GENERAL INFORMATION:

Unless otherwise indicated, all references herein are to Canadian dollars.

The Company is required under Canadian law (National Instrument 43-101 Standards Of Disclosure For Mineral Projects) ("NI 43-101") to calculate and categorize "mineral reserve", "proven mineral reserve", "probable mineral reserve", "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" under the Canadian Institute of Mining Metallurgy and Petroleum ("CIM") Standards on Mineral Resources and Reserves - Definitions and Guidelines dated December 11, 2005. These standards establish

Edgar Filing: IMA EXPLORATION INC - Form 20-F

definitions and guidelines for the reporting of exploration information, mineral resources and mineral reserves in Canada. These definitions have not been adopted for use in the United States of America by the Securities and Exchange Commission (the "SEC"). Under these guidelines, the CIM definitions of proven and probable mineral reserves equate to the definitions of proven and probable reserves as set out in Guide 7 of the Securities Act Industry Guides adopted by the SEC ("Guide 7"). In addition, Canadian law requires disclosure of mineral resources that equate to measured, indicated and inferred resources.

SELECTED FINANCIAL DATA

The selected financial data and the information in the following table of IMA Exploration Inc. (the "Company") for the years ended December 31, 2006, 2005 and 2004 was derived from the consolidated financial statements of the Company which have been audited by PricewaterhouseCoopers LLP, independent Chartered Accountants, as indicated in their report which is included elsewhere in this annual report. The selected financial data set forth and the information in the following table for the years ended December 31, 2003 and 2002 are derived from the Company's audited consolidated financial statements after reflecting the carve out of Golden Arrow Resources Corporation not included herein.

The information in the following table should be read in conjunction with the information appearing under the heading "Item 5. Operating and Financial Review and Prospects".

Reference is made to Note 10 of the 2006 consolidated financial statements of the Company included herein for a discussion of the material measurement differences between Canadian Generally Accepted Accounting Principles ("Canadian GAAP") and United States Generally Accepted Accounting Principles ("U.S. GAAP"), and their effect on the Company's financial statements.

To date, the Company has not generated sufficient cashflow from operations to fund ongoing operational requirements and cash commitments. The Company has financed its operations principally through the sale of its equity securities. The Company considers that it has adequate resources to meet property commitments on its existing property holdings; however, at present, the Company may not have sufficient funds to conduct exploration programs on all of its existing properties and may need to obtain additional financing or joint venture partners in order to initiate any such programs. See "Item 5. Operating and Financial Review and Prospects".

RISK FACTORS

Due to the nature of the Company's business and the present stage of exploration on its mineral resource properties, the following risk factors apply to the Company's operations (see "Item 4. Information on the Company - History and Development of the Company"):

TITLE TO PROPERTIES RISK: On November 16, 2006 the Company transferred ownership of its mineral properties to Aquiline Resources Inc. ("Aquiline") under the terms of an Interim Project Development Agreement (the "Interim Agreement") while the appeal of the Supreme Court of British Columbia decision of July 14, 2006 is heard and the Appeal Court's decision is rendered. In the event that the Company is unsuccessful on appeal, the Company will be paid \$18,500,000 as consideration for these assets, less legal costs Aquiline would be entitled to in relation to the trial and the appeal. In the event that the legal costs that Aquiline may become entitled to are significant, the recoverability of the costs reflected may be impaired. Such impairment may be material. However, at the current time, the Company is unable to determine with any degree of certainty what the final outcome of the appeal process may be and if the Company will regain its direct ownership of the mineral properties. The Company has no other mineral properties.

LIQUIDITY AND CASH FLOW: As at the date of this annual report, the Company has not generated any revenues from operations to fund ongoing operational requirements and cash commitments. The Company has financed its operations

Edgar Filing: IMA EXPLORATION INC - Form 20-F

principally through the sale of its equity securities. As at February 28, 2007 the Company had working capital of approximately \$8,500,000. Management believes the Company has adequate resources to maintain its ongoing operations and will require additional financing for exploration and development in the event it regains operational control over the Navidad Project. See "Item 5. Operating and Financial Review and Prospects - Liquidity and Capital Resources".

EXPLORATION STAGE COMPANY: An investment in a natural resources company involves a high degree of risk. The degree of risk increases substantially where the company's properties are in the exploration stage.

ADDITIONAL FINANCING: The Company presently has sufficient financial resources to meet its commitments. The Company at present may not, however, have sufficient funds to conduct exploration and development programs on all these properties and may need to obtain additional financing or find joint venture partners in order to initiate any such programs in the event it regains operational control over the Navidad Project.

The Company will continue to rely on successfully completing additional equity financing and/or conducting joint venture arrangements to further exploration on its properties. There can be no assurance that the Company will be successful in obtaining the required financing or negotiating joint venture agreements. The Company's management may elect to acquire new projects, at which time additional equity financing may be required to fund overhead and maintain its interests in current projects, or may decide to relinquish certain of its properties. These decisions will be based on the results of ongoing exploration programs and the response of equity markets to the projects and business plan. The failure to obtain such financing or complete joint venture arrangements could result in the loss or substantial dilution of the Company's interests (as existing or as proposed to be acquired) in its properties as disclosed herein. The Company does not have any definitive commitment or agreement concerning any investment, strategic alliance or related effort, on any of the Company's material properties. The Company may seek joint venture partners to provide funding for further work on any or all of those other properties. Joint ventures may involve significant risks and the Company may lose any investment it makes in a joint venture. Any investments, strategic alliances or related efforts are accompanied by risks such as:

1. the difficulty of identifying appropriate joint venture partners or opportunities;
2. the time the Company's senior management must spend negotiating agreements and monitoring joint venture activities;
3. the possibility that the Company may not be able to reach agreement on definitive agreements, with potential joint venture partners;
4. potential regulatory issues applicable to the mineral exploration business;
5. the investment of the Company's capital or properties and the loss of control over the return of the Company's capital or assets;
6. the inability of management to capitalize on the growth opportunities presented by joint ventures; and
7. the insolvency of any joint venture partner.

- 7 -

There are no assurances that the Company would be successful in overcoming these risks or any other problems encountered with joint ventures, strategic alliances or related efforts.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

EXPLORATION RISKS: Mineral exploration is highly speculative in nature, involves many risks and frequently is nonproductive. There can be no assurance that the Company's efforts to identify resources will be successful. Moreover, substantial expenditures are required to establish resources through drilling, to determine metallurgical processes to extract the metal from the ore and to construct mining and processing facilities. During the time required to establish resources, determine suitable metallurgical processes and construct such mining and processing facilities, the economic feasibility of production may change because of fluctuating prices.

METAL PRICE RISK: The Company's portfolio of properties has exposure to predominantly silver and lead. The prices of these metals, especially silver, greatly affect the value of the Company and the potential value of its properties and investments.

FINANCIAL MARKETS RISK: The Company is dependent on the equity markets as its sole source of operating working capital and the Company's capital resources are largely determined by the strength of the junior resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for the investor support of its projects.

POLITICAL RISK: Exploration is presently carried out in Argentina. This exposes the Company to risks that may not otherwise be experienced if all operations were domestic. Political risks may adversely affect the Company's existing assets and operations. Real and perceived political risk in some countries may also affect the Company's ability to finance exploration programs and attract joint venture partners, and future mine development opportunities.

CURRENCY RISK: Business is transacted by the Company in a number of currencies. Fluctuations in exchange rates may have a significant effect on the cash flows of the Company. Future changes in exchange rates could materially affect the Company's results in either a positive or negative direction.

ENVIRONMENTAL RISK: The Company seeks to operate within environmental protection standards that meet or exceed existing requirements in the countries in which the Company operates. Present or future laws and regulations, however, may affect the Company's operations. Future environmental costs may increase due to changing requirements or costs associated with exploration and the developing, operating and closing of mines. Programs may also be delayed or prohibited in some areas. Although minimal at this time, site restoration costs are a component of exploration expenses.

PROJECT DELAY RISK: The Company's minerals business is subject to the risk of unanticipated delays in permitting its projects. Such delays may be caused by fluctuations in commodity prices, mining risks, difficulty in arranging needed financing, unanticipated permitting requirements or legal obstruction in the permitting process by project opponents. In addition to adding to project capital costs (and possibly operating costs), such delays, if protracted, could result in a write-off of all or a portion of the carrying value of the delayed project.

PRICE FLUCTUATIONS AND SHARE PRICE VOLATILITY: In recent years the securities markets in Canada have experienced a high level of price and volume volatility and the market price of securities of many companies, particularly junior mineral exploration companies, like the Company, have experienced wide fluctuations which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. In particular, the per share price of the Company's common shares on the TSX Venture Exchange (the "TSX-V") fluctuated from a high of \$3.96 to a low of \$0.49 during the 12-month period ending December 31, 2006. There can be no assurance that continual fluctuations in price will not occur.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

OPERATING HAZARDS AND RISKS: Mining operations involve many risks, which even a combination of experience, knowledge and careful evaluation may not be able to overcome. Operations in which the Company has a direct or indirect interest will be subject to all the hazards and risks normally incidental to exploration for metals, any of which could result in damage to or destruction of mines and other producing facilities, damage to life and property, environmental damage and possible legal liability for any or all damage. Although the Company maintains liability insurance in an amount which it considers adequate, the nature of these risks is such that liabilities could exceed

- 8 -

policy limits, in which event the Company could incur significant costs that could have a materially adverse effect upon its financial condition.

INSURABLE RISKS AND LIMITATIONS OF INSURANCE: The Company maintains certain insurance, however, such insurance is subject to numerous exclusions and limitations. The Company maintains a Total Office Policy in Canadian dollars on its principal offices. Generally, the Total Office Policy provides All Risk Replacement Cost Coverage on office contents, up to \$300,000, with a \$500 deductible. In addition, the policy provides Commercial General Liability coverage of up to \$5,000,000 for Third Party Bodily Injury or Property Damage, per occurrence and \$2,000,000 for Tenants Legal Liability for any one leased premises, with a \$500 deductible. The Company also has insurance coverage of up to \$5,000,000 for non-owned automobile liability.

The Company maintains a Foreign Commercial General Liability policy in U.S. dollars which provides US\$5,000,000 coverage for bodily injury or property damage per occurrence and coverage up to US\$5,000,000 per offence for personal injury or advertising injury (libel, slander, etc.). The policy has a general aggregate limit for all claims during each consecutive policy period, except for those resulting from product hazards or completed operations hazards, of US\$5,000,000. The policy has a US\$5,000,000 aggregate limit for each consecutive policy period, for bodily injury or property damage liability arising out of completed operations and products. In addition, the Foreign Commercial General Liability policy provides for coverage of up to US\$10,000 in medical expenses, per person, with a US\$10,000 limit per accident, and up to US\$100,000 for each occurrence of tenants' fire legal liability. The policy does not apply to injury or damages occurring within Canada, the United States (including its territories and possessions), Puerto Rico, any countries or territories against which the United States has an embargo, sanction or ban in effect, territorial waters of any of the foregoing, the Gulf of Mexico, or international waters or airspace when an injury or damage occurs in the course of travel or transportation to any country or place included in the foregoing. The policy also does not cover asbestos related claims or liability for bodily injury or property damages arising out of the discharge, dispersal, release or escape of smoke, vapors, soot, fumes, acids, alkalis, toxic chemicals, liquids or gases, waste materials or other irritants, contaminants or pollutants into or upon land, the atmosphere, or any water-course or body of water. The policy also contains a professional liability exclusion which applies to bodily injury or property damage arising out of defects in maps, plans, designs or specifications prepared, acquired or used by the Company or arising out of any act of negligence, error, mistake or omission in rendering or failing to render professional consulting or engineering services, whether performed by the Company or other for whom the Company is responsible.

The Company maintains a Foreign Commercial Automobile Liability Insurance policy on owned, leased, hired and non-owned automobiles with the following liability

Edgar Filing: IMA EXPLORATION INC - Form 20-F

limitations:

- o \$5,000,000 bodily injury liability for each person.
- o \$5,000,000 bodily injury liability for each occurrence.
- o \$5,000,000 property damage liability for each occurrence.
- o \$10,000 medical expense coverage, per person.
- o \$10,000 medical expense coverage, per accident.

The foregoing descriptions of the Company's insurance policies do not purport to be complete and does not cover all of the exclusions to such policies.

The Company has an Executive and Organization Liability insurance policy for the benefit of directors and officers. The aggregate limit of liability is \$5 million. The policy is renewable on a yearly basis.

MANAGEMENT: The Company is dependent on the services of Joseph Grosso, the President and a director of the Company. The loss of Mr. Grosso could have an adverse affect on the Company. Joseph Grosso provides his services to the Company through Oxbow International Marketing Corp. ("Oxbow"). The Company has entered into a consulting agreement with Oxbow.

All of the Company's other officers are employed by Grosso Group Management Ltd. ("Grosso Group"). See "Item 6. Directors, Senior Management and Employees - Directors and Senior Management - Conflicts of Interest". The Company does not maintain "key-man" insurance in respect of any of its principals.

- 9 -

DEPENDENCE UPON OTHERS: The success of the Company's operations will depend upon numerous factors, many of which are beyond the Company's control, including: (i) the ability of the Company to regain its direct ownership of the Navidad Project through the appeal process; (ii) the ability to enter into strategic alliances through a combination of one or more joint ventures, mergers or acquisition transactions; (iii) the ability to discover and produce minerals; (iv) the ability to attract and retain additional key personnel in investor relations, marketing, technical support, and finance; and (v) the ability and the operating resources to develop and maintain the properties held by the Company. These and other factors will require the use of outside suppliers as well as the talents and efforts of the Company. There can be no assurance of success with any or all of these factors on which the Company's operations will depend.

CONFLICTS OF INTEREST: Several of the Company's directors are also directors, officers or shareholders of other companies. Such associations may give rise to conflicts of interest from time to time. Such a conflict poses the risk that the Company may enter into a transaction on terms which could place the Company in a worse position than if no conflict existed. The directors of the Company are required by law to act honestly and in good faith with a view to the best interest of the Company and to disclose any interest which they many have in any project or opportunity of the Company. However, each director has a similar obligation to other companies for which such director serves as an officer or director. The Company has no specific internal policy governing conflicts of interest. See "Item 6. Directors, Senior Management and Employees - Directors and Senior Management - Conflicts of Interest".

FOREIGN COUNTRIES AND REGULATORY REQUIREMENTS: The projects in which the Company has an interest are located in Argentina. Mineral exploration and mining activities in Argentina may be affected in varying degrees by political instability and government regulations relating to the mining industry. Any

Edgar Filing: IMA EXPLORATION INC - Form 20-F

changes in regulations or shifts in political conditions are beyond the control of the Company and may adversely affect its business. The Company does not maintain and does not intend to purchase political risk insurance. Operations may be affected in varying degrees by government regulations with respect to restrictions on production, price controls, export controls, income taxes, expropriations of property, environmental legislation and mine safety. The status of Argentina as a developing country may make it more difficult for the Company to obtain any required exploration financing for its projects. The effect of all of these factors cannot be accurately predicted.

