liabilities (\$28.7 million and \$26.6 million as of September 30, 2012 and December 31, 2011, respectively), represent remediation obligations. Of these accruals, \$17.1 million and \$14.6 million as of September 30, 2012 and December 31, 2011, respectively, represent liabilities discounted using discount rates ranging from 4.3% to 7.0%.

The Company's remediation liabilities are payable over periods of up to 30 years. At a number of the sites described above, the extent of contamination has not yet been fully investigated or the final scope of remediation is not yet determinable and could potentially affect the range. The Company estimates that the potential range for such environmental liabilities (excluding reclamation obligations) as of September 30, 2012 is from \$28.7 million to \$52.0 million. For the nine months ended September 30, 2012, the Company recorded charges of \$0.4 million to increase its environmental liabilities and made payments of \$2.8 million for reclamation and remediation costs, which reduced its environmental liabilities. For the nine months ended September 30, 2012, the recurring cost of managing hazardous substances for ongoing operations is \$35.8 million.

The Company believes these reserves are adequate based on currently available information. The Company may incur losses in excess of the amounts accrued; however, based on currently available information, it does not believe the additional amount of potential losses would have a material effect on its business or financial condition. The Company does not believe that any known individual environmental matter would have a material effect on its financial condition, results of operations or cash flows. The Company is unable to estimate the amount or range of any potential incremental charges should facts and circumstances change and may in the future revise its estimates based on new information becoming available.

In the event that manufacturing operations are discontinued at any of the Company's facilities with known contamination, regulatory authorities may impose more stringent requirements on the Company including soil remediation. The Company does not contemplate any such action occurring in the foreseeable future, as these facilities' remaining lives are not known. Given the indeterminate useful life of these facilities and the corresponding indeterminate settlement date of any soil remediation obligations, the Company does not have sufficient information to

estimate a range of potential settlement dates for its obligations. Consequently, the Company cannot employ a present value technique to estimate fair value and, accordingly, has not accrued for any environmental-related costs to remediate soil at these facilities.

15. GUARANTOR FINANCIAL STATEMENTS

In connection with the issuance of the 2020 Notes in the aggregate principal amount of \$1.25 billion in September 2012 by RSGI, an indirect wholly owned subsidiary of the Company, the Company (Parent Company) and certain of its wholly owned domestic subsidiaries (Guarantor Subsidiaries) jointly, fully, severally and unconditionally guarantee such debt securities. The following presents the consolidating financial information separately for:

- Parent Company,
- RSGI, the issuer of the guaranteed obligations;
- Guarantor Subsidiaries, on a combined basis;
- Non-Guarantor Subsidiaries, on a combined basis;

- Consolidating entries and eliminations representing adjustments to (a) eliminate intercompany transactions between or among the Parent Company, RSGI, the Guarantor Subsidiaries and the Non-Guarantor subsidiaries, (b) eliminate the investments in subsidiaries and (c) record consolidating entries; and
- Parent Company and its subsidiaries on a consolidated basis.

Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements.

The Parent Company Guarantor, Issuer and Guarantor Subsidiaries are party to a JP Morgan Chase cash concentration account to maximize the availability of cash for use for general corporate and operating purposes. Cash balances are frequently swept from the accounts of the entities who are party to the arrangement into the concentration account. For the purpose of the cash concentration, there are no restrictions on the movement of cash between the Parent Company Guarantor, the Issuer and the Guarantor Subsidiaries.

The following tables present the Company's consolidating statement of operations, comprehensive income and cash flows for the three and nine months ended September 30, 2012 and 2011 and the Company's consolidating balance sheet as of September 30, 2012 and December 31, 2011.

16. ACQUISITION:

On July 16, 2012, our Sachtleben titanium dioxide venture completed the acquisition of certain business assets, primarily inventory and other production assets, of crenox GmbH, a German titanium dioxide producer based in Krefeld, Germany, from the insolvency administrator. crenox GmbH had been under administration since 2009 as a result of the creditor protection proceedings affecting its former parent company Tronox Inc. This acquisition further enhances Sachtleben's position as a leading global supplier of high-quality titanium dioxide pigments. The allocation of the purchase price to the identifiable assets acquired is preliminary and subject to change upon the finalization of purchase accounting which is expected to be completed in 2012.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**Executive Summary**

We are a global developer, manufacturer and marketer of technologically advanced, high value-added specialty chemicals and advanced materials. We serve more than 60,000 customers across a wide variety of industries and geographic areas. We operate through five reportable segments: (1) Lithium; (2) Surface Treatment; (3) Performance Additives; (4) Titanium Dioxide Pigments; and (5) Advanced Ceramics. We are focused on growth, productivity, cost reduction, margin expansion, divestment of non-core businesses, debt reduction, bolt-on acquisitions and increasing stockholder value.

On June 11, 2012, the Company's Board of Directors adopted a policy to commence a quarterly cash dividend program and declared an initial quarterly cash dividend of \$0.35 per share (\$27.2 million) which was paid on July 11, 2012 to all common shareholders of record as of June 26, 2012. In September 2012, a cash dividend of \$27.2 million was paid.

In the first quarter of 2012, the Company reorganized its Specialty Chemicals segment into two reportable segments: Lithium and Surface Treatment. The metal sulfides business that was previously reported in the Specialty Chemicals segment is now included in the Corporate and other category. All prior-period amounts related to the segment change have been retrospectively reclassified throughout these condensed consolidated financial statements. See Note 2, Segment Information, for further details.

The following table is a summary of our financial highlights:

(\$ in millions, except per share amounts)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Net sales	\$ 862.8	\$ 940.9	\$ 2,677.9	\$ 2,854.9
Net income from continuing operations	61.6	75.9	362.3	228.1
Adjusted EBITDA from continuing operations	181.9	226.9	637.9	667.1

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Adjusted EBITDA from continuing operations margin	21.1%	24.1%	23.8%	23.4%
Diluted earnings per share from continuing operations attributable to Rockwood Holdings, Inc. shareholders	0.77	0.95	4.53	2.85

Results Third Quarter Review

Total net sales were down in the third quarter of 2012 compared to the same period in the prior year primarily due to the negative impact of currency changes and lower volumes across all segments, particularly in Performance Additives. This was partially offset by increased selling prices across most segments.

Adjusted EBITDA decreased in the third quarter of 2012 compared to the same period in the prior year primarily due to the lower volumes, higher raw material costs, primarily in Titanium Dioxide Pigments, and the negative impact of currency changes. This was partially offset by higher selling prices across most segments.

Net income and diluted earnings per share from continuing operations were lower in the third quarter of 2012 compared to the same period in the prior year primarily due to the reasons noted above.

Results Year-to-date Review

Total net sales were down in the nine months ended September 30, 2012 compared to the same period in the prior year primarily due to the negative impact of currency changes and lower volumes across all segments, particularly in Titanium Dioxide Pigments. This was partially offset by increased selling prices across most segments.

Adjusted EBITDA decreased in the nine months ended September 30, 2012 compared to the same period in the prior year primarily due to lower volumes, higher raw material costs and the negative impact of currency changes. This was partially offset by increased selling prices across most segments.

Net income and diluted earnings per share from continuing operations were higher in the nine months ended September 30, 2012

compared to the same period in the prior year primarily from a \$139.0 million reversal of our federal valuation allowance on net federal deferred tax assets.

This discussion contains forward-looking statements that involve numerous risks and uncertainties. Our actual results could differ materially from those discussed in the forward-looking statements as a result of these risks and uncertainties, including those set forth in Forward-Looking Statements at the end of this Management's Discussion and Analysis (MD&A) section and the risk factors section of our 2011 Annual Report on Form 10-K. You should read the following MD&A together with our condensed consolidated financial statements and the notes to those statements that appear elsewhere in this Quarterly Report.

