CODE OF ETHICS

All directors, officers and employees of the Company are expected to act ethically at all times and in accordance with the policies comprising Hill's Code of Ethics and Business Conduct (the Code) which is available on our website at www.hillintl.com, in the Investor Relations section, and is available in print to any stockholder upon request. Any waiver or any implicit waiver from a provision of the Code applicable to Hill's chief executive officer, chief financial officer, chief accounting officer or controller, or any amendment to the Code must be approved by the Board. We will disclose on our website amendments to, and, if any are granted, any such waiver of, the Code. Hill's Audit Committee is responsible for applying the Code to specific situations in which questions are presented to it and has the authority to interpret the Code in any particular situation. If, after investigating any potential breach of the Code reported to it, the Audit Committee determines (by majority decision) that a breach has occurred, it will inform the Board of Directors. Upon being notified that a breach has occurred, the Board (by majority

decision) will take or authorize such disciplinary or preventive action as it deems appropriate, after consultation with the Audit Committee and/or the Company's General Counsel, up to and including dismissal or, in the event of criminal or other serious violations of law, notification of the SEC or other appropriate law enforcement authorities.

CORPORATE GOVERNANCE

Pursuant to the Delaware General Corporation Law and the Company's Amended and Restated By-laws, the Company's business, property and affairs are managed by or under the direction of the Board of Directors. Members of the Board are kept informed of the Company's business through discussions with the Chief Executive Officer and other officers, by reviewing materials provided to them and by participating in meetings of the Board and its committees. We currently have nine members on our Board.

Table of Contents

During 2015, the Board held nine meetings and the committees held a total of fifteen meetings. Each director attended more than 75% of the total number of meetings of the Board of Directors and the Board committees of which he or she was a member during the period he or she served as a director in 2015. Although, we do not have a policy requiring all directors to attend annual meetings of stockholders, we expect all directors to attend, absent extenuating circumstances. All of our directors attended the 2015 Annual Meeting of Stockholders.

As a result of our discussions with stockholders, the Company has taken several actions since our 2015 annual meeting to enhance the Company's corporate governance including the following: (i) appointed two new independent directors to the Board, each of whom was also appointed to the Compensation Committee; (ii) appointed one of the new independent directors as Chairman of the Board's Compensation Committee; (iii) initiated a comprehensive strategic review of our executive compensation programs, policies and practices; (iv) appointed a lead independent director; (v) revised our Bylaws to modernize and clarify certain provisions; (vi) engaged an independent executive compensation consultant, Pay Governance LLC, to support the Compensation Committee's strategic review and provide pay governance and executive compensation program design recommendations; and (vii) revised our Insider Trading Policy to prohibit future speculative transactions, hedging transactions and, without prior Board approval, pledging or trading on margin of the Company Stock. Further information on the actions we have taken in response or discussions with stockholders is included below and in Compensation Discussion and Analysis in Item 11 of this Annual Report on Form 10-K/A.

Board Leadership Structure

Our Amended and Restated By-laws provide that we will have a Chairman who will chair board meetings and perform such other duties as set forth in our Amended and Restated By-laws or as otherwise assigned to him by our Board. The Chairman and Chief Executive Officer may be the same person; however, our Board may separate these two positions if it deems it to be in the best interests of our Company and our stockholders to do so. Presently, the Chairman and Chief Executive Officer positions are held by two different individuals.

Prior to January 21, 2016, the Board had not appointed a lead independent director; however, Mr. Fellheimer, Chair of the Compensation Committee, presided over executive session meetings of independent directors. At its January 21, 2016 meeting, the Board appointed Brian W. Clymer as its lead independent director.

Role of the Board in Risk Oversight

The Board as a whole has responsibility for risk oversight, with reviews of certain areas conducted by relevant Board committees that report on their findings to the Board. The oversight responsibility of the Board and the Board committees is facilitated by management reporting processes designed to provide information to the Board concerning the identification, assessment and management of critical risks and management's risk mitigation strategies and practices. These areas of focus include operational, economic, competitive, financial (including accounting, reporting, credit, liquidity and tax), legal, regulatory, compliance, environmental, political and strategic risks. The full Board (or the appropriate Board committee), in concert with the appropriate management within the Company, reviews management reports to formulate risk identification, risk management and risk mitigation strategies. When a Board committee initially reviews management reports, the Chairman of the relevant Board committee briefs the full Board on the specifics of the matter at the next Board meeting. This process enables the Board to coordinate the risk oversight role, particularly with respect to risks spanning more than one operational area. The Compensation Committee reviews compensation policies to ensure that they do not, among other things, encourage unnecessary or excessive risk-taking.

Corporate Governance Guidelines

The Corporate Governance Guidelines adopted by the Board, which include guidelines for determining director independence, are published on the Company's website at www.hillintl.com, in the Investors' section, and are available in print to any stockholder upon request. That section of the website makes available the Company's corporate governance materials, including Board committee charters. Those materials are also available in print to any stockholder upon request.

