**Item 1.02 Termination of a Material Definitive Agreement.**

On August 8, 2014, Kraton Performance Polymers, Inc. (“Kraton”) received notice from LCY Chemical Corp. (“LCY”) that it had terminated, pursuant to the terms thereof, the previously announced Combination Agreement, dated as of January 28, 2014, between Kraton and two of its subsidiaries and LCY and certain of its subsidiaries (the “Combination Agreement”). The notice from LCY declared the termination effective as of August 8, 2014.

LCY cited the previously announced decision by Kraton’s board of directors to withdraw its recommendation to Kraton stockholders regarding the transactions contemplated by the Combination Agreement. The provisions of the Combination Agreement provide for Kraton to pay LCY a \$25 million termination fee upon a termination of the Combination Agreement following a withdrawal of the Kraton Board’s recommendation, unless a LCY material adverse effect has occurred and is continuing at the time of the withdrawal of the Kraton Board’s recommendation. In LCY’s notice terminating the Combination Agreement, LCY requested payment of such \$25 million termination fee. The Kraton Board believes that the impact upon LCY of the July 31, 2014 explosion in a gas pipeline in Kaohsiung, Taiwan constitutes a LCY material adverse effect as defined in the Combination Agreement, and Kraton does not believe it is required to pay LCY the termination fee.

On August 11, 2014, Kraton issued a press release regarding the termination of the Combination Agreement. A copy of the press release is furnished as Exhibit 99.1 hereto.

A summary of the material terms of the Combination Agreement and the transactions contemplated thereby can be found in Kraton’s Current Report on Form 8-K filed with the Securities and Exchange Commission on January 28, 2014. The summary therein does not purport to be complete and is subject to, and qualified in its entirety by, the full text of the Combination Agreement, a copy of which is filed as Exhibit 2.1 thereto.