Argentina has recently experienced some economic and political instability. Management believes the new democratic elected government is making progress in the domestic economy and it is improving the image of the country internationally. Additionally, management believes the economic crisis of December 2001 has been overcome, and although the country had defaulted on its loans, it has repaid its debt to the International Monetary Fund in December 2005. The Company maintains the majority of its funds in Canada and only forwards sufficient funds to meet current obligations and overhead in Argentina. The Company does not believe that any current currency restrictions which may be imposed in Argentina will have any immediate impact on the Company's exploration activities.

IMPACT OF GOVERNMENT REGULATIONS ON THE COMPANY'S BUSINESS: The projects in which the Company has an interest are located in Argentina.

ARGENTINA

MINING INDUSTRY

Mineral companies are subject to various federal and provincial laws and regulations including specific mining and environmental rules. The Company believes it is in material compliance with all applicable legislation.

THE RIGHT TO EXPLORE A PROPERTY (A "CATEO") AND THE RIGHT TO EXPLOIT (A "MINA") ARE GRANTED BY ADMINISTRATIVE OR JUDICIAL AUTHORITIES VIA CONCESSIONS. FOREIGN INDIVIDUALS AND CORPORATIONS MAY APPLY FOR AND HOLD CATEOS AND MINAS, AT THE SAME LEVEL AS LOCAL INVESTORS WITHOUT DIFFERENCES OF ANY NATURE. CATEOS AND MINAS ARE FREELY TRANSFERABLE UPON REGISTRATION WITH THE PROVINCIAL MINING REGISTRY WHERE TITLE TO THE CATEO OR MINA WAS FIRST REGISTERED. UPON THE GRANT OF A LEGAL CONCESSION OF A CATEO OR A MINE, PARTIES HAVE THE RIGHT TO EXPLORE THE LAND OR TO OWN THE MINE AND THE RESOURCES EXTRACTED THEREFROM.

- 10 -

REGULATORY ENVIRONMENT

Management believes the present government is committed to opening up the economy and there has been progress in reducing import duties and export taxes. For decades local industry has been protected and the transition to greater international competitiveness will take some time.

Importers and exporters must be registered with Argentinean Customs office. Except for a limited list of items requiring the previous approval of the authorities there are no import restrictions. Import of pharmaceuticals, drugs, foodstuffs, defense material and some other items require the approval of the applicable government authority. Import duties are being progressively reduced in accordance with the free enterprise and free-trade policy being implemented by the government in order to achieve greater international competitiveness. To illustrate, duties currently range between zero and 20 percent. Restrictions on

Edgar Filing: IMA EXPLORATION INC - Form 20-F

exports are not generally imposed, although there are export taxes currently in place including mineral products.

POLITICAL ENVIRONMENT AND ECONOMY

In recent years Argentina has experienced a number of changes to its government. The current president, Nestor Kirchner, came to power in May 2003. The economic performance of the country has been troubled and uncertain since the late 1990's. Management believes there are positive indications that the economic situation continues to improve.

ENVIRONMENTAL REGULATIONS: The Company's operations are subject to environmental regulations promulgated by government agencies from time to time. Environmental legislation provides for restrictions and prohibitions on spills, releases or emissions of various substances produced in association with certain mining industry operations, such as seepage from tailings disposal areas, which would result in environmental pollution. A breach of such legislation may result in the imposition of fines and penalties. At present, the Company does not believe that compliance with environmental legislation and regulations will have a material affect on the Company's operations; however, any changes in environmental legislation or regulations, or in the Company's business, may cause compliance with such legislation and/or regulation to have a material impact on the Company's operations. In addition, certain types of operations require the submission and approval of environmental impact assessments. Environmental legislation is evolving in a manner which means stricter standards, and enforcement, fines and penalties for non-compliance are more stringent. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies and directors, officers and employees. The cost of compliance with changes in governmental regulations has a potential to reduce the profitability of operations. The Company intends to ensure that it complies fully with all environmental regulations relating to its operations in Argentina.

The provincial government of Chubut Province, Argentina, has enacted certain anti-mining laws banning the use of cyanide in metallic mineral extraction in the Province of Chubut and open-pit mining is subject to, a yet to be defined, zoning process. The provincial legislation is more restrictive than current federal Argentinean mining laws. Certain authorities believe that the provincial legislation may be unconstitutional. However, there can be no assurance that the provincial legislation will be repealed.

CURRENCY FLUCTUATIONS: The Company's operations in Argentina and Canada make it subject to foreign currency fluctuations and such fluctuation may adversely affect the Company's financial position and results. Certain of the Company's expenses are denominated in U.S. dollars. As such, the Company's principal foreign exchange exposure is related to the conversion of the Canadian dollar into U.S. dollars. The Canadian dollar varies under market conditions. Continued fluctuation of the Canadian dollar against the U.S. dollar will continue to affect the Company's operations and financial position. The Company's foreign subsidiaries comprise a direct and integral extension of the Company's operations. These subsidiaries are also entirely reliant upon the Company to provide financing in order for them to continue their activities. Consequently, the functional currency of these subsidiaries is considered by management to be the Canadian dollar and accordingly exchange gains and losses are included in net income. Management does not believe the Company is subject to material exchange rate exposure from any fluctuation of the Argentine currency. The Company does not engage in hedging activities. See "Item 5. Operating and Financial Review and Prospects".

NO DIVIDENDS: The Company has not paid out any cash dividends to date and has no plans to do so in the immediate future.

- 11 -

PENNY STOCK REGULATION: The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in "penny stocks". Generally, penny stocks are equity securities with a price of less than US\$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system). Since the Company's shares are traded for less than US\$5.00 per share, the shares are subject to the SEC's penny stock rules. The Company's shares will be subject to the penny stock rules until such time as (1) the issuer's net tangible assets exceed US\$5,000,000 during the issuer's first three years of continuous operations or US\$2,000,000 after the issuer's first three years of continuous operations; or (2) the issuer has had average revenue of at least US\$6,000,000 for three years. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document prescribed by the SEC that provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer must obtain a written acknowledgement from the purchaser that the purchaser has received the disclosure document. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity in the secondary market for a stock that becomes subject to the penny stock rules. Such rules and regulations may make it difficult for holders to sell the common stock of the Company, and they may be forced to hold it indefinitely.

ENFORCEMENT OF LEGAL PROCESS: It may be difficult to bring and enforce suits against the Company. The Company is incorporated in British Columbia, Canada. Only one of the Company's directors is a resident of the United States and all, or a substantial portion, of the other directors' assets are located outside of the United States. As a result, it may be difficult for U.S. holders of the Company's common shares to effect service of process on these persons within the United States or to enforce judgments obtained in the U.S. based on the civil liability provisions of the U.S. federal securities laws against the Company or their officers and directors. In addition, a shareholder should not assume that the courts of Canada (i) would enforce judgments of U.S. courts obtained in actions against the Company or their officers or directors predicated upon the civil liability provisions of the U.S. federal securities laws or other laws of the United States, or (ii) would enforce, in original actions, liabilities against the Company or their officers or directors predicated upon the U.S. federal securities laws or other laws of the United States.

However, U.S. laws would generally be enforced by a Canadian court provided that those laws are not contrary to Canadian public policy, are not foreign penal laws or laws that deal with taxation or the taking of property by a foreign government and provided that they are in compliance with applicable Canadian legislation regarding the limitation of actions. Also, a judgment obtained in a U.S. court would generally be recognized by a Canadian court except, for example:

1. where the U.S. court where the judgment was rendered had no jurisdiction according to applicable Canadian law;

Edgar Filing: IMA EXPLORATION INC - Form 20-F

2. the judgment was subject to ordinary remedy (appeal, judicial review and any other judicial proceeding which renders the judgment not final, conclusive or enforceable under the laws of the applicable state) or not final, conclusive or enforceable under the laws of the applicable state;
3. the judgment was obtained by fraud or in any manner contrary to natural justice or rendered in contravention of fundamental principles of procedure;
4. a dispute between the same parties, based on the same subject matter has given rise to a judgment rendered in a Canadian court or has been decided in a third country and the judgment meets the necessary conditions for recognition in a Canadian court;
5. the outcome of the judgment of the U.S. court was inconsistent with Canadian public policy;
6. the judgment enforces obligations arising from foreign penal laws or laws that deal with taxation or the taking of property by a foreign government; or
7. there has not been compliance with applicable Canadian law dealing with the limitation of actions.

ITEM 4. INFORMATION ON THE COMPANY.

HISTORY AND DEVELOPMENT OF THE COMPANY

Since 1996, the Company has been engaged, through its subsidiaries, in the acquisition and exploration of mineral properties, with a primary focus in Argentina and Peru. The Company was incorporated in British Columbia under the COMPANY ACT (British Columbia, Canada) (the "Company Act") on September 17, 1979, as Gold Star Resources Ltd. On May 1, 1990, the Company filed an Altered Memorandum to reflect its name change to EEC Marketing Corp. On January 13, 1992, the Company filed an Altered Memorandum to reflect its name change to Amera Industries Corp. From its date of inception to January 31, 1992, the Company was inactive. Between January 31, 1992 and August 31, 1994, the Company was involved in the eyewear and optical products industry. Subsequently, the Company again became inactive and began seeking a new business opportunity. The Company filed another Altered Memorandum on February 9, 1995, to reflect its name change to International Amera Industries Corp. On February 20, 1996, the Company filed an Altered Memorandum, changing its name to IMA Resource Corporation, and became engaged in the acquisition and exploration of mineral properties.

In September of 1995 the Company formed IMPSA Resources Corporation ("IMPSA") in order to pursue opportunities in Peru. At that time, exploration efforts by other companies in Peru were beginning in earnest. Management believed Peru was a favorable country for mineral exploration due to the country's geology and strong mining culture. In addition, management believed that Peru was under-explored.

Management believed the amount of capital necessary to fully exploit opportunities in Peru was greater than what the Company sought to invest. Since the Company had an ongoing exploration program in Argentina, the Company initially limited the funding of its Peruvian projects to \$250,000. The Company established IMPSA and used the Company's \$250,000 capital contribution to establish an infrastructure and initiate property reviews. A number of consultants were retained and detailed property assessments were initiated. The Company determined that in order to further develop IMPSA, additional funding

Edgar Filing: IMA EXPLORATION INC - Form 20-F

would be required.

The Company initially received 500,000 common shares, or 30.76%, of the then issued and outstanding common shares of IMPSA, for its \$250,000 capital contribution. As a result of issuing 375,000 shares to IMPSA's management and key employees, and the completion of two private placements (resulting in the issuance of a total of 1,528,000 common shares of IMPSA), the Company's initial investment in IMPSA was diluted to 20.76%. However, in order to assure the Company an ongoing interest in the assets of IMPSA, the Company retained a 20% participating interest in IMPSA (BVI) and retained the right to maintain a 20% ownership interest in IMPSA. During fiscal 1998, the Company increased its investment in IMPSA by purchasing 990,963 shares, which increased the Company's percentage ownership of IMPSA from 20.76% to 43.81%. In January 1999, the Company acquired an additional 6,500,000 common shares of IMPSA, increasing its equity interest from 43.81% to 80.69%. During 2001, the Company completed the reorganization of its corporate structure to continue the funding of the Company's Peruvian exploration activities. On August 20, 2001, the Company entered into an agreement with IMPSA, its 80.69% owned subsidiary, to acquire IMPSA's 80% interest in IMPSA (BVI) and IMPSA's advances to IMPSA (BVI) of approximately US\$1.536 million, in exchange for \$850,000 plus a 2% fee on any net revenue or proceeds from the disposition of certain properties held by IMPSA (BVI). See "Item 4. Information on the Company - Organizational Structure." The fee is limited to a maximum of \$1,400,000. This transaction was approved by IMPSA's shareholders on September 4, 2001. IMPSA used the cash proceeds to retire its debt to the Company. Rio Tabaconas (formerly known as Tamborapa), IMPSA's principal property, is for the most part an early stage exploration property and involves a high degree of risk.

On April 3, 1996, the Company acquired IMA Holdings Corp. ("IHC"), a British Columbia company. The acquisition of IHC by the Company resulted in the former shareholders of IHC acquiring control of the Company. At the time of the acquisition, the Company had two common directors with IHC. Generally accepted accounting principles required the transaction to be treated for accounting purposes as a reverse-takeover. In accounting for this transaction:

- (i) IHC was deemed to be the purchaser and parent company for accounting purposes. Accordingly, its net assets are included in the Company's consolidated balance sheet at their historical book value; and

- 13 -

- (ii) control of the net assets and business of the Company was acquired effective April 3, 1996. The transaction was accounted for as a purchase of the assets and liabilities of the Company by IHC at their fair values.

IHC's primary asset was a 50% joint venture interest in Minas Argentinas (Barbados) Inc. ("Minas Barbados"). Oro Belle Resources Corporation ("Oro Belle"), a third party, held the remaining 50% interest in Minas Barbados. The sole asset of Minas Barbados is its 100% interest in Minas Argentinas S.A. ("MASA"). MASA is an Argentine company whose main activity is exploration of mineral properties in Argentina. During 1998, the Company held discussions with Oro Belle and its majority shareholder, Viceroy Resource Corporation ("Viceroy"), to restructure the arrangement and facilitate the funding of future financial requirements of MASA.

In May 1998, the Company entered into an arrangement (the "Plan of Arrangement")

Edgar Filing: IMA EXPLORATION INC - Form 20-F

with Viceroy whereby the Company agreed to exchange its 50% interest in Minas Barbados for 2,200,000 common shares of Viceroy (the "Viceroy Shares"), at a price of \$2.25 per Viceroy Share (being the market value of the Viceroy Shares on the date of the transaction), a 1% net smelter returns royalty interest (the "MASA NSR") in the mineral property interests held by MASA, and the extinguishment of all debts owing by the Company to MASA. No value was ascribed to the MASA NSR for the purpose of calculating the total consideration received at the date of exchange.

The Company also restructured its share capital to facilitate the distribution of 1,540,000 Viceroy Common Shares to the Company's shareholders. The transaction was accomplished as follows:

- i) each issued and outstanding common share of the Company was exchanged for one Class A common share and one Class B preferred share (the "Preferred Shares") of the Company;
- ii) the holders of the Preferred Shares received 1,540,000 Viceroy Common Shares, directly from Viceroy, in exchange for all of the Preferred Shares;
- iii) the Company relinquished its ownership interest in Minas Barbados to Viceroy in exchange for the Preferred Shares, the MASA NSR, the extinguishment of all debts to MASA and 660,000 Viceroy Shares. The Preferred Shares were then canceled by the Company; and
- iv) all options and warrants to purchase common shares of the Company became exercisable to purchase Class A common shares on the same basis as the common shares.

The transaction became effective July 7, 1998, upon filing an Altered Memorandum, and the Company changed its name to IMA Exploration Inc. As a result of the transaction, the Company consolidated its share capital on the basis of four old shares for one new share.

On June 30, 1999, the shareholders of the Company passed a Special Resolution approving a redesignation of the Class A Common Shares to common shares.

In August 1999, the Company completed a private placement with Barrick Gold Corporation ("Barrick"). Barrick was granted an option to earn an interest in either the Potrerillos or Rio de Taguas property. The funds were spent on the drilling program on the Potrerillos property. Proceeds were spent on further exploration of the Company's properties in the Valle de Cura region of San Juan Province, Argentina from October 2000 to March 2001. As a result of the private placement Barrick became the Company's largest shareholder. During September 2003 Barrick reduced its shareholding to 1,000,000 shares.

