Form 10-Q
November 10, 2011

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15 (d) or the Securities Exchange Act of 1934

For the quarterly period ended September 30, 2011

Or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

for the transition period from _____ to _____

Commission File No. 033-79130

CONSUMERS BANCORP, INC.
(Exact name of registrant as specified in its charter)

OHIO
(State or other jurisdiction
of incorporation or organization)

34-1771400
(I.R.S. Employer Identification No.)

614 East Lincoln Way, P.O. Box 256, Minerva, Ohio
(Address of principal executive offices)

44657
(Zip Code)

(330) 868-7701
(Registrant's telephone number)

Not applicable
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.05 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
Non-accelerated filer (Do not check if smaller reporting company)

Accelerated filer
Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common Stock, no par value

Outstanding at November 1, 2011
2,049,873 Common Shares

CONSUMERS BANCORP, INC.
Notes to the Consolidated Financial Statements
(Unaudited) (continued)

(Dollars in thousands, except per share amounts)

Note 1 – Summary of Significant Accounting Policies:

Nature of Operations: Consumers Bancorp, Inc. (the Corporation) is a bank holding company headquartered in Minerva, Ohio that provides, through its banking subsidiary, Consumers National Bank (the Bank), a broad array of products and services throughout its primary market area of Stark, Columbiana, Carroll and contiguous counties in Ohio. The Bank's business involves attracting deposits from businesses and individual customers and using such deposits to originate commercial, mortgage and consumer loans in its primary market area.

Basis of Presentation: The consolidated financial statements for interim periods are unaudited and reflect all adjustments (consisting of only normal recurring adjustments), which, in the opinion of management, are necessary to present fairly the financial position and results of operations and cash flows for the periods presented. The unaudited financial statements are presented in accordance with the requirements of Form 10-Q and do not include all disclosures normally required by accounting principles generally accepted in the United States of America. The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Corporation's Form 10-K for the year ended June 30, 2011. The results of operations for the interim period disclosed herein are not necessarily indicative of the results that may be expected for a full year.

The consolidated financial statements include the accounts of the Corporation and the Bank. All significant inter-company transactions and accounts have been eliminated in consolidation.

Segment Information: Consumers Bancorp, Inc. is a bank holding company engaged in the business of commercial and retail banking, which accounts for substantially all of the revenues, operating income, and assets. Accordingly, all of its operations are recorded in one segment, banking.

Earnings per Share: Earnings per common share are computed based on the weighted average common shares outstanding. The weighted average number of outstanding shares was 2,049,873 and 2,038,569 for the quarters ended September 30, 2011 and 2010, respectively. The weighted average number of outstanding diluted shares was 2,050,877 for the quarter ended September 30, 2011. There were no dilutive securities as of September 30, 2010.

Reclassifications: Certain items in prior financial statements have been reclassified to conform to the current presentation.

CONSUMERS BANCORP, INC.
Notes to the Consolidated Financial Statements
(Unaudited) (continued)

(Dollars in thousands, except per share amounts)

Management evaluates securities for other-than-temporary impairment (OTTI) on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. The securities portfolio is evaluated for OTTI by segregating the portfolio into two general segments and applying the appropriate OTTI model. Investment securities are generally evaluated for OTTI under FASB ASC Topic 320, Accounting for Certain Investments in Debt and Equity Securities. However, the trust preferred security is evaluated using the model outlined in FASB ASC Topic 325, Recognition of Interest Income and Impairment on Purchased Beneficial Interests and Beneficial Interests that Continue to be Held by a Transfer in Securitized Financial Assets.

In determining OTTI under the ASC Topic 320 model, management considers many factors, including: (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, (3) whether the market decline was affected by macroeconomic conditions, and (4) whether the entity has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The assessment of whether an other-than-temporary decline exists involves a high degree of subjectivity and judgment and is based on the information available to management at a point in time.

Unrealized losses on U.S. government-sponsored entities and agencies, obligations of state and political subdivisions, residential mortgage-backed securities and collateralized mortgage obligations have not been recognized into income because the decline in fair value is not attributed to credit quality, management does not intend to sell and it is likely that management will not be required to sell the securities prior to their anticipated recovery, and the decline in fair value is largely due to changes in interest rates and other market conditions. The fair value is expected to recover as the securities approach maturity.

Under the ASC Topic 325 model, the present value of the remaining cash flows as estimated at the preceding evaluation date are compared to the current expected remaining cash flows. An OTTI is deemed to have occurred if there has been an adverse change in the remaining expected future cash flows. The analysis of the trust preferred security falls within the scope of ASC Topic 325.