Governance and Nominating Committee

Edgar Filing: Hill International, Inc. - Form 10-K/A

During 2015, the Governance and Nominating Committee consisted of Camille S. Andrews (Chair), Brian W. Clymer, Steven M. Kramer and Gary F. Mazzucco. The Governance and Nominating Committee oversees matters relating to the evaluation and recommendation to the Board of the persons to be nominated for election as directors at any meeting of stockholders, and the persons to be appointed by the Board to fill any vacancy on the Board.

The Governance and Nominating Committee is responsible for reviewing and assessing with the Board the appropriate skills, experience, and background sought of Board members in the context of our business and the then-current membership on the Board. This assessment includes a consideration of independence, diversity, age, skills, experience, and industry backgrounds in the context of the needs of the Board and the Company, as well as the ability of current and prospective directors to devote sufficient time to performing their duties in an effective manner. Although the Company does not have a formal policy with respect to diversity standards, as a matter of practice, the Governance and Nominating Committee considers matters commonly viewed as matters of diversity in the context of the Board as a whole and, in its

Table of Contents

effort to select a Board that it believes will best serve the interests of the Company and its stockholders, takes into account the personal characteristics and experience of current and prospective directors to facilitate Board deliberations that reflect a broad range of perspectives.

The Governance and Nominating Committee carefully considers all director candidates recommended by our stockholders, and the Governance and Nominating Committee does not and will not evaluate such candidate recommendations any differently from the way it evaluates other candidates. On January 21, 2016, the Board amended its Bylaws which, among other things, set forth minimum qualifications for an individual to serve as a director on the Company. These minimum qualifications provide that no person shall qualify for service or serve as a director of the Company: (a) unless such person is in compliance with all applicable laws and regulatory requirements to which the Company's directors may be subject in connection with such person's service as a director, (b) if such person has been convicted in, or entered a plea of nolo contendere with respect to, a criminal proceeding involving fraud, misappropriation or other similar charge during the ten years preceding the date of election, or if such person has been found responsible for or admitted responsibility for fraud, misappropriation or other similar charge in any governmental investigation or proceeding or other civil judicial proceeding during the ten years preceding the date of election, or if such person has been found responsible for or admitted responsibility for any material violation of any foreign, federal or state securities law or federal commodities law during the ten years preceding the date of election, (c) if such person has been convicted of, or entered a plea of nolo contendere with respect to, any felony, (d) if such person serves on the board of directors of more than three other public companies, (e) if such person is a director, officer or holder of more than a five percent (5%) equity interest, directly or indirectly, in a business that competes, directly or indirectly, with the Company, (f) if such person has made or makes any contribution or expenditure in connection with the election of any candidate for political office, including any contribution to any committee supporting such a candidate or to a political party, in any jurisdiction which results in the Company becoming ineligible to conduct its business or any portion thereof, or (g) if such person has ever been the subject of a filing of personal bankruptcy in any jurisdiction, either voluntarily or involuntarily (and in the case of an involuntary filing, if such filing was not dismissed within 60 days) during the ten years preceding the applicable date of election.

Any stockholder who wishes to recommend an individual as a potential nominee for election to the Board should submit such recommendation in writing by mail to Hill International, Inc., One Commerce Square, 2005 Market Street, 17th Floor, Philadelphia, Pennsylvania 19103, Attn: Chair of Governance and Nominating Committee, together with information regarding the experience, education and general background of the individual and a statement as to why the stockholder believes such individual to be an appropriate candidate for the Board of Directors of Hill. During 2015, the Governance and Nominating Committee held two meetings.

Communicating Concerns to Directors

The Company encourages all interested persons to communicate any concern that an officer, employee, director or representative of Hill may have engaged in illegal, dishonest or fraudulent activity, or may have violated Hill's Code of Ethics and Business Conduct. Item 11. Executive Compensation.

Executive Summary

Our Compensation Philosophy and Guiding Principles

In support of our business and our long-term success, the Company's compensation program is designed to attract, motivate, reward and retain high-quality executives necessary to continually improve financial performance, achieve profitable growth and enhance stockholder value.

To that end, our Compensation Committee (the Committee) has developed a compensation philosophy designed to reflect the following principles:

- There should be a strong link between pay and performance
- The interests of executives should be aligned with the interests of our stockholders
- Compensation programs should reinforce our business strategy, focus the executive team on priorities and ultimately drive growth in stockholder value.

Investor Outreach and Response

- At our 2014 annual meeting of stockholders, 54.2% of stockholders supported our Named Executive Officers (NEO) compensation program. This result, however, fell short of our expectations.
- To better understand any potential concerns of stockholders, members of management met with many of our stockholders during 2015 and discussed the compensation paid to our executive officers, including our NEOs, and explained the rationale behind the Committee's approaches, which included:

Investor Questions

Why don't we use Total Stockholder Return (TSR) or other relative performance metrics in our executive compensation program?