Factors Which Affect Our Results of Operations

Our Markets

Because the businesses in our segments generally serve many unrelated end-use markets, we discuss the principal market conditions on a segment basis rather than a consolidated basis. The principal market conditions in our segments and regions in which we operate that impacted our results of operations during the periods presented include the following:

Lithium

- Demand for our lithium carbonate products is generally driven by demand in industrial applications, the aluminum business, the battery industry, glass ceramics and cement. Sales of lithium products specifically used in life science applications depend on the trends in drug development and growth in pharmaceuticals and agrochemicals markets, as well as generic competition. In 2011, net sales were up primarily from increased selling prices and increased volumes of lithium products. In the first nine months of 2012, net sales were up primarily from increased selling prices, as well as higher volumes of lithium products for the battery industry, partially offset by a decline in potash volumes. Compared to the fourth quarter of the prior year, we expect net sales growth for the remainder of the year driven by higher selling prices, as well as increased volumes of lithium products for the battery industry.

- In August 2012, the Company entered into a definitive agreement with Talison Lithium Limited (Talison) to acquire all of the outstanding shares of Talison in an all-cash transaction for C\$6.50 per share for an equity purchase price of approximately C\$724 million (\$736 million, based on an exchange rate of C\$1 = \$1.0166 as of September 30, 2012) plus any amount in connection with any exercise of outstanding Talison stock options through the closing date. Talison is a leading global producer of lithium and has been supplying a global customer network from the Greenbushes Lithium Operations in Western Australia for over 25 years. This acquisition is expected to be completed in the fourth quarter of 2012 and is expected to strengthen our position as a leading global supplier of lithium compounds, secure an alternative source of raw materials and provide access to the growing markets for lithium materials in the Asia-Pacific region. This transaction is subject to the approval of Talison shareholders and other customary closing conditions.

Surface Treatment

- Demand for Surface Treatment products generally follows the activity levels of metal processing manufacturers, including the automotive supply, steel and aerospace industries. In 2011, net sales were up from higher volumes in all markets, particularly automotive and general industrial, as well as increased selling prices. In the first nine months of 2012, excluding the impact of currency changes, net sales were up primarily from higher selling prices in certain markets. Compared to the fourth quarter of the prior year, we expect slight net sales growth for the remainder of the year primarily from higher selling prices.

Performance Additives

- Generally, a trend towards the increased use of colored concrete products in the construction market has historically had a positive effect on our Color Pigments and Services business line. However, a general slowdown in the construction market has negatively impacted construction sales. North American construction volumes were lower in 2011 and the first nine months of 2012. European construction volumes were up slightly in 2011, but were down in the first nine months of 2012. Volumes of coatings and specialties products were down in 2011 and the first nine months of 2012. We do not expect any significant increase in volumes for the remainder of the year due to our exposure to the construction markets.

- Demand for our wood protection products, in particular Ecolife and alkaline copper quaternary, or ACQ, is generally driven by both repair and remodeling, as well as new construction. In 2011, and the first nine months of 2012, net sales were up primarily from higher selling prices. Results for the remainder of the year could be negatively impacted by our exposure to the construction market.

- In the Clay-based Additives business, higher selling prices had a favorable impact on results in 2011 and in the first nine months of 2012. We expect volumes to reflect overall economic trends in our key markets in North America and Europe.

Titanium Dioxide Pigments

- Demand for our titanium dioxide products in anatase grade is driven mainly by demand in the synthetic fiber industry, while demand for titanium dioxide products in rutile grade and our functional additives business are driven by demand in the coatings, printing inks, construction, cosmetics, pharmaceutical, food, paper and plastics industries. Market conditions, including pricing pressure and industry overcapacity, have negatively impacted this segment. In 2011, higher selling prices were partially offset by lower volumes. In the first nine months of 2012, net sales were down as lower volumes were partially offset by higher selling prices. We expect demand to remain weak in the fourth quarter.

- Our functional additives sales were up in 2011 as higher selling prices had a favorable impact on results. In the first nine months of 2012, our functional additives sales were down as lower volumes were partially offset by increased selling prices. We expect demand to remain weak in the fourth quarter.

- In July 2012, our Sachtleben titanium dioxide venture acquired certain business assets, primarily inventory and other production assets, of crenox GmbH, a German titanium dioxide producer from the insolvency administrator. crenox GmbH has been under administration since 2009 as a result of the creditor protection proceedings affecting its former parent company Tronox Inc.

Advanced Ceramics

- Demand for our ceramic components for medical devices is mainly tied to the aging population in Europe and the United States. Sales of our medical device applications increased in 2011 and the first nine months of 2012 on higher volumes. We expect growth of medical applications for the remainder of the year, primarily in ceramic hip applications.

- Sales of most other product applications, including cutting tools, mechanical applications and electronic applications were up in 2011 on higher volumes. In the first nine months of 2012, sales volumes of electronic applications, mechanical systems and cutting tools were down. Lower volumes of electronic applications were driven by a slowdown in the market for power electronic applications in the energy and semiconductor industries and lower volumes of mechanical systems were driven by lower demand for cartridges. We expect sales for cutting tools to be below prior year amounts due to a slowdown of worldwide automotive production. We expect demand for ceramics for electronic applications and mechanical systems to be at lower levels for the remainder of the year.

Global Exposure

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

We operate a geographically diverse business, with 55% of our net sales in 2011 generated from shipments to customers in Europe, 23% to North America (predominantly the United States), 14% to Asia and 8% to the rest of the world. For a geographic description of the origin of our net sales and location of our long-lived assets, see Item 8. Financial Statements and Supplementary Data - Note 3, Segment Information in our 2011 Form 10-K.

We have sold to customers in more than 60 countries and currently serve our diverse and extensive customer base with 82 manufacturing facilities in more than 20 countries. Consequently, we are exposed to global economic and political changes, particularly currency fluctuations that could impact our profitability and demand for our products.

Our sales and production costs are mainly denominated in U.S. dollars or Euros. Our results of operations and financial condition have been historically impacted by the fluctuation of the Euro against our reporting currency, the U.S. dollar. For the three and nine months ended September 30, 2012, the average exchange rate of the Euro against the U.S. dollar was lower compared to the same period in 2011. As a result, our net sales, gross profit and operating income were negatively impacted. Historically, however, our operating margins have not been significantly impacted by currency fluctuations because, in general, sales and costs of products sold are generated or incurred in the same currency, subject to certain exceptions.

The foreign currency effect is the translation impact of the change in the average rate of exchange of another currency to the U.S. dollar for the applicable period as compared to the preceding period. The impact relates primarily to the conversion of the Euro to the U.S. dollar. Unless otherwise noted, all balance sheet items as of September 30, 2012 which are denominated in Euros are converted at the September 30, 2012 exchange rate of 1.00 = \$1.2860. For the three months ended September 30, 2012 and 2011 and the nine

months ended September 30, 2012 and 2011, the average rate of exchange of the Euro to the U.S. dollar is \$1.25 and \$1.41, respectively, and \$1.28 and \$1.41, respectively.

Raw Materials

Raw materials constituted approximately 48% of our 2011 cost of products sold. We have a broad raw material base, with the cost of no single raw material representing more than 3% of our cost of products sold in 2011. Nonetheless, the significant price fluctuations our raw materials have experienced in the past during periods of high demand have had an adverse impact on our results of operations. In 2011 and the first nine months of 2012, higher raw material costs in a number of businesses had an unfavorable impact on our results of operations. For example, in 2011 and the first nine months of 2012, we experienced higher prices for slag and ilmenite used in our Titanium Dioxide Pigments segment. We cannot accurately predict the impact of any future price increases for raw materials or any raw material shortages on our business as a whole or in specific geographic regions. In addition, we may not be able to pass on raw material price increases to our customers. See details of our ten most significant raw materials (in terms of dollars) in Item 1, **Business Raw Materials** in our 2011 Annual Report on Form 10-K.