The Corporation owns a trust preferred security, which represents collateralized debt obligations (CDOs) issued by other financial and insurance companies. The security is part of a pool of issuers that support a more senior tranche of securities. Due to the illiquidity in the market, it is unlikely the Corporation would be able to recover its investment in this security if the Corporation sold the security at this time.

Due to an increase in principal and/or interest deferrals by the issuers of the underlying securities, the cash interest payments for the trust preferred security are being deferred. On September 30, 2011, the lowest credit rating on this security was Fitch's rating of C, which is defined as highly speculative. The issuers in this security are primarily banks, bank holding companies and a limited number of insurance companies. The investment security is evaluated using a model to compare the present value of expected cash flows to prior periods expected cash flows to determine if there has been an adverse change in cash flows during the period. The discount rate used to calculate the cash flows is the coupon rate of the security, based on the forward LIBOR curve. The OTTI model considers the structure and term of the CDO and the financial condition of the underlying issuers. Specifically, the model details interest rates, principal balances of note classes and underlying issuers, the timing and amount of interest and principal payments of the underlying issuers, and the allocation of the payments to the note classes. The current estimate of expected cash flows is based on the most recent trustee reports and any other relevant market information including announcements of

interest payment deferrals or defaults of underlying trust preferred securities. Assumptions used in the model include expected future default rates and prepayments. We assume no recoveries on defaults and all interest payment deferrals are treated as defaults with an assumed recovery rate of 15% on deferrals. In addition we use the model to “stress” the CDO, or make assumptions more severe than expected activity, to determine the degree to which assumptions could deteriorate before the CDO could no longer fully support repayment of the Corporation’s note class. According to the September 30, 2011 analysis, the expected cash flows were above the recorded amortized cost of the trust preferred security. The accumulated other-than-temporary impairment loss that has been recognized in earnings was \$780 at September 30, 2011 and June 30, 2011. If there is further deterioration in the underlying collateral of this security, other-than-temporary impairments may also occur in future periods.

| 1-4 Family residential: | | | | | | |
| Owner occupied | — | 167 | 23 | 190 | 34,438 | 34,628 |
| Non-owner occupied | — | 44 | 175 | 219 | 18,877 | 19,096 |
| Construction | — | — | — | — | 597 | 597 |
| Consumer | 26 | — | — | 26 | 5,842 | 5,868 |
| Total | \$ 26 | \$ 454 | \$ 610 | \$ 1,090 | \$ 176,933 | \$ 178,023 |

The above table of past due loans includes the recorded investment in non-accrual loans of \$410 in the 60 – 89 days past due category and \$740 in the loans not past due category.

Troubled Debt Restructurings:

The Corporation allocated \$279 and \$229 of specific reserves to customers whose loan terms have been modified in troubled debt restructurings as of September 30, 2011 and June 30, 2011. As of September 30, 2011 and June 30, 2011, the Corporation had not committed to lend any additional amounts to customers with outstanding loans that are classified as troubled debt restructurings.

CONSUMERS BANCORP, INC.
Notes to the Consolidated Financial Statements
(Unaudited) (continued)

(Dollars in thousands, except per share amounts)

During the period ending September 30, 2011, the terms of certain loans were modified as troubled debt restructurings. The modification of the terms of such loans included one or a combination of the following: a reduction of the stated interest rate of the loan; an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk; a permanent reduction of the recorded investment in the loan; or a temporary reduction in the payment amount to interest only.

Modifications involving a reduction of the stated interest rate of the loan were for periods ranging from 12 months to 6.5 years. Modifications involving an extension of the maturity date were for a period of 6.5 years.

The following table presents loans by class modified as troubled debt restructurings that occurred during the period ending September 30, 2011:

| | Number of Loans | Pre-Modification Outstanding Recorded Investment | Post-Modification Outstanding Recorded Investment |
|-------------------------------------|-----------------------|---|--|
| Troubled debt restructuring: | | | |
| 1 – 4 Family residential: | | | |
| Non-owner occupied | 7 | \$ 534 | \$ 466 |
| Total | 7 | \$ 534 | \$ 466 |

The troubled debt restructurings described above increased the allowance for loan losses by \$20 and resulted in charge offs of \$63 during the period ending September 30, 2011.

