EMAZING INTERACTIVE, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2008

NOTE 1 – NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities, History and Organization:

Emazing Interactive, Inc. (The “Company”) operates as an online gaming facilitator through its subsidiary Emazing Gaming, LLC. The Company is located in Allen, Texas and was incorporated on April 11, 2006 under the laws of the State of Texas. On October 2, 2006, the Company converted its corporate charter to domicile in Nevada.

Unaudited Interim Financial Statements:

The accompanying unaudited interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States and applicable Securities and Exchange Commission (“SEC”) regulations for interim financial information. These financial statements are unaudited and, in the opinion of management, include all adjustments (consisting of normal recurring accruals) necessary to present fairly the balance sheets, statements of operations and statements of cash flows for the periods presented in accordance with accounting principles generally accepted in the United States. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to SEC rules and regulations. It is presumed that users of this interim financial information have read or have access to the audited financial statements and footnote disclosure for the preceding fiscal year contained in the Company’s Annual Report on Form 10-K. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

Significant Accounting Policies:

The Company’s management selects accounting principles generally accepted in the United States of America and adopts methods for their application. The application of accounting principles requires the estimating, matching and timing of revenue and expense. It is also necessary for management to determine, measure and allocate resources and obligations within the financial process according to those principles. The accounting policies used conform to generally accepted accounting principles which have been consistently applied in the preparation of these financial statements.

The financial statements and notes are representations of the Company’s management which is responsible for their integrity and objectivity. Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

Management believes that all adjustments necessary for a fair statement of the results of the three months ended June 30, 2008 and 2007 have been made.

7

Basis of Presentation:

The Company prepares its financial statements on the accrual basis of accounting. All intercompany balances and transactions are eliminated. Investments in subsidiaries are reported using the equity method. The financial statements include the accounts of Emazing Gaming, LLC, an operating subsidiary.

Reclassification:

Certain prior year amounts have been reclassified in the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows to conform to current period presentation. These reclassifications were not material to the consolidated financial statements and had no effect on net earnings reported for any period.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recently Issued Accounting Pronouncements:

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow. See Notes 9 and 10 for a discussion of new accounting pronouncements.

Cash and Cash Equivalents:

Cash and cash equivalents includes cash in banks with original maturities of three months or less and are stated at cost which approximates market value, which in the opinion of management, are subject to an insignificant risk of loss in value.

Revenue Recognition:

The Company recognizes revenue from the sale of products in accordance with the Securities and Exchange Commission Staff Accounting Bulletin No. 104 (:SAB 104"), "Revenue Recognition in Financial Statements". Revenue will be recognized only when all of the following criteria have been met:

- Persuasive evidence of an arrangement exists;
- Ownership and all risks of loss have been transferred to buyer, which is generally at point of sale;
 - The price is fixed and determinable; and

- Collectibility is reasonably assured.

Revenue from game rental is all paid at the point of purchase online through PayPal.

Web-Site Development Costs:

The Company adopted EITF 00-02, "Accounting for Website Developments Costs". In accordance with EITF 00-02, the costs incurred for the (i) website application and infrastructure development; (ii) graphics development; and (iii) content development, which took the website to a functional stage where it could receive server and gaming orders, were capitalized and are being amortized over three years. Maintenance expenses or costs that do not result in new revenue producing features or functions, such as updating information and products or maintenance of the website or promotion of the website using search engines, are expensed as incurred. Prior to this development, Emazing had no website. As of June 30, 2008, \$488 has been expensed and \$48,488 capitalized. For the three month periods ended June 30, 2008 and June 30, 2007 amortization expense was \$4,041 and \$3,207 respectively.

Income Taxes:

The Company has adopted SFAS No. 109, which requires the use of the liability method in the computation of income tax expense and the current and deferred income taxes payable.

Property and Equipment:

Property and equipment are stated at cost less accumulated depreciation. Major renewals and improvements are capitalized; minor replacements, maintenance and repairs are charged to current operations. Depreciation is computed by applying the straight-line method over the estimated useful lives which are generally five to seven years.

Earnings per Share:

Earnings per share (basic) is calculated by dividing the net income (loss) by the weighted average number of common shares outstanding for the period covered. As the Company has no potentially dilutive securities, fully diluted earnings per share is identical to earnings per share (basic).