Energy Costs

In 2011, energy purchases represented approximately 8% of our cost of products sold. However, within certain business lines, such as our Titanium Dioxide Pigments segment and the Color Pigments and Services and Clay-based Additives businesses of our Performance Additives segment, energy costs are more significant. Energy costs were up in 2011 and were up in the first nine months of 2012. Natural gas prices in Europe, where our Titanium Dioxide Pigments segment is located, were up in 2011 and in the first nine months of 2012. Natural gas prices in North America were down in 2011 and in the first nine months of 2012.

Income Taxes

We recorded an income tax provision of \$23.3 million on income from continuing operations before taxes of \$84.3 million in the three months ended September 30, 2012. The income tax provision was favorably impacted by certain domestic income that was not tax effected due to the valuation allowance reversal and a beneficial foreign earnings mix.

Other Charges and Credits

During the periods presented, we incurred certain other charges that included systems/organization establishment expenses, restructuring and other severance costs, foreign exchange gains and losses, and a loss on early extinguishment/modification of debt. See **Items excluded from Adjusted EBITDA** section in Note 2, **Segment Information**, for a discussion of other charges and credits recorded in the three and nine months ended September 30, 2012 and 2011.

Note Regarding Non-GAAP Financial Measures

A non-GAAP financial measure is generally defined by the SEC as one that purports to measure historical or future financial performance, financial position or cash flows but excludes or includes amounts that would not be so adjusted in the most comparable U.S. GAAP measure. From time to time in this management's discussion and analysis, we disclose non-GAAP financial measures, primarily Adjusted EBITDA. As discussed in Note 8, Long-Term Debt, we redeemed all of our 2014 Notes in February 2012 and RSGI, an indirect wholly-owned subsidiary, issued \$1.25 billion Senior Notes due in 2020 (2020 Notes) in September 2012. The calculation of Adjusted EBITDA according to the indenture underlying our 2020 Notes is generally consistent with the definition in our senior secured credit agreement. The calculation of Adjusted EBITDA according to the facility agreement underlying the debt of our TiO2 business excludes certain adjustments prescribed in our other debt agreements. In addition, our senior secured credit agreement and the indenture governing the 2020 Notes contain financial covenants that are determined based on Adjusted EBITDA. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, in our 2011 Annual Report on Form 10-K for a definition of Adjusted EBITDA, management's uses of Adjusted EBITDA and its limitations.

Results of Operations

Actual Results of Operations

The following table presents the major components of our operations on an actual basis and Adjusted EBITDA (the reconciliation to net income is set forth in Reconciliation of Net Income Attributable to Rockwood Holdings, Inc. Shareholders to Adjusted EBITDA for the three and nine months ended September 30, 2012 and 2011 within this MD&A section), including as a percentage of net sales, for the periods presented. See Note 2, Segment Information, for segment information and a reconciliation from income (loss) from continuing operations before taxes to Adjusted EBITDA on a segment basis.

(a) Primarily relates to the gain on sale of the plastic compounding business in January 2011.

Three months ended September 30, 2012 compared to three months ended September 30, 2011

Overview

Net sales decreased \$78.1 million, or 8.3%, over the prior year primarily due to the negative impact of currency changes of \$73.4 million, lower volumes of \$39.7 million across all segments, particularly Performance Additives, partially offset by increased selling prices of \$39.0 million across most segments. See further discussion by segment below.

Operating income decreased \$45.7 million, or 30.3%, over the prior year primarily due to the gross margin impact of lower sales volumes of \$43.6 million, higher raw material prices of \$20.0 million, an unfavorable fixed cost absorption of \$13.3 million and the negative impact of currency changes of \$9.0 million. This was partially offset by increased selling prices of \$39.0 million.

Adjusted EBITDA decreased \$45.0 million, or 19.8%, over the prior year primarily due to the reasons noted above.

Net income from continuing operations decreased \$26.8 million, or 30.5% over the prior year due to the reasons noted above.

Net loss attributable to noncontrolling interest of \$0.6 million for the three months ended September 30, 2012 was primarily related to the losses recorded in our Titanium Dioxide Pigments venture. Net income attributable to noncontrolling interest of \$11.9 million for the three months ended September 30, 2011 was primarily due to earnings in our Titanium Dioxide Pigments venture.

Net income attributable to Rockwood Holdings, Inc. shareholders decreased \$14.3 million, or 18.8%, over the prior year primarily due to the reasons noted above.

Net sales

Lithium. Net sales increased \$1.7 million, or 1.5%, over the prior year primarily on increased selling prices of \$14.8 million, partially offset by lower volumes of \$7.2 million, particularly lithium carbonate (technical grade), and the negative impact of currency changes of \$5.8 million.

Surface Treatment. Net sales decreased \$10.5 million, or 5.7%, over the prior year primarily due to the negative impact of currency changes of \$13.7 million. Higher selling prices of \$6.2 million in certain markets and higher volumes in the U.S. and Asia totaling \$2.2 million were partially offset by lower volumes in Europe of \$5.3 million.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Performance Additives. Net sales decreased \$22.6 million, or 11.3%, over the prior year primarily due to lower volumes of \$19.1 million primarily in our Color Pigments and Services and Clay-based Additives businesses resulting from difficult economic conditions in Europe and a slowdown in North American oilfield drilling. In addition, net sales were negatively impacted by currency changes of \$5.8 million, partially offset by increased selling prices of \$5.4 million.

Titanium Dioxide Pigments. Net sales decreased \$23.0 million, or 9.1%, over the prior year primarily from the negative impact of currency changes of \$29.0 million and lower volumes of \$6.4 million, partially offset by increased selling prices of \$13.3 million.

Advanced Ceramics. Net sales decreased \$15.9 million, or 10.9%, over the prior year primarily from the negative impact of currency changes of \$14.8 million, as well as lower volumes of electronic applications of \$3.5 million and cutting tool applications of \$2.1 million. This was partially offset by higher volumes of medical applications of \$6.6 million.

Other. Net sales decreased \$7.8 million, or 18.9%, over the prior year primarily on lower volumes and selling prices of \$2.5 million and \$1.0 million, respectively, primarily in the metal sulfides business, and the negative impact of currency changes of \$4.3 million.

Gross profit

Gross profit decreased \$63.9 million, or 19.3%, over the prior year primarily from the impact of the lower volumes of \$43.6 million, the negative impact of currency changes of \$21.9 million, higher raw material prices of \$20.0 million and an unfavorable fixed cost absorption of \$13.3 million, partially offset by higher selling prices of \$39.0 million. Gross profit as a percentage of net sales were 31.0% and 35.2% for the three months ended September 30, 2012 and 2011, respectively.

Selling, general and administrative (SG&A) expenses

SG&A expenses decreased \$19.7 million, or 11.2%, over the prior year primarily due to the impact of currency changes of \$12.9 million and lower variable compensation costs. SG&A expenses as a percentage of net sales were 18.1% and 18.7% for the three months ended September 30, 2012 and 2011, respectively.

Restructuring and other severance costs

See Note 13, Restructuring And Other Severance Costs, for further details.

Operating income

Lithium. Operating income increased \$1.5 million, or 4.8%, over the prior year primarily due to higher selling prices of \$14.8 million, partially offset by the gross margin impact of lower volumes of \$6.5 million, higher selling general and administrative costs of \$1.8 million, particularly research and development costs, higher raw material costs of \$1.3 million, the negative impact of currency changes of \$1.2 million and increased restructuring and other severance costs of \$0.8 million.

