Item 2.06. Material Impairments.

In connection with the preparation of its financial statements for the quarter ended September 30, 2014, the Company determined that it would record impairment charges in an aggregate amount of approximately \$122.5 million. These impairment charges consist of approximately \$50.9 million for impairment of certain joint ventures due to recognized impairments in investments held in underperforming properties within the Company's HSRE joint ventures that are being held for sale, as well as an impairment of the Company's Montreal joint venture as these assets have meaningfully underperformed in their first year of operations resulting in the carrying value of the investment likely not being recoverable. The Company also recorded impairments of approximately \$29.8 million for pre-development projects that the Company has determined are no longer feasible upon exiting its construction and development business, approximately \$34.0 million associated with the adjustment to the Company’s ownership interests in the Copper Beech portfolio resulting from the Company’s decision not to exercise the first purchase option to acquire additional interests in the portfolio and approximately \$7.8 million for other various balance sheet items related to corporate infrastructure changes.