The Company agreed to spend a minimum of \$1,125,000 on its Valle de Cura properties out of the proceeds from the Barrick private placement. As of December 31, 2003 this requirement had been met. On December 15, 2003, Barrick served notice that it would not be exercising the option and the Company has begun pursuing other partners for the continued exploration of these drill ready projects.

In 2002, the Company began to acquire properties in Chubut Province, Argentina. In 2003, the Company significantly increased its focus on activities in the Chubut region. The Company has entered into a number of joint venture agreements which resulted in the farm-out of several of its non-core properties.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

In early 2003, the Company focused its efforts on its Navidad property in Chubut Province located in southern Argentina. The preliminary results of its initial exploration efforts were very encouraging. The first phase of a drill program commenced in late 2003. The Company continued its exploration and development program until mid 2006.

On March 29, 2004, the new British Columbia BUSINESS CORPORATIONS ACT (the "BCBCA") came into force in British Columbia and replaced the former Company Act, which is the statute that previously governed the Company. See "Item 10. Additional Information - Memorandum and Articles of Association."

On May 3, 2004, the Company announced its intention to proceed with a reorganization of the Company which had the result of dividing its present mineral resource assets between two separate public companies. Under the reorganization, the Company's most advanced project, the Navidad silver-lead-copper project and certain other Navidad area properties in central Chubut Province, Argentina (the "Navidad Properties") continued to be owned by the Company, while the Company's non-Navidad mineral properties along with \$750,000 of operating cash and the joint venture agreements (including the marketable securities) relating to the transferred properties (collectively the "Transferred Assets") were transferred to Golden Arrow, a new public company formed to effect the reorganization. The Company retained the Navidad project and focused on:

1. a significantly expanded drill program on the numerous targets within Navidad;
2. more detailed regional exploration for Navidad style targets;
3. pursuing a listing on major U.S. and Canadian stock exchanges;
4. completing a bankable feasibility study on the Navidad project in a timely fashion; and
5. exploring the Navidad related properties directly or through joint ventures.

However, there are no assurances that the Company will be able to successfully complete any of the foregoing.

The reorganization was implemented by a Plan of Arrangement under the BCBCA. The Company's shareholders and optionholders approved the Plan of Arrangement at the Company's Annual General Meeting that was held on June 22, 2004. All other approvals were subsequently received.

The common shares of Golden Arrow were distributed to shareholders of the Company in proportion to their shareholdings in the Company on July 7, 2004 and on the basis of one Golden Arrow share for every 10 shares of the Company held. The reorganization was intended to enhance shareholder value by enabling each company to focus on the development of its own properties, and by allowing shareholders to hold an interest in Golden Arrow which reflects the value of the Company's portfolio of exploration projects.

In March 2004, Aquiline commenced an action against the Company seeking a constructive trust over the Navidad properties and damages. The trial was held in Vancouver, British Columbia commencing in October 2005, and continuing until mid-December 2005.

On July 14, 2006 the Supreme Court of British Columbia released its judgment in Aquiline's lawsuit against the Company. The Company was not successful in its defense and the court found in Aquiline's favour.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

The Order reads in part:

- "(a) that Inversiones Mineras Argentinas SA ("IMA SA") transfer the Navidad Claims and any assets related thereto to Minera Aquiline or its nominee within 60 days of this order;
- (b) that IMA take any and all steps required to cause IMA SA to comply with the terms of this order;
- (c) that the transfer of the Navidad Claims and any assets related thereto is subject to the payment to IMA SA of all reasonable amounts expended by IMA SA for the acquisition and development of the Navidad Claims to date; and
- (d) any accounting necessary to determine the reasonableness of the expenditures referred to in (c) above shall be by reference to the Registrar of this court."

The Company has filed an appeal of this judgment which is scheduled to be heard by the British Columbia Court of Appeal on April 10, 2007. While the Company is confident of a favourable result from its appeal it recognizes that

- 15 -

this could take a substantial period of time and the costs will be significant, with no guarantee of a successful outcome for the Company.

On October 18, 2006, the Company and Aquiline reached a definitive agreement for the orderly conduct of the Navidad Project pending the determination of the appeal. The transactions outlined in the Interim Agreement will constitute due compliance by both parties with the Order. Control of the Navidad Project was transferred to Aquiline in trust for the ultimately successful party in the appeal, on November 16, 2006.

As a condition of the reorganization Golden Arrow became a party to the Aquiline action. The Company has provided an indemnity to Golden Arrow for any costs or losses that might be incurred by Golden Arrow in connection with this matter.

ACQUISITION AND DISPOSITION OF MINERAL PROPERTY INTERESTS DURING THE THREE PRIOR FISCAL YEARS

The Company has made additions to mineral properties and deferred costs of \$2,731,414 and capital assets of \$Nil, \$8,480,509 and \$Nil, \$5,082,572 and \$93,650 for the fiscal years ended December 31, 2006, 2006 and 2004, respectively. As at December 31, 2006, the Company's mineral properties and deferred costs had been reclassified as a component of the Navidad interest balance of \$17,949,521, comprised of mineral properties and deferred costs of \$17,763,521 and marketable securities of \$186,000 which are subject to transfer to Aquiline under the terms of the Interim Agreement.

The Company has not made any write down to the value of its Navidad interest or mineral properties and deferred costs. The Company and Aquiline have agreed to the costs spent developing the Navidad Project in the amount of \$18,500,000. Aquiline has paid \$7,500,000 of the costs into trust and the balance will be expended by Aquiline in developing the Navidad Project during the period of the appeal and secured under the terms of the trust conditions of the Interim Agreement. In the event that the Company is unsuccessful on appeal, the Company will be paid the \$18,500,000, less legal costs Aquiline would be entitled to in relation to the trial and the appeal.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

PLANNED EXPLORATION EXPENDITURES AND PROPERTY PAYMENTS

The Company considers that it has adequate resources to maintain its ongoing operations but currently may not have sufficient working capital to fund exploration and development work in the event it regains operational control over the Navidad Project. The Company will continue to rely on successfully completing additional equity financing and/or conducting joint venture arrangements to conduct further exploration on its properties. There can be no assurance that the Company will be successful in obtaining the required financing or negotiating joint venture agreements. The failure to obtain such financing or joint venture agreements could result in the loss of, or substantial dilution of the Company's interest in its properties. See "Item 4. Information on the Company - Properties, Plants and Equipment - Principal Properties - Argentinean Properties and "Item 7. Major Shareholders and Related Party Transactions - Related Party Transactions."

LEGAL PROCEEDINGS

On March 5, 2004, Aquiline Resources Inc. ("Aquiline"), through its subsidiary, Minera Aquiline Argentina SA, filed a claim in the Supreme Court of British Columbia against the Company seeking a constructive trust over the Navidad properties and damages. The trial was held in Vancouver British Columbia commencing in October 2005 and ended on December 12, 2005.

On July 14, 2006 the court released its judgment on the claim. The Company was not successful in its defense and the court found in Aquiline's favour.

The Order reads in part:

- "(a) that Inversiones Mineras Argentinas SA ("IMA SA") transfer the Navidad Claims and any assets related thereto to Minera Aquiline or its nominee within 60 days of this order;
- (b) that IMA take any and all steps required to cause IMA SA to comply with the terms of this order;

- 18 -

- (c) that the transfer of the Navidad Claims and any assets related thereto is subject to the payment to IMA SA of all reasonable

Edgar Filing: IMA EXPLORATION INC - Form 20-F

amounts expended by IMA SA for the acquisition and development of the Navidad Claims to date; and

- (d) any accounting necessary to determine the reasonableness of the expenditures referred to in (c) above shall be by reference to the Registrar of this court."

On October 18, 2006, the Company and Aquiline reached a definitive agreement for the orderly conduct of the Navidad Project pending the determination of the appeal by the Company against the judgment of the trial court. The parties have agreed that the transactions outlined in the agreement are in satisfaction of the Order referenced above. The principal terms and conditions of the agreement are as follows:

- (i) control of the Navidad Project will be transferred to Aquiline in trust for the ultimately successful party in the appeal;
- (ii) the Company and Aquiline have agreed to the costs spent to date developing the Navidad Project in the amount of \$18,500,000. Upon transfer of control of the Navidad Project, Aquiline will pay \$7,500,000 of the costs into trust and the balance will be expended by Aquiline in developing the Navidad Project during the period of the appeal and secured under the terms of the trust conditions;
- (iii) in the event that the Company is unsuccessful on appeal, the Company will be paid such \$18,500,000 amount, less legal costs Aquiline would be entitled to in relation to the trial and the appeal.
- (iv) in the event that the Company's appeal is successful, it will pay Aquiline's qualifying costs expended on developing the Navidad Project during the period of the appeal, less legal costs the Company would be entitled to in relation to the trial and the appeal, and control of the Navidad Project will then revert to the Company; and
- (v) pending the finalization of the appeal process, neither party will attempt a hostile takeover of the other.

The effective date of the transfer of the Navidad project was November 16, 2006. A copy of the agreement has been posted on the SEDAR website as one of the Company's public documents and is titled "Interim Project Development Agreement".

The Company has filed an appeal of this judgment. The appeal is scheduled to be heard by the British Columbia Court of Appeal on April 10, 2007. While the Company is confident of a favourable result from its appeal it recognizes that this will take a substantial period of time and the costs will be significant, with no guarantee of a successful outcome for the Company. The Company has not provided for any future legal costs and will expense the legal costs of the appeal as they occur

USE OF ESTIMATES

The preparation of financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Significant areas requiring the use of management estimates relate to the determination of environmental obligations and impairment of mineral properties and deferred costs. Actual results may differ from these estimates.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

MINERAL PROPERTIES AND DEFERRED COSTS

Consistent with the Company's accounting policy disclosed in Note 3 of the consolidated financial statements attached hereto, direct costs related to the acquisition and exploration of mineral properties held or controlled by it have been capitalized on an individual property basis. It is the Company's policy to expense any exploration associated costs not related to specific projects or properties. Management periodically reviews the recoverability of the capitalized mineral properties. Management takes into consideration various information including, but not limited to, results of exploration activities conducted to date, estimated future metal prices, and reports and opinions of outside geologists, mine engineers and consultants. When it is determined that a project or property will be abandoned then the costs are written-off, or if its carrying value has been impaired, then the costs are written down

- 19 -

to fair value. In respect to the Navidad project and the related Aquiline litigation, at the current time the Company is unable to determine with any degree of certainty what the final outcome of the appeal process may be. Accordingly, the Company has not made any adjustments to the carrying value of the Navidad project at December 31, 2006.

The carrying value of the components of the Navidad project will be reviewed in subsequent periods and adjusted if circumstances suggest that the full amount may not be recoverable and an appropriate amount expensed for impairment when such amounts can be reasonably determined. Additionally, in 2005 no impairment of long-lived assets was identified.

The Company's operations and results are subject to a number of different risks at any given time. These factors, include but are not limited to disclosure regarding exploration, additional financing, project delay, titles to properties, price fluctuations and share price volatility, operating hazards, insurable risks and limitations of insurance, management, foreign country and regulatory requirements, currency fluctuations and environmental regulations risks. See "Item 3. Key Information - Risk Factors."

The Company's consolidated financial statements were prepared on a going concern basis which assumes that it will be able to realize assets and discharge liabilities in the normal course of business.

The Company's consolidated financial statements are in Canadian dollars (CDN\$) and are prepared in accordance with Canadian GAAP, the application of which, in the case of the Company, conforms in all material respects for the periods presented with U.S. GAAP except for the measurement differences referred to in Note 10 of the consolidated financial statements of the Company included herein. The effects of inflation and price changes have not had a material impact on the Company's income or net sales revenues during the past three years.

The Company and its subsidiaries' functional currency is the Canadian dollar. The majority of the Company's cash deposits and accounts are in Canadian funds. The Canadian dollar varies under market conditions, the continued fluctuation of the Canadian dollar against the U.S. dollar will continue to affect the Company's operations and financial position. See "Item 3. Key Information - Risk Factors - Currency Fluctuations".

OVERVIEW

Edgar Filing: IMA EXPLORATION INC - Form 20-F

The Company is a natural resource company engaged in the business of acquisition, exploration and development of mineral properties in Argentina. At this stage the Company has no producing properties and, consequently, has no current operating income or cash flow.

The Company's accounting policy under Canadian GAAP is to defer all direct costs related to the acquisition, exploration and development of mineral properties held or controlled by the Company on an individual property basis until viability of a property is determined. Under US GAAP, the costs would be expensed. General exploration costs are expensed as incurred. When a property is placed in commercial production, such deferred costs are depleted using the units-of-production method. Management of the Company periodically reviews the recoverability of the capitalized mineral properties. Management takes into consideration various information including, but not limited to, results of exploration activities conducted to date, estimated future metal prices, and reports and opinions of outside geologists, mine engineers and consultants. When it is determined that a project or property will be abandoned then the costs are written-off, or if its carrying value has been impaired, then the costs are written down to fair value. At December 31, 2006, the Company had capitalized \$17,763,521 (2005 - \$15,032,107, 2004 - \$6,551,598) on its Argentine properties (In 2006 the mineral properties and deferred costs balance was classified as a component of the Navidad interest balance).

During the year ended December 31, 2004, the Company completed a brokered private placement of 1,500,000 units at \$3.10 per unit, for proceeds of \$4,307,500 net of costs of \$411,237. Each unit consisted of one common share and one half common share purchase warrant. Each full warrant entitled the holder to purchase one additional common share for one year at \$3.70 per share. Underwriters were paid a commission of 6% cash and 200,000 compensation options. The compensation options were exercisable at a price of \$3.25 per compensation option, for a period of twelve months, into one share and one half warrant with the warrants having the same terms as described above. The underwriters' compensation options were exercisable for a period of twelve months. This financing closed February 23, 2004.

- 20 -

During the year ended December 31, 2005, the Company completed a brokered private placement of 3,333,340 units at \$3.00 per unit, for proceeds of \$9,263,283 net of \$600,001 agent's commission and \$136,736 of related issue costs. Each unit consisted of one common share and one half common share purchase warrant. Each full warrant entitles the holder thereof to purchase one additional common share in the capital of the Company at a price of \$3.45 per share until September 14, 2009. In addition to the cash commission the underwriters were paid a commission of 7% (233,334) underwriter's warrants. Each underwriter's warrant is exercisable for one share at a price of \$3.25, for a period of twenty four months, expiring on September 12, 2007. The financing closed on September 12, 2005.

As of December 31, 2004, the Company had reserved 1,422,017 common shares for issuance upon the exercise of outstanding warrants.

During the year ended December 31, 2006, Company completed a syndicated brokered private placement financing of 2,865,000 special warrants at \$3.50 per warrant for gross proceeds of \$10,027,500. Each special warrant entitled the holder to

acquire one unit consisting of one common share and one half common share purchase warrant without payment of any additional consideration. All special warrants were converted into common shares and common share purchase warrants on May 25, 2006. Each full warrant entitles the holder thereof to purchase one additional common share in the capital of the Company at a price of \$3.80 per share until March 21, 2010. In addition to a cash commission of 6% the underwriters were granted 171,900 agents' warrants, representing 6% of the number of special warrants issued. RESULTS OF OPERATIONS

The following discussion of the results of operations of the Company for the fiscal years ended December 31, 2006, 2005 and 2004 should be read in conjunction with the consolidated financial statements of the Company attached hereto and related notes included therein.

