Item 6. Management's Discussion and Analysis or Plan of Operation.

FORWARD-LOOKING STATEMENTS MAY NOT PROVE ACCURATE

When used in this Form 10-KSB, the words "anticipated", "estimate", "expect", and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions including the possibility that the Company's will fail to generate projected revenues. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected.

LIQUIDITY AND CAPITAL RESOURCES

Since inception, the Company has experienced no significant change in liquidity or capital resources or stockholders' equity other than receipts of proceeds from offerings of its capital stock. The Company received \$230,000 from an offering conducted under Rule 504 of Regulation D in 1999. The Company also raised \$158,354 from the issuance of 7,200,000 shares of the Company's common stock prior to 1997. In 1997, the Company raised an additional \$345,000 from the sale of its common stock. The Company's balance sheet as of December 31, 2004 reflects very limited assets and substantial liabilities. Further, there exist no agreements or understandings with regard to loan agreements by or with the Officers, Directors, principals, affiliates or shareholders of the Company.

At December 31, 2005, the Company had negative working capital of approximately (\$268,000) which consisted of no assets and current liabilities of approximately (\$268,000). At December 31, 2004, the Company had no assets and current liabilities of approximately \$242,000, resulting in negative working capital of approximately (\$242,000). The current liabilities of the Company at December 31, 2005 are composed primarily of accounts payable for legal and accounting expenses of approximately \$172,000 and amounts owed to its majority shareholder, Crown, of approximately \$96,000.

4

The Company will attempt to carry out its plan of business as discussed above. The Company cannot predict to what extent its lack of liquidity and capital resources will hinder its business plan. The Company needs to pay for its proposed acquisition of SSH and will need additional capital to fund that proposed operation.

Edgar Filing: 20/20 NETWORKS INC - Form 10KSB

RESULTS OF OPERATIONS

During the period from August 31, 1995 (inception) through December 31, 2005, the Company engaged in limited operations and attempted to commence operations in a number of different fields, none of which was ultimately successful or resulted in any appreciable revenues for the Company. For the years ended December 31, 2005 and 2004, the Company had no revenues. For the year ended December 31, 2005, the Company had general and administrative expenses of approximately \$46,000 resulting in a net loss of approximately (\$46,000). For the year ended December 31, 2004, the Company had general and administrative expenses of approximately \$1,527,680, resulting in a net loss of approximately (\$1,527,680). The difference in expenses between the two periods resulted from the Company hiring consultants in 2004 in an effort to develop various business opportunities presented to it. The net loss per share was (\$.00) and (\$.33), respectively, for the years ended December 31, 2005 and 2004.

For the year ended December 31, 2005, the Company had no assets and current liabilities of approximately \$268,000. For the year ended December 31, 2004, the Company had no assets and current liabilities of approximately \$242,000. Shareholders' (deficit) for the year ended December 31, 2005 was approximately (\$268,000) compared to shareholders' (deficit) of approximately (\$242,000) at December 31, 2004.

The Company anticipates that until a business combination is completed with an acquisition candidate, it will not generate revenues and may operate at a loss after completing a business combination, depending upon the performance of the acquired business.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of the financial condition, changes in financial condition and results of operations of the Company for the fiscal years ended December 31, 2005 and 2004 should be read in conjunction with the financial statements of the Company and related notes included therein.

The Company was incorporated on August 31, 1995 as Visioneering Corporation. On January 12, 1996, the Company amended its Articles of Incorporation to change its name to Asiamerica Energy Corporation, to Care Financial Corporation in April 29, 1996 and to Trump Oil Corporation on May 15, 1997. In March, 1999, the Company entered into a letter of intent to acquire 20/20 Web Design, Inc., a Colorado corporation wholly owned by Stein's Holdings, Inc. fka Multi-Source Capital, Ltd. As part of that transaction, the Company issued 8,620,000 shares of its common stock to Stein's with the result that Stein's owns 80% of the issued and outstanding shares of the Company. The Company also approved a ten-for-one reverse stock split as part of that transaction.

