TEKLA HEALTHCARE INVESTORS

DISTRIBUTION POLICY

The Fund has implemented a managed distribution policy (the Policy) that provides for quarterly distributions at a rate set by the Board of Trustees. Under the current Policy, the Fund intends to make quarterly distributions at a rate of 2% of the Fund's net assets to shareholders of record. The Fund intends to use net realized capital gains when making quarterly distributions, if available, but the Policy would result in a return of capital to shareholders, if the amount of the distribution exceeds the Fund's net investment income and realized capital gains. With each distribution, the Fund will issue a notice to shareholders and a press release that will provide detailed information regarding the amount and estimated composition of the distribution. You should not draw any conclusions about the Fund's investment performance from the amount of distributions pursuant to the Policy or from the terms of the Policy. The Policy has been established by the Trustees and may be changed or terminated by them without shareholder approval. The Trustees regularly review the Policy and the frequency and rate of distributions considering the purpose and effect of the Policy, the financial market environment, and the Fund's income, capital gains and capital available to pay distributions. The suspension or termination of the Policy could have the effect of creating a trading discount (if the Fund's stock is trading at or below net asset value) or widening an existing trading discount. At this time there are no reasonably foreseeable circumstances that might cause the Trustees to terminate the Policy.

To our Shareholders:

On September 30, 2014, the net asset value (NAV) per share of the Fund was \$29.40. During the twelve month period ended September 30, 2014, total return at NAV of the Fund was 27.64%, with distributions reinvested. The total investment return at market with distributions reinvested was 28.08% during the same period. Thus, the Fund's NAV and market return underperformed the NASDAQ Biotech Index (NBI) return for the twelve month period. However, the Fund's NAV and the market returns outperformed the S&P 500 Index for the twelve month period. In addition, the Fund's NAV returns and market returns exceeded the broad S&P 500 Index during the six month period ending September 30, 2014. The NASDAQ Biotech Index returns during the six months period were higher than the Fund's NAV and Market returns. Comparisons to the relevant indices are listed below.

	Six Months	Twelve Months
Investment Returns	Ended 9/30/14	Ended 9/30/14
At Market	8.64%	28.08%
At Net Asset Value	12.42%	27.64%
NASDAQ Biotech Index	15.95%	30.91%
S&P 500 Index	6.42%	19.72%
Investment Highlights		

Recent performance of the healthcare/biotechnology sector has been exemplary. And while we are generally satisfied with the performance of the sector, after a prolonged period of such performance, it is appropriate to take a step back and re-evaluate the potential for continued price appreciation. For reference, we present in the following table, recent sector performance versus that of the broad stock market. Using the S&P 1500 Healthcare Index, the Nasdaq Biotech Index (NBI) and the S&P 500 Index as proxies for the healthcare, biotechnology and broad market sectors, respectively, we can compare annualized performance through September 30, 2014 of these sectors as follows:

Index	1 Year (%)	5 Year (%)	10 Year (%)
S&P 500	19.72	15.68	8.10
S&P 1500 Healthcare	27.47	20.04	10.74
NBI	30.91	28.35	15.23

(Source: Bloomberg)

As is obvious, the healthcare/biotechnology sector has outperformed the broad market in each of the one, five and ten year periods presented. The Fund has benefitted from this sector performance. However, while past performance can be encouraging, we are mostly focused on the future.

While one can never predict what will happen going forward, our view is that the future for healthcare remains bright. This view is based on several factors. First, as described above, the qualitative fundamentals are favorable. That is, the population is getting older. And people spend more on healthcare as they get older. This should benefit our sector.

Second, we think valuations in healthcare remain reasonable, especially given the sustained outperformance we have seen over a relatively long period. Analysts use various methods to gauge valuation. Price to earnings (i.e., P/E) ratio is probably most commonly used. From a P/E perspective, healthcare and biotechnology are a bit more expensive than the broad market. (see below). However, it is our view that growth, in general, and earnings growth in particular, drive value. In our view, the ratio of P/E to growth (i.e., PEG ratio) of a company/sector is one of the best ways to assess valuation (see the chart below). As of September 2014, the PEG of the S&P1500 Healthcare group as whole is a bit more expensive than the broad S&P500 market. However, as is usually the case these are subsectors which exhibit attractive (i.e. lower) PEG ratios. For example, the PEG of the biotech sector is attractive. Other sectors such as managed care and healthcare facilities are also attractively priced. We often use such valuation measures in deciding what sectors and individual stocks should be considered for purchase.

Index	P/E	Expected Growth (%)	PEG
S&P 500	16.7	8.6	1.9
S&P 1500 Healthcare	18.1	7.7	2.3
NBI*	18.2	17.1	1.1

(* profitable NBI Companies) (Source: Bloomberg)

Separate from these "macro" perspectives, we are also optimistic about the healthcare and biotechnology sectors on a more fundamental basis. Certainly these sectors have benefitted in recent years from the approval and subsequent commercialization of a spate of new and novel products. Over the last five or so years, for example, we have seen the development of drugs that actually make fundamental improvements (rather than merely address symptoms or side effects) associated with such diseases as cystic fibrosis and Hepatitis C. We have also seen the development of new drugs that have effectively turned hematologic cancers like multiple myeloma almost into chronic diseases. In addition several drugs are now

approved which materially improve the prospects of patients with pancreatic cancer and melanoma. We have also seen the approval of the Affordable Care Act that has increased access of at least several million individuals to health insurance. This is likely to increase use of health care service and products. We have also seen what looks to us like a more accommodative FDA. While this federal agency has certainly not decreased its requirements for product approval, it has created new mechanisms for "breakthrough" products to be more expeditiously evaluated for approval. No less importantly, we have seen a significant increase in the number and size of merger and acquisition interest in the healthcare and biotechnology sectors. In the last year in particular, we have seen the approval of a number of new and differentiated products. Through the September 30, 2014, twenty-nine new medical entities have been approved; this suggests that 2014 could be one of the best years ever for such approvals. As an example, Sovaldi (marketed by Gilead Sciences, Inc.) has recently been approved and is revolutionizing the treatment of Hepatitis C. This product, in conjunction with its follow on siblings, Harvoni and others, will likely be one of the best drug launches ever. In addition novel drugs to treat such disparate diseases as diabetes, idiopathic pulmonary fibrosis, psoriatic arthritis, melanoma, lung cancer as well as specific forms of lymphoma and leukemia have been approved in 2014. In our view, the breadth, depth and number of products approved in 2014 is evidence of the product development capability of the healthcare sector and bodes well for the future.