Our Responses

While the Committee considers our overall performance relative to external markets when making compensation decisions, the Board believes it is more effective to focus our executives on achieving improvements in our own results rather than to pay them primarily based on how other companies perform.

Further, administration of a relative performance plan requires that we identify a peer group of sufficient size and of appropriately comparable companies. For a number of reasons, including our size, our significant international operations and our portfolio of focused services, there are too few companies to construct what we believe to be a viable performance peer group.

For these reasons, and as explained more fully below, the Committee believes that the best approach for the Company is to tie our executive compensation to performance metrics that are aligned with our strategy that can be directly impacted by our executives, and promotes growth

Table of Contents

	in stockholder value over the long term.
Why do we target executive compensation at the 75th percentile of peer companies?	In January 2016, the Committee revised our compensation philosophy to target total executive officer compensation at the market median. We believe that the new market median philosophy is aligned with compensation governance best practices and still provides us with sufficient flexibility to reward our leaders. Due to terms of his 2014 employment agreement, the new philosophy does not currently apply to our CEO.
Why do we provide a compensation opportunity to our CEO that generally is more heavily weighted on salary than incentives?	Historically, due in large part to the substantial equity ownership held by our company founder and previous CEO and his family, including our current CEO, the Board determined that there was sufficient direct economic alignment with external stockholder interests and chose to deliver CEO compensation with a heavier emphasis on salary. As with all other aspects of our executive compensation program, appropriate pay mix and delivery is being considered as part of the executive compensation strategic review going forward.
Why don't we provide details regarding annual bonus goals and award determination?	We have expanded our disclosure regarding annual bonus performance targets and award determination for 2015 performance on pages 18 and 19.

Further, as a result of our discussions with investors, the Company has taken the following actions since August 2015:

1. Appointed two new independent directors to the Board, each of whom was also appointed to the Compensation Committee;
2. Appointed one of the new independent directors as Chairman of the Compensation Committee;
3. Initiated a comprehensive strategic review of our executive compensation programs, policies and practices;
4. Engaged an independent executive compensation consultant, Pay Governance LLC, to support the Compensation Committee's strategic review and provide pay governance and executive compensation design recommendations;
5. Revised our Insider Trading Policy to prohibit future speculative transactions, hedging transactions and, without prior Board approval, pledging or trading on margin of Company Stock; and
6. Committed to expanding our executive compensation-related stockholder outreach efforts during 2016 as part of the strategic review.

We value the feedback provided by our stockholders and look forward to continuing this dialogue.

2015 Financial Highlights

Overall, 2015 was a turnaround year in terms of profitability despite some significant events and items negatively impacting our performance.

- Our Project Management and Construction Claims segments had strong years with consulting fee revenue increasing 9.1% and 10.0%, respectively, and operating profit increasing 5.2% and 6.8%, respectively.
- We initiated and completed a review of our global overhead cost structure; these efforts have successfully reduced our overhead costs by approximately \$21 million annually.
- 2015 interest expense was lower by over \$15.8 million compared to the prior year as a result of our successful 2014 equity raise and debt refinancing.

Table of Contents

- Despite these successes, we experienced significant expenses associated with bad debt expense related to certain accounts receivable primarily in the Middle East, severance costs associated with our cost optimization plan, legal and professional fees related to a stockholder proxy contest and legal fees and settlement costs in connection with a labor dispute with a former executive. As a result, we fell short of our internal operating profit and earnings per share (EPS) goals.

2015 Performance-Based Bonuses (Cash)

2015 Annual Incentive Plan (AIP) payouts for our CEO and COO were based on our performance against two weighted financial metrics: 60% based on EPS and 40% based on earnings before interest expense, income taxes, depreciation and amortization (EBITDA). If actual performance on either measure was below 50% of target, no bonus was paid.

The target bonus opportunity for the CEO and COO was set as a fixed dollar amount (\$1,000,000 and \$200,000 respectively).

The 2015 AIP threshold and target performance goals were set by the Board upon the Committee's recommendation that the Board-approved budget-based targets were appropriate.

During 2015, we achieved 56.7% of established EPS target performance and 85.1% of established EBITDA target performance. These levels of performance were above our required thresholds but below our targets and resulted in AIP payouts of \$680,583 for our CEO and \$136,117 for our COO. These bonus determinations are detailed on page 19.

Though below our expectations, the 2015 AIP payouts were more favorable compared to 2014 due principally to the stronger financial performance in 2015 and demonstrate our pay-for-performance philosophy.