5

Since the agreements described above, the Company has financed its activities through the distribution of equity capital, including private placements of its common stock resulting in the Company raising capital of \$749,494 from 1995 to the present. The Company used the proceeds from these offerings to fund its proposed operations, to pay salaries, to pay general and administrative expenses and any necessary expenses.

The Company entered into an agreement to acquire Sanitec(TM) Services of Hawaii, Inc. ("SSH") from its majority shareholder, Crown Partners, Inc., in November, 2003. The Company was unable to secure the funding necessary to complete this transaction and SSH ceased operations in May, 2005.

Edgar Filing: 20/20 NETWORKS INC - Form 10KSB

The Company will attempt to carry out its business plan as discussed above. The Company cannot predict to what extent its lack of liquidity and capital resources will hinder its business plan prior to the consummation of a business combination.

NEED FOR ADDITIONAL FINANCING

The Company's existing capital is not sufficient to meet the Company's cash needs, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended. Once a business combination is completed, the Company's needs for additional financing are likely to increase substantially. It is anticipated that Crown will likely advance any funds necessary to insure that the Company is able to meet its reporting obligations under the 1934 Act and that these loans will be repaid either when the Company merges or acquires a business. However, Crown has not agreed in writing to provide these funds and can only provide these funds to the extent that it has available funds to loan to the Company.

No commitments to provide additional funds have been made by management or other stockholders. Accordingly, there can be no assurance that any funds will be available to the Company to allow it to cover its expenses.

The Company might seek to compensate providers of services by issuances of stock in lieu of cash.

The Company is presently inactive and since inception has experienced no significant change in liquidity or capital resources or stockholders' equity other than the receipt of proceeds from offerings conducted under Rule 504 of Regulation D. The Company's balance sheet as of December 31, 2005 reflects no assets and extensive liabilities. Further, there exists no agreements or understandings with regard to loan agreements by or with the Officers, Directors, principals, affiliates or shareholders of the Company.

6

Effect of Inflation

Inflation did not have any significant effect on the operations of the Company during the year ended December 31, 2005. Further, inflation is not expected to have any significant effect on future operations of the Company.

CONFLICTS OF INTEREST

The Officers and Directors of the Company will devote only a small portion of their time to the affairs of the Company, estimated to be no more than approximately 5 hours per month. There will be occasions when the time requirements of the Company's business conflict with the demands of their other business and investment activities. Such conflicts may require that the Company attempt to employ additional personnel. There is no assurance that the services of such persons will be available or that they can be obtained upon terms favorable to the Company.

There is no procedure in place which would allow the Officers and Directors to resolve potential conflicts in an arms-length fashion. Accordingly, they will be required to use their discretion to resolve them in a manner which they consider appropriate.

The Company's Officers and Directors may actively negotiate or otherwise consent to the purchase of a portion of their common stock as a condition to, or in connection with, a proposed merger or acquisition transaction. It is anticipated that a substantial premium over the initial cost of such shares may be paid by the purchaser in conjunction with any sale of shares by the Company's Officers and Directors which is made as a condition to, or in connection with, a proposed merger or acquisition transaction. The fact that a substantial premium may be paid to the Company's Officers and Directors to acquire their shares creates a

Edgar Filing: 20/20 NETWORKS INC - Form 10KSB

potential conflict of interest for them in satisfying their fiduciary duties to the Company and its other shareholders. Even though such a sale could result in a substantial profit to them, they would be legally required to make the decision based upon the best interests of the Company and the Company's other shareholders, rather than their own personal pecuniary benefit.

The Company has no compensatory plan or arrangements, including payments to be received from the Company, with respect to any executive officer or director, where such plan or arrangement would result in any compensation or remuneration being paid resulting from the resignation, retirement or any other termination of such executive officer's employment or from a change-in-control of the Company or a change in such executive officer's responsibilities following a change-in-control and the amount, including all periodic payments or installments where the value of such compensation or remuneration exceeds \$100,000 per executive officer.