In addition to specific product development accomplishments, we note that in the last year we have seen more than 100 new healthcare IPOs. This has been one of the most promising periods of new public company formation in the history of the industry. It has created a new generation of fledgling companies that is now well funded and led by knowledgeable and experienced pharmaceutical/biotechnology executives. In combination with the existing group of companies, we think the industry is poised to change the world of medicine in the coming years.

While we are quite optimistic about the future of healthcare and biotechnology, we note that it can be a somewhat volatile sector. There is no question that while there have been and will be spectacular success in the sector, there will also be notable clinical and regulatory failures along the way. We have seen both promising and disappointing events in the last year. Certainly clinical data reported in the area of liver disease, cystic fibrosis, multiple sclerosis as well as in breast and prostate cancer are encouraging. But there have also been notable clinical failures in ALS, prostate cancer and other areas. There have also been notable commercial disappointments. For example, while three products have recently been

approved to treat obesity, none has as yet demonstrated what we see as unequivocal commercial success. So the field of healthcare investing remains a complicated area.

Moreover, there are a few real uncertainties in how the future will play out. Drug pricing is probably the best example of this uncertainty. It has been widely publicized that Sovaldi; Gilead's drug to treat Hepatitis C, costs \$1000/per pill and upwards of \$80,000 per twelve week course of therapy. Proponents of this drug, including ourselves, argue that this is a fair and appropriate price for a breakthrough drug that "cures" a heretofore difficult to treat disease and prevents significant subsequent cost and suffering. From our perspective Sovaldi is a terrific example of the capability of the product development capability of the industry. One the other hand, opponents of the drug argue that the cost associated with this and other drugs is too high and could bankrupt the healthcare system.

We agree that some drugs, the so-called "me-too" drugs that do not offer differentiated capability relative to existing drugs, may well be over-priced. But we see a large number of high value, differentiated products being developed that will address currently unmet medical needs and/or improve the quality of life for patients. Given the population demographics described above, we believe that the future of healthcare is very promising. We wouldn't rule out (and probably expect) a pullback along the way, but really do think the intermediate and long-term prospects for healthcare are solid.

Portfolio Highlights

The NBI Index performed well during the Fund's fiscal year, exceeding the returns of HQH. In this period, performance of the largest capitalization biotech companies generally benefitted the NBI Index and the Fund. Throughout the fiscal year, the largest capitalization stocks in the NBI were among the best contributors to the Index's return. The largest companies in this index include Gilead, Celgene Corporation, Biogen Idec, Inc., Illumina, Inc. and Amgen, Inc. Each made a material contribution to the Fund's return. The Fund also benefitted from owning a number of stocks including, Illumina, Inc. and Shire plc. during the twelve months ending September 30, 2014. The Fund also benefitted from owning a number of stocks; including Actavis plc, Shire plc, Forest Laboratories, Inc. (which was acquired by Actavis) and Puma Biotechnologies, Inc., during the twelve months ending September 30, 2014. Conversely, HQH was negatively affected by owning ARIAD Pharmaceuticals, Inc., Sangamo BioSciences, Inc., Verastem, Inc. and Perrigo Company plc.

Rights Offering

As you may know the Fund announced the completion of a rights offering on June 25, 2014. Effectively, shareholders as of the record date were entitled to purchase one newly issued share of the Fund for each three shares owned. The subscription price of the rights offering was \$25.037 which equaled 95% of the volume weighted average price of shares on the NYSE on June 24, 2014 and the three preceding business days. The Fund received approximately \$172.7 million from this Offering. The basis for undertaking the offering was described in detail in the Fund's N2 filing to the SEC associated with the offering. Please refer to this filing and the above discussion for details. However, in short, Tekla believes that the opportunity to invest in healthcare at this time is compelling and that the offering provided the benefits detailed in the N2.

Investment Changes

During the twelve month period ended September 30, 2014, within the public portfolio, the Fund established positions in several companies including Bristol-Myers Squibb Co., Catamaran Corporation, Centene Corporation, Jazz Pharmaceuticals plc, Molina Healthcare, Inc., PerkinElmer, Inc., Sangamo BioSciences, Spectrum Pharmaceuticals, Inc., and Thermo Fisher Scientific, Inc. During the same twelve month period, the Fund exited its position in several companies including ARIAD Pharmaceuticals, Forest Laboratories, Inc., Hologic, Inc., Onyx Pharmaceuticals, Inc., Puma Biotechnology, Inc., Questcor Pharmaceuticals, Inc., Warner Chilcott plc., Merck & Co., Baxter International Inc, Medivation, Inc., Avanir Pharmaceuticals, Inc., CVS Caremark Corporation, and iCAD, Inc.

During the same twelve month period, within the venture portfolio, the Fund made follow-on investments in CardioKinetix, Inc., IlluminOss Medical, Inc., Insightra Medical, Inc. Neurovance, Inc. and Palyon Medical Corporation. During this period, MacroGenics, Inc. and Celladon Corporation went public.

As always, if you have questions, please feel free to call us at (617) 772-8500.

- (1) Computed using average shares outstanding.
- (2) Includes special dividends from four issuers in the aggregate amount of \$0.13 per share. Excluding the special dividends, the ratio of net investment loss to average net assets would have been (1.05%).
- (3) Includes a special dividend from an issuer in the amount of \$0.02 per share. Excluding the special dividend, the ratio of net investment loss to average net assets would have been (1.11%).
- (4) Includes a special dividend from an issuer in the amount of \$0.05 per share. Excluding the special dividend, the ratio of net investment loss to average net assets would have been (0.83%).
- (5) See Note 1. These rights offering shares were issued at a subscription price of \$25.037 which was less than the fund NAV of \$29.01 on June 27, 2014 thus creating a dilution effect on the NAV.