Surface Treatment. Operating income decreased \$0.3 million, or 1.1%, over the prior year primarily due to higher raw material costs of \$2.0 million, the negative impact of currency changes of \$1.9 million, the gross margin impact of lower volumes of \$1.5 million and higher selling, general and administrative costs of \$1.1 million. This was partially offset by higher selling prices of \$6.2 million.

Performance Additives. Operating income decreased \$7.2 million, or 34.6%, over the prior year primarily due to the gross margin impact of lower volumes of \$7.2 million, an unfavorable fixed cost absorption of \$3.1 million and an unfavorable sales mix of \$2.3 million, partially offset by increased selling prices of \$5.4 million.

Titanium Dioxide Pigments. Operating income decreased \$44.0 million, or 82.7%, over the prior year primarily due to the gross margin impact of lower volumes of \$27.3 million, higher raw material prices of \$18.9 million, particularly for slag and ilmenite, and an unfavorable fixed cost absorption of \$10.1 million. This was partially offset by higher selling prices of \$13.3 million.

Advanced Ceramics. Operating income decreased \$4.9 million, or 14.6%, over the prior year primarily from the negative impact of currency changes.

Corporate. Operating loss decreased \$9.2 million, or 60.1%, over the prior year primarily from lower variable compensation costs.

Other income (expenses)

Interest expense, net. Interest expense, net decreased \$5.2 million, or 19.8%, compared to the prior year primarily due to debt repayments.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Foreign exchange, net. For the three months ended September 30, 2012 and 2011, foreign exchange gains of \$0.4 million and foreign exchange losses of \$2.4 million, respectively, were reported primarily in connection with non-operating Euro-denominated transactions.

Income tax benefit

We recorded an income tax provision of \$23.3 million on income from continuing operations before taxes of \$84.3 million for the three months ended September 30, 2012. The income tax provision in the third quarter of 2012 was favorably impacted by certain domestic income that was not tax effected due to a valuation allowance reversal and a beneficial foreign earnings mix.

We recorded an income tax provision of \$34.4 million on income from continuing operations before taxes of \$122.2 million for the three months ended September 30, 2011. The income tax provision in the third quarter of 2011 was favorably impacted by a beneficial earnings mix and certain domestic income that was not tax effected due to a valuation allowance.

Adjusted EBITDA

Lithium. Adjusted EBITDA increased \$2.7 million, or 6.3%, over the prior year primarily due to higher selling prices of \$14.8 million, partially offset by the gross margin impact of lower volumes of \$6.5 million, the negative impact of currency changes of \$1.9 million, higher selling, general and administrative costs of \$1.8 million, particularly research and development costs and higher raw material costs of \$1.3 million.

Surface Treatment. Adjusted EBITDA of \$37.9 million was flat over the prior year and was positively impacted from increased selling prices of \$6.2 million, offset by the negative impact of currency changes of \$2.6 million, higher raw material costs of \$2.0 million and the gross margin impact of lower volumes of \$1.5 million.

Performance Additives. Adjusted EBITDA decreased \$6.6 million, or 18.1%, over the prior year primarily due to the gross margin

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

impact of lower volumes of \$7.2 million, an unfavorable fixed cost absorption of \$3.1 million and an unfavorable sales mix of \$2.3 million, partially offset by increased selling prices of \$5.4 million.

Titanium Dioxide Pigments. Adjusted EBITDA decreased \$47.3 million, or 63.2%, over the prior year primarily due to the gross margin impact of lower volumes of \$27.3 million, higher raw material prices of \$18.9 million, particularly for slag and ilmenite, an unfavorable fixed cost absorption of \$10.1 million and the negative impact of currency changes of \$3.6 million. This was partially offset by higher selling prices of \$13.3 million.

Advanced Ceramics. Adjusted EBITDA decreased \$5.4 million, or 11.4%, over the prior year primarily from the negative impact of currency changes.

Corporate. Operating loss decreased \$11.6 million, or 92.1%, over the prior year primarily from lower variable compensation costs.

Nine months ended September 30, 2012 compared to nine months ended September 30, 2011

Overview

Net sales decreased \$177.0 million, or 6.2%, over the prior year primarily due to the negative impact of currency changes of \$176.5 million and lower volumes of \$173.4 million, partially offset by increased selling prices of \$175.0 million. See further discussion by segment below.

Operating income decreased \$44.7 million, or 9.9%, over the prior year primarily due to the gross margin impact of lower sales volumes of \$114.4 million, higher raw material prices of \$60.2 million, the negative impact of currency changes of \$28.8 million and higher restructuring and other severance costs of \$14.4 million, partially offset by increased selling prices of \$175.0 million.

Adjusted EBITDA decreased \$29.2 million, or 4.4%, over the prior year primarily due to the reasons noted above except for the change in restructuring and other severance costs which are excluded from Adjusted EBITDA.

Net income from continuing operations increased \$123.7 million to \$384.4 million for the nine months ended September 30, 2012 primarily due to a \$139.0 million reversal of a federal valuation allowance on net deferred tax assets (see further details below and in Note 9, Income Taxes) and the reasons noted above.

The income from discontinued operations of \$120.3 million is primarily related to the gain on sale of discontinued operations, net of tax, of \$119.4 million recorded in the nine months ended September 30, 2011.

Net income attributable to noncontrolling interest of \$22.1 million was recorded for the nine months ended September 30, 2012 compared to \$32.6 million for the nine months ended September 30, 2011. The change from the prior year was primarily related to lower earnings in the Titanium Dioxide Pigments venture in the nine months ended September 30, 2012.

Net income attributable to Rockwood Holdings, Inc. shareholders increased \$13.9 million, or 4.0%, over the prior year due to the reasons noted above.

Net sales

Lithium. Net sales increased \$3.4 million, or 1.0%, over the prior year primarily on increased selling prices of \$29.0 million, partially offset by the negative impact of currency changes of \$14.3 million and lower volumes of \$11.3 million.

Surface Treatment. Net sales decreased \$14.8 million, or 2.6%, over the prior year due to the negative impact of currency changes of \$36.6 million. Higher selling prices of \$24.6 million in certain markets and higher volumes in the U.S. and Asia totaling \$7.6 million were partially offset by lower volumes in Europe of \$10.4 million.

Performance Additives. Net sales decreased \$34.6 million, or 5.6%, over the prior year primarily due to lower volumes of \$37.0 million, particularly in our Color Pigments and Services and Clay-based Additives businesses, and the negative impact of currency changes of \$14.9 million, partially offset by increased selling prices of \$19.4 million.

Titanium Dioxide Pigments. Net sales decreased \$69.0 million, or 9.4%, over the prior year primarily from lower volumes of \$115.5 million and the negative impact of currency changes of \$64.4 million, partially offset by increased selling prices of \$110.8 million.

Advanced Ceramics. Net sales decreased \$37.6 million, or 8.3%, over the prior year primarily from the negative impact of currency changes.

Other. Net sales decreased \$24.4 million, or 18.1%, over the prior year primarily due to the negative impact of currency changes of \$10.5 million and lower selling prices and volumes of \$7.3 million and \$6.6 million, respectively, primarily in our metal sulfides business.

Gross profit

Gross profit decreased \$67.5 million, or 6.8%, over the prior year primarily from the impact of the lower volumes of \$114.4 million, higher raw material prices of \$60.2 million and the negative impact of currency changes of \$59.7 million, partially offset by higher selling prices of \$175.0 million. Gross profit as a percentage of net sales were 34.8% and 35.0% for the nine months ended September 30, 2012 and 2011, respectively.

Selling, general and administrative expenses

SG&A expenses decreased \$37.2 million, or 6.9%, over the prior year primarily due to the impact of currency changes of \$30.9 million and lower variable compensation costs. SG&A expenses as a percentage of net sales were 18.7% and 18.8% for the nine months ended September 30, 2012 and 2011, respectively.