During the last completed fiscal year, no funds were set aside or accrued by the Company to provide pension, retirement or similar benefits for Directors or Executive Officers.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
Micro Bio-Medical Waste Systems, Inc.
Woodland Hills, California

We have audited the accompanying balance sheet of Micro Bio-Medical Waste Systems, Inc. as of December 31, 2005, and the related statements of operations, stockholders' deficit, and cash flows for each of the two years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial

Edgar Filing: 20/20 NETWORKS INC - Form 10KSB

statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amount and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Micro Bio-Medical Waste Systems, Inc. as of December 31, 2004, and the results of its operations and its cash flows for each of the two years then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the financial statements, the Company's recurring losses from operations and the need to raise additional financing in order to satisfy its vendors and other creditors and execute its Business Plan raise substantial doubt about its ability to continue as a going concern. Management's plans as to these matters are also described in Note 2. The 2005 financial statements do not include any adjustments that might result from the outcome of this uncertainty.

MICRO BIO-MEDICAL WASTE SYSTEMS, INC. NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF ACCOUNTING POLICIES

Nature of business

Micro Bio-Medical Waste Systems, Inc. (Formerly 20/20 Networks, Inc.) referred to as "Micro Bio-Medical" was incorporated in August 1995 in Nevada. Micro Bio-Medical is in the business of managing and acquiring subsidiary corporations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the balance sheet. Actual results could differ from those estimates.

Basic Loss Per Share

Basic loss per share has been calculated based on the weighted average number of shares of common stock outstanding during the period.

Income Taxes

The asset and liability approach is used to account for income taxes by recognizing deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Micro Bio-Medical record a valuation allowance to reduce the deferred tax assets to the amount that is more likely than not to be realized.

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and debt. The carrying amount of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these consolidated financial statements.

Recent Accounting Pronouncements

Micro Bio-Medical does not expect the adoption of recently issued accounting pronouncements to have a significant impact on Micro Bio-Medical's results of operations, financial position or cash flow.

NOTE 2 - GOING CONCERN

Micro Bio-Medical has incurred losses totaling \$2,899,649 through December 31, 2005 has a working capital deficit of \$268,179 at December 31, 2005. Because of these conditions, Micro Bio-Medical will require additional working capital to develop business operations. Micro Bio-Medical intends to raise additional working capital either through private placements, public offerings and/or bank financing.

There are no assurances that Micro Bio-Medical will be able to achieve a level of revenues adequate to generate sufficient cash flow from operations or obtain additional financing through private placements, public offerings and/or bank financing necessary to support Micro Bio Medical's working capital requirements. To the extent that funds generated from any private placements, public offerings and/or bank financing are insufficient, Micro Bio Medical will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to Micro Bio Medical. If adequate working capital is not available Micro Bio Medical may not increase its operations.

These conditions raise substantial doubt about Micro Bio Medical's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should Micro Bio Medical be unable to continue as a going concern.

NOTE 3 - INCOME TAXES

The Company follows Statement of Financial Accounting Standards Number 109 (SFAS 109), "Accounting for Income Taxes." Deferred income taxes reflect the net effect of (a) temporary difference between carrying amounts of assets and liabilities for financial purposes and the amounts used for income tax reporting purposes, and (b) net operating loss carryforwards. No net provision for refundable Federal income tax has been made in the accompanying statement of loss because no recoverable taxes were paid previously. Similarly, no deferred tax asset attributable to the net operating loss carryforward has been recognized, as it is not deemed likely to be realized.

The provision for refundable Federal income tax consists of the following:

	December 31, 2005	December 31, 2004
	-----	-----
Refundable Federal income tax attributable to:		
Current Operations	\$ 15,500	\$ 519,000
Less, Change in valuation allowance	(15,500)	(519,000)
	-----	-----
Net refundable amount	\$ --	\$ --
	=====	=====

Edgar Filing: 20/20 NETWORKS INC - Form 10KSB

The cumulative tax effect at the expected rate of 34% of significant items comprising our net deferred tax amount is as follows:

	December 31, 2005
Deferred tax asset attributable to:	
Net operating loss carryover	\$ 695,500
Less, Change in valuation allowance	(695,500)
Net deferred tax asset	\$ -

At December 31, 2005, we had an unused net operating loss carryover approximating \$2,100,000 that is available to offset future taxable income; it expires beginning in 2020.
