OPENTABLE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. Organization and Description of Business

OpenTable, Inc. (together with its subsidiaries, "OpenTable" or the "Company"), was incorporated on October 13, 1998, and is a Delaware corporation. The Company provides solutions that form an online network connecting reservation-taking restaurants and people who dine at those restaurants. For restaurant customers, the Company provides a proprietary Electronic Reservation Book ("ERB") and Connect. The ERB combines proprietary software and computer hardware to deliver a solution that computerizes restaurant host-stand operations and replaces traditional pen-and-paper reservation books. The ERB streamlines and enhances a number of business-critical functions and processes for restaurants, including reservation management, table management, guest recognition and email marketing. For restaurants that do not require the operational benefits of the ERB, OpenTable offers Connect, a web-based solution that enables participating restaurants to receive reservations from OpenTable's websites and mobile applications ("apps") as well as the websites and mobile applications of OpenTable's partners and restaurant customers. For diners, the Company operates popular restaurant reservation websites and mobile apps. OpenTable's websites and mobile apps enable diners to find, choose and book tables at restaurants on the OpenTable network, overcoming the inefficiencies associated with the traditional process of reserving by phone.

Certain Significant Risks and Uncertainties

The Company operates in a dynamic industry, and accordingly, can be affected by a variety of factors. For example, management of the Company believes that changes in any of the following areas could have a significant negative effect on the Company's future financial position, results of operations or cash flows: the ability to accurately forecast revenues and appropriately plan its expenses; the impact of the current economic climate on its business; the ability to maintain an adequate rate of growth; the ability to effectively manage its growth; the ability to attract new restaurant customers; the ability to increase the number of visitors to its websites and mobile apps and convert those visitors into diners; and the ability to retain existing restaurant customers and diners or encourage repeat reservations.

2. Summary of Significant Accounting Policies

Principles of Consolidation

Edgar Filing: OPENTABLE INC - Form 10-Q

These condensed consolidated financial statements include the accounts of OpenTable, Inc. and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Basis of Presentation

The accompanying condensed consolidated financial statements are unaudited. These unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and applicable rules and regulations of the Securities and Exchange Commission (SEC) regarding interim financial reporting. Certain information and note disclosures normally included in the consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012, as filed on February 26, 2013 with the SEC. The

Table of Contents

condensed consolidated balance sheet as of December 31, 2012, included herein was derived from the audited consolidated financial statements as of that date but does not include all disclosures required by GAAP, including notes to the consolidated financial statements.

The unaudited interim condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and include all adjustments (consisting only of normal recurring adjustments) necessary for the fair presentation of the Company's statement of financial position at September 30, 2013 and December 31, 2012, and the Company's results of operations for the three and nine months ended September 30, 2013 and 2012, and its cash flows for the nine months ended September 30, 2013 and 2012. The results for the three and nine months ended September 30, 2013 are not necessarily indicative of the results to be expected for any future period. All references to September 30, 2013 or to the three or nine months ended September 30, 2013 and 2012 in the notes to the condensed consolidated financial statements are unaudited.

Acquisition of Foodspotting, Inc.

In February 2013, the Company acquired all of the outstanding shares of capital stock of Foodspotting, Inc., a provider of a mobile app for finding and sharing photos of food, for a purchase price of \$10,100,000 in cash. The Company recorded \$6,227,000 of goodwill and \$4,300,000 of developed technology which is being amortized over two years. The Company has included the effects of the transaction within the results of operations prospectively from February 6, 2013, the date of acquisition. Pro forma financial information for this business combination has not been presented, as the effects were not material to the Company's historical consolidated financial statements.

Acquisition of JustChalo

In June 2013, the Company acquired JustChalo Inc., a mobile technology company, for a purchase price of \$11,000,000, of which \$2,300,000 was paid in cash and the remainder through the issuance of 121,909 shares of common stock and an option to purchase 6,478 shares of common stock. The Company recorded \$9,644,000 of goodwill and \$1,200,000 of developed technology which is being amortized over two years. The Company has included the effects of the transaction within the results of operations prospectively from June 10, 2013, the date of acquisition. Pro forma financial information for this business combination has not been presented, as the effects were not material to the Company's historical consolidated financial statements.

Acquisition of Rezbook

In July 2013, the Company acquired certain assets and liabilities of the Rezbook business from Urbanspoon, an operating business of IAC/InterActiveCorp, for \$12,000,000 in cash. Rezbook is a reservation management system for restaurants. The Company recorded \$7,683,000 of goodwill in connection with this acquisition. Additionally, the Company recorded \$3,000,000 in customer relationships and \$1,400,000 of developed technology which are being amortized over five and two years, respectively. The Company has included the effects of the transaction within the results of operations prospectively from July 31, 2013, the date of acquisition. Pro forma financial information for this business combination has not been presented, as the effects were not material to the Company's historical consolidated financial statements.