Credit Quality Indicators:

The Corporation categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Corporation analyzes loans individually by classifying the loans as to credit risk. This analysis includes loans with a total outstanding loan relationship greater than \$100 and non-homogeneous loans, such as commercial and commercial real estate loans. Management monitors the loans on an ongoing basis for any changes in the borrower's ability to service their debt and affirm the risk ratings for the loans and leases in their respective portfolio on an annual basis. The Corporation uses the following definitions for risk ratings:

CONSUMERS BANCORP, INC.
Notes to the Consolidated Financial Statements
(Unaudited) (continued)

(Dollars in thousands, except per share amounts)

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. Loans listed as not rated are either less than \$100 or are included in groups of homogeneous loans. Based on the most recent analysis performed, the recorded investment by risk category of loans by class of loans was as follows:

| | As of September 30, 2011 | | | | |
|-------------------------------------|--------------------------|--------------------|-------------|----------|--------------|
| | Pass | Special Mention | Substandard | Doubtful | Not Rated |
| Commercial | \$17,966 | \$775 | \$56 | \$77 | \$213 |

Note 4 - Fair Value

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability. Valuation techniques include use of discounted cash flow models and similar techniques.

The Corporation used the following methods and significant assumptions to estimate the fair value of items:

Securities: When available, the fair values of available-for-sale securities are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs). For securities where quoted market prices are not available, fair values are calculated based on market prices of similar securities (Level 2 inputs). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3 inputs). Discounted cash flows are calculated using spread to the swap and LIBOR curves. Rating agency and industry research reports as well as defaults and deferrals on individual securities are reviewed and incorporated into the calculations.

Impaired Loans: The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

CONSUMERS BANCORP, INC.
Notes to the Consolidated Financial Statements
(Unaudited) (continued)

(Dollars in thousands, except per share amounts)

Other Real Estate Owned: Nonrecurring adjustments to certain commercial and residential real estate properties classified as other real estate owned (OREO) are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third party appraisals of the property. These appraisals may use a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs in determining fair value.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

| | Balance at September 30, 2011 | Fair Value Measurements at September 30, 2011 Using | | |
|--|-------------------------------------|--|---------|---------|
| | | Level 1 | Level 2 | Level 3 |
| Assets: | | | | |
| U.S. government-sponsored entities and agencies | \$ 9,819 | \$— | \$9,819 | \$— |
| Obligations of states and political subdivisions | 26,209 | — | 26,209 | — |
| Mortgage-backed securities – residential | 42,722 | — | 42,722 | — |
| Collateralized mortgage obligations | 19,857 | — | 19,857 | — |
| Trust preferred security | 64 | — | — | 64 |

| | Balance at June 30, 2011 | Fair Value Measurements at June 30, 2011 Using | | |
|--|-----------------------------|---|----------|---------|
| | | Level 1 | Level 2 | Level 3 |
| Assets: | | | | |
| U.S. government-sponsored entities and agencies | \$ 16,260 | \$— | \$16,260 | \$— |
| Obligations of states and political subdivisions | 25,098 | — | 25,098 | — |
| Mortgage-backed securities - residential | 30,596 | — | 30,596 | — |
| Collateralized mortgage obligations | 19,868 | — | 19,868 | — |
| Trust preferred security | 67 | — | — | 67 |

The following table presents a reconciliation of the trust preferred security measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the three months ended September 30, 2011 and 2010:

| | 2011 | 2010 |
|---|------|-------|
| Beginning balance | \$67 | \$422 |
| Realized losses included in non-interest income | — | — |
| Change in fair value included in other comprehensive income | (3) | 19 |
| Ending balance, September 30 | \$64 | \$441 |

CONSUMERS BANCORP, INC.
Notes to the Consolidated Financial Statements
(Unaudited) (continued)

(Dollars in thousands, except per share amounts)

Assets and liabilities measured at fair value on a non-recurring basis are summarized below:

| | Balance at September 30, 2011 | Fair Value Measurements at September 30, 2011 Using | | |
|--------------------------------|-------------------------------------|--|---------|---------|
| | | Level 1 | Level 2 | Level 3 |
| Impaired loans: | | | | |
| Commercial | \$ 51 | \$— | \$— | \$51 |
| Commercial real estate: | | | | |
| Other | 654 | — | — | 654 |
| 1-4 Family | | | | |
| Owner occupied | 204 | — | — | 204 |
| Non-owner occupied | 705 | — | — | 705 |
| | | Fair Value Measurements at June 30, 2011 Using | | |
| | Balance at June 30, 2011 | Level 1 | Level 2 | Level 3 |
| Impaired loans: | | | | |
| Commercial | \$ 51 | \$— | \$— | \$51 |
| Commercial real estate: | | | | |
| Other | 871 | — | — | 871 |
| 1-4 Family | | | | |
| Owner occupied | 317 | — | — | 317 |
| Non-owner occupied | 434 | — | — | 434 |

Impaired loans, which are generally measured for impairment using the fair value of the collateral for collateral dependant loans, had a principal balance of \$1,980, with a valuation allowance of \$366 at September 30, 2011. As of June 30, 2011, impaired loans with a principal balance of \$2,105 had a valuation allowance of \$432. The resulting impact to the provision for loan losses was no additional provision for loan losses being recorded for the three month period ended September 30, 2011 and \$79 being recorded for the three month period ended September 30, 2010.

