**GLAMIS GOLD ANNOUNCES FINAL CLOSURE OF MERGER
WITH FRANCISCO GOLD**

Reno, Nevada, July 16, 2002 Glamis Gold Ltd. (NYSE/TSX: GLG) announced that the plan of arrangement (the Arrangement) between Glamis and Francisco has been completed, effective today, following approval of the Arrangement by the Supreme Court of British Columbia on July 12, 2002. As a result of the Arrangement, Francisco Gold Corp. is now a wholly-owned subsidiary of Glamis and its shares have been de-listed from the TSX Venture Exchange. Glamis issued 25,843,808 common shares in connection with the Arrangement and now has 110,562,165 common shares issued and outstanding.

Glamis President and CEO Kevin McArthur said, "Now that the Francisco transaction is behind us, we are focused on delivering the new assets to Glamis' already impressive growth profile. El Sauzal in Mexico is quickly advancing, and accelerated exploration at Marlin in Guatemala has commenced. We plan to spend \$3 million drilling Marlin over the next 12-month period to test the project's multi-million ounce potential. With the addition of these projects to our existing low-cost production base, we expect to achieve our near-term goal of producing 500,000 annual gold ounces at total cash costs less than \$150 per ounce."

Glamis operates gold mines in Nevada, California and Honduras and remains debt free and unhedged. In 2002, Glamis expects to produce approximately 255,000 ounces of gold at a total cash cost of \$172 per ounce.

Safe Harbor Statement under the United States Private Securities Litigation Reform Act of 1995: Except for the statements of historical fact contained herein, the information presented constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements, including but not limited to those with respect to the price of gold, the timing and amount of estimated future production, costs of production, reserve determination, the timing of the development of new deposits, the Company's hedging practices, permitting time lines, and the timing and possible outcome of pending litigation involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the actual results of current exploration activities, actual results of current reclamation activities, conclusions of economic evaluations, changes in project parameters as plans continue to be refined, future prices of gold, as well as those factors discussed in the section entitled "Other Considerations" in the Glamis and Francisco's Annual Information Form, and in the Information Circular filed in connection with this transaction. Although the Company has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.