Comprehensive Income:

SFAS No. 130 "Reporting Comprehensive Income", establishes standards for reporting and display of comprehensive income and its components in a full set of general purpose financial statements. For the quarters ended June 30, 2008 and 2007, the Company had no items of other comprehensive income. Therefore, the net loss equals the comprehensive loss for the periods then ended.

NOTE 2 – FIXED ASSETS

Fixed assets at June 30, 2008 and December 31, 2007 are as follows:

	June 30, 2008	Dec 31, 2007
Computer Equipment	\$ 27,950	\$ 27,950
Less: Accumulated Depreciation	(15,875)	(11,216)
Total Fixed Assets	\$ 12,075	\$ 16,734

Depreciation expense for the three month periods ended June 30, 2008 and 2007 was \$2,326 and \$1,663 respectively, and \$4,658 and \$3,326 for the six month periods ended June 30, 2008 and 2007 respectively.

NOTE 3 – INTANGIBLE ASSETS

Intangible assets at June 30, 2008 and December 31, 2007 are as follows:

	June 30, 2008	Dec 31, 2007
Gaming Software	\$ 48,488	\$ 48,488
Less: Accumulated Amortization	(31,366)	(23,285)
Total Intangible Assets	\$ 17,122	\$ 25,203

Amortization expense for the three month period ended June 30, 2008 and 2007 was \$4,041 and \$2,843 respectively, and \$8,081 and \$5,686 for the six month period ended June 30, 2008 and 2007 respectively.

NOTE 4 – COMMON STOCK

The Company is authorized to issue 50,000,000 common shares at a par value of \$0.001 per share. These shares have full voting rights. At June 30, 2008, there were 5,743,500 shares outstanding.

NOTE 5 – INCOME TAXES

The Company follows FASB Statement Number 109, Accounting for Income Taxes. Deferred income taxes reflect the net tax effects of (a) temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax reporting purposes, and (b) net operating loss carry forwards. For Federal income tax purposes, the Company uses the cash basis of accounting, whereas the accrual basis is used for financial reporting purposes. In addition, certain assets are charged to expense when acquired under Section 179 of the Internal Revenue Code for income tax purposes. The cumulative tax effect at the expected tax rate of 25% of significant items comprising the Company's net deferred tax amounts as of June 30, 2008 are as follows:

	June 30, 2008
Deferred tax assets attributable to:	
Prior years	\$ 67,565
Tax benefit (liability) for current year	21,380
Total Deferred Tax Benefit	\$ 88,945
Valuation allowance	(88,945)
Net Deferred Tax Benefit	\$ 0

Components of the current provision (benefit) for taxes on income for the current year are as follows:

	June 30, 2008
Income tax before extraordinary item:	\$ 0
Tax (benefit) liability on current year operations	(21,380)
Valuation reserve	21,380
Net Provision (Benefit)	\$ 0

The realization of deferred tax benefits is contingent upon future earnings and is fully reserved at June 30, 2008.

NOTE 6 – DUE TO SHAREHOLDER – RELATED PARTY TRANSACTIONS

The Company is obligated to a shareholder and related parties for funds advanced to the Company for start up expenses and working capital. The advances are unsecured and are to be paid back as the Company has available funds to do so. No interest rate or payback schedule has been established. There has been no interest paid on these advances. Amounts due at June 30, 2008 were \$3,092.

NOTE 7 - LINE OF CREDIT

The Company entered into a line of credit (“LOC”) in November 2007. The LOC had a credit line of \$20,000 and accrued interest at a rate of 10% per annum, compounded monthly. In March 2008 this LOC increased to \$40,000. It is secured by 100% of the stock of Emazing Interactive, Inc. that is beneficially owned by the President and his father.

As of June 30, 2008, the balance owed pursuant to the LOC was \$30,000. Interest accrued but not paid during the three and six month periods ended June 30, 2008 was \$750 and \$917, respectively.

NOTE 8 – FINANCIAL CONDITION AND GOING CONCERN

Emazing Interactive, Inc. has an accumulated deficit through June 30, 2008 totaling \$292,063 and had negative working capital of \$82,661. Because of this accumulated loss, Emazing Interactive, Inc. will require additional working capital to develop its business operations. Emazing Interactive, Inc. intends to raise additional working capital either through private placements, public offerings, bank financing and/or shareholder funding. There are no assurances that Emazing Interactive, Inc. will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placement, public offerings, bank financing and/or shareholder funding necessary to support Emazing Interactive, Inc.'s working capital requirements. To the extent that funds generated from any private placements, public offerings, bank financing and/or shareholder funding are insufficient, Emazing Interactive, Inc. will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to Emazing Interactive, Inc.. If adequate working capital is not available Emazing Interactive, Inc. may not be able to continue its operations.