The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

(1) Organization and Significant Accounting Policies

Tekla Healthcare Investors (formerly H&Q Healthcare Investors) (the Fund) is a Massachusetts business trust registered under the Investment Company Act of 1940 as a diversified closed-end management investment company. The Fund's investment objective is long-term capital appreciation through investment in companies in the healthcare industry. This is a broad mandate and the Fund invests primarily in securities of public and private companies that are believed by the Fund's Investment Adviser, Tekla Capital Management LLC (the Adviser) to have significant potential for above-average growth. Effective October 15, 2014, the name of the Fund changed from H&Q Healthcare Investors to Tekla Healthcare Investors.

The preparation of these financial statements requires the use of certain estimates by management in determining the Fund's assets, liabilities, revenues and expenses. Actual results could differ from these estimates and such differences could be material. The following is a summary of significant accounting policies followed by the Fund, which are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Events or transactions occurring after September 30, 2014, through the date that the financial statements were issued, have been evaluated in the preparation of these financial statements.

Investment Valuation

Shares of publicly traded companies listed on national securities exchanges or trading in the over-the-counter market are typically valued at the last sale price, as of the close of trading, generally 4 p.m., Eastern time. The Board of Trustees of the Fund (the "Trustees") have established and approved fair valuation policies and procedures with respect to securities for which quoted prices may not be available or which do not reflect fair value. Shares of publicly traded companies for which market quotations are not readily available, such as stocks for which trading has been halted or for which there are no current day sales, or whose quoted price may otherwise not reflect fair value, are valued in good faith by the Adviser using a fair value process pursuant to policies and procedures approved by the Trustees described below. Restricted securities of companies that are publicly traded are typically valued based on the closing market quote on the valuation date adjusted for the impact of the restriction as determined in good faith by the Adviser also using fair valuation policies and procedures approved by the Trustees described below. Non-exchange traded warrants of publicly traded companies are typically valued using the Black-Scholes model, which incorporates both observable and unobservable inputs. Short-term investments with a maturity of 60 days or less are valued at amortized cost, which approximates fair value.

Convertible preferred shares, warrants or convertible note interests in private companies, milestone interests, other restricted securities, as well as shares of publicly traded companies for which market quotations are not available or which do not reflect fair value, are typically valued in good faith, based upon the recommendations made by the Adviser pursuant to fair valuation policies and procedures approved by the Trustees. The Adviser has a Valuation Sub-Committee comprised of senior management which reports to the Valuation Committee of the Board at least quarterly. Each fair value determination is based on a consideration of relevant factors, including both observable and unobservable inputs. Observable and unobservable inputs the Adviser considers may include (i) the existence of any contractual restrictions on the disposition of securities; (ii) information obtained from the company, which may include an analysis of the company's financial statements, the company's products or intended markets or the company's technologies; (iii) the price of the same or similar security negotiated

TEKLA HEALTHCARE INVESTORS

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

(continued)

at arm's length in an issuer's completed subsequent round of financing; (iv) the price and extent of public trading in similar securities of the issuer or of comparable companies; or (v) a probability and time value adjusted analysis of contractual term. Where available and appropriate, multiple valuation methodologies are applied to confirm fair value. Significant unobservable inputs identified by the Adviser are often used in the fair value determination. A significant change in any of these inputs may result in a significant change in the fair value measurement. Due to the uncertainty inherent in the valuation process, such estimates of fair value may differ significantly from the values that would have been used had a ready market for the investments existed, and differences could be material. Additionally, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different from the valuations used at the date of these financial statements.

Options on Securities

An option contract is a contract in which the writer (seller) of the option grants the buyer of the option, upon payment of a premium, the right to purchase from (call option) or sell to (put option) the writer a designated instrument at a specified price within a specified period of time. Certain options, including options on indices, will require cash settlement by the Fund if the option is exercised. The Fund enters into option contracts in order to hedge against potential adverse price movements in the value of portfolio assets, as a temporary substitute for selling selected investments to lock in the purchase price of a security or currency which it expects to purchase in the near future as a temporary substitute for purchasing selected investments, or to enhance potential gain.

The Fund's obligation under an exchange traded written option or investment in an exchange-traded purchased option is valued at the last sale price or in the absence of a sale, the mean between the closing bid and asked prices. Gain or loss is recognized when the option contract expires, is exercised or is closed.

If the Fund writes a covered call option, the Fund foregoes, in exchange for the premium, the opportunity to profit during the option period from an increase in the market value of the underlying security above the exercise price. If the Fund writes a put option it accepts the risk of a decline in the market value of the underlying security below the exercise price. Over-the-counter options have the risk of the potential inability of counterparties to meet the terms of their contracts. The Fund's maximum exposure to purchased options is limited to the premium initially paid. In addition, certain risks may arise upon entering into option contracts including the risk that an illiquid secondary market will limit the Fund's ability to close out an option contract prior to the expiration date and that a change in the value of the option contract may not correlate exactly with changes in the value of the securities or currencies hedged.

All options on securities and securities indices written by the Fund are required to be covered. When the Fund writes a call option, this means that during the life of the option the Fund may own or have the contractual right to acquire the securities subject to the option or may maintain with the Fund's custodian in a segregated account appropriate liquid securities in an amount at least equal to the market value of the securities underlying the option. When the Fund writes a put option, this means that the Fund will maintain with the Fund's custodian in a segregated account appropriate liquid securities in an amount at least equal to the exercise price of the option. The Fund may use option contracts to gain or hedge exposure to financial market risk.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

(continued)

Transactions in call options written for the year ended September 30, 2014 were as follows:

	Contracts	Premiums
Options outstanding, September 30, 2013		\$
Options written	1,802	199,140

		Change in unrealized appreciation (depreciation) on option contracts written	\$	0

Milestone Interest

The Fund holds a financial instrument which reflects the current value of future milestone payments the Fund may receive as a result of contractual obligations from other parties. The value of such payments are adjusted to reflect the estimated risk based on the relative uncertainty of both the timing and the achievement of individual milestones. A risk to the Fund is that the milestone will not be achieved and no payment will be received by the Fund. The milestone interest was received as part of the proceeds from the sale of one private company. Any payments received are treated as a reduction of the cost basis of the milestone interest with payments received in excess of the cost basis treated as a realized gain. The contractual obligations with respect to the TargeGen Milestone Interest provide for payments at various stages of the development of TargeGen's principal product candidate as of the date of the sale.