CONSUMERS BANCORP, INC.

Fair Value of Financial Instruments

The following table shows the estimated fair value at September 30, 2011 and June 30, 2011, and the related carrying value of financial instruments:

| | September 30, 2011 | | June 30, 2011 | |
|--|--------------------|----------------------------|--------------------|----------------------------|
| | Carrying Amount | Estimated Fair Value | Carrying Amount | Estimated Fair Value |
| Financial Assets: | | | | |
| Cash and cash equivalents | \$21,864 | \$21,864 | \$13,828 | \$13,828 |
| Certificates of deposits in other financial institutions | 3,675 | 3,675 | 4,900 | 4,900 |
| Securities available-for-sale | 98,671 | 98,671 | 91,889 | 91,889 |
| Loans, net | 177,814 | 177,582 | 175,450 | 174,182 |
| Accrued interest receivable | 1,023 | 1,023 | 980 | 980 |
| Financial Liabilities: | | | | |
| Demand and savings deposits | (173,080) | (173,080) | (159,302) | (159,302) |
| Time deposits | (89,274) | (90,388) | (88,944) | (89,725) |
| Short-term borrowings | (17,636) | (17,636) | (17,012) | (17,012) |
| Federal Home Loan Bank advances | (7,516) | (7,855) | (7,535) | (7,884) |
| Accrued interest payable | (74) | (74) | (82) | (82) |

For purposes of the above disclosures of estimated fair value, the following assumptions were used. Estimated fair value for cash and cash equivalents, certificates of deposits in other financial institutions, accrued interest receivable and payable, demand and savings deposits and short-term borrowings were considered to approximate carrying value for instruments that reprice frequently and fully. Fair value for loans was estimated for portfolios of loans with similar financial characteristics. For adjustable rate loans that reprice at least annually and for fixed rate commercial loans with maturities of six months or less which possess normal risk characteristics, carrying value was determined to be fair value. Fair value of other types of loans (including adjustable rate loans which reprice less frequently than annually and fixed rate term loans or loans which possess higher risk characteristics) was estimated by discounting future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for similar anticipated maturities. Fair value for impaired loans was based on recent appraisals of the collateral or, if appropriate, using estimated discounted cash flows. The Corporation has not considered market illiquidity in estimating the fair value of loans due to uncertain and inconsistent market pricing being experienced on September 30, 2011.

CONSUMERS BANCORP, INC.
Notes to the Consolidated Financial Statements
(Unaudited) (continued)

(Dollars in thousands, except per share amounts)

Fair value of core deposits, including demand deposits, savings accounts and certain money market deposits, was the amount payable on demand. Fair value of fixed-maturity certificates of deposit was estimated using the rates offered at September 30, 2011 and June 30, 2011, for deposits of similar remaining maturities. Estimated fair value does not include the benefit that result from low-cost funding provided by the deposit liabilities compared to the cost of borrowing funds in the market. Fair value of short-term borrowings and accrued interest was determined to be the carrying amounts since these financial instruments generally represent obligations that are due on demand. Fair value of Federal Home Loan Bank advances was estimated using current rates at September 30, 2011 and June 30, 2011 for similar financing.

Federal bank and other restricted stocks include stock acquired for regulatory purposes, such as Federal Home Loan Bank stock and Federal Reserve Bank stock that are accounted for at cost due to restrictions placed on their transferability; and therefore, are not subject to the fair value disclosure requirements. The fair value of unrecorded commitments at September 30, 2011 and June 30, 2011 was not material.

CONSUMERS BANCORP, INC.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in thousands, except per share data)

General

The following is management’s analysis of the Corporation’s results of operations for the three month period ended September 30, 2011, compared to the same period in 2010, and the consolidated balance sheet at September 30, 2011 compared to June 30, 2011. This discussion is designed to provide a more comprehensive review of the operating results and financial condition than could be obtained from an examination of the financial statements alone. This analysis should be read in conjunction with the consolidated financial statements and related footnotes and the selected financial data included elsewhere in this report.

