Item 1.01 **Entry into a Material Definitive Agreement.**

On March 21, 2014, STAG Industrial, Inc., a Maryland corporation (the *Company*), as Guarantor, and STAG Industrial Operating Partnership, L.P., a Delaware limited partnership (the *Operating Partnership*), as Borrower, entered into a seven-year term loan agreement (the *Loan Agreement*) with Wells Fargo Bank, National Association and certain other lenders. The Loan Agreement provides for an unsecured loan in the original principal amount of up to \$150 million (the *Loan*). Additionally, the Loan has a feature that allows the Company to request an increase in total commitments of up to \$250 million, subject to certain conditions. Unless otherwise terminated pursuant to the terms of the Loan Agreement, the Loan will mature on March 21, 2021.

Wells Fargo Securities, LLC served as Lead Arranger and Bookrunner on the Loan Agreement with Wells Fargo Bank, National Association, serving as Administrative Agent.

The amount available for the Borrower to borrow under the Loan is based on (a) the lesser of (i) 60% of the Borrowing Base Value (as defined in the Loan Agreement) of the Company's buildings that form the borrowing base of the Loan, and (ii) the amount that would create a debt service coverage ratio of not less than 1.6 based on a 30-year amortization period, less (b) any other unsecured indebtedness (as defined in the Loan Agreement) then outstanding. The Loan Agreement includes a delayed draw feature, therefore the Company did not make a draw under the Loan at closing.

Borrowings under the Loan bear interest at a floating rate equal to, at the Borrower's election, the Eurodollar Rate or the Base Rate (each as defined in the Loan Agreement) plus a spread. The spread depends upon the Company's consolidated leverage ratio and ranges from 1.70% to 2.30% for Eurodollar Rate based borrowings and from 0.70% to 1.30% for Base Rate based borrowings. Had the Company made a draw at closing, the applicable spread on the Loan as of March 21, 2014 would have been 1.70%.

The Borrower's ability to borrow under the Loan is subject to its ongoing compliance with a number of customary financial covenants, including leverage ratios, recourse indebtedness thresholds, fixed charge coverage ratios and tangible net worth thresholds and limits. In addition, upon a default, the Company's dividend distributions are limited to the minimum amount necessary for the Company to maintain its status as a real estate investment trust.

The Company and certain of its subsidiaries guarantee the obligations under the Loan.

The foregoing description of the Loan Agreement does not purport to be complete and is qualified in its entirety by reference to the Loan Agreement, a copy of which has been filed as Exhibit 10.1 to this report and is incorporated in this Item 1.01 by reference.

Item 2.03 **Creation of a Direct Financial Obligation or an Obligation Under an Off-Balance Sheet Arrangement of a Registrant.**