YEAR ENDED DECEMBER 31, 2006 COMPARED TO YEAR ENDED DECEMBER 31, 2005

For the year ended December 31, 2006, the Company reported a consolidated loss of \$3,581,360 (\$0.07 per share), a decrease of \$2,183,514 from the loss of \$5,764,874 (\$0.12 per share) for the year ended December 31, 2005. The decrease in the loss in 2006, compared to 2005 amount, can primarily be attributed to a \$2,196,370 decrease in operating expenses.

The Company's operating expenses for the year ended December 31, 2006 were \$3,951,504 an decrease of \$2,196,370 from \$6,148,234 in 2005.

Professional fees decreased \$1,088,046 to \$1,124,144 in 2006, as the Company incurred significant legal costs incurred in connection with the Aquiline legal action during and preceding the initial trial in 2005. The Company's 2006 legal fees primarily consist of costs incurred in preparing and proceeding with the appeal of the Aquiline judgment and costs relating to the establishment of the Interim Project Development Agreement. In 2006 the Company recorded non-cash stock based compensation of \$393,120 compared to \$2,380,000 in 2005, for stock options granted to its employees, consultants and directors, of which \$393,120 is included in expenses in 2006 compared to \$1,800,000 in 2005. In 2006 \$Nil compared to \$580,000 in 2005 is included in capitalized mineral property expenditures.

Other notable changes in the operating expenses are:

- (i) Administrative and management services increased by \$166,725 primarily as a result of increased fees paid for the services of the president of the Company (see discussion on related party transactions below).

- 21 -

- (ii) Corporate development and investor relations decreased by \$167,759 primarily as a result of the Company's termination of its third-party investor relation contracts in 2006.
- (iii) General exploration increased \$130,658 as a result of higher activity levels of evaluating potential exploration projects.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

- (iv) Travel and accommodation decreased \$162,643 due to decreased Navidad Project related travel by Company staff subsequent to the Aquiline judgment.
- (v) Salaries increased \$66,970 due to higher staff costs in the year.
- (vi) Navidad holding costs of \$312,349 were incurred in 2006 compared to \$Nil in 2005 as a result of:
 - a) costs incurred in order to maintain basic operations in Argentina subsequent to the transfer of control of the Navidad project to Aquiline; and
 - b) costs incurred in the period between the date of the judgment and the transfer of control of the Navidad project to Aquiline that would normally have been included in mineral properties and deferred costs.

In 2006 the Company recorded interest income of \$373,009 compared to \$150,406 in 2005, primarily as a result of increase of funds on deposit. A loss of \$2,865 for foreign exchange was recorded in 2006 compared to gain of \$232,954 in 2005. The small foreign exchange adjustment in 2006 is a result of the relatively flat exchange rate between the Canadian and US dollars during the year. In 2005, the large gain was a result of strengthening of the Canadian dollar compared to US dollar and due to the exchange movements between expenses being incurred in US\$ and amounts exchanged to settle such payables.

YEAR ENDED DECEMBER 31, 2005 COMPARED TO YEAR ENDED DECEMBER 31, 2004

For the year ended December 31, 2005, the Company reported a consolidated loss of \$5,764,874 (\$0.12 per share), an increase of \$1,109,811 from the loss of \$4,655,063 (\$0.11 per share) for the year ended December 31, 2004. The increase in the loss in 2005, compared to 2004 amount, was due to a number of factors of which \$1,835,618 can be attributed to increases in operating expenses and \$725,807 decrease in other items.

The Company's prior period financial statements have been reclassified in accordance with Canadian GAAP. The net assets transferred to Golden Arrow were described as "Spin-Off Assets Transferred" and the allocated expenses are described as "Loss Allocated to Spin-Off Assets" in the consolidated financial statements. This reclassification did not change previously reported total losses. The allocation of expenses was calculated on the basis of the ratio of the specific assets transferred to assets retained. A loss of \$131,231 was allocated to spin-off assets in the 2004 period.

The Company's operating expenses for the year ended December 31, 2005 were \$6,148,234 an increase of \$1,835,618 from \$4,312,616 in 2004. \$339,516 of the 2004 operating expenses had been reclassified as "Loss Allocated to Spin-Off Assets" which relate to the assets transferred to Golden Arrow. The allocation was calculated on the basis of the ratio of the specific assets transferred to assets retained. Certain "Other Income and Expense" items have been allocated to spin-off assets on a cost specific basis.

Professional fees increased \$1,432,498 to \$2,327,278 in 2005, primarily due to legal costs incurred in connection with the Aquiline legal action as well as increased costs of compliance. In 2005 the Company recorded non-cash stock based compensation of \$2,380,000 compared to \$1,972,860 in 2004, for stock options granted to its employees, consultants and directors, of which \$1,800,000 is included in expenses in 2005 compared to \$1,972,860 in 2004 and \$580,000 in 2005 compared to \$Nil in 2004 is included in capitalized mineral property expenditures. Other notable changes in the operating expenses are: (i) Salaries increased \$272,151 due to staff increases (salaries in 2005 are a portion of the monthly fee charged for services by the Grosso Group while in 2004 the Company

Edgar Filing: IMA EXPLORATION INC - Form 20-F

directly employed its staff); (ii) Administrative and management services decreased by \$89,744 due to some of the services provided by consultants in 2004 were provided by employees of the Grosso Group during 2005 and are included in salaries (iii) there are no cost recoveries (for shared administrative costs and rent) from Amera or Golden Arrow in 2005; (iv) Corporate development and investor relations increased \$207,951, as the Company has made its shareholders and others more aware of its Navidad project and its potential, (v) Office and Sundry

- 22 -

increased \$40,337 mainly due to the increase in insurance premiums and an increase in activity, (vi) Transfer agent and regulatory fees increased \$141,972 mainly due to the costs of the Company's listing on the American Stock Exchange, (vii) General exploration decreased by \$173,047 as the Company's focus is on Navidad property for which costs are included in capitalized mineral property expenditures, (viii) Travel increased \$52,444 due to travel related to conferences and investor presentations as well as to South America.

In 2005 the Company recorded interest income of \$150,406 compared to \$101,589 in 2004, primarily as a result of increase of funds on deposit. In 2005 there were no reorganization costs recorded by the Company, in 2004 reorganization costs of \$346,103 were recorded. There was no gain on the optioning of properties to other mining exploration companies, in 2004 a gain of \$328,346 was recognized. No write down for the carrying value of marketable securities in 2005 was recognized while a \$99,762 write down for the carrying value of marketable securities was recorded in 2004. A gain of \$232,954 for foreign exchange was recorded in 2005 compared to loss of \$195,285 in 2004. The foreign exchange adjustment in 2005 is a result of a continued strengthening of the Canadian dollar compared to US dollar and due to the exchange movements between expenses being incurred in US\$ and amounts exchanged to settle such payables. No gain or loss was allocated to spin-off assets in 2005, in 2004 a loss of \$131,232 was recorded.

YEAR ENDED DECEMBER 31, 2004 COMPARED TO YEAR ENDED DECEMBER 31, 2003

The Company reported a consolidated loss of \$4,655,063 (\$0.11 per share) in 2004, an increase of \$1,236,645 from the loss of \$3,418,418 (\$0.11 per share) in 2003. The increase in the loss in 2004, compared to 2003, was due to a number of factors of which \$1,148,400 can be attributed to operating expenses and \$88,245 to other expense items.

The Company's prior period financial statements have been reclassified to reflect the reorganization in accordance with Canadian GAAP. The net assets transferred to Golden Arrow are described as "Spin-Off Assets Transferred" and the allocated expenses are described as "Loss Allocated to Spin-Off Assets" in the consolidated financial statements. This reclassification did not change previously reported total losses. The allocation of certain expenses was calculated on the basis of the ratio of the specific assets transferred to assets retained. The following discussion of the 2004 expenses compared to the 2003 expenses is based on expenses as originally reported.

The Company's 2004 operating expenses were \$4,312,616 an increase of \$1,148,400 from the \$3,164,216 originally reported for 2003. \$661,175 of the 2003 operating expense has been reclassified as "Loss Allocated to Spin-Off Assets" which relate to the assets transferred to Golden Arrow. In 2004, \$131,232 was allocated to the Loss from Spin-Off Assets compared to \$969,175 in 2003. The allocation was calculated on the basis of the ratio of the specific assets

Edgar Filing: IMA EXPLORATION INC - Form 20-F

transferred to assets retained. Certain "Other Income and Expense" items have been allocated to spin-off assets on the basis of the nature of the income or expense. In 2004 expenses increased as a result of increased activity at the Navidad project and the support required at the corporate office.

Professional fees increased \$597,017 to \$894,780 in 2004, primarily due to legal costs incurred in connection with the Aquiline legal action as well as increased costs of compliance. During 2004 the Company recorded a non-cash expense of \$1,972,860 for stock based compensation for stock options granted to its employees and directors, an increase of \$485,625 from 2003. Other notable changes in the operating expenses are: (i) Salaries increased \$113,998 due to staff increases (in 2004 the Company had an average of seven people on its payroll compared to three in 2003); (ii) Travel increased \$97,641 due to travel to conferences as well as to South America; (iii) Cost recoveries (for shared administrative costs and rent) from Amera and Golden Arrow increased by \$114,161; (iv) Corporate development and investor relations decreased \$62,026, as 2003 was a more active year in which the Company developed investor awareness.

In 2004 the Company recorded a gain of \$328,346 on the optioning of certain properties to other mining exploration companies (plus \$433,960 of gains relating to the Spin-Off Assets) compared to \$481,779 in total in 2003. In 2004 a write-down of \$99,762 (2003 - \$nil) for the carrying value of marketable securities was recognized. Reorganization costs of \$346,103 were recorded in 2004. An expense of \$195,285 for foreign exchange was recorded in 2004 compared to \$25,916 in 2003. The foreign exchange adjustment is as a result of the continued strengthening of the Canadian dollar compared to the US dollar and due to the exchange movements between the date of recognition of expenses incurred in US\$ and the date of settlement. Interest and other income was \$101,589 in 2004, an increase of \$35,028 from 2003, primarily as a result of an increase of funds on deposit.

On March 5, 2004 Minera Aquiline Argentina SA, a subsidiary of Aquiline Resources Inc. commenced an action against the Company seeking damages and a constructive trust over the Navidad Area Properties. See "Item 8. Financial Information - Legal Proceedings."

Short-term investments increased \$920,000 to \$8,500,000 at December 31, 2006 from \$7,580,000 at December 31, 2005. Total assets increased to \$27,246,146 at December 31, 2006 from \$23,497,994 at December 31, 2005. This increase is mainly due to the increase in Navidad carrying value and in cash balance.

Each special warrant entitled the holder to acquire one unit consisting of one common share and one half common share purchase warrant. All special warrants were converted into common shares on May 25, 2006. Each full warrant entitles the holder thereof to purchase one additional common share in the capital of the Company at a price of \$3.80 per share until March 21, 2010. In addition to a cash commission of 6% the underwriters were granted 171,900 agents' warrants, representing 6% of the number of special warrants issued. Each agent's warrant is exercisable for one share at a price of \$3.80, for a period of twenty four months, expiring on March 21, 2008. At December 31, 2006, no

Stock options were exercised which resulted in cash proceeds of \$280,950 during 2006. No warrants were exercised in 2006.

The Company has received \$Nil from the exercise of options and warrants from January 1 to February 28, 2007. As at February 28, 2007, the Company had working capital of approximately \$8,500,000.

The Company considers that it has adequate resources to maintain its core operations for the next fiscal year. The Company will continue to rely on successfully completing additional equity financing to further exploration and development of mineral exploration projects. There can be no assurance that the Company will be successful in obtaining the required financing.

Except as disclosed the Company does not know of any trends, demand, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, its liquidity either materially increasing or decreasing at present or in the foreseeable future. Material increases or decreases in liquidity are substantially determined by the success or failure of the exploration programs and by the final outcome of the Company's appeal of the judgment of the Aquiline litigation.

The Company does not now and does not expect to engage in currency hedging to offset any risk of currency fluctuations.

The Company's management may elect to acquire new projects, at which time additional equity financing may be required to fund overhead and maintain its interests in current projects, or may decide to relinquish certain of its properties. These decisions will be based on the results of ongoing exploration programs and the response of equity markets to the projects and business plan.

Except as otherwise disclosed, the Company knows of no other contractual obligations during the period from January 1, 2007 through December 31, 2007.

OPTIONS, WARRANTS AND OTHER RIGHTS TO ACQUIRE SECURITIES

As of February 28, 2007, the Company had granted a number of stock options, issued a number of warrants and entered into a number of agreements pursuant to which up to 8,123,404 common shares of the Company may be issued. The following is a brief summary of these stock options and warrants currently outstanding and agreements.

STOCK OPTIONS

The TSX-V requires all TSX-V listed companies to adopt stock options plans, and such plans must contain certain provisions. At the annual and extraordinary general meeting of shareholders of the Company held on June 26, 2003, the shareholders approved the Company's stock option plan (the "Stock Option Plan"). At the annual and extraordinary general meetings of shareholders of the Company held on June 24, 2004, June 23, 2005 and June 14, 2006 shareholders approved and ratified by ordinary resolution the 2003 Stock Option Plan to make a total of up to 10% of the issued and outstanding shares of IMA available for issuance. The purpose of the Stock Option Plan is to provide incentive to the Company's employees, officers, directors, and consultants responsible for the continued success of the Company. The following is a summary of the Stock Option Plan.

ADMINISTRATION OF THE STOCK OPTION PLAN

The Stock Option Plan provides that it will be administered by the Company's board of directors (the "Board"), or by the Compensation Committee (the "Committee") of the Company's Board consisting of not less than two of its members. The Stock Option Plan is currently administered by the Committee.

DESCRIPTION OF STOCK OPTION PLAN

The effective date (the "Effective Date") of the Stock Option Plan is June 2, 2003, the date the Board of Directors approved the Stock Option Plan, and it will terminate ten years from the Effective Date.

The Stock Option Plan provides that options may be granted to any employee, officer, director or consultant of the Company or a subsidiary of the Company.

The options issued pursuant to the Stock Option Plan will be exercisable at a price not less than the market value of the Company's common shares at the time the option is granted. "Market Value" means:

- (a) for each organized trading facility on which the common shares are listed, Market Value will be the closing trading price of the common shares on the day immediately preceding the grant date less any discounts permitted by the applicable regulatory authorities;
- (b) if the Company's common shares are listed on more than one organized trading facility, the Market Value shall be the Market Value as determined in accordance with subparagraph (a) above for the primary organized trading facility on which the common shares are listed, as determined by the Board (or a committee thereof), subject to any adjustments as may be required to secure all necessary regulatory approvals;

Edgar Filing: IMA EXPLORATION INC - Form 20-F

- (c) if the Company's common shares are listed on one or more organized trading facilities but have not traded during the ten trading days immediately preceding the grant date, then the Market Value will be determined

- 38 -

- by the Board (or a committee thereof), subject to any adjustments as may be required to secure all necessary regulatory approvals; and
- (d) if the Company's common shares are not listed for trading on a stock exchange or over the counter market, the value which is determined by the Board (or a committee thereof) to be the fair value of the Company's common shares, taking into consideration all factors that the Board (or a committee thereof) deems appropriate, including, without limitation, recent sale and offer prices of the Company shares in private transactions negotiated at arms' length.