Use of Estimates

The preparation of the Company's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. These estimates are based on information available as of the date of the financial statements; therefore, actual results could differ from those estimates.

Table of Contents***Recently Issued Accounting Standards***

As of September 30, 2013, the Company believes that there are no recently issued accounting pronouncements not yet effective that will have an impact on the Company's condensed consolidated financial statements.

3. Short-Term Investments and Fair Value Measurements

Short-term investments as of September 30, 2013 and December 31, 2012 are summarized as follows:

	Amortized Cost	Unrealized Gains	Unrealized Losses	Estimated Fair Market Value
At September 30, 2013:				
U.S. government and agency securities	\$ 10,079,000	\$	\$	\$ 10,079,000
Certificates of deposit	2,204,000			2,204,000
Total	\$ 12,283,000	\$	\$	\$ 12,283,000
At December 31, 2012:				
Certificates of deposit	\$ 733,000	\$	\$	\$ 733,000
Total	\$ 733,000	\$	\$	\$ 733,000

As of December 31, 2012, certain investments with a total estimated fair value of \$487,000 had maturity dates of greater than one year but less than five years. As of September 30, 2013, there were no investments that had maturity dates of greater than one year.

Edgar Filing: OPENTABLE INC - Form 10-Q

Table of Contents

The following table represents the Company's fair value hierarchy for its financial assets:

	September 30, 2013			December 31, 2012		
	Aggregate Fair Value	Level 1	Level 2	Aggregate Fair Value	Level 1	Level 2
U.S. government and agency securities	\$ 10,079,000	\$	\$ 10,079,000	\$	\$	
Certificates of deposit	2,204,000		2,204,000	733,000		733,000
Total short-term investments	\$ 12,283,000	\$	\$ 12,283,000	\$ 733,000	\$	\$ 733,000

The Company chose not to elect the fair value option as prescribed by ASC Topic 825 *Financial Instruments* for its financial assets and liabilities that had not been previously carried at fair value. Therefore, financial assets and liabilities not carried at fair value, such as accounts payable, are still reported at their carrying values.

4. Goodwill and Intangible Assets

The following table summarizes the changes in the Company's goodwill by geographical reporting unit:

	North America	United Kingdom	Consolidated
Balance as of December 31, 2012	\$ 6,814,000	\$ 39,490,000	\$ 46,304,000
Goodwill related to acquisitions	23,554,000		23,554,000

Total Goodwill as of September 30, 2013	\$ 30,368,000	\$ 39,430,000	\$ 69,798,000

A summary of intangible assets as of September 30, 2013 and December 31, 2012 is as follows:

	September 30, 2013			December 31, 2012		
	Gross Carrying Value	Accumulated Amortization	Total	Gross Carrying Value	Accumulated Amortization	Total
Trademarks - finite life	\$ 132,000	\$ 99,000	\$ 33,000	\$ 132,000	\$ 77,000	\$ 55,000
Trademarks - indefinite life	12,276,000		12,276,000	12,294,000		12,294,000
Customer relationships	11,913,000	8,712,000	3,201,000	8,924,000	7,164,000	1,760,000

Total intangible assets	\$ 34,085,000	\$ 12,631,000	\$ 21,454,000	\$ 24,217,000	\$ 8,991,000	\$ 15,226,000

Table of Contents

Intangible assets with finite lives are amortized on a straight-line basis over their estimated useful lives which range from one to four years. Amortization of intangible assets was \$1,488,000 and \$1,089,000 for the three months ended September 30, 2013 and 2012, respectively, and \$3,604,000 and \$3,038,000 for the nine months ended September 30, 2013 and 2012, respectively. Based on the current amount of intangibles subject to amortization, estimated future annual amortization expense is as follows: 2013 (remainder): \$1,243,000; 2014: \$4,695,000; 2015: \$1,690,000; 2016: \$600,000; 2017: \$600,000 and 2018: 350,000. Intangible assets with indefinite lives are not amortized. Instead, they are reviewed for impairment annually, or whenever events or changes in circumstances indicate the carrying amount exceeds its fair value. The Company has defined its annual intangible impairment evaluation date as August 31. The Company performed its annual intangible impairment evaluation as of August 31, 2013 and determined that the carrying amount of the indefinite life intangible assets did not exceed the fair value. Additionally, there was no impairment of indefinite life intangible assets as of December 31, 2012 or September 30, 2013.