AIP payouts for our other executive officers, including the other NEOs, are awarded by the Board upon the Committee's recommendation after considering the input of our CEO. In preparing recommended award levels, the CEO and Committee considered Company performance as well as individual performance against personal and operating/functional unit goals. AIP payouts for the other NEOs ranged from \$50,000 to \$140,000.

Our Chairman, Irvin Richter, did not receive any bonus payment in 2015.

2015 Long-Term Incentive Awards (Equity)

Long-term incentive compensation opportunities for our executive officers, including the NEOs, are entirely equity-based. In 2015, NEOs received an award of stock options that vests in equal installments over five years and expires in seven years. Stock options have been used to focus our executive officers on actions that will lead to growth in the Company share price and increased value for our stockholders.

In determining the value of each NEO's 2015 long-term grant the Committee considered the performance of each individual as well as the executive's roles and responsibilities, his or her impact on our results, and advancement potential. 2015 stock option awards for our NEOs were as follows:

- CEO: \$1,010,000
- COO: \$414,000
- Other NEOs: ranged from \$51,750 to \$103,500

Our Chairman, Irvin Richter, did not receive any equity award in 2015.

2015 Compensation Governance Practices

We are committed to executive compensation practices that drive performance and that align the interests of our leadership team with the interests of our stockholders. We are considering the appropriateness of these and other policies and practices as part of our comprehensive executive compensation strategic review. Best practices that we have implemented with respect to the compensation of our NEOs include:

1. A significant portion of our executives' target compensation is related to performance based upon and tied to pre-established performance goals and the performance of our share price;

Table of Contents

2. Total direct compensation for our NEOs is targeted at the market median;
3. Engaged an independent outside compensation consultant;
4. Maintain a clawback policy; and
5. Double-trigger severance payments for executive officers requiring both a change of control and termination of employment.

Practices we avoid with respect to the compensation of our NEOs include:

1. No tax gross ups for perquisites or change in control severance benefits provided to our executive officers;
2. No speculative trading of Company stock;
3. No hedging transactions;
4. No repricing of stock options; and
5. No unapproved pledging of Company stock.

Actions Related to 2016 Executive Compensation

In addition to the actions taken in 2015, the Committee has already implemented a number of changes for 2016 executive compensation based on the results of a preliminary market compensation review prepared by Pay Governance, the Company's performance in 2015 and stockholder and proxy voting advisor feedback. These changes are as follows:

1. Revised our compensation philosophy to target the 50th percentile of the market;
 2. Approved modest, average 3 percent, salary increases for our executive officers;
 3. Established a bonus program for the CEO and COO that is tightly tied to achieving superior EPS performance during 2016 (details are provided in Part 3 of the Compensation Discussion and Analysis at page 23).
- 2016 EPS goal has been set at a premium to our Board-approved budget;
 - No award for actual EPS less than 80% of target; and

- A bonus up to 200% of target can be earned for performance up to 140% of the EPS goal.
- 4. 2016 equity awards for the CEO and COO are 100% in the form of premium priced stock options. Premium exercise prices were set by the Board at \$4.00 and \$5.00, representing 22.3% and 52.9% premiums over the closing price of our stock on the date of grant (details are provided in Part 3 of the Compensation Discussion and Analysis on page 24); and
- 5. Lowered the per-director compensation provided to our non-employee directors from approximately \$180,000 per year to \$120,000 per year as we added two new non-employee directors.

We expect to continue meeting with many of our shareholders regarding executive compensation throughout 2016 to gather feedback and discuss possible changes as we work through the strategic review of our compensation programs and prepare for our triennial say-on-pay stockholder vote in 2017.

Part 1 2015 Performance, Compensation Governance Practices and Decisions

2015 Performance Overview

Despite some challenges, 2015 was a turnaround year for the Company in terms of profitability. The accomplishments of our executive team, led by our CEO David Richter, include the following:

- Consolidated consulting fee revenue increased by \$53,834,000 or 9.3%;
- Increased consulting fee revenue and operating profit of our Project Management segment by 9.1% and 5.2%, respectively;
- Increased consulting fee revenue and operating profit of our Construction Claims segment by 10.0% and 6.8%, respectively;
- Completed a review of our global overhead cost structure which eliminated annualized overhead costs of approximately \$21,000,000; and
- Decreased interest expense by \$15,822,000 compared to the prior year as a result of our successful equity raise and debt refinancing in 2014.

Compensation Governance Practices

We are committed to executive compensation practices that drive performance and that align the interests of our leadership team with the interests of our stockholders. We are considering the appropriateness of these and other policies and practices as part of our comprehensive executive compensation strategic review. Below is a summary of best practices that we have implemented and practices we avoid with respect to the compensation of our NEOs.

What We Do

Pay for Performance A significant portion of our CEO and COO target compensation is related to performance based upon and tied to pre-established performance goals and stock price aligned with our short- and long-term objectives.