Options under the Stock Option Plan will be granted for a term not to exceed 10 years from the date of their grant, provided that if the Company is then a "Tier 2" company listed on the TSX-V, the term of the option will be not more than five years.

Options under the Stock Option Plan will be subject to such vesting schedule as the Committee may determine. In the event that an option is to be terminated prior to expiry of its term due to certain corporate events, all options then outstanding shall become immediately exercisable for 10 days after notice thereof, notwithstanding the original vesting schedule.

Options will also be non-assignable and non-transferable, provided that they will be exercisable by an optionee's legal heirs, personal representatives or guardians for up to 12 months following the death or termination of an optionee due to disability, or up to 12 months following the death of an employee if the employee dies within 12 months of termination due to disability. All such options will continue to vest in accordance with their original vesting schedule.

The maximum number of common shares to be reserved for issuance under the Stock Option Plan, including options currently outstanding, will not exceed 10% of the number of common shares of the Company issued and outstanding on the applicable date of grant.

If a material alteration in the capital structure of the Company occurs as a result of a recapitalization, stock split, reverse stock split, stock dividend, or otherwise, the Committee shall make adjustments to the Stock Option Plan and to the options then outstanding under it as the Committee determines to be appropriate and equitable under the circumstances, unless the Committee determines that it is not practical or feasible to do so, in which event the options granted under the Stock Option Plan will terminate as set forth above.

The TSX-V requires all TSX-V listed companies who have adopted stock option plans which reserve a maximum of 10% of the number of common shares of the Company issued and outstanding on the applicable date of grant, to obtain shareholder approval to the Stock Option Plan on an annual basis.

As of February 28, 2007, the Company has issued 4,619,000 non-transferable incentive stock options to purchase common shares outstanding to the following persons:

Edgar Filing: IMA EXPLORATION INC - Form 20-F

There are no significant changes to report between the year end December 31, 2006 and the date of this annual report.

LEGAL PROCEEDINGS

On March 5, 2004, Aquiline Resources Inc. ("Aquiline"), through its subsidiary, Minera Aquiline Argentina SA, filed a claim in the Supreme Court of British Columbia against the Company seeking a constructive trust over the Navidad properties and damages. The trial was held in Vancouver British Columbia commencing in October 2005 and ended on December 12, 2005.

On July 14, 2006 the court released its judgment on the claim. The Company was not successful in its defense and the court found in Aquiline's favour.

The Order reads in part:

- " (a) that Inversiones Mineras Argentinas SA ("IMA SA") transfer the Navidad Claims and any assets related thereto to Minera Aquiline or its nominee within 60 days of this order;
- (b) that IMA take any and all steps required to cause IMA SA to comply with the terms of this order;
- (c) that the transfer of the Navidad Claims and any assets related thereto is subject to the payment to IMA SA of all reasonable amounts expended by IMA SA for the acquisition and development of the Navidad Claims to date; and
- (d) any accounting necessary to determine the reasonableness of the expenditures referred to in (c) above shall be by reference to the Registrar of this court."

The Company has filed an appeal of this judgment which is scheduled to be heard by the British Columbia Court of Appeal on April 10, 2007. While the Company is confident of a favourable result from its appeal it recognizes that this could take a substantial period of time and the costs will be significant, with no guarantee of a successful outcome for the Company.

On October 18, 2006, the Company and Aquiline reached a definitive agreement for the orderly conduct of the Navidad Project pending the determination of the appeal by the Company against the judgment of the trial court. The parties have agreed that the transactions outlined in the agreement are in satisfaction of the Order referenced above. The principal terms and conditions of the agreement are as follows:

- (a) control of the Navidad project will be transferred to Aquiline in trust for the ultimately successful party in the appeal;
- (b) the Company and Aquiline have agreed to the costs spent to date developing the Navidad Project in the amount of \$18,500,000. Upon transfer of control of the Navidad project, Aquiline paid \$7,500,000 of the costs into trust and the balance will be expended by Aquiline in developing the Navidad Project during the period of the appeal and secured under the terms of the trust conditions;

Edgar Filing: IMA EXPLORATION INC - Form 20-F

- (c) in the event that the Company is unsuccessful on appeal, the Company will be paid such \$18,500,000 amount, less legal costs Aquiline would be entitled to in relation to the trial and the appeal.
- (d) in the event that the Company's appeal is successful, it will pay Aquiline's qualifying costs expended on developing the Navidad Project during the period of the appeal, less legal costs the Company would be entitled to in relation to the trial and the appeal, and control of the Navidad Project will then revert to the Company; and
- (e) pending the finalization of the appeal process, neither party will attempt a hostile takeover of the other.

The effective date of the transfer of the Navidad project was November 16, 2006. A copy of the agreement has been posted on the SEDAR website as one of the Company's public documents and is titled "Interim Project Development Agreement".

As a condition of the reorganization Golden Arrow became a party to the Aquiline action. The Company has provided an indemnity to Golden Arrow for any costs or losses that might be incurred by Golden Arrow in connection with this matter.

DIVIDEND POLICY

The Company has not paid any dividends on its common shares and does not intend to pay dividends on its common shares in the immediate future. Any decision to pay dividends on its common shares in the future will be made by the board of directors on the Company on the basis of earnings, financial requirements and other such conditions that may exist at that time.

ITEM 10. ADDITIONAL INFORMATION.

MEMORANDUM AND ARTICLES OF ASSOCIATION

The Company was incorporated under the COMPANY ACT (British Columbia) on September 17, 1979, as Gold Star Resources Ltd. The Company's Incorporation Number is 197061. On May 1, 1990, the Company filed an Altered Memorandum to reflect its name change to EEC Marketing Corp. On January 13, 1992, the Company filed an Altered Memorandum to reflect its name change to Amera Industries Corp. On February 9, 1995, the Company filed an Altered Memorandum to reflect its name change to International Amera Industries Corp. On February 20, 1996, the Company filed an Altered Memorandum to reflect its name change to IMA Resource Corporation. Effective July 7, 1998, the Company underwent a statutory plan of arrangement (the "Arrangement") with Viceroy Resource Corporation ("Viceroy"), changed its name to IMA Exploration Inc., consolidated its share capital on the basis of four old shares for one new share and filed an Altered Memorandum to give effect to the foregoing. See "Item 4. Information on the Company".

The Company's objects and purposes are not set forth in or prescribed by its Articles or Memorandum. The Company is in the business of the acquisition, exploration and development of mineral properties, mainly in Argentina.

AMENDMENT OF NOTICE OF ARTICLES

On March 29, 2004, the new British Columbia Business Corporations Act came into force in British Columbia (the "BCBCA"). The Board of Directors of the Company approved the Transition of the Company and the Company filed a transition application with the Registrar of Companies British Columbia and completed the Transition on May 4, 2004.

In order to bring the Company's Articles in line with the BCBCA, the Company deleted and replaced its Articles in their entirety. Accordingly, the shareholders passed a special resolution removing the application of the

Edgar Filing: IMA EXPLORATION INC - Form 20-F

Pre-Existing Company Provisions at a meeting held on June 24, 2004.

BORROWING POWERS

Under the BCBCA, companies are now permitted, without restriction, to guarantee repayment of money by any other person or the performance of any obligation of any other person. This change reflects the modernization of corporate legislation to effectively respond to increasingly complex financial transactions that companies may enter into in the course of their business. As a result, the New Articles state that the Company is able to guarantee the repayment of money by any other person or the performance of any obligation of any other person. Management believes that it is in the best interests of the Company to allow for such a guarantee to permit the Company the maximum flexibility in possible future financial transactions, recognizing the duties directors have to ensure that the guarantee must always be in the best interest of the Company and its shareholders.

DIRECTORS AUTHORITY TO SET AUDITOR'S REMUNERATION

Under the BCBCA, the Company has, subject to shareholder approval, given authorization for the directors to set the remuneration paid to the auditors of the Company. Historically, shareholders of the Company have always authorized the directors to appoint the auditors and to set the auditor's remuneration and the Articles merely codify existing practice. More importantly, however, this change also codifies new corporate governance rules and regulations relating to audit committees and the appointment and remuneration of auditors.

SPECIAL MAJORITY FOR RESOLUTIONS

Under the BCBCA, the Company is authorized to determine whether a special resolution requires two-thirds or three-quarters of the votes cast on a resolution. The Company Articles propose that a special resolution require a majority of two-thirds of the votes cast on a resolution. This threshold is consistent with the threshold in most other Canadian corporate law statutes such as the Canada Business Corporations Act.

- 48 -

SHARE ISSUANCES

Under the BCBCA the Company is, subject to shareholder approval, permitted to avoid setting a numerical maximum for a discount or commission payable on the issuance of a share but rather limit any discount or commission by a test of reasonableness. The Articles provide that the Company be permitted to pay or offer the commission or discount as permitted in the BCBCA. Management of the Company believes that the 25% maximum limit should not be set out in the New Articles as such a limit does not consider factual circumstances nor apply a test of reasonableness. By limiting the discount or commission amounts payable by the test of reasonableness, exercised by directors with a duty to act in the best interest of the Company, the Company is provided greater flexibility in possible future transactions. In addition, since the Company is a public company, it is subject to the requirements of the TSX-V on share issuances and discounts and commissions, which requirements are generally far more stringent than the Former Act provisions.

The following are changes to the provisions contained in the BCBCA which have an effect on provisions contained in the Existing Articles:

Edgar Filing: IMA EXPLORATION INC - Form 20-F

OFFICERS

The BCBCA no longer requires that the President and Secretary be separate individuals and as a result, the Company Articles do not have these requirements. Management and the board of directors believe that the Company is better able to meet its corporate governance obligations as to membership of the board of directors.

PUBLICATION OF ADVANCE NOTICE OF MEETING

Under the BCBCA, the Company is no longer required to publish notice of general meetings, and recent changes to securities legislation in Canada requires that all public companies, including the Company, post advance notice of a general meeting on WWW.SEDAR.COM in advance of the record date for the meeting.

SHARE CERTIFICATES

Under the BCBCA, a shareholder is entitled to a share certificate representing the number of shares of the Company he or she holds or a written acknowledgement of the shareholder's right to obtain such a share certificate. The Articles have been amended to provide for this additional right.

DISCLOSURE OF INTEREST OF DIRECTORS

Under the BCBCA, the provisions relating to the disclosure of interests by directors have been revised and updated and the Articles have deleted reference to the old disclosure of interest provisions and refer to the provisions contained in the BCBCA.

INDEMNITY PROVISION

Under the BCBCA, the Company is now permitted to indemnify a past or present director or officer of the Company without obtaining prior court approval in respect of an "eligible proceeding". An "eligible proceeding" includes any legal proceeding relating to the activities of the individual as a director or officer of the Company. However, under the BCBCA, the Company will be prohibited from paying an indemnity if:

- (a) the party did not act honestly and in good faith with a view to the best interests of the Company;
- (b) the proceeding was not a civil proceeding and the party did not have reasonable grounds for believing that his or her conduct was lawful; and
- (c) the proceeding is brought against the party by the Company or an associated corporation.

As a result, the Company Articles allow the Company to indemnify directors, officers, employees and agents, subject to the limits imposed under the BCBCA. Management believes that it is in the best interests of the Company to allow the indemnification of directors, officers, employees and agents, subject to the limits and conditions of the BCBCA.

The directors, officers, employees and agents have entered into Indemnity

Edgar Filing: IMA EXPLORATION INC - Form 20-F

Agreements, as allowed under the Articles of the Company.

AUTHORIZED SHARE CAPITAL

Under the BCBCA there are no maximum number restrictions and, due to the elimination of the memorandum under the BCBCA, such authorized share capital must be contained in a company's Notice of Articles. In order to provide the Company with greater flexibility to proceed with equity financings, management altered its authorized share capital from 200,000,000 shares divided into 100,000,000 common shares and 100,000,000 preferred shares to an unlimited number of common shares and 100,000,000 preferred shares.

HOLDING OF ANNUAL MEETINGS

The BCBCA allows for annual meetings to be held once in each calendar year and not more than 15 months after the last annual meeting and accordingly, the Company's Articles reflect this provision.

QUORUM FOR SHAREHOLDER MEETING

The current Articles allow for quorum to be two persons who are, or who represent by proxy, shareholders who, in the aggregate, hold at least five percent (5%) of the issued shares entitled to be voted at the meeting.

ALTERATIONS TO CONSTATING DOCUMENT

In accordance with the BCBCA, the Articles list the type of alterations that can be made to the Company's constating documents, and disclose the type of resolution that is required to make such amendments.

SUMMARY OF MATERIAL PROVISIONS

The following is a summary of certain material provisions of the Company's Articles of Association and Memorandum:

A. DIRECTOR'S POWER TO VOTE ON A PROPOSAL, ARRANGEMENT OR CONTRACT IN WHICH THE DIRECTOR IS MATERIALLY INTERESTED.

Under the BCBCA, subject to certain exceptions, a director or senior officer of the Company must disclose any material interest that he personally has, or that he as a director or senior officer of another corporation has in a contract or transaction that is material to the Company and which the Company has entered into or proposes to enter into.

A director or senior officer of the Company does not hold a disclosable interest in a contract or transaction if:

1. the situation that would otherwise constitute a disclosable interest arose before the coming into force of the BCBCA, or the interest was disclosed and approved under, or was not required to be disclosed under legislation that applied to the Company before the coming into effect of the BCBCA;
2. both the Company and the other party to the contract or transaction are wholly owned subsidiaries of the same corporation;
3. the Company is a wholly owned subsidiary of the other party to the contract or transaction;
4. the other party to the contract or transaction is a wholly owned subsidiary of the Company ; or

Edgar Filing: IMA EXPLORATION INC - Form 20-F

5. the director or senior officer is the sole shareholder of the Company or of a corporation of which the Company is a wholly owned subsidiary.

- 50 -

A director or senior officer of the Company does not hold a disclosable interest in a contract or transaction merely because:

1. the contract or transaction is an arrangement by way of a security granted by the Company for money loaned to, or obligations undertaken by, the director or senior officer, or a person in whom the director or senior officer has a material interest, for the benefit of the Company or an affiliate of the Company;
2. the contract or transaction relates to an indemnity or insurance under the BCBCA;
3. the contract or transaction relates to the remuneration of the director or senior officer, or a person in whom the director or senior officer, employee or agent of the Company or of an affiliate of the Company;
4. the contract or transaction relates to a loan to the Company, and the director or senior officer, or a person in whom the director or senior officer has a material interest, is or is to be a guarantor of some or all of the loan; or
5. the contract or transaction has been or will be made with or for the benefit of a corporation that is affiliated with the Company and the director or senior officer is also a director or senior officer of that corporation or an affiliate of that corporation.