Restructuring and other severance costs

See Note 13, Restructuring And Other Severance Costs, for further details.

Operating income

Lithium. Operating income decreased \$5.2 million, or 5.4%, over the prior year primarily due to higher restructuring and other severance costs of \$11.0 million primarily related to the write-off of a trade name in connection with the reorganization of the Specialty Chemicals business, higher selling, general and administrative costs of \$7.8 million, particularly research and development costs, the gross margin impact of lower volumes of \$5.6 million, the negative impact of currency changes of \$3.3 million, higher raw material costs of \$2.3 million and increased depreciation and amortization costs of \$1.9 million. This was partially offset by higher selling prices of \$29.0 million.

Surface Treatment. Operating income increased \$3.7 million, or 4.4%, over the prior year primarily due to higher selling prices of \$24.6 million, partially offset by higher raw material costs of \$7.6 million, higher selling general and administrative costs of \$6.5 million and the negative impact of currency changes of \$5.4 million.

Performance Additives. Operating income decreased \$14.8 million, or 20.7%, over the prior year primarily due to the gross margin impact of lower volumes of \$17.3 million, higher raw material costs of \$7.8 million, particularly for quaternary amine and copper, an unfavorable fixed cost absorption of \$3.7 million and higher restructuring and other severance costs of \$3.0 million, partially offset by increased selling prices of

\$19.4 million.

Titanium Dioxide Pigments. Operating income decreased \$35.1 million, or 25.9%, over the prior year primarily due to the gross margin impact of lower volumes of \$88.4 million, higher raw material prices of \$48.4 million, particularly slag and ilmenite, and the negative impact of currency changes of \$8.4 million, partially offset by higher selling prices of \$110.8 million.

Advanced Ceramics. Operating income decreased \$8.2 million, or 7.8%, over the prior year primarily from the negative impact of currency changes of \$9.5 million, higher raw material and energy costs of \$2.9 million, lower selling prices of \$1.6 million, partially offset by lower manufacturing costs of \$5.9 million, particularly on improved productivity.

Corporate. Operating loss decreased \$14.9 million, or 35.1%, over the prior year primarily from lower variable compensation costs.

Other income (expenses)

Interest expense, net. Interest expense, net decreased \$17.5 million, or 23.6%, compared to the prior year primarily due to debt repayments.

Loss on early extinguishment/modification of debt. In the nine months ended September 30, 2012, we recorded a charge of \$12.5 million in connection with the redemption of our 2014 Notes in March 2012 (\$9.7 million comprised of redemption premiums of \$6.7 million and the write off of \$3.0 million of deferred financing costs) and in connection with the refinancing and repayment of our titanium dioxide venture term loans in June 2012 (\$2.8 million comprised of fees of \$2.5 million and the write-off of deferred financing costs of \$0.3 million). In the nine months ended September 30, 2011, we recorded a charge of \$16.6 million in connection with the refinancing and repayment of our senior secured term loans in February 2011 comprised of fees of

\$13.5 million and the write-off of deferred financing costs of \$3.1 million.

Foreign exchange, net. For the nine months ended September 30, 2012, foreign exchange losses of \$7.3 million were reported primarily related to the impact of the weaker Euro as of September 30, 2012 versus December 31, 2011 in connection with non-operating Euro-denominated transactions. For the nine months ended September 30, 2011, foreign exchange gains of \$1.8 million were reported in connection with non-operating Euro-denominated transactions.

Income tax benefit/provision

We recorded an income tax benefit of \$54.9 million on income from continuing operations before taxes of \$329.5 million for the nine months ended September 30, 2012. The income tax benefit in the nine months ended September 30, 2012 resulted from a \$139.0 million reversal of our federal valuation allowance against our net federal deferred tax assets. In addition, the income tax benefit was favorably impacted by certain domestic income that was not tax effected due to a valuation allowance reversal and a beneficial foreign earnings mix.

We recorded an income tax provision of \$101.0 million on income from continuing operations before taxes of \$361.7 million in the nine months ended September 30, 2011. The income tax provision in the nine months ended September 30, 2011 was favorably impacted by a beneficial foreign earnings mix and certain domestic income that was not tax effected due to a valuation allowance.

Adjusted EBITDA

Lithium. Adjusted EBITDA increased \$8.0 million, or 6.2%, over the prior year primarily due to higher selling prices of \$29.0 million, partially offset by higher selling, general and administrative costs of \$7.8 million, particularly research and development costs, the gross margin impact of lower volumes of \$5.6 million, the negative impact of currency changes of \$4.9 million and higher raw material costs of \$2.3 million.

Surface Treatment. Adjusted EBITDA increased \$1.6 million, or 1.4%, over the prior year primarily due to higher selling prices of \$24.6 million, partially offset by higher raw material costs of \$7.6 million, higher selling general and administrative costs of \$6.5 million and the negative impact of currency changes of \$6.8 million.

Performance Additives. Adjusted EBITDA decreased \$10.4 million, or 8.9%, over the prior year primarily due to the gross margin impact of lower volumes of \$17.3 million, higher raw material costs of \$7.8 million, particularly for quaternary amine and copper, and an unfavorable fixed cost absorption of \$3.7 million, partially offset by increased selling prices of \$19.4 million.

Titanium Dioxide Pigments. Adjusted EBITDA decreased \$35.1 million, or 18.2%, over the prior year primarily due to the gross margin impact of lower volumes of \$88.4 million, higher raw material prices of \$48.4 million, particularly slag and ilmenite, and the negative impact of currency changes of \$13.4 million, partially offset by higher selling prices of \$110.8 million.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Advanced Ceramics. Adjusted EBITDA decreased \$10.3 million, or 7.0%, over the prior year primarily from the negative impact of currency changes of \$12.7 million, higher raw material and energy costs of \$2.9 million, lower selling prices of \$1.6 million, partially offset by lower manufacturing costs of \$5.9 million, particularly on improved productivity.

Corporate. Operating loss decreased \$17.0 million, or 49.0%, over the prior year primarily from lower variable compensation costs.

Reconciliation of Net Income Attributable to Rockwood Holdings, Inc. Shareholders to Adjusted EBITDA

Because we view Adjusted EBITDA on both a consolidated basis and a segment basis as an operating performance measure, we use net income as the most comparable U.S. GAAP measure on a consolidated basis. The following table, which sets forth the applicable components of Adjusted EBITDA, presents a reconciliation of net income attributable to Rockwood Holdings, Inc. shareholders to Adjusted EBITDA on a consolidated basis:

(\$ in millions)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Net income attributable to Rockwood Holdings, Inc. shareholders	\$ 61.6	\$ 75.9	\$ 362.3	\$ 348.4
Net (loss) income attributable to noncontrolling interest	(0.6)	11.9	22.1	32.6
Net income	61.0	87.8	384.4	381.0
Income tax provision (benefit)	23.3	34.4	(54.9)	101.0
Income from discontinued operations, net of tax				(120.3)
Income from continuing operations before taxes	84.3	122.2	329.5	361.7
Interest expense, net	21.1	26.3	56.5	74.0
Depreciation and amortization	65.5	67.0	196.4	200.2
Restructuring and other severance costs	6.0	4.5	23.9	9.5
Systems/organization establishment expenses	1.1	0.3	3.1	1.3
Acquisition and disposal costs	2.0	0.2	4.0	0.4
Loss on early extinguishment/modification of debt	0.1	0.1	12.5	16.6
Foreign exchange (gain) loss on financing activities, net	(0.4)	2.4	7.3	(1.8)
Other	2.2	3.9	4.7	5.2
Total Adjusted EBITDA from continuing operations	\$ 181.9	\$ 226.9	\$ 637.9	\$ 667.1

Liquidity and Capital Resources**Cash Flows**

Operating Activities. Net cash provided by operating activities was \$288.9 million and \$364.9 million for the nine months ended September 30, 2012 and 2011, respectively. This decrease was primarily due to the higher use of operating cash from working capital changes.