For the annual impairment analysis, goodwill is evaluated at the reporting unit level. The evaluation for impairment is performed by comparing the reporting unit's carrying amount of goodwill to the fair value of the reporting unit. If the carrying amount exceeds the reporting unit fair value, then the second step of the impairment test is performed to determine the amount of the impairment loss. The Company has defined its annual goodwill impairment evaluation date as August 31. The Company performed its annual goodwill impairment evaluation as of August 31, 2013 and determined that the carrying amount of goodwill did not exceed the fair value of either reporting units. Additionally, there was no impairment of goodwill as of December 31, 2012 or September 30, 2013.

5. Commitments and Contingencies

Contractual Obligations

The Company leases its facilities under operating leases. These leases expire at various dates through 2020. The terms of the lease agreements provide for rental payments on a graduated basis. The Company recognizes rent expense on a straight-line basis over the lease period.

In September 2012, the Company entered into a new lease for its primary office space in San Francisco, California, which expires in 2020. In connection with the lease, the property owner provided a lease inducement to the Company in the form of a \$2.4 million tenant improvement allowance. Construction was completed and the Company moved into the new office space in April 2013. The leasehold improvement asset and the lease incentive liability are being amortized on a straight-line basis over the term of the lease as depreciation expense and as an offset to rent expense, respectively. Effective as of May 2013, the Company entered into an amendment to its primary office space lease for additional space.

Litigation

The Company is subject to various legal proceedings and claims arising in the ordinary course of business. Although occasional adverse decisions or settlements may occur, management believes that the final disposition of such matters will not have a material adverse effect on the Company's business, financial position, results of operations or cash flows.

6. Stockholders' Equity

Treasury Stock

In November 2011, the Company announced that the Board of Directors authorized the Company to purchase up to \$50 million of its outstanding common stock. During the nine months ended September 30, 2012, the Company purchased 221,763 shares of stock for \$8,710,000 (including commissions) under this share repurchase program. This share repurchase program was completed in January 2012.

In August 2012, the Company announced that the Board of Directors authorized the Company to purchase up to an additional \$50 million of its outstanding common stock. During the nine months ended September 30, 2013, the Company purchased 402,955 shares of stock for \$23,562,000 (including commissions) under this share repurchase program.

Stock-Based Compensation

The Company accounts for stock-based compensation under Topic 718 *Stock Compensation* (Topic 718), which requires compensation costs related to share-based transactions, including employee stock options, to be recognized in the financial statements based on fair value.

Stock Options

Under Topic 718, the fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing model.

Table of Contents

The following table summarizes the assumptions relating to the Company's stock options for the three and nine months ended September 30, 2013 and 2012, respectively:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Dividend yield	0%	0%	0%	0%
Volatility	47%	53%	47%-54%	52%-55%
Risk-free interest rate	1.71%	0.80%-0.89%	1.02%-1.71%	0.80%-1.27%
Expected term, in years	6.08	6.02-6.08	5.50-6.08	5.27-6.55

The Company granted 47,097 and 214,572 stock options during the three months ended September 30, 2013 and 2012, respectively, and 179,068 and 1,425,481 stock options during the nine months ended September 30, 2013 and 2012, respectively. The Company recorded stock-based compensation expense related to stock options of \$2,873,000 and \$3,562,000 for three months ended September 30, 2013 and 2012, respectively, and \$9,442,000 and \$13,461,000 for the nine months ended September 30, 2013 and 2012, respectively.

Restricted Stock Units

The Company began granting restricted stock units (RSUs) to its employees in November 2010. The cost of RSUs is determined using the fair value of the Company's common stock on the date of grant. RSUs typically vest and become exercisable annually, based on a one to four year total vesting term. Stock-based compensation expense is amortized using a graded vesting attribution method over the requisite service period.

The Company granted 23,561 and 24,358 RSUs during the three months ended September 30, 2013 and 2012, respectively, and 202,227 and 120,155 RSUs during the nine months ended September 30, 2013 and 2012, respectively. The Company recorded stock-based compensation expense related to RSUs of \$1,797,000 and \$1,348,000, respectively, for the three months ended September 30, 2013 and 2012, respectively, and \$3,099,000 and \$2,626,000 for the nine months ended September 30, 2013 and 2012, respectively.

Excess Tax Benefits

Topic 718 requires the benefits of tax deductions in excess of recognized compensation expense to be reported as a financing cash flow, rather than as an operating cash flow. For the three months ended September 30, 2013 and 2012, the Company recorded \$4,132,000 and \$1,802,000, respectively, of excess tax benefits from stock-based compensation and \$5,351,000 and \$9,750,000, for the nine months ended September 30, 2013 and 2012, respectively.