Management believes that the efforts it has made to promote its business will continue for the foreseeable future. These conditions raise substantial doubt about Emazing Interactive, Inc.'s ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should Emazing Interactive, Inc. be unable to continue as a going concern.

NOTE 9 - RECENTLY ADOPTED ACCOUNTING PRONCEMENTS

In September 2006, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Standards (“SFAS”) No. 157, Fair Value Measurements (“SFAS No. 157”), which defines fair value, establishes a framework

for consistently measuring fair value under GAAP and expands disclosures about fair value measurements. SFAS No. 157 became effective for the Company on January 1, 2008. SFAS No. 157 establishes a hierarchy in order to segregate fair value measurements using quoted prices in active markets for identical assets or liabilities, significant other observable inputs and significant unobservable inputs. For assets and liabilities that are measured at fair value on a recurring basis, SFAS No. 157 requires disclosure of information that enables users of financial statements to assess the inputs used to determine fair value based on the aforementioned hierarchy. See Note 11 for further information regarding our assets and liabilities that are measured at fair value on a recurring basis.

In February 2008, the FASB issued FASB Staff Position (“FSP”) 157-2 “Partial Deferral of the Effective Date of Statement 157”. FSP 157-2 delays the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The Company has adopted SFAS No. 157 as of January 1, 2008 related to financial assets and financial liabilities. Refer to Note 11 for additional discussion on fair value measurements. The Company is currently evaluating the impact of SFAS No. 157 related to nonfinancial assets and nonfinancial liabilities on the Company’s financial position, results of operations and cash flows.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FASB Statement No. 115 (“SFAS No. 159”). SFAS No. 159 permits entities to choose to measure eligible items at fair value at specified election dates and report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 was effective for the Company on January 1, 2008. However, the Company has not elected to apply the provisions of SFAS No. 159 to any of our financial assets and financial liabilities, as permitted by the Statement.

NOTE 10 – ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations (“SFAS No. 141(R)”) which replaces SFAS No. 141, Business Combinations, and requires the acquirer of a business to recognize and measure the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at fair value. SFAS No. 141(R) also requires transaction costs related to the business combination to be expensed as incurred. SFAS No. 141(R) is effective for business combinations for which the acquisition date is on or after fiscal years beginning after December 15, 2008. Management does not believe that adoption of this statement will have a material impact on the Company’s consolidated financial position or results of operations.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements (“SFAS No. 160”). This Statement amends ARB No. 51, Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning after December 15, 2008. We are currently evaluating the effect that the adoption of SFAS No. 160 will have on our consolidated financial position, results of operations and cash flows.

In March 2008, the FASB issued FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities. The new standard is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity’s financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The new standard also improves transparency about the location and amounts of derivative instruments in an entity’s financial statements; how derivative instruments and related hedged items are accounted for under Statement 133; and how derivative instruments and related hedged items affect its financial position, financial performance, and cash flows. Management is currently evaluating the effect of this pronouncement on financial statements.

In June 2008, the Securities and Exchange Commission announced that it has approved a one-year extension of the compliance data for smaller public companies to meet the section 404(b) auditor attestation requirement of the Sarbanes-Oxley Act. With the extension, small companies will now be required to provide the attestation reports in their annual reports for the fiscal years ending on or after December 15, 2009.

NOTE 11 – FAIR VALUE OF FINANCIAL INSTRUMENTS

In September 2006, the FASB issued SFAS 157, Fair Value Measurement. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 was effective for our financial assets and liabilities on January 1, 2008. The FASB delayed the effective date of SFAS 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008.

SFAS 157's valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect our market assumptions. The Standard classifies these inputs into the following hierarchy:

Level 1 Inputs – Quoted prices for identical instruments in active markets.

Level 2 Inputs – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Inputs – Instruments with primarily unobservable value drivers.