Target Market Median Our compensation philosophy targets total direct compensation of our NEOs that is competitive with the companies with which we compete for executive talent. Beginning in 2016, this target is the market median for all NEOs who do not have employment agreements.

Independent Compensation Consultant The Committee has engaged an independent outside compensation consultant. See Actions Related to 2016 Executive Compensation.

What We Avoid

No Gross Ups We do not provide tax gross-ups for perquisites or change in control severance benefits provided to our executive officers.

No Speculative Trading Board members and executive officers are prohibited from short-selling our stock and buying or selling puts and calls on our stock.

No Hedging Board members and officers are prohibited from engaging in hedging transactions that could eliminate or limit the risks and rewards of owning our stock.

Table of Contents

<p>Clawback The Committee may cancel or recover any cash- or equity-based incentive compensation based on achievement of specified financial results that are the subject of a subsequent restatement. We will seek repayment of any amount determined to have been inappropriately received due to mathematical errors, fraud, misconduct or gross negligence.</p>	<p>No Repricing of Options Our 2006 Employee Stock Option Plan does not allow for the repricing of stock options without stockholder approval, and we have never repriced any stock option grants.</p>
--	---

<p>Severance Payments Require Double-Trigger The Company's recently adopted 2015 Senior Executive Retention Plan provides change in control severance benefits only upon a double-trigger (change in control and termination of employment).</p>	<p>No Unapproved Pledging of Hill Stock The Company's recently revised insider trading policy prohibits pledging of Hill stock without review and prior approval by the Board.</p>

Executive Compensation Elements

The following chart summarizes the key features of each element of our executive compensation program: cash (salary and annual bonus); equity (long-term incentive); retirement (401(k) Plan); and other compensation (perquisites). Each type is discussed in detail in the remainder of this Compensation Discussion and Analysis and the accompanying tables.

Summary of Key 2015 Compensation Decisions

The following highlights the Committee's key compensation decisions for 2015, as reported in the Summary Compensation Table on page 25.

Chairman Compensation

In 2014, Irvin Richter received total compensation of \$3,717,512 plus benefits.

During 2015, Irvin Richter received no compensation for serving on the Board of Directors. For services to the Company as an employee during 2015, Mr. Richter received the following compensation:

- Salary of \$1,400,000;
- Other benefits (insurance, medical and disability and use of two vehicles);
- No 2015 AIP award; and
- No 2015 equity award.

CEO Compensation

On December 31, 2014, David Richter became our President and CEO. His employment agreement establishes his total direct compensation (TDC) opportunity, consisting of base salary and annual and long-term incentive opportunities which must be at least at the 75th percentile of CEOs in our Selected Peer Group (as defined in Part 2 of the Compensation Discussion and Analysis on page 22). In recognition of his promotion to President and CEO, for 2015 the Committee took the following actions on Mr. Richter's compensation:

- Annual base salary was increased from \$1,000,000 to \$1,500,000;
- Annual incentive target award opportunity was set at \$1,000,000; and
- Long-term (equity) incentive established as 500,000 stock options with a fair value at the grant date of \$1,010,000.

Table of Contents

Compensation of Other NEOs

The Committee approved salaries of all NEOs and set incentive-compensation targets for Mr. Ghali taking into account the CEO's recommendations, relative duties and responsibilities, advancement potential and impact on our financial and strategic performance. In recognition of his promotion to COO in January 2015, Mr. Ghali received a 16% salary increase. The Committee approved salary increases ranging from 4% to 10% for all other NEOs.

Details of 2015 NEO compensation are provided in the table below.

Pay Mix

One of our compensation objectives is to emphasize the creation of long-term stockholder value. To support this goal, a portion of each NEO's pay is awarded under our long-term incentive plan in the form of stock options. Nearly 29% of Mr. Richter's targeted TDC and approximately 12% of the targeted TDC for the COO is based upon long-term value creation as measured by growth in our share price.

Our 2015 Annual Incentive Compensation Program

Plan Criteria and Rationale

The 2015 annual incentive opportunities for our CEO and COO are based on our financial performance as measured by EPS and EBITDA.

In 2015, as in past years, the Committee evaluated the continued use of the AIP financial measures using the following principles:

- Metrics that support achievement of an annual Board-approved budget;
- Metrics that support profitable growth while preserving cash for longer-term investment;
- Metrics that are clearly understood and can be affected by the performance of our executives and employees; and
- Metrics that are consistent with market practice and commonly used by analysts in assessing our performance.

Following this review, the Committee concluded that the continued use of the AIP financial measures support the foregoing principles for the following reasons:

- EPS is a comprehensive measure of income and provides an emphasis on profitable growth while focusing managers on expense control.
- EBITDA provides a focus on our core operating results by removing the impact of our capital structure (interest expense from outstanding debt), asset base (depreciation and amortization) and tax consequences, as well as specified non-core operating items, specified non-operating items, specified non-cash items and specified extraordinary items.