The following is a summary of the impact of the milestone interest on the financial statements as of and for the year ended September 30, 2014:

~						_

TEKLA HEALTHCARE INVESTORS

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

(continued)

Investment Transactions and Income

Investment transactions are recorded on a trade date basis. Gains and losses from sales of investments are recorded using the "identified cost" method. Interest income is recorded on the accrual basis, adjusted for amortization of premiums and accretion of discounts. Dividend income is recorded on the ex-dividend date, less any foreign taxes withheld. Upon notification from issuers, some of the dividend income received may be redesignated as a reduction of cost of the related investment if it represents a return of capital.

The aggregate cost of purchases and proceeds from sales of investment securities (other than short-term investments) for the year ended September 30, 2014 totaled \$331,381,647 and \$231,316,341, respectively.

Repurchase Agreements

In managing short-term investments the Fund may from time to time enter into transactions in repurchase agreements. In a repurchase agreement, the Fund's custodian takes possession of the underlying collateral securities from the counterparty, the market value of which is at least equal to the principal, including accrued interest, of the repurchase transaction at all times. In the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral by the Fund may be delayed.

Distribution Policy

Pursuant to a Securities and Exchange Commission exemptive order, the Fund may make periodic distributions that include capital gains as frequently as 12 times in any one taxable year in respect of its common shares, and the Fund has implemented a managed distribution policy (the Policy) providing for quarterly distributions at a rate set by the Board of Trustees. Under the current Policy, the Fund intends to make quarterly distributions at a rate of 2% of the Fund's net assets to shareholders of record. The Fund intends to use net realized capital gains when making quarterly distributions, if available, but the Policy would result in a return of capital to shareholders if the amount of the distribution exceeds the Fund's net investment income and realized capital gains. If taxable income and net long-term realized gains exceed the amount required to be distributed under the Policy, the Fund will at a minimum make distributions necessary to comply with the requirements of the Internal Revenue Code. The Policy has been established by the Trustees and may be changed by them without shareholder approval. The Trustees regularly review the Policy and the frequency and rate of distributions considering the purpose and effect of the Policy, the financial market environment, and the Fund's income, capital gains and capital available to pay distributions. The Trustees initially adopted a distribution policy in May, 1999, and since then the Fund has made quarterly distributions at a rate of 2.00% of the Fund's net assets, except for the periods from August 4, 2009, to April 5, 2010 (during which distributions were suspended) and from April 5, 2010, to November 1, 2010 (during which the Fund made distributions at a rate of 1.25% of the Fund's net assets).

The Fund's policy is to declare quarterly distributions in stock. The distributions are automatically paid in newly-issued full shares of the Fund unless otherwise instructed by the shareholder. Fractional shares will generally be settled in cash, except for registered shareholders with book entry accounts of the Fund's transfer agent who will have whole and fractional shares added to their accounts. The Fund's transfer agent delivers an election card and

instructions to each registered shareholder in connection with each distribution. The number

TEKLA HEALTHCARE INVESTORS

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

(continued)

of shares issued will be determined by dividing the dollar amount of the distribution by the lower of net asset value or market price on the pricing date. If a shareholder elects to receive a distribution in cash, rather than in shares, the shareholder's relative ownership in the Fund will be reduced. The shares reinvested will be valued at the lower of the net asset value or market price on the pricing date. Distributions in stock will not relieve shareholders of any federal, state or local income taxes that may be payable on such distributions. Additional distributions, if any, made to satisfy requirements of the Internal Revenue Code may be paid in stock, as described above, or in cash.

Share Repurchase Program

In March 2014, the Trustees approved the renewal of the repurchase program to allow the Fund to repurchase up to 12% of its outstanding shares in the open market for a one year period beginning July 11, 2014. Prior to this renewal, in March 2013, the Trustees approved the renewal of the share repurchase program to allow the Fund to repurchase up to 12% of its outstanding shares for a one year period beginning July 11, 2013. The share repurchase program is intended to enhance shareholder value and potentially reduce the discount between the market price of the Fund's shares and the Fund's net asset value.

During the years ended September 30, 2014 and September 30, 2013, the Fund did not repurchase any shares through the repurchase program.

Rights Offering

On June 27, 2014, the Fund issued 6,899,838 common shares in connection with a rights offering of the Fund's shares. Shareholders of record on May 30, 2014 were issued one non-transferable right for each share held on that date. The rights entitled the shareholder to purchase one new common share for every three rights held. These shares were issued at a subscription price of \$25.037. Proceeds to the Fund were \$172,751,244 before deducting the rights offering costs of \$453,759.

Federal Taxes

It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute to its shareholders substantially all of its taxable income and its net realized capital gains, if any. Therefore, no Federal income or excise tax provision is required.

As of September 30, 2014, the Fund had no uncertain tax positions that would require financial statement recognition or disclosure. The Fund's federal tax returns are subject to examination by the Internal Revenue Service for a period of three years.

Distributions

The Fund records all distributions to shareholders on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from GAAP. These differences include temporary and permanent differences from losses on wash sale transactions, installment sale adjustments and ordinary loss netting to

reduce short term capital gains. Reclassifications are made to the Fund's capital accounts to reflect income and gains available for distribution under income tax regulations. At September 30, 2014, the Fund reclassified \$7,364,943 from accumulated net realized gain on investment and \$7,157,179 from undistributed net investment loss to paid in capital, with a net impact of \$207,764, to adjust for current period book/tax differences.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

(continued)

The tax basis components of distributable earnings and the tax cost as of September 30, 2014 were as follows:

Cost of Investments for tax purposes	\$647,379,563
Gross tax unrealized appreciation	\$433,511,448
Gross tax unrealized depreciation	(\$ 34,607,656)
Net tax unrealized appreciation on investments	\$398,903,792
Undistributed long-term capital gains	\$ 33,176,496

The Fund has designated the distributions for its taxable years ended September 30, 2014 and 2013 as follows:

	2014	2013
Ordinary income (includes short-term		
capital gain)	\$ 9,952,643	\$14,161,572
Long-term capital gain	\$53,882,988	\$29,372,182
Statement of Cash Flows		

The cash amount shown in the Statement of Cash Flows is the amount included in the Fund's Statement of Assets and Liabilities and represents cash on hand at September 30, 2014.