Overview

Consumers Bancorp, Inc., a bank holding company incorporated under the laws of the State of Ohio (the Corporation), owns all of the issued and outstanding common shares of Consumers National Bank, a bank chartered under the laws of the United States of America (the Bank). The Corporation’s activities have been limited primarily to holding the common shares of the Bank. The Bank’s business involves attracting deposits from businesses and individual customers and using such deposits to originate commercial, mortgage and consumer loans in its market area, consisting primarily of Stark, Columbiana, Carroll and contiguous counties in Ohio. The Bank also invests in securities consisting primarily of U.S. government sponsored entities, municipal obligations, mortgage-backed and collateralized mortgage obligations issued by Fannie Mae and Freddie Mac.

Results of Operations

Three Months Ended September 30, 2011 and September 30, 2010

Net Income

Net income increased by \$54, or 8.5%, for the three month period ended September 30, 2011, as compared to the same period last year. The increase in net income was mainly attributable to an increase in net interest income mainly as a result of a decline in the cost of funds and an increase in non-interest income from the same period last year which were partially offset by an increase in non-interest expenses. Earnings per common share were \$0.34 for the three month period ended September 30, 2011, as compared to \$0.31 for the same period last year.

Return on average equity (ROE) and return on average assets (ROA) were 10.55% and 0.90%, respectively, for the first quarter of fiscal year 2012 compared to 10.38% and 0.93%, respectively, for the first quarter of fiscal year 2011.

(Dollars in thousands, except per share data)

Net Interest Income

Net interest income, the difference between interest income earned on interest-earning assets and interest expense incurred on interest-bearing liabilities, is the largest component of the Corporation's earnings. Net interest income is affected by changes in the volumes, rates and composition of interest-earning assets and interest-bearing liabilities. Net interest margin is calculated by dividing net interest income on a fully tax equivalent basis (FTE) by total average interest-earning assets. FTE income includes tax-exempt income, restated to a pre-tax equivalent, based on the statutory federal income tax rate. All average balances are daily average balances. Non-accruing loans are included in average loan balances.

The Corporation's net interest margin for the three months ended September 30, 2011 was 4.10%, compared to 4.34% for the same period a year ago. Net interest income for the three months ended September 30, 2011 increased by \$182, or 6.8%, to \$2,875 from \$2,693 for the same year ago period. The increase in net interest income was primarily the result of a decline in the Corporation's cost of funds and an increase of \$34,706, or 13.5%, in average interest-earning assets. The Corporation's cost of funds decreased to 0.75% for the three month period ended September 30, 2011 from 1.12% for the same year ago period mainly due to lower market rates affecting the rates paid on all interest-bearing deposit accounts and borrowings. These decreases were partially offset by a decline in the yield on average interest-earning assets to 4.65% for the three month period ended September 30, 2011 from 5.19% from the same year ago period.

Provision for Loan Losses

The provision for loan losses represents the charge to income necessary to adjust the allowance for loan losses to an amount that represents management's assessment of the estimated probable credit losses in the Bank's loan portfolio that have been incurred at each balance sheet date. For the three month period ended September 30, 2011, the provision for loan losses was \$92, a decrease of \$10 from the same three month period in the prior year.

Non-performing loans were \$2,019 as of September 30, 2011 and represented 1.12% of total loans. This compared with \$1,760, or 0.99%, at June 30, 2011 and \$2,804, or 1.61%, as of September 30, 2010. The allowance for loan losses to total non-performing loans at September 30, 2011 was 103.37% compared with 119.38% at June 30, 2011 and 84.06% at September 30, 2010. The allowance for loan losses as a percentage of loans decreased slightly from 1.18% at June 30, 2011 to 1.16% at September 30, 2011 due to a decrease in substandard graded loans.

Net charge-offs for the period ending September 30, 2011 were \$106, or 0.24% of total loans on an annualized basis, compared with \$21, or 0.05% of total loans, for the same period last year. For the three month period ended September 30, 2011, charge-offs of \$63 were related to a non-owner occupied 1-4 family residential loan that was modified as a troubled debt restructuring. The provision for loan losses as of September 30, 2011 was considered sufficient by management for maintaining an appropriate allowance for loan losses.

Non-Interest Income

Non-interest income totaled \$672 for the first quarter of fiscal year 2012, compared to \$606 for the same period last year. Adjusted for security gains, non-interest income totaled \$623 for the first quarter of fiscal year 2012, compared with \$589 for the same period last year.