Table of Contents**7. Net Income Per Share**

The Company calculates net income per share in accordance with Topic 260 *Earnings per Share*.

Non-vested performance-based awards are included in the diluted shares outstanding each period if established performance criteria have been met at the end of such period. 98,000 shares were excluded from the dilutive shares outstanding for the three and nine months ended September 30, 2012, as the performance criteria had not been met as of such date. In June 2013, all remaining non-vested performance-based awards were cancelled. As such, no such shares were included in the dilutive shares outstanding for the three and nine months ended September 30, 2013.

Anti-dilutive shares in the amounts of 213,000 and 1,414,000 were excluded from the dilutive shares outstanding for the three months ended September 30, 2013 and 2012, respectively. Anti-dilutive shares in the amounts of 252,000 and 1,500,000 were excluded from the dilutive shares outstanding for the nine months ended September 30, 2013 and 2012, respectively.

The following table sets forth the computation of basic and diluted net income per share for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,

Diluted net income per share	\$ 0.32	\$ 0.26	\$ 0.97	\$ 0.71

8. Income Taxes

Edgar Filing: OPENTABLE INC - Form 10-Q

During the three and nine months ended September 30, 2013, the Company recorded income tax expense of \$2,571,000 and \$10,112,000, respectively, which resulted in an effective tax rate of 25% and 30% in each respective period. During the three and nine months ended September 30, 2012, the Company recorded income tax expense of \$3,253,000 and \$8,989,000, respectively, which resulted in an effective tax rate of 35% in each respective period. The expected tax provision (derived from applying the federal statutory rate to the Company's income before income tax provision for the three and nine months ended September 30, 2013) differed from the Company's recorded income tax provision primarily due to discrete items resulting from the reinstatement of the 2012 federal research and development tax credit in January 2013 and the expiration of a statute of limitations on previously filed returns, the remeasurement of deferred taxes previously recorded upon the acquisition of toptable.co.uk Ltd., now known as OpenTable International Limited (toptable), and certain foreign provision to return true-ups. The Company's effective tax rate for the three and nine months ended September 30, 2013 is not necessarily indicative of the effective tax rate that may be expected for fiscal year 2013.

Topic 740 *Income Taxes* prescribes that a tax position is required to meet a minimum recognition threshold before being recognized in the financial statements. The Company's gross unrecognized tax benefits as of September 30, 2013 and December 31, 2012 were \$17,401,000 and \$18,362,000, respectively. As of September 30, 2013 and December 31, 2012, the Company recorded \$535,000 and \$777,000, respectively, of accrued interest. No significant penalties have been recorded to date.

Table of Contents

9. Comprehensive Income (Loss)

In accordance with Topic 220 *Comprehensive Income*, the Company reports by major components and, as a single total, the change in its net assets during the period from non-owner sources. Comprehensive income (loss) consists of net income and accumulated other comprehensive income (loss), which includes certain changes in equity that are excluded from net income. Specifically, it includes cumulative foreign currency translation and unrealized gains (losses) from investments.

Accumulated other comprehensive income of \$549,000 and \$861,000 as of September 30, 2013 and December 31, 2012, respectively, was comprised entirely of foreign currency translation gains.

10. Segment Information

The Company operates in one industry online restaurant reservations and guest management solutions. The Company has two reportable segments as defined by Topic 280 *Segment Reporting*: North America and International. Reportable segments have been identified based on how management makes operating decisions, assesses performance and allocates resources. The chief executive officer acts as the chief operating decision maker for both segments. The Company does not allocate assets discretely by reportable segments, and reviews asset information on a global basis, not by segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q and our 2012 Annual Report on Form 10-K for the fiscal year ended December 31, 2012, as filed on February 26, 2013 with the SEC (the "2012 Annual Report").

This Quarterly Report on Form 10-Q contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially from those expressed or implied by such forward-looking statements. The statements contained in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements are often identified by the use of words such as, but not limited to, anticipate, believe, can, continue, could, estimate, expect, intend, may, will, plan, project, seek, should, target, would and similar expressions. We use these words to identify forward-looking statements. These statements are based on the beliefs and assumptions of our management based on information currently available to management. Such forward-looking statements are subject to risks, uncertainties and other important factors that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those identified below, and those discussed in the section titled "Risk Factors" included below and in our 2012 Annual Report. Furthermore, such forward-looking statements speak only as of the date of this report. Except as required by law, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements.

