**Non-GAAP Financial Measures**

While we report financial results in accordance with accounting principles generally accepted in the United States (GAAP), we also provide certain non-GAAP operating performance measures. These non-GAAP measures exclude the tax benefit of the international integration described in Item 7 of our 2012 Form 10-K filed with the Securities and Exchange Commission (SEC) November 26, 2012, expenses associated with long-term incentive compensation related to the international integration, backlog amortization, antitrust litigation, business acquisitions, restructuring, and sales tax adjustments, as well as the related income tax. This non-GAAP information is provided as a supplement, not as a substitute for, or as superior to, measures of financial performance prepared in accordance with GAAP.

We use this information internally to make operating decisions and believe it is helpful to investors because it allows more meaningful period-to-period comparisons of our ongoing operating results. The information can also be used to perform trend analysis and to better identify operating trends that may otherwise be masked or distorted by these types of items. Finally, the Company believes such information provides a higher degree of transparency for certain items. Investors should consider non-GAAP measures in addition to, not as a substitute for, or as superior to, measures of financial performance prepared in accordance with GAAP.

**Disclosure Regarding Forward-Looking Statements**

## Edgar Filing: Hillenbrand, Inc. - Form 8-K

Throughout this release, including Exhibit 99.1, we make a number of forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. As the words imply, forward-looking statements are statements about the future, as contrasted with historical information. Our forward-looking statements are based on assumptions and current expectations of future events that we believe are reasonable, but by their very nature they are subject to a wide range of risks. If our assumptions prove inaccurate or unknown risks and uncertainties materialize, actual results could vary materially from Hillenbrand's expectations and projections.

Words that could indicate we're making forward-looking statements include the following:

intend	believe	plan	expect	may	goal	would
become	pursue	estimate	will	forecast	continue	could
targeted	encourage	promise	improve	progress	potential	should

This is not an exhaustive list. Our intent is to provide examples of how readers might identify forward-looking statements. The absence of any of these words, however, does not mean that the statement is not forward-looking.

**Here is the key point***Forward-looking statements are not guarantees of future performance, and our actual results could differ materially from those set forth in any forward-looking statements. Any number of factors, many of which are beyond our control, could cause our performance to differ significantly from what is described in the forward-looking statements. These factors include, but are not limited to: the outcome of any legal proceedings that may be instituted against Hillenbrand, or any companies we may acquire; risks that an acquisition disrupts current operations or poses potential difficulties in employee retention or otherwise affects financial or operating results; the ability to recognize the benefits of an acquisition, including potential synergies and cost savings or the failure of an acquired company to achieve its plans and objectives generally; global market and economic conditions, including those related to the credit markets; volatility of our investment portfolio; adverse foreign currency fluctuations; ongoing involvement in claims, lawsuits and governmental proceedings related to operations; labor disruptions; the dependence of our business units on relationships with several large providers; increased costs or unavailability of raw materials; continued fluctuations in mortality rates and increased cremations; competition from nontraditional sources in the funeral services business; cyclical demand for industrial capital goods; and certain tax-related matters.*

For a more in-depth discussion of these and other factors that could cause actual results to differ from those contained in forward-looking statements, see the discussions under the heading *Risk Factors* in item 1A of Hillenbrand's Form 10-Q for the quarter ended March 31, 2013, filed with the Securities and Exchange Commission (SEC) May 8, 2013. Hillenbrand assumes no obligation to update or revise any forward-looking information as a result of new information or future events or developments.