Investing Activities. Net cash (used in) provided by investing activities was \$(282.8) million and \$119.0 million for the nine months ended September 30, 2012 and 2011, respectively. The decrease was primarily due to net proceeds received of \$300.7 million in 2011 related to the sale of our plastic compounding business, higher costs for acquisitions in 2012, as well as increased capital expenditures, net of government grants received, in 2012.

Financing Activities. Net cash provided by (used in) financing activities was \$1,149.1 million and \$(456.8) million for the nine months ended September 30, 2012 and 2011, respectively. In the first nine months of 2012, we issued a new tranche of term loan A under our existing senior secured credit facility in the amount of \$350.0 million and used the proceeds along with cash on hand to redeem all of our 2014 Notes (\$534.1 million in the aggregate based on the exchange rate in effect on the date of payment). In addition, in June 2012, our titanium dioxide venture,

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

Sachtleben GmbH, issued new term loans in the aggregate amount of 400.0 million (\$500.7 million based on the exchange rate in effect on the date of the transaction) and used a portion of the proceeds to retire existing term loans (195.0 million - \$244.1 million) and to pay a dividend to the venture partners (88.8 million - \$112.3 million, of which \$68.5 million was paid to Rockwood and \$43.8 million was paid to Kemira). Further, in September 2012, our indirect wholly-owned subsidiary, RSGI, issued \$1.25 billion of 4.625% Senior Notes due in 2020. In the first nine months of 2011, we voluntarily prepaid \$408.9 million of our senior secured term loans and paid related fees of \$13.4 million in connection with the refinancing of our senior secured credit facility.

Liquidity

Our primary source of liquidity has been and will continue to be cash generated from the operations of our subsidiaries. Our primary liquidity requirements are working capital, debt service, capital expenditures, dividend payments and acquisitions. Our debt service requirements in future years are significant. In 2012 and future periods, we believe that based on current conditions in our industry and markets, our cash reserves, cash flows from operations and borrowings available under our revolving credit facility will be adequate sources of liquidity. However, an economic downturn or recession may have a material adverse impact on our results of operations, cash flows from operations and our liquidity. See Item 1, Business, and Item 1A, Risk Factors in our 2011 Annual Report on Form 10-K. On June 11, 2012, the Company's Board of Directors adopted a policy to commence a quarterly cash dividend program and declared a quarterly cash dividend of \$0.35 per share which was paid in July and September 2012 (\$54.3 million in the aggregate).

In addition, our liquidity may be negatively impacted due to funding obligations related to certain pension plans. We have several pension plans located in Germany, Finland, the United Kingdom and the United States. We have entered into long-term funding arrangements related to the Dynamit Nobel Pensionskasse multiemployer pension plan located in Germany and our defined benefit pension plans located in the U.K. (see Item 8. Financial Statements and Supplementary Data - Note 14, Employee Benefit Plans, of our 2011 Annual Report on Form 10-K for further details).

Our overall unfunded position in our defined benefit plans as of September 30, 2012 is \$475.9 million and the funded status of our plans is 34%. However, 75% of our unfunded position is concentrated in plans mostly in Germany, where funding is neither legally required nor customary. When only the plans that have funding requirements are considered, the unfunded portion is \$118.3 million and the funded status is 67%. The funding of our pension plans was in compliance with local requirements as of September 30, 2012. Almost all of our pension obligations are long-term in nature. Our annual cash outflows to meet funding requirements and benefit obligations historically have not significantly exceeded our pension expense. Such cash outflows were less than pension expense in 2011 and the first nine months of 2012. The measurement of our pension obligations and plan assets is dependent on a variety of actuarial assumptions and investment performance and is assessed annually. Therefore, the funded status as of December 31, 2012 could differ significantly.

As of September 30, 2012, we had cash and cash equivalents of \$1,489.9 million of which \$237.2 million was held by our foreign subsidiaries. We believe that the amount of funds held by our foreign subsidiaries as of such date not readily convertible into Euros or U.S. dollars was \$6.0 million. Based on our domestic cash flows from operations and our other sources of liquidity, including the availability under our revolving credit facility, we believe we have sufficient access to funds for our expected future domestic liquidity needs. Our intent is to permanently invest foreign funds outside the U.S. and our current plans do not demonstrate a need to repatriate them to fund our operations or dividends in the U.S. Further, if the cash and cash equivalents held by our foreign subsidiaries were needed for our operations or dividends in the U.S., we do not believe we would be required to accrue and pay taxes in the U.S. to repatriate these funds as sufficient funds could be repatriated by recalling certain intercompany loans we have with our foreign subsidiaries. Among other things, we may use available cash to invest in our business, reduce our term debt, pay dividends or fund bolt-on acquisitions.

As of September 30, 2012, we had actual total indebtedness of \$3,000.8 million, consisting primarily of the 2020 Notes and the term loans under our senior secured credit facility and the Titanium Dioxide Pigments venture facility.

Senior secured credit facility. On February 22, 2012, the Company issued a new tranche of term loan A under its existing senior secured credit facility in the amount of \$350.0 million and used the proceeds along with cash on hand to redeem all of its 2014 Notes (250.1 million and \$200.0 million or \$534.1 million in the aggregate) in March 2012. The Company paid redemption premiums of \$6.7 million and wrote off \$3.0 million of deferred financing costs associated with the redemption of 2014 Notes. In October 2012, we used a portion of the proceeds from the issuance of the 2020 Notes to prepay \$250.0 million of term loan B of our senior secured credit facility.

As of September 30, 2012, the senior secured credit facility consisted of:

- a term loan (Term Loan A) in an aggregate principal amount of \$336.9 million maturing in February 2017, with semi-annual principal payments ranging from \$13.1 million to \$17.5 million and bearing interest at Libor plus 2.25% (with a 0.25% reduction for achieving a designated credit rating);

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

- a term loan (Term Loan B) in an aggregate principal amount of \$837.2 million maturing in February 2018 and bearing interest at Libor (subject to a Libor floor of 1.00%) plus 2.75% (with a 0.25% reduction for achieving a designated leverage ratio); and
- a revolving credit facility in an aggregate principal amount of \$180.0 million, made available in U.S. dollars, Euros and/or pounds sterling, maturing on February 10, 2016. The availability under the revolving credit facility is \$155.0 million as of September 30, 2012, reduced by outstanding letters of credit of \$25.0 million.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

The senior secured credit agreement also contains the following financial covenants that are determined based on our Adjusted EBITDA (including certain adjustments for, among other items, acquisitions and related synergies), which reflects management's interpretations thereof:

- a leverage ratio: for the twelve-month period ended September 30, 2012, net senior secured debt (senior secured debt plus capital lease obligations, minus cash up to a maximum of \$200.0 million) to Adjusted EBITDA must be less than 2.75 to 1; for such period, our ratio equaled 1.72 to 1; and
- an interest coverage ratio: for the twelve-month period ended September 30, 2012, Adjusted EBITDA to cash interest expense (interest expense, net excluding deferred debt issuance cost amortization and the movements in the mark-to market value of our interest rate derivatives) must be at least 2.50 to 1; for such period, our ratio equaled 13.05 to 1.

See the liquidity section in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our 2011 Annual Report on Form 10-K for a discussion of the other terms of the senior secured credit agreement.

See Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations—Definitions of Adjusted EBITDA, in our 2011 Annual Report on Form 10-K and Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations—Note Regarding Non-GAAP Financial Measures in this Form 10-Q for a discussion of the definition of Adjusted EBITDA used in calculating our financial covenants.

We were in compliance with the above covenants as of September 30, 2012.

