ITEM 11. EXECUTIVE COMPENSATION.

COMPENSATION DISCUSSION AND ANALYSIS

Overview of Compensation Program

Our Compensation Committee of the Board of Directors has responsibility for establishing, implementing and continually monitoring adherence with the Company’s compensation philosophy. The Compensation Committee ensures that the total compensation paid to our named executive officers is fair, reasonable and competitive. Generally, the types of compensation and benefits provided to our named executive officers are similar to those provided to other officers and employees of the Company.

Throughout this discussion, the individuals who served as our CEO and CFO during Fiscal 2006, as well as the other individuals included in the Summary Compensation Table on page 10, are referred to as the “named executive officers.”

Objectives of Compensation Program

The main objective of our executive compensation program is to create a competitive total rewards package based on the attainment of short-term performance objectives and long-term strategic goals. Accordingly, our executive compensation program consists of the following three principal elements: base salary, cash bonus and equity grants in the form of stock options and restricted stock, with an emphasis on incentive compensation rather than base salary. Our executives are also eligible to participate in employee benefit and retirement plans offered by the Company, which currently include defined contribution and 401(k) plans, and health care and other insurance programs. The benefit programs available to executives are the same as those available to all other eligible employees.

Decision-Making; Role of Executive Officers in Compensation Decisions

The Compensation Committee of our Board of Directors is comprised solely of non-affiliate independent Directors who meet the independence requirements of the NYSE. Our Compensation Committee makes all decisions regarding the compensation of our CEO, including establishing the performance goals and objectives for our CEO, evaluating our CEO’s performance in light of the goals and objectives that were set, and determining and recommending to our Board the CEO’s compensation based on that evaluation.

Our CEO makes recommendations to our Compensation Committee for the compensation of our CFO and all other named executive officers. Our Compensation Committee and Board may accept or adjust such recommendations as they determine in the best interests of the Company and its stockholders and has final approval over all such compensation decisions. To the extent not established by our Board of Directors, our Compensation Committee is also

authorized to establish compensation and benefits for our Chairman and for new and existing non-affiliate independent Directors.

Our Chairman, CEO, and Vice President of Human Resources provide advice, analysis and recommendations to our Compensation Committee.

Elements of Executive Compensation

Our Compensation Committee also evaluates the achievement of corporate, individual and organizational objectives for each executive officer during the prior fiscal year. Each element of compensation is chosen in order to attract and retain the necessary executive talent, reward corporate performance and provide incentive for the attainment of long-term strategic goals. The allocation of each element of compensation is determined by our Compensation Committee for each executive based on the following factors:

- Performance against corporate, individual and organizational objectives for the fiscal year;
- Importance of particular skill sets and professional abilities to the achievement of long-term strategic goals; and
- Contribution as a leader, corporate representative and member of the senior management team.

These elements support our overall compensation philosophy by creating a balanced focus on shorter-term corporate performance and the achievement of longer-term business goals and stockholder value. While we believe in structuring executive compensation plans that give our executives incentive to deliver certain objective elements of corporate financial performance over specified time periods, we do not believe in a purely mechanical approach. Instead, part of our executive compensation philosophy includes an element of reward for non-quantitative achievements demonstrated by our executives in the actions and decisions they have taken throughout the year. When establishing our executive compensation plans for a given year, it is not possible to foresee all of the challenges and demands that will be made of our executives, both as a management team and in their areas of individual responsibility. We believe that by rewarding the quality of our decision-making and leadership, in addition to the achievement of quantifiable results, we are building a management team capable of creating stockholder value over the longer-term, while remaining disciplined in delivering shorter-term financial results. Accordingly, there is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation. Rather, the Compensation Committee reviews information provided by its compensation consultant, industry surveys and peer company data to determine appropriate level and mix of incentive compensation. Income from such incentive compensation is realized as a result of the performance of the Company and the individual, depending on the type of award, compared to established goals.