A director or senior officer who holds such a material interest must disclose such interest in writing. The disclosure must be evidenced in writing in a consent resolution, the minutes of a meeting or any other record deposited with the Company's record office. A director who has a disclosable interest in a contract or transaction is not entitled to vote of any directors' resolution to approve that contract or transaction, but may be counted in the quorum at the directors' meeting at which such vote is taken.

- B. DIRECTOR'S POWER, IN THE ABSENCE OF AN INDEPENDENT QUORUM, TO VOTE COMPENSATION TO THEMSELVES OR ANY MEMBERS OF THEIR BODY.

The compensation of the directors is decided by the directors unless the Board of Directors requests approval of the compensation from the shareholders. If the issuance of compensation to the directors is decided by the directors, a quorum is the majority of the directors in office.

- C. BORROWING POWERS EXERCISABLE BY THE DIRECTORS AND HOW SUCH BORROWING POWERS MAY BE VARIED.

The Company, if authorized by the directors, may:

1. borrow money in the manner and amount, on the security, from the sources and on the terms and conditions that they consider appropriate;
2. issue bonds, debentures and other debt obligations either outright or as security for any liability or obligation of the

Edgar Filing: IMA EXPLORATION INC - Form 20-F

- Company or any other person and at such discounts or premiums and on such other terms as they consider appropriate;
3. guarantee the repayment of money by any other person or the performance of any obligation of any other person; and
 4. mortgage, charge, whether by way of specific or floating charge, grant a security interest in, or give other security on, the whole or any part of the present and future assets and undertaking of the Company.

The borrowing powers may be varied by amendment to the Articles of the Company which requires approval of the shareholders of the Company by special resolution.

D. RETIREMENT AND NON-RETIREMENT OF DIRECTORS UNDER AN AGE LIMIT REQUIREMENT.

There are no such provisions applicable to the Company under the Notice of Articles, Articles (as existing or the new proposed Articles) or the BCBCA.

- 51 -

A total of 52,013,064 common shares were issued and outstanding as of February 28, 2007. All of the common shares are fully paid and not subject to any future call or assessment. All of the common shares of the Company rank equally as to voting rights, participation in a distribution of the assets of the Company on a liquidation, dissolution or winding-up of the Company and the entitlement to dividends. The holders of the common shares are entitled to receive notice of all shareholder meetings and to attend and vote at such meetings. Each common share carries with it the right to one vote. The common shares do not have preemptive or conversion rights. In addition, there are no sinking fund or redemption provisions applicable to the common shares or any provisions discriminating against any existing or prospective holders of such securities as a result of a shareholder owning a substantial number of shares.

PREFERRED SHARES

The Company is authorized to issue up to 100,000,000 preferred shares in one or more series of which 18,283,053 have been designated as Preferred Shares, Series I. The preferred shares are entitled to priority over the common shares with respect to the payment of dividends and distribution in the event of the dissolution, liquidation or winding-up of the Company. Edgar Filing: IMA EXPLORATION INC - Form 20-F

issued or outstanding preferred shares.

CHANGES TO RIGHTS AND RESTRICTIONS OF SHARES

In addition, if the Company itself holds any of its own securities, the Company must disclose such ownership.

- 52 -

There are no provisions in the Company's Memorandum and Articles of Association or Bylaws that would have an effect of delaying, deferring or preventing a change in control of the Company operating only with respect to a merger, acquisition or corporate restructuring involving the Company or its subsidiaries.

MEETINGS OF THE SHAREHOLDERS

ANNUAL AND GENERAL MEETINGS

Under BCBCA and the Company's Articles, the Company's annual general meeting is to be held once in each calendar year and not more than 15 months after the previous meeting. No advance notice will be required to be published at a meeting where directors are to be elected. The Company must give shareholders not less than 21 days notice of any general meeting of the shareholders.

The Directors may fix in advance a date, which is no fewer than 35 days or no more than 60 days prior to the date of the meeting. All the holders of common shares as at that date are entitled to attend and vote at a general meeting.

DIFFERENCES FROM REQUIREMENTS IN THE UNITED STATES

Except for the Company's quorum requirements, certain requirements related to related party transactions and the requirement for notice of shareholder meetings, discussed above, there are no significant differences in the law applicable to the Company, in the areas outlined above, in Canada versus the United States. In most states in the United States, a quorum must consist of a

Edgar Filing: IMA EXPLORATION INC - Form 20-F

majority of the shares entitled to vote. Some states allow for a reduction of the quorum requirements to less than a majority of the shares entitled to vote. Having a lower quorum threshold may allow a minority of the shareholders to make decisions about the Company, its management and operations. In addition, most states in the United States require that a notice of meeting be mailed to shareholders prior to the meeting date. Additionally, in the United States, a director may not be able to vote on the approval of any transaction in which the director has a interest.

MATERIAL CONTRACTS

The following are material contracts to which the Company is a party:

7. Mr. Terry had a consulting agreement with Amera dated February 16, 2004, amended June 1, 2004, which called for monthly payments of \$10,000. The Company had agreed to reimburse Amera for 50% of these fees. In the fiscal year ended December 31, 2004 the Company paid \$43,000 as a result of this arrangement. On January 1, 2005 Mr. Terry's agreement with Amera was replaced by a similar agreement with the Grosso Group. During the year ended December 31, 2005, Mr. Terry's total compensation from the Grosso Group was \$120,000, of which \$63,600 was allocated to the Company as part of the Grosso Group fees during the year. On April 12, 2006 the Board accepted the recommendation from the Compensation Committee to increase Mr. Terry's monthly fee to \$12,500 (\$150,000 annually) effective May 1, 2006 and to pay a bonus of \$50,000. During the year ended December 31, 2006 Mr. Terry's total compensation from the Grosso Group was \$140,000, of which \$57,400 was allocated to the Company. See "Item 6. 9. The Company entered into an Arrangement Agreement with Golden Arrow pursuant to which the Company transferred certain assets to Golden Arrow as part of a reorganization of the Company completed in 2004. See "Item 4. Information on the Company - History and Development of the Company." The Company entered into an indemnity agreement, for any costs or losses incurred by Golden Arrow in respect of the legal action commenced by a Minera Aquiline Argentina S.A. against the Company. See "Item 8. Financial Information - Legal Proceedings."

("Gestora") to retain Gestora to provide certain management, consulting and advisory services of Mr. Augusto Baertl ("Baertl") for the development of the Navidad project. A Confidentiality Agreement between the Grosso Group Management Ltd. and Gestora was also entered into. A Director/Officer Agreement between IMA Latin America Inc. and Baertl was also entered into as well as an Indemnity Agreement between the Company and Baertl. Baertl and Gestora gave notice of termination of the Management Services Agreement and the Director/Officer Agreement effective September 30, 2006.
11. On October 18, 2006, the Company and Aquiline reached a definitive agreement (the Interim Agreement) for the orderly conduct of the Navidad Project pending the determination of the appeal by the Company against the judgment of the trial court. The transactions outlined in the agreement will constitute due compliance by both parties with the July 14, 2006 Supreme Court of British Columbia judgment in respect of the Navidad project. The principal terms and conditions of the Interim Agreement are as follows:
 - (a) control of the Navidad project will be transferred to Aquiline in trust for the ultimately successful party in the appeal;
 - (b) the Company and Aquiline have agreed to the costs spent to date developing the Navidad Project in the amount of \$18,500,000. Upon transfer of control of the Navidad project, Aquiline paid \$7,500,000 of the costs into trust and the balance will be expended by Aquiline in developing the Navidad Project during the period of the appeal and secured under the terms of the trust conditions;
 - (c) in the event that the Company is unsuccessful on appeal, the Company will be paid such \$18,500,000 amount, less legal costs Aquiline would be entitled to in relation to the trial and the appeal.
 - (d) in the event that the Company's appeal is successful, it will

Edgar Filing: IMA EXPLORATION INC - Form 20-F

pay Aquiline's qualifying costs expended on developing the Navidad Project during the period of the appeal, less legal costs the Company would be entitled to in relation to the trial and the appeal, and control of the Navidad Project will then revert to the Company; and

- (e) pending the finalization of the appeal process, neither party will attempt a hostile takeover of the other.

EXCHANGE CONTROLS

There are no governmental laws, decrees, or regulations in Canada relating to restrictions on the export or import of capital, or affecting the remittance of interest, dividends, or other payments to non-resident holders of the Company's Common Stock. Any remittances of dividends to United States residents are, however, subject to a 15% withholding tax (10% if the shareholder is a corporation owning at least 10% of the outstanding Common Stock of the Company) pursuant to Article X of the reciprocal tax treaty between Canada and the United States. See "Item 10. Additional Information - Taxation".

Except as provided in the Investment Canada Act (the "Act"), there are no limitations specific to the rights of non-Canadians to hold or vote the Common Stock of the Company under the laws of Canada or the Province of British Columbia or in the charter documents of the Company.

- 55 -

Management of the Company considers that the following general summary is materially complete and fairly describes those provisions of the Act pertinent to an investment by an American investor in the Company.

The Act requires a non-Canadian making an investment which would result in the acquisition of control of a Canadian business, the gross value of the assets of which exceed certain threshold levels or the business activity of which is related to Canada's cultural heritage or national identity, to either notify, or file an application for review with, Investment Canada, the federal agency created by the Investment Canada Act.

The notification procedure involves a brief statement of information about the investment of a prescribed form which is required to be filed with Investment Canada by the investor at any time up to 30 days following implementation of the investment. It is intended that investments requiring only notification will proceed without government intervention unless the investment is in a specific type of business activity related to Canada's cultural heritage and national identity.

If an investment is reviewable under the Act, an application for review in the form prescribed is normally required to be filed with Investment Canada prior to the investment taking place and the investment may not be implemented until the review has been completed and the Minister responsible for Investment Canada is satisfied that the investment is likely to be of net benefit to Canada. If the Minister is not satisfied that the investment is likely to be of net benefit to Canada, the non-Canadian must not implement the investment or, if the investment has been implemented, may be required to divest himself of control of the business that is the subject of the investment.

The following investments by non-Canadians are subject to notification under the

Edgar Filing: IMA EXPLORATION INC - Form 20-F

Act:

- (a) an investment to establish a new Canadian business; and
- (b) an investment to acquire control of a Canadian business that is not reviewable pursuant to the Act.

An investment is reviewable under the Act if there is an acquisition by a non-Canadian of a Canadian business and the asset value of the Canadian business being acquired equals or exceeds the following thresholds:

- (a) for non-WTO Investors, the threshold is \$5,000,000 for a direct acquisition and over \$50,000,000 for an indirect acquisition. The \$5,000,000 threshold will apply however for an indirect acquisition of the asset value of the Canadian business being acquired exceeds 50% of the asset value of the global transaction;
- (b) except as specified in paragraph (c) below, a threshold is calculated for reviewable direct acquisitions by or from WTO Investors. The threshold for 2005 is \$250,000,000. Pursuant to Canada's international commitments, indirect acquisitions by or from WTO Investors are not reviewable; and
- (c) the limits set out in paragraph (a) apply to all investors for acquisitions of a Canadian business that:
 - (i) engages in the production of uranium and owns an interest in a producing uranium property in Canada;
 - (ii) provides any financial services;
 - (iii) provides any transportation service; or
 - (iv) is a cultural business.

WTO Investor as defined in the Act means:

- (a) an individual, other than a Canadian, who is a national of a WTO Member or who has the right of permanent residence in relation to that WTO Member;
- (b) a government of a WTO Member, whether federal, state or local, or an agency thereof;
- (c) an entity that is not a Canadian-controlled entity, and that is a WTO investor-controlled entity, as determined in accordance with the Act;
- (d) a corporation or limited partnership:

- 56 -

- (i) that is not a Canadian-controlled entity, as determined pursuant to the Act;
- (ii) that is not a WTO investor within the meaning of the Act;
- (iii) of which less than a majority of its voting interests are owned by WTO investors;
- (iv) that is not controlled in fact through the ownership of its voting interests; and
- (v) of which two thirds of the members of its board of directors, or of which two thirds of its general partners, as the case may be, are any combination of Canadians and WTO investors;

Edgar Filing: IMA EXPLORATION INC - Form 20-F

- (e) a trust:
 - (i) that is not a Canadian-controlled entity, as determined pursuant to the Act;
 - (ii) that is not a WTO investor within the meaning of the Act;
 - (iii) that is not controlled in fact through the ownership of its voting interests, and
 - (iv) of which two thirds of its trustees are any combination of Canadians and WTO investors, or
- (f) any other form of business organization specified by the regulations that is controlled by a WTO investor.

WTO Member as defined in the Act means a member of the World Trade Organization.

Generally speaking, an acquisition is direct if it involves the acquisition of control of the Canadian business or of its Canadian parent or grandparent and an acquisition is indirect if it involves the acquisition of control of a non-Canadian parent or grandparent of an entity carrying on the Canadian business. Control may be acquired through the acquisition of actual or de jure voting control of a Canadian corporation or through the acquisition of substantially all of the assets of the Canadian business. No change of voting control will be deemed to have occurred if less than one-third of the voting control of a Canadian corporation is acquired by an investor.

The Act specifically exempts certain transactions from either notification or review. Included among the category of transactions is the acquisition of voting shares or other voting interests by any person in the ordinary course of that person's business as a trader or dealer in securities.

TAXATION

MATERIAL CANADIAN FEDERAL INCOME TAX CONSEQUENCES

Management of the Company considers that the following discussion describes the material Canadian federal income tax consequences applicable to a holder of Common Stock of the Company who is a resident of the United States and who is not a resident of Canada and who does not use or hold, and is not deemed to use or hold, his shares of Common Stock of the Company in connection with carrying on a business in Canada (a "non-resident shareholder").

This summary is based upon the current provisions of the Income Tax Act (Canada) (the "ITA"), the regulations thereunder (the "Regulations"), the current publicly announced administrative and assessing policies of Revenue Canada, Taxation and all specific proposals (the "Tax Proposals") to amend the ITA and Regulations announced by the Minister of Finance (Canada) prior to the date hereof. This description is not exhaustive of all possible Canadian federal income tax consequences and, except for the Tax Proposals, does not take into account or anticipate any changes in law, whether by legislative, governmental or judicial action.

DIVIDENDS

Dividends paid on the common stock of the Company to a non-resident will be subject to withholding tax. The Canada-U.S. Income Tax Convention (1980) provides that the normal 25% withholding tax rate is reduced to 15% on dividends paid on shares of a corporation resident in Canada (such as the Company) to residents of the United States, and also provides for a further reduction of this rate to 5% where the beneficial owner of the dividends is a corporation which is a resident of the United States which owns at least 10% of the voting shares of the corporation paying the dividend. In the event of the Company

Edgar Filing: IMA EXPLORATION INC - Form 20-F

declaring and paying dividends it would withhold any applicable taxes.