Service charges on deposits increased by \$21, or 6.3%, during the first fiscal quarter of 2012 mainly due to an increase in overdraft fee income from the same period last year. Debit card interchange income increased by \$29, or 19.3%, during the first fiscal quarter of 2012 mainly due to an increase in debit card usage by our customers.

Net gains recognized on the sale of securities totaled \$49 during the first three months of fiscal year 2012 and \$17 during the same year ago period.

Non-Interest Expenses

Total non-interest expenses increased to \$2,562, or 8.4%, during the first quarter of fiscal year 2012, compared with \$2,364 during the same year ago period.

Salaries and employee benefits increased by \$149, or 12.7%, during the first quarter of fiscal year 2012 mainly due to staff hired for the branch location in Hartville, Ohio that opened during the fourth fiscal quarter of 2011, staff that was added in the lending function during the first fiscal quarter of 2011 and normal merit increases that went into effect on July 1, 2011.

CONSUMERS BANCORP, INC.
Management's Discussion and Analysis of Financial Condition
and Results of Operations (continued)

(Dollars in thousands, except per share data)

Debit card processing expenses increased by \$10, or 11.9%, during the first quarter of fiscal year 2012 mainly as a result of increased debit card usage by our customers.

Federal Deposit Insurance Corporation (FDIC) assessments decreased by \$28, or 35.9%, compared to the same period last year mainly due to an industry wide change in the way FDIC insurance assessments are calculated. On April 1, 2011, the deposit insurance assessment base changed from total domestic deposits to average total assets minus average tangible equity, pursuant to a rule issued by the FDIC as required by the Dodd-Frank Act.

Marketing and advertising expenses increased by \$39, to \$76 compared to the same period last year mainly due to an increase in marketing efforts as a result of the opening of the Hartville, Ohio branch location.

Other expenses increased by \$27, or 8.1%, during the first quarter of fiscal year 2012 mainly due to an increase in other real estate property expenses from properties that had been acquired through loan foreclosure and additional costs associated with the conversion to a new internet banking provider.

Income Taxes

Income tax expense for the three month period ended September 30, 2011 increased by \$6, to \$206 from \$200, compared to a year ago. The effective tax rate was 23.1% for the current quarter as compared to 24.0% for the same period last year.

The effective tax rate differed from the federal statutory rate principally as a result of tax-exempt income from obligations of states and political subdivisions, loans and earnings on bank owned life insurance.

Financial Condition

Total assets at September 30, 2011 were \$315,595 compared to \$300,140 at June 30, 2011, an increase of \$15,455, or an annualized 20.4%.

CONSUMERS BANCORP, INC.
Management's Discussion and Analysis of Financial Condition
and Results of Operations (continued)

(Dollars in thousands, except per share data)

Available-for-sale securities increased by \$6,782 from \$91,889 at June 30, 2011 to \$98,671 at September 30, 2011 due to the deployment of excess liquidity attributed to an increase in deposit balances. Within the securities portfolio, the Corporation owns a trust preferred security, which represents CDOs issued by other financial and insurance companies. As of September, 2011, the trust preferred security had an adjusted amortized cost of \$202 and a fair value of \$64. The security is part of a pool of issuers that support a more senior tranche of securities. Due to the illiquidity in the market, it is unlikely the Corporation would be able to recover its investment in this security if the Corporation sold the security at this time. Due to an increase in principal and/or interest deferrals by the issuers of the underlying securities, the cash interest payments for the trust preferred security are being deferred. On September 30, 2011, the lowest credit rating on this security was Fitch's rating of C, which is defined as highly speculative. The issuers in this security are primarily banks, bank holding companies and a limited number of insurance companies. The investment security is evaluated using a model to compare the present value of expected cash flows to prior periods expected cash flows to determine if there has been an adverse change in cash flows during the period. The discount rate used to calculate the cash flows is the coupon rate of the security, based on the forward LIBOR curve. The OTTI model considers the structure and term of the CDO and the financial condition of the underlying issuers. Specifically, the model details interest rates, principal balances of note classes and underlying issuers, the timing and amount of interest and principal payments of the underlying issuers, and the allocation of the payments to the note classes. The current estimate of expected cash flows is based on the most recent trustee reports and any other relevant market information including announcements of interest payment deferrals or defaults of underlying trust preferred securities. Assumptions used in the model include expected future default rates and prepayments. We assume no recoveries on defaults and all interest payment deferrals are treated as defaults with an assumed recovery rate of 15% on deferrals. In addition we use the model to "stress" the CDO, or make assumptions more severe than expected activity, to determine the degree to which assumptions could deteriorate before the CDO could no longer fully support repayment of the Corporation's note class. According to the September 30, 2011 analysis, the expected cash flows were above the recorded amortized cost of the trust preferred security. The accumulated other-than-temporary impairment loss recognized in earnings was \$780 at September 30, 2011 and June 30, 2011. If there is further deterioration in the underlying collateral of this security, other-than-temporary impairments may also occur in future periods.