Target Setting

The 2015 target annual incentive awards for our CEO and COO were set as a fixed dollar amount (\$1,000,000 and \$200,000, respectively). Target awards are reviewed annually to ensure alignment with our compensation philosophy.

Variances from these target payout values are based upon Company performance against the pre-established EPS and EBITDA goals. The performance/payout relationship around targeted performance levels was set at the beginning of the performance year and reflected our expectation for the year that management should strive to achieve our plan and be held accountable with lower than target payouts if performance fell below plan. Our 2015 plan used the following performance and payout relationship:

	Performance (% of Target)	Payout (% of Target)
Below Threshold	<50%	0%
Threshold	50%	50%
Target	100%	100%
Maximum	100%	100%

Financial Results for AIP Purposes

metric, the resulting Bonus Payout Factor and 2015 AIP bonus payouts for the CEO and COO are shown in the tables below.

Our Long-Term Equity Incentive Program

Plan Criteria and Rationale

Long-term incentive compensation for all our executive officers, including our NEOs, is entirely equity-based. Historically, we have delivered this compensation opportunity through the use of stock options.

Stock option awards are used to complement the AIP financial metric focus by aligning the team around actions that will promote the long-term growth of our share price. Our options also have a, five-year vesting schedule in order to promote retention of our leaders.

In this way, the combination of our AIP and options balance the focus of our team in a coordinated way around short-term financial and longer-term share price performance, both of which are directly linked to value creation for stockholders.

Table of Contents**Equity Award Grant Practices**

Historically, equity awards are made to the CEO and COO once per year and to other NEOs every other year. The awards are historically made at the annual grant meeting in January. The Committee's equity-based awards policy contains rules on determining the grant date of equity awards and the exercise price of any stock options, which must be at least equal to the fair market value of our stock on the grant date.

After benchmarking with our Selected Peer Group, the Committee did not make significant changes to the size of the awards for 2015 other than for Mr. Ghali in recognition of his promotion to COO in January 2015.

2015 Long-Term Equity Awards

In 2015, long-term equity plan participants, including our NEOs, received a grant of stock options.

The value of each NEO award was determined by the Committee after considering company performance, individual impact on our financial results, market norms and relative duties, responsibilities and advancement potential. The value of the grants made in January 2015 are shown in the following table.

2015 Long-Term Equity Award Value

Name	Number of Shares Underlying Stock Options	Aggregate Grant Date Fair Value of Stock Options (1) (\$)	Percentage of TDC (2)
David L. Richter	500,000	1,010,000	28.8%
John Fanelli III	50,000	103,500	17.1%
Raouf S. Ghali	200,000	414,000	24.2%
Mohammed Al Rais	50,000	103,500	10.7%
Frederic Z. Samelian	25,000	51,750	6.17%

(1) The expected fair value of the stock options was based on the closing price of the Company's common stock of \$3.72 per share on January 2, 2015 for Mr. Richter and \$4.03 per share on January 27, 2015 for the other NEOs. For the assumptions made in determining grant date fair values, refer to Note 11 to the consolidated financial statements included in our Annual Report on Form 10-K filed with the SEC on March 29, 2016.

(2) TDC consists of base salary and annual and long-term incentive opportunities.

Part 2 Compensation Framework

Compensation Philosophy and Objectives

Our compensation philosophy is to provide competitive executive officer pay opportunities tied to our short-term and long-term success. This overriding pay-for-performance approach enables us to attract, motivate and retain the type of executive leadership that will help us achieve our strategic objectives and realize increased stockholder value. To reach these goals, we have adopted the following program objectives:

- Link management compensation with the interests of stockholders.
- Support achievement of both operating performance, strategic objectives and share price growth through variable compensation programs.
- Be fair and market-competitive to assure access to needed talent and encourage retention.
- Provide compensation opportunities that are consistent with each executive's responsibilities, experience and performance.

Table of Contents

- Design compensation incentive programs that promote a sensible risk/reward balance, and that do not encourage unnecessary or unreasonable risk-taking.
- Use perquisites sparingly.