Overview

We provide solutions that form an online network connecting reservation-taking restaurants and people who dine at those restaurants. Our solutions for restaurants include our proprietary Electronic Reservation Book, or ERB, and Connect, as well as a number of related products and services. Our solutions for diners include our popular restaurant reservation websites and mobile applications, or apps. The OpenTable network includes more than 30,000 OpenTable restaurant customers spanning all 50 states as well as select markets outside of the United States. Since our inception in 1998, we have seated more than 530 million diners through OpenTable reservations, and during the three months ended September 30, 2013, we seated an average of approximately 12.8 million diners per month. Restaurants that use our ERB pay us a one-time installation fee for onsite installation and training, a monthly subscription fee for the use of our software and hardware and a fee for each restaurant guest seated through online reservations, as applicable. Restaurants that use Connect pay us a fee for each restaurant guest seated through online reservations. Diners can use our online restaurant reservation service for free. For the three months ended September 30, 2013 and 2012, our net revenues were \$46.7 million and \$39.7 million, respectively. For the nine months ended September 30, 2013 and 2012, our net revenues were \$137.8 million and \$118.7 million, respectively. For the three months ended September 30, 2013 and 2012, our reservation revenues accounted for 60% and 55% of our total revenues, respectively, and 60% and 56% of total revenues for the nine months ended September 30, 2013 and 2012, respectively. For the three months ended September 30, 2013 and 2012, our subscription revenues accounted for 34% and 36% of our total revenues, respectively, and 33% and 35% of revenues for the nine months ended September 30, 2013 and 2012, respectively.

Edgar Filing: OPENTABLE INC - Form 10-Q

In 2004, we began to selectively expand outside of North America into countries that are characterized by large numbers of online consumer transactions and reservation-taking restaurants. To date, we have concentrated our international efforts in Germany, Japan and the United Kingdom. Our revenues outside of North America for the three and nine months ended September 30, 2013 and 2012 represented 13% of our total revenues. We intend to continue to incur substantial expenses in advance of recognizing material related revenues as we attempt to further penetrate our existing international markets and selectively enter new markets. Some international markets may fail to meet our expectations, and we may decide to realign our focus.

Table of Contents

Basis of Presentation

General

We report consolidated operations in U.S. dollars and operate in two geographic segments: North America and International. The North America segment is comprised of all of our operations in the United States, Canada and Mexico, and the International segment is comprised of all non-North America operations, which includes operations in Europe and Asia.

Revenues

We generate substantially all of our revenues from our restaurant customers. Our revenues include monthly subscription fees, a fee for each restaurant guest seated through online reservations and other revenue. Subscription revenues are recognized on a straight-line basis during the contractual period over which the service is delivered to our restaurant customers. Revenues from online reservations are recognized on a transaction basis as the diners are seated by the restaurant. Revenues are reported net of redeemable Dining Points issued to diners. See

Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies and Estimates Dining Rewards Loyalty Programs in our 2012 Annual Report.

Costs and Expenses

Operations and support. Our operations and support expenses consist primarily of payroll and related costs, including bonuses and stock-based compensation, for those employees associated with installation, support and maintenance for our restaurant customers, as well as costs related to our outsourced call center. Operations and support expenses also include restaurant equipment costs, such as depreciation on restaurant-related hardware, shipping costs related to restaurant equipment, restaurant equipment costs that do not meet the capitalization threshold, referral payments and website connectivity costs. Operations and support expenses also include amortization of intangibles, resulting from various acquisitions, and capitalized website and software development costs (see Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies and Estimates Website and Software Development Costs in our 2012 Annual Report). Also included in operations and support expenses are travel and related expenses incurred by the employees providing installation and support services for our restaurant customers, plus allocated facilities costs.

Sales and marketing. Our sales and marketing expenses consist primarily of salaries, benefits and incentive compensation for sales and marketing employees, including stock-based compensation. Also included are expenses for online and offline marketing, trade shows, public relations and other promotional and marketing activities, travel and entertainment expenses and allocated facilities costs.

Technology. Our technology expenses consist primarily of salaries and benefits, including bonuses and stock-based compensation, for employees and contractors engaged in the development and ongoing maintenance of our websites, infrastructure and software, as well as allocated facilities costs.

General and administrative. Our general and administrative costs consist primarily of salaries and benefits, including stock-based compensation, for general and administrative employees and contractors involved in executive, finance, accounting, risk management, human resources and legal roles. In addition, general and administrative costs include consulting, legal, accounting and other professional fees. Bad debt, third-party payment processor, credit card, bank processing fees and allocated facilities costs are also included in general and administrative expenses.

Headcount consists of full-time equivalent employees, including full-time equivalent temporary employees, in all of the sections noted below.

Table of Contents

Other Income, Net

Other income, net consists primarily of interest income earned on our cash accounts and interest expense associated with our line of credit and letter of credit on our San Francisco, California office lease. Foreign exchange gains and losses are also included in other income, net.