As of June 30, 2008, the Company did not have any instruments subject to valuation under SFAS 157.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

This report contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. The Company's actual results could differ materially from those set forth on the forward looking statements as a result of the risks set forth in the Company's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward looking statements.

General

We are a gaming organization that is working with prominent marketing services connected to the gaming scene. We specialize in providing marketing awareness of products and services of our customers to millions of on-line gaming players and enthusiasts.

To date, our business development activities have primarily been concentrated in web server access and company branding in hosting web based e-games. This activity is structured whereby our partners and sponsors are provided premium web site exposure identifying their company, name, and product offerings.

We generate revenues through our partnerships and sponsors. Sponsoring EMG GAMING will bring a product and/or brand name into the spotlight of gamers worldwide. Our customer's brand will be synonymous with the youthful intelligent image that pro-gaming has. Our customers have prime advertising space on our website, IRC channel every hour 24/7 and clothes, which we will wear at competitive events all year round. It is primarily through our fee structure for web server access that we generate revenue. Although our web site creates product awareness for our sponsors and partners, our revenue is generated by fees which our partners and sponsors remit to us for that exposure. In the E-Gaming industry, partners and sponsors will pay top dollar for a popular gaming web site as they can maximize their product and name exposure.

We also generate revenue through EMazing Servers, a "Game Server" rental company whereby we rent game servers for players to play a computer game of their choice. We rent game servers for over 32 different games, the most popular being Half Life's Counter Strike and variations of this game. We rent by the hour, day or month. This rental program is unique for our type of service as most companies choose to rent by the month. We feel this gives us a competitive advantage over our competition.

We have three standard packages designed for our prospective partners. Our "Gold" package is aimed to give maximum publicity to our prospective partners, forcing their product into the world of pro-Gaming and showing everybody that their company really cares about the gamers. The "Silver" package is aimed at companies with a lower budget that are looking to get their product noticed. The "Bronze" package is for companies with limited budgets but still want involvement in the eSports industry.

During 2006, we filed and had approved form SB-1 to raise funds. A portion of the proceeds of the offering are being used to further develop E-Gaming software and lease server capacity and access through server lease agreements. These servers are a major source of revenue for us as we charge access fees to these servers.

Our Business Strategy

We are a gaming organization that is working with prominent marketing services connected to the gaming scene. Currently, the entire team consists of contract workers including management, sales, technical development, press and our primary team / players department. We comprise of people who have specific gaming experience, a pre-requisite for employment with our company is experience in the gaming world. Combined, our organization holds

well over 50 years of experience in management alone.

Management is primarily consisted of our President and CEO. As CEO, he is responsible for coordinating and leading the entire organization to achieve optimal results and goals. This includes directing contract consultants and

measuring results. He also manages the budget to satisfy needs for traveling and accommodations to PR events and tournaments. Additionally, our CEO is responsible for strategic thinking and placement within the E-Gaming industry, constantly looking for new opportunities. As such, he is instrumental in building and maintaining sponsor and partner relationships.

EMazing utilizes their website, emazinggaming.com, as the portal to which e-games are accessed on the World Wide Web. Through links on the website we are able to better manage our visitors, game selection, and visitor profiles, effectively providing us the ability to ultimately understand our customers and their playing habits from which we can then develop more challenging and exciting game content.

All games currently provided by EMazing are third party developed. Through the proceeds of this offering, we will use a portion of the proceeds to develop our own game portfolio. Game development is a capital and time intensive process, usually taking 18-24 months to take a game from concept form to fee based web play. It is our intent to be an industry leading game developer as well as content provider through our interactive website.

Industry and Competition:

The eSports industry is highly competitive. eSports is technologically based and through the medium of the internet is readily accessible to most anyone with a computer and a credit card. Barriers to entry are high due to server costs (owned and/or leased), travel expenses, and general living expenses. The more successful and enthusiastic eSport competitors are reliant on sponsors and partners to generate funds to undergird living, travel and equipment maintenance costs. Although highly competitive, it is also highly fragmented. eSports is worldwide in scope and difficult to assess from a competitive standpoint as games are often hot and therefore streaky in play before another company puts out a more desirable game program. Even so, server capacity, speed and graphics generally determine the amount of play a game will generate.