Commitments and Contingencies

Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

(2) Investment Advisory and Other Affiliated Fees

The Fund has entered into an Investment Advisory Agreement (the Advisory Agreement) with the Adviser. Pursuant to the terms of the Advisory Agreement, the Fund pays the Adviser a monthly fee at the rate when annualized of (i) 2.50% of the average net assets for the month of its venture capital and other restricted securities up to 25% of net assets and (ii) for all other net assets, 0.98% of the average net assets up to \$250 million, 0.88% of the average net assets for the next \$250 million, 0.80% of the average net assets for the next \$500 million and 0.70% of the average net assets thereafter. The aggregate fee would not exceed a rate when annualized of 1.36%.

The Adviser has contractually agreed to waive a portion of management fees for a one-year period following the completion of the rights offering. During the one-year period ended June 27, 2015, the Adviser will waive its fees such that the Fund will pay a monthly fee at the rate when annualized of (i) 2.50% of the average net assets for the month of its venture capital and other restricted securities up to 25% of net assets and (ii) for all other net assets, 0.98% of the average net assets up to \$250 million, 0.88% of the average net assets for the next \$250 million, 0.70% of the average net assets for the next \$500 million and 0.70% of the average net assets thereafter.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

(continued)

The Fund has entered into a Services Agreement (the Agreement) with the Adviser. Pursuant to the terms of the Agreement, the Fund reimburses the Adviser for certain services related to a portion of the payment of salary and provision of benefits to the Fund's Chief Compliance Officer. During the year ended September 30, 2014, these payments amounted to \$109,028 and are included in the other category in the Statement of Operations, together with insurance and other expenses incurred to unaffiliated entities. Expenses incurred pursuant to the Agreement as well as certain expenses paid for by the Adviser are allocated to the Fund in an equitable fashion as approved by the Trustees of the Fund.

The Fund pays compensation to Independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons. The Fund does not pay compensation directly to Trustees or officers of the Fund who are also officers of the Adviser.

(3) Other Transactions with Affiliates

An affiliate company is a company in which the Fund holds 5% or more of the voting securities. Transactions with such companies during the year ended September 30, 2014 were as follows:

	Value on				Value on
*	September 30,	ъ .	0.1	-	September 30,

(4) Fair Value Measurements

The Fund uses a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels. Level 1 includes quoted prices in active markets for identical investments. Level 2 includes prices determined using other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.). Level 3 includes prices determined using significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). These inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of September 30, 2014 to value the Fund's net assets. For the year ended September 30, 2014, there were no transfers between Levels 1 and 2. The Fund accounts for transfers between levels at the beginning of the period.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

(continued)

The following is a quantitative disclosure about significant unobservable inputs used in the determination of the fair value of Level 3 assets.

	Fair Value at			Range
	9/30/2014	Valuation Technique	Unobservable Input	(Weighted Aveage)
Private Companies and Other		·	·	
Restricted		Income approach-	Discount for lack	
Securities	\$ 1,395,067	Black Scholes	of marketability	20% (20%)
		Capital asset pricing		
	35,910,689	model	Discount Rate	13%-39% (20.55%)
			Price to sales multiple	0.2-16.8 (2.77)
			Revenue growth rate	12%-148% (62.82%)
	5,784,225	Market approach- recent transaction	(1)	N/A
	1,853,927	Income approach- probability adjusted value	Probability of events Timing of events	10%-100% (18.48%) 0.25-3.04 (0.74) years
		recent transaction Income approach- probability adjusted	Probability of events	10%-100% (18.48%)

⁽¹⁾ The valuation technique used as a basis to approximate fair value of these investments is based upon subsequent financing rounds. There is no quantitative information to provide as these methods of measure are investment specific.

(5) Private Companies and Other Restricted Securities

The Fund may invest in private companies and other restricted securities if these securities would currently comprise 40% or less of net assets. The value of these securities represents 5% of the Fund's net assets at September 30, 2014.

At September 30, 2014, the Fund had commitments of \$1,217,643 relating to additional investment in one private company.

The following table details the acquisition date, cost, carrying value per unit, and value of the Fund's private companies and other restricted securities at September 30, 2014. The Fund on its own does not have the right to demand that such securities be registered.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of Tekla Healthcare Investors:

We have audited the accompanying statement of assets and liabilities of Tekla Healthcare Investors (formerly H&Q Healthcare Investors) (the "Fund"), including the schedule of investments, as of September 30, 2014, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of September 30, 2014, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Tekla Healthcare Investors as of September 30, 2014, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

The Fund's Statement of Additional Information includes additional information about the fund Directors and is available without charge, upon request by calling (617) 772-8500 or writing to Tekla Capital Management LLC at 2 Liberty Square, 9th Floor, Boston, MA 02109.

² Each officer serves in such capacity for an indefinite period of time at the pleasure of the Trustees.

CERTIFICATIONS

The Fund's President has certified to the New York Stock Exchange (NYSE) that as of July 7, 2014, he was not aware of any violation by the Fund of applicable NYSE corporate governance listing standards. In addition, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 and applicable Securities and Exchange Commission (SEC) rules, the Fund's President and Treasurer made quarterly certifications during the fiscal year that were filed with the SEC as exhibits to Form N-CSR and Form N-Q filings and related to the Fund's disclosure in such reports, disclosure controls and procedures and internal control over financial reporting, as required.

ANNUAL MEETING REPORT

An Annual Meeting of Shareholders was held on June 9, 2014. Shareholders voted to elect Trustees of the Fund to hold office for a term of three years or until their respective successors shall have been duly elected and qualified. The following votes were cast with respect to each of the nominees:

	For	Withheld
Rakesh K. Jain	24,492,994	625,710
Lucinda H. Stebbins	24,588,225	530,479

Rakesh K. Jain and Lucinda H. Stebbins were elected to serve until the 2017 Annual Meeting.

Trustees serving until the 2015 Annual Meeting are Daniel R. Omstead, Ph.D. and Uwe E. Reinhardt.

Trustees serving until the 2016 Annual Meeting are Michael W. Bonney, Oleg M. Pohotsky and William S. Reardon.