Loan receivables increased by \$2,350 to \$179,901 at September 30, 2011 compared to \$177,551 at June 30, 2011. Total shareholders' equity increased by \$723 from June 30, 2011 to \$26,047 as of September 30, 2011. The increase was mainly due to net income for the current three month period and an increase in the fair value of available-for-sale securities offset by cash dividends paid during the period.

and Results of Operations (continued)

(Dollars in thousands, except per share data)

Non-Performing Assets

The following table presents the aggregate amounts of non-performing assets and respective ratios as of the dates indicated.

| | September 30, 2011 | June 30, 2011 | September 30, 2010 | | |
|---|-----------------------|------------------|-----------------------|---|-------|
| Non-accrual loans | \$ 2,019 | \$ 1,760 | \$ 2,804 | | |
| Loans past due over 90 days and still accruing | — | — | — | | |
| Total non-performing loans | 2,019 | 1,760 | 2,804 | | |
| Other real estate owned | 76 | 76 | 1 | | |
| Total non-performing assets | \$ 2,095 | \$ 1,836 | \$ 2,805 | | |
| Non-performing loans to total loans | 1.12 | % | 0.99 | % | 1.61 |
| Allowance for loan losses to total non-performing loans | 103.37 | % | 119.38 | % | 84.06 |

As of September 30, 2011, impaired loans totaled \$2,796, of which \$1,982 are included in non-accrual loans. Commercial and commercial real estate loans are classified as impaired if management determines that full collection of principal and interest, in accordance with the terms of the loan documents, is not probable. Impaired loans and non-performing loans have been considered in management's analysis of the appropriateness of the allowance for loan losses. Management and the Board of Directors are closely monitoring these loans and believe that the prospects for recovery of principal and interest, less identified specific reserves, are favorable.

Contractual Obligations, Commitments, Contingent Liabilities and Off-Balance Sheet Arrangements

Liquidity

The objective of liquidity management is to ensure adequate cash flows to accommodate the demands of our customers and provide adequate flexibility for the Corporation to take advantage of market opportunities under both normal operating conditions and under unpredictable circumstances of industry or market stress. Cash is used to fund loans, purchase investments, fund the maturity of liabilities, and at times to fund deposit outflows and operating activities. The Corporation's principal sources of funds are deposits; amortization and prepayments of loans; maturities, sales and principal receipts from securities; borrowings; and operations. Management considers the asset position of the Corporation to be sufficiently liquid to meet normal operating needs and conditions. The Corporation's earning assets are mainly comprised of loans and investment securities. Management continually strives to obtain the best mix of loans and investments to both maximize yield and insure the soundness of the portfolio, as well as to provide funding for loan demand as needed.

CONSUMERS BANCORP, INC.
Management's Discussion and Analysis of Financial Condition
and Results of Operations (continued)

(Dollars in thousands, except per share data)

Net cash inflow from operating activities for the three month period ended September 30, 2011 was \$1,407, net cash outflows from investing activities was \$7,858 and net cash inflows from financing activities was \$14,487. A major source of cash was \$10,611 from sales, maturities, calls or principal pay downs on available-for-sale securities and a \$14,108 increase in deposits. A major use of cash included the \$17,212 purchase of securities. Total cash and cash equivalents was \$21,864 as of September 30, 2011 compared to \$13,828 at June 30, 2011 and \$12,635 at September 30, 2010.

The Bank offers several types of deposit products to its customers. The rates offered by the Bank and the fees charged for them are competitive with others currently available in the market area. Total deposits increased by \$14,108, or 22.8% on an annualized basis, during the first three months of fiscal year 2012. Also, during the same period, the overall cost for funds decreased by 37 basis points from the same year ago period.

To provide an additional source of liquidity, the Corporation has entered into an agreement with the Federal Home Loan Bank (FHLB) of Cincinnati. At September 30, 2011, FHLB advances totaled \$7,516 as compared with \$7,535 at June 30, 2011. As of September 30, 2011, the Bank had the ability to borrow an additional \$19,290 from the FHLB based on a blanket pledge of qualifying first mortgage loans. The Corporation considers the FHLB to be a reliable source of liquidity funding, secondary to its deposit base.