Income Taxes

We are subject to income tax in the United States as well as other tax jurisdictions in which we conduct business. Earnings from our non-U.S. activities are subject to local country income tax and may also be subject to current U.S. income tax.

During the three and nine months ended September 30, 2013, we recorded income tax expense of \$2.6 million and \$10.1 million, respectively, which resulted in an effective tax rate of 25% for the three months ended September 30, 2013 and 30% for the nine months ended September 30, 2013. During the three and nine months ended September 30, 2012, we recorded income tax expense of \$3.3 million and \$9.0 million, respectively, which resulted in an effective tax rate of 35% for each respective period. The tax provision and the effective tax rate for the three and nine months ended September 30, 2013 differ from those of the same periods ended September 30, 2012 primarily due to discrete items resulting from the reinstatement of the 2012 federal research and development tax credit in January 2013, the expiration of a statute of limitations on previously filed returns, the re-measurement of deferred taxes previously recorded upon the acquisition of toptable.co.uk Ltd. (now known as OpenTable International Limited), or toptable, and certain foreign provision to return true-ups. Our effective tax rates for the three and nine months ended September 30, 2013 are not necessarily indicative of the effective tax rate that may be expected for fiscal year 2013.

Factors that impact our income tax provision include, but are not limited to, recognition of federal and state research and development tax benefits and the federal Domestic Manufacturing Deduction.

Critical Accounting Policies and Estimates

In presenting our financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP), we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, costs and expenses and related disclosures.

Some of the estimates and assumptions we are required to make relate to matters that are inherently uncertain as they pertain to future events. We base these estimates and assumptions on historical experience or on various other factors that we believe to be reasonable and appropriate under the circumstances. On an ongoing basis, we reconsider and evaluate our estimates and assumptions. Our future estimates may change if the underlying assumptions change. Actual results may differ significantly from these estimates.

Edgar Filing: OPENTABLE INC - Form 10-Q

We believe that the following critical accounting policies involve our more significant judgments, assumptions and estimates and, therefore, could have the greatest potential impact on our consolidated financial statements:

- Revenue Recognition;
- Dining Rewards Loyalty Programs;
- Valuation of Long-Lived and Intangible Assets, Including Goodwill;
- Website and Software Development Costs;
- Income Taxes; and
- Stock-Based Compensation.

There have been no material changes to our critical accounting policies described in our 2012 Annual Report. For further information on our critical and other significant accounting policies, see our 2012 Annual Report.

Segments

We have two reportable segments: North America and International. In both segments, we derive revenue primarily from online reservations and guest management solutions. Total North America revenues increased from \$34.5 million for the three months ended September 30, 2012, to \$40.6 million for the three months ended September 30, 2013, and increased from \$102.7 million for the nine months ended September 30, 2012 to \$119.8 million for the nine months ended September 30, 2013. North America reservation revenues increased from \$19.2 million for the three months ended September 30, 2012, to \$23.8 million for the three months ended September 30, 2013, and increased from \$58.1 million for the nine

months ended September 30, 2012, to \$71.0 million for the nine months ended September 30, 2013. North America reservation revenues increased as a result of an increase in seated diners. North America subscription revenues increased from \$12.5 million for the three months ended September 30, 2012, to \$13.9 million for the three months ended September 30, 2013, and increased from \$36.7 million for the nine months ended September 30, 2012, to \$40.1 million for the nine months ended September 30, 2013. North America subscription revenues increased as a result of an increase in installed restaurants. North America income from operations increased from \$11.6 million for the three months ended September 30, 2012, to \$12.0 million for the three months ended September 30, 2013, and increased from \$32.9 million for the nine months ended September 30, 2012, to \$39.8 million for the nine months ended September 30, 2013. The increase in income from operations is due to revenue increases exceeding the increase in expenses, due to operational efficiencies.

Total International revenues increased from \$5.2 million for the three months ended September 30, 2012, to \$6.1 million for the three months ended September 30, 2013, and increased from \$16.0 million for the nine months ended September 30, 2012 to \$18.0 million for the nine months ended September 30, 2013. International reservation revenues increased from \$2.7 million for the three months ended September 30, 2012, to \$4.1 million for the three months ended September 30, 2013, and increased from \$8.4 million for the nine months ended September 30, 2012, to \$11.6 million for the nine months ended September 30, 2013. International reservation revenues increased as a result of an increase in seated diners. International subscription revenues increased from \$1.8 million for the three months ended September 30, 2012, to \$1.9 million for the three months ended September 30, 2013, and increased from \$5.1 million for the nine months ended September 30, 2012, to \$5.4 million for the nine months ended September 30, 2013. International subscription revenues increased as a result of an increase in installed restaurants. International other revenues decreased from \$0.8 million for the three months ended September 30, 2012 to \$0.1 million for the three months ended September 30, 2013, and decreased from \$2.5 million for the nine months ended September 30, 2012 to \$1.0 million for the nine months ended September 30, 2013 due to a change in the pricing of our promotional products from a flat rate to a pay-for-performance model, which is now classified as reservation revenues.