Shareholders ratified the appointment of Deloitte & Touche LLP as the independent registered public accountants of the Fund for the fiscal year ending September 30, 2014 by the following votes:

For	Against	Abstain
24,607,653	204,299	306,752

32

FOR MORE INFORMATION

A description of the Fund's proxy voting policies and procedures and information on how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available (i) without charge, upon request by calling 1-800-451-2597; (ii) by writing to Tekla Capital Management LLC at 2 Liberty Square, 9th Floor, Boston, MA 02109; (iii) on the Fund's website at www.teklacap.com; and (iv) on the SEC's website at http://www.sec.gov.

The Fund's complete Schedule of Investments for the first and third quarters of its fiscal year will be filed quarterly with the SEC on Form N-Q. This Schedule of Investments will also be available on the Fund's website at www.teklacap.com, or the SEC's website at http://www.sec.gov. The Fund's Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC or by calling 1-800-SEC-0330.

You can find information regarding the Fund at the Fund's website, www.teklacap.com. The Fund regularly posts information to its website, including information regarding daily share pricing and distributions and press releases, and maintains links to the Fund's SEC filings.

FEDERAL TAX INFORMATION (unaudited)

Certain information for the Fund is required to be provided to shareholders based on the Fund's income and distributions for the taxable year ended December 31, 2014. In February 2015, shareholders will receive Form 1099-DIV, which will include their share of qualified dividends and capital gains and return of capital distributed during the calendar year 2014. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual tax returns.

For corporate shareholders, 14.99% of ordinary income dividends paid by the Fund qualified for the dividends received deduction during the year ended September 30, 2014.

Under Section 854(b)(2) of the Code, the Fund designated \$1,807,388 as qualified dividends for the year ended September 30, 2014.

DISTRIBUTION POLICY

The Fund has a managed distribution policy as described in the Notes to Financial Statements. For more information contact your financial adviser.

SHARE REPURCHASE PROGRAM

In March 2014, the Trustees reauthorized the share repurchase program to allow the Fund to repurchase up to 12% of its outstanding shares for a one year period beginning July 11, 2014.

PORTFOLIO MANAGEMENT

Daniel R. Omstead, Ph.D., Christopher F. Brinzey, M.B.A., Frank Gentile, Ph.D. and Jason C. Akus, M.D./M.B.A. are members of a team that analyzes investments on behalf of the Fund. Dr. Omstead exercises ultimate decision making authority with respect to investments.

ITEM 6. INVESTMENT	rs.
The Registrant s Schedule	e of Investments is included as part of the Report to Shareholders filed under Item 1 of this form.
ITEM 7. DISCLOSURE INVESTMENT COMPA	E OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT ANIES.

The Registrant has adopted the following proxy voting policies and procedures.

PROXY VOTING POLICIES AND PROCEDURES

Policy

The following are the policies and procedures adopted and implemented by Tekla Capital Management LLC (TCM) for voting proxies with respect to portfolio securities held by Tekla Healthcare Investors, Tekla Life Sciences Investors and Tekla Healthcare Opportunities Fund (each a Fund and collectively the Funds). The policies and procedures are reasonably designed to ensure that proxies are voted in the best interest of the Funds and the Funds shareholders, in accordance with TCM s fiduciary duties and Rule 206(4)-6 under the Investment Advisers Act of 1940 (the Investment Advisers Act). TCM considers the best interests of the Funds and their shareholders to mean their best long-term economic interests.

TCM shall vote proxies for the exclusive benefit, and in the best economic interest, of the Funds and their shareholders. Such exercise of voting rights shall be subject to the same standard of care as is generally applicable to TCM s performance of its duties, as set forth in the advisory agreements with the Funds. The policies and procedures contained herein are designed to be guidelines, however each vote is ultimately cast on a case-by-case basis, taking into consideration the relevant facts and circumstances at the time of the vote. Any material conflicts that may arise will be resolved in the best interests of the Funds and their shareholders.

A proxy committee has been designated and is responsible for administering and overseeing the proxy voting process. The committee consists of the President of TCM, TCM s Chief Compliance Officer (CCO), and the analyst responsible for oversight of the company that is the subject of the proxy. The committee considers proxy questions and determines the vote on behalf of the Funds.

Procedure	<u>es</u>
Logistics	
	CO shall be responsible for maintaining the proxy log, monitoring corporate actions and confirming the timely voting of proxies. The shall contain the following information, in accordance with Form N-PX:
•	the name of the issuer;
•	the exchange ticker symbol, if available;
•	the CUSIP number, if available;
•	the shareholder meeting date;
•	a brief identification of the matter voted on;
•	whether the matter was proposed by the issuer or a security holder;
•	whether TCM cast its vote on the matter; how TCM cast its vote on the matter (for, against, abstain; for or withhold regarding the election of directors); and
•	whether TCM cast its vote for or against management;

TCM s CCO shall also record whether any conflicts of interest have been identified and, if so, what action was taken to resolve the conflict with

respect to each vote cast and each abstention.

Substantive Voting Decisions

TCM s substantive voting decisions turn on the particular facts and circumstances of each proxy vote. The following is a list of common proxy vote issues and TCM s standard considerations when determining how to vote such proxies.

Routine Matters/Corporate Administrative Items. After an initial review, TCM generally votes with management on routine matters related to the operation of the issuer that are not expected to have a significant economic impact on the issuer and/or its shareholders.

Potential for Major Economic Impact. TCM may review and analyze on a case-by-case basis, non-routine proposals that are more likely to affect the structure and operation of the issuer and to have a greater impact on the value of the investment.

Corporate Governance. TCM may review and consider corporate governance issues related to proxy matters and generally supports proposals that foster good corporate governance practices.

Special Interest Issues. TCM may consider: (i) the long-term benefit to shareholders of promoting corporate accountability and responsibility on social issues; (ii) management s responsibility with respect to special interest issues; (iii) any economic costs and restrictions on management; and (iv) the responsibility of TCM to vote proxies for the greatest long-term shareholder value.

Limitations on Director Tenure and Retirement. TCM may consider: (i) a reasonable retirement age for directors, e.g. 70 or 72; (ii) the introduction of new perspectives on the board; and (iii) the arbitrary nature of such limitations and the possibility of detracting from the board s stability and continuity.

Directors Minimum Stock Ownership. TCM may consider: (i) the benefits of additional vested interest; (ii) the ability of a director to serve a company well regardless of the extent of his or her share ownership; and (iii) the impact of limiting the number of persons qualified to be directors.