2020 Notes. As noted above, our indirect wholly-owned subsidiary, RSGI, issued \$1.25 billion of 4.625% Senior Notes due in 2020 on September 25, 2012. The 2020 Notes are fully and unconditionally guaranteed on a senior unsecured basis by the Company and each of RSGI's existing and future domestic subsidiaries that is a guarantor under RSGI's senior secured credit facilities. The 2020 Notes pay interest at a rate of 4.625% per annum semi-annually on April 15 and October 15 of each year, commencing April 15, 2013 and will mature on October 15, 2020.

We used a portion of the proceeds to prepay \$250 million of term loan B under our senior secured credit facility in October 2012, and expect to use the remaining portion to fund general corporate purposes, which may include strategic investments, including the acquisition of Talison, and the repayment of debt. The Talison acquisition is expected to be completed in the fourth quarter of 2012 for approximately C\$724 million (\$736 million, based on an exchange rate of C\$1 = \$1.0166 as of September 30, 2012) plus any amount in connection with any exercise of outstanding Talison stock options through the closing date.

The 2020 Notes contain various affirmative and restrictive covenants. The restrictive covenants limit our ability, and the ability of our restricted subsidiaries, to, among other things, incur or guarantee additional indebtedness (as described below), pay dividends or make other equity distributions or repurchase capital stock, make investments or other restricted payments, create liens, transfer or sell assets, restrict dividends or other payments to us, engage in certain transactions with certain affiliates, and merge or consolidate with other companies or sell substantially all of our assets.

The indenture governing the 2020 Notes prohibits us from incurring additional debt, subject to certain permitted incurrences, unless the fixed charge coverage ratio, which is the ratio of Adjusted EBITDA (as defined therein) to fixed charges (as defined therein), for the most recently ended four fiscal quarters is at least 2.00 to 1. In addition, the indenture prohibits us from making restricted payments (such as dividends or other equity distributions, repurchases of capital stock or restricted investments), subject to certain permitted payments, unless, among other things, the fixed charge coverage ratio for the most recently ended four fiscal quarters is at least 2.00 to 1. For the four-fiscal quarter period ended September 30, 2012, the fixed charge coverage ratio equaled 13.05 to 1.

Because the indenture governing the 2020 Notes defines an event of default to include, among other things, a default under any other debt obligation in excess of \$50.0 million that could cause the acceleration of such obligation, any acceleration under our senior secured credit agreement, Titanium Dioxide Pigments facility agreement or other debt agreement would also result in a default under the indenture governing these notes, which could lead to the note holders electing to declare the principal, premium, if any, and accrued and unpaid interest on the then outstanding notes immediately due and payable.

Titanium Dioxide Pigments venture term loans and revolving credit facility. As noted above, our Sachtleben titanium dioxide venture entered into a new facility agreement in the aggregate amount of 430.0 million, consisting of 200.0 million of term loan A, 200.0 million of term loan B and a 30.0 million revolving credit facility. See Note 8, Long-Term Debt, for further details. This facility provided for additional borrowings of up to 4.5 million (\$5.8 million) as of September 30, 2012 after an outstanding bank guarantee of 25.5 million (\$32.8 million) related to a defined benefit pension obligation. Both the term loan and revolving credit facility mature in May 2017.

As of September 30, 2012, the interest rate on term loan A and the revolving credit facility is Euribor (or Libor if the currency is in USD) plus 3.25% and the interest rate on term loan B is Euribor plus 3.50%, both subject to an adjustment determined by reference to

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

a leverage ratio test. Term loan A is payable in installments over a five-year period from the date of the facility agreement, with payments that commenced six months from such date and the remainder due at the final maturity date. Term loan B is payable in full at maturity. The term loan and revolving credit facility may be repaid in advance without penalty.

The new facility agreement includes a mandatory provision which requires Sachtleben to convert 50% of the term loan balances from variable to fixed interest rates for a period of two years. In July 2012, Sachtleben entered into interest rate swaps to fix the interest rate for two years (see Note 4, Financial Instruments and Fair Value Measurements, for further details).

The facility agreement required the venture to meet the following financial covenant as of September 30, 2012:

- A leverage coverage ratio: for the twelve-month period ended September 30, 2012, net debt to EBITDA, subject to certain adjustments (which is substantially similar to the definition of Adjusted EBITDA in our senior secured credit agreement), must be less than 2.70 to 1; for such period, our ratio equaled 1.93 to 1;

We were in compliance with the above covenant as of September 30, 2012.

The following financial covenants are required beginning as of December 31, 2012:

- An interest coverage ratio: for the twelve-month period, EBITDA, subject to certain adjustments, to cash interest expense (net of interest income), must be greater than 5.00 to 1; and
- A cash flow coverage ratio: for the twelve-month period, cash generated for financing activities (EBITDA, subject to certain adjustments, less working capital changes, capital expenditures and interest) to debt service (interest expense and amortization of debt) must be greater than 1.00.

These covenants are calculated in accordance with International Financial Reporting Standards and are based solely on the results of the venture's European operations.

As of September 30, 2012, the weighted average interest rate for the Company is 4.00%, excluding deferred financing costs and the mark-to-market valuation of our interest-rate swaps.

Given our use of Adjusted EBITDA (see Note Regarding Non-GAAP Financial Measures for the definition of Adjusted EBITDA and management's uses of Adjusted EBITDA) as a liquidity measure, the following table presents a reconciliation of net cash provided by operating activities from continuing operations to Adjusted EBITDA:

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

(\$ in millions)	Nine months ended	
	2012	September 30, 2011
Net cash provided by operating activities from continuing operations	\$ 291.6	\$ 366.7
Changes in assets and liabilities, net of the effect of foreign currency translation and acquisitions	191.9	133.3
Current portion of income tax provision	70.1	79.7
Interest expense, net, excluding amortization of deferred financing costs and unrealized losses/gains on derivatives	48.8	71.3
Restructuring and other severance costs	23.9	9.5
Systems/organization establishment expenses	3.1	1.3
Acquisition and disposal costs	4.0	0.4
Bad debt provision	(0.2)	
Other	4.7	4.9
Total Adjusted EBITDA from continuing operations	\$ 637.9	\$ 667.1

Contractual Obligations

The Company is obligated to make future payments under various contracts such as debt agreements (including scheduled cash interest payments), operating lease agreements, and unconditional purchase obligations. A discussion of these contractual obligations is included in our 2011 Annual Report on Form 10-K. As noted above, in February 2012, we issued a new tranche of term

loan A under our existing senior secured credit facility in the amount of \$350.0 million and used the proceeds along with cash on hand to redeem all of our 2014 Notes (\$250.1 million and \$200.0 million or \$534.1 million in the aggregate) in March 2012. In addition, in June 2012, our titanium dioxide venture, Sachtleben GmbH, issued new term loans in the aggregate amount of \$430.0 million, consisting of \$200.0 million of term loan A and \$200.0 million of term loan B and a \$30.0 million revolving credit facility, and in September 2012, our indirect wholly-owned subsidiary, RSGI, issued \$1.25 billion of 4.625% Senior Notes due in 2020. In October 2012, we used a portion of the proceeds from the 2020 Notes to prepay \$250 million of term loan B under our senior secured credit facility and expect to use the remaining proceeds to fund general corporate purposes, which may include strategic investments, including the acquisition of Talison (as described above), and the repayment of debt.