International loss from operations decreased from \$2.4 million for the three months ended September 30, 2012, to \$1.8 million for the three months ended September 30, 2013, and decreased from \$7.5 million for the nine months ended September 30, 2012, to \$6.6 million for the nine months ended September 30, 2013. The decrease in the loss from operations is due to increases in revenue partially offset by increases in marketing spending, specifically the purchasing of pay per click marketing and an offline marketing campaign. Refer to Note 10 to the condensed consolidated financial statements for additional segment information.

Our operations and support expenses increased \$2.3 million, or 22%, for the three months ended September 30, 2013 compared to the three months ended September 30, 2012, and \$4.2 million, or 14%, for the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. The increase in operations and support expense was primarily attributable to increases in depreciation and amortization of \$1.2 million for the three months and \$2.5 million for the nine months ended September 30, 2013. Also contributing to the increase were increases in headcount-related costs, including stock-based compensation expense, of \$0.3 million for the three months and \$0.1 million for the nine months ended September 30, 2013.

Our general and administrative expenses increased \$0.3 million, or 4%, for the three months ended September 30, 2013 compared to the three months ended September 30, 2012, and decreased \$0.6 million, or 2%, for the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. The increase in general and administrative expenses for the three months ended September 30, 2013 was primarily attributable to an increase of \$0.4 million in legal, accounting and tax services. The decrease in general and administrative expenses for the nine months ended September 30, 2013 was primarily attributable to a \$2.4 million decrease in headcount-related costs, including stock-based compensation expense, offset by increases in professional services and allocated facilities costs, primarily in connection with the new office facility.

Income tax expense decreased \$0.7 million, or 21%, for the three months ended September 30, 2013 compared to the three months ended September 30, 2012 and increased \$1.1 million, or 12%, for the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. This resulted in an effective tax rate of 25% and 30% for the three and nine months ended September 30, 2013, respectively, compared to an effective tax rate of 35% for both the three- and nine-month periods ended September 30, 2012. The tax provision and the effective tax rate for the three and nine months ended September 30, 2013 differ from those of the same periods ended September 30, 2012 primarily due to discrete items resulting from the reinstatement of the 2012 federal research and development tax credit in January 2013, the expiration of a statute of limitations on previously filed returns, the re-measurement of deferred taxes previously recorded upon the acquisition of toptable, and certain foreign provision to return true-ups. Our effective tax rates for the three and nine months ended September 30, 2013 are not necessarily indicative of the effective tax rate that may be expected for fiscal year 2013.

As of September 30, 2013, we had cash and cash equivalents of \$90.5 million and short-term investments of \$12.3 million. Cash and cash equivalents consist of cash, money market accounts, certificates of deposit and U.S. government and agency securities. Short-term investments consist of U.S. government and agency securities and certificates of deposit.

Amounts deposited with third-party financial institutions exceed the Federal Deposit Insurance Corporation and Securities Investor Protection Corporation, or SIPC, insurance limits, as applicable. These cash, cash equivalents and short-term investment balances could be impacted if the underlying financial institutions fail or are subjected to other adverse conditions in the financial markets. To date we have experienced no loss or lack of access to our invested cash, cash equivalents or short-term investments; however, we can provide no assurances that access to our invested cash, cash equivalents and short-term investments will not be impacted by adverse conditions in the financial markets, including any failure by the U.S. government to service its debts in a timely manner.

In January 2013, we entered into a credit agreement, which provides for a senior secured revolving credit facility of \$50.0 million to fund working capital and other general corporate purposes. This revolving credit facility expires in January 2016. The credit agreement includes various affirmative and negative covenants, including financial covenants. Failure to comply with these covenants could result in the obligation to repay all amounts then outstanding. The Company was in compliance with all covenants under this credit agreement during the quarter ended and at September 30, 2013. There were no amounts outstanding under this credit facility at September 30, 2013.

Our initial public offering in 2009 raised \$34.6 million. Since then, we have been able to finance our operations, including international expansion, through cash from North America operating activities and proceeds from the exercise of employee stock options. We had cash and cash equivalents of \$90.5 million at September 30, 2013 and we believe we will have sufficient cash to support our operating activities and capital expenditures for at least the next twelve months.