D&O Indemnification and Liability Protection. TCM may consider: (i) indemnifying directors for acts conducted in the normal course of business; (ii) limiting liability for monetary damages for violating the duty of care; (iii) expanding coverage beyond legal expenses to acts that represent more serious violations of fiduciary obligation than carelessness (e.g. negligence); and (iv) providing expanded coverage in cases when a director s legal defense was unsuccessful if the director was found to have acted in good faith and in a manner that he or she reasonably believed was in the best interests of the issuer.

Director Nominations in Contested Elections. TCM may consider: (i) long-term financial performance of the issuer relative to its industry; (ii) management s track record; (iii) background to proxy contest; (iv) qualifications of both slates of nominees; (v) evaluations of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and (vi) stock ownership positions.

Cumulative Voting. TCM may consider: (i) the ability of significant stockholders to elect a director of their choosing; (ii) the ability of minority shareholders to concentrate their support in favor of a director or directors of their choosing; and (iii) the potential to limit the ability of directors to work for all shareholders.

Classified Boards. TCM may consider: (i) providing continuity; (ii) promoting long-term planning; and (iii) guarding against unwanted takeovers.

Poison Pills. TCM may consider: (i) TCM s position on supporting proposals to require a shareholder vote on other shareholder rights plans; (ii) ratifying or redeeming a poison pill in the interest of protecting the value of the issuer; and (iii) other alternatives to prevent a takeover at a price demonstrably below the true value of the issuer.

Fair Price Provisions. TCM may consider: (i) the vote required to approve the proposed acquisition; (ii) the vote required to repeal the fair price provision; (iii) the mechanism for determining fair price; and (iv) whether these provisions are bundled with other anti-takeover measures (e.g., supermajority voting requirements) that may entrench management and discourage attractive tender offers.

Equal Access. TCM may consider: (i) the opportunity for significant shareholders of the issuer to evaluate and propose voting recommendations on proxy proposals and director nominees, and to nominate candidates to the board; and (ii) the added complexity and burden.

Charitable Contributions. TCM may consider: (i) the potential benefits to shareholders; (ii) the potential to detract the issuer s resources from more direct uses of increasing shareholder value; and (iii) the responsibility of shareholders to make individual contributions.

Stock Authorizations: TCM may consider: (i) the need for the increase; (ii) the percentage increase with respect to the existing authorization; (iii) voting rights of the stock; and (iv) overall capitalization structures.

Preferred Stock. TCM may consider: (i) whether the new class of preferred stock has unspecified voting, conversion, dividend distribution, and other rights; (ii) whether the issuer expressly states that the stock will not be used as a takeover defense or carry superior voting rights; (iii) whether the issuer specifies the voting, dividend, conversion, and other rights of such stock and the terms of the preferred stock appear reasonable; and (iv) whether the stated purpose is to raise capital or make acquisitions in the normal course of business.

Director Compensation. TCM may consider: (i) whether director shares are at the same market risk as those of the shareholders; and (ii) how option programs for outside directors compare with the standards of internal programs.

Golden and Tin Parachutes. TCM may consider: (i) whether they will be submitted for shareholder approval; and (ii) the employees covered by the plan and the quality of management.

Compensation. TCM may consider: (i) Whether the company has an independent compensation committee; (ii) whether the compensation committee engaged independent consultants; (iii) whether the compensation committee has lapsed or waived equity vesting restrictions; and (iv) whether the company has adopted or extended a Golden Parachute without shareholder approval. TCM will generally support annual advisory votes on executive compensation.

Limitations

TCM may abstain from voting a proxy if it concludes that the effect on shareholders—economic interests or the value of the portfolio holding is indeterminable or insignificant. TCM may abstain from voting a proxy if it concludes that the cost of voting is disproportionate to the economic impact the vote would have on the portfolio holdings. With respect to certain privately held companies, TCM may not have the opportunity to vote or may have a limitation on its ability to vote. For example, in certain cases a company may be permitted by its charter or other governing documents to take action without a shareholder meeting and with written consent of fewer than all shareholders.

Conflicts of Interest

The Proxy Committee identifies any potential conflicts of interest. Each potential conflict must be addressed in a manner which will be in the best interest of the Funds and their shareholders. If any potential conflict is identified the Proxy Committee consults with the Funds counsel. Where conflicts of interest arise between clients and TCM, TCM may convene an ad-hoc committee to debate the conflict and to give a ruling on a preferred course of action. If the ad-hoc committee determines that TCM has a conflict of interest in any instance, TCM s CCO shall disclose the conflict to the Board and seek voting instructions.

TCM may cause the proxies to be voted in accordance with the recommendations of an independent third party service provider that TCM may use to assist in voting proxies.

Disclosure
The following disclosure shall be provided in connection with these policies and procedures:
• TCM shall provide a description or a copy of these policies and procedures to the Boards of Trustees of the Funds annually and upon request.
• TCM shall make available to the Funds its proxy voting records, for inclusion on the Funds Form N-PX.
• TCM shall include its proxy voting policies and procedures in its annual filing on Form N-CSR.
• TCM shall cause the Funds—shareholder reports to include a statement that a copy of these policies and procedures is available upon request (i) by calling a toll-free number; (ii) on the Funds—website, (if the Funds choose); and (iii) on the SEC—s website.
• TCM shall cause the Funds—annual and semi-annual reports to include a statement that information is available regarding how the Funds voted proxies during the most recent twelve-month period (i) without charge, upon request, either by calling a toll-free number or on or through the Funds—website, or both; and (ii) on the SEC—s website.
Recordkeeping
TCM shall maintain records of proxies voted in accordance with Section 204-2 of the Advisers Act, including proxy statements, a record of each vote cast, and a copy of any document created by the Adviser that was material to making a decision of how to vote the proxy, or that memorializes the basis for the Adviser s decision on how to vote the proxy. TCM shall also maintain a copy of its policies and procedures and each written request from a client for proxy voting records and the Adviser s written response to any client request, either written or oral, for sucl

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

five years in an easily accessible place, the first two years in the offices of TCM.

