**Item 2.06. Material Impairments.**

On August 29, 2017, Duke Energy Florida, LLC ( DEF ), a wholly owned subsidiary of Duke Energy Corporation (the Corporation ), filed a Second Revised and Restated Settlement Agreement (the 2017 Settlement ) with the Florida Public Service Commission ( FPSC ). The 2017 Settlement replaces and supplants the previous Revised and Restated Stipulation and Settlement Agreement dated July 31, 2013, that was approved by the FPSC in November 2013 (the 2013 Settlement ).

Parties to the 2017 Settlement include DEF, the Office of Public Counsel, the Florida Industrial Power Users Group, the Florida Retail Federation, White Springs Agricultural Chemicals, Inc. d/b/a PCS Phosphate, and Southern Alliance for Clean Energy.

The 2017 Settlement extends the base rate case stay-out provision from the 2013 Settlement through the end of 2021; however, DEF is allowed a multi-year increase to its base rates of \$67 million per year in 2019, 2020 and 2021, as well as base rate increases for solar generation. The 2017 Settlement also contains provisions related to future investments in solar and renewable energy technology as well as the termination of the proposed Levy Nuclear Project.

In connection with terminating the proposed Levy Nuclear Project under the 2017 Agreement, DEF agreed to the following terms:

- Write off costs related to obtaining the Levy Nuclear Project combined operating license ( COL ), including allowance for funds used during construction; and
- In addition to the COL costs, write off all remaining but unrecovered Levy Nuclear Project costs, including the retail portion of the \$34.3 million fee (including interest) ordered by the trial court on December 22, 2016, in connection with the litigation between DEF and Westinghouse Electric Company regarding the termination costs associated with the cancellation by DEF of the Engineering, Procurement, and Construction contract associated with the Levy Nuclear Project (the Westinghouse Contract Litigation ), as well as any potential adverse court rulings on the appeals in the Westinghouse Contract Litigation, for which DEF has not yet sought recovery.

As a result of such terms, the Corporation will take an estimated pre-tax impairment charge of approximately \$135 million in the third quarter of 2017 which will be treated as a special item and excluded from the Corporation s adjusted diluted earnings per share results.

The 2017 Settlement is subject to the review and approval of the FPSC, which is expected by the end of 2017.

An overview providing additional detail on the 2017 Settlement is attached to this Form 8-K as Exhibit 99.1.