Operating Activities

Edgar Filing: OPENTABLE INC - Form 10-Q

For the nine months ended September 30, 2013, operating activities provided \$42.8 million in cash, primarily as a result of net income of \$23.1 million, \$12.5 million in stock-based compensation, \$12.4 million in depreciation and amortization, and a \$7.5 million increase in dining rewards payable, partially offset by a \$7.0 million decrease in deferred taxes.

For the nine months ended September 30, 2012, operating activities provided \$45.3 million in cash, primarily as a result of net income of \$16.5 million, \$16.1 million in stock-based compensation and \$9.7 million in depreciation and amortization, and a \$12.8 million increase in accounts payable and accrued expenses. These amounts were partially offset by a \$6.0 million decrease in deferred taxes and \$9.8 million in excess tax benefits related to stock-based compensation.

Table of Contents

Investing Activities

Our primary investing activities have consisted of purchases, sales and maturities of short-term investments and purchases of property, equipment and software and the investment in business acquisitions. We expect to have ongoing capital expenditure requirements to support our growing restaurant installed base and other infrastructure needs. We expect to fund this investment with our existing cash, cash equivalents and short-term investments.

During the nine months ended September 30, 2013, we paid \$10.1 million to acquire Foodspotting, Inc., \$2.3 million in cash as partial consideration to acquire JustChalo, Inc., and \$12.0 million to acquire the Rezbook business from Urbanspoon. We also purchased \$16.5 million of property, equipment and software, net, \$4.5 million of which was related to the build out of the new office facility in San Francisco, California.

In addition to purchases of property, equipment and software, we purchased \$11.7 million (net of sales and maturities) of short-term investments in the nine months ended September 30, 2013 compared to \$12.4 million (net of purchases) of short-term investments sold in the nine months ended September 30, 2012.

Financing Activities

Our primary financing activities consist of proceeds from the issuance of common stock pursuant to equity incentive plans and the excess tax benefit related to stock-based compensation, as well as repurchases of common stock, beginning in 2011, under our share repurchase programs.

During the nine months ended September 30, 2013, we repurchased \$23.6 million of common shares (including commissions) under our share repurchase program announced in August 2012.

During the nine months ended September 30, 2012, we repurchased \$8.7 million of common shares (including commissions) under our share repurchase program announced in November 2011, which concluded in January 2012.

Off Balance Sheet Arrangements

As of September 30, 2013, we did not have any off balance sheet arrangements.

Contractual Obligations

As of September 30, 2013, there were no material changes to our contractual obligations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks in the ordinary course of our business. These risks include primarily interest rate and foreign exchange risks.

Interest Rate Fluctuation Risk

We do not have any long-term borrowings.

Table of Contents

Our investments include cash, cash equivalents and short-term investments. Cash and cash equivalents consist of cash, money market accounts, certificates of deposit and U.S. government agency securities. Short-term investments consist of U.S. government agency securities and certificates of deposit. The primary objective of our investment activities is to preserve principal while maximizing income without significantly increasing risk. We do not enter into investments for trading or speculative purposes. Our investments are exposed to market risk due to a fluctuation in interest rates, which may affect our interest income and the fair market value of our investments. Due to the short-term nature of our investment portfolio, we do not believe an immediate 10% increase in interest rates would have a material effect on the fair market value of our portfolio, and therefore we do not expect our operating results or cash flows to be materially affected to any degree by a sudden change in market interest rates.

Foreign Currency Exchange Risk

We have foreign currency risks related to our revenues and operating expenses denominated in currencies other than the U.S. dollar, principally the British pound sterling, the euro, the Japanese yen, the Canadian dollar, the Indian rupee and the Mexican peso. We do not believe movements in the foreign currencies in which we transact will significantly affect future net earnings. Foreign currency risk can be quantified by estimating the change in cash flows resulting from a hypothetical 10% adverse change in foreign exchange rates. We believe such a change would not have a material impact on our results of operations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2013. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation of our disclosure controls and procedures as of September 30, 2013, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, believes that our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives and are effective at the reasonable assurance level. However, our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well

Table of Contents

conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and not be detected.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to various legal proceedings and claims arising in the ordinary course of business. Although occasional adverse decisions or settlements may occur, management believes that the final disposition of such matters will not have a material adverse effect on our business, financial position, results of operations or cash flows.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Quarterly Report, you should carefully consider the risk factors previously disclosed in Part 1, Item 1A of our 2012 Annual Report. The risks described in our 2012 Annual Report are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Limitations on the Payment of Dividends

Our current line of credit precludes the payment of dividends without the permission of the lender; see Note 7 to our Consolidated Financial Statements in our 2012 Annual Report.