(a)(1) As of November 26, 2014, Daniel R. Omstead, Ph.D., Christopher F. Brinzey, M.B.A., Frank T. Gentile, Ph.D., and Jason C. Akus, M.D./M.B.A. are members of a team that analyzes investments on behalf of the Registrant. Dr. Omstead exercises ultimate decision making authority with respect to investments. Dr. Omstead also performs other duties including management of the investment adviser and makes investments on behalf of Tekla Life Sciences Investors (HQL) and Tekla Healthcare Opportunities Fund (THQ). The date each team member

records. Proxy statements that are filed on EDGAR shall be considered maintained by TCM. All such records shall be maintained for a period of

joined the portfolio management team and each team member s business experience for at least the last five years is included below.

Daniel R. Omstead, Ph.D., is President and Chief Executive Officer of the investment adviser and has been employed by the investment adviser of the Registrant since 2000. He is also President of the Registrant, HQL and THQ.

Christopher F. Brinzey is Senior Vice President, Research of the investment adviser. Mr. Brinzey joined the investment adviser of the Registrant in 2001 and is responsible for investment research and venture investment due diligence in the following areas: specialty pharmaceuticals and life sciences information technology and services.

Frank T. Gentile, Ph.D., is Senior Vice President, Research of the investment adviser. Dr. Gentile joined the investment adviser of the Registrant in 2002. His emphasis is on the analysis of private and public companies in the fields of Functional Genomics and Proteomics, as well as Cell and Gene Therapy.

Jason C. Akus, M.D./M.B.A., is Senior Vice President, Research of the investment adviser and is responsible for investment research and due diligence in the biotechnology, medical device, and diagnostic areas. Dr. Akus joined the investment adviser of the Registrant in 2001.

(a)(2) The following table lists the number and types of other accounts and assets under management in those accounts advised by the Registrant s portfolio management team as of the end of the Registrant s fiscal year.

PORTFOLIO MANAGER	REGISTERED INVESTMENT COMPANY ACCOUNTS	ASSETS MANAGED	POOLED ACCOUNTS	ASSETS MANAGED	OTHER ACCOUNTS	ASSETS MANAGED
Daniel R. Omstead	2	\$ 1,292 million	0	0	0	0
Christopher F. Brinzey	2	\$ 1,292 million	0	0	0	0
Frank T. Gentile	2	\$ 1,292 million	0	0	0	0
Jason C. Akus	2	\$ 1.292 million	0	0	0	0

None of the funds or other accounts is subject to a performance-based advisory fee.

Each member of the portfolio management team may perform investment management services for other accounts similar to those provided to the Registrant and the investment action for each account may differ. The portfolio management team may discover an investment opportunity that may be suitable for more than one account. However, the investment opportunity may be limited so that all accounts may not be able to fully participate or an investment opportunity or investment allocation may be allocated to just one account or may be allocated between accounts at different levels based on an investment decision made by the investment team. The investment team may subsequently make investment decisions that result in investment levels that make the accounts more differentiated or, conversely, more closely or completely aligned. Such investment decisions may occur within a day or two. In addition, the investment adviser may receive different compensation from each account. In that case, the portfolio management team may have an incentive to direct investments to an account that could result in higher fees for the investment adviser. The registrant has adopted procedures designed to allocate investments fairly across multiple accounts.

Additionally, a portfolio manager may be perceived to have a conflict of interest if he has other executive management responsibilities. In addition to managing the Registrant, HQL and THQ, Dr. Omstead is the President of the investment adviser of the Registrant. Dr. Omstead periodically discusses the amount of time he allocates to each of his responsibilities with the Registrant s Board of Trustees.

The portfolio management team s management of personal accounts may also present certain conflicts of interest. The Registrant has adopted a code of ethics designed to address these potential conflicts.

(a)(3) As of September 30, 2014, portfolio manager compensation is comprised of a base salary and discretionary compensation as described below.

Base Salary Compensation. The team members receive a base salary compensation linked to individual experience and responsibilities. The amount of base salary is reviewed annually.

Discretionary Compensation. Discretionary Compensation is in the form of a cash bonus, paid annually, which may be up to 60% of the team member s base salary. Several factors affect discretionary compensation, which can vary by team member and circumstances. The discretionary compensation component is determined based on factors including investment performance of accounts managed by the team predominantly relative to the NASDAQ Biotechnology Index, the S&P 500 Index and certain private venture capital based performance indices during the Fund s fiscal year, performance of specific investments proposed by the individual, financial performance of the investment adviser and a qualitative assessment of the individual overall contribution to the investment team and to the investment adviser. Discretionary compensation is evaluated annually after the completion of the Registrant s fiscal year.

(a)(4) As of September 30, 2014, the dollar range of Registrant s shares beneficially owned by the portfolio managers are as follows as of the end of the Registrant s fiscal year:

⁽¹⁾ In March 2014, the share repurchase program was renewed, allowing the Registrant to repurchase up to 12% of its outstanding shares for a one year period beginning July 11, 2014.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes, to the procedures by which the shareholders may recommend nominees to the Registrant s Board of Trustees, where those changes were implemented after the Registrant last provided disclosure in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR229.407)(as required by Item 22(b)(15) of Schedule 14A (17 CFR240.14a-101)), or this Item.

ITEM 11. CONTROLS AND PROCEDURES.

(a)	In the opinion of the principal executive officer and principal financial officer, based on their evaluation which took place within 90
days of th	ais filing, the Registrant s disclosure controls and procedures are adequately designed and are operating effectively to ensure (i) that
material i	nformation relating to the Registrant, including its consolidated subsidiaries, is made known to them by others within those entities,
particular	ly during the period in which this report is being prepared; and (ii) that information required to be disclosed by the registrant on
Form N-C	CSR is recorded, processed, summarized and reported within the time period specified in the Securities and Exchange Commission s
rules and	forms.

(b)	There were no changes in the Registrant	s internal control over f	inancial reporting that o	occurred during t	the Registrant	s most recent
fiscal half	-year that have materially affected or that	are reasonably likely to	materially affect the Re	egistrant s interi	nal control over	financial
reporting.						

ITEM 12. EXHIBITS.

- (a)(1) The Code of Ethics that is the subject of the disclosure required by Item 2 is attached hereto (Exhibit 1).
- (a)(2) Separate certifications of the Principal Executive and Financial Officers as required by Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto (Exhibit 2 and 3).
- (b) Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto (Exhibit 4).