Capital Expenditures

Rockwood's capital expenditures for the three months ended September 30, 2012 consisted primarily of replacements of worn, obsolete or damaged equipment as well as investments in new equipment. For the nine months ended September 30, 2012 and 2011, cash outflows for capital expenditures, net of government grants received, were \$215.3 million and \$181.6 million, respectively. Capital expenditures for each of our reporting segments are provided in the following table:

(\$ in millions)	Nine months ended September 30,			
	2012		2011	
Lithium	\$	72.5	\$	51.8
Surface Treatment		28.8		14.0
Performance Additives		26.4		21.5
Titanium Dioxide Pigments		52.4		52.9
Advanced Ceramics		26.7		32.4
Corporate and other		8.5		9.0
Total	\$	215.3	\$	181.6

Capital expenditures were higher in the first nine months of 2012 primarily due to the expansion of capacity in our Lithium segment in connection with the production of lithium compounds, as well as expansion of capacity in our Surface Treatment and Color Pigments and Services businesses. Future capital expenditures are expected to be higher than prior periods due to ongoing expansion of our lithium capacity, particularly in Chile.

We may incur future costs for capital improvements and general compliance under Safety, Health and Environmental (SHE) laws. For the year ended December 31, 2011, our capital expenditures for SHE matters totaled \$23.3 million, excluding costs to maintain and repair pollution control equipment. For 2012, we estimate capital expenditures for compliance with SHE laws to be at similar levels; however, because capital expenditures for these matters are subject to changes in and new SHE laws, we cannot provide assurance that our recent expenditures will be indicative of future amounts required to comply with any such law.

Recent Accounting Standards

See Note 1, Basis of Presentation and New Accounting Standards, for a discussion of recent accounting standards.

Off-Balance Sheet Arrangements

In the normal course of business, the Company incurs obligations which include guarantees related to contract completion, regulatory compliance and product performance. Under certain circumstances, these obligations are supported through the issuance of letters of credit and other bank guarantees. As of September 30, 2012, the Company had approximately \$32.1 million of letters of credit and other bank guarantees, of which \$30.5 million will expire in 2012 through 2017. The remaining guarantees have no specified expiration date. This amount includes outstanding letters of credit of \$25.0 million that reduced our availability under our senior secured credit facility. In the opinion of management, such obligations will not significantly affect the Company's financial position, results of operations or cash flows, as the Company anticipates fulfilling its performance obligations.

Commitments and Contingencies

See Note 14, Commitments and Contingencies, for a discussion of the Company's Commitments and Contingencies.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial

statements, which have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities.

In our 2011 Annual Report on Form 10-K, our significant accounting policies are described in Note 1, Basis of Presentation and Significant Accounting Policies, and the critical accounting policies and estimates are described in the Management's Discussion and Analysis of Financial Condition and Results of Operations section. There have been no significant changes to these critical accounting policies and estimates as of September 30, 2012.

One of our critical accounting policies relates to determining the need to establish or maintain a valuation allowance against our net deferred tax assets. In accordance with our policy, we evaluate evidence at each balance sheet date to determine if it is more likely than not that we will be able to utilize the net deferred tax assets in future years. At June 30, 2012, the evidence related to net federal deferred tax assets indicated that the positive factors outweighed the negative factors in that the Company is projecting profit before tax for the remainder of the year and the foreseeable future, and, in the second quarter of 2012, the Company achieved a three year cumulative profit before tax position and had achieved sustained profitability. Accordingly, we concluded that it was more likely than not that the federal net deferred tax assets will be utilized in future years and reversed \$139.0 million of our federal valuation allowance.

Another critical accounting policy of ours relates to the impairment of goodwill, property, plant and equipment and other intangible assets. The recoverability of goodwill is reviewed on an annual basis during the fourth quarter. Additionally, the recoverability of goodwill, property, plant and equipment and other intangible assets is reviewed when events or changes in circumstances occur indicating that the carrying value of the assets may not be recoverable. At the end of 2011, we performed recoverability tests of intangible assets in our Viance timber treatment chemicals venture and concluded that there was no impairment of those assets. We reaffirmed this assessment at the end of the third quarter of 2012. We will continue to monitor the recoverability of these assets if events or circumstances indicate that the carrying value of such assets may not be recoverable.

Forward-Looking Statements

This document contains forward-looking statements. Forward-looking statements within the context of the Private Securities Litigation Reform Act of 1995 are not statements of historical fact and may involve a number of risks and uncertainties. Forward-looking statements give our current expectations or forecasts of future events and estimates of amounts not yet determinable. We have used the words anticipate, estimate, expect, project, intend, plan, believe, predict, could, may and other words and terms of similar meaning, including references to assumptions, in this report to identify forward-looking statements. These forward-looking statements are made based on expectations and beliefs concerning future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control, that could cause our actual results to differ materially from those expressed in or implied by these forward-looking statements. In particular, these factors include, among other things:

- our business strategy;
- changes in the general economic conditions in North America and Europe and in other locations in which we currently do business;
- risks associated with negotiating, consummating and integrating acquisitions, including our ability to consummate the acquisition of Talison Lithium Limited, a company incorporated in Australia, on the proposed terms and contemplated schedule, and integrate Talison's business with our lithium business;

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

- competitive pricing or product development activities affecting demand for our products;
- technological changes affecting production of our materials;
- fluctuations in interest rates, exchange rates and currency values;
- availability and pricing of raw materials;
- governmental and environmental regulations and changes in those regulations;
- fluctuations in energy prices;
- changes in the end-use markets in which our products are sold;
- hazards associated with chemicals manufacturing;
- our ability to access capital markets;
- our high level of indebtedness;
- risks associated with competition and the introduction of new competing products, especially from the Asia-Pacific region;
- risks associated with international sales and operations; and
- risks associated with information security.

You should keep in mind that any forward-looking statements made by us in this document or elsewhere speak only as of the date on

which we make them. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We disclaim any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to market risk from changes in interest rates, foreign currency exchange rates and commodity prices. We manage our exposure to these market risks through regular operating and financing activities and, in certain cases, through the use of derivatives. When used, derivatives are employed as risk management tools and not for trading purposes. A discussion and analysis of the Company's market risk is included in our 2011 Annual Report on Form 10-K. There have been no significant changes to these market risks as of September 30, 2012.

Item 4. Controls and Procedures

Our disclosure controls and procedures are designed to ensure that (a) information required to be disclosed in our reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (b) such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2012 and concluded that, as of September 30, 2012, our disclosure controls and procedures are effective to accomplish their objectives at the reasonable assurance level.

There were no changes in our internal control over financial reporting during the third quarter of 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

We are involved in legal proceedings from time to time in the ordinary course of our business, including with respect to product liability, intellectual property and environmental matters. In addition, we may be required to make indemnity payments in connection with certain product liability and environmental claims. See Item 1, Business, and Item 1A, Risk Factors, Environmental Indemnities We may be subject to environmental indemnity claims relating to properties we have divested ; Product Liability Due to the nature of our business and products, we may be liable for damages arising out of product liability claims ; and Product Liability Due to the nature of our business and products, we may be liable for damages arising out of certain indemnity claims in our 2011 Annual Report on Form 10-K.

We do not believe that any individual legal proceeding, government action or arbitration is likely to have a material effect on our financial condition, results of operations or cash flows. However, we cannot predict the outcome of any such actions or the potential for such future actions, and cannot predict whether the resolution of such actions could have a material effect on our financial condition, results of operations or cash flows in any quarterly or annual reporting period. See Note 14, Commitments and Contingencies, in this Form 10-Q and Item 3, Legal Proceedings in our 2011 Annual Report on Form 10-K.

Item 1A. Risk Factors.

A discussion of the Company's risk factors is included in our 2011 Annual Report on Form 10-K. There have been no material changes to these risk factors.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Edgar Filing: Rockwood Holdings, Inc. - Form 10-Q

The information concerning mine safety violations or other regulatory matters required by Section 1503 (a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104) is included in Exhibit 95.1 of this quarterly report.

Item 5. Other Information.

None.

Item 6. Exhibits

See the Exhibit Index immediately following the signature page to this report. Such Exhibit Index is hereby incorporated by reference.