- 57 -

CAPITAL GAINS

In general, a non-resident of Canada is not subject to tax under the ITA with respect to a capital gain realized upon the disposition of a share of a corporation resident in Canada that is listed on a prescribed stock exchange. For purposes of the ITA, the Company is listed on a prescribed stock exchange. Non-residents of Canada who dispose of shares of the Company will be subject to income tax in Canada with respect to capital gains if:

- (a) the non-resident holder;
- (b) persons with whom the non-resident holder did not deal at arm's length; or
- (c) the non-resident holder and persons with whom the non-resident holder did not deal with at arm's length,

owned not less than 25% of the issued shares of any class or series of the Company at any time during the five-year period preceding the disposition. In the case of a non-resident holder to whom shares of the Company represent taxable Canadian property and who is resident in the United States, no Canadian taxes will be payable on a capital gain realized on such shares by reason of the Canada-U.S. Income Tax Convention (1980) (the "Treaty") unless the value of such shares is derived principally from real property situated in Canada. However, in such a case, certain transitional relief under the Treaty may be available.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion summarizes the material United States federal income tax consequences, under current law, applicable to a U.S. Holder (as defined below) of the Company's common stock. This discussion does not address consequences peculiar to persons subject to special provisions of federal income tax law, such as tax-exempt organizations, qualified retirement plans, financial institutions, insurance companies, real estate investment trusts, regulated investment companies, broker-dealers, nonresident alien individuals or foreign corporations, or shareholders owning common stock representing 10% of the vote and value of the Company. In addition, this discussion does not cover any state, local or foreign tax consequences.

The following discussion is based upon the sections of the Internal Revenue Code of 1986, as amended (the "Code"), Treasury Regulations, published Internal Revenue Service ("IRS") rulings, published administrative positions of the IRS and court decisions that are currently applicable, any or all of which could be materially and adversely changed, possibly on a retroactive basis, at any time. In addition, this discussion does not consider the potential effects, both adverse and beneficial of recently proposed legislation which, if enacted, could be applied, possibly on a retroactive basis, at any time. Holders and prospective holders of the Company's Common Stock should consult their own tax advisors about the federal, state, local and foreign tax consequences of purchasing, owning and disposing of shares of Common Stock of the Company.

U.S. HOLDERS

As used herein, a "U.S. Holder" is defined as (i) citizens or residents of the U.S., or any state thereof, (ii) a corporation or other entity created or organized under the laws of the U.S., or any political subdivision thereof, (iii) an estate the income of which is subject to U.S. federal income tax

Edgar Filing: IMA EXPLORATION INC - Form 20-F

regardless of source or that is otherwise subject to U.S. federal income tax on a net income basis in respect of the common stock, or (iv) a trust whose administration is subject to the primary supervision of a U.S. court and which has one or more U.S. fiduciaries who have the authority to control all substantial decisions of the trust, whose ownership of common stock is not effectively connected with the conduct of a trade or business in the United States and shareholders who acquired their stock through the exercise of employee stock options or otherwise as compensation.

DISTRIBUTIONS ON SHARES OF COMMON STOCK

U.S. Holders receiving dividend distributions (including constructive dividends) with respect to the Company's common stock are required to include in gross income for United States federal income tax purposes the gross amount of such distributions to the extent that the Company has current or accumulated earnings and profits, without reduction for any Canadian income tax withheld from such distributions. Such Canadian tax withheld may be credited, subject to certain limitations, against the U.S. Holder's United States federal income tax liability or, alternatively, may be deducted in computing the U.S. Holder's United States federal taxable income by those who

- 58 -

itemize deductions. (See more detailed discussion at "Foreign Tax Credit" below.) To the extent that distributions exceed current or accumulated earnings and profits of the Company, they will be treated first as a return of capital up to the U.S. Holder's adjusted basis in the common stock and thereafter as gain from the sale or exchange of such shares. Preferential tax rates for long-term capital gains are applicable to a U.S. Holder which is an individual, estate or trust. There are currently no preferential tax rates for long-term capital gains for a U.S. Holder which is a corporation. Dividends paid on the Company's common stock will not generally be eligible for the dividends received deduction provided to corporations receiving dividends from certain United States corporations.

FOREIGN TAX CREDIT

A U.S. Holder who pays (or has withheld from distributions) Canadian income tax with respect to the ownership of the Company's common stock may be entitled, at the option of the U.S. Holder, to either a deduction or a tax credit for such foreign tax paid or withheld. Generally, it will be more advantageous to claim a credit because a credit reduces United States federal income taxes on a dollar-for-dollar basis, while a deduction merely reduces the taxpayer's income subject to tax. This election is made on a year-by-year basis and applies to all foreign taxes paid by (or withheld from) the U.S. Holder during that year. Subject to certain limitations, Canadian taxes withheld will be eligible for credit against the U.S. Holder's United States federal income taxes. Under the Code, the limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. Dividends paid by the Company generally will be either "passive" income or "financial services" income, depending on the particular U.S. Holder's circumstances. Foreign tax credits allowable with respect to each class of income cannot exceed the U.S. federal income tax otherwise payable with respect to such class of income. The consequences of the separate limitations will depend on the nature and sources of each U.S. Holder's income and the deductions appropriately allocated or apportioned thereto. The availability of the foreign tax credit and the application of the limitations on the credit are fact specific and holders and prospective holders of common stock should consult their own tax advisors regarding their individual circumstances.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

DISPOSITION OF SHARES OF COMMON STOCK

A U.S. Holder will recognize gain or loss upon the sale of shares of common stock equal to the difference, if any, between (i) the amount of cash plus the fair market value of any property received; and (ii) the shareholder's tax basis in the common stock. This gain or loss will be capital gain or loss if the shares are a capital asset in the hands of the U.S. Holder, and such gain or loss will be long-term capital gain or loss if the U.S. Holder has held the common stock for more than one year. Gains and losses are netted and combined according to special rules in arriving at the overall capital gain or loss for a particular tax year. Deductions for net capital losses are subject to significant limitations. For U.S. Holders who are individuals, any unused portion of such net capital loss may be carried over to be used in later tax years until such net capital loss is thereby exhausted. For U.S. Holders which are corporations (other than corporations subject to Subchapter S of the Code), an unused net capital loss may be carried back three years from the loss year and carried forward five years from the loss year to be offset against capital gains until such net capital loss is thereby exhausted.

OTHER CONSIDERATIONS

The Company has not determined whether it meets the definition of a "passive foreign investment company" (a "PFIC"). It is unlikely that the Company meets the definition of a "foreign personal holding company" (a "FPHC") or a "controlled foreign corporation" (a "CFC") under current U.S. law.

If more than 50% of the voting power or value of the Company were owned (actually or constructively) by U.S. Holders who each owned (actually or constructively) 10% or more of the voting power of the Company's common shares ("10% Shareholders"), then the Company would become a CFC and each 10% Shareholder would be required to include in its taxable income as a constructive dividend an amount equal to its share of certain undistributed income of the Company. If (1) more than 50% of the voting power or value of the Company's common shares were owned (actually or constructively) by five or fewer individuals who are citizens or residents of the United States and (2) 60% or more of the Company's income consisted of certain interest, dividend or other enumerated types of income, then the Company would be a FPHC. If the Company were a FPHC, then each U.S. Holder (regardless of the amount of the Company's Common Shares owned by such U.S. Holder) would be required to include in its taxable income as a constructive dividend its share of the Company's undistributed income of specific types.

- 59 -

If 75% or more of the Company's annual gross income has ever consisted of, or ever consists of, "passive" income or if 50% or more of the average value of the Company's assets in any year has ever consisted of, or ever consists of, assets that produce, or are held for the production of, such "passive" income, then the Company would be or would become a PFIC. The Company has not provided assurances that it has not been and does not expect to become a PFIC. Please note that the application of the PFIC provisions of the Code to mining companies is somewhat unclear.

If the Company were to be a PFIC, then a U.S. Holder would be required to pay an interest charge together with tax calculated at maximum tax rates on certain "excess distributions" (defined to include gain on the sale of stock) unless such U.S. Holder made an election either to (1) include in his or her taxable income certain undistributed amounts of the Company's income or (2) mark to

Edgar Filing: IMA EXPLORATION INC - Form 20-F

market his or her Company common shares at the end of each taxable year as set forth in Section 1296 of the Internal Revenue Code of 1986, as amended. The elections require certain conditions be met such as filing on or before the due date, as extended, for filing the shareholder's income tax return for the first taxable year to which the election will apply.

INFORMATION REPORTING AND BACKUP WITHHOLDING

U.S. information reporting requirements may apply with respect to the payment of dividends to U.S. Holders of the Company's shares. Under Treasury regulations currently in effect, non-corporate holders may be subject to backup withholding at a 31% rate with respect to dividends when such holder (1) fails to furnish or certify a correct taxpayer identification number to the payor in the required manner, (2) is notified by the IRS that it has failed to report payments of interest or dividends properly or (3) fails, under certain circumstances, to certify that it has been notified by the IRS that it is subject to backup withholding for failure to report interest and dividend payments.

PRE-APPROVAL POLICIES AND PROCEDURES

particular service) and the audit committee has been informed of any such engagement and service.

Since January 1, 2005, the Company's auditors have not billed the Company for audit related services in connection with the reorganization.

Beginning July 1, 2004, the Company's audit committee obtained estimates for services to be performed, prior to engaging the Company's auditor to perform any audit or non-audit related services, including those set forth above. The audit committee also allowed the engagement of the auditor, by a non-independent member of the board of directors, to render services pursuant to pre-approval policies and procedures established by the audit committee (which are detailed as to the particular service), provided the audit committee is informed of any such engagement and service. The audit committee may delegate to one of its members, who is also an independent director of the Company, the ability to approve such services on behalf of the audit committee. Any approval by such director shall be ratified by the audit committee at its next scheduled meeting.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Edgar Filing: IMA EXPLORATION INC - Form 20-F

FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004
(EXPRESSED IN CANADIAN DOLLARS)

1. NATURE OF OPERATIONS AND CONTINGENCY

IMA Exploration Inc. (the "Company") is a natural resource company engaged in the business of acquisition, exploration and development of mineral properties in Argentina. The Company presently has no proven or probable reserves and on the basis of information to date, it has not yet determined whether these properties contain economically recoverable ore reserves. Consequently the Company considers itself to be an exploration stage company. The amounts that were shown as mineral properties and deferred costs represent costs incurred to date, less amounts amortized and/or written off, and do not necessarily represent present or future values. As at December 31, 2006 the Company had no mineral property interests other than the Navidad Interest. The Company considers that it has adequate resources to maintain its core operations for the next fiscal year.

On March 5, 2004, Aquiline Resources Inc. ("Aquiline"), through its subsidiary, Minera Aquiline Argentina SA, filed a claim in the Supreme Court of British Columbia against the Company seeking a constructive trust over the Navidad properties and damages. On July 14, 2006 the court released its judgment on the claim. The Company was not successful in its defense and the court found in Aquiline's favour.

The Order reads in part:

- "(a) that Inversiones Mineras Argentinas SA ("IMA SA") transfer the Navidad Claims and any assets related thereto to Minera Aquiline or its nominee within 60 days of this order;
- (b) that IMA take any and all steps required to cause IMA SA to comply with the terms of this order;
- (c) that the transfer of the Navidad Claims and any assets related thereto is subject to the payment to IMA SA of all reasonable amounts expended by IMA SA for the acquisition and development of the Navidad Claims to date; and
- (d) any accounting necessary to determine the reasonableness of the expenditures referred to in (c) above shall be by reference to the Registrar of this court."

The Company has filed an appeal of this judgment. The Company recognizes that this will take a substantial period of time and the costs will be significant, with no guarantee of a successful outcome for the Company. The Company has not provided for any future legal costs and will expense the legal costs of the appeal as they occur (see Note 2).

On October 18, 2006, the Company and Aquiline reached a definitive agreement for the orderly conduct of the Navidad Project pending the determination of the appeal by the Company against the judgment of the trial court. The parties have agreed that the transactions outlined in the agreement are in satisfaction of the Order referenced above. The principal terms and conditions of the agreement are as follows:

- (a) control of the Navidad Project will be transferred to Aquiline in trust for the ultimately successful party in the appeal;
- (b) the Company and Aquiline have agreed to the costs spent to date developing the Navidad Project in the amount of

Edgar Filing: IMA EXPLORATION INC - Form 20-F

\$18,500,000. Upon transfer of control of the Navidad Project, Aquiline paid \$7,500,000 of the costs into trust and the balance will be expended by Aquiline in developing the Navidad Project during the period of the appeal and secured under the terms of the trust conditions;

- (c) in the event that the Company is unsuccessful on appeal, the Company will be paid such \$18,500,000 amount, less legal costs Aquiline would be entitled to in relation to the trial and the appeal.

1. NATURE OF OPERATIONS AND CONTINGENCY (continued)

- (d) in the event that the Company's appeal is successful, it will pay Aquiline's qualifying costs expended on developing the Navidad Project during the period of the appeal, less legal costs the Company would be entitled to in relation to the trial and the appeal, and control of the Navidad Project will then revert to the Company; and
- (e) pending finalization of the appeal process, neither party will attempt a hostile takeover of the other.

The effective date of the transfer of the Navidad project was November 16, 2006. A copy of the agreement has been posted on the SEDAR website as one of the Company's public documents and is titled "Interim Project Development Agreement".

2. MEASUREMENT UNCERTAINTY AND NAVIDAD INTEREST

As discussed in Note 1 above, under the terms of the July 14, 2006 court order the Company's ownership of the Navidad project has been transferred to Aquiline and the Company accordingly cautions readers that until the British Columbia Court of Appeal rules on the matter the Company may only recover the costs incurred in the development of the Navidad project.

Upon the transfer of the Navidad property interest to Aquiline the Related Future Income Liabilities, which related to differences between the tax values of certain mineral properties expenditures and their accounting values, are no longer a liability of the Company. As at December 31, 2006, the Company has recorded a Navidad interest balance of \$17,949,521, the components of which are as follows:

	\$
Mineral properties and deferred costs	17,763,521
Marketable securities (Note 5)	186,000

Navidad interest	17,949,521

=====

As discussed in Note 1 above, in the event that the Company is unsuccessful on appeal, the Company will be paid \$18,500,000 as consideration for these assets, less legal costs Aquiline would be entitled to in relation to the trial and the appeal. In the event that the legal costs that Aquiline may become entitled to are significant, the recoverability of the costs reflected as Navidad interest may be impaired. Such impairment may be material. However, at the current time, the Company is unable to determine with any degree of certainty what the final outcome of the appeal process may be, and if the Company is unsuccessful, what legal costs may be awarded to Aquiline by the court. Accordingly, the Company has not made any adjustments to the carrying value of the Navidad interest balance at December 31, 2006.

The carrying value of the components of the Navidad interest balance will be reviewed in subsequent periods and adjusted if circumstances suggest that the full amount may not be recoverable and an appropriate amount expensed for impairment when such amounts can be reasonably determined.

The Company expensed Navidad holding costs of \$312,349 in the year ended December 31, 2006. These costs are comprised of:

- i) costs incurred in order to maintain basic operations in Argentina subsequent to the transfer of control of the Navidad project to Aquiline; and
- ii) costs incurred in the period between the date of the judgment and the transfer of control of the Navidad project to Aquiline that would normally have been included in mineral properties and deferred costs.

The Company expects to incur additional costs until the Aquiline litigation is settled.

3. SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"). The significant measurement differences between those principles and those that would be applied under United States generally accepted accounting principles ("US GAAP") as they affect the Company are disclosed in Note 11.