Applying our Compensation Philosophy

We apply our compensation philosophy and objectives as follows:

Compensation Component	Objectives
Base Salary	Fair and competitive compensation to attract, retain and reward executive officers by providing a fixed level of cash compensation tied to experience, skills and capability relative to the market.
Annual Incentive (Non-Equity) Award	<p>Cash bonus aligns executives with annual goals and objectives.</p> <p>Creates direct link to annual financial and operational performance.</p> <p>Provides the opportunity for NEOs to receive market-competitive total cash compensation when commensurate with performance.</p>
Long-Term Incentive Award	<p>Aligns executive s interests with those of stockholders by linking compensation with corporate performance that will lead to increased share price for our stockholders.</p> <p>Retains and provides incentives to executives through multi-year stock option vesting.</p> <p>Promotes a sensible balance of risk and reward, without encouraging unnecessary or unreasonable risk-taking.</p> <p>Provides the opportunity for NEOs to receive market-competitive TDC when commensurate with performance</p>

Change in Control Severance Plan	Minimizes distractions and personal financial uncertainty created by a pending or threatened change in control by providing compensation and benefit arrangements upon termination due to a change in control.
401(k) Plan	Attracts and retains executives by providing a level of retirement investment in a tax-efficient manner.
Employee Stock Purchase Plan	Attracts, retains and aligns executives with stockholders by providing an opportunity to be compensated through the benefits of stock ownership and to acquire an interest in the Company.

Competitive Positioning

In support of our compensation philosophy, we target the compensation values consistent with the markets with which we compete for executive talent, capital and business; for the CEO, this market is defined as our Selected Peer Group.

The Selected Peer Group is composed of companies with size, industry, operational and client characteristics that are similar to Hill.

Generally, we use data drawn from this group as a reference which the Committee reviews competitive pay practices, design approaches and for pay-for-performance comparisons.

Where compensation data and practices are not available from companies within the Selected Peer Group, the Committee may, from time to time, also reference broader survey sources which include other companies of comparable size, scope and complexity, with which we compete for talent. This approach provides the Committee with decision-quality data and context. The Committee annually evaluates and, if appropriate, updates the composition of the Selected Peer Group. In 2015, the Committee evaluated a few potential additions, but no changes were made to the Selected Peer Group. The 2015 Selected Peer Group consisted of the following companies:

2015 Selected Peer Group

CRA International, Inc. Exponent, Inc. Huron Consulting Group, Inc. Navigant Consulting, Inc.

Setting Compensation Targets and Performance Goals

The Committee annually reviews the total compensation opportunity of each executive officer i.e., cash compensation (salary and target annual incentive opportunity) and long-term equity compensation (target long-term equity value).

The Committee, with periodic input from an independent consultant, then sets the executive's compensation target for the current year. Salary adjustments, if any, typically become effective as of January 1 of each year or upon a promotion. The compensation proposal for the CEO and COO is reviewed with and ratified by the independent directors of the Board in executive session.

In making its decisions, the Committee uses several resources and tools, including competitive market information and peer group compensation trends, broader survey sources and the larger executive compensation environment.

For 2015, the Committee set target performance levels for the financial objectives used in the AIP and concluded that there was an appropriate correlation between payout and performance levels (at target, threshold and maximum) in light of the business environment, risks associated with achieving our five-year strategic plan and other factors.

Evaluating Performance

For the CEO and COO, performance determination under the AIP was 100% based on financial metrics. For other NEOs, the Committee uses its judgment in making decisions about individual compensation elements and total compensation, with a focus on individual, business/unit and overall company performance. The Committee also considers competitive market norms in making final compensation decisions.

Post-Employment Compensation Arrangements

Termination Payments

In the event of a change in control, we provide certain senior executive officers with benefits upon termination in various circumstances under our 2015 Senior Executive Retention Plan (the Retention Plan). The Retention Plan provides change in control severance benefits only upon a double-trigger (change in control and termination of employment). Generally, these benefits provide for two years of salary and benefits continuation. For 2015, each of our NEOs, except our CEO, was eligible to receive benefits under the Retention Plan.

Table of Contents

Under his employment agreement, Mr. Richter is eligible to receive certain benefits if (i) his employment is terminated by the Company without cause, (ii) he terminates his employment for good reason or (iii) he terminates his employment within two years of a change in control of the Company. Generally, these benefits provide for three years of salary and benefits continuation.

We detail the compensation estimated to be paid to our NEOs under various termination circumstances beginning on page 29.

Other Compensation Policies

Personal Benefits

We provide our NEOs with other benefits that we believe are reasonable and competitive so that we may attract and retain talented senior executives. In total, they represent a small percentage of each NEO's overall compensation and generally are identical to the benefits provided to all other Hill employees.

Policy on Hedging and Pledging

Our insider trading policy contains restrictions on certain transactions in Company stock by executive officers and directors. All trades by executive officers and directors must be pre-cleared. The executive officers and directors are prohibited from any trading in puts or calls, from engaging in short sales of Company stock or from hedging Company stock. Making pledges of Company stock or using it as loan collateral or as part of a margin account in the future is prohibited unless expressly approved by the Board.

Risk Considerations in Our Compensation Programs

The Committee has reviewed our compensation policies and practices for the Company's executive officers and concluded that any risks arising from these policies and programs are not reasonably likely to have a material adverse effect. The Committee believes that the mix and design of the elements of our compensation program are appropriate and encourage executive officers and key employees to strive to achieve goals that benefit the Company and our stockholders over the long term. Our compensation policies and procedures are applied uniformly to all eligible participants and when viewed in aggregate, our programs provide sufficient safeguards, balance and governance that does not encourage excessive risk-taking by our employees.