Short-term borrowings consisted of repurchase agreements which is a financing arrangement that matures daily. The Bank pledges securities as collateral for the repurchase agreements. Short-term borrowings increased to \$17,636 at September 30, 2011 from \$17,012 at June 30, 2011.

Jumbo time deposits (those with balances of \$100 and over) increased from \$34,707 at June 30, 2011 to \$35,332 at September 30, 2011. These deposits are monitored closely by the Corporation and are mainly priced on an individual basis. When these deposits are from a municipality, certain bank-owned securities are pledged to guarantee the safety of these public fund deposits as required by Ohio law. The Corporation has the option to use a fee-paid broker to obtain deposits from outside its normal service area as an additional source of funding. The Corporation however, does not rely upon these deposits as a primary source of funding. Although management monitors interest rates on an ongoing basis, a quarterly rate sensitivity report is used to determine the effect of interest rate changes on the financial statements. In the opinion of management, enough assets or liabilities could be repriced over the near term (up to three years) to compensate for such changes. The spread on interest rates, or the difference between the average earning assets and the average interest-bearing liabilities, is monitored quarterly.

Capital Resources

The Bank is subject to various regulatory capital requirements administered by federal regulatory agencies. Capital adequacy guidelines and prompt corrective-action regulations involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Failure to meet various capital requirements can initiate regulatory action that could have a direct material effect on the Corporation's financial statements.

The Bank's leverage and risk-based capital ratios as of September 30, 2011 were 7.4% and 14.0%, respectively. This compares to leverage and risk-based capital ratios of 7.5% and 14.0%, respectively, as of June 30, 2011. The Bank exceeded minimum regulatory capital requirements to be considered well-capitalized for both periods. Management is not aware of any matters occurring subsequent to September 30, 2011 that would cause the Bank's capital category to change.

Critical Accounting Policies

The financial condition and results of operations for the Corporation presented in the Consolidated Financial Statements, accompanying notes to the Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations are, to a large degree, dependent upon the Corporation's accounting policies. The selection and application of these accounting policies involve judgments, estimates and uncertainties that are susceptible to change.

The Corporation has identified the appropriateness of the allowance for loan losses and the valuation of securities as critical accounting policies and an understanding of these policies are necessary to understand the financial statements. Critical accounting policies are those policies that require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Footnote one (Securities and Allowance for Loan Losses), footnote two (Securities), footnote three (Loans) and Management Discussion and Analysis of Financial Condition and Results from Operation (Critical Accounting Policies) of the 2011 Form 10-K provide detail with regard to the Corporation's accounting for the allowance for loan losses and valuation of securities and other-than-temporary impairment. There have been no significant changes in the application of accounting policies since June 30, 2011.

Forward-Looking Statements

When used in this report (including information incorporated by reference in this report), the words or phrases “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “project,” “believe” or similar expressions are intended to identify “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements may involve risks and uncertainties that are difficult to predict, may be beyond the Corporation’s control, and could cause actual results to differ materially from those described in such statements. Any such forward-looking statements are made only as of the date of this report or the respective dates of the relevant incorporated documents, as the case may be, and, except as required by law, the Corporation undertakes no obligation to update these forward-looking statements to reflect subsequent events or circumstances. Factors that could cause actual results for future periods to differ materially from those anticipated or projected include, but are not limited to:

- regional and national economic conditions becoming less favorable than expected, resulting in, among other things, a deterioration in credit quality of assets and the underlying value of collateral could prove to be less valuable than otherwise assumed;
 - the nature, extent, and timing of government and regulatory actions;
- material unforeseen changes in the financial condition or results of Consumers National Bank’s customers;
 - changes in levels of market interest rates which could reduce anticipated or actual margins;
 - competitive pressures on product pricing and services; and
- a continued deterioration in market conditions causing debtors to be unable to meet their obligations.

The risks and uncertainties identified above are not the only risks the Corporation faces. Additional risks and uncertainties not presently known to the Corporation or that the Corporation currently believes to be immaterial also may adversely affect the Corporation. Should any known or unknown risks and uncertainties develop into actual events, those developments could have material adverse effects on the Corporation’s business, financial condition and results of operations.

CONSUMERS BANCORP, INC.

Item 4 – Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by the report, an evaluation was performed under the supervision and with the participation of the Corporation's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures pursuant to Exchange Act Rule 13a- 15e. Based on the evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective.

Changes in Internal Controls Over Financial Reporting

There have not been any changes in the Corporation's internal control over financial reporting that occurred during the Corporation's last quarter that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.