Base Salary

Our base salary determinations principally reflect the skills and performance levels of individual executives, the needs of the Company, and pay practices of comparable public companies. It is not our policy to pay our executive officers at the highest base salary level. Instead, we establish executive base salaries conservatively at or below a midpoint level relative to an appropriate set of peers. We believe this policy sets a prudent and fiscally responsible tone for the Company's overall base salary compensation programs.

Target Bonus

Cash bonuses principally reflect the Company's financial performance and achievement of corporate objectives established by our Board prior to the fiscal year. The executive bonus plan is designed to reward our executives for the achievement of shorter-term financial goals, predominantly revenue growth and profitability, with cash flow and other operating ratios also considered. The allocation of the bonus pool among the employees, including senior executives, is at the discretion of the Compensation Committee. The Chief Executive Officer, Chief Financial Officer and other senior executives discuss and jointly develop recommended bonus allocations among the staff within the various functional areas of the Company. In addition, the Chief Executive Officer prepares an allocation of bonus payments among the senior executive group. In consultation with the Chief Executive Officer, the Compensation Committee evaluates, adjusts and approves the amount and allocation of the bonus pool. In determining the cash bonus allocation among senior executives, the Compensation Committee and the Chief Executive Officer consider each executive's a) contribution to current and long-term corporate goals, and b) value in the labor market.

Equity Compensation

Stock option and restricted stock awards principally reflect the responsibilities to be assumed by each executive in the upcoming fiscal year, the responsibilities of each executive in prior periods, the size of awards made to each executive in prior years relative to the Company's overall performance, available stock for issuance under our Option Plan, and potential grants in future years. The Committee believes that stock option and restricted stock grants (1) align the interests of executives with long-term stockholder interests, (2) give executives a significant, long-term interest in the Company's success, and (3) help retain key executives in a competitive market for executive talent. The Company does not plan on issuing stock options as part of compensation in 2007 and beyond.

Equity Ownership by Executives

We do not currently have a formal equity ownership requirement for our executives. However, we encourage our executives to own equity in the Company on a voluntary basis. All of our named executive officers own stock, restricted stock and vested and unvested stock options. We periodically review the vested and unvested equity holdings of our executives and evaluate whether these holdings sufficiently align the interests of our executives with the long-term interests of our stockholders. We may consider adopting equity ownership requirements in the future.

Deferred Compensation Plans

We maintain a non-qualified deferred compensation plan, effective September 10, 2003, for Senior Executive management. Currently, Bradley MacDonald is the only participant in the plan. Under the deferred compensation plan that became effective in 2003, executive officers of the Company, including the Named Executive Officers, may defer a portion of their salary and bonus (performance-based compensation) annually. A participant may elect to receive distributions of the accrued deferred compensation in a lump sum or in installments upon retirement

Each participating officer may request that the deferred amounts be allocated among several available investment options established and offered by the Company. These investment options provide market rates of return and are not subsidized by the Company. The benefit payable under the plan at any time to a participant following termination of employment is equal to the applicable deferred amounts, plus or minus any earnings or losses attributable to the investment of such deferred amounts. The amount of compensation in any given fiscal year that is deferred by each Named Executive Officer is included in the Summary Compensation Table under the column headings “Salary” or “Non-Equity Incentive Plan Compensation”, as appropriate.

The Company has established a trust for the benefit of participants in the deferred compensation plan. Pursuant to the terms of the trust, as soon as possible after any deferred amounts have been withheld from a plan participant, the Company will contribute such deferred amounts to the trust to be held for the benefit of the participant in accordance with the terms of the plan and the trust.

Retirement payouts under the plan upon an executive officer’s retirement from the Company are payable either in a lump-sum payment or in annual installments over a period of up to ten years. Upon death, disability or termination of employment, all amounts shall be paid in a lump-sum payment as soon as administratively feasible.

In 2006, the Company made a \$100,000 contribution to Bradley MacDonald's deferred compensation plan as a performance bonus.

The Audit Committee has adopted a policy for the pre-approval of services provided by the independent auditors.

Under the policy, pre-approval is generally provided for work associated with the following:

- registration statements under the Securities Act of 1933 (for example, comfort letters or consents);

- due diligence work for potential acquisitions or dispositions;

- attest services not required by statute or regulation;