USE OF ESTIMATES

The preparation of financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect

Edgar Filing: IMA EXPLORATION INC - Form 20-F

the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Significant areas requiring the use of management estimates include the recoverability of the Navidad interest balance (see Note 2 above), the determination of environmental obligations, and the assumptions used in the determination of the fair value of stock based compensation. Actual results may differ from these estimates.

PRINCIPLES OF CONSOLIDATION

These consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly owned. All inter-company transactions and balances have been eliminated.

SHORT-TERM INVESTMENTS

Short-term investments include money market investments maturing between 3 and 12 months from the date of initial investment.

MARKETABLE SECURITIES

Marketable securities are carried at the lower of cost and market.

MINERAL PROPERTIES AND DEFERRED COSTS

Direct costs related to the acquisition and exploration of mineral properties held or controlled by the Company are deferred on an individual property basis until the viability of a property is determined. Administration costs and general exploration costs are expensed as incurred. When a property is placed in commercial production, deferred costs will be depleted using the units-of-production method. Management of the Company periodically reviews the recoverability of the capitalized mineral properties. Management takes into consideration various information including, but not limited to, results of exploration activities conducted to date, estimated future metal prices, and reports and opinions of outside geologists, mine engineers and consultants. When it is determined that a project or property will be abandoned then the costs are written-off, or if its carrying value has been impaired, then the mineral properties and deferred costs are written down to fair value.

The Company accounts for foreign value added taxes paid as part of mineral properties and deferred costs. The recovery of these taxes will commence on the beginning of foreign commercial operations. Should these amounts be recovered they would be treated as a reduction in carrying costs of mineral properties and deferred costs.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Edgar Filing: IMA EXPLORATION INC - Form 20-F

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

From time to time, the Company acquires or disposes of properties pursuant to the terms of option agreements. Options are exercisable entirely at the discretion of the optionee and, accordingly, are recorded as mineral property costs or recoveries when the payments are made or received. After costs are recovered, the balance of the payments received are recorded as a gain on option or disposition of mineral property.

ASSET RETIREMENT OBLIGATIONS

Asset retirement obligations are recognized when a legal or constructive obligation arises. This liability is recognized at the fair value of the asset retirement obligation. When the liability is initially recorded the Company capitalizes the cost by increasing the carrying amount of the related long-lived assets. Over time the liability is accreted to its present value each period, and the capitalized cost is amortized on the same basis as the related asset. Upon settlement of the liability, the Company may incur a gain or loss. As at December 31, 2006 the Company does not have any asset retirement obligations.

IMPAIRMENT OF LONG-LIVED ASSETS

Long-lived assets are reviewed for impairment when events or circumstances suggest their carrying value has become impaired. Management considers assets to be impaired if the carrying value exceeds the estimated undiscounted future projected cash flows to result from the use of the asset and its eventual disposition. If impairment is deemed to exist, the assets will be written down to fair value. Fair value is generally determined using a discounted cash flow analysis.

TRANSLATION OF FOREIGN CURRENCIES

The Company's foreign operations are integrated and are translated using the temporal method. Under this method, the Company translates monetary assets and liabilities denominated in foreign currencies at period-end rates. Non-monetary assets and liabilities are translated at historical rates. Revenues and expenses are translated at average rates in effect during the period except for depreciation and amortization which are translated at historical rates. The resulting gains or losses are reflected in operating results in the period of translation.

CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash, short-term investments and other receivables. The Company limits its exposure to credit loss by placing its cash and short-term investments with major financial institutions.

FAIR VALUES OF FINANCIAL INSTRUMENTS

The fair value of the Company's financial instruments consisting of cash, short-term investments, other receivables and accounts payable

Edgar Filing: IMA EXPLORATION INC - Form 20-F

and accrued liabilities approximate their carrying values due to the short-term nature of those instruments.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

INCOME TAXES

The Company uses the liability method of accounting for future income taxes. Under this method of tax allocation, future income tax liabilities and assets are recognized for the estimated tax consequences attributable to differences between the amounts reported in the consolidated financial statements and their respective tax bases, using substantively enacted tax rates and laws that are expected to be in effect in the periods in which the future income tax assets or liabilities are expected to be settled or realized. The effect of a change in income tax rates on future income tax liabilities and assets is recognized in income in the period that the change occurs. Potential future income tax assets are not recognized to the extent that they are not considered more likely than not to be realized.

LOSS PER SHARE

Loss per share is calculated based on the weighted average number of common shares issued and outstanding during the year. In years in which a loss is incurred, the effect of potential issuances of shares under options and warrants would be anti-dilutive and therefore basic and diluted losses per share are the same. Information regarding securities that could potentially dilute basic earnings per share in the future is presented in Note 6.

STOCK BASED COMPENSATION

The Company has an employee stock option plan. The Company recognizes an expense or addition to exploration properties and deferred exploration expenditures arising from stock options granted to both employees and non-employees using the fair value method. The fair value of option grants is established at the date of grant using a Black Scholes option pricing model and the expense or addition to mineral properties is recognized over the option vesting period.

COMPARATIVE FIGURES

Certain of the prior year comparatives have been reclassified to conform with the current year's presentation.

4. SHORT-TERM INVESTMENTS

The Company acquired the marketable securities as a result of entering into option and sale agreements for certain of its non-core mineral property holdings relating to the Navidad Project for which the Company received common shares of publicly traded companies as partial consideration. These marketable securities were subject to transfer to Aquiline in relation to the July 2006 court order (see Note 1 above). Accordingly, at December 31, 2006, the carrying value of these marketable securities has been reclassified as a component of the Navidad interest balance (see Note 2 above).

During fiscal 2006, the Company granted 273,000 stock options (2005 - 1,360,000; 2004 - 1,512,000). The fair value of stock options granted is estimated on the dates of grants using the Black-Scholes Option Pricing Model with the following assumptions used for the grants made during the year:

	2006 ----	2005 ----
Risk-free interest rate	4.0%	3.3% - 3.7%
Estimated volatility	70%	70% - 77%
Expected life	2.5 years	2.5 years
Expected dividend yield	0%	0%

For 2006, stock based compensation of \$393,120 (2005: \$2,380,000; 2004: \$1,972,860) was recorded by the Company, of which \$393,120 (2005: \$1,800,000; 2004: \$1,972,860) is included in expenses and Nil (2005: \$580,000; 2004: Nil) is included in capitalized mineral property expenditures, with a corresponding increase in contributed surplus.

Edgar Filing: IMA EXPLORATION INC - Form 20-F

The weighted average fair value per share of stock options granted during the year was \$1.44 per share (2005 - \$1.76; 2004 - \$1.28). Option pricing models require the use of estimates and assumptions including the expected volatility. Changes in the underlying assumptions can materially affect the fair value estimates and, therefore, existing models do not necessarily provide reliable measure of the fair value of the Company's stock options.

The total compensation paid to the President in 2006 was \$350,667. This amount is included in the total amount paid to directors and officers discussed in Note 8(b) above.

In the event the contract is terminated by the Company or as a result of a change of control, a payment is payable to the President consisting of (i) any monthly compensation due to the date of termination, (ii) options as determined by the board of directors (iii) three years of monthly compensation (which may be adjusted annually) and (iv) bonus of \$461,500. i) Mineral Properties and Deferred Costs

Mineral properties and deferred costs are accounted for in accordance with Canadian GAAP as disclosed in Note 3. For US GAAP purposes, the Company expenses exploration costs relating to unproven mineral properties as incurred, and reverses any associated future income tax liabilities. When proven and probable reserves are determined for a property, subsequent exploration and development costs of the property are capitalized.

ii) Investments

For the 2005 fiscal year, the Company's marketable securities

Edgar Filing: IMA EXPLORATION INC - Form 20-F

were classified as available-for-sale investments under US GAAP and carried at the lower of cost and market value for Canadian GAAP purposes. Such investments are not held principally for the purpose of selling in the near term and, for US GAAP purposes, must have holding gains and losses reported as a separate component of shareholders' equity until realized or until an other than temporary impairment in value occurs. For the 2006 fiscal year, the Company's marketable securities were classified as available for sale investments under US GAAP until July 14, 2006, the date of the Navidad judgment (see Note 1 above). Subsequently, the marketable securities were transferred to the Navidad interest balance (see Note 2 above).

iii) Comprehensive Income

US GAAP requires disclosure of comprehensive income (loss) which is intended to reflect all other changes in equity except those resulting from contributions by and payments to owners.

iv) Spin-Off of Assets to Golden Arrow

Under Canadian GAAP, a spin-off of assets is accounted for and disclosed in accordance with CICA Handbook Section 3475 "Disposal of Long-Lived Assets and Discontinued Operations". Under US GAAP, such a spin-off would be accounted for and disclosed as a dividend in kind and would not require separate carve-out of results in the statements of operations and cash flows nor separate balance sheet classification.

v) Recent Accounting Pronouncements

FINANCIAL INSTRUMENTS

On January 27, 2005, the CICA issued Section 3855 of the Handbook titled "Financial Instruments - Recognition and Measurement". It expands Handbook section 3860, "Financial Instruments - Disclosure and Presentation" by prescribing when a financial instrument is to be recognized on the balance sheet and at what amount. It also specifies how financial instrument gains and losses are to be presented. All financial instruments will be required to be classified into various categories. Held to maturity investments, loans and receivables are measured at amortized cost with amortization of premium or discounts and losses and impairment included in current period interest income or expense. Held for trading financial assets and liabilities are measured at fair market

Edgar Filing: IMA EXPLORATION INC - Form 20-F

value with all gains and losses included in net income in the period in which they arise. All available for sale financial assets are measured at fair market value with revaluation gains and losses included in other comprehensive income until the asset is removed from the balance sheet except that other than temporary losses due to impairment are included in net income. All other financial liabilities are to be carried at amortized cost. This new Handbook section will bring Canadian GAAP more in line with U.S. GAAP. The mandatory effective date is for fiscal years beginning on or after October 1, 2006. At present, the Company's most significant financial instruments are cash, short-term investments, other receivables and accounts payable. The Company will adopt this Handbook section in its fiscal 2007 year. The Company is currently reviewing the section to determine the potential impact, if any, on its consolidated financial statements.

HEDGE ACCOUNTING

Handbook Section 3865, "Hedges" provides alternative treatments to Handbook Section 3855 for entities which choose to designate qualifying transactions as hedges for accounting purposes. The effective date of this section is for fiscal years beginning on or after October 1, 2006.

The Company does not currently have any hedging relationships.

COMPREHENSIVE INCOME

New Handbook Section 1530, "Comprehensive Income", introduces a new requirement to temporarily present certain gains and losses outside of income. Section 1530 defines comprehensive income as a change in value of net assets that is not due to owner activities. Assets that are classified as available for sale will have revaluation gains and losses included in other comprehensive income until the asset is removed from the balance sheet.

11. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (continued)

At present, the Company has investments in shares of arm's length corporations that may be classified as available for sale investments. The Company would be required to recognize unrealized gains and losses on these securities and include these amounts in comprehensive income. The effective date of this section is for fiscal years beginning on or after October 1, 2006. Implementation of this section will more closely align Canadian GAAP with U.S. GAAP.

ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

In July 2006, the Financial Accounting Standards Board (FASB) issued FIN 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement 109. This Interpretation applies to all tax positions related to income taxes subject to SFAS 109, Accounting for Income Taxes. FIN 48 uses a two-step approach for evaluating tax positions. The first step, recognition, occurs when an enterprise concludes that a tax position, based solely on its technical merits, is more likely than not to be sustained upon examination. The second step, measurement, is only addressed if the recognition threshold is met; under this step, the tax benefit is measured as the largest amount of the benefit, determined on a cumulative probability basis, that is more likely than not to be realized upon settlement. FIN 48's use of the term "more likely than not" represents a greater than 50 percent likelihood of occurrence.

The cumulative effect of applying the provisions of this Interpretation shall be reported as an adjustment to the opening balance of retained earnings for fiscal year in which the enterprise adopts the Interpretation. FIN 48 is effective for fiscal years beginning after December 15, 2006. Earlier application is permitted if the reporting enterprise has not publicly issued financial statements, including interim financial statements, for that fiscal year. Accordingly, the Company will adopt the provisions of this Interpretation in its fiscal 2007 year. The Company is currently reviewing the provisions to determine the potential impact, if any, on its consolidated financial statements

FAIR VALUE MEASUREMENTS

In September 2006, FASB issued SFAS No. 157, "Fair Value Measurements", which establishes a framework for measuring fair value. It also expands disclosures about fair value measurements and is effective for the first quarter of 2008. The Company is currently reviewing the guidance to determine the potential impact, if any, on its consolidated financial statements.

13. SPIN-OFF OF ASSETS

On July 7, 2004, the Company completed a corporate restructuring plan (the "Reorganization") which resulted in dividing the Company's assets and liabilities into two separate companies. Following the Reorganization the Company continued to hold the Navidad Area properties, while all other mineral property interests, certain marketable securities and cash were spun-off to Golden Arrow, a newly created company. The Navidad project, located in the province of Chubut Argentina, was staked by the Company in late 2002 and continues to be the focus of the Company's activities. The Reorganization of the Company was accomplished by way of a statutory plan of arrangement. The shareholders of the Company were issued shares in Golden Arrow on the basis of one Golden Arrow share for ten shares of the Company. On completion of the Reorganization, the Company transferred to Golden Arrow:

- i) all of the Company's investment in its mineral properties, excluding the Navidad project and Navidad Area properties and related future income tax liabilities;
- ii) the assets and liabilities of IMPSA Resources (BVI) Inc., Inversiones Mineras Argentinas Holdings (BVI) Inc., both wholly-owned subsidiaries of the Company, and IMPSA Resources Corporation, an 80.69% owned subsidiary of the Company;
- iii) certain marketable securities at their recorded values; and
- iv) cash

Edgar Filing: IMA EXPLORATION INC - Form 20-F

The aggregate carrying amount of the net assets transferred from the Company to Golden Arrow during 2004 is as follows:

	2004 \$
Cash	1,020,189
Marketable securities and other current assets and liabilities	548,841
Mineral properties and deferred cost and equipment	6,874,960
Future income tax liabilities	(1,079,112)

	7,364,878
	=====

During 2005 the Company paid \$145,866 to Golden Arrow from the exercise of warrants of the Company that resulted in the issue of Golden Arrow shares as required by the terms of the Reorganization. As all warrants that were outstanding as of the effective date of the reorganization have been exercised the Company has no further obligation to pay amounts to Golden Arrow for the issue of its shares on the exercise of the Company's warrants.

13. SPIN-OFF OF ASSETS (continued)

The Company's comparative amounts in the Statement of Operations and Deficit include an allocation of general and administrative expenses as Loss allocated to spin-off assets. The allocation was calculated on the basis of the ratio of the specific assets transferred to assets retained. Certain "Other Income and Expense" items have been allocated to spin-off assets on a cost specific basis.

As a condition of the Reorganization, Golden Arrow became a party to the Aquiline litigation (see Notes 1 and 2 above). The Company provided Golden Arrow with an indemnification that will compensate for any payment or cost Golden Arrow might have to pay in the event of an award against the Company and/or Golden Arrow. Accordingly, no amounts related to this action have been accrued in these financial statements at December 31, 2006.
