ONCOLYTICS BIOTECH ANNOUNCES 2003 FIRST QUARTER RESULTS

CALGARY, AB, May 22, 2003 - Oncolytics Biotech Inc. (Onco^{lytics}) (TSX:ONC, NASDAQ:ONCY) today announced its financial results for the three-month period ending March 31, 2003.

First Quarter Highlights:

Announced positive interim results from the T2 prostate cancer trial;

Successfully completed a program for the development of a commercial process to manufacture REOLYSIN®;

Successfully completed a ninth animal toxicology study using systemic delivery of REOLYSIN®; and,

Secured a sixth U.S. patent covering a method of manufacturing REOLYSIN®.

During the quarter, we made further advancements in the development of REOLYSIN®, said Dr. Brad Thompson, President and CEO of Oncolytics. The Company achieved several important milestones.

Financial Review

The Company incurred a net loss for the first quarter of 2003 of \$1,114,314 compared to a net loss of \$1,273,820 for the first quarter of 2002. Basic and diluted loss per common share decreased from \$0.07 in the first quarter of 2002 to \$0.05 for the first quarter of 2003.

During the first quarter of 2003, the Company incurred R&D expenses of \$479,635 compared to \$871,519 in the first quarter of 2002. R&D expenses decreased in the first quarter primarily due to a reduction in the costs associated with the development of a commercial process for the manufacturing of REOLYSIN®. The Company continued to incur R&D expenses as it studied the efficacy and safety of REOLYSIN® in its clinical trial program and completed its animal toxicology study examining systemic delivery of REOLYSIN®.

During the first quarter of 2003, the Company incurred operating expenses of \$522,025 compared to \$489,478 in the first quarter of 2002. Operating expenses for the first quarter of 2003 increased due to strategic additions to Oncolytics' staff after the first quarter of 2002 and increased professional fees and filing costs associated with public company filing requirements.

Table of Contents

The future income tax recovery of \$161,905 recorded in the first quarter of 2002 related to the reversal of the Company's future tax liability, as its future tax assets relating to non-capital losses, scientific research and development pools and other tax pools exceeded the value of the future tax liability. No similar recovery was recorded in the first quarter of 2003.