Part 3 2016 Compensation Committee Actions

2016 Committee Actions

The Committee is in the process of reviewing the Company's compensation philosophy and is evaluating the design and performance of our executive compensation programs to ensure we have a program that aligns with governance and market best practices to the fullest extent possible while ensuring it is structured to best support achievement of our business strategy and human capital needs. As a result of this ongoing review and evaluation, the Committee has already taken the following actions at this point in 2016:

Compensation Philosophy for Executive Officers Revised the compensation philosophy to target total compensation of Executive Officers to the 50th percentile of the market.

(1) The amounts reported in this column reflect the aggregate grant date fair value of grants of stock options calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718 (ASC 718). The calculation of these amounts disregards the estimate of forfeitures related to time-based vesting conditions. The amounts in this column do not reflect compensation actually received by the named executive officer. The actual value, if any, that an executive may realize from an award is contingent upon the satisfaction of the conditions to vesting in that award, and upon the excess of the stock priced over the exercise price, if any, on the date

the award is exercised. Thus, there is no assurance that the value, if any, eventually realized by the named executive officer will correspond to the amount shown.

(2) The Black-Scholes option valuation model is used to estimate the fair value of the options in accordance with ASC 718. For a discussion of the assumptions used, see Note 11 to the Company's 2015 consolidated financial statements included in our Annual Report on Form 10-K filed with the SEC on March 29, 2016.

Item 13. Certain Relationships and Related Transactions, and Director Independence.**Transactions with Related Persons**

For the year ended December 31, 2015, there were no transactions, or series of similar transactions, to which the Company was or is to be a party in which the amount exceeded \$120,000, and in which any of our directors or executive officers, any holders of more than 5% of our common stock or any members of any such person's immediate family, had or will have a direct or indirect material interest, other than compensation described in Item 11 of this Annual Report on Form 10-K/A.

It is the policy and practice of our Board to review and assess information concerning transactions involving related persons. Related persons include our directors and executive officers and their immediate family members. If the determination is made that a related person has a material interest in a transaction involving us, then the disinterested members of the Board would review and, if appropriate, approve or ratify it, and we would disclose the transaction in accordance with SEC rules and regulations. If the related person is a member of the Board, or a family member of a director, then that director would not participate in any determination involving the transaction at issue.

Our Code of Ethics and Business Conduct prohibits all employees, including our executive officers, from benefitting personally from any transactions with us other than approved compensation benefits.

Director Independence

The standards applied by the Board in affirmatively determining whether a director is independent, in compliance with the rules of the NYSE, generally provide that a director is not independent if:

- (1) the director is, or has been within the last three years, our employee, or an immediate family member (defined as including a person's spouse, parents, children, siblings, mothers- and fathers-in-law, sons- and daughters-in-law, brothers- and sisters-in-law, and anyone, other than domestic employees, who shares such person's home), is, or has been within the last three years, one of our executive officers;
- (2) the director has received, or has an immediate family member who has received, during any 12-month period within the last three years, more than \$120,000 per year in direct compensation from us, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service);
- (3) (a) the director is a current partner or employee of a firm that is our internal or external auditor; (b) the director has an immediate family member who is a current partner of such a firm; (c) the director has an immediate family member who is a current employee of such a firm and who works on our audit; or (d) the director or an immediate family member was, within the last three years, a partner or employee of such a firm and personally worked on our audit within that time;
- (4) the director or an immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of our present executive officers at the same time serves or served on that company's compensation committee; or
- (5) the director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to or received payments from us for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1,000,000 or two percent of such other company's consolidated gross revenues.

In addition to these objective standards, the Board of Directors has adopted a general standard, also in compliance with NYSE rules, to the effect that no director qualifies as independent unless the Board of Directors affirmatively determines that the director has no material relationship with us. In making this determination, the Board considers all relevant facts and circumstances regarding any transactions, relationships and arrangements between Hill and the director, and also between Hill and any company or organization with which the director is affiliated. The Board of Directors has determined that our current independent directors are Camille S. Andrews, Brian W. Clymer, Steven R. Curts, Alan S.

Fellheimer, Steven M. Kramer, Craig L. Martin and Gary F. Mazzucco.

Under the second method, the engagement to render the services would be presented to and pre-approved by the Audit Committee (subject to the de minimis exceptions for non-audit services described in Section 10A(i)(1)(B) of the Exchange Act that are approved by the Audit Committee prior to the completion of the audit). The Chairman of the Audit Committee has the authority to grant pre-approvals of audit and permissible non-audit services by the independent registered public accounting firm, provided that all pre-approvals by the Chairman must be presented to the full Audit Committee at its next scheduled meeting.