Online gaming has emerged as one of the biggest growing industries in the new millennium. The Far East has played a significant role in paving the way for recognition for online gamers. Multiplayer online games have generated over 1 billion dollars in revenue for the first time, in 2004. A large proportion of this figure has come from player subscription games such as Everquest and Star Wars Galaxies, but a significant amount has also come from the first person shooter game sales. This figure does not include the emergence of sponsored players and teams with many players earning above \$100,000 in sponsorship deals. Typical earnings of a team range between \$20k and \$40k for the larger events.

RESULTS FOR THE QUARTER ENDED June 30, 2008

Our quarter ended on June 30, 2008. Any reference to the end of the fiscal quarter refers to the end of the second calendar quarter for 2008 for the period discussed herein.

REVENUE. Revenue for the three months ended June 30, 2008, was \$12,055 compared to \$8,452 for the period ended June 30, 2007. The increase in revenue is attributed to the impact of sponsorship income which was \$5,500 in 2008 and \$0 in 2007. Revenue for the six months ended June 30, 2008 was \$24,199 compared to \$9,889 for the six months ended June 30, 2007. The increase in revenue is attributed to three main reasons: The increase in sponsorship income as previously mentioned; the sale of the Counter-Strike 1.6 Team in the first quarter of 2008 for \$6,000; and the strategy of 'leasing' time on the game servers in smaller increments versus a monthly subscription

OPERATING EXPENSES. Total operating expenses for the three months ended June 30, 2008, were \$30,398 compared to expenses for the period ended June 30, 2007 of \$33,815. The decrease is mainly attributed to reduced

travel and related game fees of \$7,500 that were partially off-set by an increase in contract services. The above expenses do not include depreciation and amortization expense which was \$6,370 and \$4,506 for the three months ended June 30,

2008 and 2007, respectively. Total operating expenses for the six months ended June 30, 2008 were \$96,018 compared to expenses for the period ended June 30, 2007 of \$43,545. The increase is attributed to an increase in contract services of \$42,000 related to business development (\$30,000) and the President and other contractors in their effort to implement the strategy and move the company forward (\$12,000); and increased server bandwidth (\$4,500) .. These costs were partially off-set by decreased travel and related game fees. The above expenses do not include depreciation and amortization expense which was \$12,740 and \$9,012 for the six months ended June 30, 2008 and 2007, respectively.

NET INCOME (LOSS). Net loss for the three months ended June 30, 2008 was \$25,463 compared to the period ended June 30, 2007 of \$29,446. Net loss for the six months ended June 30, 2008 was \$85,518 compared to the period ended June 30, 2007 of \$41,882. The aforementioned increase/decrease in expenses more than off-set the increase in sales revenue.

LIQUIDITY AND CAPITAL RESOURCES. Emazing Interactive filed on Form SB-1, a registration statement with the U.S. Securities & Exchange Commission in order to raise funds to develop their business. The registration statement became effective on December 21, 2006 and Emazing has raised funds under that registration statement at \$0.50 per share. In September 2007, when we cut off our offering and started trading on the OTCBB under the symbol EMZG, we had raised \$154,750 by selling 309,500 shares of common stock under that registration statement. In the six month period ended June 30, 2008, an additional 24,000 shares (restricted) were sold raising funds of \$12,000..

Employees

At June 30, 2008, the Company had one employee.

ITEM 3. CONTROLS AND PROCEDURES

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in company reports filed or submitted under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer (the "Certifying Officers"), as appropriate to allow timely decisions regarding required disclosure.

As required by Rules 13a-15(e) and 15d-15(e) under the Exchange Act, the Certifying Officers carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2008. Their evaluation was carried out with the participation of other members of the Company's management. Based upon their evaluation, the Certifying Officers concluded that the Company's disclosure controls and procedures were effective.

The Company's internal control over financial reporting is a process designed by, or under the supervision of, the Certifying Officers and effected by the Company's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of the Company's financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the Company's assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Company's financial

statements in accordance with generally accepted accounting principles, and that the Company's receipts and expenditures are being made only in accordance with the authorization of the Company's Board of Directors and management; and provide reasonable assurance regarding prevention or timely detection of unauthorized

acquisition, use or disposition of the Company's assets that could have a material effect on its financial statements. There has been no change in the Company's internal control over financial reporting that occurred in the quarter ended June 30, 2008, that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting.

PART II

Items No. 1, 2, 3, 4, 5 - Not Applicable.

Item No. 6 - Exhibits and Reports on Form 8-K

(a) None
